II. Description of Business

1. Business Overview

a. Current Trend of Industry

Increased competition

Since the IMF crisis, the banking industry has seen significant reorganization and the impending saturation of the loan market is increasing competition in the banking market.

Reorganization of the 2nd tier financial institution segment

The securities industry has experienced a downturn in the market due to severe competition and decrease of brokerage fees due to the proliferation of online trading. The investment trust industry is also going through difficult times as trust balances are falling and a low interest environment continues to remain. An overall reorganization of the securities and investment trust industry may transpire in the future

The card industry has been hit by rampant delinquencies due to the slowdown of the local economy and credit limit reductions made by card issuers. There has been considerable restructuring in the card industry and further rehabilitation is anticipated.

Further Expansion and Convergence

Introduction of more diverse and complex financial securities, especially in the bancassurance business

INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To the Board of Directors and Shareholders of

Woori Finance Holdings Co., Ltd

We have reviewed the accompanying non-consolidated balance sheet of Woori Finance Holdings Co., Ltd. (the Company) as of March 31, 2004 and the related non-consolidated statements of operations and cash flows for the three months ended March 31, 2004 and 2003, all expressed in Korean won. These financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these financial statements based on our reviews.

We conducted our reviews in accordance with the standards for review of interim financial statements in the Republic of Korea. These standards require that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data, and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our reviews, nothing has come to our attention that causes us to believe that the non-consolidated interim financial statements as of March 31, 2004 and for the three months ended March 31, 2004 and 2003 are not presented fairly, in all material respects, in accordance with the financial accounting standards in the Republic of Korea.

We have previously audited, in accordance with auditing standards generally accepted in the Republic of Korea, the non-consolidated balance sheet of the Company as of December 31, 2003 and the related non-consolidated statements of operations, appropriations of retained earnings and cash flows for the year then ended (not presented herein) and in our report dated February 17, 2004, we expressed an unqualified opinion on those non-consolidated financial statements. The accompanying non-consolidated balance sheet as of December 31, 2003 comparatively presented does not differ, in material respects, from such audited non-consolidated balance sheet.

Our reviews also comprehended the translation of the Korean won amounts into U.S. dollar amounts and nothing has come to our attention that cause us to believe that such translation has been made in conformity with the basis stated in Note 2 to the accompanying non-consolidated interim financial statements. Such U.S. dollar amounts are presented solely for the convenience of readers outside of Korea.

Table of Contents

Without offering our conclusion, we draw attention to the followings:

As explained in Note 26 to the accompanying non-consolidated interim financial statements, Woori Bank, a subsidiary of the Company, merged with Woori Credit Card Co., Ltd. (WCC), a subsidiary of the Company, on March 31, 2004. Woori Bank took over substantially all of the assets and liabilities of WCC by exchanging one common share of WCC with 0.3581 share of Woori Bank and (Won)330.3 billion (US\$ 286.3 million) of the difference between (Won)657.2 billion (US\$ 569.7 million) of net assets acquired from WCC and (Won)326.9 billion (US\$ 283.4 million) of consideration for the merger was recorded as capital surplus of Woori Bank. As a result, the number of issued common shares of Woori Bank increased from 571 million to 636 million and contributed capital of Woori Bank increased from (Won)2,852.8 billion (US\$ 2,472.9 million) to (Won)3,179.8 billion (US\$ 2,756.4 million) as of March 31, 2004.

Accounting principles and review standards and their application in practice vary among countries. The accompanying non-consolidated financial statements are not intended to present the financial position, results of operations or cash flows in accordance with accounting principles and practices generally accepted in countries other than the Republic of Korea. In addition, the procedures and practices utilized in the Republic of Korea to review such financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying financial statements are for use by those knowledgeable about Korean accounting procedures and review standards and their application in practice.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Financial Statement Presentation

The Company maintains its official accounting records in Korean won and prepares statutory financial statements in the Korean language (Hangul) in conformity with the accounting principles generally accepted in the Republic of Korea. Certain accounting principles applied by the Company that conform with financial accounting standards and accounting principles in the Republic of Korea may not conform with generally accepted accounting principles in other countries. Accordingly, these financial statements are intended for use by those who are informed about Korean accounting principles and practices. The accompanying financial statements have been restructured and translated into English from the Korean language financial statements.

Certain information included in the Korean language financial statements, but not required for a fair presentation of the Company's financial position, results of operations or cash flows, is not presented in the accompanying financial statements.

The US dollar amounts presented in these non-consolidated interim financial statements were computed by translating Korean won into US dollars at the rate of (Won)1,153.6 to US\$1.00 the Base Rate announced by Seoul Money Brokerage Service, Ltd. at March 31, 2004, solely for the convenience of the readers outside of the Republic of Korea. This convenience translation into US dollars should not be construed as representations that the Korean won amounts have been, could have been, or could in the future be, converted at this or any other rate of exchange.

The accounting policies, which have been adopted in preparing the accompanying non-consolidated interim financial statements, are not different materially from those used in preparing the non-consolidated financial statements for the year ended December 31, 2003.

14. STOCK OPTIONS

- (1) On December 4, 2002, the Company granted stock options to 62 directors of the Company and its subsidiaries. The exercise price of 60 percent of the total number of stock options granted will be determined depending on the Korean banking industry stock index (at minimum (Won)6,800 per share). In addition, for the remaining 40 percent of the total number of stock options granted, of which the exercise price is (Won)6,800 per share, the number of stock options to be vested will be dependent on the Company's management performance target levels; non-performing loans ratio, capital adequacy ratio and net income to total asset ratio by 15%, 15%, and 10%, respectively. The stock options are exercisable during a three-year period beginning after three years from the grant date. If the stock options are exercised, the Company has the option either to issue new shares or shares held as treasury stock, or to pay the difference between the market price and the exercise price in cash or with treasury stock.
