## Consolidated Financial Results

for the Second Quarter Ended September 30, 2013

Tokyo, October 31, 2013 -- Sony Corporation today announced its consolidated financial results for the second quarter ended September 30, 2013 (July 1, 2013 to September 30, 2013).

(Billions of yen, millions of U.S. dollars, except per share amounts)					
	2012	2013	Second quarter ended September 30		2013*
			Change in yen	%	
Sales and operating revenue	¥ 1,604.7	¥ 1,775.5	+10.6		\$ 18,117
Operating income	30.3	14.8	-51.2		151
Income before income taxes	19.7	6.0	-69.6		61
Net loss attributable to Sony Corporation's stockholders	(15.5 )	(19.3 )	-		(197 )
Net loss attributable to Sony Corporation's stockholders per share of common stock:					
- Basic	¥ (15.41 )	¥ (18.91 )	-		\$ (0.19 )
- Diluted	(15.41 )	(18.91 )	-		(0.19 )

\* U.S. dollar amounts have been translated from yen, for convenience only, at the rate of 98 yen = 1 U.S. dollar, the approximate Tokyo foreign exchange market rate as of September 30, 2013.

All amounts are presented on the basis of Generally Accepted Accounting Principles in the U.S. ("U.S. GAAP").

The average foreign exchange rates during the quarters ended September 30, 2012 and 2013 are presented below.

	2012	2013	Second quarter ended September 30		
The average rate of yen			Change		
1 U.S. dollar	¥ 78.6	¥ 98.9	20.5	%	(yen depreciation)
1 Euro	98.4	131.1	24.9		(yen depreciation)

## Consolidated Results for the Second Quarter Ended September 30, 2013

Sales and operating revenue ("sales") were 1,775.5 billion yen (18,117 million U.S. dollars), an increase of 10.6% compared to the same period of the previous fiscal year ("year-on-year"). This increase was primarily due to the favorable impact of foreign exchange rates and a significant increase in sales of smartphones, partially offset by the

absence of sales from the chemical products related business which was sold in September 2012, as well as a decrease in sales of video cameras and compact digital cameras. On a constant currency basis, sales decreased 9% year-on-year. For further details about sales on a constant currency basis, see Note on page 9.

Operating income decreased 15.5 billion yen year-on-year to 14.8 billion yen (151 million U.S. dollars). This significant decrease was primarily due to a significant decline in operating results in the Pictures segment, partially offset by a significant improvement in the Mobile Products & Communications ("MP&C") segment, reflecting strong smartphone sales, and the favorable impact of foreign exchange rates.

Operating income during the current quarter includes a gain of 12.8 billion yen (131 million U.S. dollars) from the sale of certain shares of M3, Inc. ("M3") in All Other. The current quarter's results include a net benefit of 4.8 billion yen (49 million U.S. dollars) from insurance recoveries related to damages and losses incurred from the floods in Thailand in the fiscal year ended March 31, 2012 (the "Floods"). In the same quarter of the previous fiscal year, a net benefit of 13.2 billion yen from the above-mentioned insurance recoveries, and a gain of 8.2 billion yen from the sale of the chemical products related business were recorded.

During the current quarter, restructuring charges, net, decreased 3.7 billion yen year-on-year to 7.8 billion yen (80 million U.S. dollars).

Equity in net loss of affiliated companies, recorded within operating income, decreased 1.1 billion yen year-on-year to 2.0 billion yen (21 million U.S. dollars).

The net effect of other income and expenses was an expense of 8.8 billion yen (90 million U.S. dollars), an improvement of 1.8 billion yen year-on-year.

Income before income taxes decreased 13.7 billion yen year-on-year to 6.0 billion yen (61 million U.S. dollars).

Income taxes: During the current quarter, Sony recorded 11.6 billion yen (119 million U.S. dollars) of income tax expense. As of March 31, 2013, Sony had established a valuation allowance against certain deferred tax assets for Sony Corporation and its national tax filing group in Japan, the consolidated tax filing group in the U.S., and certain other subsidiaries. During the current fiscal year, certain of these tax filing groups and subsidiaries incurred losses, and as a result Sony continued to not recognize the associated tax benefits. As a result, Sony's effective tax rate for the current quarter exceeded the Japanese statutory tax rate.

Net loss attributable to Sony Corporation's stockholders, which excludes net income attributable to noncontrolling interests, increased 3.8 billion yen year-on-year to 19.3 billion yen (197 million U.S. dollars).

#### Operating Performance Highlights by Business Segment

"Sales and operating revenue" in each business segment represents sales and operating revenue recorded before intersegment transactions are eliminated. "Operating income (loss)" in each business segment represents operating income (loss) reported before intersegment transactions are eliminated and excludes unallocated corporate expenses.

#### Imaging Products & Solutions (IP&S)

(Billions of yen, millions of U.S. dollars)					
Second quarter ended September 30					
	2012		2013	Change in yen	2013
Sales and operating revenue	¥ 188.6	¥	175.5	-6.9%	\$ 1,791
Operating income (loss)	2.2		(2.3)	-	(24)

The IP&S segment includes the Digital Imaging Products and Professional Solutions categories. Digital Imaging Products includes compact digital cameras, video cameras and interchangeable single-lens cameras; Professional Solutions includes broadcast- and professional-use products. Due to certain changes in the organizational structure, sales and operating revenue and operating income (loss) of the IP&S segment of the comparable period have been restated to conform to the current presentation.

Sales decreased 6.9% year-on-year (a 24% decrease on a constant currency basis) to 175.5 billion yen (1,791 million U.S. dollars). This decrease was primarily due to a significant decrease in unit sales of video cameras and compact digital cameras reflecting a contraction of these markets, partially offset by the favorable impact of foreign exchange rates during the current quarter.

Operating loss of 2.3 billion yen (24 million U.S. dollars) was recorded, compared to operating income of 2.2 billion yen in the same quarter of the previous fiscal year. This decline was mainly due to the impact of the above-mentioned decrease in sales of video cameras.

## Game

(Billions of yen, millions of U.S. dollars)						
Second quarter ended September 30						
	2012	2013	Change in yen		2013	
Sales and operating revenue	¥ 148.2	¥ 155.7	+5.1	%	\$ 1,588	
Operating income (loss)	2.3	(0.8 )	-		(8 )	

Sales increased 5.1% year-on-year (a 14% decrease on a constant currency basis) to 155.7 billion yen (1,588 million U.S. dollars) primarily due to the favorable impact of foreign exchange rates. The decrease in sales on a constant currency basis was primarily due to a decrease in unit sales of PlayStation®2 (“PS2”), PlayStation®3 (“PS3”) and PSP® (PlayStation Portable) hardware, partially offset by increased PS3 software unit sales compared to the same quarter of the previous fiscal year.

Operating loss of 0.8 billion yen (8 million U.S. dollars) was recorded, compared to operating income of 2.3 billion yen in the same quarter of the previous fiscal year. This year-on-year decline was primarily due to the impact of a strategic price reduction for the PlayStation®Vita (“PS Vita”) and the unfavorable impact of foreign exchange rates, partially offset by the above-mentioned increase in software unit sales.

## Mobile Products &amp; Communications (MP&amp;C)

(Billions of yen, millions of U.S. dollars)						
Second quarter ended September 30						
	2012	2013	Change in yen		2013	
Sales and operating revenue	¥ 300.4	¥ 418.6	+39.3	%	\$ 4,271	
Operating loss	(23.1 )	(0.9 )	-		(9 )	

The MP&C segment includes the Mobile Communications and Personal and Mobile Products categories. Mobile Communications includes mobile phones; Personal and Mobile Products includes personal computers.

Sales increased 39.3% year-on-year (a 4% increase on a constant currency basis) to 418.6 billion yen (4,271 million U.S. dollars). This significant increase was primarily due to the favorable impact of foreign exchange rates, a significant increase in unit sales of smartphones and an increase in the average selling price of smartphones, partially offset by a significant decrease in unit sales of PCs.

Operating loss decreased 22.2 billion yen year-on-year to 0.9 billion yen (9 million U.S. dollars). This significant improvement was primarily due to the above-mentioned increase in sales of smartphones.

## Home Entertainment &amp; Sound (HE&amp;S)

(Billions of yen, millions of U.S. dollars)						
Second quarter ended September 30						
	2012	2013	Change in yen		2013	
Sales and operating revenue	¥ 236.0	¥ 263.8	+11.8	%	\$ 2,692	
Operating loss	(15.8 )	(12.1 )	-		(123 )	

The HE&S segment includes the Televisions and Audio and Video categories. Televisions includes LCD televisions; Audio and Video includes home audio, Blu-ray Disc™ players and recorders and memory-based portable audio devices.

Sales increased 11.8% year-on-year (a 12% decrease on a constant currency basis) to 263.8 billion yen (2,692 million U.S. dollars) primarily due to the favorable impact of foreign exchange rates, partially offset by a decrease in LCD television unit sales.

Operating loss decreased 3.7 billion yen year-on-year to 12.1 billion yen (123 million U.S. dollars). This improvement was primarily due to a 3.1 billion yen decrease year-on-year in restructuring charges, net, and cost reductions in Televisions.

In Televisions, sales increased 18.7% year-on-year to 174.1 billion yen (1,777 million U.S. dollars), primarily due to the impact of foreign exchange rates. Operating loss\* decreased 0.9 billion yen year-on-year to 9.3 billion yen (95 million U.S. dollars) primarily due to cost reductions, partially offset by a decrease in unit sales of LCD televisions year-on-year.

\* The operating loss in Televisions excludes restructuring charges, which are included in the overall segment results and are not allocated to product categories.

#### Devices

(Billions of yen, millions of U.S. dollars)						
Second quarter ended September 30						
	2012		2013	Change in yen		2013
Sales and operating revenue	¥ 249.9	¥	208.1	-16.7	%	\$ 2,123
Operating income	29.8		11.9	-60.0		122

The Devices segment includes the Semiconductors and Components categories. Semiconductors includes image sensors; Components includes batteries, recording media and data recording systems.

Sales decreased 16.7% year-on-year (a 30% decrease on a constant currency basis) to 208.1 billion yen (2,123 million U.S. dollars). This decrease was primarily due to a decrease in sales of system LSIs for the game business and the absence of sales from the chemical products related business which was sold in September 2012, partially offset by the favorable impact of foreign exchange rates and a significant increase in sales of image sensors reflecting higher demand for mobile products. Sales to external customers decreased 9.8% year-on-year primarily due to the above-mentioned absence of sales from the chemical products related business.

Operating income decreased 17.9 billion yen year-on-year to 11.9 billion yen (122 million U.S. dollars). This decrease was primarily due to the recording of a gain on the sale of the chemical products related business in the same quarter of the previous fiscal year and a significantly lower net benefit in the current quarter from insurance recoveries related to damages and losses incurred from the Floods, partially offset by the favorable impact of foreign exchange rates.

\* \* \* \* \*

Total inventory of the five Electronics\* segments above as of September 30, 2013 was 862.2 billion yen (8,798 million U.S. dollars), an increase of 111.2 billion yen, or 14.8% year-on-year. This increase was primarily due to the impact of the depreciation of the yen. Inventory increased by 110.6 billion yen, or 14.7% compared with the level as of June 30, 2013.

\* The term "Electronics" refers to the sum of the IP&S, Game, MP&C, HE&S and Devices segments.

\* \* \* \* \*

## Pictures

(Billions of yen, millions of U.S. dollars)						
Second quarter ended September 30						
	2012	2013	Change in yen			2013
Sales and operating revenue	¥ 163.0	¥ 177.8	+9.1	%	\$	1,815
Operating income (loss)	7.9	(17.8 )	-			(181 )

Starting from the current quarter, the disclosure for sales to external customers for the Pictures segment is expanded into the following three categories: Motion Pictures, Television Production, and Media Networks. Motion Pictures includes the production, acquisition and distribution of motion pictures; Television Productions includes the production, acquisition and distribution of television programming; Media Networks includes the operation of television and digital networks. For further details, see page F-8.

The results presented in Pictures are a yen-translation of the results of Sony Pictures Entertainment (“SPE”), a U.S.-based operation that aggregates the results of its worldwide subsidiaries on a U.S. dollar basis. Management analyzes the results of SPE in U.S. dollars, so discussion of certain portions of its results is specified as being on “a U.S. dollar basis.”

Sales increased 9.1% year-on-year (a 13% decrease on a constant currency (U.S. dollar) basis) to 177.8 billion yen (1,815 million U.S. dollars) due to the favorable impact of the depreciation of the yen against the U.S. dollar. On a U.S. dollar basis, sales for Motion Pictures decreased significantly due to lower television licensing, home entertainment and theatrical revenues. The decline in television licensing revenues was due to fewer films licensed year-on-year. The same quarter of the previous fiscal year also benefitted from the home entertainment performance of 21 Jump Street and the worldwide theatrical performance of The Amazing Spider-Man. On a U.S. dollar basis, sales for Television Productions increased year-on-year primarily due to the recording of revenues from Left Bank Pictures Limited, a television production company in the United Kingdom in which Sony acquired a majority interest in August 2012, as well as higher sales of television catalog product.

Operating loss of 17.8 billion yen (181 million U.S. dollars) was recorded, compared to operating income of 7.9 billion yen in the same quarter of the previous fiscal year. This decline in operating results was primarily due to the lower Motion Pictures sales noted above. The current quarter reflects the theatrical underperformance of White House Down, while the same quarter of the previous fiscal year included the strong theatrical performance of The Amazing Spider-Man. In addition, the current quarter was negatively impacted by higher year-on-year production costs incurred as a result of an increase in the number of episodes produced in the current quarter for Television Productions’ new U.S. television network programming.

## Music

(Billions of yen, millions of U.S. dollars)						
Second quarter ended September 30						
	2012	2013	Change in yen			2013
Sales and operating revenue	¥ 99.2	¥ 115.0	+15.9	%	\$	1,173
Operating income	7.9	9.7	+23.5			99

Starting from the current quarter, the disclosure for sales to external customers for the Music segment is expanded into the following three categories: Recorded Music, Music Publishing and Visual Media and Platform. Recorded Music includes the distribution of physical and digital recorded music and revenue derived from artists’ live performances; Music Publishing includes the management and licensing of the words and music of songs; Visual Media and

Platform includes the production and distribution of animated videos and the solution offering for music and visual products. For further details, see page F-8.

The results presented in Music include the yen-translated results of Sony Music Entertainment (“SME”), a U.S.-based operation which aggregates the results of its worldwide subsidiaries on a U.S. dollar basis, the results of Sony Music Entertainment (Japan) Inc., a Japan-based music company which aggregates its results in yen, and the yen-translated consolidated results of Sony/ATV Music Publishing LLC (“Sony/ATV”), a 50% owned U.S.-based joint venture in the music publishing business which aggregates the results of its worldwide subsidiaries on a U.S. dollar basis.

Sales increased 15.9% year-on-year (essentially flat on a constant currency basis) to 115.0 billion yen (1,173 million U.S. dollars) due to the favorable impact of the depreciation of the yen against the U.S. dollar. Sales were essentially flat on a constant currency basis due to a decrease in Visual Media and Platform sales resulting from a decrease in home entertainment revenues for animation products, offset by a year-on-year increase in sales of Recorded Music due to continuing growth in digital revenues and the success of a number of recent releases. Best-selling titles in the current quarter included Justin Timberlake's The 20/20 Experience - 2 of 2, Kana Nishino's Love Collection ~pink~ and Love Collection ~mint~, ikimono-gakari's I, and Miley Cyrus' Bangerz.

Operating income increased 1.8 billion yen year-on-year to 9.7 billion yen (99 million U.S. dollars). This increase was primarily due to the favorable impact of the depreciation of the yen against the U.S. dollar and the above-mentioned increase in sales of Recorded Music.

#### Financial Services

(Billions of yen, millions of U.S. dollars)						
Second quarter ended September 30						
	2012	2013	Change in yen			2013
Financial services revenue	¥ 231.4	¥ 245.0	+5.9	%	\$	2,500
Operating income	31.2	39.2	+25.7			400

The Financial Services segment results include Sony Financial Holdings Inc. ("SFH") and SFH's consolidated subsidiaries such as Sony Life Insurance Co., Ltd. ("Sony Life"), Sony Assurance Inc. and Sony Bank Inc. ("Sony Bank"). The results of Sony Life discussed in the Financial Services segment differ from the results that SFH and Sony Life disclose separately on a Japanese statutory basis.

Financial services revenue increased 5.9% year-on-year to 245.0 billion yen (2,500 million U.S. dollars) primarily due to an increase in revenue at Sony Life. Revenue at Sony Life increased 5.8% year-on-year to 217.6 billion yen (2,221 million U.S. dollars). This increase was mainly due to significantly improved investment performance in both the separate account and the general account primarily reflecting a rise in the Japanese stock market during the current quarter, as compared with a slight decline in the same quarter of the previous fiscal year.

Operating income increased 8.0 billion yen year-on-year to 39.2 billion yen (400 million U.S. dollars) mainly due to an increase in operating income at Sony Life. Operating income at Sony Life increased 5.5 billion yen year-on-year to 37.2 billion yen (380 million U.S. dollars) primarily due to the above-mentioned improvement in investment performance in the general account.

\* \* \* \* \*

#### Consolidated Results for the Six Months ended September 30, 2013

For Consolidated Statements of Income and Business Segment Information for the six months ended September 30, 2013 and 2012, please refer to pages F-3 and F-7 respectively.

Sales for the six months ended September 30, 2013 ("the current six months") increased 11.8% year-on-year to 3,488.2 billion yen (35,594 million U.S. dollars). This increase was primarily due to the favorable impact of foreign exchange rates and a significant increase in smartphone unit sales, partially offset by the absence of the sales from the chemical products related business.

During the current six months, the average rates of the yen were 98.8 yen against the U.S. dollar and 130.0 yen against the euro, which were 19.6% lower and 22.5% lower, respectively, as compared with the same period in the previous fiscal year. On a constant currency basis, consolidated sales decreased 6%. For further detail about sales on a constant currency basis, see Note on page 9.

In the IP&S segment, sales decreased primarily due to lower sales of video cameras and compact digital cameras reflecting a contraction of these markets. In the Game segment, overall segment sales remained essentially flat due to the favorable impact of foreign exchange rates and an increase in PS3 software sales being offset by lower PS2, PS3 and PSP hardware sales. In the MP&C segment, sales increased significantly primarily due to a significant increase in unit sales of smartphones. In the HE&S segment, sales increased significantly primarily due to the favorable impact of foreign exchange rates, partially offset by a significant decrease in unit sales of LCD televisions. In the Devices segment, sales decreased significantly mainly due to lower sales of system LSIs for the game business and the absence of sales from the chemical products related business which were included in the same period of the previous fiscal year. In the Pictures segment, sales increased primarily due to the favorable impact of the depreciation of the yen against the U.S. dollar and higher advertising revenues for Sony's television networks in India and the U.S., partially offset by lower theatrical and home entertainment revenues for Motion Pictures. In the Music segment, sales increased significantly due to the favorable impact of the depreciation of the yen against the U.S. dollar as well as growth of digital sales and the strong performance of a number of recent releases in Recorded Music. In the Financial Services segment, financial services revenue increased significantly primarily due to a significant improvement in investment performance in the separate account at Sony Life.

Operating income for the current six months increased 14.6 billion yen year-on-year to 51.1 billion yen (522 million U.S. dollars). This increase was primarily due to a significant improvement in the operating results of the MP&C segment, a significant increase in operating income in the Financial Services segment, a significant improvement in the operating results of the HE&S segment, and the favorable impact of foreign exchange rates. Operating income during the current six months includes a gain of 12.8 billion yen (131 million U.S. dollars) from the sale of certain shares of M3, a gain of 106 million U.S. dollars (10.3 billion yen) recognized on the sale of SPE's music publishing catalog, a net benefit of 7.1 billion yen (72 million U.S. dollars) from insurance recoveries related to damages and losses incurred from the Floods and a benefit of 7.0 billion yen (71 million U.S. dollars) due to the reversal of a patent royalty accrual. In the same period of the previous fiscal year, a net benefit of 29.7 billion yen from the above-mentioned insurance recoveries, and a gain of 8.2 billion yen from the sale of the chemical products related business were recorded.

In the IP&S segment, operating income decreased year-on-year mainly due to a decrease in sales of video cameras. In the Game segment, operating loss significantly increased year-on-year primarily due to an increase in research and development expenses related to the upcoming introduction of the PlayStation®4 ("PS4") and the impact of a strategic price reduction for the PS Vita. In the MP&C segment, operating results significantly improved year-on-year primarily due to a significant increase in sales of smartphones. In the HE&S segment, the operating loss decreased significantly year-on-year primarily due to an improved product mix in LCD televisions reflecting the introduction of high value-added models and cost reductions. In the Devices segment, operating income decreased significantly primarily due to a decrease in the net benefit from insurance recoveries related to damages and losses incurred from the Floods and the recording of a gain on the sale of the chemical products related business in the same quarter of the previous fiscal year. In the Pictures segment, operating income decreased primarily due to the impact of lower theatrical and home entertainment revenues for Motion Pictures, higher production costs for Television Productions' U.S. television network programming, and higher programming and operating costs for Media Networks, partially offset by the gain recognized on the sale of SPE's music publishing catalog. In the Music segment, operating income increased primarily due to the favorable impact of the depreciation of the yen against the U.S. dollar and the strong performance of a number of recent releases in Recorded Music. In the Financial Services segment, operating income significantly increased primarily due to an improvement in investment performance in the general account at Sony Life.

Restructuring charges, recorded as operating expenses, amounted to 12.5 billion yen (127 million U.S. dollars) for the current six months compared to 22.8 billion yen for the same period of the previous fiscal year.

Equity in net loss of affiliated companies, recorded within operating income, decreased 1.0 billion yen year-on-year to 2.5 billion yen (25 million U.S. dollars).

The net effect of other income and expenses was income of 1.1 billion yen (11 million U.S. dollars), compared to an expense of 7.5 billion yen in the same period of the previous fiscal year. This improvement was primarily due to an increase in other non-operating income.

Income before income taxes increased 23.2 billion yen year-on-year to 52.2 billion yen (533 million U.S. dollars) due to the higher operating income noted above.

Income taxes: During the current six months, Sony recorded 38.3 billion yen (391 million U.S. dollars) of income tax expense. As of March 31, 2013, Sony had established a valuation allowance against certain deferred tax assets for Sony Corporation and its national tax filing group in Japan, the consolidated tax filing group in the U.S., and certain other subsidiaries. During the current fiscal year, certain of these tax filing groups and subsidiaries incurred losses and as a result Sony continued to not recognize the associated tax benefits. As a result, Sony's effective tax rate for the current six months exceeded the Japanese statutory tax rate.

Net loss attributable to Sony Corporation's stockholders for the current six months decreased 24.3 billion yen year-on-year to 15.8 billion yen (161 million U.S. dollars).

\* \* \* \* \*

## Cash Flows

For Consolidated Statements of Cash Flows, charts showing Sony's cash flow information for all segments, all segments excluding the Financial Services segment and the Financial Services segment alone, please refer to pages F-5 and F-16.

**Operating Activities:** During the current six months, there was a net cash outflow of 10.2 billion yen (105 million U.S. dollars) from operating activities, compared to a net cash inflow of 49.4 billion yen in the same period of the previous fiscal year.

For all segments excluding the Financial Services segment, there was a net cash outflow of 214.3 billion yen (2,187 million U.S. dollars) for the current six months, an increase of outflow of 31.6 billion yen, or 17.3% year-on-year. This increase of outflow was primarily due to the negative impact of an increase in other receivables, included in other current assets, from component assembly companies, resulting from the production of PS4 hardware and an expansion in production of smartphones, compared to a decrease in the same period of the previous fiscal year, an increase in inventories, and a larger increase in notes and accounts receivable, trade reflecting an increase in unit sales of smartphones. This increase of outflow was partially offset by the positive impact of an increase in notes and accounts payable, trade compared to a decrease in the same period of the previous fiscal year, primarily due to the expansion in production mentioned above.

The Financial Services segment had a net cash inflow of 210.7 billion yen (2,150 million U.S. dollars), a decrease of 27.8 billion yen, or 11.7% year-on-year. This decrease was primarily due to an increase mainly in insurance payments and a decrease in insurance premium revenue at Sony Life.

**Investing Activities:** During the current six months, Sony used 224.1 billion yen (2,287 million U.S. dollars) of net cash in investing activities, a decrease of 246.7 billion yen, or 52.4% year-on-year.

For all segments excluding the Financial Services segment, 7.7 billion yen (78 million U.S. dollars) was provided, compared to 117.8 billion yen used in the same period of the previous fiscal year. Cash was provided primarily due to a year-on-year increase in cash inflow from the sale of fixed assets, including the sale and leaseback of machinery and equipment during the current six months. In the same period of the previous fiscal year, cash was generated from the sale of the chemical products related business.

The Financial Services segment used 231.8 billion yen (2,365 million U.S. dollars) of net cash, a decrease of 122.3 billion yen, or 34.5% year-on-year. This decrease was mainly due to a year-on-year increase in proceeds from the maturities of marketable securities and sales of investment securities at Sony Bank.

In all segments excluding the Financial Services segment, net cash used in operating and investing activities combined\*1 for the current six months was 206.6 billion yen (2,108 million U.S. dollars), a decrease of 93.9 billion yen, or 31.2% year-on-year.

**Financing Activities:** During the current six months, 108.6 billion yen (1,109 million U.S. dollars) of net cash and cash equivalents was provided by financing activities, a decrease of 39.3 billion yen, or 26.6% year-on-year.

## Edgar Filing: SONY CORP - Form 6-K

For all segments excluding the Financial Services segment, there was an 84.8 billion yen (866 million U.S. dollars) net cash inflow, an increase of 48.9 billion yen, or 136.3% year-on-year. This increase was primarily due to a year-on-year increase in financing. In the current six months, funds were raised through the issuance of straight bonds for Japanese retail investors. In the same period of the previous fiscal year, commercial paper was issued while straight bonds were redeemed, a syndicated loan was repaid and a tender offer for shares of So-net Entertainment Corporation (currently So-net Corporation) was executed.

In the Financial Services segment, financing activities provided 17.1 billion yen (175 million U.S. dollars) of net cash, a decrease of 89.6 billion yen, or 84.0% year-on-year. This decrease was primarily due to a decrease in customer deposits at Sony Bank, compared to an increase in the same period of the previous fiscal year.

Total Cash and Cash Equivalents: Accounting for the above factors and the effect of fluctuations in foreign exchange rates, the total outstanding balance of cash and cash equivalents at September 30, 2013 was 725.7 billion yen (7,405 million U.S. dollars). Cash and cash equivalents of all segments excluding the Financial Services segment was 528.0 billion yen (5,388 million U.S. dollars) at September 30, 2013, an increase of 105.5 billion yen, or 25.0% compared with the balance as of September 30, 2012, and a decrease of 96.8 billion yen, or 15.5% compared with March 31, 2013. Sony believes that it continues to maintain sufficient liquidity through access to a total, translated into yen, of 819.1 billion yen (8,358 million U.S. dollars) of unused committed lines of credit with financial institutions in addition to the cash and cash equivalents balance at September 30, 2013. Within the Financial Services segment, the outstanding balance of cash and cash equivalents was 197.6 billion yen (2,017 million U.S. dollars) at September 30, 2013, an increase of 31.3 billion yen, or 18.8% compared with the balance as of September 30, 2012, and a decrease of 3.9 billion yen, or 1.9% compared with the balance as of March 31, 2013.

\*1 Sony has included the information for cash flow from operating and investing activities combined, excluding the Financial Services segment's activities, as Sony's management frequently monitors this financial measure, and believes this non-U.S. GAAP measurement is important for use in evaluating Sony's ability to generate cash to maintain liquidity and fund debt principal and dividend payments from business activities other than its Financial Services segment. This information is derived from the reconciliations prepared in the Condensed Statements of Cash Flows on page F-16. This information and the separate condensed presentations shown below are not required or prepared in accordance with U.S. GAAP. The Financial Services segment's cash flow is excluded from the measure because SFH, which constitutes a majority of the Financial Services segment, is a separate publicly traded entity in Japan with a significant minority interest and it, as well as its subsidiaries, secure liquidity on their own. This measure may not be comparable to those of other companies. This measure has limitations because it does not represent residual cash flows available for discretionary expenditures principally due to the fact that the measure does not deduct the principal payments required for debt service. Therefore, Sony believes it is important to view this measure as supplemental to its entire statement of cash flows and together with Sony's disclosures regarding investments, available credit facilities and overall liquidity.

A reconciliation of the differences between the Consolidated Statement of Cash Flows reported and cash flows from operating and investing activities combined excluding the Financial Services segment's activities is as follows:

	(Billions of yen, millions of U.S. dollars)		
	Six months ended September 30		
	2012	2013	2013
Net cash provided by (used in) operating activities reported in the consolidated statements of cash flows	¥ 49.4	¥ (10.2 )	\$ (105 )
Net cash used in investing activities reported in the consolidated statements of cash flows	(470.8 )	(224.1 )	(2,287 )
	(421.4 )	(234.3 )	(2,391 )
	238.5	210.7	2,150

Less: Net cash provided by operating activities within the Financial Services segment			
Less: Net cash used in investing activities within the Financial Services segment	(354.1 )	(231.8 )	(2,365 )
Eliminations *2	5.3	6.6	68
Cash flow used in operating and investing activities combined excluding the Financial Services segment's activities	¥ (300.5 )	¥ (206.6 )	\$ (2,108 )

\*2 Eliminations primarily consist of intersegment dividend payments.

\* \* \* \* \*

#### Note

The descriptions of sales on a constant currency basis reflect sales obtained by applying the yen's monthly average exchange rates from the same quarter of the previous fiscal year to local currency-denominated monthly sales in the current quarter. In certain cases, most significantly in the Pictures segment and SME and Sony/ATV in the Music segment, the constant currency amounts are after aggregation on a U.S. dollar basis. Sales on a constant currency basis are not reflected in Sony's consolidated financial statements and are not measures in accordance with U.S. GAAP. Sony does not believe that these measures are a substitute for U.S. GAAP measures. However, Sony believes that disclosing sales information on a constant currency basis provides additional useful analytical information to investors regarding the operating performance of Sony.

\* \* \* \* \*

## Outlook for the Fiscal Year ending March 31, 2014

The forecast for consolidated results for the fiscal year ending March 31, 2014, as announced on August 1, 2013, has been revised as follows:

(Billions of yen)						Change from		March 31,		March 31,	
	October	Change from		August		March 31,		Actual		Actual Results	
	Forecast	August		Forecast		2013		Results		2013	
		Forecast									
Sales and operating revenue	¥ 7,700	-2.5	%	¥ 7,900		+13.2	%			¥ 6,800.9	
Operating income	170	-26.1		230		-26.1				230.1	
Income before income taxes	180	-14.3		210		-26.7				245.7	
Net income attributable to Sony Corporation's stockholders	30	-40.0		50		-30.3				43.0	

Assumed foreign currency exchange rates for the second half of the fiscal year ending March 31, 2014: approximately 100 yen to the U.S. dollar and approximately 130 yen to the euro.

(Assumed foreign currency exchange rates for the current fiscal year at the time of the August forecast: approximately 100 yen to the U.S. dollar and approximately 130 yen to the euro.)

Consolidated sales for the current fiscal year are expected to be 7,700 billion yen due to a downward revision in the annual unit sales forecasts for certain electronics products.

Consolidated operating income is expected to be 170 billion yen, 60 billion yen below the August forecast. Although the operating income of the Financial Services segment in the current quarter exceeded the August forecast, operating results of the IP&S, MP&C, HE&S, Devices and Pictures segments are expected to be below the August forecast.

Restructuring charges are expected to be approximately 50 billion yen for the Sony group, unchanged from the August forecast, compared to 77.5 billion yen recorded in the fiscal year ended March 31, 2013. This amount will be recorded as an operating expense included in the above-mentioned forecast for operating income.

The forecast for each business segment is as follows:

## Imaging Products &amp; Solutions

Overall segment sales are expected to be below the August forecast primarily due to a downward revision in the annual unit sales forecast of video cameras and digital cameras. Operating income is expected to be significantly below the August forecast, primarily due to the negative impact of the above-mentioned decrease in sales. Year-on-year, sales are expected to be essentially flat and operating income is expected to increase significantly.

## Mobile Products &amp; Communications

Overall segment sales are expected to be slightly below the August forecast primarily due to a downward revision in the annual unit sales forecast of PCs. Operating income is expected to be significantly lower than the August forecast due to the negative impact of the above-mentioned decrease in sales. Year-on-year, sales are expected to increase significantly and operating income is expected to be recorded, reflecting an expected significant improvement in operating results primarily due to an increase in unit sales of smartphones.

#### Home Entertainment & Sound

Overall segment sales are expected to be below the August forecast primarily due to a downward revision in the annual unit sales forecast of LCD TVs. Operating results are expected to be significantly lower than the August forecast primarily due to the negative impact of the above-mentioned decrease in sales. Year-on-year, sales are expected to increase significantly and operating results are expected to improve significantly.

## Devices

Overall segment sales are expected to be below the August forecast primarily because sales of image sensors are expected to be lower than the August forecast. Operating income is expected to be significantly below the August forecast primarily due to the negative impact of the above-mentioned decrease in sales. Year-on-year, sales are expected to decrease and operating income is expected to decrease significantly.

## Pictures

Sales and operating income are expected to be below the August forecast primarily due to the underperformance of Motion Pictures' current year film slate in the current quarter. Year-on-year, sales are expected to increase significantly and operating income is expected to be essentially flat.

## Financial Services

Expected financial services revenue remains unchanged from the August forecast. Operating income for the fiscal year is expected to exceed the August forecast because results in the current quarter exceeded expectations. Year-on-year, financial services revenue is expected to be essentially flat and operating income is expected to increase.

The effects of gains and losses on investments held by the Financial Services segment due to market fluctuations have not been incorporated within the above forecast as it is difficult for Sony to predict market trends in the future. Accordingly, future market fluctuations could further impact the current forecast.

There is no change from the August forecast for the sales and operating income of the Game and Music segments.

The forecast for capital expenditures, depreciation and amortization, as well as research and development expenses for the current fiscal year remains unchanged from the August forecast.

	(Billions of yen)			
	Current Forecast	Change from March 31, 2013 Results	%	March 31, 2013 Results
Capital expenditures (addition to property, plant and equipment)	¥ 190	+0.7	%	¥ 188.6
Depreciation and amortization*	340	+2.9		330.6
[for property, plant and equipment (included above)]	200	+0.4		199.2 ]
Research and development expenses	460	-2.9		473.6

\* The forecast for depreciation and amortization includes amortization expenses for intangible assets and for deferred insurance acquisition costs.

This forecast is based on management's current expectations and is subject to uncertainties and changes in circumstances. Actual results may differ materially from those included in this forecast due to a variety of factors. See "Cautionary Statement" below.

## Cautionary Statement

Statements made in this release with respect to Sony's current plans, estimates, strategies and beliefs and other statements that are not historical facts are forward-looking statements about the future performance of Sony. Forward-looking statements include, but are not limited to, those statements using words such as "believe," "expect," "plans," "strategy," "prospects," "forecast," "estimate," "project," "anticipate," "aim," "intend," "seek," "may," "might," "should," and words of similar meaning in connection with a discussion of future operations, financial performance, events or conditions. From time to time, oral or written forward-looking statements may also be included in other materials released to the public. These statements are based on management's assumptions, judgments and beliefs in light of the information currently available to it. Sony cautions investors that a number of important risks and uncertainties could cause actual results to differ materially from those discussed in the forward-looking statements, and therefore investors should not place undue reliance on them. Investors also should not rely on any obligation of Sony to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Sony disclaims any such obligation. Risks and uncertainties that might affect Sony include, but are not limited to:

- (i) the global economic environment in which Sony operates and the economic conditions in Sony's markets, particularly levels of consumer spending;
- (ii) foreign exchange rates, particularly between the yen and the U.S. dollar, the euro and other currencies in which Sony makes significant sales and incurs production costs, or in which Sony's assets and liabilities are denominated;
- (iii) Sony's ability to continue to design and develop and win acceptance of, as well as achieve sufficient cost reductions for, its products and services, including televisions, game platforms and smartphones, which are offered in highly competitive markets characterized by severe price competition and continual new product and service introductions, rapid development in technology and subjective and changing consumer preferences;
- (iv) Sony's ability and timing to recoup large-scale investments required for technology development and production capacity;
- (v) Sony's ability to implement successful business restructuring and transformation efforts under changing market conditions;
- (vi) Sony's ability to implement successful hardware, software, and content integration strategies for all segments excluding the Financial Services segment, and to develop and implement successful sales and distribution strategies in light of the Internet and other technological developments;
- (vii) Sony's continued ability to devote sufficient resources to research and development and, with respect to capital expenditures, to prioritize investments correctly (particularly in the electronics businesses);
- (viii) Sony's ability to maintain product quality;
- (ix) the effectiveness of Sony's strategies and their execution, including but not limited to the success of Sony's acquisitions, joint ventures and other strategic investments;
- (x) Sony's ability to forecast demands, manage timely procurement and control inventories;
- (xi) the outcome of pending and/or future legal and/or regulatory proceedings;
- (xii) shifts in customer demand for financial services such as life insurance and Sony's ability to conduct successful asset liability management in the Financial Services segment;
- (xiii) the impact of unfavorable conditions or developments (including market fluctuations or volatility) in the Japanese equity markets on the revenue and operating income of the Financial Services segment; and
- (xiv) risks related to catastrophic disasters or similar events. Risks and uncertainties also include the impact of any future events with material adverse impact.

Operating income (loss) is sales and operating revenue less costs and expenses, and includes equity in net income (loss) of affiliated companies.

Corporate and elimination includes headquarters restructuring costs and certain other corporate expenses, including the amortization of certain intellectual property assets such as the cross-licensing of intangible assets acquired from Ericsson at the time of the Sony Mobile Communications acquisition, which are not allocated to segments.

Within the Home Entertainment & Sound (“HE&S”) segment, the operating loss of Televisions, which primarily consists of LCD televisions, for the three months ended September 30, 2012 and 2013 was 10,175 million yen and 9,262 million yen, respectively. The operating loss of Televisions excludes restructuring charges which are included in the overall segment results and not allocated to product categories.

Due to certain changes in the organizational structure, sales and operating revenue of the IP&S segment and All Other and operating income (loss) of the IP&S segment, All Other and Corporate and elimination for the comparable period have been restated to conform to the current presentation.

The above table includes a breakdown of sales and operating revenue to external customers for certain segments shown in the Business Segment Information on page F-6. Sony management views each segment as a single operating segment. However, Sony believes that the breakdown of sales and operating revenue to external customers for the segments in this table is useful to investors in understanding sales by product category.

In the IP&S segment, Digital Imaging Products includes compact digital cameras, video cameras and interchangeable single lens cameras; Professional Solutions includes broadcast- and professional-use products. In the Mobile Products & Communications (“MP&C”) segment, Mobile Communications includes mobile phones; Personal and Mobile Products includes personal computers. In the HE&S segment, Televisions includes LCD televisions; Audio and Video includes home audio, Blu-ray disc players and recorders, and memory-based portable audio devices. In the Devices segment, Semiconductors includes image sensors; Components includes batteries, recording media and data recording systems. In the Pictures segment, Motion Pictures includes the production, acquisition and distribution of motion pictures; Television Productions includes the production, acquisition and distribution of television programming; Media Networks includes the operation of television and digital networks. In the Music segment, Recorded Music includes the distribution of physical and digital recorded music and revenue derived from artists’ live performances; Music Publishing includes the management and licensing of the words and music of songs; Visual Media and Platform includes the production and distribution of animated videos and the solution offering for music and visual products.

Due to certain changes in the organizational structure, sales and operating revenue to external customers of the IP&S segment and All Other for the comparable period have been restated to conform to the current presentation.

The above table includes a breakdown of sales and operating revenue to external customers for certain segments shown in the Business Segment Information on page F-7. Sony management views each segment as a single operating segment. However, Sony believes that the breakdown of sales and operating revenue to external customers for the segments in this table is useful to investors in understanding sales by product category.

In the IP&S segment, Digital Imaging Products includes compact digital cameras, video cameras and interchangeable single lens cameras; Professional Solutions includes broadcast- and professional-use products. In the MP&C segment, Mobile Communications includes mobile phones; Personal and Mobile Products includes personal computers. In the HE&S segment, Televisions includes LCD televisions; Audio and Video includes home audio, Blu-ray disc players and recorders, and memory-based portable audio devices. In the Devices segment, Semiconductors includes image sensors; Components includes batteries, recording media and data recording systems. In the Pictures segment, Motion Pictures includes the production, acquisition and distribution of motion pictures; Television Productions includes the production, acquisition and distribution of television programming; Media Networks includes the operation of television and digital networks. In the Music segment, Recorded Music includes the distribution of physical and digital recorded music and revenue derived from artists' live performances; Music Publishing includes the management and licensing of the words and music of songs; Visual Media and Platform includes the production and distribution of animated videos and the solution offering for music and visual products.

Due to certain changes in the organizational structure, sales and operating revenue to external customers of the IP&S segment and All Other for the comparable period have been restated to conform to the current presentation.

Total net charges	¥ 11,108	¥ 7,696	-30.7 %	\$ 79

In addition to the restructuring charges in the table above, Sony recorded in cost of sales 372 million yen and 110 million yen of non-cash charges related to depreciation associated with restructured assets in the three months ended September 30, 2012 and 2013, respectively. Depreciation associated with restructured assets as used in the context of the disclosures regarding restructuring activities refers to the increase in depreciation expense caused by revising the useful life and the salvage value of depreciable fixed assets to coincide with the earlier end of production under an approved restructuring plan. Any impairment of the assets is recognized immediately in the period it is identified.

## Condensed Financial Services Financial Statements

The results of the Financial Services segment are included in Sony's consolidated financial statements. The following schedules show unaudited condensed financial statements for the Financial Services segment and all other segments excluding Financial Services. These presentations are not in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), which is used by Sony to prepare its consolidated financial statements. However, because the Financial Services segment is different in nature from Sony's other segments, Sony believes that a comparative presentation may be useful in understanding and analyzing Sony's consolidated financial statements. Transactions between the Financial Services segment and Sony without the Financial Services segment, including noncontrolling interests, are included in those respective presentations, then eliminated in the consolidated figures shown below.

## (Notes)

1. U.S. dollar amounts have been translated from yen, for convenience only, at the rate of ¥98 = U.S. \$1, the approximate Tokyo foreign exchange market rate as of September 30, 2013.
2. As of September 30, 2013, Sony had 1,305 consolidated subsidiaries (including variable interest entities) and 103 affiliated companies accounted for under the equity method.
3. The weighted-average number of outstanding shares used for the computation of earnings per share of common stock are as follows:

Weighted-average number of outstanding shares	(Thousands of shares)	
	Three months ended September 30	
Net loss attributable to Sony Corporation's stockholders	2012	2013
— Basic	1,003,591	1,019,875
— Diluted	1,003,591	1,019,875

Weighted-average number of outstanding shares	(Thousands of shares)	
	Six months ended September 30	
Net loss attributable to Sony Corporation's stockholders	2012	2013
— Basic	1,003,583	1,015,395
— Diluted	1,003,583	1,015,395

All potential shares were excluded as anti-dilutive for the three and six months ended September 30, 2012 and 2013 due to Sony incurring a net loss attributable to Sony Corporation's stockholders for the respective periods.

4. Recently adopted accounting pronouncements:  
Disclosure about balance sheet offsetting -  
In December 2011, the Financial Accounting Standards Board ("FASB") issued new accounting guidance which requires entities to disclose information about offsetting and related arrangements to enable financial statement users to understand the effect of such arrangements on their financial position as well as to improve comparability of balance sheets prepared under U.S. GAAP and International Financial Reporting Standards. Subsequently, in January 2013, the FASB issued updated accounting guidance clarifying the scope of disclosures about offsetting assets and liabilities. The new guidance is required to be applied retrospectively and was effective for Sony as of April 1, 2013. Since this guidance impacts disclosures only, its adoption did not have an impact on Sony's results of operations and financial position.

## Testing indefinite lived intangible assets for impairment -

In July 2012, the FASB issued new accounting guidance to simplify how entities test indefinite lived intangible assets for impairment. The new guidance allows entities an option to first assess qualitative factors to determine whether it is more likely than not that indefinite lived intangible assets are impaired as a basis for determining if it is necessary to perform the quantitative impairment test. Under the new guidance, entities are no longer required to calculate the fair value of the assets unless the entities determine, based on the qualitative assessment, that it is more likely than not that indefinite lived intangible assets are impaired. The new guidance is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. This guidance was effective for Sony as of April 1, 2013. The adoption of this guidance is not expected to have a material impact on Sony's results of operations and financial position.

Presentation of amounts reclassified out of accumulated other comprehensive income -

In February 2013, the FASB issued new accounting guidance for reporting of amounts reclassified out of accumulated other comprehensive income. The amendments require entities to report the significant reclassifications out of accumulated other comprehensive income if the amount is required to be reclassified in its entirety to net income. For other amounts that are not required to be reclassified in their entirety to net income in the same reporting period, entities are required to cross-reference other disclosures required that provide additional detail about those amounts. This guidance was effective for Sony as of April 1, 2013. Sony applied this guidance prospectively from the date of adoption. Since this guidance impacts disclosure only, its adoption did not have an impact on Sony's results of operations and financial position

---

## 5. Income taxes:

Sony estimates the annual effective tax rate (“ETR”) derived from a projected annual net income before taxes and calculates the interim period income tax provision based on the year-to-date income tax provision computed by applying the ETR to the year-to-date net income before taxes at the end of each interim period. The income tax provision based on the ETR reflects anticipated income tax credits and net operating loss carryforwards; however, it excludes the income tax provision related to significant unusual or extraordinary transactions. Such income tax provision is separately reported from the provision based on the ETR in the interim period in which they occur.

## Other Consolidated Financial Data
