  - .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

**Item 1.01. Entry into a Material Definitive Agreement.**

On September 14, 2006, Computer Software Innovations, Inc. (CSI Technology Outfitters, CSI) entered into a letter of intent to acquire the business operations of McAleer Computer Associates, Inc. (MCAI). MCAI is the leading provider of fund accounting based financial management software, its major product, for the kindergarten through grade 12 sector of the education market in the state of Alabama and has a presence in five other states. The proposed acquisition is subject to finalizing an acquisition agreement, due diligence and CSI obtaining acceptable financing to fund the transaction. The parties will work to enter into a definitive acquisition agreement in the next 45 days, with the transaction anticipated to close in January 2007.

The proposed acquisition, if consummated, would expand CSI's reach from its primary three state markets to an eight-state footprint in the Southeast. CSI believes the acquisition would constitute a major move for the company in implementing its stated strategy of geographic expansion, with the ultimate goal of achieving a national presence. CSI also believes MCAI has a strong management team and a reputation for delivering quality customer service from its location in Mobile, Alabama. CSI plans to utilize the existing MCAI staff to continue to service MCAI's existing clients from the offices in Mobile, following the closing of the proposed acquisition. CSI anticipates that it would be able to capitalize on the new Mobile location by delivering expanded technology and service offerings to the broader geographic area and the local government (city and county) markets. In contrast to CSI, MCAI has not historically focused on the local government market or provided as broad a range of technology solutions.

**Highlights of Proposed Acquisition**

Pursuant to the letter of intent, the transaction will be structured as a purchase of assets of MCAI, including its proprietary software and other intellectual property, work in process, and the land and buildings housing its operations. It is contemplated that CSI will assume only customer contracts and other limited liabilities of MCAI. The purchase price is approximately \$4 million, payable in cash at closing, except for approximately \$0.5 million payable under a 5 year note secured by the real estate acquired. Upon signing the letter of intent, CSI paid MCAI \$100,000 to serve as earnest money, which will be applied to the cash payment at closing if the transaction is consummated. Such payment will be retained by MCAI if the transaction does not close through no fault of MCAI.

MCAI also has agreed to refrain from entering into acquisition discussions with parties other than CSI. CSI's exclusive would terminate if the acquisition is not consummated by January 1, 2007.

The acquisition is subject to certain conditions, including: (i) the completion by CSI of satisfactory due diligence, (ii) the negotiation and execution of a definitive acquisition agreement, (iii) the negotiation and execution of related agreements, including a consulting agreement with Mr. Bill McAleer and non-competition agreements with Mr. McAleer and his company, (iv) CSI obtaining acceptable financing, (v) receipt by CSI of audited financial statements on MCAI for the fiscal years ended 2004 and 2005, the cost of the related audits to be paid by CSI, (vi) final approval by the board of directors of each party, and (vii) other customary requirements.

**About McAleer Computer Associates, Inc.**

McAleer is primarily a provider of financial management software to the educational K through 12 market. Founded by Mr. Bill McAleer, the company has been in operation for over 25 years. Based in Mobile, Alabama, McAleer's current footprint includes school districts in Alabama, Georgia, Mississippi, Louisiana, Tennessee and Florida.
