Gilat's SkyEdge satellite network selected for Russia's largest electric utility company

VSAT network will be used for critical electrical power monitoring and control

Petah Tikva, Israel, October 22, 2007, Gilat Satellite Networks Ltd. (Nasdaq: GILT) today announced that it is deploying a SkyEdge broadband satellite communications network for Russia's largest electric utility company. The utility, FSK, serves more than 142.2 million Russian citizens.

FSK will use the SkyEdge VSAT network for supervisory control and data acquisition (SCADA) and satellite telephony applications at an initial 650 locations nationwide. In addition, the network will be used for VPN applications enabling secure network services to be transmitted between FSK's electric facilities. SkyEdge will enable FSK to benefit from better load tracking and more accurate forecasting as well as more accurate billing with real-time meter data collection.

Arie Rozichner, Gilat's Regional Vice President, Eurasia, said, "VSAT technology provides FSK and other utilities distinct benefits over terrestrial alternatives. These benefits include ubiquity, high-speed connectivity, rapid network rollout and very high network uptime—all while reducing telecommunications costs. Gilat's experience in SCADA applications and our advanced SkyEdge platform will enable us to provide FSK with an advanced and competitive communications solution, thereby further enhancing FSK's position as a leading utility company.

Gilat's SkyEdge systems have been chosen for a number of very significant federal government projects in Russia, including the Ministry of Education, FGUP Russian Post and Universal Service Obligation (USO) projects. Gilat's advanced VSAT technology meets the complex requirements of major operators in Russia, bringing telephony and Internet services to citizens in the country's most remote regions.

Gilat's SkyEdge is a satellite communications system that delivers high-quality voice, broadband data and video services over a powerful unified system. SkyEdge represents Gilat's extensive knowledge base and field-proven product offering, acquired through two decades of experience. SkyEdge's flexible architecture and efficient space segment utilization make it an ideal platform for operators and service providers.

About FSK

The Federal Network Company, FSK, is Russia's leading electric utility company. A main branch of the Central Power System, FSK runs the country's central power network serving millions of citizens across Russia.

About Gilat Satellite Networks Ltd.

Gilat Satellite Networks Ltd. (Nasdaq: GILT) is a leading provider of products and services for satellite-based communications networks. The Company operates under three business units: (i) Gilat Network Systems (GNS), which is a provider of network systems and associated professional services to service providers and operators worldwide; (ii) Spacenet Inc., which provides managed services in North America for businesses and governments through its Connexstar service brand and for consumers through its StarBand service brand; (iii) Spacenet Rural Communications, which offers rural telephony and Internet access solutions to remote areas primarily in Latin America.

Gilat was founded in 1987 and has shipped over 670,000 Very Small Aperture Terminals (VSATs) to more than 85 countries across six continents. Gilat's headquarters is located in Petah Tikva, Israel. The Company has 16 sales and service offices worldwide. Gilat markets the SkyEdge Product Family which includes the SkyEdge Pro, SkyEdge IP, SkyEdge Call, SkyEdge DVB-RCS and SkyEdge Gateway. In addition, the Company markets numerous other legacy products.
