Item 1.01 Entry into a Material Definitive Agreement

On September 15, 2004, Medarex, Inc. and its wholly owned subsidiary, Genpharm International, Inc., entered into a series of agreements with Pfizer, Inc., providing for the discovery and development of up to 50 antibody products over ten years. These agreements included an amended collaborative research agreement and license and royalty agreement, and a license agreement. In addition, Medarex and Pfizer entered into a cross-license agreement providing for the cross-license of certain patents relating to each party's respective anti-CTLA-4 antibody programs. These agreements amended and modified a license and royalty agreement and a collaborative research agreement the parties had previously entered into. As part of this transaction, Medarex also entered into a related securities purchase agreement with an affiliate of Pfizer providing for the purchase of shares of Medarex common stock.

Copies of these agreements, some of which have been redacted to preserve the confidentiality of certain terms, are attached hereto as Exhibits 99.1 through 99.6.
