## BARCLAYS PLC

### Barclays announces the restructuring of \$12.3bn of credit market assets

Barclays PLC ("Barclays") today announces the restructuring of \$12.3bn of credit market assets ("the Assets") by a sale of the Assets to Protium Finance LP ("Protium" / "the Fund").

Protium is a newly established fund whose objective is to purchase credit market assets from third parties and manage those assets over time to benefit from their long term cash flows. The Fund will begin by purchasing and managing the Assets from Barclays in the transaction announced today.

The activities of Protium will initially be supported by \$450m of new funding provided by the partners of Protium and by a loan to Protium of \$12.6bn by Barclays. The loan will be used primarily to fund the purchase of the Assets from Barclays. As part of the transaction any excess cashflows following repayment of the loan to Barclays will accrue to the partners of Protium.

Although this transaction ("the Transaction") does not result in a different underlying credit risk profile at the commencement of the loan period, it creates a structure through which the expected value of the long term cash flows from the Assets can be maximised over time. Barclays expects it to enhance shareholder value by:

- Restructuring exposure to the risk in the Assets thereby mitigating the potential impact of short term movement in market values and monoline downgrades;
- Delivering more stable risk-adjusted returns, given the Assets' multi-year duration and their cash flow characteristics; and
- Securing long term access to an experienced team specialising in managing credit market assets.

The Assets will remain on balance sheet for regulatory purposes; consequently the Transaction will not reduce the regulatory capital required for these Assets and may lead to an increase.

The Assets will be sold at current fair values and therefore Barclays expects it will record neither a gain nor a loss on completion of the sale. Barclays will not consolidate Protium for accounting purposes and will derecognise the assets. In order to provide reporting transparency in the future, Barclays will disclose appropriate information in relation to the valuation of the loan to Protium, including the performance of underlying cashflows, and the fair value of the underlying assets.

The Transaction is part of an ongoing process in Barclays to manage down the quantum and volatility of its credit market exposures as it seeks to protect and enhance the interests of shareholders.

### **Details of transaction**

Barclays has agreed to sell the Assets to Protium for a consideration of \$12.3bn, representing their fair value at the date of the Transaction. The Assets comprise structured credit assets insured by monolines (\$8.2bn), RMBS/Other ABS assets (\$2.3bn) and residential mortgage assets (\$1.8bn) held in Barclays Capital. Structured credit assets comprise assets with a fair value of \$3.6bn and monoline guarantees valued at \$4.6bn. At the date of the Transaction, the \$12.3bn book value of the Assets was net of credit reserves of \$2.3bn for the associated monoline exposure.

The Barclays Capital credit market exposures including their fair values and credit valuations, as disclosed at 30th June 2009, amended for the proforma effects of this Transaction, are set out in the Notes attached to this announcement.

The \$450m of new funding through the issue of limited partner interests will entitle the holders to fixed payments of 7% per annum for 10 years on their initial investment, and will be amortised in equal instalments over 5 years. Any excess cash remaining in the Fund after full repayment to Barclays of principal and interest in respect of its loan will accrue to the limited partners at the end of the 10 year period.

Barclays will provide financing to Protium in the form of a \$12.6bn ten-year loan for which it will seek a credit rating. The loan, drawn at completion, will be repaid during the term from cash generated by the Fund. The principal terms of the loan are as follows:

- The loan has a final maturity of ten years, with a commercial rate of return fixed at USD LIBOR plus 2.75% (expected to amount to a cumulative total of \$3.9bn);
- Protium is obliged to pay principal and interest equal to the amount of available cash generated by the Fund after payment of Fund expenses and certain payments to the Fund's partners; and
- The loan is secured by a charge over the assets of Protium.

Protium's cashflow from its assets will be used first to service payment of management fees and distributions to the partners as a priority and subsequently to service payments of interest and principal on the Barclays loan.

On completion of the Transaction, Protium's assets comprised \$12.3bn of Assets together with cash and US treasuries of \$800m. The cash will be deployed at the discretion of Protium in third party credit assets to generate further investment cash flow.

Protium is run by C12 Capital Management, an independent asset management firm, the principals of which are Stephen King and Michael Keeley. Stephen King was head of Barclays Capital's Principal Mortgage Trading Group and Michael Keeley was a member of Barclays Capital's management committee covering European financial institutions. Both ceased to be employed by Barclays Capital upon completion of the Transaction. Neither Barclays nor any of its employees is an investor in the Fund.

Barclays Capital acted as advisor to Barclays on this transaction.

Commenting on the Transaction, Chris Lucas, Group Finance Director, said:

"We are not seeking through the Transaction to effect a change to our underlying credit risk profile. But we are restructuring a significant tranche of credit market exposures in a way that we expect will secure more stable risk-adjusted returns for shareholders over time. We also bring in investors with an appetite for the cash flows arising from the Assets.

For Barclays, this represents a good opportunity to create greater predictability of income and economic capital utilisation."

### **Analyst and Investor conference call**

A conference call for analysts and institutional investors will be hosted by Chris Lucas, Barclays Group Finance Director. The call will commence at 15-30 (BST) today, 16th September 2009.

To access the live conference call, please dial 0845 401 9092 (UK callers), 1 866 250 3740 (US callers) or + 44 20 3023 4419 (all other locations). Access code: "Barclays".

A replay of the conference call will be available after the event. Replay details will be available via the Barclays investor relations website at [www.barclays.com/investorrelations](http://www.barclays.com/investorrelations).

### **Note**

None of the securities referred to above have been or will be registered under the US Securities Act of 1933 or the securities laws of any other jurisdiction and may be offered and sold in the United States and elsewhere only in accordance with an applicable exemption from the registration requirements thereof.

. See Note 3 for split by asset class

The difference between the \$12.1bn of assets shown above and the consideration of \$12.3bn relates to valuation movements on the credit market related exposures since 30 June 2009 and other assets of \$0.3bn included in the disposal.

The gross assets subject to the Transaction total \$12.4bn.

In 2008 Barclays recorded a pre-tax loss of £1,193m attributable to the

A  
 ssets that are being sold. This amount is stated net of hedges and includes operating expenses for the related business. In 2008, the profit before tax of Barclays Group was £6,077m.
