**ANNOUNCEMENT OF FINANCIAL RESULTS**

(Note: Dollar amounts for the most recent period have been translated for convenience at the rate of U.S.\$1.00 = 111 yen.)

**MATSUSHITA REPORTS SECOND QUARTER AND FIRST HALF RESULTS**

***- Cost reductions, V-products spur earnings gains -***

Matsushita Electric Industrial Co., Ltd. (NYSE and PCX symbol: MC) today reported its consolidated financial results for the second quarter and first half, and non-consolidated (parent company alone) results for the first half, ended September 30, 2003, of the current fiscal year ending March 31, 2004 (fiscal 2004).

**Consolidated Second-quarter Results<sup>1</sup>**

Consolidated group sales for the second quarter increased 3% to 1,876.1 billion yen (U.S.\$16.90 billion), from 1,827.6 billion yen in the same three-month period a year ago. Of the total, domestic sales increased 1% to 851.2 billion yen (\$7.67 billion). Overseas sales also improved, up 4% to 1,024.9 billion yen (\$9.23 billion). Excluding the effects of currency translation, overseas sales increased 3% from a year ago on a local currency basis<sup>2</sup>.

During the second quarter, the domestic economy in Japan saw modest recoveries in both exports and capital investment by corporations. The domestic economy as a whole, however, continued a trend of instability due to such factors as sluggish sales of seasonal products, a result of an unusually cool summer, and a stronger Japanese yen. Overseas, economies in China and other Asian countries showed steady progress overcoming the effects of the SARS outbreak. Meanwhile, the economic climate in the United States also showed signs of improvement.

**Table of Contents**

- 2 -

As previously announced, Matsushita has designated this year as the year it would re-declare its founding, or in other words return to the basic management principles upon which the company was founded. In line with this policy, Matsushita shifted its management focus from deconstruction to creation under a new autonomous business domain-based organizational structure that can quickly respond to customer needs.

Specific initiatives included the continued introduction of V-products to capture a leading share in high-volume markets, and simultaneous global introductions of strategic products by combining the efforts of business domain companies and domestic and overseas marketing divisions. Furthermore, as part of a global strategy to enhance brand value, Matsushita designated the Panasonic brand as a globally unified brand for overseas markets under the slogan Panasonic ideas for life. The company also implemented a new management system that evaluates the performance of each business domain company based on Capital Cost Management (CCM) and cash flows, both on a global consolidated basis, aimed at enhancing management efficiency.

The growth of the company's consolidated sales for the second quarter reflected the positive results of the initiatives mentioned above, especially the success of V-products, led by digital audiovisual (AV) products, cellular phones and factory automation (FA) equipment, although sales declined in summer seasonal products, such as air conditioners, due to unfavorable weather in Japan.

Regarding earnings, despite intense global competition, operating profit<sup>3</sup> for the second quarter increased sharply, benefiting mainly from the success of V-products and the positive effects of various cost reduction initiatives. As a result, operating profit increased to 59.6 billion yen (\$537 million), up 74% compared with 34.3 billion yen in the same three-month period a year ago. However, due mainly to losses on the valuation of investment securities of associated companies, income before income taxes decreased 16% to 32.1 billion yen (\$289 million), from 38.3 billion yen in last year's second quarter. Net income for the quarter totaled 20.4 billion yen (\$184 million), up 45% from 14.1 billion yen in the comparable year-earlier period.

This resulted in a net income per common share of 8.68 yen (\$0.08) on a diluted basis in the second quarter, versus a net income per common share of 6.75 yen on the same basis a year ago.

**Table of Contents**

- 3 -

**Consolidated First-half Results**

Combining the second quarter results with those of the first quarter, consolidated group sales for the first fiscal half ended September 30, 2003 increased 1% to 3,639.7 billion yen (\$32.79 billion), compared with 3,621.0 billion yen in the same six-month period a year ago. Domestic sales also increased 1% to 1,676.3 billion yen (\$15.10 billion), while overseas sales were mostly unchanged at 1,963.4 billion yen (\$17.69 billion). Overseas sales on a local currency basis as well were nearly equal to last year's total for the same six-month period.

For reasons similar to those given for second quarter results, the company's operating profit for the first fiscal half increased 59% to 79.6 billion yen (\$717 million), from 50.0 billion yen in the comparable period a year ago.

Income before income taxes for the six-month period also climbed 3% to 57.3 billion yen (\$516 million), compared with 55.6 billion yen a year ago. Net income was also up, increasing 32% to 23.1 billion yen (\$209 million), as compared with a net income of 17.6 billion yen in the first half of the previous year. This resulted in a net income per common share of 9.83 yen (\$0.09) on a diluted basis, versus a net income per common share of 8.42 yen in the first half of the previous year.

1. During the fiscal year ended March 31, 2003, Matsushita began consolidating certain previously unconsolidated subsidiaries of Victor Company of Japan, Ltd. (JVC). Accordingly, consolidated results for the second quarter and first fiscal half ended September 30, 2002 have been restated.
2. Regarding results on a local currency basis, see Note 3 of Notes to consolidated financial statements on page 16.
3. For information about operating profit, see Note 2 of Notes to consolidated financial statements on page 16.

**Table of Contents**

- 4 -

**Consolidated First-half Sales Breakdown by Product Category**

As previously announced, Matsushita launched a new business domain-based organizational structure in January 2003, followed in April by the introduction of a new groupwide management system. Accordingly, the company has reclassified its previous four business segments (AVC Networks, Home Appliances, Industrial Equipment, and Components and Devices) into five new segments, effective April 1, 2003. The five new segments are: AVC Networks, Home Appliances, Components and Devices, JVC, and Other.

The company's first-half consolidated sales by reclassified product category, as compared with restated prior year amounts, are summarized as follows:

**AVC Networks**

AVC Networks sales increased 2% to 1,726.5 billion yen (\$15.55 billion), compared with 1,693.7 billion yen in the same six-month period a year ago. Within this segment, sales of video and audio equipment decreased 2% from the first half of the previous year. Strong sales were recorded in such digital AV products as flat-panel TVs and DVD recorders, but sales declined in VCRs, CRT TVs and audio equipment.

Sales of information and communications equipment grew 4% from the year-earlier six-month period. Solid sales of automotive electronics and cellular phones in overseas markets were more than sufficient to offset setbacks in hard disk drives.

**Home Appliances**

Sales of Home Appliances were down 2% to 586.2 billion yen (\$5.28 billion), compared with 598.3 billion yen in the previous year's first half. Although washing machines and microwave ovens recorded sales gains, sales of compressors declined from last year's first half. In addition, sales of air conditioners and other seasonal products in the domestic market were negatively affected by a cool summer, resulting in lower sales overall.

**Components and Devices**

Sales of Components and Devices decreased 3% to 562.7 billion yen (\$5.07 billion), compared with 580.0 billion yen in the first half of the previous year. Sales of semiconductors and liquid crystal displays increased from the same period a year ago, but sales declines in general components and electronic tubes resulted in overall lower sales.

JVC

Sales for JVC (Victor Company of Japan and its subsidiaries) totaled 403.7 billion yen (\$3.64 billion), down 5% from 425.3 billion yen in last year's first half. This decline was mainly attributable sluggish sales of conventional AV equipment in Japan and the Americas, despite solid sales of business-use equipment.

Other

Sales for Other increased 11% to 360.6 billion yen (\$3.25 billion), from 323.7 billion yen in the same six-month period a year ago. Strong sales of FA equipment was the main reason for the sharp increase.

**Table of Contents**

- 5 -

**Consolidated Financial Condition**

On a consolidated basis, total assets as of September 30, 2003 were 7,749.0 billion yen, a decrease of 85.6 billion yen from March 31, 2003. Despite increases in inventories due to seasonal factors, the company implemented various initiatives to reduce assets, including fixed assets. Compared to September 30, 2002, the company succeeded in reducing inventories by 69.7 billion yen.

**Non-Consolidated (Parent Company Alone) First Half Results**

First-half parent-alone sales decreased 8% to 1,958.9 billion yen, from 2,118.6 billion yen in the same six-month period a year ago. This was mainly attributable to the exclusion from parent company sales results of certain businesses that were transferred to subsidiaries as part of the company's groupwide organizational restructuring implemented in January 2003.

Regarding parent-alone earnings, while the company was successful in implementing various cost reduction initiatives, the aforementioned decrease in sales resulted in a decline in parent-alone operating profit to 15.4 billion yen, down 9% from 16.8 billion yen a year ago. However, recurring profit increased 11% to 53.7 billion yen, from 48.4 billion yen in the previous first half, mainly a result of an increase in dividend income. Parent-alone net income also increased, up 1% to 45.9 billion yen, from 45.6 billion yen in the first half of last year.

**Interim Dividend**

The Board of Directors of the company voted today to distribute an interim cash dividend of 6.25 yen per common share, payable November 28, 2003, to parent-company shareholders of record on September 30, 2003. This dividend rate is unchanged from the interim dividend of last year.

**Table of Contents**

- 6 -

**Commemorative Dividend**

The Board of Directors of the company also voted today in favor of a plan to propose a commemorative cash dividend for approval at the company's annual meeting of shareholders to be held in June 2004. The commemorative dividend is to be added to the ordinary year-end cash dividend for the current fiscal year ending March 31, 2004, which falls on the 85th anniversary of the company's founding. The commemorative dividend is being proposed in appreciation of shareholder support of the company over many years. The amount of the proposed year-end cash dividend will be 7.75 yen per common share, consisting of an ordinary dividend of 6.25 yen, plus a 1.50 yen commemorative dividend. If implemented, total dividends for fiscal 2004, including the aforementioned interim dividend of 6.25 yen per common share, will be 14.00 yen per common share, as compared with 12.50 yen for fiscal 2003.

**Outlook for the Full Fiscal Year 2004**

Regarding the business environment for fiscal 2004, while economies in Japan and the United States are showing signs of moderate recovery, factors such as a strong Japanese yen and price declines contribute to lingering uncertainty. Within this environment, the company will work to enhance profitability and increase cash flows by continuing to introduce attractive products to the market, including V-products, as well as further promoting autonomous management at each business domain company.

For fiscal 2004, Matsushita maintained its forecast made on April 28, 2003. At that time the company forecasted fiscal 2004 sales on a consolidated basis to increase by about 1%, compared to fiscal 2003, to approximately 7,450 billion yen. The forecast for operating profit<sup>4</sup> is also unchanged, expected to increase by about 18% from fiscal 2003 to approximately 150 billion yen, with consolidated income before income taxes anticipated to rise to approximately 120 billion yen, up 74% from fiscal 2003. The forecast for income before income taxes includes estimated expenses of approximately 50 billion yen for restructuring charges and non-recurring income of about 20 billion yen from other items. Net income is expected to improve to approximately 30 billion yen, from a net loss of 19 billion yen in the last fiscal year.

**Table of Contents**

- 7 -

On a parent company alone basis, sales in fiscal 2004 are expected to decrease by 8%, compared to fiscal 2003, to approximately 3,900 billion yen. Recurring profit, however, is projected to increase 21% from fiscal 2003 to approximately 97 billion yen, and net income is forecast to increase 73% from fiscal 2003 to approximately 50 billion yen.

4. For information about operating profit, see Note 2 of Notes to consolidated financial statements on page 16.

Matsushita Electric Industrial Co., Ltd., best known for its Panasonic brand products, is one of the world's leading manufacturers of electronic and electric products for consumer, business and industrial use. Matsushita's shares are listed on the Tokyo, Osaka, Nagoya, Fukuoka, Sapporo, New York, Pacific, Euronext Amsterdam, Euronext Paris, Frankfurt and Dusseldorf stock exchanges. \* Upon the introduction of a new business domain-based management system, which focuses on global consolidated management by each business domain, from this fiscal year (fiscal 2004), the company changed its business segment classifications to five new segments: AVC Networks, Home Appliances, Components and Devices, JVC and Other, in order to ensure consistency of internal management structure and disclosure. Accordingly, information by business segment for the first half ended September 30, 2002 has been restated.

## Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

Principal internal divisional companies or units and subsidiaries operating in respective segments are as follows:

### **AVC Networks:**

Panasonic AVC Networks Company, Panasonic Communications Co., Ltd.,  
Panasonic Mobile Communications Co., Ltd., Panasonic Automotive Systems Company,  
Panasonic System Solutions Company, Matsushita Kotobuki Electronics Industries, Ltd.

### **Home Appliances:**

Home Appliances Group, Healthcare Business Company, Lighting Company,  
Matsushita Ecology Systems Co., Ltd.

### **Components and Devices:**

Semiconductor Company, Matsushita Battery Industrial Co., Ltd.,  
Matsushita Electronic Components Co., Ltd., Motor Company

### **JVC:**

Victor Company of Japan, Ltd.

### **Other:**

Panasonic Factory Solutions Co., Ltd., Matsushita Industrial Equipment Co., Ltd.

Expenses for basic research and administrative expenses at the corporate headquarters level are treated as unallocatable expenses for each business segment, and are included in Corporate and eliminations.

- 16 -

**Notes to consolidated financial statements:**

1. The company's consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States (U.S. GAAP).
2. In order to be consistent with generally accepted financial reporting practices in Japan, operating profit is presented as net sales less cost of sales and selling, general and administrative expenses. The company believes that this is useful to investors in comparing the company's financial results with those of other Japanese companies. Under U.S. GAAP, restructuring charges are usually included as part of operating profit in the statement of income.
3. Sales on a local currency basis are not measures conforming with U.S. GAAP. However, the company believes that these measures are useful to investors in promoting understanding of the company's business conditions by excluding the influence of foreign currency fluctuations.
4. Restructuring charges in other income (deductions) of the consolidated statements of income for the second quarter ended September 30, 2003 and the first half ended September 30, 2003 and 2002 include expenses associated with the implementation of early retirement programs.
5. The company began consolidating certain previously unconsolidated subsidiaries, primarily overseas subsidiaries of Victor Company of Japan, Ltd., a consolidated subsidiary of the company, during the year ended March 31, 2003 and restated amounts for the second quarter and first half ended September 30, 2002.
6. From this fiscal year (fiscal 2004), the company changed its business categories to five new categories: AVC Networks, Home Appliances, Components and Devices, JVC, and Other, and discloses financial data according to these. As such, the sales breakdown data for the second quarter and first half ended September 30, 2002 are restated in both the Sales Breakdown table and the Segment Information.
7. Comprehensive income (loss) was reported as a gain of 29,635 million yen (\$267 million) for the first half ended September 30, 2003, a loss of 377,052 million yen for the first half ended September 30, 2002, and a loss of 570,552 million yen for the year ended March 31, 2003. Comprehensive income (loss) includes net income (loss) and increases (decreases) in cumulative translation adjustments, unrealized holding gains (losses) of available-for-sale securities, unrealized gains (losses) of certain derivative instruments and minimum pension liability adjustments.
8. Number of consolidated companies: 381
9. Number of companies reflected by the equity method: 57
10. United States dollar amounts are translated from yen for convenience at the rate of U.S. \$1.00 = 111 yen, the approximate rate on the Tokyo Foreign Exchange Market on September 30, 2003.

**Management Policy**

(1) Basic Policy for Corporate Management

Since its establishment, Matsushita has operated its business under its basic management philosophy, which sets forth that the mission of a business enterprise is Contributing to the progress and development of society and the well-being of people through its business activities, thereby enhancing the quality of life throughout the world. Matsushita, as a public entity, is committed to its relationship with all stakeholders.

(2) Basic Policy for Profit Distribution

Matsushita has conducted company management recognizing the importance of profit return to shareholders since the company's establishment. Its share dividend policy is based on a consistent distribution of dividends. In addition, on commemorative occasions, the company has rewarded its shareholders with such means as dividend increases.

(3) Company's Policy on Reduction of the Share Trading Unit Size

The amendments to the Japanese Commercial Code that took effect in October 2001 allow listed companies to reduce the number of shares per unit for trading (share trading unit) on stock markets in Japan. Matsushita has given careful consideration as to whether or not it should avail itself to this eased restriction, but as of today, the company believes it is too early to do so.

Recognizing the importance of increased participation in capital markets by individual investors, Matsushita, over the years, has implemented various measures with individual shareholders in mind. Some of these include enhancement of the company's investor relations website, more detailed business reports and improved shareholder meeting arrangements. Although Matsushita is aware that a reduction in the trading unit size is an effective method for broadening its individual shareholder base, the company would incur significant cost in doing so, while the benefits of such a measure have yet to be verified. Matsushita would consider a possible change in the trading unit size only at such time as the aforementioned advantages and benefits can be verified.

(4) Corporate Management Strategies and Challenges

With the continuing advances in digital networking, society is becoming increasingly complex. To enhance its contribution to society in this new era, Matsushita introduced its three-year management plan, Value Creation 21 with a theme of deconstruction (restructuring) and creation (growth strategy) in April 2001, aiming at transforming Matsushita into a lean and agile Super Manufacturing Company for the 21st century. To this end, the company has been challenging to create new business models to create a value chain between devices, finished products, and services. As part of Value Creation 21, the company has so far implemented various structural reforms, including reforms of the domestic consumer sales and distribution structure, manufacturing reforms, research, development and design (R&DD) reforms and employment restructuring.

**Table of Contents**

- 23 -

Beginning in January 2003, Matsushita launched a new groupwide organizational structure with business domain companies designated as strategic units to eliminate duplication of businesses within the Matsushita group. With the new organizational structure, business domain companies are responsible for R&D, manufacturing and sales within their respective clearly defined business domains, thereby allowing them to more fully achieve growth strategies. Furthermore, from fiscal 2004, the company also inaugurated a management system that focuses on two business performance evaluation standards for each business domain company: Capital Cost Management (CCM) to measure capital efficiency, and cash flows, which indicates a company's ability to generate cash. These standards are more closely related to those used by capital markets, and are intended to result in management that increases corporate value.

<Major Activities Undertaken in Fiscal 2004>

In line with the company's shift in focus to achieving growth, in the current fiscal year (fiscal 2004), each business domain company is actively implementing management initiatives based on the above-mentioned new management structure and system. The company has also designated this year as one in which it will redeclare its founding, or in other words, return the principles upon which the company was founded to better contribute to society in the 21st century. The following are initiatives implemented this year to establish solid pillars of management and contribute to overall business results:

<Initiatives for Fiscal 2004>

1. V-products

V-products introduced last year have resulted in increased market share. For fiscal 2004, Matsushita has selected 90 new V-products that will surpass last year's models in both quality and quantity. It expects sales for these to reach approximately 1.2 trillion yen. To maximize opportunities in the worldwide market, Matsushita is utilizing global simultaneous product introductions. The company has already achieved success with V-products introduced so far this year, including a full lineup of DVD recorders and flat-panel TVs in the digital AV equipment field, as well as achieving positive results for V-products in Home Appliances, Components and Devices, and other segments.

2. R&D Strategy

Through selection of key technology areas, Matsushita will accelerate strategic concentration of technological management resources, including engineering and development staff. By doing so, Matsushita will step up the development of black box technologies to set the company apart from the competition. Matsushita will leverage the benefits from these initiatives to increase product competitiveness. Matsushita will also contribute to the realization of a ubiquitous networking society by developing new technologies, beginning with core device technologies in the digital AV equipment area and supporting business expansion in the networkable appliances and service business areas with easy networking ideas as the key word.

**Table of Contents**

- 24 -

**3. Overseas Strategy**

Matsushita will take various initiatives to strengthen overseas operations, aiming at greater sales growth, and operating profit amounting to at least 60% of Matsushita's consolidated total. Beginning with electric motor operations, which are being strengthened through expansion initiatives in China and alliances, and refrigerator operations that focus on HFC-free models and supporting components, Matsushita is establishing an optimum global manufacturing structure. The company is also aiming to increase sales through such initiatives as simultaneous global product introductions of strategic products. The company will, in particular, accelerate operations in China under the key concepts of localization, integration and cooperation, aiming for a 1 trillion yen business on a groupwide basis in 2005.

**4. Global Brand Strategy**

Matsushita positioned the Panasonic brand as a globally unified brand for overseas markets under the slogan of Panasonic ideas for life. Matsushita will focus marketing resources on this brand overseas in order to effectively promote the company's wide range of products. By promoting a Panasonic brand that has developed a reputation in the U.S. and Europe as one of dependability and advanced technology, the company aims to increase corporate value.

**(5) Corporate Governance**

Based on its basic philosophy of contributing to society as a public entity, Matsushita over the years has been committed to the enhancement of its corporate governance. As such, it was one of the first Japanese companies to invite outside directors on its Board of Directors and also established an Advisory Board comprised of distinguished outside leaders.

In fiscal 2004, Matsushita is implementing further reforms to establish an optimum management and governance structure tailored to the Group's new business and organizational structure. Under the new structure, the Head Office has empowered each of the business domain companies by delegating authority in order to expedite autonomous management. At the same time, an Executive Officer System, for execution of business at various domestic and overseas Group companies, has been introduced, enabling the Head Office to carry out corporate strategies that integrate the Group's comprehensive strengths. In addition, Matsushita has realigned the role and structure of the Board of Directors to conduct swift and strategic decision-making, as well as optimum monitoring, on Groupwide matters. Accordingly, the Board of Directors can now concentrate on corporate strategies and supervision of business domain companies, as opposed to Executive Officers, who have responsibilities relating to day-to-day operations. Taking into consideration the diversified scope of Matsushita's business operations, the company will, however, maintain a system where Executive Officers, who are most familiar with the specifics of respective operations, take an active part in the Board of Directors. Through these reforms, the Board of Directors itself has been reduced in number, with terms shortened to one year. While also strengthening the company's existing Corporate Auditors System, and through the aforementioned initiatives, Matsushita will continuously enhance the Group's corporate governance based on its management philosophy.

(% of Sales)	(0.6%)		(0.4%)	

**Note 1:**

In order to be consistent with generally accepted financial reporting practices in Japan, operating profit (loss) is presented as net sales less cost of sales and selling, general and administrative expenses. The company believes that this is useful to investors in comparing the company's financial results with those of other Japanese companies. Under accounting principles generally accepted in the United States, restructuring charges are usually included as part of operating profit (loss) in the statement of income. The company's annual consolidated operating profit and consolidated income before income taxes for fiscal 2004 are currently forecasted to be about 150 billion yen and 120 billion yen, respectively. The difference represents estimated expenses of about 50 billion yen associated with restructuring charges and income of about 20 billion yen from other items.

**Note 2:**

Sales data on a local currency basis are not measures conforming with accounting principles generally accepted in the United States. However, the company believes that these measures are useful to investors in promoting understanding of the company's business conditions by excluding the influence of foreign currency fluctuations. Similarly, the company provided herein certain local currency-based data excluding the hard disk drive (HDD) business, as the company has withdrawn from production of 3.5-inch HDDs for desk top PCs and significantly reduced the business during the last fiscal year. See foreign currency rates used for consolidation in item 4.

**Disclaimer Regarding Forward-Looking Statements**

This document includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its group companies (the Matsushita Group). To the extent that statements in this document do not relate to historical or current facts, they constitute forward-looking statements.

These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to them, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this document. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, Asian currencies and other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to realize expected benefits of various restructuring activities in its business and organization; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; and fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings; as well as future changes or revisions to accounting policies or accounting rules.

**Matsushita Reorganizes European Car Audio Business**

***- Closure of Panasonic Automotive Systems Deutschland -***

Matsushita Electric Industrial Co., Ltd. (NYSE and PCX symbol: MC) today announced plans to reorganize its European car audio business operations. This move is part of the company's efforts to become a top supplier of car electronics equipment in Europe. As part of this reorganization, Matsushita will establish a new R&D/sales company, Panasonic Automotive Systems Europe GmbH (PASE) headquartered in Munich, Germany on April 1, 2004, as a subsidiary of Matsushita Electric Europe (HQ) Ltd. The new company will be established by merging the R&D division of Panasonic Automotive Systems Deutschland GmbH (PASD) located in Neumuenster, Germany, with the car electronics sales division of Panasonic Industrial Europe GmbH, based in Munich. In connection with these shifts, Matsushita will discontinue operations at PASD, an R&D and manufacturing subsidiary, on March 31, 2004. Meanwhile, manufacturing of car audio products at PASD will be transferred to Matsushita's existing production site, Panasonic Mobile & Automotive Systems Czech s.r.o. in Pardubice, Czech Republic.

The reorganization of the above-mentioned European car electronics business reflects Matsushita's strategy to increase its focus on the European automotive industry, which accounts for approximately 30%\* of global automobile production.

\* internal estimate based on data released by automobile manufacturers

Upon the implementation of Matsushita's Groupwide business and organizational restructuring in January 2003, Panasonic Automotive Systems Company (PAS), headquartered in Shinagawa, Japan, was established to create an optimum integrated operational structure in the car electronics field, for R&D, manufacturing and sales.

**Table of Contents**

- 2 -

PAS has concentrated its efforts on enhancing a consistent, customer-oriented approach in each of the four regions of North America, Europe, China and Japan, in response to the global expansion of automobile manufacturers. Such efforts include the establishment of a newly reorganized Panasonic Automotive Systems Company of America in April, 2003.

See below for information about PASD and PASE.

Matsushita Electric Industrial Co., Ltd., best known for its Panasonic brand products, is one of the world's leading manufacturers of electronic and electric products for consumer, business and industrial use. Matsushita's shares are listed on the Tokyo, Osaka, Nagoya, Fukuoka, Sapporo, New York, Pacific, Euronext Amsterdam, Euronext Paris, Frankfurt and Dusseldorf stock exchanges. For more information, visit the Matsushita web site at the following URL: <http://www.panasonic.co.jp/global/>
