(Address, including zip code, and telephone number, including area code, of registrant's principal executive offices)

Bobby Yazdani

CEO and Chairman

Saba Software, Inc.

2400 Bridge Parkway

Redwood Shores, California 94065-1166

(650) 581-2500

June 20, 2005

(Approximate date of commencement of proposed sale to the public)

If the only securities being registered on this Form are being offered pursuant to dividend or interest reinvestment plans, please check the following box. "

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, other than securities offered only in connection with dividend or interest reinvestment plans, check the following box. x

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, please check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. "

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. "

If delivery of the prospectus is expected to be made pursuant to Rule 434, please check the following box. "

CALCULATION OF REGISTRATION FEE

Title of Shares to be Registered	Amount to be Registered	Proposed Maximum Offering Price per Unit	Proposed Maximum Aggregate Offering Price	Amount of Registration Fee
Common Stock, par value \$0.001 per share(1)	1,799,920 shares	\$4.14(2)	\$7,451,668.80(2)	\$877.06(2)

- (1) The Registrant is registering for resale shares of its common stock to be issued in connection with an acquisition.
 - (2) Estimated in accordance with Rule 457(c) of the Securities Act of 1933, as amended, solely for the purpose of computing the amount of the registration fee, based on the average of the high and low sales prices of the Registrant's Common Stock on the Nasdaq National Market on June 9, 2005.
-

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until this Registration Statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.

SUBJECT TO COMPLETION, DATED JUNE 13, 2005

PROSPECTUS

1,799,920 Shares

Saba Software, Inc.

Common Stock

This prospectus relates to up to 1,799,920 shares of our common stock that the selling security holders named in this prospectus may offer for sale from time to time. The selling security holders acquired these shares from us in connection with our acquisition of THINQ Learning Solutions, Inc. completed on May 5, 2005. We are registering the shares of common stock to provide the selling security holders with freely tradeable securities, but this registration does not necessarily mean that the selling security holders will offer or sell the shares.

We are filing the registration statement of which this prospectus is a part pursuant to contractual obligations. We will not receive any proceeds from the sale of the shares by the selling security holders but we have agreed to pay certain registration expenses.

Our common stock is traded on the Nasdaq National Market under the symbol SABA. On June 9, 2005, the last reported sales price for our common stock on the Nasdaq National Market was \$4.21 per share.

See **Risk Factors** beginning on page 2 of this Prospectus for factors you should consider before buying shares of our common stock.

Edgar Filing: SABA SOFTWARE INC - Form S-3

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities, or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this Prospectus is _____, 2005.

PROSPECTUS SUMMARY

We are a leading provider of human capital development and management solutions, which are designed to increase organizational performance through the implementation of a management system for aligning, developing and managing people. Our solutions can help large enterprises to efficiently manage regulatory compliance, increase sales and channel readiness, accelerate time-to-competency of people across the extended enterprise, increase speed of customer acquisition, shorten time-to-market of new products and increase visibility into organizational performance. Our leadership position is supported by publicly available reports published by independent, third-party analysts that research vendors in our industry and rank them based on a number of factors, including product offerings, technology and customer base.

On May 5, 2005, Storm Acquisition Corporation, a Delaware corporation that is our wholly owned indirect subsidiary (Storm Acquisition), merged with and into THINQ Learning Solutions, Inc., a privately held Delaware corporation (THINQ), under the terms of an Agreement and Plan of Merger dated March 24, 2005 (the Merger Agreement). In connection with the merger, shares of capital stock of THINQ owned by the selling security holders were converted into shares of our common stock and THINQ became our wholly owned indirect subsidiary. This prospectus relates to up to an aggregate of 1,799,920 shares of common stock, \$0.001 par value, that we expect to issue to the former shareholders and management of THINQ. We agreed to register these shares of common stock with the Securities and Exchange Commission (the SEC) in connection with the merger. Up to 100,000 of the shares being registered in this registration statement may be issued over a three-year period pursuant to an earn-out provision. A stock certificate representing 635,010 shares of our common stock will be held in escrow as security for indemnification and other obligations described in the Merger Agreement. Such escrow shares will be released, if at all, at various times through the date that our Annual Report on Form 10-K for the fiscal year ended May 31, 2006 is required to be filed with the SEC.

The shares being registered in this registration statement represent approximately 11.1% of our common stock outstanding as of April 12, 2005.

The selling security holders may sell any or all of the shares, subject to federal and state securities laws, but are under no obligation to do so. As described in the Merger Agreement, certain of the selling security holders have entered into a lock-up agreement pursuant to which they have agreed not to sell their shares of our common stock for up to a year following the closing of the merger. The price at which the selling security holders may sell the shares of our common stock will be determined by the prevailing market for the shares or in negotiated transactions. See Selling Security Holders beginning on page 11 of this prospectus.

We were incorporated in Delaware in April 1997. We have incurred significant losses and negative cash flows from operations since our inception. We have not achieved profitability and cannot be certain that we will realize sufficient revenues to achieve or sustain profitability.

Our headquarters are located at 2400 Bridge Parkway, Redwood Shores, California 94065, and our telephone number is (650) 696-3840.

Table of Contents

RISK FACTORS

Except for the historical information contained in this prospectus or incorporated by reference, this prospectus (and the information incorporated by reference in this prospectus) contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those discussed here or incorporated by reference. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in the following section, as well as those discussed elsewhere in this prospectus and in any other documents incorporated by reference.

Investment in our shares involves a degree of risk. You should consider the following discussion of risks as well as other information in this prospectus and the incorporated documents before purchasing any shares. Each of these risk factors could adversely affect our business, operating results, prospects and financial condition, as well as adversely affect the value of an investment in our common stock.

This prospectus contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Statements in this prospectus that are not historical facts are hereby identified as forward-looking statements for the purpose of the safe harbor provided by Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934 (the Exchange Act). Words such as estimate, project, plan, intend, expect, believe and similar expressions are intended to identify forward-looking statements. All forward-looking statements are necessarily only estimates of future results and there can be no assurance that actual results will not differ materially from expectations, and, therefore, investors are cautioned not to place undue reliance on such statements. Set forth below is a discussion of certain factors, which could cause our actual results to differ materially from the results projected or suggested in such forward-looking statements. Investors should understand that it is not possible to predict or identify all such factors and that this list should not be considered a complete statement of all potential risks and uncertainties. We undertake no obligation to update any forward-looking statements as a result of future events or developments.

We have a history of losses, expect future losses and cannot assure you that we will achieve profitability.

We have incurred significant losses and negative cash flows from operations since our inception. We have not achieved profitability and cannot be certain that we will realize sufficient revenues to achieve or sustain profitability. We expect to derive substantially all of our revenues for the foreseeable future from the licensing of Saba Enterprise Learning and providing related services. Over the longer term, we expect to derive revenues from new products such as Saba Enterprise Performance and related services. In the future, we expect to continue to incur non-cash expenses relating to the amortization of purchased intangible assets that will contribute to our net losses, along with any potential goodwill impairment. As of February 28, 2005, we had no purchased intangible assets to be amortized and our remaining goodwill balance was \$5.3 million. As a result of all of the foregoing, we expect to incur losses for the foreseeable future and will need to generate significantly higher revenues in order to achieve profitability. If we achieve profitability, we may not be able to sustain it.

Fluctuations of our results could cause our stock price to experience significant fluctuations or declines.

Our operating results have varied significantly in the past and will likely fluctuate significantly in the future. For instance, in the two fiscal years ended May 31, 2004, our quarterly revenues have fluctuated between approximately \$14.7 million and \$7.8 million and our quarterly net loss has fluctuated between approximately \$1.9 million and \$7.9 million. Our quarterly operating results are likely to be particularly affected by the number of customers licensing our products during any quarter and the size of such licensing transactions. We have limited visibility into our future revenue, especially license revenue, which often has been heavily concentrated in the third month of each quarter. Since we forecast our

Edgar Filing: SABA SOFTWARE INC - Form S-3

expenses based in part on future revenue projections, our operating results would be adversely affected if we cannot meet those revenue projections.

Other factors that could affect our quarterly operating results include:

the demand for our products and professional services and our efficiency in rendering our professional services;

the variability in the mix of our license and services revenue in any quarter;

the variability in the mix of the type of services delivered in any quarter and the extent to which third party contractors are used to provide such services;

Table of Contents

the size and complexity of our license transactions and potential delays in recognizing revenue from license transactions;

the amount and timing of our operating expenses and capital expenditures;

the performance of our international business, which accounts for a substantial part of our consolidated revenues; and

fluctuations in foreign currency exchange rates.

Due to these and other factors, we believe that quarter-to-quarter comparisons of our revenues and operating results are not necessarily meaningful and should not be relied on as indicators of future performance. It is possible that in some future quarter our operating results may be below the expectations of public market analysts or investors, which could cause the market price of our common stock to fall.

Our operating expenses are based on our expectations of future revenues and are relatively fixed in the short-term. During fiscal 2004 and fiscal 2003, we took actions to reduce our operating expenses and, while we may from time to time reduce operating expenses in response to variability in our revenues, including variability caused by downturns in the United States and/or international economies, over the long term we generally expect to increase our operating expenses to expand our sales and marketing operations, fund greater levels of research and development, develop new alliances, increase our services and support capabilities and improve our operational and financial systems. If our revenues do not increase along with these expenses, our business would be seriously harmed and net losses in a given quarter would be even larger than expected.

Our products have a long sales cycle, which increases the cost of completing sales and renders completion of sales less predictable.

The period between our initial contact with a potential customer and the purchase of our products and services is often long. A customer's decision to purchase our products and services requires the commitment to increase performance through human capital management, involves a significant allocation of resources, and is influenced by a customer's budgetary cycles. To successfully sell our products and services, we generally must educate our potential customers regarding the use and benefits of our products and services, which can require significant time and resources. Many of our potential customers are large enterprises that generally take longer to make significant business decisions. Our typical sales cycle has been approximately 6 to 12 months, making it difficult to predict the quarter in which we may recognize revenue. The delay or failure to complete sales in a particular quarter could reduce our revenues in that quarter. If our sales cycle unexpectedly lengthens in general or for one or more large orders, it would adversely affect the timing of our revenues. If we were to experience a delay on a large order, it could harm our ability to meet our forecasts for a given quarter.

A decline in the price of, or demand for, our main product, Saba Enterprise Learning or our related services offerings would seriously harm our revenues and operating margins.

To date, Saba Enterprise Learning and related services have accounted for a substantial majority of our revenues. We anticipate that revenues from Saba Enterprise Learning and related services will continue to constitute a substantial majority of our revenues for the foreseeable future. Consequently, a decline in the price of, or demand for, Saba Enterprise Learning or failure to achieve broad market acceptance would seriously harm our business.

We experience seasonality in our sales, which could cause our operating results to fluctuate from quarter to quarter.

We experience quarterly seasonality in the licensing of our products and delivery of our services. For example, revenue has through most of our history been lower in our first fiscal quarter than in the immediately preceding fourth fiscal quarter. Contributing to this seasonality is the timing of our first fiscal quarter that occurs during the summer months when general business activities slow down in a number of territories where we conduct our operations, particularly Europe. Our commission structure and other sales incentives also tend to result in fewer sales in the first fiscal quarter than in the fourth fiscal quarter. These seasonal variations in our revenue are likely to lead to fluctuations in our quarterly operating results.

Table of Contents

Our performance depends on a new market: human capital management.

The market for software solutions that automate human capital management is relatively new and rapidly evolving. Substantially all of our revenues are attributable to the suite of products and services in this market. If this market fails to develop or develops more slowly than we expect, or if we fail to identify the challenges and risks in this new market or successfully address these risks, our business would be harmed.

Changes in accounting regulations and related interpretations and policies, particularly those related to revenue recognition, could cause us to defer recognition of revenue or recognize lower revenue.

While we believe that we are in compliance with Statement of Position 97-2, *Software Revenue Recognition*, as amended, the American Institute of Certified Public Accountants continues to issue implementation guidelines for these standards and the accounting profession continues to discuss a wide range of potential interpretations. Additional implementation guidelines, and changes in interpretations of such guidelines, could lead to unanticipated changes in our current revenue accounting practices that could cause us to defer the recognition of revenue to future periods or to recognize lower revenue.

Changes in accounting standards for stock option plans may result in a reduction in our future profitability.

Pursuant to SFAS 123R, as amended by the Securities and Exchange Commission in April 2005, we will be required to recognize, beginning in our first quarter of fiscal 2007, compensation expense in our statement of operations for the fair value of unvested employee stock options at the date of adoption, and new stock options granted to our employees after the adoption date over the related vesting periods of the stock options. The requirement to expense stock options granted to employees reduces the attractiveness of granting stock options because the expense associated with these grants may adversely affect our profitability. For example, for fiscal 2004, fiscal 2003, and fiscal 2002, had we accounted for stock-based compensation plans under Financial Accounting Standards Board (FASB) Statement No. 123, as amended by FASB Statement No. 148, diluted loss per share would have been increased by \$0.89, \$1.02, and \$1.38 per share, respectively. However, stock options remain an important employee recruitment and retention tool, and we may not be able to attract and retain key personnel if we reduce the scope of our employee stock option program following the adoption of SFAS 123R.

The loss of the services of our senior executives and key personnel would likely cause our business to suffer.

Our success depends to a significant degree on the performance of the senior management team and other key employees. The loss of any of these individuals could harm our business. We do not have employment agreements with any of our executives or other key employees, and we do not maintain key person life insurance for any officers or key employees.

Intense competition in our target market could impair our ability to grow and to achieve profitability.

The market for our products and services is intensely competitive, dynamic and subject to rapid technological change. The intensity of the competition and the pace of change are expected to increase in the future. Increased competition is likely to result in price reductions, reduced

Edgar Filing: SABA SOFTWARE INC - Form S-3

gross margins and loss of market share, any one of which could seriously harm our business. Competitors vary in size and in the scope and breadth of the products and services offered. We encounter competition with respect to different aspects of our solution from a variety of sources including:

companies that market and license training, learning, performance, content, resource, talent and staffing management systems;

enterprise software vendors that offer human resources information systems and employee relationship management systems with training and performance modules; and

potential customers' internal development efforts.

We expect competition from a variety of companies.

Many of our competitors have longer operating histories, substantially greater financial, technical, marketing or other resources, or greater name recognition than we do. Our competitors may be able to respond more quickly than we can to new or emerging technologies and changes in customer requirements. Competition could seriously impede our ability to sell additional products and services on terms favorable to us. Our current and potential competitors may develop

Table of Contents

and market new technologies that render our existing or future products and services obsolete, unmarketable or less competitive. Our current and potential competitors may make strategic acquisitions or establish cooperative relationships among themselves or with other learning solution providers, thereby increasing the availability of their services to address the needs of our current and prospective customers. We may not be able to compete successfully against our current and future competitors, and competitive pressures that we encounter may seriously harm our business.

If we are unable to manage the complexity of conducting business globally, our international revenues may suffer.

International revenues accounted for 36% of our revenues for the three months ended February 28, 2005 and 41% for the three months ended February 29, 2004. International revenues accounted for 46% of our revenues for the nine months ended February 28, 2005 and 39% of our revenues for the nine months ended February 29, 2004. Although we intend to continue to expand our international presence in the future we may not be able to successfully market, sell or distribute our products and services in foreign markets. Factors that could materially adversely affect our international operations, and, our business and future growth include:

difficulties in staffing and managing foreign operations, including language barriers;

seasonal fluctuations in purchasing patterns in other countries, particularly declining sales during July and August in European markets;

difficulties in collecting accounts receivable in foreign countries, particularly European countries in which collections take considerably more time than the United States and collections are more difficult to effect;

currency exchange rate fluctuations, particularly in countries where we sell our products in denominations other than U.S. dollars, such as in the United Kingdom, the euro zone, and Japan, or have exposures in intercompany accounts denominated in foreign currencies;

the need to develop internationalized versions of our products and marketing and sales materials;

the burdens of complying with a wide variety of foreign laws and reduced protection for intellectual property rights in some countries;

tariffs, export controls and other trade barriers; and

potentially harmful tax consequences.

Delays in releasing new products or enhanced versions of our existing products could adversely affect our competitive position.

As part of our strategy, we expect to regularly release new products and new versions of our existing products. Even if our new products or new versions of our existing products contain the features and functionality our customers want, in the event we are unable to timely introduce these

Edgar Filing: SABA SOFTWARE INC - Form S-3

new products or product releases, our competitive position may be harmed. We cannot assure you that we will be able to successfully complete the development of currently planned or future products or product releases in a timely and efficient manner. Due to the complexity of our products, internal quality assurance testing and customer testing of pre-commercial releases may reveal product performance issues or desirable feature enhancements that could lead us to postpone the release of these products. In addition, the reallocation of resources associated with any postponement would likely cause delays in the development and release of other future products or enhancements to our currently available products. Any delay in releasing future products or enhancements of our products could harm our business.

If we release products containing defects, we may need to halt further shipments and our business and reputation would be harmed.

Products as complex as ours often contain unknown and undetected errors or performance problems. Many serious defects are frequently found during the period immediately following introduction and initial shipment of new products or enhancements to existing products. Although we attempt to resolve all errors that we believe would be considered serious by our customers before shipment to them, our products are not error-free. These errors or performance problems could result in lost revenues or delays in customer acceptance and would be detrimental to our business and

Table of Contents

reputation. As is typical in the software industry, with each release we have discovered errors in our products after introduction. We will not be able to detect and correct all errors before releasing our products commercially and these undetected errors could be significant. We cannot assure you that undetected errors or performance problems in our existing or future products will not be discovered in the future or that known errors considered minor by us will not be considered serious by our customers, resulting in a decrease in our revenues.

Our past and future acquisitions may result in disruptions to our business if we fail to adequately integrate acquired businesses.

In March 2001, we acquired Human Performance Technologies, Inc. and, in June 2001, we acquired Ultris Inc. As part of our overall business strategy, we expect to continue to acquire complementary businesses or technologies that will provide additional products or services offerings, additional industry expertise or an expanded geographic presence. For example, on May 5, 2005, we acquired THINQ. The acquisition of THINQ will and, any future acquisitions could result in the use of significant amounts of cash, potentially dilutive issuances of equity securities, and/or the incurrence of debt. In addition, any acquisition may increase the risk of future write-offs for acquired in-process research and development, write-offs for the impairment of goodwill or long-lived assets, or amortization of expenses related to intangible assets, any of which could materially adversely affect our business and our operating results. For example, as of February 28, 2005, our remaining goodwill balance was \$5.3 million. The THINQ acquisition and any future acquisitions involve numerous risks, including:

difficulties in the assimilation of the operations, technologies, products and personnel of the acquired company;

the diversion of management's attention from other business concerns;

risks of entering markets in which we have no or limited prior experience; and

the potential loss of key employees of the acquired company.

Claims by third parties that we infringe their intellectual property rights may result in costly litigation.

In recent years, there has been significant litigation in the United States involving patents and other intellectual property rights, particularly in the software and Internet-related industries. We have in the past been subject to one intellectual property action. In our market, one company initiated patent infringement actions against us in 2002 as well as at least four other companies. In September 2003, we settled the action against us and recorded a charge of \$1.7 million. We have paid all amounts due under this settlement. In the future, we could become subject to intellectual property infringement claims as the number of our competitors grows and our products and services overlap with competitive offerings. Any of these claims, even if not meritorious, could be expensive to defend and could divert management's attention from operating our company. If we become liable to third parties for infringing their intellectual property rights, we could be required to pay a substantial award of damages and to develop non-infringing technology, obtain a license or cease selling the products that contain the infringing intellectual property. We may be unable to develop non-infringing technology or obtain a license on commercially reasonable terms, if at all.

We may not be able to adequately protect our proprietary technology, and our competitors may be able to offer similar products and services that would harm our competitive position.

Edgar Filing: SABA SOFTWARE INC - Form S-3

Our success depends upon our proprietary technology. We rely primarily on copyright, trademark and trade secret laws, confidentiality procedures and contractual provisions to establish and protect our proprietary rights. As part of our confidentiality procedures, we enter into non-disclosure agreements with our employees. Despite these precautions, third parties could copy or otherwise obtain and use our technology without authorization, or develop similar technology independently. In addition, we have three patents issued in the United States and four patent applications pending in the United States. We cannot assure you that any patents will be issued for any of the pending patent applications. Even for the issued patents or any patent issued to us in the future, there can be no assurance that such patent will protect our intellectual property, or will not be challenged by third parties. Furthermore, effective protection of intellectual property rights is unavailable or limited in certain foreign countries. We cannot assure you that the protection of our proprietary rights will be adequate or that our competitors will not independently develop similar technology, duplicate our products and services or design around any patents or other intellectual property rights we hold.

Table of Contents

Our disaster recovery plan does not include redundant systems, and a disaster could severely damage our operations.

Our disaster recovery plan does not include fully redundant systems for our services at an alternate site. A disaster could severely harm our business because our services could be interrupted for an indeterminate length of time. Our operations depend upon our ability to maintain and protect the computer systems needed for the day-to-day operation of Saba Learning ASP Edition and our hosting services. A number of these computer systems are located on or near known earthquake fault zones. Although these systems are designed to be fault tolerant, they are vulnerable to damage from fire, floods, earthquakes, power loss, telecommunications failures and other events. Additionally, we do not carry sufficient business insurance to compensate us for all potential losses that could occur.

We outsource the management and maintenance of our hosted and ASP solutions to third parties and will depend upon them to provide adequate management and maintenance services.

We rely on third parties to provide key components of our networks and systems. For instance, we rely on third-party Internet service providers to host our products for customers who desire to have these solutions hosted. We also rely on third-party communications service providers for the high-speed connections that link our and our Internet service providers' Web servers and office systems to the Internet. Any Internet or communications systems failure or interruption could result in disruption of our service or loss or compromise of customer orders and data. These failures, especially if they are prolonged or repeated, would make our services less attractive to customers and tarnish our reputation.

We depend upon continuing our relationship with third-party integrators who support our solutions.

Our success depends upon the acceptance and successful integration by customers of our products. We often rely on third-party systems integrators to assist with implementation of our products. We will need to continue to rely on these systems integrators even as we increase the size of our professional services group. If large systems integrators fail to continue to support our solution or commit resources to us, if any of our customers are not able to successfully integrate our solution or if we are unable to adequately train our existing systems integration partners, our business, operating results and financial condition could suffer. In addition, we have only limited control over the level and quality of service provided by our current and future third-party integrators.

We may not be able to secure necessary funding in the future; additional funding may result in dilution to our stockholders.

We require substantial working capital to fund our business. We have had significant operating losses and negative cash flow from operations since inception and expect this to continue for the foreseeable future. We expect to use our available cash resources and credit facilities primarily to fund sales and marketing activities, research and development, and continued operations, and possibly make future acquisitions. We believe that our existing capital resources will be sufficient to meet our capital requirements for the next twelve months. However, if our capital requirements increase materially from those currently planned or if revenues fail to materialize, we may require additional financing sooner than anticipated. If additional funds are raised through the issuance of equity securities, the percentage ownership of our stockholders will be reduced, stockholders may experience dilution, or such equity securities may have rights, preferences or privileges senior to those of the holders of our common stock. Additional financing may not be available when needed on terms favorable to us or at all. If adequate funds are not available or are not available on acceptable terms, we may be unable to develop or enhance our products and services, take advantage of future opportunities or respond to competitive pressures.

If we are unable to reach a favorable conclusion after assessing the effectiveness of our internal control over financial reporting, or if our independent auditors are unable to provide an unqualified attestation report, our stock price could be adversely affected.

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 and depending on whether we meet the definition of an accelerated filer, beginning with our Annual Report on Form 10-K for the year ending May 31, 2006, our management will be required to report on, and our independent auditors to attest to, the effectiveness of our internal controls over financial reporting as of May 31, 2006. In the event we do not meet the accelerated filer requirements, we will be required to perform these procedures as of May 31, 2007. The rules governing the standards that must be met for management to assess our internal controls over financial reporting are new and complex, and require significant documentation, testing and possible remediation. We are currently in the process of reviewing and documenting our internal controls over financial reporting and once this is completed we will begin testing of these controls. This has and will likely continue to result in increased expenses and the devotion of significant management and other internal resources. We may encounter unforeseen problems or delays in completing the implementation of any changes necessary

Table of Contents

to make a favorable assessment of our internal controls over financial reporting and any requested improvements necessary to receive a favorable attestation. If we cannot favorably assess the effectiveness of our internal controls over financial reporting, or if our independent auditors are unable to provide an unqualified attestation report on our assessment, investor confidence and our stock price could be adversely affected.

Our stock price may fluctuate substantially.

In the last two fiscal years, the market price for our common stock has fluctuated between \$6.62 per share and \$3.22 per share. The market price for our common stock may be affected by a number of factors, including those described above and the following:

the announcement of new products and services or product and service enhancements by us or our competitors;

quarterly variations in our results of operations or those of our competitors;

changes in earnings estimates or recommendations by securities analysts that may follow our stock;

developments in our industry; and

general market conditions and other factors, including factors unrelated to our operating performance or the operating performance of our competitors.

In addition, the stock market in general, and the Nasdaq National Market and technology companies in particular, have experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of particular companies. Broad market and industry trends may also materially and adversely affect the market price of our common stock, regardless of our actual operating performance. In the past, following periods of volatility in the market price of a company's securities, securities class-action litigation has often been initiated against that company. Class-action litigation could result in substantial costs and a diversion of management's attention and resources.

The anti-takeover provisions in our charter documents could adversely affect the rights of the holders of our common stock.

Our Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws contain provisions that could make it harder for a third-party to acquire us without the consent of our board of directors. For example, if a potential acquiror were to make a hostile bid for us, the acquiror would not be able to call a special meeting of stockholders to remove our board of directors or act by written consent without a meeting. In addition, our board of directors has staggered terms that make it difficult to remove all directors at once. The acquiror would also be required to provide advance notice of its proposal to remove directors at an annual meeting. The acquiror will not be able to cumulate votes at a meeting, which will require the acquiror to hold more shares to gain representation on the board of directors than if cumulative voting were permitted.

Edgar Filing: SABA SOFTWARE INC - Form S-3

Our board of directors also has the ability to issue preferred stock that would significantly dilute the ownership of a hostile acquiror. In addition, Section 203 of the Delaware General Corporation Law limits business combination transactions with 15% stockholders that have not been approved by the board of directors. These provisions and other similar provisions make it more difficult for a third party to acquire us without negotiation. These provisions may apply even if the offer may be considered beneficial by some stockholders.

Our board of directors could choose not to negotiate with an acquiror that it did not feel was in our strategic interests. If the acquiror was discouraged from offering to acquire us or prevented from successfully completing a hostile acquisition by our anti-takeover measures, you could lose the opportunity to sell your shares at a favorable price.

WHERE YOU CAN FIND MORE INFORMATION

This prospectus is part of a registration statement we filed with the SEC. You should rely only on the information contained in this prospectus or incorporated by reference in this prospectus. We have not authorized anyone else to provide you with different information. We are not making an offer of these securities in any state where the offer is not permitted. You should not assume that the information in this prospectus is accurate as of any date other than the date on the front page of this prospectus, regardless of the time of delivery of this prospectus or any sale of common stock.

We file annual, quarterly and special reports, proxy statements and other information with the SEC. You may read, without charge, and copy the documents we file at the SEC's public reference room in Washington, D.C. You can request copies of these documents by writing to the SEC and paying a fee for the copying cost. Please call the SEC at 1-800-SEC-0330 for further information on the public reference rooms. Our SEC filings also are available to the public at no cost from the SEC's website at <http://www.sec.gov>.

The SEC allows us to incorporate by reference certain information that we file with it, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be part of this prospectus, and information that we file with the SEC after the date of this prospectus will update automatically, supplement and/or supersede this information. Any statement contained in a document incorporated or deemed to be incorporated by reference in this prospectus shall be deemed to be modified or superseded for purposes of this prospectus to the extent that a statement contained in this prospectus or in any other document which also is or is deemed to be incorporated by reference in this prospectus modifies or supersedes such statement. Any such statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this prospectus.

We incorporate by reference the filed documents listed below, except as superseded, supplemented or modified by this prospectus:

our Quarterly Reports on Form 10-Q for the fiscal quarter ended August 31, 2004, November 30, 2004 and February 28, 2005;

our Annual Report on Form 10-K for the fiscal year ended May 31, 2004, as amended;

our Current Reports on Form 8-K filed with the Commission on March 24, 2005 and May 6, 2005; and

the description of our common stock contained in our Form 8-A filed with the Commission on April 5, 2000.

All documents that we file after the date of this registration statement filed with the SEC on June 13, 2005 pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Securities and Exchange Act of 1934 prior to the effectiveness of the registration statement, shall be deemed to be incorporated by reference in this prospectus. All documents that we file after the date of this prospectus pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act prior to the termination of this offering shall be deemed to be incorporated by reference in this prospectus.

The reports and other documents that we file after the date of this prospectus will update, supplement and supersede the information in this prospectus. You may request and obtain a copy of these filings, at no cost, by writing or telephoning us at the following address or phone number:

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, including the documents that we incorporate by reference, contains forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Any statements about our expectations, beliefs, plans, objectives, assumptions or future events or performance are not historical facts and may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as anticipate, estimate, plans, projects, continuing, ongoing, expects, management believes, we believe, intend and similar words or phrases. Accordingly, these statements involve estimates, assumptions and uncertainties that could cause actual results to differ materially from those expressed in them. Any forward-looking statements are qualified in their entirety by reference to the factors discussed throughout this prospectus.

The risk factors beginning on page 2 of this prospectus could cause actual results or outcomes to differ materially from those expressed in any forward-looking statements made by us or on our behalf. Any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for us to predict which factors will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Table of Contents

SELLING SECURITY HOLDERS

We are registering for resale shares of our common stock held by the selling security holders identified below. The selling security holders received the shares from us in connection with the merger of Storm Acquisition with and into THINQ that we closed on May 5, 2005.

We are registering the shares to permit the selling security holders and any pledgees, donees, transferees and other successors-in-interest that receive the shares from such holders after the date of this prospectus to resell the shares when and as they deem appropriate. The following table sets forth:

the name of the selling security holders,

the number and percent of shares of our common stock that the selling security holders beneficially owned prior to the offering for resale of the shares under this prospectus, and

the number of shares of our common stock that may be offered for resale for the account of the selling security holders under this prospectus.

The number of shares in the column "Shares of Common Stock Offered" represents all of the shares that the selling security holders may offer under this prospectus. The selling security holders named below may from time to time offer all, some or none of their shares of common stock offered by this prospectus. We do not know how long the selling security holders will hold the shares before selling them or how many shares they will sell and we currently have no agreements, arrangements or understandings with the selling security holders regarding the sale of any of the resale shares. The shares offered by this prospectus may be offered from time to time by the selling security holders listed below. Since the selling security holders may sell all, some or none of their shares, we cannot estimate the number or percentage of shares of common stock that each selling security holder will own upon completion of the offering to which this prospectus relates.

This table is prepared solely based on information supplied to us by the listed selling security holders and assumes the sale of all of the resale shares. The applicable percentages of beneficial ownership are based on an aggregate of 16,192,091 shares of our common stock issued and outstanding on April 12, 2005, adjusted as may be required by rules promulgated by the SEC. In compliance with the SEC rules, for purposes of calculating the percentage of common stock outstanding, any securities not outstanding which are subject to options, warrants or conversion privileges are deemed outstanding for the purposes of computing the percentage of outstanding securities owned by the selling security holders. Beneficial ownership includes shares of outstanding common stock and shares of common stock that a person has the right to acquire within 60 days from June 13, 2005. Unless otherwise indicated, the selling security holders have the sole power to direct the voting and investment over the shares owned by them.

PLAN OF DISTRIBUTION

The selling security holders may sell the shares being offered from time to time in one or more transactions:

on the Nasdaq National Market or any other stock exchange, market or trading facility;

in the over-the-counter market;

in negotiated transactions;

in ordinary brokerage transactions and transactions in which the broker-dealer solicits purchases;

block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

broker-dealers may agree with the selling security holders to sell a specified number of such shares at a stipulated price per share;

short sales;

through one or more underwriters on a firm commitment or best efforts basis;

through the writing of options on shares, whether the options are listed on an options exchange or otherwise;

a combination of such methods of sale; or

any other method permitted pursuant to applicable law.

The selling security holders may sell the shares at market prices prevailing at the time of sale, at prices related to those market prices or at negotiated prices. The selling security holders also may sell the shares pursuant to Rule 144 adopted under the Securities Act, as permitted by that rule, rather than under this prospectus. The selling security holders may effect transactions by selling shares directly to purchasers or to or through broker-dealers. The broker-dealers may act as agents or principals. Broker-dealers may receive commissions or discounts from the selling security holders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in an amount to be negotiated. The selling security holders do not expect these commissions and discounts to exceed what is customary in the types of transactions involved. The selling security holders and broker-dealers that participate with the selling security holders in the distribution of shares may be deemed to be underwriters within the meaning of Section 2(11) of the Securities Act. In such an event, the selling security holders will be subject to the prospectus delivery requirements of the Securities Act and any commissions received by them and any profit on the resale of shares may be

Edgar Filing: SABA SOFTWARE INC - Form S-3

deemed to be underwriting compensation.

The selling security holders have advised us that it has not entered into any agreements, understandings or arrangements with any underwriters or broker-dealers regarding the sale of its securities. There is no underwriter or coordinating broker acting in connection with the proposed sale of shares by the selling security holders.

The shares will be sold through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states the shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the shares may not simultaneously engage in market making activities with respect to our common stock for a period of two business days prior to the commencement of such distribution. In addition, each selling security holder will be subject to applicable provisions of the Exchange Act and the associated rules and regulations under the Exchange Act, including Regulation M, which provisions may limit the timing of purchases and sales of shares of our common stock by the selling security holders. We will make copies of this prospectus available to the selling security holders and have informed them of the need to deliver copies of this prospectus to purchasers at or prior to the time of any sale of the shares.

We will bear all costs, expenses and fees in connection with the registration of the shares. The selling security holders will bear all commissions and discounts, if any, attributable to the sales of the shares. We have agreed to indemnify the selling security holders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

Upon notification to us by the selling security holders that any material arrangement has been entered into with broker-dealers for the sale or purchase of shares, we will file a supplement to this prospectus, if required, disclosing:

the name of the participating broker-dealers;

Table of Contents

the number of shares involved;

the price at which such shares were sold;

the commissions paid or discounts or concessions allowed to such broker-dealers, where applicable;

that such broker-dealers did not conduct any investigation to verify the information set out or incorporated by reference in this prospectus; and

other facts material to the transaction.

Table of Contents

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of the resale shares by the selling security holders. All proceeds from the sale of the resale shares will be solely for the accounts of the selling security holders.

LEGAL MATTERS

The validity of the issuance of the shares of common stock offered hereby will be passed upon for us by Morrison & Foerster LLP, Palo Alto, California.

EXPERTS

The consolidated financial statements of Saba Software, Inc. appearing in Saba Software, Inc.'s Annual Report Amendment No. 1 (Form 10-K/A) for the year ended May 31, 2004, have been audited by Ernst & Young LLP, independent registered public accounting firm, as set forth in their report thereon, included therein, and incorporated herein by reference. Such consolidated financial statements are incorporated herein by reference in reliance upon such report given on the authority of such firm as experts in accounting and auditing.

Common Stock

The date of this prospectus is _____, 2005

Table of Contents**PART II****INFORMATION NOT REQUIRED IN PROSPECTUS****Item 14. *Other Expenses of Issuance and Distribution.***

The following table sets forth an estimate of the fees and expenses relating to the issuance and distribution of the securities being registered hereby, other than underwriting discounts and commissions, all of which shall be borne by Saba Software, Inc. (the Registrant or the Company). All of such fees and expenses, except for the SEC Registration Fee, are estimated:

SEC registration fee	\$ 877.06
Legal fees and expenses	\$ 10,000.00
Accounting fees and expenses	\$ 26,000.00
Miscellaneous fees and expenses	\$ 20,000.00
Total	\$ 56,877.06

Item 15. *Indemnification of Officers and Directors*

Section 145 of the Delaware General Corporation Law provides generally that a corporation shall have the power, and in some cases is required, to indemnify an agent, including an officer or director, who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that he or she is or was a director, officer, employee or agent of the corporation, against certain expenses, judgments, fines, settlements and other amounts under certain circumstances.

The Company's Amended and Restated Certificate of Incorporation provides that the liability of its directors for monetary damages shall be eliminated to the fullest extent permissible under Delaware law. Pursuant to Delaware law, this includes elimination of liability for monetary damages for breach of the directors' fiduciary duty of care to the Company and its security holders. These provisions do not eliminate the directors' duty of care and, in appropriate circumstances, equitable remedies such as injunctive or other forms of non-monetary relief will remain available under Delaware law. In addition, each director will continue to be subject to liability for breach of the director's duty of loyalty to the Registrant, for acts or omissions not in good faith or involving intentional misconduct, for knowing violations of law, for any transaction from which the director derived an improper personal benefit, and for payment of dividends or approval of stock repurchases or redemptions that are unlawful under Delaware law. The provision also does not affect a director's responsibilities under any other laws, such as the federal securities laws or state or federal environmental laws.

The Company's By-laws, as amended and restated, provide for indemnification of officers and directors to the fullest extent not prohibited by the Delaware General Corporation Law. The provisions of Article VIII of the Company's By-laws constitute a contract of indemnification between the Company and its officers and directors. Article VIII of the Company's By-laws permits the Company to purchase and maintain officers' and directors' liability insurance in order to insure against the liabilities for which such officers and directors are indemnified pursuant to Article VIII. The Company provides officers' and directors' liability insurance for its officers and directors.

Edgar Filing: SABA SOFTWARE INC - Form S-3

The Company has entered into indemnification agreements with certain of its directors and executive officers providing contractual indemnification by the Company to the fullest extent permissible under Delaware law.

The Company and the selling security holders have agreed to indemnify each other and each other's controlling persons, as applicable, against certain liabilities under the Securities Act in connection with this registration statement.

Item 17. Undertakings.

The undersigned Registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933, as amended;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement; *provided, however*, that subparagraphs (i) and (ii) above do not apply if the information required to be included in a post-effective amendment by these subparagraphs is contained in periodic reports filed with or furnished to the Commission by the Registrant pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in this registration statement.

Edgar Filing: SABA SOFTWARE INC - Form S-3

(2) That, for the purpose of determining any liability under the Securities Act of 1933, as amended, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, as amended, each filing of the Registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 that is incorporated by reference in this registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

II-2

Table of Contents

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers, and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer, or controlling person of the Registrant in the successful defense of any action, suit, or proceeding) is asserted by such director, officer, or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

Table of Contents

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, as amended, the Registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Redwood Shores, State of California, on the 13th day of June 2005.
