## Notes:

(1) Security not registered under the Securities Act of 1933, as amended (the "Securities Act") (e.g., the security was purchased in a Rule 144A or a Regulation D transaction). The security may be resold only pursuant to an exemption from registration under the Securities Act, typically to qualified institutional buyers. The Fund generally has no rights to demand registration of such securities. The aggregate market value of these unregistered securities at December 31, 2010 was \$5,456,605 which represented 4.9% of the Fund's net assets.

(2) Non-income producing security.

(3) Contingent payment debt instrument which accrues contingent interest.

(4) Security is in default.

(5) Investment is valued at fair value as determined in good faith pursuant to procedures adopted by the Board of Trustees. It is possible that the estimated value may differ significantly from the amount that might ultimately be realized in the near term, and the difference could be material. The fair value of these securities amounted to \$1,687,100 at December 31, 2010, which represented 1.5% of the Fund's net assets.

(6) Restricted securities include securities that have not been registered under the Securities Act and securities that are subject to restrictions on resale. The Fund may invest in restricted securities that are consistent with the Fund's investment objective and investment strategies. As of December 31, 2010, the Fund was invested in the following restricted securities:

Amerivon Holdings LLC units containing series A cv. pfd. shares and common equity units, acquired April 1, 2010.

(7) Mandatory Convertible Securities are required to be converted on the dates listed; they generally may be converted prior to these dates at the option of the holder.

Investment Abbreviations:

ACES - Automatic Common Exchange Securities.

ADR - American Depositary Receipts.

ADS - American Depositary Shares.

Ellsworth Fund Ltd. (the Fund ), is registered under the Investment Company Act of 1940, as amended, (the Act ) as a diversified, closed-end management investment company.

**Security Valuation** - Investments in securities traded on a national securities exchange are valued at market using the last reported sales price, supplied by an independent pricing service, as of the close of regular trading. Listed securities, for which no sales were reported, are valued at the mean between closing reported bid and asked prices as of the close of regular trading. Unlisted securities traded in the over-the-counter market are valued using an evaluated quote provided by the independent pricing service, or, if an evaluated quote is unavailable, such securities are valued using prices received from dealers, provided that if the dealer supplies both bid and asked prices, the price to be used is the mean of the bid and asked prices. The independent pricing service derives an evaluated quote by obtaining dealer quotes, analyzing the listed markets, reviewing trade execution data, evaluating the price of the underlying common stock and employing sensitivity analysis. Evaluated quotes may also reflect appropriate factors such as individual characteristics of the issue, broker/dealer quotes, and additional inputs such as benchmark yields, reported trades, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data. Securities for which quotations are not readily available, restricted securities and other assets are valued at fair value as determined in good faith pursuant to procedures approved by the Board of Trustees. Short-term debt securities with original maturities of 60 days or less are valued at amortized cost.

The Fund has adopted authoritative fair valuation accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 - Quoted unadjusted prices for identical instruments in active markets.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-driven valuation in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers, and those received from an independent pricing service.

Level 3 - Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price an asset or liability based on the best available information.

The following is a summary of the inputs used to value the net assets of the Fund as of December 31, 2010:

Edgar Filing: ELLSWORTH FUND LTD - Form N-Q

	Level 1	Level 2	Level 3
Investments in Securities:			
Convertible Bonds and Notes	\$ ---	\$ 72,287,417	\$ 930,308
Convertible Preferred Stocks	---	15,144,998	756,792
Mandatory Convertible Securities	---	13,639,621	---
Corporate Bonds and Notes	---	426,500	---
Common Stock	\$7,764,233	---	---
<b>Total Investments</b>	<b>\$7,764,233</b>	<b>\$101,498,536</b>	<b>\$1,687,100</b>

The following is a reconciliation of assets for which level 3 inputs were used in determining value:

---

	Convertible Bonds and Notes	Corporate Bonds and Notes	Convertible Preferred Stocks	Total
Beginning balance	\$ ---	\$ ---	\$750,000	\$750,000
Change in unrealized appreciation (depreciation)	---	---	---	---
Net transfers in/out of level 3	930,308	---	6,792	937,100
Ending balance	\$930,308	\$ ---	\$756,792	\$1,687,100

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of the markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

In January 2010, the FASB issued Accounting Standards Update Improving Disclosures about Fair Value Measurements (ASU ). The ASU requires enhanced disclosures about a) transfers into and out of Levels 1 and 2, and

b) purchases, sales, issuances, and settlements on a gross basis relating to Level 3 measurements. The first disclosure is effective for the first reporting period beginning after December 15, 2009, and for interim periods within those fiscal years. There were no significant transfers into and out of Levels 1 and 2 during the current period presented. The second disclosure will become effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Management is currently evaluating the impact this disclosure may have on the Fund's financial statements.

**Securities Transactions and Related Investment Income** - Security transactions are accounted for on the trade date (date the order to buy or sell is executed) with gain or loss on the sale of securities being determined based upon identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis, including accretion of discounts and amortization of non-equity premium. For certain securities, known as contingent payment debt instruments, Federal tax regulations require the Fund to record non-cash, contingent interest income in addition to interest income actually received. Contingent interest income amounted to approximately 1 cent per share for the three months ended December 31, 2010. In addition, Federal tax regulations require the Fund to reclassify realized gains on contingent payment debt instruments to interest income. At December 31, 2010, there were unrealized losses of approximately 2 cents per share on contingent payment debt instruments.

**Federal Income Tax Cost** - At December 31, 2010, the cost basis of investments for federal income tax purposes, as well as the gross unrealized appreciation from investments for those securities having an excess of value over cost, gross unrealized depreciation from investments for those securities having an excess of cost over value and the net unrealized appreciation from investments were \$103,711,506, \$12,411,617, \$(5,173,255) and \$7,238,362, respectively.

## ITEM 2. CONTROLS AND PROCEDURES.

Conclusions of principal officers concerning controls and procedures.

(a) The Fund's principal executive officer and principal financial officer have concluded that the Fund's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Act (17 CFR 270.30a-3(c))) are effective as of March 1, 2011 based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 17 CFR 240.15d-15(b)).

---

(b) There have been no changes in the Fund's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d))) that occurred during the Fund's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Fund's internal control over financial reporting.

ITEM 3. EXHIBITS.

Certifications of the principal executive officer and the principal financial officer of the Fund, as required by Rule 30a-2(a) under the Act (17 CFR 270.30a-2(a)), are filed herewith.
