To Be Held on May 9, 2007

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors (the "Board") of Entegris, Inc., a Delaware corporation, ("Entegris" or the "Company") for use at the 2007 Annual Meeting of Stockholders to be held at the Company's offices at 129 Concord Road, Billerica, Massachusetts on Wednesday, May 9, 2007, at 10:00 a.m., local time, and at any adjournment or adjournments of that meeting. This proxy statement, the foregoing Notice of Annual Meeting of Stockholders, the enclosed form of proxy and the Company's Fiscal Year 2006 Annual Report on Form 10-K are first being mailed or given to stockholders on or about March 30, 2007.

PROXIES

A stockholder giving a proxy may revoke it at any time before it is voted by executing and delivering to Entegris another proxy bearing a later date, by delivering a written notice to the Secretary of the Company stating that the proxy is revoked, or by voting in person at the 2007 Annual Meeting. Any properly completed proxy forms returned in time to be voted at the Annual Meeting will be voted in accordance with the instructions indicated thereon. If no instructions are indicated on the proxy, the proxy will be voted **IN FAVOR** of the election of the ten named nominees as directors. In addition, the proxy confers discretionary authority to vote on any other matter properly presented at the 2007 Annual Meeting which is not known to the Company as of the date of this proxy statement, unless the proxy directs otherwise.

Shareholders may vote by proxy in one of the following three ways: (1) by completing, signing and dating the enclosed proxy card and returning it in the enclosed postage paid envelope by mail, (2) by completing a proxy using the toll-free telephone number listed on the proxy card in accordance with the specified instructions, or (3) by completing a proxy on the Internet at the address listed on the proxy card in accordance with the specified instructions.

All costs of solicitation of proxies will be borne by Entegris. In addition to solicitations by mail, the Company's directors, officers and regular employees, without additional remuneration, may solicit proxies by telephone, personal interviews and the Internet. Brokers, custodians and fiduciaries will be requested to forward proxy soliciting material to the owners of stock held in their names, and Entegris will reimburse them for their reasonable out-of-pocket expenses incurred in connection with the distribution of proxy materials.

VOTING SECURITIES AND VOTES REQUIRED

The record date for the determination of stockholders entitled to notice of and to vote at the 2007 Annual Meeting was the close of business on March 23, 2007 (the "Record Date"). On the Record Date, there were 134,456,633 shares of Common Stock, \$0.01 par value per share, the Company's only voting securities, outstanding and entitled to vote. Each share of common stock is entitled to one vote. Under the Company's By-Laws, the holders of a majority of the shares of common stock outstanding and entitled to vote at the meeting shall constitute a quorum for the transaction of business at the meeting. Shares of common stock represented in person or by proxy (including shares which abstain or do not vote with respect to one or more of the matters presented for stockholder approval) will be counted for purposes of determining whether a quorum is present. The affirmative vote of the holders of a plurality of votes cast by the stockholders entitled to vote at the meeting is required for the election of directors. Accordingly, abstentions and broker non-votes will not be included in vote totals and will not affect the outcome of the voting on the election of the directors.

Table of Contents

of sources recommendations from our management, current directors, stockholders or contacts in communities served by Entegris, or by conducting a formal search using an outside search firm selected and engaged by the Governance & Nominating Committee. Following the identification of a potential director-nominee, the Governance & Nominating Committee commences an inquiry to obtain sufficient information on the background of a potential new director-nominee. Included in this inquiry is an initial review of the candidate with respect to the following factors: (1) whether the individual meets the specified minimum qualifications for first-time director nominees; (2) whether the individual would be considered independent under applicable rules of NASDAQ and the Securities and Exchange Commission; and (3) whether the individual would meet any additional requirements imposed by law or regulation on the members of the Audit & Finance Committee and/or the Management Development & Compensation Committee of the Board.

The Governance & Nominating Committee evaluates candidates for director nominees in the context of the current composition of the Board taking into account all factors it considers appropriate, including but not limited to, the characteristics of independence, age, skills, experience, availability of service to Entegris, tenure of incumbent directors on the Board and the anticipated needs of the Board of Directors. The Governance & Nominating Committee believes that, at a minimum, all nominees recommended by the Governance & Nominating Committee, should have (i) a position capable of making, or a record of, valuable contributions to the business community, (ii) personal qualities of leadership, character, judgment and a reputation in the community at large of integrity, trust, respect, competence and adherence to the highest ethical standards, (iii) experience in the semiconductor/microelectronics industry or in other industries in which the Company operates; (iv) relevant knowledge and diversity of background and experience in such things as business, manufacturing, technology, finance and accounting, marketing, international business, government and the like; (v) candor and willingness to operate on a team and to seek consensus; (vi) an absence of conflicts of interest with the Company; and (vii) the time required for preparation, participation and attendance at all meetings. In addition, at least one member of the Board should have accounting or related financial management expertise, as determined in the business judgment of the Board. The Governance & Nominating Committee will consider potential nominees recommended by our stockholders for the Committee's consideration taking into account the same considerations as are taken into account for other potential nominees. Stockholders may recommend candidates by writing to the Chairman, Governance & Nominating Committee in care of the Company's Senior Vice President, General Counsel & Secretary at Entegris, Inc., 129 Concord Road, Billerica, MA 01821. COMPENSATION OF EXECUTIVE OFFICERS

Set forth below is summary information concerning certain compensation earned, paid or awarded during fiscal year 2006 by the Company to our chief executive officer, our chief financial officer and to the three other most highly compensated executive officers who were serving as executive officers at the end of the fiscal year.

Compensation Discussion and Analysis

Objectives of Executive Compensation Policies

The Entegris executive compensation policies are designed so that: (i) total compensation is tied to individual performance, (ii) total compensation will vary with the Company's performance in achieving financial and non-financial objectives, and (iii) long-term incentive compensation is closely aligned with stockholders' interests. Further, the Entegris executive compensation policies provide that the proportion of variable compensation increases as an employee's level of responsibility increases so that compensation for senior executives is closely aligned with the Company's performance. For these reasons, the Entegris executive compensation policies prioritize: pay-for-performance, competitive compensation and employee retention and alignment with stockholders' interests. The overall objectives of the executive compensation policies are to:

attract, retain, motivate and reward high caliber executives;

foster teamwork and support the achievement of the Entegris's financial and strategic goals through performance based financial incentives;

promote the achievement of strategic objectives which lead to long-term growth in shareholder value;

encourage strong financial performance by establishing competitive goals for target performance and leveraging incentive programs through stock-based compensation; and

align the interests of executive officers with those of Entegris and its shareholders by making incentive compensation dependent upon company performance.

Evaluation of Compensation against External Data

In the design of the 2006 compensation programs the Management Development & Compensation Committee of the Board, which is comprised solely of independent non-employee directors, as described under Corporate Governance above, (the Committee) evaluates each element of compensation as well as total compensation against corresponding compensation data collected by Mercer Human Resource Consulting (Mercer), the compensation consultant retained by the Committee. The Committee compares the Company's compensation practices and levels of pay to a group of companies serving the semiconductor industry or related materials management industries that were recommended by Mercer as being comparable to Entegris. For 2006 this peer group was comprised of the following 21 companies:

AMKOR Technology, Inc.
Novellus Systems, Inc.
Kulicke & Soffa Industries
Varian Semiconductor Equipment
Cymer Inc.
Cabot Microelectronics, Inc.
Idex Corp.

Teradyne, Inc.
MEMC Electronic Materials Inc.
MKS Instruments, Inc.
Axcelis Technologies, Inc.
Veeco Instruments, Inc.
Roper Industries Inc.
Millipore Corporation

KLA-Tencor Corp.
Lam Research Corp.
Brooks Automation
Credence Systems Corp.
Dupont Photomasks Inc.
Curtiss-Wright Corp.
Robbins & Myers Inc.

Edgar Filing: ENTEGRIS INC - Form DEF 14A

Mercer also incorporates data from broader, general industry compensation surveys for similarly-sized companies to develop a composite market perspective on competitive pay levels.

Table of Contents

Based upon the Committee's review of the compensation arrangements discussed below, the compensation levels of the above peer companies, general market pay practices for executives and its assessments of individual and corporate performance, the Company and the Committee believe that the value and design of the Company's executive compensation policies for 2006 was appropriate. While executive officers, principally the Senior Vice President for Human Resources, work closely with the Committee and with its consultant, Mercer, to design Entegris compensation programs, the Committee ultimately decides which policies to adopt and directs and finally approves the design of all compensation programs.

Elements of Compensation

The 2006 Entegris compensation program for executives, including the named executive officers, consisted of a number of elements which are described in the following table:

Compensation Element	What the Compensation Element Rewards	Purpose of the Compensation Element
Base Salary	Core competence in the executive role relative to required skills, experience and contributions to the Company	Provide fixed compensation targeted at the median level, based on competitive market practice
Short-Term Incentive Compensation (EIP)	Achievement of Company financial performance criteria and individual goals	Provides focus on meeting annual performance goals that will lead to our long term success Annual performance based cash incentive compensation
Long-Term Incentive Compensation	Performance of critical financial metrics identified by the Committee over the life of the award	Promotes achievement of critical annual performance metrics Encourage superior financial performance for the Company
	Continued employment with the Company over the four year period covered by the award	Executive ownership of our stock
	Focus on critical performance criteria creating value for stockholders	Retention of executives in a challenging and competitive labor market
Retirement Benefits	Retention of employees	Provide a tax deferred retirement saving vehicle
	Saving for retirement	Makes total retirement benefits available to executives commensurate with other employees as a percentage of compensation
	Achievement of critical financial performance criteria	

Provides both a qualified and non-qualified tax deferred retirement savings vehicle

Welfare Benefits	Executives participate in employee benefit plans generally available to employees	Welfare benefits are a part of the broad based total compensation program designed to be competitive in the labor market
Perquisites	Increased responsibility and leadership duties	Limited perquisites to promote healthy lifestyle and to enhance productivity of business travel
Change in Control and Termination Benefits	We have change in control agreements with certain officers including our named executive officers. These agreements provide severance benefits, including the continuation of welfare benefits, if an officer's employment is terminated within two years following a change in control	Change in control agreements are designed to retain executives and provide continuity of management in the event of an actual or threatened change in control of the Company

The change in control agreements are described in more detail below

Table of Contents

The use of these compensation elements enables us to reinforce our pay for performance philosophy and to strengthen our ability to attract and retain high quality executives. The Company and the Committee believe that this combination of compensation elements provides an appropriate mix of fixed and variable pay and achieves an appropriate balance between short term operational performance and long term shareholder value. The Committee determines the amount of compensation under each component of executive compensation granted to the executive officers to emphasize performance based compensation tied to financial metrics approved by the Committee and to achieve the appropriate balance between cash compensation and equity compensation, as well as to reflect the level of responsibility of the executive officer. There is no pre-established policy or target for the allocation between either cash and non-cash or short-term and long-term incentive compensation. In fiscal 2006, the Committee granted a majority of total compensation to the named executive officers in the form of non-cash equity long-term incentive compensation.

Base Salary

In general, base salary for each employee, including the named executive officers, is established based on the individual's job responsibilities, performance and experience; the Company's overall budget for merit increases; and the competitive environment. Each year, we survey the compensation practices of similar size companies serving the semiconductor and other materials integrity industries as well as general market pay practices for executives in the United States as well as in other countries in which we have significant employee populations in order to assess the competitiveness of the compensation we offer. In fiscal 2006, we targeted base salary at the median level of the companies identified by and included in the compensation surveys conducted or relied upon by Mercer as the compensation consultant for the Committee. However, as noted above, the Company and the Committee believe that our success is dependent on our ability to hire and retain high caliber executives in critical functions, and the pursuit of this objective may require us to recruit individual executives who have significant compensation and retention packages in place with other employers. In order to attract such individuals to Entegris, we may be required to negotiate compensation packages that deviate from the general principle of targeting base pay at the median of our peers. Similarly, we may determine to provide compensation outside of the normal cycle to individuals to address retention issues. Therefore, for some executives, compensation was above the median.

Short-Term Incentive Compensation

During 2006 Entegris maintained a short-term variable incentive compensation program, the Entegris Incentive Plan or EIP, providing for a potential cash award based upon the achievement of financial and operating performance objectives. Under this plan, an incentive pool is established based upon the attainment of financial objectives established by the Committee. During 2006 the named executive officers listed in the Summary Compensation Table below as well as three other senior executives were eligible to receive an incentive compensation payment targeting 75% of their base salary. Other employees under the EIP were eligible to receive lesser percentages ranging from 3% to 50% of their base salary, depending on their level of responsibility. The Entegris Incentive Plan is administered by and all awards are made at the discretion of the Committee.

The EIP award formula includes the following elements:

$$\begin{array}{rcccl}
 & \textbf{Individual} & & \textbf{Potential} & \\
 \textbf{Base} & & & & \textbf{Weighted} \\
 \textbf{Salary} & \textbf{X EIP} & = & \textbf{EIP Award} & \textbf{X} \\
 & \textbf{Target \%} & & \textbf{at Target Performance} & \textbf{Annual Award} \\
 & & & & \textbf{Performance Multiplier} \\
 & & & & = \textbf{EIP Award}
 \end{array}$$

Table of Contents

During 2006 three types of Company financial performance criteria were established by the Committee as performance objectives for executives, including the named executive officers, and were weighted as follows: **(i)** EBITA (as described below) (40%); **(ii)** revenue (20%) and **(iii)** cash conversion cycle (as described below, hereinafter "CCC") (20%). EBITA is a non-GAAP metric that is derived from GAAP operating income with the following expenses added back: **(A)** Merger related and other restructuring charges; **(B)** post-Merger integration expenses; **(C)** post-Merger integration related stock based compensation expense; and **(D)** amortization of Merger related and other intangibles. This metric was chosen because the Company and the Committee believe that for 2006 this was the most accurate measure of the performance of the ongoing operations of the Company. CCC is a non-GAAP metric that measures the efficiency with which the Company manages the following working capital accounts: accounts receivable, accounts payable and inventory balances in the context of the Company's production and revenue cycles. The remaining 20% of the EIP award was based on performance in achieving individual goals established for 2006 for each executive, including the named executive officers, as measured against the Company's executive performance metrics which include:

demonstration of Company values

use of passion and focus to achieve desired results

insight in the analysis of information that demonstrates a thorough understanding of the problem and of the implications of the response

effective execution

ability to attract and retain talent

ability to anticipate and respond to future events

consideration of impact of decisions on others to gain support and obtain results; and

consideration of multicultural implications of decisions.

Individual EIP goals for the named executive officers were established based on specific objectives relevant to the Company's ongoing business strategy. As a general matter, achievement of these individual goals by the named executive officers was necessary for the Company to achieve target performance with respect to the three financial metrics described above.

Awards to other employees under the EIP were based on the three financial performance criteria described above as well as, in certain cases, other additional performance criteria directly related to their responsibilities.

The 2006 EIP award provided for semi-annual calculations, based on the Company's performance with respect to the financial performance criteria during the preceding two quarters, with the financial performance criteria targets adjusted at mid-year to reflect the Company's projected performance for the second half of the year. EIP awards are payable in a single payment early in 2007.

The Committee approved these Company financial performance criteria, their respective weightings and the specific targets for each financial performance criteria as a part of its review of the Company's 2006 operating plan. These Company financial performance criteria were selected for 2006 because the Company and the Committee believe that the achievement of these goals will strengthen the Company's financial condition and increase shareholder value. In accordance with the provisions of the 2006 EIP, the specific targets for each financial performance criteria for the second half of the year were adjusted upward at mid year to reflect the relatively strong performance achieved by the Company during the first half of 2006. These adjusted targets were also reviewed and approved by the Committee.

Table of Contents

The Company's performance against the goals with respect to these three financial criteria during the first half of 2006 were combined with its performance against the increased goals with respect to the three financial criteria for the second half of 2006 and with the individual performance goal achievement percentage to determine the annual award. This calculation is summarized in the following table:

Financial Performance Criteria	1 st Half		1 st Half		2 nd Half		Annual Award % (Avg.)	Weight %	Annual Award Multiplier
	Target	Achievement %	Achievement Multiplier (2)	2 nd Half Target	2 nd Half Achievement %	Achievement Multiplier (2)			
EBITA	\$ 34,522	177%	2.00	\$ 72,758	74%	0	100%	40%	0.40
Revenue	\$ 300,749	113%	1.65	\$ 356,000	96%	0.80	122.5%	20%	0.245
Cash Conversion Cycle	110 days	93%	0.30	111 days	95%	0.50	40%	20%	0.08
Individual Goal (1)								20%	0.20
Weighted Annual Award Performance Multiplier									0.925

- (1) Assumes achievement of 100% of individual goals, which was the case in 2006 for each named executive officer.
- (2) The Achievement Multiplier is determined by applying the Achievement percentage to linear award multiplier tables providing for awards of from 0 for 80% of target performance to 2.0 for 120% of target performance for the EBITA and Revenue performance criteria and of from 0 at 90% of target performance to 2.0 for 110% of target performance for the CCC performance criteria.

Further, the 2006 EIP contained an overall restriction that provided that there would be no award unless the Company was profitable on an EBITA basis for the entire year. As illustrated above, our performance in 2006 qualified for an award pay out at 92.5% of target; these awards for the Chief Executive Officer and the named executive officers are included in the column entitled "Non-Equity Incentive Plan Compensation" in the "Summary Compensation Table" as well as in the "Grants of Plan Based Awards" table below.

Long-Term Incentive Compensation

Executives are also eligible to receive equity grants and awards under the various Entegris equity incentive plans, which are also administered by the Committee. As a general matter, restricted stock awards and awards of performance shares to senior executives are the principal vehicle currently used by Entegris for the payment of long-term incentive compensation. The Company and the Committee believe that the award of restricted stock and/or performance shares is an effective mechanism to align the interests of our executive officers and key personnel with those of Entegris shareholders which is expected to lead to an increase in the long-term value of Entegris. Prior to 2005 our predecessor companies granted stock options which we assumed and these options continue to be outstanding. With the adoption of SFAS 123(R), which requires that we take an operating statement charge with respect to the grant of stock options, the Company and the Committee do not believe that stock options represent as efficient a long term compensation vehicle as restricted stock and performance share awards. All stock options granted to executive officers by our predecessor companies were granted with an exercise price equal to fair market value on the date of grant. The Board has adopted a standing agenda that provides that the Committee will consider equity awards for a given year at its first meeting during that year (generally in February).

The 2006 long term incentive awards to the named executive officers are listed in the "Grants of Plan Based Awards" table below under the columns entitled "Estimated Future Payouts Under Equity Incentive Plan Awards" and "All Other Stock Awards Number of Shares of Stock or Units". One half of the 2006 award to executive officers, including the named executive officers other than the CEO, consisted of restricted stock, with the restrictions lapsing over four years, and one-half consisted of performance shares representing the right to receive an award of shares of the Company's Common Stock in each of the succeeding four (4) years if financial

Table of Contents

performance criteria targets established by the Committee are achieved for the year in question. The equal balance between restricted stock and performance shares for the named executive officers other than the CEO for the 2006 award was selected because it achieved the dual purposes of employee retention while providing a significant incentive to achieve corporate performance. The 2006 award to the CEO was entirely of performance shares because it was believed to be appropriate that the CEO's long term incentive compensation should focus on achieving corporate performance. Under the 2006 performance share award, the Committee establishes the performance criteria for each year covered by the award; depending on the Company's level of performance during the year in question, the award recipient may receive from 0 to 200% of the annual potential share award. Non-executive employees receiving equity awards in 2006 received restricted stock, with the restrictions lapsing proportionately over four (4) years.

The calculation of the performance share awards under 2006 long term incentive awards to executive officers is illustrated by the following:

2006 Performance		Annual Potential Performance		Actual Annual Performance		Annual Award
Share Award	÷ 4 =	Share Award		X Multiplier (0-200%)		=
(# of Shares)						

For the 2006 portion of the performance share award, the Committee selected the EIP financial performance criteria and goals as the performance goals for the 2006 Performance Share award, but calculated on an annual rather than a semi-annual basis and excluding the individual performance component. This calculation is summarized in the following table:

	Combined Annual Target	Annual Achievement %	Annual Achievement Multiplier (1)	Weight %		Annual Award Multiplier
Financial Performance Criteria						
EBITA	\$ 107,280	107%	1.35	40		0.54
Revenue	\$ 656,749	103%	1.15	30		0.345
Cash Conversion Cycle	110.5 days	94%	0.40	30		0.12
Annual Award Multiplier						1.01

(1) The Achievement Multiplier is determined by applying the Achievement percentage to linear award multiplier tables providing for awards of from 0 for 80% of target performance to 2.0 for 120% of target performance for the EBITA and Revenue performance criteria and from 0 at 90% of target performance to 2.0 for 110% of target performance for the CCC performance criteria.

Our performance in 2006 qualified for a performance share payment equal to 101% of the 2006 annual potential award; this payment to the named executive officers is set forth in the Summary Compensation Table below and the potential future annual payments under the 2006 performance share award are set forth in the Grants of Plan Based Awards table below.

For each subsequent year the Committee will establish performance criteria for that year. When earned, performance shares under the 2006 long-term incentive award are free of restrictions. As discussed above, the Company and the Committee believe that achieving or exceeding these goals will create value for Entegris shareholders.

Stock Ownership Guidelines

During 2006 the Committee adopted stock ownership guidelines in order to assure the continuation of the close alignment of the interests of those executive officers who are elected by the Board of Directors with those of Entegris stockholders. This alignment is the objective of the long term incentive compensation discussed above. The guidelines provide that the CEO should attain and maintain beneficial ownership of Entegris stock having a value equal to five times his annual base salary; Executive Vice Presidents should attain and maintain beneficial ownership of Entegris stock with a value equal to four times their respective annual base salaries, the

Table of Contents

Chief Financial Officer should attain and maintain beneficial ownership of Entegris stock with a value equal to three times his annual base salary and Senior Vice Presidents should attain and maintain beneficial ownership of Entegris stock with a value equal to two times their annual base salary. While the stock ownership guidelines provide that executives should attain this beneficial ownership of Entegris stock within five years of the later of their appointment to these positions or the date the guidelines were adopted, most of our executive officers have already attained or exceeded these ownership levels.

Chief Executive Officer Compensation

The Committee determines the compensation package of the Chief Executive Officer of Entegris in accordance with the objectives and methodology described above. For 2006 Mr. Argov's salary was established pursuant to a revised employment agreement entered into in connection with the Merger with Mykrolis at a base salary of \$600,000 per year which was approved by the Board on August 10, 2005. In evaluating Mr. Argov's base salary, the Committee also considers compensation levels of chief executive officers in the market pay survey conducted by Mercer, individual performance and Entegris recent financial performance. Mr. Argov has proposed that for 2007 his salary remain at the 2006 level; the Committee has accepted this proposal.

During 2006 Mr. Argov participated in the EIP described above on the same basis as other senior executives, being eligible to receive incentive compensation payment targeting 75 percent of his base salary to the extent that the financial performance goals were achieved. Accordingly, the Committee awarded Mr. Argov an award of \$416,250 under the EIP for 2006. This award is reflected in the Summary Compensation Table and the Grants of Plan Based Awards table below.

During 2006 Mr. Argov was granted a long term equity incentive award of 150,000 shares, however, unlike the other named executive officers, Mr. Argov's award consisted entirely of performance shares, with no restricted stock element to the award. As described above, that award is divided into four equal portions available for award with respect to each of fiscal years 2006 through 2009. For 2006 our performance resulted in a payment to Mr. Argov of 37,875 shares in accordance with the provisions of that plan; this payment is reflected in the Summary Compensation Table above and the potential payments for future years under the 2006 performance share award are included in the Grants of Plan-Based Awards table below.

Benefits

We provide benefit programs to executive officers and to other employees. The following table generally identifies such benefit plans and identifies those U.S. employees who may be eligible to participate:

- (1) Entegris provides Company-paid Long-Term Disability insurance to eligible full-time employees with a monthly benefit in the amount of 60% of qualified salary to a maximum of \$10,000 per month. All Entegris officers receive company-paid Long-Term Disability coverage that provides a monthly benefit of 60% of qualified salary to a maximum of \$15,000 per month
- (2) Certain selected foreign managers are also eligible to participate in these plans.

Personal Benefits

The Company and the Committee believe that personal benefits or perquisites for executive officers should be limited in scope and value. As a result, we offer executives a minimal level of perquisites. We provide our officers with a limited financial planning allowance via taxable reimbursements for financial planning services like financial advice, estate planning, and tax preparation, which are focused on assisting officers in achieving the highest value from their compensation. In addition, we provide limited reimbursement for life insurance and health club and airline club memberships in order to encourage a healthy life style and provide more productive business travel arrangements. The aggregate value of all perquisites provided to the named executive officers other than the CEO and the CFO during 2006 was less than \$10,000 each. The perquisites provided to the CEO during 2006 were consistent with the terms of his May 4, 2005 amended and restated employment agreement described above, and include tax and financial planning services and other benefits available to executives. The perquisites provided to the CFO during 2006 principally related to separation payments in connection with Mr. Villas' decision to terminate his employment with the Company. The perquisites to the CEO and the CFO are included in the Summary Compensation Table below under the column entitled "All Other Compensation."

Retirement Plan

Entegris offers retirement benefits to its U.S. employees through the tax-qualified Entegris, Inc. 401(k) Savings and Profit Sharing Plan (2005 Restatement), hereafter referred to as the 401(k) Plan, which provides both an employer match for employee contributions and a discretionary profit sharing contribution. Executive officers participate in the 401(k) Plan on the same terms as those available for other eligible employees in the U.S. The 401(k) Plan provides a long-term savings vehicle that allows for pretax contributions by employees and tax-deferred earnings. The Company makes matching contributions to the 401(k) Plan equal to 100% of such employee contributions on the first 3% of eligible compensation and 50% of the next 2% of eligible compensation, not to exceed the annual IRS limit. Employees direct their own investments in the 401(k) Plan. The 401(k) Plan also includes a defined contribution element that features a discretionary performance based cash profit sharing contribution determined annually based on the Company's performance against the financial criteria used to determine EIP awards pursuant to a formula approved by the Committee. These profit sharing contributions vest beginning after two years of service in 25% annual increments until the employee is 100% vested after five years of service.

In connection with the 401(k) Plan we also maintain a Supplemental Executive Retirement Plan (SERP) that was assumed in the merger with Mykrolis Corporation. Under this non-qualified plan, certain senior executives, including the named executive officers, are allowed certain salary deferral benefits that would otherwise be lost by reason of restrictions imposed by the Internal Revenue Code limiting the amount of compensation which may be deferred under tax-qualified plans. Compensation that may be deferred into the SERP include employee and matching employer contributions as well as employer discretionary profit sharing contributions to the 401(k) Plan that are in excess of the maximum deferral amount allowed under the terms of the 401(k) Plan. SERP participant accounts are credited with an investment return equivalent to that provided by the investment vehicles elected by the SERP participant with respect to his or her 401(k) Plan account, which may be allocated among 10 mutual funds.

The individual participant balances in the 401(k) Plan and SERP reflect a combination of: (1) the annual amount contributed by the Company or by the employee to the SERP and the amount of his or her cash compensation that the employee elects to defer; (2) the annual contributions and/or deferred amounts being invested at the direction the employee (the same investment choices are available to all participants); and (3) the continuing reinvestment of the investment returns until the accounts are paid out. This means that similarly situated employees, including executive officers, may have materially different account balances because of a combination of these factors.

See the "Non Qualified Deferred Compensation Table" below for more information on SERP balances and earnings.

The number of performance shares indicated in column (i) for each named executive officer is a projection of the unearned, unvested shares under the 2006 performance share award with respect to calendar years 2007, 2008 and 2009 assuming that the Company's performance for each of those years is at the maximum level using the financial metrics established for 2006 throughout that period as specified by instruction 3 to Regulation S-K, Item 402(f)(2); actual financial metrics for each of those years will be established annually by the Management Development & Compensation Committee, based upon the operating plan established for each such year and actual performance may result in awards that are significantly lower than those projected in columns (i) and (j) or in no award at all. Based on the Company's performance during 2006 at a level of 1.01 times target, the following number of shares were earned and vested with respect to 2006 by each of the named executive officers: Mr. Argov 37,875 shares; Mr. Villas 6,313 shares; Mr. Pandraud 10,100 shares; Mr. Loy 8,838 shares; and Mr. Walcott 6,313 shares.

Table of Contents**Nonqualified Deferred Compensation**

Pursuant to the Company's SERP, certain executives, including named executive officers, may defer eligible compensation in excess of the maximum deferral amount allowed under the terms of the Company's 401(k) Plan. Deferral elections are made by eligible executives in December of each year for amounts to be contributed in the following year. Compensation that may be deferred into the SERP include employee and matching employer contributions as well as employer discretionary profit sharing contributions to the 401(k) Plan that are in excess of the maximum deferral amount allowed under the terms of the 401(k) Plan. Payment of distributions to the participant under the SERP may be made only upon the retirement, death, disability or other termination of employment with the Company and shall be paid in a lump sum six months following the date of such termination. No SERP distributions may be made to a participant while still employed by Entegris. SERP participants are 100% vested with respect to participant and employer matching contributions; employer profit sharing contributions vest beginning after 2 years of service in 25% annual increments until the participant is 100% vested after 5 years of service. SERP participant accounts are credited with an investment return equivalent to that provided by the investment elections made by the SERP participant with respect to his or her 401(k) Plan account which may be allocated among 10 mutual funds.

Potential Payments Upon Termination as a Result of Change-In-Control

On May 4, 2005, Mykrolis entered into an employment agreement with Mr. Argov that provided that Mykrolis would employ Mr. Argov as chief executive officer for a term of three years, subject to automatic extension from year to year unless either party gives notice that the employment term shall not be extended. This agreement was assumed by Entegris pursuant to the Merger and was expressly approved by the Entegris Board on August 10, 2005. The employment contract continued Mr. Argov's salary of \$450,000 through 2005 and provided for a salary of \$600,000 commencing January 1, 2006. In addition, Mr. Argov is eligible to participate in Entegris's variable incentive compensation plan at a target pay out level of 75% of base salary, in other employee benefits offered by Entegris, including equity incentive plans, and in any supplemental retirement plan offered by Entegris. He is also entitled to receive a financial planning allowance. In the event of the termination of Mr. Argov's employment under certain circumstances, he will be entitled to severance benefits that vary depending on the circumstances of the termination, including the severance benefits to which he is entitled in the event of a termination following a change of control (as defined in the agreement) which are substantially identical to the change of control agreements described below. If Mr. Argov is terminated by Entegris or a successor other than for cause, if he terminates his own employment for good reason or if Entegris or its successor elects not to extend the agreement for any of the otherwise automatic one-year extension periods, he will receive, in addition to all forms of compensation that he has accrued prior to termination, (i) payment of base

Table of Contents

salary commencing with the first regular payday in the seventh month following the date of termination for two years following the date of termination (or through the day immediately preceding the third anniversary of the effective date of the agreement if termination occurs prior to the first anniversary of the effective date of the agreement); (ii) the greater of the target bonus or the highest bonus paid to Mr. Argov during the three years prior to termination; (iii) continuation of health, dental and group life insurance coverage through the date Mr. Argov continues to receive his base salary following termination or the date he becomes eligible for such coverage with a different employer; (iv) immediate vesting of all outstanding unvested equity awards; and (v) reimbursement of up to \$15,000 in outplacement services. Mr. Argov agreed to non-competition and non-solicitation covenants with Entegris for a period of two years following the termination of his employment.

There are currently effective agreements with Messrs. Pandraud, Loy, Walcott and Villas as well as three other executive officers and one other executive, to provide them with certain severance benefits in the event of a Change of Control of Entegris. In substance, a Change of Control shall be deemed to have occurred when any person becomes the beneficial owner, directly or indirectly, of 30% or more of the Company's then outstanding Common Stock, if those members who constituted a majority of the Board cease to be so, if an agreement for the merger or other acquisition of the Company is consummated (including the consummation of the Merger). If during the two-year period following a Change of Control the executive's employment is terminated or if the executive terminates employment for good cause (as defined in the agreement generally certain adverse changes to the terms or conditions of the executive's employment), then the executive will become immediately entitled to: (i) payment of all unpaid compensation, vacation and expenses earned or incurred prior to the date of termination; (ii) a lump sum severance payment equal to two times the sum of the executive's base salary plus the highest annual bonus during the three years prior to termination; (iii) medical, dental and life insurance benefits for executive and executive's family members for a period of two years following the date of termination; (iv) immediate vesting of all unvested stock options, the ability to exercise stock options for a period of up to one year following such termination (or, if earlier, until the expiration date of the options), and the immediate lapse of all restrictions on executive's restricted stock; and (v) up to \$15,000 of outplacement services. If such provisions had been triggered on the last business day of 2006, the cash amounts payable to Messrs. Argov, Villas, Pandraud, Loy, Walcott and would have been approximately \$2,110,000, \$877,212, \$1,235,952, \$1,095,368, and \$924,926, respectively, and equity awards (stock options, restricted stock and performance shares) would vest with the following aggregate values: Mr. Argov \$3,380,005; Mr. Villas \$1,460,192; Mr. Pandraud \$2,211,810; Mr. Loy \$1,688,684; and Mr. Walcott \$1,568,776.

The agreements also provide for an additional tax gross-up payment to the executive of an amount sufficient to satisfy, on an after-tax basis, any excise tax payable by such executive under Section 4999 of the Internal Revenue Code of 1986 as a result of any payments or benefits received by him (whether or not received pursuant to the amended and restated executive employment agreement).

The agreements include a confidentiality covenant and two year post-termination non-competition and non-solicitation covenants by each executive.

Entegris is required to disclose any failure to file these reports by the required due dates. REPORT OF THE AUDIT & FINANCE COMMITTEE

The Audit & Finance Committee is composed of three members and acts under a written charter adopted by the Board of Directors. The members of the Audit & Finance Committee are independent directors, as defined in the Audit & Finance Committee Charter and in Rule 4200(15) of the NASDAQ Stock Market, Inc. Marketplace Rules.

The Audit & Finance Committee reviewed the Company's audited financial statements for the fiscal year ended December 31, 2006 and discussed these financial statements with the Company's management. Management is responsible for the Company's internal controls and the financial reporting process. Management represented to the Audit & Finance Committee that the Company's financial statements had been prepared in accordance with accounting principles generally accepted in the United States. The Audit & Finance Committee selected KPMG LLP to serve as the Company's independent registered public accounting firm for 2006. The Company's independent registered public accounting firm is responsible for performing an audit of the Company's financial statements in accordance with auditing standards generally accepted in the United States and to issue a report on those financial statements. More specifically, the Audit & Finance Committee reviews, evaluates, and discusses with the Company's management and with the independent registered public accounting firm, the following matters:

the plan for, and the independent accountants' report on, each audit of the Company's financial statements;

the Company's financial disclosure documents, including all financial statements and reports filed with the Securities and Exchange Commission or sent to stockholders;

changes in the Company's accounting practices, principles, controls or methodologies; significant developments or changes in accounting rules applicable to the Company; and

the adequacy of the Company's internal controls and accounting, financial and auditing personnel and the areas of risk that could impact the Company's business.

Table of Contents

The Audit & Finance Committee also reviewed and discussed the audited financial statements and the matters required by Statement on Auditing Standards 61 (Communication with Audit Committees) with KPMG LLP, the Company's independent registered public accounting firm. Statement on Auditing Standards 61 requires the Company's independent registered public accounting firm to discuss with the Company's Audit & Finance Committee, among other things, the following:

methods to account for significant unusual transactions;

the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus;

the process used by management in formulating particularly sensitive accounting estimates and the basis for the auditors' conclusions regarding the reasonableness of those estimates; and

disagreements with management over the application of accounting principles, the basis for management's accounting estimates and the disclosures in the financial statements.

KPMG LLP also provided the Audit & Finance Committee with the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). Independence Standards Board Standard No. 1 requires auditors annually to disclose in writing all relationships that in the auditor's professional opinion may reasonably be thought to bear on independence, confirm their perceived independence and engage in a discussion of independence. The Audit & Finance Committee discussed with the independent registered public accounting firm the matters disclosed in this letter and their independence from Entegris. The Audit & Finance Committee also considered whether the provision of the other, non-audit related services to Entegris by the independent registered public accounting firm, which are referred to under the heading "Accountants" below, is compatible with maintaining such auditors' independence.

Based on its discussions with management and the independent registered public accounting firm, and its review of the representations and information provided by management and the independent registered public accounting firm, the Audit & Finance Committee recommended to the Company's Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

In performing all of these functions, the Audit & Finance Committee acts only in an oversight capacity. The members of the Audit & Finance Committee have necessarily relied on the information, opinions, reports and statements presented to them by Entegris management, which has the primary responsibility for financial statements and reports. The members of the Audit & Finance Committee have also relied on the work and assurances of the Company's independent registered public accounting firm, who in their report express an opinion on the Company's annual financial statements. Accordingly, while the Audit & Finance Committee recommended to the Company's Board that the audited financial statements be included in the Company's Annual Report on Form 10-K as described above, the foregoing oversight procedures do not assure that management has maintained adequate financial reporting processes and controls, that the financial statements are accurate, or that the audit would detect all inaccuracies or flaws in the Company's financial statements. The information set forth in this report of the Audit & Finance Committee is not soliciting material, deemed to be filed with the Securities and Exchange Commission and is not incorporated by reference into any filings of the Company under the Securities Exchange Act of 1934, as amended, irrespective of any general incorporation language contained in any such filing.

Effective August 10, 2005, the Company's Board adopted the charter of the Audit & Finance Committee which requires the pre-approval of all non-audit services before any such non-audit services are performed for the Company. The charter of the Audit & Finance Committee is posted on the Company's web site <http://www.Entegris.com> under Investors Corporate Governance . The Audit & Finance Committee adopted pre-approval policies and procedures with respect to audit and permissible non audit services (Services) effective August 10, 2005. Under this policy Services must receive either a general pre-approval or a specific pre-approval by the Audit & Finance Committee. The grant of a general pre-approval of Services is limited to identified Services that have been determined not to impair the independence of the independent registered public accounting firm and must include a maximum fee level for the Services approved. A request for specific pre-approval must include detailed information concerning the scope of the Services and the fees to be charged. The policy also provides for a special delegation of pre-approval authority to the Chairman of the Audit & Finance Committee where the commencement of Services is required prior to the next scheduled meeting of the Audit & Finance Committee and it is impractical to schedule a special meeting; any such pre-approval by the Chairman is subject to review by the full Committee.
