**II. BUSINESS****1. Business Summary****A. Industry Status****(1) Characteristics of the Industry**

As of September 30, 2008, the number of domestic mobile phone subscribers reached approximately 45.3 million and with a 93.2% penetration rate, and the Korean mobile communication market can be considered to have reached its maturation stage. However, considering the number of European countries with penetration rates exceeding 90%, additional future growth of the domestic market may be possible.

The Korean mobile communications market continues to improve with the help of advances in network-related technology evidenced by the world's first commercialization of CDMA2000 1x, CDMA 1x EV-DO, and the development of highly advanced handsets that enables the provision of convergence services for multimedia contents, mobile commerce, telematics, satellite DMB, digital home services and other related contents.

	Total	45,275	43,498	40,197	38,342	36,586

(Data: Ministry of Information and Communication website)

**(3) Market Characteristics**

The Korean mobile communication market includes the entire population of Korea with mobile communication service needs, and almost every Korean is considered a potential user. Korea's mobile communication market penetration continues to grow, reflecting increased usage of mobile communications services by elementary school and pre-school children. Although demand has primarily been in the domestic market, as the business territory expands to overseas market, the size of overseas sales is expected to grow in the near future. Seasonal and economic fluctuations have much less impact on the Korean mobile communication market compared to other industries.

**Independent Accountants' Review Report**

English Translation of a Report Originally Issued in Korean

To the Stockholders and Board of Directors of

SK Telecom Co., Ltd.

We have reviewed the accompanying non-consolidated balance sheet of SK Telecom Co., Ltd. (the Company) as of September 30, 2008, the related non-consolidated statements of income for the three months and nine months ended September 30, 2008 and 2007, and non-consolidated statements of changes in stockholders' equity and cash flows for nine months ended September 30, 2008 and 2007, all expressed in Korean won. These financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these financial statements based on our reviews.

We conducted our reviews in accordance with standards for review of interim financial statements in the Republic of Korea. Those standards require that we plan and perform the review to obtain moderate assurance as to whether the non-consolidated financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data, and this provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our reviews, nothing has come to our attention that causes us to believe that the financial statements referred to above are not presented fairly, in all material respects, in conformity with accounting principles generally accepted in the Republic of Korea.

We have previously audited, in accordance with auditing standards generally accepted in the Republic of Korea, the non-consolidated balance sheet of the Company as of December 31, 2007, and the related non-consolidated statements of income, appropriations of retained earnings, changes in stockholders' equity and cash flows for the year then ended (not presented herein); and in our report dated January 31, 2008, we expressed an unqualified opinion on those non-consolidated financial statements. The accompanying balance sheet as of December 31, 2007, which is comparatively presented, does not differ in material respects from such audited non-consolidated balance sheet, except for the effects of the adjustments described in Note 2 (b) to the non-consolidated financial statements.

Our reviews also comprehended the translation of the Korean won amounts into U.S. dollar amounts and nothing has come to our attention that causes us to believe that such translation has not been made in conformity with the basis stated in Note 2(a). Such U.S. dollar amounts are presented solely for the convenience of readers of financial statements.

Accounting principles and review standards and their application in practice vary among countries. The accompanying financial statements are not intended to present the financial position, results of operations, changes in shareholders equity and cash flows in accordance with accounting principles and practices generally accepted in countries other than the Republic of Korea. In addition, the procedures and practices utilized in the Republic of Korea to review such financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying financial statements are for use by those knowledgeable about Korean accounting procedures and review standards and their application in practice.

**Notice to Readers**

This report is effective as of October 24, 2008, the accountants' review report date. Certain subsequent events or circumstances may have occurred between the accountants' review report date and the time the accountants' review report is read. Such events or circumstances could significantly affect the accompanying financial statements and may result in modification to the accountants' review report.

**SK TELECOM CO., LTD.**  
**NOTES TO NON-CONSOLIDATED FINANCIAL STATEMENTS**

**FOR THE THREE MONTHS AND NINE MONTHS ENDED SEPTEMBER 30, 2008 AND 2007**

**1. GENERAL**

SK Telecom Co., Ltd. (the Company) was incorporated in March 1984 under the laws of Korea to engage in providing nationwide cellular telephone communication services in the Republic of Korea. The Company's common shares and depositary receipts (DRs) are listed on the Stock Market of Korea Exchange (formerly Korea Stock Exchange) and the New York and London Stock Exchanges, respectively. As of September 30, 2008, the Company's total issued shares are held by the following:

	Number of shares	Percentage of total shares issued (%)
SK Group	18,748,452	23.09
POSCO Corp.	2,341,569	2.88
Institutional investors and other minority shareholders	51,702,982	63.68
Treasury stock	8,400,708	10.35
	81,193,711	100.00

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The non-consolidated financial statements of the Company have been prepared in conformity with accounting principles generally accepted in the Republic of Korea, using the same accounting policies which were adopted in preparing the annual financial statements with the exception of item 2b below.

## a. Basis of Presentation

The Company maintains its official accounting records in Korean won and prepares statutory non-consolidated financial statements in Korean language (Hangul) in conformity with the accounting principles generally accepted in the Republic of Korea (Korean GAAP). Certain accounting principles applied by the Company that conform with financial accounting standards and accounting principles in the Republic of Korea may not conform with accounting principles generally accepted in other countries. Accordingly, these financial statements are intended for use by those who are informed about Korean accounting principles and practices. The accompanying financial statements have been condensed, restructured and translated into English with certain expanded descriptions from the Korean language financial statements. Certain information included in the Korean language financial statements, but not required for a fair presentation of the Company's financial position, results of operations, changes in stockholders' equity or cash flows, is not presented in the accompanying financial statements.

The accompanying financial statements are stated in Korean won, the currency of the country in which the Company is incorporated and operates. The translation of Korean won amounts into U.S. dollar amounts is included solely for the convenience of readers of financial statements and has been made at the rate of ₩1,206.30 to US\$1.00, the Noon Buying Rate in the City of New York for cable transfers in Korean won as certified for customs purposes by the Federal Reserve Bank of New York on the last business day of the period ended September 30, 2008. Such translations into U.S. dollars should not be construed as representations that the Korean won amounts could be converted into U.S. dollars at that, or any other rate.

b. Adoption of Amended Statements of Korea Accounting Standards ( SKAS )

The amended SKAS No. 15 Investments in Associates which is effective January 1, 2008, clarifies that parent company share of net income and net assets of investments in associates in the non-consolidated financial statements is required to agree to the parent's proportional shares in the consolidated financial statements except in the case that the application of equity method to the subsidiaries is suspended when the carrying amount of the equity securities of subsidiaries is below zero.

In accordance with the adoption of the amended SKAS No. 15 Investments in Associates, the difference between the additional investments and the Company's proportional shares of the investee's net assets when the ownership increases (decreases) by additional acquisition (disposal) without losing the control over the subsidiaries is recorded as capital surplus, which had been recorded as accumulated other comprehensive income (loss) through end of 2007.

In addition, the amended SKAS No.15 Investment in Associates is applied retroactively. Therefore, the 2007 financial statements presented comparatively are restated, which results in the decrease in equity securities accounted for using the equity method, capital surplus, other comprehensive income of affiliates and other comprehensive loss of affiliates as of December 31, 2007 by ₩10,539 million, ₩15,432 million, ₩7,824 million and ₩12,717 million, respectively.

c. Inventories

Inventories, which consist mainly of replacement units for wireless telecommunication facilities, supplies for sales promotion and merchandise for e-commerce business are stated at the lower of cost or market value, with cost determined using the moving average method. The Company maintains a perpetual inventory system, which is adjusted to physical inventory counts performed at year end. When the market value of inventories is less than the acquisition cost, the carrying amount is reduced to the market value and any difference is charged to current operations as operating expenses. There was no such loss for the three months and nine months ended September 30, 2008 and 2007. The Company did not perform physical inventory count on September 30, 2008.

d. Handset Subsidies

Effective April 1, 2008, the Telecommunication Business Act was revised to allow wireless carriers to provide handset subsidies to customers without any restrictions. As a result, the Company provides lump-sum handset subsidies to customers who agree to use the Company's service for the predetermined service period and the subsidies are charged to commission paid as the related payments are made. In case where the customers agree to use the Company's service for the predetermined service period and purchase handsets on installment basis, the subsidies are paid every month over the installment period and the Company provides provision for handset subsidies estimated to be paid based on the historical experience (See Note 23).

e. Valuation of Long-term Accounts Receivable Other

Long-term accounts receivable are stated at the present value of the expected future cash flows. Imputed interest amounts are recorded in present value discount accounts which are deducted directly from the related nominal receivable balances. Such imputed interest is included in operations using the effective interest rate method over the redemption period.

## e. Long-term Accounts Receivable Other

With its application for a license to provide IMT 2000 service, the Company has a commitment to pay ₩1,300,000 million to the Ministry of Information Communication ( MIC → ₩650,000 million was paid in March 2001 by SK IMT Co., Ltd. (a former subsidiary of the Company), which was merged into the Company on May 1, 2003, and the remainder is required to be paid over 10 years with an annual interest rate equal to the 3-year-maturity government bond rate minus 0.75% (4.83% as of September 30, 2008). On March 20, 2008, ₩110,000 million was paid and the future payment obligations are ₩130,000 million in 2009, ₩150,000 million in 2010 and ₩170,000 million in 2011. On December 4, 2001, SK IMT Co., Ltd. received the IMT 2000 license from MIC, and recorded the total license cost (measured at present value) as an intangible asset. As a result of the merger with SK IMT Co., Ltd., the Company acquired such IMT license of ₩1,259,253 million and assumed the related long-term payable with principal amount of ₩650,000 million on May 1, 2003 (the date of merger). Amortization of the IMT license commenced when the Company started its commercial IMT 2000 service in December 2003, using the straight-line method over the estimated useful life of the IMT license which expires in December 2016. September 30, 2008, the present value discount related to the current portion and long-term portion of payments to be made to MIC totaled ₩1,742 million and ₩17,467 million, respectively.

As the Company's ownership in such investees increased to more than 20% and the Company can exercise significant influence, the investment in common stock of SK Broadband Co., Ltd. was reclassified to equity securities accounted for using the equity method from available-for-sale

equity securities.

**Table of Contents**

(Note b) In accordance with the resolution of the Company's board of directors on August 20, 2007, convertible bonds of China Unicom Ltd. were converted into common stock and reclassified to available-for sale equity securities from available-for-sale debt securities.

(Note c) The Company recorded its investments in common stock of LG Powercomm Co., Ltd. at its fair value, which was estimated by assistance of an outside professional valuation company using the present value of expected future cash flows and the unrealized loss on valuation of investments amounting to ₩122,311 million (net of tax effect of ₩46,394 million) and ₩109,345 million (net of tax effect of ₩41,476 million) as of September 30,

2008 and  
December 31,  
2007,  
respectively, were  
recorded as  
accumulated  
other

- (Note a) Investments were recorded using the equity method of accounting based on unaudited and unreviewed financial statements as of and for the nine months ended September 30, 2008. In order to verify the reliability of such unaudited and unreviewed financial statements, the Company has performed the following procedures and found no significant errors:
- i) obtained the signature from the chief executive officer of the equity method investee asserting that the unaudited and unreviewed financial statements are accurate
  - ii) checked whether the major transactions identified by the Company, including public disclosures, were appropriately reflected in the unaudited and unreviewed financial statements
  - iii) performed an analytical review on the unaudited and unreviewed financial statements
- (Note b) Investments in equity securities are carried using the equity method of accounting based on the financial statements as of December 31, 2007 as information as of September 30, 2008 was not available and the change in the Company's portion of stockholders' equity of the investee for the nine months ended September 30, 2008 was immaterial.
- (Note c) The Company received dividends from SK Telink Co., Ltd. and Paxnet Co., Ltd., which were deducted from the carrying amount of equity method securities.
- (Note d) Other increase in investments in SK Broadband Co., Ltd. (formerly hanarotelecom incorporated) represents the reclassification from available-for-sale securities to equity securities accounted for using the equity method.
- (Note e) Other increase (decrease) in investments in Commerce Planet Co., Ltd. (Baba Club) resulted from the merger of Baba Club into Commerce Planet Co., Ltd.
- (Note f) Other decrease in investments in Centurion IT Investment Association represents the collection of the Company's investment from the full liquidation of Centurion IT Investment Association.
- (Note g) Other decrease in investments in equity securities of SK Mobile represent disposal.
- (Note h) The increase (decrease) of capital surplus of TU Media Corp., SKT Vietnam PTE Ltd., SK Telecom USA Holdings, Inc., Helio, Inc. and Cyworld China Holdings resulted from the difference between the changed amount of investments and net assets proportional to the Company's equity ratio as a result of the change in the Company's ownership percentage of the investees.

All of the above bonds will be paid in full at maturity.

On May 27, 2004, the Company issued zero coupon convertible bonds with a maturity of five years in the principal amount of US\$329,450,000 for US\$324,923,469, with an initial conversion price of ₩235,625 per share of the Company's common stock, which was greater than market value at the date of issuance. Subsequently, the initial conversion price was changed to ₩203,516 per share in accordance with anti-dilution protection. The Company may redeem the principal amount after 3 years from the issuance date if the market price exceeds 130% of the conversion price during a predetermined period. On the other hand, the bond holders may redeem their notes at 103.81% of the principal amount on May 27, 2007 (3 years from the issuance date). The conversion right may be exercised during the period from July 7, 2004 to May 13, 2009 and the number of common shares to be converted

as of September 30, 2008 is 1,324,744 shares. Effective June 30, 2008, the conversion price was changed from ~~₩204,636~~ to ~~₩203,516~~ and the number of shares to be converted was changed from 1,317,494 shares to 1,324,744 shares due to the payment of annual dividends in accordance with the resolution of the Company's board of directors on July 18, 2008.

**Table of Contents**

Conversion of notes to common shares may be prohibited under the Telecommunications Law or other legal restrictions which restrains foreign governments, individuals and entities from owning more than 49% of the Company's voting stock, if this 49% ownership limitation is violated due to the exercise of conversion rights. In this case, the Company will pay a bond holder as cash settlement determined at the average price of one day after a holder exercises its conversion right or the weighted average price for the following five business days. The Company intends to sell treasury shares held in trust by the Company that corresponds to the number of shares of common stock that would have been delivered in the absence of the 49% foreign shareholding restrictions. The Company entered into an agreement with Credit Suisse First Boston International to reduce the effect of fluctuation with respect to cash settlement payments that may be more or less than the proceeds from sales of treasury shares held in trust. Unless either previously redeemed or converted, the notes are redeemable at 106.43% of the principal amount at maturity.

During the nine months ended September 30, 2008, no conversion was made. During the year ended December 31, 2007, the conversion rights for the convertible bond with a principal amount of US\$75,080,000 were exercised. The Company paid ₩42,962 million in cash to bond holders with a principal amount of US\$36,260,000 without delivering the Company's common stocks due to the 49% ownership limitation as explained above and the convertible bonds with a principal amount of US\$38,820,000 were converted into 216,347 shares of treasury stock (See Note 15). Therefore, the principal amount of the convertible bonds decreased from US\$304,240,000 to US\$229,160,000. In addition, the consideration for conversion right (capital surplus) decreased by ₩11,116 million (net of tax effect of ₩4,216 million).

Reserve for technology development	800,000	
Total	₩ 8,295,037	₩ 7,335,037

a. Legal Reserve

The Korean Commercial Code requires the Company to appropriate as a legal reserve at least 10% of cash dividends for each accounting period until the reserve equals 50% of outstanding capital stock. The legal reserve may not be utilized for cash dividends, but may only be used to offset a future deficit, if any, or may be transferred to capital stock.

b. Reserve for Improvement of Financial Structure

The Financial Control Regulation for listed companies in Korea requires that at least 10% of net income (net of accumulated deficit), and an amount equal to net gain (net of related income taxes, if any) on the disposal of property and equipment be appropriated as a reserve for improvement of financial structure until the ratio of stockholders' equity to total assets reaches 30%. However, this regulation was abolished during the year ended December 31, 2007 and no such requirement exists as of September 30, 2008.

c. Reserve for Loss on Disposal of Treasury Stock and Research and Manpower Development

Reserves for loss on disposal of treasury stock and research and manpower development were appropriated in order to recognize certain tax deductible benefits through the early recognition of future expenditures for tax purposes. These reserves will be reversed from appropriated retained earnings in accordance with the relevant tax laws. Such reversal will be included in taxable income in the year of reversal.

d. Reserve for Business Expansion and Technology Development

The reserve for business expansion and technology and development are voluntary and were approved by the board of directors and stockholders.
