NEW CREDIT FACILITY WITH BLUEFIN CAPITAL, LLC

On June 27, 2007, Tag-It Pacific, Inc. entered into a Revolving Credit and Term Loan Agreement (the "Loan Agreement") with Bluefin Capital, LLC. Pursuant to the Loan Agreement, Bluefin Capital has provided us with a \$5.0 million revolving credit facility and a \$9.5 million term loan. At closing, \$9.5 million of the proceeds were deposited in escrow and \$3.0 million were reserved under the revolving credit facility for the purpose of fully paying obligations under our existing convertible debentures that are due in November 2007. Repayment of these convertible notes will be made at an earlier date if the note holders waive a pre-payment penalty. All loans made under the Loan Agreement become due and payable on June 30, 2010. Interest on the \$9.5 million term loan is payable quarterly and accrues at an annual rate of 8.5%. The amount we may borrow under the revolving credit facility is determined by a percentage of eligible accounts receivable and inventory, up to a maximum of \$5.0 million. Interest under this revolving credit facility is payable monthly, with the interest rate equal to the prime rate plus 2%. Our domestic and foreign operating subsidiaries executed a Guaranty Agreement with the lender providing for a guaranty of all obligations under the Loan Agreement. As collateral for the loans, we and our operating subsidiaries granted the lender a security interest in all of our assets pursuant to a Collateral Agreement and other collateral documents. The Loan Agreement contains customary negative and affirmative covenants, including limitations on additional indebtedness. The Loan Agreement includes customary default provisions, and all outstanding obligations may become immediately due and payable in the event of a default or a change of control.

In connection with the financing arrangements to be made available under the Loan Agreement, we issued to the lender 1,500,000 shares of our common stock for an aggregate purchase price of \$1,500 and warrants to purchase a total of 2,100,000 shares of our common stock. The warrants are immediately exercisable and have a term of 5 years. The warrants have an exercise price of \$0.95 per share respect to 700,000 shares, \$1.05 per share with respect to 700,000 shares, and \$1.14 per share with respect to 700,000 shares. The exercise prices are subject to adjustment for certain dilutive issuances pursuant to the terms of the warrants. The issuance and sale of these shares and warrants was exempt from the registration and prospectus delivery requirements of the Securities Act pursuant to Section 4(2) of the Securities Act and Rule 506 thereunder as a transaction not involving any public offering.

In addition, we entered into a Registration Rights Agreement, pursuant to which we agreed to file a registration statement on Form S-3 to register the resale by the lender of the shares of common stock issued pursuant to the Loan Agreement and the shares of common stock issuable upon exercise of the warrants, and to use our commercially reasonable best efforts to cause the registration statement to be declared effective within 180 days following closing of the Loan Agreement.

The holders of our existing convertible debentures have a contractual right, and have been offered the opportunity, to participate in the financing arrangements under the Loan Agreement. Any participation by these parties would not increase the size of the debt facility or the number of shares or warrants issued by us, but would result in a reallocation of the funding commitments and shares and warrants among the existing lender and any new lenders.

The press release announcing the closing of the revolving credit facility and term loan with Bluefin Capital is furnished as Exhibit 99.1 to this report and is incorporated herein by reference.

PROMISSORY NOTE

On June 27, 2007, Colin Dyne, Vice Chairman of our Board of Directors and a significant stockholder, delivered to us a promissory note in the principal amount of \$720,666, which is payable to us upon demand and accrues interest at the rate of 7.5% per annum. This promissory note was delivered to formally document the existing amounts due to us from Mr. Dyne for advances made prior to 2003, net of notes payable by us to Mr. Dyne.

ITEM 1.02 TERMINATION OF A MATERIAL DEFINITIVE AGREEMENT.

REPAYMENT OF PROMISSORY NOTES

From the proceeds we received under the Loan Agreement, we paid approximately \$1,004,000 to fully repay previously existing demand notes to Mark Dyne, the Chairman of our Board of Directors and a significant stockholder. In connection with the repayment, the promissory notes evidencing the loans, the first position security interest in the assets of the Company and several of its subsidiaries, and the subsidiary guaranties and security agreements relating to the notes, were terminated and all collateral was released.

The notes due to Mr. Dyne were payable on demand, accrued interest at rates ranging from 0% to 11% per annum and certain of the notes were secured by a lien on our assets and the assets of certain of our subsidiaries. One of the repaid notes, in the principal amount of \$500,000, was convertible into 111,111 shares our common stock.
