3. MANAGEMENT DISCUSSION AND ANALYSIS

3.1 BRIEF ANALYSIS OF THE COMPANY'S OVERALL OPERATIONAL ACTIVITIES DURING THE REPORTING PERIOD

During the reporting period, the domestic aviation market sustained the continuing contraction trend from the fourth quarter of 2004, until mid-March of 2005 when the demand in the PRC civil aviation market gradually increased. The sustained high fuel price, which might climb even higher, contributed to the high jet fuel costs borne by the Company. The Shareholders of the Company approved the purchase by the Company of the airline and airline business and assets of China Northern Airlines Company and Xinjiang Airlines Company which took effect on 31 December 2004. Five branch offices in Northern China, Xinjiang, Dalian, Changchun and Harbin were set up, thereby the operating scales of the Company were further expanded. The Company's total traffic volume was 1,566 million tonne-kilometers, representing a growth of 50% over the same period of last year; passengers carried were 9.46 million, representing an increase of 48% from the same period last year; cargo and mail traffic amounted to 160,000 tonne, representing an increase of 28% from the same period last year; passenger load factor was 67%, representing an increase of 2.6% from the same period last year. Meanwhile, the revenues and profits from our principal operations were RMB8,266 million which is an increase of 58% from the same period last year, and RMB768 million which is a decrease of 27% from the same period last year respectively. The decrease in profits from principal operations was mainly due to the combined effect of a 91% increase of jet fuel costs as compared to the same period last year, and the waiver of the levies of CAAC Infrastructure Development Fund in the same period of last year. As a result, the net loss for the first quarter of this year was RMB285 million.

3.1.1 Principal operations or products representing more than 10% of the income or profit from the Company's principal operations

PRINCIPLE OPERATION (BY BUSINESS OR PRODUCT)	INCOME (RMB'million)	COSTS (RMB'million)
Income from passenger transportation	7,521	
Income from cargo and mail transportation	684	
Others	61	
Total	8,266	7,266
