UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

ý QUARTERLY REPORT PURSUANT TO SECTION 13 or 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2013

OR

o TRANSITION REPORT PURSUANT TO SECTION 13 or 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from ____________ to ____________

Commission File Number
000-50056

MARTIN MIDSTREAM PARTNERS L.P.
(Exact name of registrant as specified in its charter)

Delaware	05-0527861
(State or other jurisdiction of incorporation or organization)	(IRS Employer Identification No.)

4200 Stone Road
Kilgore, Texas 75662
(Address of principal executive offices, zip code)

Registrant’s telephone number, including area code: (903) 983-6200

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes x No o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes x No o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer o	Accelerated filer x
Non-accelerated filer o (Do not check if a smaller reporting company)	Smaller reporting company o

Indicated by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes o No x

The number of the registrant's Common Units outstanding at May 6, 2013, was 26,624,276.

MARTIN MIDSTREAM PARTNERS L.P.
NOTES TO CONSOLIDATED AND CONDENSED FINANCIAL STATEMENTS
(Dollars in thousands, except where otherwise indicated)
March 31, 2013
(Unaudited)

(1) General

Martin Midstream Partners L.P. (the “Partnership”) is a publicly traded limited partnership with a diverse set of operations focused primarily in the United States Gulf Coast region. Its four primary business lines include: terminalling and storage services for petroleum products and by-products including the refining, blending, and packaging of finished lubricants; natural gas services, including liquids distribution services and natural gas storage; sulfur and sulfur-based products processing, manufacturing, marketing and distribution; and marine transportation services for petroleum products and by-products.

The Partnership’s unaudited consolidated and condensed financial statements have been prepared in accordance with the requirements of Form 10-Q and United States generally accepted accounting principles for interim financial reporting. Accordingly, these financial statements have been condensed and do not include all of the information and footnotes required by generally accepted accounting principles for annual audited financial statements of the type contained in the Partnership’s annual reports on Form 10-K. In the opinion of the management of the Partnership’s general partner, all adjustments and elimination of significant intercompany balances necessary for a fair presentation of the Partnership’s results of operations, financial position and cash flows for the periods shown have been made. All such adjustments are of a normal recurring nature. Results for such interim periods are not necessarily indicative of the results of operations for the full year. These financial statements should be read in conjunction with the Partnership’s audited consolidated financial statements and notes thereto included in the Partnership’s annual report on Form 10-K for the year ended December 31, 2012, filed with the Securities and Exchange Commission (the “SEC”) on March 4, 2013, as amended by Amendment No. 1 on Form 10-K/A for the year ended December 31, 2012 filed on March 28, 2013.

Management has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these consolidated financial statements in conformity with accounting principles generally accepted in the United States. Actual results could differ from those estimates.

As discussed in Note 4, on July 31, 2012, the Partnership completed the sale of its East Texas and Northwest Louisiana natural gas gathering and processing assets owned by Prism Gas Systems I, L.P. ("Prism Gas"), a wholly-owned subsidiary of the Partnership. These assets, along with additional gathering and processing assets discussed in Note 4, are collectively referred to as the "Prism Assets." The Partnership has retrospectively adjusted its prior period consolidated financial statements to comparably classify the amounts related to the operations and cash flows of the Prism Assets as discontinued operations.

On October 2, 2012, the Partnership, which owned 10.74% of the Class A interests and 100% of the Class B interests, acquired all of the remaining Class A interests in Redbird Gas Storage LLC ("Redbird") from Martin Underground Storage, Inc., a subsidiary of Martin Resource Management Corporation (“Martin Resource Management” or “Parent”). In 2011, the Partnership and Martin Resource Management formed Redbird, a natural gas storage joint venture to invest in Cardinal Gas Storage Partners LLC (“Cardinal”). Cardinal is a joint venture between Redbird and Energy Capital Partners (“ECP”) that is focused on the development, construction, operation and management of natural gas storage facilities across northern Louisiana and Mississippi.

On October 2, 2012, the Partnership acquired from Cross Oil Refining and Marketing, Inc. ("Cross"), a wholly-owned subsidiary of Martin Resource Management, certain specialty lubricant product blending and packaging assets (“Blending and Packaging Assets”).

The acquisitions of the Redbird Class A interests and the Blending and Packaging Assets were considered a transfer of net assets between entities under common control. As a result, the acquisitions of the Redbird Class A interests and the Blending and Packaging Assets are recorded at amounts based on the historical carrying value of these assets at October 2, 2012, and the Partnership is required to update its historical financial statements to include the activities of the Redbird Class A interests and the Blending and Packaging Assets as of the date of common control. The Partnership’s accompanying historical financial statements have been retrospectively updated to reflect the effects on financial position, cash flows and results of operations attributable to the activities of the Redbird Class A interests and the Blending and Packaging Assets as if the Partnership owned these assets for the periods presented. Net income attributable to the Redbird Class A interests and the activities of the Blending and Packaging Assets for periods prior to the Partnership’s acquisition of the assets is not allocated to the general and limited partners for purposes of calculating net income per limited partner unit. See Note 10.

MARTIN MIDSTREAM PARTNERS L.P.
NOTES TO CONSOLIDATED AND CONDENSED FINANCIAL STATEMENTS
(Dollars in thousands, except where otherwise indicated)
March 31, 2013
(Unaudited)

(2) New Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board ("FASB") amended the provisions of Accounting Standards Codification ("ASC") 220 related to accumulated other comprehensive income, which does not change the current requirements for reporting net income or other comprehensive income in financial statements. The standard requires a company to provide information about the amounts reclassified out of accumulated other comprehensive income by component. The company is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under United States Generally Accepted Accounting Principles ("U.S. GAAP") to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under U.S. GAAP that provide additional detail about those amounts. This amended guidance was adopted by the Partnership effective January 1, 2013. As this new guidance only requires enhanced disclosure, adoption did not impact the Partnership's financial position or results of operations.

(3) Acquisitions

NGL Marine Equipment Purchase

On February 28, 2013, the Partnership purchased from affiliates of Florida Marine Transporters, Inc. six liquefied petroleum gas pressure barges and two commercial push boats for approximately $50,801, of which the commercial push boats totaling $8,201 were allocated to property, plant, and equipment in our Marine Transportation segment and the six pressure barges totaling $42,600 were allocated to property, plant, and equipment in our Natural Gas Services segment. The purchase was funded with borrowings under the Partnership's revolving credit facility.

Talen's Marine & Fuel LLC

On December 31, 2012, the Partnership acquired all of the outstanding membership interests in Talen's Marine & Fuel LLC ("Talen's") from Quintana Energy Partners, L.P. for $103,368, subject to certain post-closing adjustments, including the assumption of a note payable in the amount of $2,971. Through this acquisition, the Partnership acquired certain terminalling facilities and other terminalling related assets located along the Texas and Louisiana gulf coast. This transaction was funded by borrowings under the Partnership's revolving credit facility. Simultaneous with the acquisition, the Partnership sold certain working capital-related assets and a customer relationship intangible asset to Martin Energy Services LLC ("MES"), a wholly-owned subsidiary of Martin Resource Management for $56,000. Due to the Talen's acquisition, MES entered into various service agreements with Talen's pursuant to which the Partnership provides certain terminalling and marine services to MES. The excess carrying value of the assets over the purchase price paid by Martin Resource Management at the sales date was $4,268 and was recorded as an adjustment to partners' capital. The remaining net assets retained by the Partnership were recorded at fair value of $43,100 in the following preliminary purchase price allocation:

Purchase price paid to acquire Talen's	$103,368	
Less proceeds received from Martin Resource Management for assets sold (described above)	(56,000	)

Less excess of carrying value of assets sold to Martin Resource Management over the purchase price paid by Martin Resource Management	(4,268)
Total	$43,100

10

Cash	$5,096
Accounts and other receivables, net	2,682
Assets held for sale	3,578
Other current assets	1,547
Property, plant and equipment	23,838
Goodwill	11,279
Notes payable	(2,971)
Current liabilities	(1,480)
Other liabilities	(469)
Total	$43,100

The Partnership has not obtained all of the information necessary to finalize the purchase price allocation. The final purchase price allocation is expected to be completed during 2013.

Lubricant Blending and Packaging Assets

On October 2, 2012, the Partnership purchased the Blending and Packaging Assets from Cross. The consideration consisted of $121,767 in cash at closing, plus a final net working capital adjustment of $907 paid in October of 2012. The purchase was funded by borrowings under the Partnership's revolving credit facility. This acquisition is considered a transfer of net assets between entities under common control. The acquisition of the Blending and Packaging assets was recorded at the historical carrying value of the assets at the acquisition date, which were as follows:

Accounts and other receivables, net	$20,599
Inventory	18,730
Other current assets	769
Property, plant and equipment, net	24,692
Current liabilities	(2,424)
Total	$62,366

The excess purchase price over the historical carrying value of the assets at the acquisition date was $60,308 and was recorded as an adjustment to partners' capital.

Redbird Class A Interests

On October 2, 2012, the Partnership acquired from Martin Underground Storage, Inc., a subsidiary of Martin Resource Management, all of the remaining Class A interests in Redbird for $150,000 in cash. The Partnership began making Class A investments in Redbird during the fourth quarter of 2011. Prior to the transaction, the Partnership owned a 10.74% Class A interest and a 100% Class B interest in Redbird. This transaction was funded by borrowings under the Partnership's revolving credit facility. This acquisition is considered a transfer of net assets between entities under common control. The acquisition of these interests was recorded at the historical carrying value of the interests at the acquisition date. The Partnership recorded an investment in consolidated entities of $68,233 and the excess of the purchase price over the carrying value of the Class A interests of $81,767 was recorded as an adjustment to partners' capital.

(4) Discontinued operations and divestitures

On July 31, 2012, the Partnership completed the sale of its East Texas and Northwest Louisiana natural gas gathering and processing assets owned by Prism Gas and other natural gas gathering and processing assets also owned by the Partnership to a subsidiary of CenterPoint Energy Inc. (NYSE: CNP) (“CenterPoint”). The Partnership received net cash

proceeds from the sale of $273,269. The asset sale includes the Partnership’s 50% operating interest in Waskom Gas Processing Company (“Waskom”). A subsidiary of CenterPoint owned the other 50% percent interest.

MARTIN MIDSTREAM PARTNERS L.P.
NOTES TO CONSOLIDATED AND CONDENSED FINANCIAL STATEMENTS
(Dollars in thousands, except where otherwise indicated)
March 31, 2013
(Unaudited)

Additionally, on September 18, 2012, the Partnership completed the sale of its interest in Matagorda Offshore Gathering System ("Matagorda") and Panther Interstate Pipeline Energy LLC ("PIPE") to a private investor group for $1,530.

The Partnership classified the results of operations of the Prism Assets, which were previously presented as a component of the Natural Gas Services segment, as discontinued operations in the consolidated and condensed statements of operations for all periods presented.

The Prism Assets' operating results, which are included within income from discontinued operations, were as follows:

	Three Months Ended March 31,	
	2013	2012
Total revenues from third parties[1]	$—	$28,902
Total costs and expenses, excluding depreciation and amortization	—	(28,426)
Depreciation and amortization	—	(1,394)
Other operating income	—	10
Equity in earnings of Waskom, Matagorda, and PIPE	—	2,465
Income from discontinued operations before income taxes	—	1,557
Income tax (benefit)	—	(168)
Income from discontinued operations, net of income taxes	$—	$1,725

[1] Total revenues from third parties excludes intercompany revenues of $0 and $13,433 for the three months ended March 31, 2013 and 2012, respectively.

(5) Inventories

Components of inventories at March 31, 2013 and December 31, 2012 were as follows:

	March 31, 2013	December 31, 2012
Natural gas liquids	$7,431	$33,610
Sulfur	22,168	14,892
Sulfur based products	13,159	17,824
Lubricants	25,281	27,366
Other	3,159	2,295
	$71,198	$95,987

(6) Investments in Unconsolidated Entities and Joint Ventures

As discussed in detail in Note 4, the Partnership sold its 50% interests in Waskom, Matagorda, and PIPE in 2012. The equity in earnings associated with these investments during the period owned is recorded in income from discontinued operations for the three months ended March 31, 2012.

On May 1, 2008, certain assets and liabilities were contributed to acquire a 50% ownership interest in Cardinal. In conjunction with this transaction, ECP contributed cash for a 50% ownership interest in Cardinal.

The initial carrying amount of the investment in Cardinal was less than the contributed underlying net assets. Of the basis difference, $1,250 relates to differences in the carrying value of fixed assets contributed as compared to amounts recorded by Cardinal, and is being amortized over 40 years, the approximate useful life of the underlying assets. Such amortization amounted to $8 for each of the three months ended March 31, 2013 and 2012. The remaining basis difference is a permanent difference that will be realized upon sale of the investment in Cardinal.

MARTIN MIDSTREAM PARTNERS L.P.
NOTES TO CONSOLIDATED AND CONDENSED FINANCIAL STATEMENTS
(Dollars in thousands, except where otherwise indicated)
March 31, 2013
(Unaudited)

On May 24, 2011, Redbird was formed to hold membership interests in Cardinal. On May 27, 2011, initial contributions by Martin Resource Management, which consisted of all its membership interests in Cardinal for 100% of the Class A interests in Redbird. Simultaneously, the Partnership acquired 100% of the Class B interests in Redbird for approximately $59,319. Concurrent with the closing of this transaction, Redbird contributed the cash to Cardinal which used the cash, along with a contribution from ECP, to acquire all of the outstanding equity interests in Monroe Gas Storage Company, LLC as well as an option on development rights to an adjacent depleted reservoir facility. As discussed in Note 3, on October 2, 2012, the Partnership, acquired the remaining Class A interests in Redbird from Martin Resource Management. As this acquisition is considered a transfer of net assets between entities under common control, the acquisition is recorded at the historical carrying value of these assets at that date. The Partnership is required to retrospectively update its historical financial statements to include the activities of the Class A interests in Redbird as of the date of common control. The Partnership's accompanying historical financial statements for the three months ended March 31, 2012 have been retrospectively updated to reflect the effects on financial position, cash flows and results of operations attributable to the Redbird Class A interests as if the Partnership owned these assets for this period.

At March 31, 2013, Redbird owned an unconsolidated 41.89% interest in Cardinal. Redbird utilized the investments by the Partnership to invest in Cardinal to fund projects for natural gas storage facilities.

At March 31, 2013, the Partnership owned an unconsolidated 50% interest in Caliber Gathering, LLC (“Caliber”).

During March 2013, the Partnership acquired 100% of the preferred interests in Martin Energy Trading LLC ("MET"), a subsidiary of Martin Resource Management, for $15,000.

These investments are accounted for by the equity method.

The following tables summarize the components of the investment in unconsolidated entities on the Partnership’s consolidated and condensed balance sheets and the components of equity in earnings of unconsolidated entities included in the Partnership’s consolidated and condensed statements of operations:

	March 31, 2013	December 31, 2012
Investment in Redbird	$162,373	$153,749
Investment in MET	15,000	—
Investment in Caliber	402	560
Total Investment in unconsolidated entities	$177,775	$154,309

	Three Months Ended March 31,	
	2013	2012
Equity in earnings of Waskom[1]	$—	$2,325
Equity in earnings of PIPE[1]	—	(48)
Equity in earnings of Matagorda[1]	—	188
Equity in earnings of discontinued operations	—	2,465
Equity in earnings of Redbird	(216)	233

Equity in earnings of Caliber	(158)	—
Equity in earnings of unconsolidated entities	(374)	233
Total equity in earnings of unconsolidated entities	$ (374)	$ 2,698

[1] For the three months ended March 31, 2012, the financial information for Waskom, Matagorda, and PIPE is included in the consolidated and condensed statement of operations and cash flows as discontinued operations.

Selected financial information for significant unconsolidated equity-method investees is as follows:

(7) Derivative Instruments and Hedging Activities

The Partnership's results of operations are materially impacted by changes in crude oil, natural gas and NGL prices and interest rates. In an effort to manage its exposure to these risks, the Partnership periodically enters into various derivative instruments, including commodity and interest rate hedges.

(a) Commodity Derivative Instruments

The Partnership is not currently exposed to market risks associated with commodity prices but from time to time has used derivatives to manage the risk of commodity price fluctuation. The Partnership has established a hedging policy and monitors and manages the commodity market risk associated with potential commodity risk exposure. These hedging arrangements have been in the form of swaps for crude oil, natural gas and natural gasoline. In addition, the Partnership has focused on utilizing counterparties for these transactions whose financial condition is appropriate for the credit risk involved in each specific transaction.

Due to the sale of the Prism Assets during 2012, the Partnership terminated and settled all of its commodity derivative instruments during the second quarter of 2012. For the three months ended March 31, 2012, changes in the fair value of the Partnership's derivative contracts were recorded in both earnings (income from discontinued operations) and in AOCI as a component of partners' capital.

(b) Impact of Commodity Cash Flow Hedges

Crude Oil. For the three months ended March 31, 2012, net gains and losses on swap hedge contracts decreased crude revenue (included in income from discontinued operations) by $86.

Natural Gas. For the three months ended March 31, 2012, net gains and losses on swap hedge contracts increased gas revenue (included in income from discontinued operations) by $204.

Natural Gas Liquids. For the three months ended March 31, 2012, net gains and losses on swap hedge contracts decreased liquids revenue (included in income from discontinued operations) by $55.

For information regarding fair value amounts and gains and losses on commodity derivative instruments and related hedged items, see “Tabular Presentation of Fair Value Amounts, and Gains and Losses on Derivative Instruments and Related Hedged Items” within this Note.

(c) Impact of Interest Rate Derivative Instruments

The Partnership is exposed to market risks associated with interest rates. From time to time, the Partnership enters into interest rate swaps to manage interest rate risk associated with the Partnership’s variable rate debt and term loan credit facilities.

Tabular Presentation of Gains and Losses on Derivative Instruments and Related Hedged Items

Effect of Derivative Instruments on the Consolidated and Condensed Statement of Operations For the Three Months Ended March 31, 2013 and 2012

(8) Fair Value Measurements

The Partnership follows the provisions of ASC 820 related to fair value measurements and disclosures, which established a framework for measuring fair value and expanded disclosures about fair value measurements. The adoption of this guidance had no impact on the Partnership's financial position or results of operations.

ASC 820 applies to all assets and liabilities that are being measured and reported on a fair value basis. This statement enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value of each asset and liability carried at fair value into one of the following categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.
Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.
Level 3: Unobservable inputs that are not corroborated by market data.

MARTIN MIDSTREAM PARTNERS L.P.
NOTES TO CONSOLIDATED AND CONDENSED FINANCIAL STATEMENTS
(Dollars in thousands, except where otherwise indicated)
March 31, 2013
(Unaudited)

The following items are measured at fair value on a recurring basis subject to the disclosure requirements of ASC 820 at March 31, 2013 and December 31, 2012:

	Fair Value Measurements at Reporting Date Using			
Description	March 31, 2013	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Liabilities				
2018 Senior notes	$ 192,173	$ —	$ 192,173	$ —
2021 Senior notes	254,482	—	254,482	$ —
Total liabilities	$ 446,655	$ —	$ 446,655	$ —

	Fair Value Measurements at Reporting Date Using			
Description	December 31, 2012	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Liabilities				
2018 Senior notes	$ 187,066	$ —	$ 187,066	$ —
Total liabilities	$ 187,066	$ —	$ 187,066	$ —

FASB ASC 825-10-65, Disclosures about Fair Value of Financial Instruments, requires that the Partnership disclose estimated fair values for its financial instruments. Fair value estimates are set forth below for the Partnership’s financial instruments. The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

- Accounts and other receivables, trade and other accounts payable, other accrued liabilities, income taxes payable and due from/to affiliates: The carrying amounts approximate fair value due to the short maturity and highly liquid nature of these instruments, and as such these have been excluded from the table above.

- Long-term debt including current portion: The carrying amount of the revolving loan facility approximates fair value due to the debt having a variable interest rate and is in Level 2. The estimated fair value of the Senior Notes is based on market prices of similar debt. The carrying amount of the Partnership's note payable to bank as of March 31, 2013 is not deemed to be significantly different than the fair value.

(9) Long-Term Debt and Capital Leases

At March 31, 2013 and December 31, 2012, long-term debt consisted of the following:

MARTIN MIDSTREAM PARTNERS L.P.

March 31, 2013
(Unaudited)

	March 31, 2013	December 31, 2012
$600,000 Revolving loan facility at variable interest rate (4.75%* weighted average at March 31, 2013), due March 2018 secured by substantially all of the Partnership's assets, including, without limitation, inventory, accounts receivable, vessels, equipment, fixed assets and the interests in the Partnership's operating subsidiaries and equity method investees	$ 91,000	$ 296,000
$200,000** Senior notes, 8.875% interest, net of unamortized discount of $1,535 and $1,612, respectively, issued March 2010 and due April 2018, unsecured	173,465	173,388
$250,000 Senior notes, 7.250% interest, issued February 2013 and due February 2021, unsecured	250,000	—
$3,315 Note payable to bank, interest rate at 4.75%, maturity date of October 2029, unsecured	2,939	2,971
Capital lease obligations	5,789	5,839
Total long-term debt and capital lease obligations	523,193	478,198
Less current installments	3,192	3,206
Long-term debt and capital lease obligations, net of current installments	$ 520,001	$ 474,992

* Interest rate fluctuates based on the LIBOR rate plus an applicable margin set on the date of each advance. The margin above LIBOR is set every three months. Indebtedness under the credit facility bears interest at LIBOR plus an applicable margin or the base prime rate plus an applicable margin. The applicable margin for revolving loans that are LIBOR loans ranges from 2.00% to 3.00% and the applicable margin for revolving loans that are base prime rate loans ranges from 1.00% to 2.00%. The applicable margin for existing LIBOR borrowings is 2.50%. Effective April 1, 2013, the applicable margin for existing LIBOR borrowings remained at 2.50%. Effective July 1, 2013, the applicable margin for existing LIBOR borrowings will remain at 2.50%. As of May 6, 2013, our weighted average interest rate on our revolving loan facility is 3.02%.

** Pursuant to the Indenture under which the Senior Notes due in 2018 were issued, the Partnership has the option to redeem up to 35% of the aggregate principal amount at a redemption price of 108.875% of the principal amount, plus accrued and unpaid interest with the proceeds of certain equity offerings. On April 24, 2012, the Partnership notified the Trustee of its intention to exercise a partial redemption of the Partnership's Senior Notes pursuant to the Indenture. On May 24, 2012, the Partnership redeemed $25,000 of the Senior Notes from various holders using proceeds of the Partnership's January 2012 follow-on equity offering, which in the interim were used to pay down amounts outstanding under the Partnership's revolving credit facility.

Effective March 28, 2013, the Partnership increased the maximum amount of borrowings and letters of credit available under the Credit Facility from $400,000 to $600,000 and extended the term from April 2016 to March 2018.

On February 11, 2013, the Partnership completed a private placement of $250,000 in aggregate principal amount of 7.250% senior unsecured notes due 2021 to qualified institutional buyers under Rule 144A. The Partnership registered the senior unsecured notes on Form S-4 filed with the SEC on April 10, 2013.

The Partnership paid cash interest in the amount of $2,217 and $2,408 for the three months ended March 31, 2013 and 2012, respectively. Capitalized interest was $180 and $353 for the three months ended March 31, 2013 and 2012, respectively.

(10) Partners' Capital

As of March 31, 2013, partners’ capital consists of 26,624,526 common limited partner units, representing a 98% partnership interest and a 2% general partner interest. Martin Resource Management, through subsidiaries, owned 5,093,267 of the Partnership's common limited partnership units representing approximately 19.1% of the Partnership's outstanding common limited partnership units and a 2% general partnership interest.

The partnership agreement of the Partnership contains specific provisions for the allocation of net income and losses to each of the partners for purposes of maintaining their respective partner capital accounts.

Issuance of Common Units

On November 26, 2012, the Partnership completed a public offering of 3,450,000 common units at a price of $31.16 per common unit, before the payment of underwriters' discounts, commissions and offering expenses (per unit value is in dollars, not thousands). Total proceeds from the sale of the 3,450,000 common units, net of underwriters' discounts, commissions and offering expenses were $102,809. The Partnership's general partner contributed $2,194 in cash to the Partnership in conjunction with the issuance in order to maintain its 2% general partner interest in the Partnership. All of the net proceeds were used to reduce outstanding indebtedness of the Partnership.

On January 25, 2012, the Partnership completed a public offering of 2,645,000 common units at a price of $36.15 per common unit, before the payment of underwriters’ discounts, commissions and offering expenses (per unit value is in dollars, not thousands). Total proceeds from the sale of the 2,645,000 common units, net of underwriters’ discounts, commissions and offering expenses were $91,361. The Partnership’s general partner contributed $1,951 in cash to the Partnership in conjunction with the issuance in order to maintain its 2% general partner interest in the Partnership. All of the net proceeds were used to reduce outstanding indebtedness of the Partnership.

Incentive Distribution Rights

The Partnership’s general partner, Martin Midstream GP LLC, holds a 2% general partner interest and certain incentive distribution rights (“IDRs”) in the Partnership. IDRs are a separate class of non-voting limited partner interest that may be transferred or sold by the general partner under the terms of the partnership agreement of the Partnership (the “Partnership Agreement”), and represent the right to receive an increasing percentage of cash distributions after the minimum quarterly distribution and any cumulative arrearages on common units once certain target distribution levels have been achieved. The Partnership is required to distribute all of its available cash from operating surplus, as defined in the Partnership Agreement. On October 2, 2012, the Partnership Agreement was amended to provide that the General Partner shall forego the next $18,000 in incentive distributions that it would otherwise be entitled to receive. No incentive distributions were allocated to the general partner from July 1, 2012 through March 31, 2013, which would have been payable to the general partner on November 14, 2012 for the third quarter distribution and February 14, 2013 for the fourth quarter distribution.

The target distribution levels entitle the general partner to receive 2% of quarterly cash distributions up to $0.55 per unit, 15% of quarterly cash distributions in excess of $0.55 per unit until all unitholders have received $0.625 per unit, 25% of quarterly cash distributions in excess of $0.625 per unit until all unitholders have received $0.75 per unit and 50% of quarterly cash distributions in excess of $0.75 per unit.

For the three months ended March 31, 2013 and 2012, the general partner received $0 and $1,429, respectively, in incentive distributions. As of March 31, 2013, the amount of incentive distributions the general partner has foregone is $3,432, resulting in an amount remaining of $14,568.

Distributions of Available Cash

The Partnership distributes all of its Available Cash (as defined in the Partnership Agreement) within 45 days after the end of each quarter to unitholders of record and to the general partner. Available Cash is generally defined as all cash and cash equivalents of the Partnership on hand at the end of each quarter less the amount of cash reserves its general partner determines in its reasonable discretion is necessary or appropriate to: (i) provide for the proper conduct of the Partnership's business; (ii) comply with applicable law, any debt instruments or other agreements; or (iii) provide funds for distributions to unitholders and the general partner for any one or more of the next four quarters, plus all cash on the date of determination of available cash for the quarter resulting from working capital borrowings made after the end of the quarter.

Net Income per Unit

The Partnership follows the provisions of the FASB ASC 260-10 related to earnings per share, which addresses the application of the two-class method in determining income per unit for master limited partnerships having multiple classes of

MARTIN MIDSTREAM PARTNERS L.P.
NOTES TO CONSOLIDATED AND CONDENSED FINANCIAL STATEMENTS
(Dollars in thousands, except where otherwise indicated)
March 31, 2013
(Unaudited)

securities that may participate in partnership distributions accounted for as equity distributions. Undistributed earnings are allocated to the general partner and limited partners utilizing the contractual terms of the Partnership Agreement. Distributions to the general partner pursuant to the IDRs are limited to available cash that will be distributed as defined in the Partnership Agreement. Accordingly, the Partnership does not allocate undistributed earnings to the general partner for the IDRs because the general partner's share of available cash is the maximum amount that the general partner would be contractually entitled to receive if all earnings for the period were distributed. When current period distributions are in excess of earnings, the excess distributions for the period are to be allocated to the general partner and limited partners based on their respective sharing of losses specified in the Partnership Agreement. Additionally, as required under FASB ASC 260-10-45-61A, unvested share-based payments that entitle employees to receive non-forfeitable distributions are considered participating securities, as defined in FASB ASC 260-10-20, for earnings per unit calculations.

For purposes of computing diluted net income per unit, the Partnership uses the more dilutive of the two-class and if-converted methods. Under the if-converted method, the weighted-average number of subordinated units outstanding for the period is added to the weighted-average number of common units outstanding for purposes of computing basic net income per unit and the resulting amount is compared to the diluted net income per unit computed using the two-class method. The following is a reconciliation of net income from continuing operations and net income from discontinued operations allocated to the general partner and limited partners for purposes of calculating net income attributable to limited partners per unit:

	Three Months Ended March 31,	
	2013	2012
Continuing operations:		
Net income attributable to Martin Midstream Partners L.P.	$16,637	$10,742
Less pre-acquisition income (loss) allocated to Parent	—	1,938
Less general partner’s interest in net income:		
Distributions payable on behalf of IDRs	—	1,195
Distributions payable on behalf of general partner interest	456	325
Distributions payable to the general partner interest in excess of earnings allocable to the general partner interest	(123)	(173)
Less income allocable to unvested restricted units	43	—
Limited partners’ interest in net income	$16,261	$7,457

	Three Months Ended March 31,	
	2013	2012
Discontinued operations:		
Net income attributable to Martin Midstream Partners L.P.	$—	$1,725
Less general partner’s interest in net income:		
Distributions payable on behalf of IDRs	—	234
Distributions payable on behalf of general partner interest	—	64
Distributions payable to the general partner interest in excess of earnings allocable to the general partner interest	—	(34)

Limited partners’ interest in net income	$—	$1,461

The Partnership allocates the General Partner's share of earnings between continuing and discontinued operations as a proportion of net income from continuing and discontinued operations to total net income. The allocation is done at each period end on an annual basis, resulting in each quarter representing the difference between year to date of the current quarter and year to date as of the previous quarter.

The weighted average units outstanding for basic net income per unit were 26,560,654 and 22,576,404 for the three months ended March 31, 2013 and 2012, respectively. For diluted net income per unit, the weighted average units outstanding

were increased by 8,756 and 3,504 for the three months ended March 31, 2013 and 2012, respectively, due to the dilutive effect of restricted units granted under the Partnership’s long-term incentive plan.

(11) Related Party Transactions

As of March 31, 2013, Martin Resource Management owns 5,093,267 of the Partnership’s common units representing approximately 19.1% of the Partnership’s outstanding limited partnership units. The Partnership’s general partner is a wholly-owned subsidiary of Martin Resource Management. The Partnership’s general partner owns a 2.0% general partner interest in the Partnership and the Partnership’s IDRs. The Partnership’s general partner’s ability, as general partner, to manage and operate the Partnership, and Martin Resource Management’s ownership as of March 31, 2013, of approximately 19.1% of the Partnership’s outstanding limited partnership units, effectively gives Martin Resource Management the ability to veto some of the Partnership’s actions and to control the Partnership’s management.

The following is a description of the Partnership’s material related party transactions:

Omnibus Agreement

Omnibus Agreement. The Partnership and its general partner are parties to an omnibus agreement dated November 1, 2002, with Martin Resource Management (the "Omnibus Agreement") that governs, among other things, potential competition and indemnification obligations among the parties to the agreement, related party transactions, the provision of general administration and support services by Martin Resource Management and the Partnership’s use of certain of Martin Resource Management’s trade names and trademarks. The Omnibus Agreement was amended on November 25, 2009, to include processing crude oil into finished products including naphthenic lubricants, distillates, asphalt and other intermediate cuts. The Omnibus Agreement was amended further on October 1, 2012, to permit the Partnership to provide certain lubricant packaging products and services to Martin Resource Management.

Non-Competition Provisions. Martin Resource Management has agreed for so long as it controls the general partner of the Partnership, not to engage in the business of:

- providing terminalling and storage services for petroleum products and by-products including the refining, blending and packaging of finished lubricants;

- providing marine transportation of petroleum products and by-products;

- distributing NGLs; and

- manufacturing and selling sulfur-based fertilizer products and other sulfur-related products.

This restriction does not apply to:

- the ownership and/or operation on the Partnership’s behalf of any asset or group of assets owned by it or its affiliates;

- any business operated by Martin Resource Management, including the following:

providing land transportation of various liquids;

distributing fuel oil, sulfuric acid, marine fuel and other liquids;

providing marine bunkering and other shore-based marine services in Alabama, Florida, Louisiana, Mississippi and Texas;

operating a crude oil gathering business in Stephens, Arkansas;

providing crude oil gathering, refining, and marketing services of base oils, asphalt, and distillate products in Smackover, Arkansas;

- operating an underground NGL storage facility in Arcadia, Louisiana;
- operating an environmental consulting company;
- operating an engineering services company;
- building and marketing sulfur processing equipment;
- supplying employees and services for the operation of our business;
- operating, for its account and our account, the docks, roads, loading and unloading facilities and other common use facilities or access routes at our Stanolind terminal; and
- operating, solely for our account, the asphalt facilities in Omaha, Nebraska, Port Neches, Texas and South Houston, Texas.

- any business that Martin Resource Management acquires or constructs that has a fair market value of less than $5,000;
- any business that Martin Resource Management acquires or constructs that has a fair market value of $5,000 or more if the Partnership has been offered the opportunity to purchase the business for fair market value and the Partnership declines to do so with the concurrence of the conflicts committee; and
- any business that Martin Resource Management acquires or constructs where a portion of such business includes a restricted business and the fair market value of the restricted business is $5,000 or more and represents less than 20% of the aggregate value of the entire business to be acquired or constructed; provided that, following completion of the acquisition or construction, the Partnership will be provided the opportunity to purchase the restricted business.

Services. Under the Omnibus Agreement, Martin Resource Management provides the Partnership with corporate staff, support services, and administrative services necessary to operate the Partnership's business. The Omnibus Agreement requires the Partnership to reimburse Martin Resource Management for all direct expenses it incurs or payments it makes on the Partnership's behalf or in connection with the operation of the Partnership's business. There is no monetary limitation on the amount the Partnership is required to reimburse Martin Resource Management for direct expenses. In addition to the direct expenses, under the Omnibus Agreement, the Partnership is required to reimburse Martin Resource Management for indirect general and administrative and corporate overhead expenses.

Effective October 1, 2012, through December 31, 2013, the Conflicts Committee of the board of directors of the general partner of the Partnership (the "Conflicts Committee") approved an annual reimbursement amount for indirect expenses of $10,622. The Partnership reimbursed Martin Resource Management for $2,657 and $1,646 of indirect expenses for the three months ended March 31, 2013 and 2012, respectively. The Conflicts Committee will review and approve future adjustments in the reimbursement amount for indirect expenses, if any, annually.

These indirect expenses are intended to cover the centralized corporate functions Martin Resource Management provides for the Partnership, such as accounting, treasury, clerical, engineering, legal, billing, information technology, administration of insurance, general office expenses and employee benefit plans and other general corporate overhead functions the Partnership shares with Martin Resource Management retained businesses. The provisions of the Omnibus Agreement regarding Martin Resource Management's services will terminate if Martin Resource Management ceases to control the general partner of the Partnership.

Related Party Transactions. The Omnibus Agreement prohibits the Partnership from entering into any material agreement with Martin Resource Management without the prior approval of the conflicts committee of the Partnership's general partner. For purposes of the Omnibus Agreement, the term material agreements means any agreement between the Partnership and Martin Resource Management that requires aggregate annual payments in excess of then-applicable agreed upon reimbursable amount of indirect general and administrative expenses. Please read "Services" above.

License Provisions. Under the Omnibus Agreement, Martin Resource Management has granted the Partnership a nontransferable, nonexclusive, royalty-free right and license to use certain of its trade names and marks, as well as the trade names and marks used by some of its affiliates.

Amendment and Termination. The Omnibus Agreement may be amended by written agreement of the parties; provided, however, that it may not be amended without the approval of the Conflicts Committee of the Partnership's general partner if such amendment would adversely affect the unitholders. The Omnibus Agreement was first amended on November 25, 2009, to permit the Partnership to provide refining services to Martin Resource Management. The Omnibus Agreement was amended further on October 1, 2012, to permit the Partnership to provide certain lubricant packaging products and services to Martin Resource Management. Such amendments were approved by the Conflicts Committee of the Partnership's general partner. The Omnibus Agreement, other than the indemnification provisions and the provisions limiting the amount for which the Partnership will reimburse Martin Resource Management for general and administrative services performed on its behalf, will terminate if the Partnership is no longer an affiliate of Martin Resource Management.

Motor Carrier Agreement

Motor Carrier Agreement. The Partnership is a party to a motor carrier agreement effective January 1, 2006 as amended, with Martin Transport, Inc., a wholly owned subsidiary of Martin Resource Management through which Martin Transport, Inc. operates its land transportation operations. Under the agreement, Martin Transport, Inc. agreed to transport the Partnership's NGL's as well as other liquid products.

Term and Pricing. The agreement has an initial term that expired in December 2007 but automatically renews for consecutive one year periods unless either party terminates the agreement by giving written notice to the other party at least 30 days prior to the expiration of the then-applicable term. The Partnership has the right to terminate this agreement at any time by providing 90 days prior notice. These rates are subject to any adjustments which are mutually agreed or in accordance with a price index. Additionally, during the term of the agreement, shipping charges are also subject to fuel surcharges determined on a weekly basis in accordance with the U.S. Department of Energy's national diesel price list.

Marine Agreements

Marine Transportation Agreement. The Partnership is a party to a marine transportation agreement effective January 1, 2006, which was amended January 1, 2007, under which the Partnership provides marine transportation services to Martin Resource Management on a spot-contract basis at applicable market rates. Effective each January 1, this agreement automatically renews for consecutive one year periods unless either party terminates the agreement by giving written notice to the other party at least 60 days prior to the expiration of the then applicable term. The fees the Partnership charges Martin Resource Management are based on applicable market rates.

Marine Fuel. The Partnership is a party to an agreement with Martin Resource Management dated November 1, 2002 under which Martin Resource Management provides the Partnership with marine fuel from its locations in the Gulf of Mexico at a fixed rate in excess of the Platt's U.S. Gulf Coast Index for #2 Fuel Oil. Under this agreement, the Partnership agreed to purchase all of its marine fuel requirements that occur in the areas serviced by Martin Resource

Management.

Terminal Services Agreements

Diesel Fuel Terminal Services Agreement. The Partnership is a party to an agreement under which the Partnership provides terminal services to Martin Resource Management. This agreement was amended and restated as of October 27, 2004, and was set to expire in December 2006, but automatically renewed and will continue to automatically renew on a month-to-month basis until either party terminates the agreement by giving 60 days written notice. The per gallon throughput fee the Partnership charges under this agreement may be adjusted annually based on a price index.

Miscellaneous Terminal Services Agreements. The Partnership is currently party to several terminal services agreements and from time to time the Partnership may enter into other terminal service agreements for the purpose of providing terminal services to related parties. Individually, each of these agreements is immaterial but when considered in the aggregate they could be deemed material. These agreements are throughput based with a minimum volume commitment. Generally, the fees due under these agreements are adjusted annually based on a price index.

Talen's Agreements. In connection with the Talen's acquisition, three new agreements were executed, all with effective dates of December 31, 2012. Under the terms of these contracts, Talen's provides terminal services and marine transportation services to Martin Resource Management. The terminal services agreements both have five-year terms and provide a per gallon throughput rate, which may be adjusted annually based on a price index. The marine transportation agreement has an initial term of one year with automatic successive one-year renewals unless either party elects not to do so. Contract rates are based on the horsepower and capacity of the marine vessels.

Other Agreements

Cross Tolling Agreement. The Partnership is a party to an agreement with Cross, dated November 25, 2009, under which it processes crude oil into finished products, including naphthenic lubricants, distillates, asphalt and other intermediate cuts for Cross. The Tolling Agreement has a 22 year term which expires November 25, 2031. Under this Tolling Agreement, Martin Resource Management agreed to process a minimum of 6,500 barrels per day of crude oil at the facility at a fixed price per barrel. Any additional barrels are processed at a modified price per barrel. In addition, Martin Resource Management agreed to pay a monthly reservation fee and a periodic fuel surcharge fee based on certain parameters specified in the Tolling Agreement. All of these fees (other than the fuel surcharge) are subject to escalation annually based upon the greater of 3% or the increase in the Consumer Price Index for a specified annual period. In addition, every three years, the parties can negotiate an upward or downward adjustment in the fees subject to their mutual agreement.

Sulfuric Acid Sales Agency Agreement. The Partnership is party to an agreement dated August 1, 2008 under which Martin Resource Management purchases and markets the sulfuric acid produced by the Partnership’s sulfuric acid production plant at Plainview, Texas, that is not consumed by the Partnership’s internal operations. This agreement, as amended, will remain in place until the Partnership terminates it by providing 180 days’ written notice. Under this agreement, the Partnership sells all of its excess sulfuric acid to Martin Resource Management. Martin Resource Management then markets such acid to third-parties and the Partnership shares in the profit of Martin Resource Management’s sales of the excess acid to such third parties.

Other Miscellaneous Agreements. From time to time the Partnership enters into other miscellaneous agreements with Martin Resource Management for the provision of other services or the purchase of other goods.

The tables below summarize the related party transactions that are included in the related financial statement captions on the face of the Partnership’s Consolidated and Condensed Statements of Operations. The revenues, costs and expenses reflected in these tables are tabulations of the related party transactions that are recorded in the corresponding caption of the consolidated and condensed financial statement and do not reflect a statement of profits and losses for related party transactions.

The impact of related party revenues from sales of products and services is reflected in the consolidated and condensed financial statement as follows:

	Three Months Ended March 31,	
	2013	2012
Revenues:		

Terminalling and storage	$17,328	$15,275
Marine transportation	6,843	4,857
Product sales:		
Natural gas services	9	75
Sulfur services	1,133	1,716
Terminalling and storage	67	399
	1,209	2,190
	$25,380	$22,322

23

NOTES TO CONSOLIDATED AND CONDENSED FINANCIAL STATEMENTS
(Dollars in thousands, except where otherwise indicated)
March 31, 2013
(Unaudited)

The impact of related party cost of products sold is reflected in the consolidated and condensed financial statement as follows:

Cost of products sold:		
Natural gas services	$8,556	$4,315
Sulfur services	4,534	4,431
Terminalling and storage	11,961	12,649
	$25,051	$21,395

The impact of related party operating expenses is reflected in the consolidated and condensed financial statement as follows:

Expenses:		
Operating expenses		
Marine transportation	$10,058	$6,979
Natural gas services	485	471
Sulfur services	2,355	1,318
Terminalling and storage	5,076	5,049
	$17,974	$13,817

The impact of related party selling, general and administrative expenses is reflected in the consolidated and condensed financial statement as follows:

Selling, general and administrative:		
Marine transportation	$15	$5
Natural gas services	579	304
Sulfur services	806	711
Terminalling and storage	361	—
Indirect overhead allocation, net of reimbursement	2,657	1,646
	$4,418	$2,666

(12) Income Taxes

Except as discussed below, the operations of a partnership are generally not subject to income taxes because its income is taxed directly to its partners.

The activities of the Blending and Packaging Assets prior to the acquisition by the Partnership were subject to federal and state income taxes. Accordingly, income taxes have been included in the Blending and Packaging Assets' operating results for the three months ended March 31, 2012.

Woodlawn Pipeline Co., Inc ("Woodlawn"), a former subsidiary of the Partnership, was subject to income taxes due to its corporate structure. The assets of Woodlawn were included in the Prism Assets disposed of during 2012. The entity was liquidated on December 31, 2012. Income tax expense related to Woodlawn is recorded in discontinued operations. A current state income tax expense of $0 and $2 related to Woodlawn was recorded for the three months ended March 31, 2013 and 2012 respectively.

The Partnership established deferred income taxes of $8,964 associated with book and tax basis differences of the acquired Woodlawn assets and liabilities at the date of acquisition. The basis differences related primarily to property, plant and equipment. A deferred tax benefit related to the Woodlawn basis differences of $0 and $170 was recorded for the three months ended March 31, 2013 and 2012, respectively.

MARTIN MIDSTREAM PARTNERS L.P.
NOTES TO CONSOLIDATED AND CONDENSED FINANCIAL STATEMENTS
(Dollars in thousands, except where otherwise indicated)
March 31, 2013
(Unaudited)

Effective January 1, 2007, the Partnership became subject to the Texas margin tax, which is considered a state income tax, and is included in income tax expense on the Consolidated and Condensed Statements of Operations. The Texas margin tax restructured the state business tax by replacing the taxable capital and earned surplus components of the existing franchise tax with a new “taxable margin” component. Since the tax base on the Texas margin tax is derived from an income-based measure, the margin tax is construed as an income tax and, therefore, the recognition of deferred taxes applies to the margin tax. The impact on deferred taxes as a result of this provision is immaterial. State income taxes attributable to the Texas margin tax of $307 and $267 were recorded in current income tax expense for the three months ended March 31, 2013 and 2012, respectively.

The components of income tax expense (benefit) from operations recorded for the three months ended March 31, 2013 and 2012 are as follows:

	Three Months Ended March 31,	
	2013	2012
Current:		
Federal	$—	$ 1,217
State	307	441
	307	1,658
Deferred:		
Federal	—	(169)
Total income tax expense	$ 307	$ 1,489

Total income tax expense was allocated to continuing and discontinued operations as follows:

Income tax expense (benefit) from continuing operations:

	Three Months Ended March 31,	
	2013	2012
Current:		
Federal	$—	$ 1,217
State	307	439
	307	1,656
Deferred:		
Federal	—	1
Total income tax expense from continuing operations	$ 307	$ 1,657

Income tax expense (benefit) from discontinued operations:

	Three Months Ended March 31,	
	2013	2012
Current:		
Federal	$—	$—

State	—	2
	—	2
Deferred:		
Federal	—	(170)
Total income tax (benefit) from discontinued operations	$—	$(168)

(13) Business Segments

The Partnership has four reportable segments: terminalling and storage, natural gas services, sulfur services and marine transportation. The Partnership’s reportable segments are strategic business units that offer different products and services. The operating income of these segments is reviewed by the chief operating decision maker to assess performance and make business decisions.

The accounting policies of the operating segments are the same as those described in Note 2 in the Partnership’s annual report on Form 10-K for the year ended December 31, 2012, filed with the SEC on March 4, 2013. The Partnership evaluates the performance of its reportable segments based on operating income. There is no allocation of administrative expenses or interest expense.

The natural gas services segment information below excludes the discontinued operations of the Prism Assets for all periods. See Note 4.

	Operating Revenues	Intersegment Revenues Eliminations	Operating Revenues after Eliminations	Depreciation and Amortization	Operating Income (loss) after eliminations	Capital Expenditures
Three Months Ended March 31, 2013						
Terminalling and storage	$80,353	$(1,141)	$79,212	$7,096	$9,983	$14,049
Natural gas services	259,439	—	259,439	292	8,462	115
Sulfur services	70,385	—	70,385	1,966	9,344	201
Marine transportation	25,232	(582)	24,650	2,539	2,539	350
Indirect selling, general and administrative	—	—	—	—	(3,943)	—
Total	$435,409	$(1,723)	$433,686	$11,893	$26,385	$14,715
Three Months Ended March 31, 2012						
Terminalling and storage	$81,976	$(1,175)	$80,801	$4,976	$6,779	$24,324
Natural gas services	172,111	—	172,111	143	3,220	14
Sulfur services	74,552	—	74,552	1,793	13,627	989
Marine transportation	21,567	(705)	20,862	3,041	(1,427)	5,708
Indirect selling, general and administrative	—	—	—	—	(2,418)	—
Total	$350,206	$(1,880)	$348,326	$9,953	$19,781	$31,035

The Partnership's assets by reportable segment, which exclude assets held for sale of $1,251 and $3,578, respectively, as of March 31, 2013 and December 31, 2012, are as follows:

	March 31, 2013	December 31, 2012
Total assets:		

Terminalling and storage	$384,759	$376,330
Natural gas services	314,330	331,064
Sulfur services	172,267	155,639
Marine transportation	165,009	149,963
Total assets	$1,036,365	$1,012,996

(Dollars in thousands, except where otherwise indicated)
March 31, 2013
(Unaudited)

(14) Unit Based Awards

The Partnership recognizes compensation cost related to stock-based awards to employees in its consolidated financial statements in accordance with certain provisions of ASC 718. The Partnership recognizes compensation costs related to stock-based awards to directors under certain provisions of FASB ASC 505-50-55 related to equity-based payments to non-employees. Amounts recognized in selling, general, and administrative expense in the consolidated and condensed financial statements with respect to these plans are as follows:

	Three Months Ended March 31,	
	2013	2012
Employees	$195	$21
Non-employee directors	61	35
Total unit-based compensation expense	$256	$56

Long-Term Incentive Plans

The Partnership's general partner has a long term incentive plan for employees and directors of the general partner and its affiliates who perform services for the Partnership.

The plan consists of two components, restricted units and unit options. The plan currently permits the grant of awards covering an aggregate of 725,000 common units, 241,667 of which may be awarded in the form of restricted units and 483,333 of which may be awarded in the form of unit options. The plan is administered by the Compensation Committee of the general partner’s board of directors.

Restricted Units. A restricted unit is a unit that is granted to grantees with certain vesting restrictions. Once these restrictions lapse, the grantee is entitled to full ownership of the unit without restrictions. In addition, the restricted units will vest upon a change of control of the Partnership, the general partner or Martin Resource Management or if the general partner ceases to be an affiliate of Martin Resource Management. The Partnership intends the issuance of the common units upon vesting of the restricted units under the plan to serve as a means of incentive compensation for performance and not primarily as an opportunity to participate in the equity appreciation of the common units. Therefore, plan participants will not pay any consideration for the common units they receive, and the Partnership will receive no remuneration for the units. The restricted units issued to directors generally vest in equal annual installments over a four-year period. Restricted units issued to employees generally cliff vest after three years of service.

The restricted units are valued at their fair value at the date of grant which is equal to the market value of common units on such date. A summary of the restricted unit activity for the quarter ended March 31, 2013 is provided below:

	Number of Units	Weighted Average Grant-Date Fair Value Per Unit
Non-vested, beginning of period	13,248	$37.33

Granted	57,750	$ 31.06
Vested	(4,500)	$ 37.27
Forfeited	—	—
Non-Vested, end of period	66,498	$ 31.89
Aggregate intrinsic value, end of period	$ 2,562	

A summary of the restricted units' aggregate intrinsic value (market value at vesting date) and fair value of units vested (market value at date of grant) during the three months ended March 31, 2013 and 2012 are provided below:

MARTIN MIDSTREAM PARTNERS L.P.
NOTES TO CONSOLIDATED AND CONDENSED FINANCIAL STATEMENTS
(Dollars in thousands, except where otherwise indicated)
March 31, 2013
(Unaudited)

	Three Months Ended March 31,	
	2013	2012
Aggregate intrinsic value of units vested	$ 153	$ 203
Fair value of units vested	$ 168	$ 209

As of March 31, 2013, there was $1,957 of unrecognized compensation cost related to non-vested restricted units. That cost is expected to be recognized over a weighted-average period of 2.66 years.

Unit Options. The plan currently permits the grant of options covering common units. As of May 6, 2013, we have not granted any common unit options to directors or employees of the Partnership's general partner, or its affiliates. In the future, the Compensation Committee may determine to make grants under the plan to employees and directors containing such terms as the Compensation Committee shall determine. Unit options will have an exercise price that, in the discretion of the committee, may not be less than the fair market value of the units on the date of grant. In addition, the unit options will become exercisable upon a change in control of the Partnership's general partner, Martin Resource Management or if the general partner ceases to be an affiliate of Martin Resource Management or upon the achievement of specified financial objectives.

(15) Condensed Consolidating Financial Information

Martin Operating Partnership L.P. (the “Operating Partnership”), the Partnership’s wholly-owned subsidiary, has issued in the past, and may issue in the future, unconditional guarantees of senior or subordinated debt securities of the Partnership in the event that the Partnership issues such securities from time to time. If issued, the guarantees will be full, irrevocable and unconditional. In addition, the Operating Partnership may also issue senior or subordinated debt securities which, if issued, will be fully, irrevocably and unconditionally guaranteed by the Partnership.

Since December 31, 2012, the Partnership has added Redbird and MOP Midstream Holdings, LLC as subsidiary guarantors to its outstanding senior notes and has transferred substantially all of Talen's assets to certain of the Partnership's other subsidiary guarantors. Therefore, the Partnership no longer presents condensed consolidating financial information for any non-subsidiary guarantors.

The Partnership does not provide separate financial statements of the Operating Partnership because the Partnership has no independent assets or operations, the guarantees are full and unconditional, and the other subsidiary of the Partnership is minor. There are no significant restrictions on the ability of the Partnership or the Operating Partnership to obtain funds from any of their respective subsidiaries by dividend or loan.

(16) Commitments and Contingencies

From time to time, the Partnership is subject to various claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Partnership.

(17) Subsequent Events

Quarterly Distribution. On April 25, 2013, The Partnership declared a quarterly cash distribution of $0.775 per common unit for the first quarter of 2013, or $3.10 per common unit on an annualized basis, which will be paid on May 15, 2013 to unitholders of record as of May 8, 2013.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

References in this quarterly report on Form 10-Q to “Martin Resource Management” refers to Martin Resource Management Corporation and its subsidiaries, unless the context otherwise requires. You should read the following discussion of our financial condition and results of operations in conjunction with the consolidated and condensed financial statements and the notes thereto included elsewhere in this quarterly report.

Forward-Looking Statements

This quarterly report on Form 10-Q includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Statements included in this quarterly report that are not historical facts (including any statements concerning plans and objectives of management for future operations or economic performance, or assumptions or forecasts related thereto), including, without limitation, the information set forth in Management’s Discussion and Analysis of Financial Condition and Results of Operations, are forward-looking statements. These statements can be identified by the use of forward-looking terminology including “forecast,” “may,” “believe,” “will,” “expect,” “anticipate,” “estimate,” “continue,” or similar words. These statements discuss future expectations, contain projections of results of operations or of financial condition or state other “forward-looking” information. We and our representatives may from time to time make other oral or written statements that are also forward-looking statements.

These forward-looking statements are made based upon management’s current plans, expectations, estimates, assumptions and beliefs concerning future events impacting us and therefore involve a number of risks and uncertainties. We caution that forward-looking statements are not guarantees and that actual results could differ materially from those expressed or implied in the forward-looking statements.

Because these forward-looking statements involve risks and uncertainties, actual results could differ materially from those expressed or implied by these forward-looking statements for a number of important reasons, including those discussed under “Item 1A. Risk Factors” of our Form 10-K for the year ended December 31, 2012, filed with the Securities and Exchange Commission (the “SEC”) on March 4, 2013, and in this report.

Overview

We are a publicly traded limited partnership with a diverse set of operations focused primarily in the United States ("U.S.") Gulf Coast region. Our four primary business lines include:

- Terminalling and storage services for petroleum products and by-products including the refining, blending and packaging of finished lubricants;
- Natural gas liquids distribution services and natural gas storage;
- Sulfur and sulfur-based products gathering, processing, marketing, manufacturing and distribution; and
- Marine transportation services for petroleum products and by-products.

The petroleum products and by-products we collect, transport, store and market are produced primarily by major and independent oil and gas companies who often turn to third parties, such as us, for the transportation and disposition of these products. In addition to these major and independent oil and gas companies, our primary customers include independent refiners, large chemical companies, fertilizer manufacturers and other wholesale purchasers of these products. We operate primarily in the U.S. Gulf Coast region. This region is a major hub for petroleum refining,

natural gas gathering and processing, and support services for the exploration and production industry.

We were formed in 2002 by Martin Resource Management, a privately-held company whose initial predecessor was incorporated in 1951 as a supplier of products and services to drilling rig contractors. Since then, Martin Resource Management has expanded its operations through acquisitions and internal expansion initiatives as its management identified and capitalized on the needs of producers and purchasers of petroleum products and by-products and other bulk liquids. Martin Resource Management is an important supplier and customer of ours. As of March 31, 2013, Martin Resource Management owned 19.1% of our total outstanding common limited partner units. Furthermore, it owns and controls our general partner, which

---

owns a 2.0% general partner interest in us and all of our incentive distribution rights. Martin Resource Management directs our business operation through its ownership and control of our general partner.

Martin Resource Management has operated our business since 2002. Martin Resource Management began operating our natural gas services business in the 1950s and our sulfur business in the 1960s. It began our marine transportation business in the late 1980s. It entered into our fertilizer and terminalling and storage businesses in the early 1990s. In recent years, Martin Resource Management has increased the size of our asset base through expansions and strategic acquisitions.

Recent Developments

We believe one of the rationales driving investment in master limited partnerships, including us, is the opportunity for distribution growth offered by the partnerships. Such distribution growth is a function of having access to liquidity in the financial markets used for incremental capital investment (development projects and acquisitions) to grow distributable cash flow.

We continually adjust our business strategy to focus on maximizing liquidity, maintaining a stable asset base which generates fee based revenues not sensitive to commodity prices, and improving profitability by increasing asset utilization and controlling costs. Over the past year, we have had access to the capital markets and have appropriate levels of liquidity and operating cash flows to adequately fund our growth. Over the next two years, we plan to increase growth capital expenditures primarily in our Terminalling and Storage and Natural Gas Services segments.

NGL Marine Equipment Purchase. On February 28, 2013, we purchased from affiliates of Florida Marine Transporters, Inc. ("Florida Marine Assets") six liquefied petroleum gas pressure barges and two commercial push boats for approximately $50.8 million. The purchase was funded with borrowings under our revolving credit facility.

Talen's Marine & Fuel LLC. On December 31, 2012, we acquired all of the outstanding membership interests in Talen's Marine & Fuel LLC (“Talen's”) from Quintana Energy Partners, L.P. for $103.4 million, subject to certain post-closing adjustments. Simultaneous with the acquisition, we sold certain working capital-related assets to Martin Energy Services LLC (“MES”), a wholly-owned subsidiary of Martin Resource Management for $56.0 million, reducing our investment in Talen's to $47.4 million. In conjunction with its purchase of certain working capital-related assets, MES entered into various service agreements with Talen's pursuant to which we provide certain terminalling and marine services to MES.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based on the historical consolidated and condensed financial statements included elsewhere herein. We prepared these financial statements in conformity with generally accepted accounting principles. The preparation of these financial statements required us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. We based our estimates on historical experience and on various other assumptions we believe to be reasonable under the circumstances. Our results may differ from these estimates. Currently, we believe that our accounting policies do not require us to make estimates using assumptions about matters that are highly uncertain. Changes in these estimates could materially affect our financial position, results of operations or cash flows. Significant items that are subject to such estimates and assumptions include the amount of the allowance for doubtful accounts receivable and the determination of the fair value of our reporting units under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 350 related to goodwill. A discussion of our significant accounting policies we have adopted and followed in the preparation of our consolidated financial statements is included within our Annual Report on Form 10-K for the year ended December 31, 2012, and there have been no material changes to these policies through March

31, 2013.

Our Relationship with Martin Resource Management

Martin Resource Management is engaged in the following principal business activities:

- providing land transportation of various liquids using a fleet of trucks and road vehicles and road trailers;
- distributing fuel oil, asphalt, sulfuric acid, marine fuel and other liquids;
- providing marine bunkering and other shore-based marine services in Alabama, Louisiana, Mississippi and Texas;

- operating a crude oil gathering business in Stephens, Arkansas;
- providing crude oil gathering, refining, and marketing services of base oils, asphalt, and distillate products in Smackover, Arkansas;
- operating an underground NGL storage facility in Arcadia, Louisiana;
- operating an environmental consulting company;
- operating an engineering services company;
- building and marketing of sulfur processing equipment;
- supplying employees and services for the operation of our business;
- operating, for its account and our account, the docks, roads, loading and unloading facilities and other common use facilities or access routes at our Stanolind terminal; and
- operating, solely for our account, the asphalt facilities in Omaha, Nebraska, Port Neches, Texas and South Houston, Texas.

We are and will continue to be closely affiliated with Martin Resource Management as a result of the following relationships.

Ownership

Martin Resource Management owns an approximate 19.1% limited partnership interest and a 2% general partnership interest in us and all of our incentive distribution rights.

Management

Martin Resource Management directs our business operations through its ownership and control of our general partner. We benefit from our relationship with Martin Resource Management through access to a significant pool of management expertise and established relationships throughout the energy industry. We do not have employees. Martin Resource Management employees are responsible for conducting our business and operating our assets on our behalf.

Related Party Agreements

The omnibus agreement with Martin Resource Management requires us to reimburse Martin Resource Management for all direct expenses it incurs or payments it makes on our behalf or in connection with the operation of our business. We reimbursed Martin Resource Management for $44.8 million of direct costs and expenses for the three months ended March 31, 2013 compared to $36.2 million for the three months ended March 31, 2012. There is no monetary limitation on the amount we are required to reimburse Martin Resource Management for direct expenses.

In addition to the direct expenses, under the omnibus agreement, we are required to reimburse Martin Resource Management for indirect general and administrative and corporate overhead expenses. For the three months ended March 31, 2013 and 2012, the Conflicts Committee of our general partner approved reimbursement amounts of $2.7 and $1.6 million, respectively, reflecting our allocable share of such expenses. The Conflicts Committee will review and approve future adjustments in the reimbursement amount for indirect expenses, if any, annually. These indirect

expenses covered the centralized corporate functions Martin Resource Management provides for us, such as accounting, treasury, clerical, engineering, legal, billing, information technology, administration of insurance, general office expenses and employee benefit plans and other general corporate overhead functions we share with Martin Resource Management's retained businesses. The Omnibus Agreement also contains significant non-compete provisions and indemnity obligations. Martin Resource Management also licenses certain of its trademarks and trade names to us under the Omnibus Agreement.

The agreements include, but are not limited to, motor carrier agreements, marine transportation agreements, terminal services agreements, a tolling agreement, a sulfuric acid agreement, and various other miscellaneous agreements. Pursuant to the terms of the omnibus agreement, we are prohibited from entering into certain material agreements with Martin Resource Management without the approval of the Conflicts Committee of our general partner's board of directors.

For a more comprehensive discussion concerning the omnibus agreement and the other agreements that we have entered into with Martin Resource Management, please refer to "Item 13. Certain Relationships and Related Transactions – Agreements" set forth in our annual report on Form 10-K for the year ended December 31, 2012, filed with the SEC on March 4, 2013.

Commercial

We have been and anticipate that we will continue to be both a significant customer and supplier of products and services offered by Martin Resource Management. Our motor carrier agreement with Martin Resource Management provides us with access to Martin Resource Management's fleet of road vehicles and road trailers to provide land transportation in the areas served by Martin Resource Management. Our ability to utilize Martin Resource Management's land transportation operations is currently a key component of our integrated distribution network.

We also use the underground storage facilities owned by Martin Resource Management in our natural gas services operations. We lease an underground storage facility from Martin Resource Management in Arcadia, Louisiana with a storage capacity of 2.2 million barrels. Our use of this storage facility gives us greater flexibility in our operations by allowing us to store a sufficient supply of product during times of decreased demand for use when demand increases.

In the aggregate, our purchases of land transportation services, NGL storage services, lube oil product purchases and sulfur services payroll reimbursements from Martin Resource Management accounted for approximately 7% and 8% of our total cost of products sold during the three months ended March 31, 2013 and 2012, respectively. We also purchase marine fuel from Martin Resource Management, which we account for as an operating expense.

Correspondingly, Martin Resource Management is one of our significant customers. It primarily uses our terminalling, marine transportation and NGL distribution services for its operations. We provide terminalling and storage services under a terminal services agreement. We provide marine transportation services to Martin Resource Management under a charter agreement on a spot-contract basis at applicable market rates. Our sales to Martin Resource Management accounted for approximately 6% of our total revenues for both the three months ended March 31, 2013 and 2012. We have entered into certain agreements with Martin Resource Management pursuant to which we provide terminalling and storage and marine transportation services to its subsidiary, MES, and MES provides terminal services to us to handle lubricants, greases and drilling fluids. Additionally, we have entered into a long-term, fee for services-based Tolling Agreement with Martin Resource Management where Martin Resource Management agrees to pay us for the processing of its crude oil into finished products, including naphthenic lubricants, distillates, asphalt and other intermediate cuts.

For a more comprehensive discussion concerning the agreements that we have entered into with Martin Resource Management, please refer to "Item 13. Certain Relationships and Related Transactions – Agreements" set forth in our annual report on Form 10-K for the year ended December 31, 2012, filed with the SEC on March 4, 2013.

Approval and Review of Related Party Transactions

If we contemplate entering into a transaction, other than a routine or in the ordinary course of business transaction, in which a related person will have a direct or indirect material interest, the proposed transaction is submitted for consideration to the board of directors of our general partner or to our management, as appropriate. If the board of directors is involved in the approval process, it determines whether to refer the matter to the Conflicts Committee of our general partner's board of directors, as constituted under our limited partnership agreement. If a matter is referred to the Conflicts Committee, it obtains information regarding the proposed transaction from management and determines whether to engage independent legal counsel or an independent financial advisor to advise the members of the committee regarding the transaction. If the Conflicts Committee retains such counsel or financial advisor, it

considers such advice and, in the case of a financial advisor, such advisor’s opinion as to whether the transaction is fair and reasonable to us and to our unitholders.

Results of Operations

The results of operations for the three months ended March 31, 2013 and 2012 have been derived from our consolidated and condensed financial statements.

We evaluate segment performance on the basis of operating income, which is derived by subtracting cost of products sold, operating expenses, selling, general and administrative expenses, and depreciation and amortization expense from revenues. The following table sets forth our operating revenues and operating income by segment for the three months ended March 31, 2013 and

2012. The results of operations for these interim periods during the year are not necessarily indicative of the results of operations which might be expected for the entire year.

The natural gas services segment information below excludes the discontinued operations of the Prism Assets for all periods.

	Operating Revenues	Intersegment Revenues Eliminations	Operating Revenues after Eliminations	Operating Income (loss)	Operating Income Intersegment Eliminations	Operating Income (loss) after Eliminations
	(In thousands)					
Three Months Ended March 31, 2013						
Terminalling and storage	$80,353	$(1,141)	$79,212	$10,669	$(686)	$9,983
Natural gas services	259,439	—	259,439	8,104	358	8,462
Sulfur services	70,385	—	70,385	10,046	(702)	9,344
Marine transportation	25,232	(582)	24,650	1,509	1,030	2,539
Indirect selling, general and administrative	—	—	—	(3,943)	—	(3,943)
Total	$435,409	$(1,723)	$433,686	$26,385	$—	$26,385
Three Months Ended March 31, 2012						
Terminalling and storage	$81,976	$(1,175)	$80,801	$7,433	$(654)	$6,779
Natural gas services	172,111	—	172,111	2,843	377	3,220
Sulfur services	74,552	—	74,552	12,535	1,092	13,627
Marine transportation	21,567	(705)	20,862	(612)	(815)	(1,427)
Indirect selling, general and administrative	—	—	—	(2,418)	—	(2,418)
Total	$350,206	$(1,880)	$348,326	$19,781	$—	$19,781

Our results of operations are discussed on a comparative basis below. There are certain items of income and expense which we do not allocate on a segment basis. These items, including equity in earnings (loss) of unconsolidated entities, interest expense, and indirect selling, general and administrative expenses, are discussed after the comparative discussion of our results within each segment.

Three Months Ended March 31, 2013 Compared to the Three Months Ended March 31, 2012

Our total revenues before eliminations were $435.4 million for the three months ended March 31, 2013 compared to $350.2 million for the three months ended March 31, 2012, an increase of $85.2 million, or 24%. Our operating income before eliminations was $26.4 million for the three months ended March 31, 2013 compared to $19.8 million for the three months ended March 31, 2012, an increase of $6.6 million, or 33%.

The results of operations are described in greater detail on a segment basis below.

Terminalling and Storage Segment

The following table summarizes our results of operations in our terminalling and storage segment.

	Three Months Ended March 31,	
	2013	2012
	(In thousands)	
Revenues:		
Services	$30,032	$21,361
Products	50,321	60,615
Total revenues	80,353	81,976
Cost of products sold	44,270	54,166
Operating expenses	17,694	14,044
Selling, general and administrative expenses	695	1,377
Depreciation and amortization	7,096	4,976
	10,598	7,413
Other operating income	71	20
Operating income	$10,669	$7,433
Terminalling volumes (Bbls)	209.6	237.9

Revenues. Our terminalling and storage revenues decreased $1.6 million, or 2%, for the three months ended March 31, 2013 compared to the three months ended March 31, 2012. Service revenue increased $8.7 million, or 41%, while product revenue decreased $10.3 million, or 17%.

The increase in throughput service revenues is primarily due to $6.7 million attributable to our new crude terminal in Corpus Christi, Texas, which was placed into service in May of 2012, $1.4 million due to increased tolling and pipeline revenues from our refinery assets in Smackover, Arkansas and $1.4 million due to revenues generated from Talen's operations after its acquisition on December 31, 2012.

The decrease in product sales revenues primarily relates to decreased sales volumes of 1.2 million gallons combined with decreases in our average sales price for the three months ended March 31, 2013 compared to the three months ended March 31, 2012. Product sales volumes decreased in our shore based operations by 0.4 million gallons primarily due to decreased activity in the Houston ship channel and Port of Galveston, resulting in a $2.3 million decrease in product revenues. A decline in the average sales price at our shore-based terminals resulted in a $2.1 million decrease in product revenues. Product sales volumes from our Blending and Packaging assets decreased by 0.8 million gallons from reduced sales days in the quarter caused from down time at the refinery due to boiler repairs, resulting in a $4.5 million decrease in product revenues. Decreases in the average sales price from our Smackover blending and packaging assets resulted in a $1.4 million decrease in product revenues.

Cost of products sold. Cost of products sold decreased $9.9 million, or 18%, for the three months ended March 31, 2013 compared to the three months ended March 31, 2012. Of this decrease, $2.1 million relates to decreased product sales volumes from our shore-based operations and $3.8 million relates to decreased sales activity from our Blending and Packing assets. Lower average cost per gallon from our gulf coast operations resulted in a $2.3 million decrease in cost of sales. Lower average cost per gallon from our Smackover blending and packaging assets resulted in a $0.7 million decrease in cost of sales. Overall, our margins increased as the percentage decrease in cost of products sold was larger than the percentage decrease in sales revenue.

Operating expenses. Operating expenses increased $3.7 million, or 26%, for the three months ended March 31, 2013 compared to the three months ended March 31, 2012. Expenses for the Corpus Christi terminal accounted for $2.0 million of the increase. In addition, $1.2 million of the increase is attributable to the Smackover refining assets and $0.2 million relates to increased operating expenses in our shore based division.

At the Smackover refinery, $0.4 million of the increase relates to repairs and maintenance expenses from boiler repairs and $0.3 million is due to increased pipeline fees. Additionally, natural gas utilities increased $0.3 million and insurance premiums increased $0.2 million as our asset based expanded from capital projects.

Selling, general and administrative expenses. Selling, general and administrative expenses decreased $0.7 million or 50%, for the three months ended March 31, 2013, as compared to the three months ended March 31, 2012. This decrease is primarily related to decreased advertising and wage expense in our lubricants operations.

Depreciation and amortization. Depreciation and amortization increased $2.1 million, or 43%, for the three months ended March 31, 2013 compared to the three months ended March 31, 2012, resulting from projects capitalized during the past twelve months.

Other operating income. Other operating income remained consistent for the three months ended March 31, 2013 compared to the three months ended March 31, 2012.

In summary, our terminalling and storage operating income increased $3.2 million, or 44%, for the three months ended March 31, 2013 compared to the three months ended March 31, 2012.

Natural Gas Services Segment

The following table summarizes our results of operations in our natural gas services segment.

	Three Months Ended March 31,	
	2013	2012
	(In thousands)	
Revenues:		
Marine transportation	$330	$—
Product	259,109	172,111
Total revenues	259,439	172,111
Cost of products sold	249,136	167,576
Operating expenses	981	952
Selling, general and administrative expenses	926	597
Depreciation and amortization	292	143
Operating income	$8,104	$2,843
NGLs volumes (Bbls)	3,705	2,297

Revenues. Our natural gas services revenues increased $87.3 million, or 51% for the three months ended March 31, 2013, compared to the three months ended March 31, 2012. Of this increase, $87.0 million is related to product revenues and $0.3 million is related to marine transportation floating storage revenue. Natural gas services volumes for the three months of 2013 increased 61% compared to the same period of 2012, positively impacting revenues $98.5 million, primarily as a result of us entering the Louisiana butane market during April of 2012. Our NGL average sales price per barrel for the three months ended March 31, 2013, decreased $4.99, or 7% compared to the same period of 2012, resulting in an offsetting decrease to revenues of $11.5 million. The increase in marine transportation floating storage revenue of $0.3 million is attributable to our acquisition of the Florida Marine Assets on February 28, 2013.

Cost of products sold. Our cost of products sold increased $81.6 million, or 49%, for the three months ended March 31, 2013, compared to the three months ended March 31, 2012. The percentage increase in NGL cost of products sold was slightly lower than our percentage increase in NGL revenues, resulting in increased margins of $0.72 per barrel, or 36%, primarily as a result of increased margins gained as a result of us entering the Louisiana butane market during April of 2012.

Operating expenses. Operating expenses remained consistent for the three months ended March 31, 2013, as compared to the three months ended March 31, 2012.

Selling, general and administrative expenses. Selling, general and administrative expenses increased $0.3 million, or 55%, for the three months ended March 31, 2013, as compared to the three months ended March 31, 2012. This is primarily due to increased compensation expense.

Depreciation and amortization. Depreciation and amortization increased $0.1 million, or 104%, for the three months ended March 31, 2013, as compared to the three months ended March 31, 2012 as a result of the acquisition of the Florida Marine Assets.

In summary, our natural gas services operating income increased $5.3 million, or 185%, for the three months ended March 31, 2013, compared to the three months ended March 31, 2012.

Sulfur Services Segment

The following table summarizes our results of operations in our sulfur services segment.

	Three Months Ended March 31,	
	2013	2012
	(In thousands)	
Revenues:		
Services	$3,001	$2,926
Products	67,384	71,626
Total revenues	70,385	74,552
Cost of products sold	52,887	55,051
Operating expenses	4,439	4,193
Selling, general and administrative expenses	1,047	955
Depreciation and amortization	1,966	1,793
	10,046	12,560
Other operating income (loss)	—	(25)
Operating income	$10,046	$12,535
Sulfur (long tons)	194.0	279.0
Fertilizer (long tons)	103.7	93.9
Sulfur services volumes (long tons)	297.7	372.9

Revenues. Our total sulfur services revenues decreased $4.2 million, or 6%, for the three months ended March 31, 2013 compared to the three months ended March 31, 2012. A revenue increase of $12.8 million was the result of a 18% increase in average sales price, offset by $17.0 million of decreased revenue from a 20% decline in volumes. The volume reduction was primarily related to the conversion of a buy/sell contract with a major customer to a fee-based handling contract. There was no change in services revenues.

Cost of products sold. Our cost of products sold decreased $2.2 million, or 4%, for the three months ended March 31, 2013 compared to the three months ended March 31, 2012. The percentage decrease in cost of products sold was lower than our percentage decrease in revenues, resulting in an increase in our margin per ton of 10%. This decrease is also related to a decline in the volume sold of our sulfur products.

Operating expenses. Our operating expenses increased $0.2 million, or 6%, for the three months ended March 31, 2013 compared to the three months ended March 31, 2012. This increase was a result of increased fuel expenses of $0.2 million.

Selling, general and administrative expenses. Selling, general and administrative expenses increased $0.1 million, or 10%, for the three months ended March 31, 2013, compared to the three months ended March 31, 2012. This increase is related to an increase of $0.1 million in compensation expense.

Depreciation and amortization. Depreciation and amortization expense increased $0.2 million, or 10%, for the three months ended March 31, 2013 compared to the three months ended March 31, 2012. This increase is a result of capital

expenditures made during the past twelve months.

Other operating income. Other operating income remained flat for both the three months ended March 31, 2013 and 2012.

In summary, our sulfur services operating income decreased $2.5 million, or 20%, for the three months ended March 31, 2013 compared to the three months ended March 31, 2012.

Marine Transportation Segment

The following table summarizes our results of operations in our marine transportation segment.

	Three Months Ended March 31,	
	2013	2012
	(In thousands)	
Revenues	$25,232	$21,567
Operating expenses	21,066	18,714
Selling, general and administrative expenses	419	424
Depreciation and amortization	2,539	3,041
	1,208	(612)
Other operating income	301	—
Operating income (loss)	$1,509	$(612)

Revenues. Our marine transportation revenues increased $3.7 million, or 17%, for the three months ended March 31, 2013, compared to the three months ended March 31, 2012. This increase was a result of an increase in our inland and offshore marine revenues of $2.8 million and $0.9 million, respectively. The inland revenue increase is attributable to $2.5 million from operations after the Talen's acquisition, $0.1 million from the Florida Marine Assets, and $0.2 million of higher ancillary charges, primarily fuel. Offshore revenue rose due to $1.1 million of increased demand for our two offshore tows which operate in the spot market. The offshore increase was offset partially by a $0.2 decrease in ancillary charges.

Operating expenses. Operating expenses increased $2.4 million, or 13%, for the three months ended March 31, 2013, compared to the three months ended March 31, 2012. This increase is primarily attributable to operating expenses related to the Talen's assets which were acquired on December 31, 2012.

Selling, general and administrative expenses. Selling, general and administrative expenses remained consistent for the three months ended March 31, 2013, compared to the three months ended March 31, 2012.

Depreciation and amortization. Depreciation and amortization decreased $0.5 million, or 17%, for the three months ended March 31, 2013, compared to the three months ended March 31, 2012. This decrease was primarily a result of certain marine assets becoming fully depreciated offset by capital expenditures made in the last twelve months.

Other operating income. Other operating income for the three months ended March 31, 2013 includes the gain on disposition of property, plant, and equipment.

In summary, our marine transportation operating income increased $2.1 million for the three months ended March 31, 2013 compared to the three months ended March 31, 2012.

Equity in Earnings of Unconsolidated Entities

For the three months ended March 31, 2013, equity in earnings of unconsolidated entities relates to our unconsolidated interests in Redbird Gas Storage Partners LLC ("Redbird") and Caliber Gathering System, LLC ("Caliber"). For the three months ended March 31, 2012, equity in earnings of unconsolidated entities relates to our unconsolidated interest in Redbird.

The results of our investment in these entities was a loss of $0.4 million for the three months ended March 31, 2013 compared to earnings of $0.2 million for the three months ended March 31, 2012, a decrease of $0.6 million. This $0.6 million decrease is attributable to $0.4 million for Redbird and $0.2 million for Caliber. The Redbird loss is attributable a decline in Cardinal's operating results in the first quarter of 2013 as compared to the first quarter of 2012. The initial Caliber investment was made in the second quarter of 2012 so no equity in earnings or losses were recognized in the quarter ended March 31, 2012.

Interest Expense

Our interest expense for all operations was $9.1 million for the three months ended March 31, 2013, compared to $7.7 million for the three months ended March 31, 2012, an increase of $1.4 million, or 18% This increase is due principally to the increase in the weighted average interest rate of our total long-term debt as a result of utilizing the net proceeds from the issuance of the 7.25% Senior Notes in February 2013 to pay down the balance of the revolving loan facility.

Indirect Selling, General and Administrative Expenses

Indirect selling, general and administrative expenses were $3.9 million for the three months ended March 31, 2013 compared to $2.4 million for 2012, an increase of $1.5 million or 63% due primarily to an increase in overhead expense allocated from Martin Resource Management.

Martin Resource Management allocates to us a portion of its indirect selling, general and administrative expenses for services such as accounting, treasury, clerical billing, information technology, administration of insurance, engineering, general office expense and employee benefit plans and other general corporate overhead functions we share with Martin Resource Management retained businesses. This allocation is based on the percentage of time spent by Martin Resource Management personnel that provide such centralized services. Generally accepted accounting principles also permit other methods for allocation of these expenses, such as basing the allocation on the percentage of revenues contributed by a segment. The allocation of these expenses between Martin Resource Management and us is subject to a number of judgments and estimates, regardless of the method used. We can provide no assurances that our method of allocation, in the past or in the future, is or will be the most accurate or appropriate method of allocation for these expenses. Other methods could result in a higher allocation of selling, general and administrative expense to us, which would reduce our net income.

In addition to the direct expenses, under the Omnibus Agreement, we are required to reimburse Martin Resource Management for indirect general and administrative and corporate overhead expenses. For the three months ended March 31, 2013 and 2012, the Conflicts Committee of our general partner approved reimbursement amounts of $2.7 million and $1.6 million, respectively, reflecting our allocable share of such expenses. The Conflicts Committee will review and approve future adjustments in the reimbursement amount for indirect expenses, if any, annually.

Liquidity and Capital Resources

General

Our primary sources of liquidity to meet operating expenses, pay distributions to our unitholders and fund capital expenditures are cash flows generated by our operations and access to debt and equity markets, both public and private. We have recently completed several transactions that have improved our liquidity position, helping fund our acquisitions and organic growth projects. In February 2013, we received net proceeds of $245.1 million from a private placement of senior notes. In July 2012, we completed the sale of certain gas gathering and processing assets for approximately $273.3 million. We received $102.8 million and $91.4 million from follow on public offerings of common units in January and November 2012, respectively. Additionally, we made certain strategic amendments to our credit facility which provides for a maximum borrowing capacity of $600.0 million under our revolving credit facility.

As a result of these financing activities, discussed in further detail below, management believes that expenditures for our current capital projects will be funded with cash flows from operations, current cash balances and our current borrowing capacity under the expanded revolving credit facility. However, it may be necessary to raise additional funds to finance our future capital requirements.

Our ability to satisfy our working capital requirements, to fund planned capital expenditures and to satisfy our debt service obligations will also depend upon our future operating performance, which is subject to certain risks. Please read "Item 1A. Risk Factors" of our Form 10-K for the year ended December 31, 2012, filed with the SEC on March 4, 2013, as well as our updated risk factors contained in "Item 1A. Risk Factors" set forth elsewhere herein, for a discussion of such risks.

Debt Financing Activities

On March 28, 2013, we amended and restated our credit facility to (i) increase the maximum amount of borrowings and letters of credit under the Credit Agreement from $400.0 million to $600.0 million, (ii) extend the maturity date of all amounts outstanding under the Credit Agreement from April 15, 2016 to March 28, 2018, (iii) decrease the applicable interest rate margin on committed revolver loans under the Credit Agreement as described in more detail below, (iv) adjust the financial covenants as described in more detail below, (v) increase the maximum allowable amount of additional outstanding

indebtedness of the borrower and the Partnership and certain of its subsidiaries as described in more detail below, and (vi) adjust the commitment fee incurred on the unused portion of the loan facility as described in more detail below.

On February 11, 2013, we completed a private placement of $250.0 million in aggregate principal amount of 7.250% senior unsecured notes due 2021 to qualified institutional buyers under Rule 144A. The Partnership registered the senior unsecured notes on Form S-4 filed with the SEC on April 10, 2013. We received proceeds of approximately $245.1 million, after deducting initial purchasers' discounts and the expenses of the private placement. The proceeds were primarily used to repay borrowings under our revolving credit facility.

On May 24, 2012, we redeemed $25.0 million of the Senior Notes from various holders using proceeds of our January 2012 follow-on equity offering, which in the interim were used to pay down amounts outstanding under our revolving credit facility.

Equity Offerings

On November 26, 2012, we completed a public offering of 3,450,000 common units at a price of $31.16 per common unit, before the payment of underwriters' discounts, commissions and offering expenses (per unit value is in dollars, not thousands). Total proceeds from the sale of the 3,450,000 common units, net of underwriters' discounts, commissions and offering expenses were $102.8 million. Our general partner contributed $2.2 million in cash to us in conjunction with the issuance in order to maintain its 2% general partner interest in us. All of the net proceeds were used to reduce outstanding indebtedness of the Partnership.

On January 25, 2012, we completed a public offering of 2,645,000 common units at a price of $36.15 per common unit, before the payment of underwriters' discounts, commissions and offering expenses (per unit value is in dollars, not thousands). Total proceeds from the sale of the 2,645,000 common units, net of underwriters' discounts, commissions and offering expenses were $91.4 million. Our general partner contributed $2.0 million in cash to us in conjunction with the issuance in order to maintain its 2% general partner interest in us. All of the net proceeds were used to reduce outstanding indebtedness of the Partnership.

Due to the foregoing, we believe that cash generated from operations and our borrowing capacity under our credit facility will be sufficient to meet our working capital requirements, anticipated maintenance capital expenditures and scheduled debt payments in 2013.

Finally, our ability to satisfy our working capital requirements, to fund planned capital expenditures and to satisfy our debt service obligations will depend upon our future operating performance, which is subject to certain risks. Please read "Item 1A. Risk Factors" of our Form 10-K for the year ended December 31, 2012, filed with the SEC on March 4, 2013, as well as our updated risk factors contained in "Item 1A. Risk Factors" set forth elsewhere herein, for a discussion of such risks.

Cash Flows and Capital Expenditures

For the three months ended March 31, 2013, cash decreased $5.1 million as a result of $65.4 million provided by operating activities ($74.1 million provided by continuing operating activities and $8.7 million used in discontinued operating activities), $85.7 million used in investing activities and $15.2 million provided by financing activities. Working capital changes positively affecting cash provided by operating activities during the first quarter of 2013 include the decrease in accounts and other receivables from December 31, 2012 to March 31, 2013. Revenues for the month of December were higher than the month of March in our Natural Gas Services segment due to seasonality, resulting in a decrease in receivables over the period. Additionally, contributing to this positive effect on cash flows from operating activities is the decrease in inventories in our Natural Gas Services segment due to the sale of our product during the winter season. For the three months ended March 31, 2012, cash increased $8.5 million as a result

of $0.1 million provided by operating activities ($0.8 million used in continuing operating activities and $0.9 million provided by discontinued operating activities), $39.1 million used in investing activities ($37.9 million used in continuing investing activities and $1.2 million used in discontinued investing activities) and $47.5 million provided by financing activities. Working capital changes negatively affecting cash provided by operating activities in 2012 include increases in product inventories in our terminalling and storage segments combined with decreases in accounts payable principally due to the timing of payments to vendors.

For the three months ended March 31, 2013, our cash flows used in investing activities of $85.7 million consisted of capital expenditures, acquisitions, investment in unconsolidated subsidiaries, return of investments from unconsolidated entities, contributions to unconsolidated entities, and proceeds from the sale of property, plant, and equipment. For the three months ended March 31, 2012, our cash flows used in continuing investing activities of $37.9 million consisted of capital

expenditures, payments for plant turnaround costs, return of investments from unconsolidated entities, contributions to unconsolidated entities, and proceeds from the sale of property, plant, and equipment. For the three months ended March 31, 2012, our cash flows used in discontinued investing activities of $1.2 million consisted primarily of the disposal of assets, capital expenditures, and investments in and returns of investments from unconsolidated entities.

As to each period:

- For the three months ended March 31, 2013, we spent $13.0 million for expansion capital expenditures and $1.7 million for maintenance capital expenditures related to continuing operations. Our expansion capital expenditures were made in connection with construction projects associated with our terminalling and storage and sulfur services segments. Our maintenance capital expenditures were primarily made in our sulfur services segment for routine improvements on the facilities as well as marine transportation segment dry dockings of our vessels pursuant to the United States Coast Guard requirements.

- For the three months ended March 31, 2012, we spent $29.8 million for expansion capital expenditures and $1.2 million for maintenance capital expenditures related to continuing operations, and $0.3 million for plant turnaround costs related to continuing operations. Our expansion capital expenditures were made in connection with construction projects associated with our terminalling and storage and sulfur services segments. Our maintenance capital expenditures were primarily made in our sulfur services segment for routine improvements on the facilities as well as marine transportation segment dry dockings of our vessels pursuant to the United States Coast Guard requirements. For the three months ended March 31, 2012, we spent $0.3 million for expansion and $0.3 million for maintenance capital expenditures related to discontinued operations

For the three months ended March 31, 2013, our financing activities consisted of cash distributions paid to common and subordinated unitholders of $20.9 million, payments of long term debt to financial lenders of $373.0 million, payments of notes payable and capital lease obligations of $0.1 million, borrowings of long-term debt under our credit facility of $418.0 million and payments of debt issuance costs of $8.8 million.

For the three months ended March 31, 2012, our financing activities consisted of cash distributions paid to common and subordinated unitholders of $19.4 million, payments of long term debt to financial lenders of $146.0 million, payments of notes payable and capital lease obligations of $6.4 million, borrowings of long-term debt under our credit facility of $126.0 million, net proceeds from follow on public offering of $91.4 million and general partner contributions of $2.0 million.

Capital Resources

Historically, we have generally satisfied our working capital requirements and funded our capital expenditures with cash generated from operations and borrowings. We expect our primary sources of funds for short-term liquidity will be cash flows from operations and borrowings under our credit facility.

As of March 31, 2013, we had $523.2 million of outstanding indebtedness, consisting of outstanding borrowings of $423.5 million (net of unamortized discount) under our Senior Notes due in 2018 and 2021, $91.0 million under our revolving credit facility, $5.8 million under capital lease obligations, and $2.9 million under a note payable.

Total Contractual Cash Obligations. A summary of our total contractual cash obligations as of March 31, 2013, is as follows (dollars in thousands):

Type of Obligation	Payments due by period Total Obligation	Less than One Year	1-3 Years	3-5 Years	Due Thereafter
Revolving credit facility	$91,000	$—	$—	$91,000	$—
2018 Senior unsecured notes	173,465	—	—	—	173,465
2021 Senior unsecured notes	250,000	—	—	—	250,000
Note payable	2,939	2,939			
Capital leases including current maturities	5,789	253	680	4,856	—
Non-competition agreements	100	50	50	—	—
Throughput commitment	47,953	4,835	10,140	10,802	22,176
Operating leases	55,144	12,390	21,664	13,074	8,016
Interest expense: [1]					
Revolving credit facility	21,566	4,323	8,645	8,598	—
2018 Senior unsecured notes	78,949	15,531	31,062	31,062	1,294
2021 Senior unsecured notes	145,000	18,125	36,250	36,250	54,375
Note payable	142	142	—	—	—
Capital leases	2,882	903	1,662	317	—
Total contractual cash obligations	$874,929	$59,491	$110,153	$195,959	$509,326

[1]Interest commitments are estimated using our current interest rates for the respective credit agreements over their remaining terms.

Letter of Credit. At March 31, 2013, we had outstanding irrevocable letters of credit in the amount of $0.1 million, which were issued under our revolving credit facility.

Off Balance Sheet Arrangements. We do not have any off-balance sheet financing arrangements.

Description of Our Long-Term Debt

2021 Senior Notes

We and Martin Midstream Finance Corp., a subsidiary of us (collectively, the "Issuers"), entered into (i) an Indenture, dated as of February 11, 2013 (the “ Indenture ”) among the Issuers, certain subsidiary guarantors (the “Guarantors”) and Wells Fargo Bank, National Association, as trustee (the “Trustee”) and (ii) a Registration Rights Agreement, dated as of February 11, 2013 (the “Registration Rights Agreement”), among the Issuers, the Guarantors and Wells Fargo Securities, LLC, RBC Capital Markets, LLC, RBS Securities Inc., SunTrust Robinson Humphrey, Inc. and Merrill Lynch, Pierce, Fenner & Smith Incorporated, as representatives of a group of initial purchasers, in connection with a private placement to eligible purchasers of $250.0 million in aggregate principal amount of the Issuers' 7.250% senior unsecured notes due 2021 (the “Notes”).

Interest and Maturity. On February 11, 2013, the Issuers issued the Notes pursuant to the Indenture in a transaction exempt from registration requirements under the Securities Act of 1933, as amended (the “Securities Act”). The Notes were resold to qualified institutional buyers pursuant to Rule 144A under the Securities Act and to persons outside the United States pursuant to Regulation S under the Securities Act. The Notes will mature on February 15, 2021. The interest payment dates are February 15 and August 15, beginning on August 15, 2013.

Optional Redemption. Prior to February 15, 2016, the Issuers have the option on any one or more occasions to redeem up to 35% of the aggregate principal amount of the Notes issued under the Indenture, at a redemption price of 107.250% of the principal amount, plus accrued and unpaid interest, if any, to the redemption date of the Notes with the proceeds of certain equity offerings. Prior to February 15, 2017, the Issuers may on any one or more occasions

redeem all or a part of the Notes at the redemption price equal to the sum of (i) the principal amount thereof, plus (ii) a make whole premium at the redemption date, plus accrued and unpaid interest, if any, to the redemption date. On or after February 15, 2017, the Issuers may on any one or more occasions redeem all or a part of the Notes at the redemption prices (expressed as percentages of principal amount) equal to 103.625% for the twelve-month period beginning on February 15, 2017, 101.813% for the twelve-month period beginning on February 15, 2018 and 100.00% for the twelve-month period beginning on February 15, 2019 and at any time thereafter, plus accrued and unpaid interest, if any, to the applicable redemption date on the Notes.

Certain Covenants. The Indenture restricts our ability and the ability of certain of our subsidiaries to: (i) sell assets including equity interests in our subsidiaries; (ii) pay distributions on, redeem or repurchase our units or redeem or repurchase our subordinated debt; (iii) make investments; (iv) incur or guarantee additional indebtedness or issue preferred units; (v) create or incur certain liens; (vi) enter into agreements that restrict distributions or other payments from our restricted subsidiaries to us; (vii) consolidate, merge or transfer all or substantially all of our assets; (viii) engage in transactions with affiliates; (ix) create unrestricted subsidiaries; (x) enter into sale and leaseback transactions; or (xi) engage in certain business activities. These covenants are subject to a number of important exceptions and qualifications. If the Notes achieve an investment grade rating from each of Moody's Investors Service, Inc. and Standard & Poor's Ratings Services and no Default (as defined in the Indenture) has occurred and is continuing, many of these covenants will terminate.

Events of Default. The Indenture provides that each of the following is an Event of Default: (i) default for 30 days in the payment when due of interest on the Notes; (ii) default in payment when due of the principal of, or premium, if any, on the Notes; (iii) failure by us to comply with certain covenants relating to asset sales, repurchases of the Notes upon a change of control and mergers or consolidations; (iv) failure by us for 180 days after notice to comply with our reporting obligations under the Securities Exchange Act of 1934; (v) failure by us for 60 days after notice to comply with any of the other agreements in the Indenture; (vi) default under any mortgage, indenture or instrument governing any indebtedness for money borrowed or guaranteed by us or any of our restricted subsidiaries, whether such indebtedness or guarantee now exists or is created after the date of the Indenture, if such default: (a) is caused by a payment default; or (b) results in the acceleration of such indebtedness prior to its stated maturity, and, in each case, the principal amount of the indebtedness, together with the principal amount of any other such indebtedness under which there has been a payment default or acceleration of maturity, aggregates $20.0 million or more, subject to a cure provision; (vii) failure by us or any of our restricted subsidiaries to pay final judgments aggregating in excess of $20.0 million, which judgments are not paid, discharged or stayed for a period of 60 days; (viii) except as permitted by the Indenture, any subsidiary guarantee is held in any judicial proceeding to be unenforceable or invalid or ceases for any reason to be in full force or effect, or any Guarantor, or any person acting on behalf of any Guarantor, denies or disaffirms its obligations under its subsidiary guarantee; and (ix) certain events of bankruptcy, insolvency or reorganization described in the Indenture with respect to the Issuers or any of our restricted subsidiaries that is a significant subsidiary or any group of restricted subsidiaries that, taken together, would constitute a significant subsidiary of us. Upon a continuing Event of Default, the Trustee, by notice to the Issuers, or the holders of at least 25% in principal amount of the then outstanding Notes, by notice to the Issuers and the Trustee, may declare the Notes immediately due and payable, except that an Event of Default resulting from entry into a bankruptcy, insolvency or reorganization with respect to the Issuers, any restricted subsidiary of us that is a significant subsidiary or any group of its restricted subsidiaries that, taken together, would constitute a significant subsidiary of us, will automatically cause the Notes to become due and payable.

Registration Rights Agreement. Under the Registration Rights Agreement, the Issuers and the Guarantors shall cause to be filed with the Securities and Exchange Commission a registration statement with respect to an offer to exchange the Notes for substantially identical notes that are registered under the Securities Act. The Issuers and the Guarantors will use their commercially reasonable efforts to cause such exchange offer registration statement to become effective under the Securities Act. In addition, the Issuers and the Guarantors will use their commercially reasonable efforts to cause the exchange offer to be consummated not later than 360 days after February 11, 2013. Under some circumstances, in lieu of, or in addition to, a registered exchange offer, the Issuers and the Guarantors have agreed to file a shelf registration statement with respect to the Notes. The Issuers and the Guarantors are required to pay additional interest if they fail to comply with their obligations to register the Notes under the Registration Rights Agreement.

2018 Senior Notes

For a description of our 2018, 8.875% senior notes issued March 26, 2010, see “Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations - Description of Our Long-Term Debt” in our Annual Report on Form 10-K for the year ended December 31, 2012.

Credit Facility

On November 10, 2005, we entered into a $225.0 million multi-bank credit facility, which has subsequently been amended, including most recently on March 28, 2013 when we amended and restated our credit facility to (i) increase the maximum amount of borrowings and letters of credit under the credit facility from $400.0 million to $600.0 million, (ii) extend the maturity date of all amounts outstanding under the credit facility from April 15, 2016 to March 28, 2018, (iii) decrease the applicable interest rate margin on committed revolver loans under the credit facility as described in more detail below, (iv) adjust the financial covenants as described in more detail below, (v) increase the maximum allowable amount of additional outstanding indebtedness of the borrower and the Partnership and certain of its subsidiaries as described in more detail below, and (vi) adjust the commitment fee incurred on the unused portion of the loan facility as described in more detail below.

As of March 31, 2013, we had approximately $91.0 million outstanding under the revolving credit facility and $0.1 million of letters of credit issued, leaving approximately $508.9 million available under our credit facility for future revolving credit borrowings and letters of credit.

The revolving credit facility is used for ongoing working capital needs and general partnership purposes, and to finance permitted investments, acquisitions and capital expenditures. During the current period, draws on our credit facility have ranged from a low of $40.0 million to a high of $298.0 million.

The credit facility is guaranteed by substantially all of our subsidiaries. Obligations under the credit facility are secured by first priority liens on substantially all of our assets and those of the guarantors, including, without limitation, inventory, accounts receivable, bank accounts, marine vessels, equipment, fixed assets and the interests in our subsidiaries and certain of our equity method investees.

We may prepay all amounts outstanding under the credit facility at any time without premium or penalty (other than customary LIBOR breakage costs), subject to certain notice requirements. The credit facility requires mandatory prepayments of amounts outstanding thereunder with the net proceeds of certain asset sales, equity issuances and debt incurrences.

Indebtedness under the credit facility bears interest at our option at the Eurodollar Rate (the British Bankers Association LIBOR Rate) plus an applicable margin or the Base Rate (the highest of the Federal Funds Rate plus 0.50%, the 30-day Eurodollar Rate plus 1.0%, or the administrative agent's prime rate) plus an applicable margin. We pay a per annum fee on all letters of credit issued under the credit facility, and we pay a commitment fee per annum on the unused revolving credit availability under the credit facility. The letter of credit fee, the commitment fee and the applicable margins for our interest rate vary quarterly based on our leverage ratio (as defined in the credit facility, being generally computed as the ratio of total funded debt to consolidated earnings before interest, taxes, depreciation, amortization and certain other non-cash charges) and are as follows:

Leverage Ratio	Base Rate Loans		Eurodollar Rate Loans		Letters of Credit	
Less than 3.00 to 1.00	1.00	%	2.00	%	2.00	%
Greater than or equal to 3.00 to 1.00 and less than 3.50 to 1.00	1.25	%	2.25	%	2.25	%
Greater than or equal to 3.50 to 1.00 and less than 4.00 to 1.00	1.50	%	2.50	%	2.50	%
Greater than or equal to 4.00 to 1.00 and less than 4.50 to 1.00	1.75	%	2.75	%	2.75	%
Greater than or equal to 4.50 to 1.00	2.00	%	3.00	%	3.00	%

The applicable margin for existing LIBOR borrowings is 2.50%. Effective April 1, 2013, the applicable margin for existing LIBOR borrowings remained at 2.50%. Effective July 1, 2013, the applicable margin for existing LIBOR borrowings will remain at 2.50%. As of May 6, 2013, our weighted average interest rate on our revolving loan facility is 3.02%.

The credit facility includes financial covenants that are tested on a quarterly basis, based on the rolling four-quarter period that ends on the last day of each fiscal quarter. The maximum permitted leverage ratio is 5.00 to 1.00. The maximum permitted senior leverage ratio (as defined in the credit facility but generally computed as the ratio of total secured funded debt to consolidated earnings before interest, taxes, depreciation, amortization and certain other non-cash charges) is 3.25 to 1.00. The minimum interest coverage ratio (as defined in the credit facility but generally computed as the ratio of consolidated earnings before interest, taxes, depreciation, amortization and certain other non-cash charges to consolidated interest charges) is 2.75 to 1.00.

In addition, the credit facility contains various covenants, which, among other things, limit our and our subsidiaries' ability to: (i) grant or assume liens; (ii) make investments (including investments in our joint ventures) and acquisitions; (iii) enter into certain types of hedging agreements; (iv) incur or assume indebtedness; (v) sell, transfer, assign or convey assets; (vi) repurchase our equity, make distributions and certain other restricted payments, but the credit facility permits us to make quarterly distributions to unitholders so long as no default or event of default exists under the credit facility; (vii) change the nature of our business; (viii) engage in transactions with affiliates; (ix) enter into certain burdensome agreements; (x) make certain amendments to the omnibus agreement and our material agreements; (xi) make capital expenditures; and (xii) permit our joint ventures to incur indebtedness or grant certain liens.

The credit facility contains customary events of default, including, without limitation, (i) failure to pay any principal, interest, fees, expenses or other amounts when due; (ii) failure to meet the quarterly financial covenants; (iii) failure to observe any other agreement, obligation, or covenant in the credit facility or any related loan document, subject to cure periods for certain failures; (iv) the failure of any representation or warranty to be materially true and correct when made; (v) our or any of our subsidiaries' default under other indebtedness that exceeds a threshold amount; (vi) bankruptcy or other insolvency events involving us or any of our subsidiaries; (vii) judgments against us or any of our subsidiaries, in excess of a threshold amount; (viii) certain ERISA events involving us or any of our subsidiaries, in excess of a threshold amount; (ix) a change in control (as defined in the credit facility); and (x) the invalidity of any of the loan documents or the failure of any of the collateral documents to create a lien on the collateral.

The credit facility also contains certain default provisions relating to Martin Resource Management. If Martin Resource Management no longer controls our general partner, the lenders under the credit facility may declare all amounts outstanding thereunder immediately due and payable. In addition, an event of default by Martin Resource Management under its credit facility could independently result in an event of default under our credit facility if it is deemed to have a material adverse effect on us.

If an event of default relating to bankruptcy or other insolvency events occurs with respect to us or any of our subsidiaries, all indebtedness under our credit facility will immediately become due and payable. If any other event of default exists under our credit facility, the lenders may terminate their commitments to lend us money, accelerate the maturity of the indebtedness outstanding under the credit facility and exercise other rights and remedies. In addition, if any event of default exists under our credit facility, the lenders may commence foreclosure or other actions against the collateral.

As of May 6, 2013, our outstanding indebtedness includes $105.0 million under our credit facility.

We are subject to interest rate risk on our credit facility and may enter into interest rate swaps to reduce this risk.

Seasonality

A substantial portion of our revenues are dependent on sales prices of products, particularly NGLs and fertilizers, which fluctuate in part based on winter and spring weather conditions. The demand for NGLs is strongest during the winter heating season and the refinery blending season. The demand for fertilizers is strongest during the early spring planting season. However, our Terminalling and Storage and Marine Transportation segments and the molten sulfur business are typically not impacted by seasonal fluctuations. We expect to derive a majority of our net income from our terminalling and storage, sulfur and marine transportation businesses. Therefore, we do not expect that our overall net income will be impacted by seasonality factors. However, extraordinary weather events, such as hurricanes, have in the past, and could in the future, impact our Terminalling and Storage and Marine Transportation segments.

Impact of Inflation

Inflation did not have a material impact on our results of operations for the three months ended March 31, 2013 or 2012. Although the impact of inflation has been insignificant in recent years, it is still a factor in the U.S. economy and may increase the cost to acquire or replace property, plant and equipment. It may also increase the costs of labor and supplies. In the future, increasing energy prices could adversely affect our results of operations. Diesel fuel, natural gas, chemicals and other supplies are recorded in operating expenses. An increase in price of these products would increase our operating expenses which could adversely affect net income. We cannot provide assurance that we will be able to pass along increased operating expenses to our customers.

Environmental Matters

Our operations are subject to environmental laws and regulations adopted by various governmental authorities in the jurisdictions in which these operations are conducted. We incurred no material environmental costs, liabilities or expenditures to mitigate or eliminate environmental contamination during the three months ended March 31, 2013 or 2012.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk. We are exposed to changes in interest rates as a result of our credit facility, which had a weighted-average interest rate of 4.75% as of March 31, 2013. As of May 6, 2013, we had total indebtedness outstanding under our credit facility of $105.0 million, all of which was unhedged floating rate debt. As of May 6, 2013, our weighted average interest rate on our revolving loan facility is 3.02%. Based on the amount of unhedged floating rate debt owed by us on March 31, 2013, the impact of a 1% increase in interest rates on this amount of debt would result in an increase in interest expense and a corresponding decrease in net income of approximately $1.1 million annually.

We are not exposed to changes in interest rates with respect to our Senior Notes due in 2018 and 2021 as these obligations are fixed rates. The estimated fair value of the Senior Notes was approximately $446.7 million as of March 31, 2013, based on market prices of similar debt at March 31, 2013. Market risk is estimated as the potential decrease in fair value of our long-term debt resulting from a hypothetical increase of 1% in interest rates. Such an increase in interest rates would result in approximately an $16.7 million decrease in fair value of our long-term debt at March 31, 2013.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures. In accordance with Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), we, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer of our general partner, carried out an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer of our general partner concluded that our disclosure controls and procedures were effective, as of the end of the period covered by this report, to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no changes in our internal controls over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are subject to certain legal proceedings claims and disputes that arise in the ordinary course of our business. Although we cannot predict the outcomes of these legal proceedings, we do not believe these actions, in the aggregate, will have a material adverse impact on our financial position, results of operations or liquidity. Information regarding legal proceedings is set forth in Note 16 in Part I of this Form 10-Q and in Item 5 below.

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed in our annual report on Form 10-K filed with the SEC on March 4, 2013.

Item 6. Exhibits

The information required by this Item 6 is set forth in the Index to Exhibits accompanying this quarterly report and is incorporated herein by reference.

SIGNATURES
