ACACIA DIVERSIFIED HOLDINGS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2016 and 2015

NOTE 1 – THE COMPANY AND BASIS OF PRESENTATION

THE COMPANY - Acacia Diversified Holdings, Inc. (“Acacia” or the “Company”) by and through its wholly-owned subsidiaries, MariJ Pharmaceuticals, Inc. and Canna-Cures Research & Development Center, Inc. is an entity primarily engaged in the medicinal cannabis products industry.

Prior to the sale of its previous subsidiaries on June 29, 2015, the Company was (i) through its Citrus Extracts, Inc. (“CEI”) subsidiary engaged in operating an agricultural processing and manufacturing business concentrating on optimizing citrus biomass (waste) materials into food, beverage, spice, nutraceutical, skin care, cosmetics, and botanical products; (ii) through its wholly-owned Acacia Transport Services, Inc. (“ATS”) subsidiary in Fort Pierce, Florida engaged in the transportation industry; and, (iii) through its Acacia Milling Services (“AMS”) operations engaged in milling finished products for the Company’s Citrus Extracts, Inc. subsidiary and ultimately other clients.

The Company sold the assets and related businesses of its CEI and ATS subsidiaries, and its AMS operations, being all of its then revenue-producing operations, on June 29, 2015, and accounted for those operations as discontinued effective with the Quarterly Report on Form 10-Q for the period ended June 30, 2015. Those events were reported in their entirety by the Company on its Current Report on Form 8-K on July 16, 2015. That document is available for viewing on the Company’s website at:

<http://www.acacia.bz/sec/sec.htm> and on the SEC website at:

<https://www.sec.gov/Archives/edgar/data/1001463/000155723415000204/0001557234-15-000204-index.htm>

Immediately following the disposal of its citrus manufacturing related subsidiaries at the end of June 2015, the Company began reviewing opportunities for new acquisitions, including its review of MariJ Agricultural, Inc. and related entities in the Clearwater, Florida area. Following discussions that began in earnest in August 2015, and an agreement on the terms of acquisition, the Company entered into a Letter of Intent in November 2015 to acquire the assets and businesses of the MariJ Group of companies that included MariJ Agricultural, JR Cannabis Industries, LLC; Canna-Cures Research & Development Center, LLC; and, TropiFlora, LLC. An amended Letter of Intent was drafted on December 8, 2015 and the acquisition was consummated on January 15, 2016 with an effective date of January 4, 2016.

On January 19, 2016 the Company filed a Current Report on Form 8-K describing the events relating to the acquisition transactions. The Company subsequently filed expanded and updated information relating to that acquisition on its Amended Current Report on Form 8-K/A on April 25, 2016. That document is available for viewing on the Company’s website at <http://www.acacia.bz/sec/sec.htm> and on the SEC website at:

<https://www.sec.gov/Archives/edgar/data/1001463/000118518516004336/0001185185-16-004336-index.htm>

Following those acquisitions, the Company formed two new subsidiaries to conduct its new medical cannabis business activities, being MariJ Pharmaceuticals, Inc. (“MariJ Pharma”) and Canna-Cures Research & Development Center, Inc. (“Canna-Cures”).

These unaudited condensed interim consolidated financial statements should be read in conjunction with the annual financial statements for Acacia most recently completed fiscal year ended December 31, 2015, and the audited consolidated financial statements of the MariJ Group of companies for the year ended December 31, 2015, included in Acacia’s Form 8-K/A filed on April 25, 2016. These unaudited condensed interim consolidated financial statements do not include all disclosures required in annual financial statements, but rather are prepared in accordance with

recommendations for interim financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”). These unaudited condensed interim consolidated financial statements have been prepared using the same accounting policies and methods as those used by the Company in the annual audited financial statements for the year ended December 31, 2015.

In the opinion of the management, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation have been included. The results for the interim periods are not necessarily indicative of the results that may be attained for an entire year or any future periods.

Table of Contents

ACACIA DIVERSIFIED HOLDINGS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2016 and 2015

NOTE 1 – THE COMPANY AND BASIS OF PRESENTATION (Continued)

CONSOLIDATION – At June 30, 2016 MariJ Pharmaceuticals, Inc. and Canna-Cures Research & Development Center, Inc. were the only subsidiaries of the Company with MariJ being the only revenue-producing subsidiary until Canna-Cures becomes operational. All significant intercompany accounts and transactions are eliminated in consolidation.

NOTE 2 – REVERSE MERGER ACCOUNTING

On January 15, 2016 the Company entered into a definitive Asset Purchase Agreement to acquire substantially all of the assets of the “MariJ Group” of companies, including (1) MariJ Agricultural, Inc.; (2) Canna-Cures Research & Development Center, LLC; (3) TropiFlora, LLC; and, (4) JR Cannabis Industries, LLC with an effective date of January 4, 2016. In connection with the acquisition, the Company issued 2,474,850 shares of its common stock to the shareholders and members of the MariJ Group.

As result of this transaction Rick Pertile, CEO of MariJ Group, became CEO and Chairman of the Board of Directors of Acacia. In addition two members of the Board of Directors of Acacia resigned and Mr. Pertile, together with the two remaining directors, appointed to Acacia’s Board two individuals that were owners and directors of the MariJ Group. After the acquisition, all company operations were those of the MariJ Group.

The merger of the MariJ Group into the non-operating public company (Acacia), which had only nominal assets (total assets aggregated \$236,657, including cash of \$180,854), is considered to be a capital transaction. The transaction was equivalent to the issuance of stock by the MariJ Group for the net assets of Acacia, accompanied by a recapitalization.

The historical consolidated financial statements of the MariJ Group become the consolidated financial statements of the public company subsequent to the merger. The audited consolidated financial statements of the MariJ Group were included in the Current Report on Form 8-K/A filed April 25, 2016 by Acacia.

The weighted average number of outstanding shares has been adjusted for the reverse merger transaction.

NOTE 3 – GOING CONCERN

As of June 30, 2016, the Company had only limited liquid assets and limited revenues from its subsidiaries. As such, and without substantially increasing revenue or finding new sources of capital, the Company will find it difficult to continue to meet its obligations as they come due. The Company is still locating new clients for its services and products, and the business is generally seasonal with the second and third quarters of the calendar year being the slowest as a result of it being the “off season” for outside grow of Cannabis hemp plants. The Company is currently involved in a capital raise which, if successful, could result in obtaining indoor grow facilities that could provide for year-round grows. There can be no assurance that the Company will be successful in its efforts to raise capital, or if it were successful in raising capital, that it would be successful in meeting its business plans. While the services performed by the Company’s MariJ subsidiary and sales of current inventory supplies, if sold on a seasonally-adjusted basis, are anticipated to be sufficient to meet the Company’s liquidity needs, these factors raise some doubt as to the ability of the Company to continue as a going concern. Management’s plans include increasing production at the Company’s new MariJ Pharma subsidiary during the third quarter and more particularly during the fourth quarter of 2016, selling its inventories of products, attempting to start new businesses or find additional operational businesses to

buy, and attempting to raise funds from the public through an equity offering of the Company's common stock and sales of convertible debentures through a private placement offering instituted in the latter part of the second quarter of 2016. Management intends to make every effort to identify and develop all these sources of funds, but there can be no assurance that Management's plans will be successful.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward-Looking Information

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) contains forward-looking statements that involve known and unknown risks, significant uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed, or implied, by those forward-looking statements.

You can identify forward-looking statements by the use of the words such as "expects", "anticipates", "intends", "plans", "believes", "seeks", "estimates", "may", "will", "should", "could", "predicts", "potential", "proposed", or "continue" or negative of those terms. These statements are only predictions. In evaluating these statements, you should consider various factors which may cause our actual results to differ materially from any forward-looking statements.

Although we believe that the exceptions reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements due to numerous factors, including, but not limited to, availability of financing for operations, successful performance of operations, impact of competition and other risks detailed below as well as those discussed elsewhere in this Form 10-K and from time to time in the Company's Securities and Exchange Commission filings and reports. In addition, general economic and market conditions and growth rates could affect such statements. We undertake no obligation to revise or update publicly any forward-looking statements for any reason.

Description of Historical Operations

Acacia Diversified Holdings, Inc. ("we", "us", the "Company", or the "Parent Company") was incorporated in Texas on October 1, 1984 as Gibbs Construction, Inc. ("Gibbs"). The Company changed its name from Gibbs Construction, Inc. to Acacia Automotive, Inc. effective February 20, 2007, and subsequently changed its name again from Acacia Automotive, Inc. to Acacia Diversified Holdings, Inc. effective October 18, 2012.

On July 10, 2013 the Company, through its newly-created wholly-owned subsidiary CEI, entered into a definitive agreement to acquire certain assets and assumed certain liabilities related to those assets from Red Phoenix Extracts, Inc. ("RPE"), a corporation located in Fort Pierce, Florida. The assets included, among other things, furnishings, machinery, and equipment. As consideration for the assets, the Company issued to the holders of RPE nine hundred thousand (900,000) restricted shares of the Company's common stock. CEI also assumed certain liabilities of RPE, including, specifically, the lease for RPE's Fort Pierce, Florida location. There was no cash consideration in the transaction, which was more particularly described in the Company's Current Report on Form 8-K dated July 10, 2013, which is incorporated by reference herein.

The Company used the assets from that acquisition to begin a new wholly-owned operating subsidiary named Citrus Extracts, Inc. ("CEI"). CEI was a business that utilized our proprietary chemical-free, 100% natural processes in the manufacturing, sale, and distribution of all-natural, food-grade ingredients from raw, fresh, natural citrus peel resulting from citrus juicing operations. Through these controlled methods, CEI processed and dehydrated orange, lemon, grapefruit and tangerine peel into its "CitraBlend" and "CitraBlend Organic" products and then milled those products into varying sizes. These ingredients, both organic and non-organic, found their way into many regional and national brand-name products commonly found on America's kitchen tables in the form of spices, teas, and otherwise. Our CitraBlend products were also utilized in brewing many local and regional craft beers in addition to nationally-recognized beer brands.

In 2014 the Company formed a second wholly-owned subsidiary named Acacia Transport Services, Inc. (“ATS”). ATS was a business in the transportation industry that hauled fresh, raw, citrus peel resulting from the juice extraction process at juice plants. ATS has an exclusive contract to remove all the remediated raw citrus peel from Lambeth Groves Juice Company in Vero Beach, Florida, approximately 20 miles from the CEI manufacturing plant. ATS hauled much of the raw peel to CEI for use in its manufacturing processes, and delivers excess peel to local farmers for use as livestock feed. Acacia Transport Services transported its first load of raw peel from Lambeth Groves on August 7, 2014 and transported subsequent loads going forward from that date. Full-scale transport operations finally began with the onset of the 2015 citrus season in December 2014.

1

Table of Contents

The Company sold its citrus-related operations in Fort Pierce, Florida, its only revenue-producing operations at the time, on June 29, 2015, and accounted for those operations as discontinued effective with its Quarterly Report on Form 10-Q for the period ended June 30, 2015. Those events were also reported in their entirety by the Company on its Current Report on Form 8-K on July 16, 2015. That document is available for viewing on the Company's website at:

<http://www.acacia.bz/sec/sec.htm> and on the SEC website at:

<https://www.sec.gov/Archives/edgar/data/1001463/000155723415000204/0001557234-15-000204-index.htm>

Description of Current Operations

On January 15, 2016, in a reverse merger transaction, the Company acquired the assets and related businesses of the MariJ Group of companies in Tampa, Florida for 2,474,850 shares of common stock, and Marij emerged as the survivor in that transaction. In that transaction, the CEO of Acacia prior to the acquisition, Mr. Sample, agreed to divest himself of 2,500,000 shares of his Common stock of the Company in a window of 37-39 months from the closing, giving the new CEO of the Company, Mr. Pertile, a right of first refusal to acquire those shares at par value. Mr. Sample also granted to Mr. Pertile a proxy to vote those shares prior to his disposal thereof. The MariJ Group consisted of MariJ Agricultural, Inc., JR Cannabis Industries, LLC, Canna-Cures Research & Development Center, LLC, and TropiFlora, LLC.

On January 19, 2016 the Company filed a Current Report on Form 8-K describing the events relating to the acquisition transactions. The Company subsequently filed expanded and updated information relating to that acquisition on its Amended Current Report on Form 8-K/A on April 25, 2016 as a "Super 8-K" report. That document is available for viewing on the Company's website at:

<http://www.acacia.bz/sec/sec.htm> and on the SEC website at:

<https://www.sec.gov/Archives/edgar/data/1001463/000118518516004336/0001185185-16-004336-index.htm>

Following those acquisitions, the Company formed two new subsidiaries to conduct its initial medicinal cannabis business activities, being MariJ Pharmaceuticals, Inc. ("MariJ Pharma") and Canna-Cures Research & Development Center, Inc. ("Canna-Cures"). The Company's current business operations are conducted through its wholly-owned subsidiary MariJ Pharmaceuticals, Inc. ("MariJ Pharma"). The Company plans to institute revenue-producing operations in its Canna-Cures Research & Development Center, Inc. ("Canna-Cures") subsidiary following fundraising operations scheduled for later this year.

The impetus of the MariJ subsidiary, among many other initiatives, will be the extraction and processing of very high quality, high-CBD/low-THC content medical grade cannabis oils from medicinal cannabis plants. MariJ specializes in organic strains of the plant where available, setting itself apart from the general producers of non-organic products. In addition, MariJ has the technical expertise and capability to process and formulate the oils and to employ them in its compounding operations. MariJ will seek to become engaged as owner or co-owner of a grow facility in Florida or other location(s) such as to produce its own plants for processing. MariJ has also been preparing for the 2016 rollout of its newly-developed, proprietary GeoTraking Technology that is fully compliant with the Health Insurance Portability and Accountability standard ("HIPAA") utilizing its "plant to patient" solution. This GeoTraking Technology is designed to provide a full-channel patient care tracking system that is fully compliant under today's strict HIPAA regulations that require privacy and security of the patient's information. Beginning with RFID labeling and tracking of every single seed employed in the grow program and continuing through the sale of prescription products in a sophisticated retail PoS delivery system, the GeoTraking Technology will be the most advanced system

available.

The Company plans to utilize its new Canna-Cures subsidiary to engage in research and development activities as well as retail and wholesale distribution of medicinal cannabis products and dietary supplements, depending upon our ability to comply in each instance with FDA rules and other regulations. As a part of its R&D efforts, the new subsidiary will seek to align itself with institutions of higher learning in working to develop new products and to identify and develop additional uses for its medical cannabis products.

The Company intends to acquire, through its MariJ Pharma subsidiary, portions or complete ownership of growers licenses and grow operations in one or more states. The acquisition of these licenses is anticipated to provide the Company with the opportunity to compound medicinal products using mixtures of CBD and THC-rich oils that have very little hallucinogenic properties but have significantly improved medicinal properties.

2

Table of Contents

Discussion Regarding the Company's Operations

On June 29, 2015, the Company sold the assets of both its operating subsidiaries, its only revenue-producing operations. The details of this transaction were reported on the Current Report on Form 8-K dated July 16, 2015, which includes a full detail of the actions taken. The Company first accounted for those operations as discontinued on this Quarterly Report on Form 10-Q for the period ended June 30, 2015. Thus, Acacia Diversified Holdings, Inc. was without income-producing operations until January 4, 2016, at which time the Company entered into a definitive Asset Purchase Agreement to acquire substantially all of the assets of the "MariJ Group" of companies, including (1) MariJ Agricultural, Inc.; (2) Canna-Cures Research & Development Center, LLC; (3) TropiFlora, LLC; and, (4) JR Cannabis Industries, LLC. After the acquisition, all company operations were those of the MariJ Group. The merger of the MariJ Group into the then non-operating public company (Acacia) was considered to be a capital transaction. The transaction was equivalent to the issuance of stock by the MariJ Group for the net assets of Acacia, accompanied by a recapitalization. The historical consolidated financial statements of the MariJ Group become the consolidated financial statements of the public company subsequent to the merger. The audited consolidated financial statements of the MariJ Group were included in the Current Report on Form 8-K/A filed April 25, 2016 by Acacia. The weighted average number of outstanding shares has been adjusted for the reverse merger transaction.

Effect of General Economic and Other Factors on Operations

As is common with other businesses, the Company has experienced and expects to continue to experience fluctuations in its quarterly results of operations due to a number of factors, many of which are beyond the Company's control and which are common to the industry. Among these are the seasonality of hemp growing operations except within indoor grow facilities, adverse weather conditions on outside grows, effects of governmental regulations, requirements for licensing, and otherwise. The Company's business plan includes a determination to attempt to acquire all or portions of grower's licenses in one or more states, and seeking to cultivate its medicinal cannabis crops year round in indoor facilities.

Operating Results of the Company

After selling its CEI, ATS and AMS operations, the Company's then only revenue-producing operations, on June 29, 2015, the Company accounted for those operations as discontinued beginning with this Quarterly Report on Form 10-Q for the period ending June 30, 2015. As a result of accounting for its operations as discontinued, the Company did not report revenues or costs of fees earned in its financial reports on the third and fourth quarters of 2015, but did report certain operating expenses associated with the Parent Company. Revenues and other components of financial results relating to those discontinued operations were reflected in the consolidated statements of operations as gains or losses from discontinued operations.

Following the acquisition of the MariJ Group of Companies by Acacia in January of 2016, it was determined that those transactions needed to be accounted for as a reverse merger transaction. As such, the consolidated financial reports of the MariJ Group became the 2015 consolidated financial results of the Company.

The Company requires additional capital that it anticipates raising through a private placement offering. If the Company is successful in generating proceeds from that offering, it anticipates launching significant new portions of its revenue-producing operations. The Company is currently in progress making efforts to implement those fundraising activities.

Three months ended June 30, 2016

Edgar Filing: Acacia Diversified Holdings, Inc. - Form 10-Q

In the three months ended June 30, 2016, the Company reported a net loss of approximately \$305,000 compared to a net loss of approximately \$141,000 for the same period in 2015. The Company did not report any revenues in either period due to:

·2016

The processing of hemp flowers is very seasonal with most processing occurring in the first and fourth quarters.

·2015

In 2015 the Company was constructing its processing vehicles, therefore the Company had no ability to generate revenues.

The losses in 2016 and 2015 were primarily employee compensation, professional fees, and other general expenses. The Company for the three months ended June 30, 2016, reported a \$41,000 cost of sales due to depreciation on processing vehicles and wages of processing crews.

3

Table of Contents

The Company expects to continue to experience extraordinary expenses as it prepares for the possibility of expanded operations that are dependent upon its ability to raise capital to fund that growth and as it develops its new revenue sources.

Six months ended June 30, 2016

In the six month period ended June 30, 2016, the Company experienced a net loss of approximately \$566,000 compared to a net loss of approximately \$247,000 for the six months ended June 30, 2015. The Company reported revenues of \$225,000 in 2016 and no revenue for the corresponding period in 2015. In 2015 the construction of processing vehicles had not been completed. The costs and expenses increased \$431,000, or 174%, from 2015 to 2016. This increase was due to employee compensation, professional fees, a loss on sale of asset, and other general expenses.

The Company continues to experience extraordinary expenses, including by way of example the construction of a second mobile oil extraction unit and other production equipment, as it prepares for the possibility of expanded operations that are dependent upon its ability to raise capital to fund that growth and as it develops its new revenue sources.

Liquidity and Capital Resources

The Company is currently seeking to raise capital through a private placement offering of its equity and through sale of convertible debentures.. There can be no assurances that it will be successful in any such efforts to raise capital, or that if it is successful in raising capital, that the Company will be successful in implementing its business plans or finding business combination or acquisition opportunities. If the Company does find such opportunities, there can be no assurance that it will be successful in its efforts to enter into such mergers or acquisitions or that they will present viable revenue-producing assets for the Company, or that the Company will be able to raise sufficient capital to acquire or combine with any such opportunity.

Our operations in the first six months of 2016 did not provide sufficient cash flow to cover our corporate activity on a consolidated basis, essentially our executive officers, administrative overhead, and overhead that includes the cost of lawyers and accountants required to be publicly held.

As of June 30, 2016, the Company had a negative consolidated net cash flow of about \$98,000 for the year to date. This resulted from a negative net cash flow of approximately \$348,000 used in operating activities and a negative net cash flow used in investing activities of about \$11,000, offset by a positive net cash flow provided by financing activities of about \$260,000.

The Company will seek to grow through expanding its revenue-producing activities, and finding acquisitions, mergers, or other business combinations, and will need to raise additional capital to do so. The Company is currently seeking to raise this additional capital through an offering of its debt or equity securities. There can be no assurance that the Company will be successful in raising capital, or if it is successful, there can be no assurance it can raise capital in sufficient amounts to meet its liquidity needs or finance its business plans.

Cash Balances

As of June 30, 2016, the Company had approximately \$123,000 cash, being insufficient to meet its financial obligations for at least six months without other revenues. The Company will have to find new sources of revenues or generate additional cash to assure its ability to meet its future obligations.

Item 4T. Controls and Procedures

Management's Report on Internal Control over Financial Reporting

As is typical with smaller enterprises, our control processes are oriented toward operations, and production of financial statements reflects an outgrowth of operations and results of those operations. Internally, financial statements are a management tool to evaluate the operations and not an end of those operations. We closely monitor the daily results of our cash position and seek to make certain that our cash position is adequate for the foreseeable future. Our financial statements are generated as part of the reporting on our operations, one metric of our operations, and as part of our obligations as a public entity.

Table of Contents

Management, including our Chief Executive Officer who acts as our Principal Financial Officer, does not expect that our disclosure controls and procedures will prevent all errors and fraud, and our present efforts are oriented on improving the availability and thoroughness of information to management and its efficient reduction to generate financial statements. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurance of achieving the desired control objectives. Further, the design of a control system must reflect the fact that there are resource constraints, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management's override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Disclosure Controls and Procedures

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of our management, particularly our Chief Executive Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework set forth in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Securities Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer who acts as our Principal Financial Officer to allow timely decisions regarding required disclosure. During the 90-day period prior to the date of this report, an evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures to provide reasonable assurance of achieving their objective pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, the Chief Executive Officer concluded that the Company's disclosure controls and procedures were not effective as of June 30, 2016.

Changes in Internal Control over Financial Reporting

During the second quarter of 2016 the Company did not make changes in its internal control.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

None.

Item 5. Other Information

Limited Discussion and Analysis of Financial Condition and Results of Operations

After selling its CEI and ATS subsidiaries, the Company's only revenue-producing operations, on June 29, 2015, the Company accounted for those operations as discontinued beginning with its Quarterly Report on Form 10-Q for the period ending June 30, 2015. As a result of accounting for its operations as discontinued, and as a further result of the accounting for its merged operations effective January 4, 2016, the Company does not report revenues or costs of fees earned in 2015 in its current financial reports, but does report certain other operating expenses associated with the Parent Company. Revenues and other components are reflected in the consolidated statements of operations as additional paid-in capital by MariJ. Accordingly, the Company will provide only limited components of its operational information in this report's Discussion and Analysis of Financial Condition and Results of Operations, and has elected to eliminate certain information and comparative results to prior periods in this report, as they would not be reflective of similar results or provide a proper basis for review.

Discontinued Operations

The Company sold the assets and related businesses of its Citrus Extracts, Inc. and Acacia Transport Services, Inc. subsidiaries in Fort Pierce, Florida on June 29, 2015, and first accounted for those operations as discontinued effective with its Quarterly Report on Form 10-Q for the period ended June 30, 2015. The details of this transaction were reported on the Current Report on Form 8-K dated July 16, 2015, which includes a full description of the actions taken.

From June 29, 2015 the Company was without revenue-producing operations until its merger with the MariJ Group of companies on January 4, 2016.

Other Events

None.
