OVERVIEW

History And Organization

American Capital Alliance, Inc., formerly Prelude Ventures, Inc. (the Company) was incorporated under the laws of the State of Nevada on May 24, 2000. The Company has commenced limited business operations and we are considered a development stage enterprise. To date, our activities principally have been limited to organizational matters, and examining business and financing opportunities for the Company. In connection with the organization of our company, the founding shareholder of our company contributed an aggregate of \$25,000 cash in exchange for 1,000,000 shares of common stock and conducting a public offering of 1,500,000 common shares of \$75,000. We have no significant assets.

Prior Business Matters

On March 9, 2001, we acquired a 20 year mining lease from Steve Sutherland, the owner of 24 unpatented lode mining claims, sometimes referred to as the Medicine Project, located in Elko County, Nevada.

During the nine months ended September 30, 2003, management of the Company terminated the mining lease. As the Company terminated the lease, it is required to pay all federal and state mining claim maintenance fees for the current year. The Company is required to perform reclamation work on the property as required by federal state and local law for disturbances resulting from the Company's activities on the property. In the opinion of management, there will be no continuing liability. Please see the Company's Schedule 14C Information Statement as filed with the Securities and Exchange Commission on February 13, 2004 and mailed or furnished to Shareholders on February 17, 2004, and incorporated herein by reference, for additional details on this matter.

Business Acquisition Canceled

Pascal Energy, Inc.'s business has to provide servicing for the oil and gas industry.

The Company determined that the transaction could not be completed due to the inability to complete a comprehensive due diligence. The shares of common stock previously transferred in anticipation of the completion of the transaction were returned to the treasury of the Company and

We are a startup, development stage Company and have not yet started our business operations or realized any revenues from our business operations.

Our auditors have issued a going concern opinion. This means that our auditors believe there is doubt that we can continue as an on-going business for the next 12 months unless we obtain additional capital to finance our operations. This is because we have not generated any revenues and no revenues are anticipated until we complete any of the acquisitions described in this document or other acquisitions. Accordingly, we must raise money from sources other than the operations of this business. Our only other source of cash at this time is investments by others in our Company. We must raise cash to complete the acquisitions and stay in business.

To meet our need for cash, we are attempting to raise debt and equity financing to complete the acquisitions described in this document and fund the Company's on-going operations. There is no assurance that we will be able to raise these funds and stay in business. If we do not raise the funds required to complete any of the acquisitions, we will have to find alternate sources such as a secondary public offering, private placement of securities, or loans from officers or others. If we need additional cash and can not raise it, we will either have to suspend operations until we do raise the cash or cease operations entirely.

Limited Operating History. Need for Additional Capital

There is no historical financial information about our Company on which to base an evaluation of our performance. We are a development stage Company and have not generated any revenues from operations. We can not guarantee we will be successful in our business operations. Our business is subject to the risks inherent in the establishment of a new business enterprise, including limited capital resources and the ability to find and finance suitable acquisition candidates. We are seeking equity and debt financing to provide the capital required to fund the proposed acquisitions and our on-going operations.

We have no assurance that future financing will be available to the Company on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. Equity financing could result in additional dissolution to new shareholders.

Limited and Capital Resources

Since the Company's inception, the Company has raised approximately \$100,000 from the sales of its common shares and approximately \$482,000 from capital contributed by the Company's promoters. This money has been utilized for start-up costs and operating capital. As of 12/31/03, the Company has sustained operating losses of \$9,662,160, of which \$8,778,000 is compensation expense related to the issuance of 13,300,000 common shares of stock related to two (2) on-going acquisitions.

In this regard, the Company's plan of operations for the next 12 months is to pursue business acquisitions, including the following:

New Acquisitions

On October 9, 2003, the Company entered into a Stock Purchase Agreement (Alliance Agreement) with Alliance Petroleum Products Company (Alliance), an Illinois Corporation, and a Rider to the Alliance Agreement (Rider). Alliance is in the business of blending and bottling motor oil and anti-freeze. Under the Alliance Agreement, the Company issued 5,000,000 shares of common stock for 100% of the issued and outstanding shares of the common stock of Alliance (757,864 common shares). An additional 5,000,000 shares of common stock of the Company shall be issued to Worldlink International Network, Inc. upon 24 months from the date hereof. Under the terms of the Rider, the Company is required to provide funding of at least \$3,500,000 to pay a secured creditor of Alliance. The shareholders of Alliance have the option to have the 757,864 issued and outstanding shares of common stock of Alliance returned and the Alliance Agreement rescinded if they choose, if the Company does not arrange the funding within 150 days from the date of the execution of the Alliance Agreement. Since the option period has expired, the principals of the transactions have verbally agreed to extend the option period pending completion of the financing.

In addition, On October 9, 2003, the Company entered into an agreement with the shareholders of Motor Parts Warehouse, Inc. (MPW), of St. Louis, Missouri, to acquire the rights to an option to purchase 100% of the outstanding shares of MPW (MPW Option). As consideration for the rights to this option, the Company must issue 5,000,000 shares of common stock. Upon exercise of the MPW Option, the Company must issue an additional 5,000,000 shares of common stock to the shareholders of MPW and pay \$2,200,000 in cash. MPW is also an auto parts distributor. If the Company does not arrange the funding within 180 days from the date of the execution of the MPW agreement, MPW can rescind this agreement. Since the expiration of the option period has expired, the principals of the transactions have verbally agreed to extend the option period pending completion of the financing.

Results of Operations

The Company is a development stage Company and has not generated any revenues from operations. During the years ended December 31, 2002, the Company incurred a net loss of \$92,466 which was primarily the result of management, legal and professional fees related to the on-going operations of the business.

Table of Contents

During the year ended December 31, 2003, the Company incurred a loss of \$9,569,694, which was primarily the result of the following:

Failed Acquisition

On October 9, 2003, the Company entered into an agreement to acquire an option for \$500,000 to purchase the assets and certain liabilities of Tri-State Stores, Inc., an Illinois Corporation (Tri-State), GMG Partners LLC, an Illinois Limited Liability Company (GMG), and SASCO Springfield Auto Supply Company, a Delaware Corporation (SASCO). Tri-State, GMG and SASCO are collectively referred to herein as TSG. Upon exercise of the option, the Company must pay \$3,000,000 and assume certain liabilities, not exceeding \$700,000. TSG is involved in the automotive after market. During the first quarter of 2004, the Company elected not to continue to pursue this acquisition. The termination of this transaction resulted in a \$185,000 charge to operations in the form of acquisition expense.

Termination Expense

During the third quarter, the Company agreed to issue 200,000 common shares to its former President for the settlement of management fees payable (\$105,000), advances to the Company (\$10,000) and termination expense (\$355,000). The shares were valued at \$2.35 per share, by prior consultants. These shares were issued to the former President during the quarter ended December 31, 2003, and were accounted for as an addition to paid in capital. This resulted in the Company recording \$470,000 in charges, including \$355,000 of termination expense and \$115,000 of management fees.

Compensation Expense

In conjunction with the proposed acquisition of Alliance Petroleum Products Company, (Alliance) and Motor Parts Warehouse, Inc. (MPW) the Company issued 13,300,000 restricted shares of common stock. For financial statement purposes, these shares have been valued at \$8,778,000 or \$0.66 per share, based on their market value as of December 31, 2003 (\$1.01), and applying a 35% discount for the shares not being marketable due to their restricted status.

Independent Auditors Report

To the Board of Directors and Stockholders

American Capital Alliance, Inc.

We have audited the accompanying balance sheet of American Capital Alliance, Inc., FKA Prelude Ventures, Inc., (the Company) (a development stage company) as of December 31, 2003, and the related statement of operations, stockholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements as of December 31, 2002, were audited by other auditors whose report dated March 14, 2003, on those statements included an explanatory paragraph that described certain conditions that raised substantial doubt as to its ability to continue as a going concern, as discussed in Note B to the financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 2003 financial statements referred to above present fairly, in all material respects, the financial position of American Capital Alliance, Inc. as of December 31, 2003, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Notes B and C to the financial statements, the Company is in the development stage, and is dependent on its ability to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due. These factors, along with other matters set forth in Note B, raise substantial doubt that the Company will be able to continue as a going concern. Management's plan regarding those matters is also described in Note B. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Additionally, approximately \$482,000 was raised during the quarter ended December 31, 2003, in a private placement whose proceeds were used for working capital needs, as well as a down payment toward the purchase of an option on one of the proposed acquisitions.
