PROXY STATEMENT

Information Concerning Voting and Solicitation

This Proxy Statement is being furnished to you in connection with the solicitation by the Board of Directors of Atheros Communications, Inc., a Delaware corporation, of proxies to be used at the 2006 Annual Meeting of Stockholders to be held at our offices at 5480 Great America Parkway, Santa Clara, California, at 10:00 a.m., Pacific Time, on Wednesday, May 24, 2006 and any adjournments or postponements thereof. This Proxy Statement and the accompanying form of proxy card are being mailed to stockholders on or about April 7, 2006.

Appointment of Proxy Holders

Your Board of Directors asks you to appoint Craig H. Barratt, Jack R. Lazar and Bruce P. Johnson as your proxy holders to vote your shares at the 2006 Annual Meeting of Stockholders. You make this appointment by voting the enclosed proxy card using one of the voting methods described below.

If appointed by you, the proxy holders will vote your shares as you direct on the matters described in this Proxy Statement. In the absence of your direction, they will vote your shares as recommended by your Board (**FOR** the election of the nominees for Class III directors, and **FOR** the ratification of the appointment of independent registered public accounting firm).

By signing and dating the proxy card, you also authorize your proxy holders to vote your shares on any matters not known by your Board at the time this Proxy Statement was printed and which, under our Bylaws, may be properly presented for action at the Annual Meeting.

Who Can Vote

Only stockholders who owned shares of our common stock at the close of business on April 4, 2006, the record date for the Annual Meeting, can vote at the Annual Meeting. As of the close of business on April 4, 2006, we had 51,095,834 shares of common stock outstanding and entitled to vote. Each holder of common stock is entitled to one vote for each share held as of April 4, 2006. There is no cumulative voting in the election of directors.

How You Can Vote

You may vote your shares at the Annual Meeting either in person or by mail as described below. Stockholders holding shares through a bank or broker should follow the voting instructions on the form of proxy card received.

Voting by Mail. You may vote by proxy by dating, signing and returning your proxy card in the enclosed postage-paid envelope. Giving a proxy will not affect your right to vote your shares if you attend the Annual Meeting and want to vote in person.

Voting at the Annual Meeting. Voting your proxy card by mail will not limit your right to vote at the Annual Meeting, if you decide to attend in person. Your Board recommends that you vote by mail as it is not practical for most stockholders to attend the Annual Meeting. If you hold shares through a bank or broker, you must obtain a proxy, executed in your favor, from the bank or broker to be able to vote at the Annual Meeting.

If you submit your proxy, but do not mark your voting preference, the proxy holders will vote your shares **FOR** the election of the nominees for Class III directors, and **FOR** the ratification of the appointment of independent registered public accounting firm. The proxy holders will also vote your shares in their discretion on any other matters that properly come before the Annual Meeting.

Table of Contents

Revocation of Proxies

Stockholders can revoke their proxies at any time before they are exercised in any of three ways:

by voting in person at the Annual Meeting;

by submitting written notice of revocation to Atheros Secretary prior to the Annual Meeting; or

by submitting another proxy of a later date that is properly executed.

Required Vote

Directors are elected by a plurality vote, which means that the two nominees receiving the most affirmative votes will be elected. All other matters submitted for stockholder approval require the affirmative vote of the majority of shares present in person or represented by proxy and entitled to vote.

A quorum, which is a majority of the outstanding shares as of April 4, 2006, must be present to hold the Annual Meeting. A quorum is calculated based on the number of shares represented by the stockholders attending in person and by their proxy holders. If you indicate an abstention as your voting preference, your shares will be counted toward a quorum but they will not be voted on the matter.

Abstentions on any matters are treated as shares present or represented and entitled to vote on that matter and have the same effect as a vote against such matter.

If a broker indicates on the enclosed proxy card or its substitute that such broker does not have discretionary authority to vote on a particular matter (broker non-votes), those shares will be considered as present for purposes of determining the presence of a quorum but will not be treated as shares entitled to vote on that matter.

Solicitation of Proxies

Atheros will pay the cost of printing and mailing proxy materials. In addition to the solicitation of proxies by mail, solicitation may be made by our directors, officers and other employees by personal interview, telephone or facsimile. No additional compensation will be paid to these persons for solicitation. We will reimburse brokerage firms and others for their reasonable expenses in forwarding solicitation materials to beneficial owners of our common stock.

IMPORTANT

Please promptly vote and submit your proxy by signing, dating and returning the enclosed proxy card in the postage-prepaid return envelope so that your shares can be voted. This will not limit your rights to attend or vote at the Annual Meeting.

In 2005, two (2) of the six (6) directors then serving on the Board of Directors attended the annual meeting of stockholders.

Committees of the Board of Directors

Our Board of Directors has appointed a Compensation Committee, an Audit Committee and a Nominating and Corporate Governance Committee. The Board has determined that each director who serves on these committees is independent, as that term is defined by applicable listing standards of The Nasdaq Stock Market and SEC rules. The Board has also appointed a Non-Executive Stock Option Committee.

The Compensation Committee currently consists of Messrs. Hennessy (Chairman), Artusi and Rappaport. The Compensation Committee held five (5) meetings during 2005 and acted by unanimous written consent one (1) time during 2005. The Compensation Committee's primary functions are to assist the Board in meeting its responsibilities with regard to oversight and determination of executive compensation and to assist the Board in establishing the appropriate incentive compensation and equity-based plans for the executive officers and other employees. Other specific duties and responsibilities of the Compensation Committee are to establish and approve annually the compensation for the Chief Executive Officer and other executive officers, establish and modify the terms and conditions of employment of the Chief Executive Officer and other executive officers, and administer Atheros' equity-based plans and other compensation plans.

The Audit Committee currently consists of Messrs. Mohr (Chairman), Baskett and Rappaport. The Audit Committee held nine (9) meetings in 2005 and acted by unanimous written consent one (1) time during 2005. The Audit Committee's primary functions are to assist the Board of Directors in its oversight of the integrity of our financial statements and other financial information, our compliance with legal and regulatory requirements, the qualifications, independence and performance of our independent registered public accounting firm, and our risk management, cash management, auditing, accounting and financial reporting processes in general. Other specific duties and responsibilities of the Audit Committee are to appoint, compensate, evaluate and, when appropriate, replace our independent registered public accounting firm; review and pre-approve audit and permissible non-audit services; review the scope of the annual audit; monitor the independent registered public accounting firm's relationship with Atheros; and meet with the independent registered public accounting firm and management to discuss and review our financial statements, internal controls, and auditing, accounting and financial reporting processes. The Board of Directors has adopted a written Audit Committee charter, a copy of which was attached as Appendix B to the proxy statement for our 2004 annual meeting of stockholders.

The Nominating and Corporate Governance Committee currently consists of Messrs. Baskett (Chairman), Artusi and Hennessy. The Nominating and Corporate Governance Committee held four (4) meetings in 2005. The Nominating and Corporate Governance Committee's primary functions are to seek, evaluate and select nominees for election to our Board of Directors and to oversee matters of corporate governance. Other specific duties and responsibilities of the Nominating and Corporate Governance Committee are to make recommendations regarding the size of the Board, review on an annual basis the functioning and effectiveness of the Board, and consider and make recommendations on matters related to the practices, policies and procedures of the Board. The Board of Directors has adopted a written Nominating and Corporate Governance Committee charter, a copy of which was attached as Appendix A to the proxy statement for our 2004 annual meeting of stockholders.

Table of Contents

Dr. Barratt currently serves as the Non-Executive Stock Option Committee. The Non-Executive Stock Option Committee is a secondary committee responsible for granting and issuing awards of options and shares under the 2004 Stock Incentive Plan to eligible employees, other than to members of the Board of Directors, individuals designated by the Board of Directors as Section 16 officers, or employees who hold the title of Vice President or above. In addition, the Non-Executive Stock Option Committee may not make any awards or grants to any one employee that total more than 50,000 shares of common stock in any calendar year.

Director Nominations

The Nominating and Corporate Governance Committee nominates directors for election at each annual meeting of stockholders and nominates new directors for election by the Board of Directors to fill vacancies when they arise. The Nominating and Corporate Governance Committee has the responsibility to identify, evaluate, recruit and nominate qualified candidates for election to the Board of Directors.

The Board of Directors has as an objective that its membership be composed of experienced and dedicated individuals with diversity of backgrounds, perspectives and skills. The Nominating and Corporate Governance Committee will select candidates for director based on their character, judgment, diversity of experience, business acumen, and ability to act on behalf of all stockholders. The Nominating and Corporate Governance Committee believes that nominees for director should have experience, such as experience in management or accounting and finance, or industry and technology knowledge, that may be useful to Atheros and the Board, high personal and professional ethics, and the willingness and ability to devote sufficient time to effectively carry out his or her duties as a director. The Nominating and Corporate Governance Committee believes it appropriate for at least one, and, preferably, multiple, members of the Board to meet the criteria for an audit committee financial expert as defined by SEC rules, and for a majority of the members of the Board to meet the definition of independent director under the rules of The Nasdaq Stock Market. The Nominating and Corporate Governance Committee also believes it appropriate for certain key members of our management to participate as members of the Board.

Prior to each annual meeting of stockholders, the Nominating and Corporate Governance Committee identifies nominees first by evaluating the current directors whose term will expire at the annual meeting and who are willing to continue in service. These candidates are evaluated based on the criteria described above, including as demonstrated by the candidate's prior service as a director, and the needs of the Board with respect to the particular talents and experience of its directors. In the event that a director does not wish to continue in service, the Nominating and Corporate Governance Committee determines not to re-nominate the Director, or a vacancy is created on the Board as a result of a resignation, an increase in the size of the board or other event, the Committee will consider various candidates for Board membership, including those suggested by the Committee members, by other Board members, by any executive search firm engaged by the Committee and by stockholders. A stockholder who wishes to suggest a prospective nominee for the Board should notify Atheros' Secretary or any member of the Committee in writing with any supporting material the stockholder considers appropriate.

In addition, our Bylaws contain provisions that address the process by which a stockholder may nominate an individual to stand for election to the Board of Directors at our annual meeting of stockholders. In order to nominate a candidate for director, a stockholder must give timely notice in writing to Atheros' Secretary and otherwise comply with the provisions of our Bylaws. To be timely, our Bylaws provide that we must have received the stockholder's notice not less than 60 days nor more than 90 days prior to the scheduled date of the meeting. However, if notice or prior public disclosure of the date of the annual meeting is given or made to stockholders less than 75 days prior to the meeting date, we must receive the stockholder's notice by the earlier of (i) the close of business on the 15th day after the earlier of the day we mailed notice of the annual meeting date or provided public disclosure of the meeting date and (ii) two days prior to the scheduled date of the annual meeting. Information required by the Bylaws to be in the notice include the name and contact information for the candidate and the person making the nomination and other information about the nominee that must be disclosed in proxy solicitations under Section 14 of the Securities Exchange Act of 1934 and the related rules and regulations under that Section.

Since January 1, 2005, we have paid the following compensation to members of our Board of Directors for their services as directors.

Prior to October 20, 2005, we did not pay any cash compensation to members of our Board Directors for their services as directors. On October 20, 2005, our Board of Directors adopted a cash compensation plan for Atheros independent directors. Under the plan, each independent director receives an annual retainer of \$25,000. In addition, each independent director will receive an annual retainer of \$2,500 for each committee (other than the Audit Committee) on which such director serves, and members of the Audit Committee will receive an annual retainer of \$5,000. In addition to the retainers for committee service, committee chairs (other than the chair of the Audit Committee) will receive an annual retainer of \$2,500, and the chair of the Audit Committee will receive an annual retainer of \$5,000. These retainers will be payable on a pro rata basis for the portion of the year on which a director serves on the Board or a committee. The retainers for 2005 were payable on a pro rata basis for the period from October 20, 2005 through December 31, 2005.

We also reimburse the directors for reasonable expenses in connection with attendance at board and committee meetings.

Outside directors receive nondiscretionary, automatic grants of nonstatutory stock options under our 2004 stock incentive plan. An outside director will be automatically granted an initial option to purchase 37,500 shares upon first becoming a member of our Board of Directors. The initial option vests and becomes exercisable over four (4) years, with the first 25% of the shares subject to the initial option vesting on the first anniversary of the date of grant and the remainder vesting monthly thereafter. Immediately after each of our regularly scheduled annual meetings of stockholders, each outside director is automatically granted a nonstatutory option to purchase 7,500 shares of our common stock, provided the director has served on our board for at least six (6) months. Each annual option granted to outside directors who are first elected to the Board of Directors on or after November 1, 2004 vests and becomes exercisable ratably over 48 months and to the other outside directors vests and becomes exercisable ratably over 12 months. The options granted to outside directors have a per share exercise price equal to 100% of the fair market value of the underlying shares on the date of grant, and will become fully vested if we are subject to a change of control. Pursuant to the automatic, non-discretionary grant provisions described above, Daniel Artusi was granted an initial option to purchase 37,500 shares of our common stock on October 24, 2005 and each of our other outside directors, Messrs. Baskett, Hennessy, Mohr and Rappaport, was granted an annual option to purchase 7,500 shares of our common stock on May 25, 2005.

Directors also are eligible to receive and have received discretionary grants of nonstatutory stock options under our 2004 stock incentive plan. The exercise price of stock options granted to directors is equal to 100% of the fair market value of the underlying shares, as determined pursuant to the 2004 stock incentive plan on the date of grant. The following non-employee director has received stock options under our 2004 stock incentive plan since January 1, 2005:

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, requires our executive officers and directors, and persons who own more than 10% of a registered class of our equity securities, to file reports of ownership on Forms 3, 4 and 5 with the Securities and Exchange Commission. Officers, directors and greater than 10% stockholders are required to furnish us with copies of all Forms 3, 4 and 5 they file. Specific due dates for these reports have been established, and we are required to identify in this proxy statement those persons who failed to timely file these reports. Based solely on our review of copies of such reports received by us, or written representations from certain reporting persons, all of the filing requirements for such persons were satisfied for 2005.

Report of the Audit Committee

The following report of the Audit Committee does not constitute soliciting material and shall not be deemed filed or incorporated by reference into any other filing by Atheros under the Securities Act of 1933 or the Securities Exchange Act of 1934.

The Audit Committee operates under a written charter adopted by the Board of Directors. A copy of the Audit Committee charter was included as Appendix B to the proxy statement for our 2004 annual meeting of stockholders. The charter is also available on our website at www.atheros.com. The information contained on our website does not form any part of this proxy statement. All members of the Audit Committee meet the independence standards established by The Nasdaq Stock Market.

The Audit Committee assists the Board in fulfilling its responsibility to oversee management's implementation of Atheros' financial reporting process. It is not the duty of the Audit Committee to plan or conduct audits or to determine that the financial statements are complete and accurate and are in accordance with generally accepted accounting principles. Management is responsible for the financial statements and the reporting process, including the system of internal controls and disclosure controls. The independent registered public accounting firm is responsible for expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States.

In discharging its oversight role, the Audit Committee reviewed and discussed the audited financial statements contained in the 2005 Annual Report with Atheros' management and independent registered public accounting firm as well as management's assessment of internal control over financial reporting.

The Audit Committee met privately with the independent registered public accounting firm, and discussed issues deemed significant by the independent registered public accounting firm, including those required by Statements on Auditing Standards No. 61 (Audit Committee Communications), as amended. In addition, the Audit Committee discussed with the independent registered public accounting firm its independence from Atheros and its management, including the matters in the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and considered whether the provision of nonaudit services was compatible with maintaining the registered public accounting firm's independence.

Based upon these reviews and discussions, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in Atheros' annual report on Form 10-K for the year ended December 31, 2005 for filing with the Securities and Exchange Commission.

Respectfully submitted on April 4, 2006, by the members of the Audit Committee of the Board:

(2) The options have a term of 10 years, subject to earlier termination in certain events related to termination of employment.

(3) Potential realizable values are calculated by:

multiplying the number of shares of our common stock subject to a given option by the closing price of our common stock on the date of grant;

assuming that the aggregate stock value derived from that calculation compounds at the annual 5% or 10% rates shown in the table for the entire 10-year term of the option; and

subtracting from that result the total option exercise price.

Edgar Filing: ATHEROS COMMUNICATIONS INC - Form DEF 14A

The 5% and 10% assumed rates of appreciation are suggested by the rules of the Securities and Exchange Commission and do not represent our estimate or projection of the future common stock price. There can be no assurance that any of the values reflected in the table will be achieved.

Under the agreement, Mr. Antes was originally entitled to an annual base salary of \$220,000. In January 2006, Mr. Antes' annual salary was increased to \$228,800. Mr. Antes is eligible for an annual bonus pursuant to our bonus program as determined by the Board of Directors. Pursuant to this offer letter, Mr. Antes was granted an option in July 2005 to purchase 150,000 shares of Atheros' common stock, vesting over four years from the date of grant, with the first 25% vesting after one year of employment and the remaining shares vesting monthly over the following 36 months. The options terminate ten years after the date of grant. In the event Mr. Antes is involuntarily or constructively terminated within 12 months following a change in control, the vesting of his then unvested stock options shall be accelerated as to an additional amount equal to the vesting Mr. Antes would have received had his employment continued for an additional year after his termination. In the event Mr. Antes is terminated without cause, he will receive severance equal to six months of his then-current annual base salary, and Atheros will pay the health insurance coverage for Mr. Antes and his enrolled dependents for six months after the effective date of his termination.

We have an offer letter with Gary L. Szilagyi, entered into on December 29, 2005, under which Mr. Szilagyi serves as our Vice President of Worldwide Sales, effective on January 30, 2006. Under the agreement, Mr. Szilagyi receives an annual base salary of \$240,000. Mr. Szilagyi will also receive a hiring bonus of \$100,000, of which one-half was paid on December 29, 2005 and one-half will be paid three months after his first day of employment, provided he does not voluntarily leave Atheros prior to that time. The agreement also provides that Mr. Szilagyi will be eligible to receive a target annual bonus of \$135,000 based upon certain corporate objectives and achieving certain sales revenue targets. Pursuant to the agreement, Mr. Szilagyi was granted options in January 2006 to purchase 220,000 shares of Atheros' common stock, vesting over four years from the date of grant, with 25% of the options vesting one year after the date of grant and the remaining options vesting monthly over the following 36 months. The options terminate ten years after the date of grant. In the event Mr. Szilagyi is terminated without cause within 12 months following a change of control, the vesting of his then unvested stock options shall be accelerated as to an additional amount equal to the vesting Mr. Szilagyi would have received had his employment continued for an additional year after his termination. In the event Mr. Szilagyi is terminated without cause, he will receive severance equal to six months of his then-current annual base salary, and Atheros will pay the health insurance coverage for Mr. Szilagyi and his enrolled dependents for six months after the effective date of his termination.

Certain Relationships and Related Party Transactions

We have a consulting agreement with Teresa H. Meng, who is also a director. Dr. Meng's consulting agreement is described above in the section entitled "Directors' Compensation."

We have entered into indemnification agreements with each of our current directors and executive officers. These agreements will require us to indemnify these individuals to the fullest extent permitted under Delaware law against liabilities that may arise by reason of their service to us, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified. We also intend to enter into indemnification agreements with our future directors and executive officers. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the Securities and Exchange Commission, this indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

We had an offer letter agreement with Thomas J. Foster, formerly our Vice President of Sales, entered into on October 21, 2001, that was terminated on March 6, 2006 in connection with Mr. Foster's departure from Atheros. Under the agreement, Mr. Foster was originally entitled to an annual base salary of \$175,000 and a target commission at 100% of quota of \$150,000. In January 2004, Mr. Foster's annual base salary was increased to \$200,001, and in January 2005 his annual base salary was increased to \$208,001. Pursuant to the offer letter, Mr. Foster was granted in 2001 an option to purchase 224,999 shares of common stock, with the first 25% vesting after one year of employment and the remaining shares vesting monthly over the following 36 months. terminated within 13 months following a change of control, the vesting of his options would be accelerated by the lesser of six months or 50% and he would receive six months of his annual target salary. Options held by Mr. Foster that were not vested on March 6, 2006 have terminated. Pursuant to a severance and release agreement that we entered into with Mr. Foster in March 2006, we paid Mr. Foster severance in the amount of \$104,000, equal to six months of his base salary, upon his termination in March 2006, and we have agreed to pay the health insurance coverage for Mr. Foster and his enrolled dependents for six months after the effective date of his termination.

Report of the Compensation Committee of the Board of Directors on Executive Compensation

The following report of the Compensation Committee does not constitute solicitation material, and shall not be deemed filed or incorporated by reference into any other filing by Atheros under the Securities Act of 1933, or the Securities Exchange Act of 1934.

The Compensation Committee is comprised of three (3) non-employee directors. The Compensation Committee is responsible for setting and administering the policies governing annual compensation of executive officers, considers their performance and makes recommendations establishes and approves regarding their cash compensation and stock options to the full Board of Directors. The Compensation Committee expects, pursuant to its charter, to periodically review the approach to executive compensation, and to make changes as competitive conditions and other circumstances warrant. The Compensation Committee will seek to ensure Atheros' compensation philosophy is consistent with the best interests of Atheros and its stockholders and is properly implemented.

The Compensation Committee held five (5) meetings during 2005 and acted by unanimous written consent one time during 2005. The Compensation Committee also met in January 2006 to determine executive bonuses for 2005, salaries for 2006, and grants of stock options to certain executive officers.

Compensation Philosophy and Objectives

The Compensation Committee believes that compensation of Atheros' executive officers should encourage creation and enhancement of stockholder value and achievement of strategic corporate objectives, attract qualified, skilled and dedicated executives, retain key leaders, reward past performance and incent future performance. It is the Compensation Committee's philosophy to align the interests of Atheros stockholders and management by integrating compensation with Atheros' annual and long-term corporate and financial objectives. In order to attract and retain the most qualified, skilled and dedicated personnel, Atheros intends to offer a total compensation package competitive with companies in the semiconductor industry, taking into account relative company size, performance and geographic location as well as individual responsibilities and performance. The components of executive officer compensation consist of base salary, bonus and stock options, which are discussed separately below.

The Compensation Committee determines the compensation of each executive officer based on its assessment of the individual's performance and ability to enhance long-term stockholder value. Factors affecting the Compensation Committee's decisions include the executive officer's level of responsibilities, the executive officer's performance compared to the goals and objectives established for that executive officer for the year, the executive officer's contributions to Atheros' financial results, and the executive officer's effectiveness in leading initiatives to determine and achieve Atheros' business goals. The Compensation Committee also considers the appropriate balance between incentives for long-term and short-term performance, market information and executive officer compensation survey data regarding the base salaries and other incentives paid to executive officers of companies with revenues comparable to Atheros and other companies in the semiconductor industry. However, the Compensation Committee does not restrict its decisions to any particular range or level of total compensation paid to executive officers at these companies.

Atheros generally intends to qualify executive compensation for deductibility without limitation under section 162(m) of the Internal Revenue Code. Section 162(m) provides that, for purposes of the regular income tax and the alternative minimum tax, the otherwise allowable deduction for compensation paid or accrued with respect to a covered employee of a publicly-held corporation (other than certain exempt performance-based compensation) is limited to no more than \$1 million per year. The non-exempt compensation paid in fiscal 2005 to any of Atheros' executive officers, as calculated for purposes of section 162(m), did not exceed the \$1 million limit, and Atheros does not expect that the non-exempt compensation to be paid to any of its executive officers for fiscal 2006 will exceed the \$1 million limit.

Executive Officer Base Salary

The Compensation Committee reviews salaries recommended by the Chief Executive Officer for executive officers other than the Chief Executive Officer on an annual basis and may adjust salaries from time to time to recognize promotions, outstanding individual performance and competitive compensation. The Compensation Committee generally sets base salaries at levels designed to attract and retain qualified executive officers with strong leadership. The Compensation Committee sets the salary level of each executive officer on a case by case basis, taking into account the individual's level of responsibilities and performance. The Compensation Committee also considers the executive officer's current salary and prior-year bonus, market information and executive officer compensation survey data regarding the base salaries and other incentives paid to executive officers of companies with comparable revenues and other similarly sized companies within the semiconductor industry. The Compensation Committee involves the Chief Executive Officer in the decision process for base salary adjustments for executives other than the Chief Executive Officer.

Executive Officer Bonuses

The Compensation Committee believes that a portion of executive officer compensation should be contingent upon Atheros' performance and an individual's contribution to its success in meeting corporate and financial objectives. Bonuses paid for fiscal 2005 were determined based on the 2005 bonus plan adopted by the Compensation Committee in March 2005. Under the 2005 bonus plan, the 2005 bonuses of the Chief Executive Officer and each executive officer were based on Atheros' achievement of certain financial and non-financial corporate performance objectives. The financial corporate performance objectives were specifically tied to corporate revenue, operating income and gross margin. The categories of the non-financial corporate performance objectives were market share, customer engagements and industry leadership, product development and operational excellence. There were three components for potential bonuses: first, a bonus of up to 25% of base salary (40% for the Chief Executive Officer) for the achievement of financial corporate performance objectives; second, a bonus of up to 10% of base salary (15% for the Chief Executive Officer) for the achievement of non-financial corporate performance objectives; and third, a bonus of up to 15% of base salary (45% for the Chief Executive Officer) for the achievement of higher levels of financial corporate performance objectives. Atheros met the first level of financial and non-financial objectives in the bonus plan, and the bonuses paid were therefore equal to 35% of base salary for executive officers and 55% of base salary for the Chief Executive Officer. In adopting the plan, the Committee considered executive officer compensation survey data regarding bonus levels of executive officers of companies with comparable revenues comparable and other companies in the semiconductor industry.

Stock Option Grants

The Compensation Committee administers Atheros' 2004 Stock Incentive Plan for executive officers, employees, consultants and outside directors, under which it grants options to purchase Atheros' common stock with an exercise price equal to the fair market value of a share of the common stock on the date of grant.

The Compensation Committee believes that option grants (1) align our executives' interests with our stockholders' interests by creating a direct link between compensation and stockholder return, (2) provide our executives with a significant, long-term interest in the success of Atheros, and (3) help retain key executives in a competitive market for executive talent. Accordingly, the Compensation Committee when annually reviewing executive officer compensation also considers stock option grants as appropriate. At its discretion, from time to time the Compensation Committee may also grant options based on individual and corporate achievements. The Compensation Committee determines the number of shares underlying each stock option grant based upon the executive officer's and Atheros' performance, the executive officer's role and responsibilities, the executive officer's base salary and comparison with comparable awards to individuals in similar positions in the industry.

Edgar Filing: ATHEROS COMMUNICATIONS INC - Form DEF 14A

In addition, Atheros employees generally are able to participate in the 2004 Employee Stock Purchase Plan. Under the Employee Stock Purchase Plan, each executive officer may purchase up to 1,875 shares of our common stock in a six- (6) month period at a discount to the market price. The number of shares that may be purchased by each participant is limited by applicable tax laws.

Chief Executive Officer Compensation

The Compensation Committee determines the compensation of the Chief Executive Officer using the same criteria as for the other executive officers. In April 2003, the Board of Directors approved an offer letter for Dr. Barratt with an initial annual salary of \$258,000 and the opportunity to participate in the executive bonus program. Pursuant to this letter, Dr. Barratt was granted an option in 2003 to purchase 1,274,999 shares of common stock vesting over four years from the date of

Table of Contents

grant. This letter and the terms of the option are described in Executive Compensation Employment, Severance and Change of Control Arrangements. In January 2005, the Compensation Committee awarded Dr. Barratt a bonus of \$70,000 for his service in 2004, increased Dr. Barratt's annual salary to \$291,200 for fiscal 2005, and granted options to Dr. Barratt to purchase 150,000 shares vesting over four years from the date of grant. In January 2006, the Compensation Committee awarded Dr. Barratt a bonus of \$160,160 for his service in 2005, and granted options to Dr. Barratt to purchase 150,000 shares vesting over four years from the date of grant. Dr. Barratt's salary was not changed for 2006. Dr. Barratt's 2005 bonus was determined under the 2005 bonus plan described above under Executive Officer Bonuses. In determining Dr. Barratt's compensation, including his salary, bonus and option grants, the Compensation Committee considered Dr. Barratt's individual performance and the performance of Atheros as a whole, including Atheros' financial performance, product roll-outs and product development, and Dr. Barratt's leadership in the development and execution of Atheros' business strategy, as well as a review of compensation paid to presidents and chief executive officers of comparable companies. The Compensation Committee also considered Dr. Barratt's potential to enhance long-term stockholder value. By including significant stock option grants that are subject to vesting over four years, the Compensation Committee has tied Dr. Barratt's equity-based compensation directly to Atheros' performance.
