Commission File No.: 000-51593

PowerLight Acquisition
November, 2006

This presentation contains forward looking statements as defined in the Private Securities Litigation Reform Act of 1995. This press release contains forward looking statements as defined in the Private Securities Litigation Reform Act of 1995. We use words such as believes, plans and expects and similar expressions to identify forward-looking statements. Forward-looking

statements in this presentation include, but are not limited to, statements related to the benefits of the proposed transaction between SunPower and PowerLight, the completion of the transaction, our plans and expectations for financial performance, the accretive nature of the transaction and our ability to meet our long term financial model and margin projections, and the development and future cost structure of the solar power industry. These forward-looking statements involve a number of risks and uncertainties that could cause actual results to differ materially from those anticipated by these forward-looking statements including difficulties encountered in integrating the merged businesses; the risk that the transaction does not close, including the risk that requisite stockholder and regulatory approvals may not be obtained; the possibility that expected synergies and cost savings will not be obtained; the uncertainty of business and economic conditions and growth trends in the solar power industry; our ability to obtain adequate supply of polysilicon and silicon ingots to manufacture our

products
and
the
price
we
pay
for
such

material, our ability to ramp new production lines, our ability to realize expected manufacturing efficiencies, the possibility of production difficulties, the risk of continuation of supply of products and components from suppliers to PowerLight, including competitors of SunPower, and the continuation of existing large-scale PowerLight customer projects, and other risk factors are contained in documents that the company files with the SEC, including the Form 10-K for fiscal 2005 and its recent 10-Qs, as well as filings we make with regard to this transaction. SunPower is under no obligation to, and expressly disclaims any responsibility to update or alter, its forward-looking statements, whether as a result of new information, future events or otherwise.

Note that the financial information includes and identifies as such, non-GAAP financial information. Management will provide reconciliation to GAAP for this financial information.

Safe Harbor Statement

SunPower plans to file with the SEC a Registration Statement on Form S-4 in connection with the transaction.

The Registration Statement will contain important information about SunPower, PowerLight, the transaction and related matters. Investors and security holders are urged to read the Registration Statement carefully when they are available.

Investors and security holders will be able to obtain free copies of the

Registration Statement and other documents filed with the SEC by
SunPower

through the web site maintained by the SEC at www.sec.gov. In addition,
investors and security holders will be able to obtain free copies of the
Registration Statement from SunPower by contacting Investor Relations at
408-240-5588 or <http://investors.sunpowercorp.com/sec.cfm>.

Important Registration Information

PowerLight Agreement Summary

\$265 MM upfront consideration

\$67.5 MM retention carve-out vesting over 2-4 years

Tax-free merger; 40% cash and 60% stock

Definitive agreement signed November 15, 2006

Closing Q1 07 subject to customary closing conditions

PowerLight Acquisition Benefits

Investor Value

Accelerate revenue and EPS growth

EPS accretive (Non-GAAP)

Maintain long-term financial model objectives: 30/10/20

PowerLight Acquisition Benefits

Maintain long-term financial model: 30/10/20

Strategic Objectives

Extend leadership in key applications and markets

Apply technology leadership across the value chain

Accelerate product innovation to drive channel efficiency

Radically simplify & improve customer experience

SunPower / PowerLight Goals

Market Leadership

Commercial & residential in target markets

US production homes

Top solar brand

Technology Leadership

Highest efficiency solar cells and panels

Lowest cost / kWh system solutions

Compete with retail electric rates

Reduce installed system cost 50% by 2012

Residential Retrofit
