-

Item 1.01. Entry into a Material Definitive Agreement

On July 16, 2007, SunPower Corporation (SunPower) entered into a polysilicon supply agreement (the Agreement) with Hemlock Semiconductor Corporation (Hemlock). The Agreement provides the general terms and conditions pursuant to which SunPower will purchase, on a firm commitment basis, fixed annual quantities of polysilicon at specified prices from 2010 through 2019. SunPower expects to supply the polysilicon to third parties that will manufacture ingots and wafers using such polysilicon for SunPower. The aggregate quantity of polysilicon to be purchased over the term of the Agreement is expected to support more than two gigawatts of solar cell manufacturing production based on SunPower's expected silicon utilization during such period.

Under the Agreement, SunPower is required to make prepayments to Hemlock prior to 2010 in the aggregate amount of \$113 million in three equal installments. Such prepayments will be used to fund the expansion of Hemlock's polysilicon manufacturing capacity and will be credited against future deliveries of polysilicon to SunPower. The prepayments requirement, together with the balance of SunPower's firm commitment payment obligations under the Agreement, represent a material financial obligation of the company.

Item 7.01. Regulation FD Disclosure.

On July 18, 2007, SunPower issued a press release announcing its entry into this Agreement. A copy of the press release is attached to this report as Exhibit 99.1. In accordance with General Instruction B.2 of Form 8-K, the information set forth herein and in the press release is deemed to be furnished and shall not be deemed to be filed for purposes of the Securities Exchange Act of 1934, as amended (the Exchange Act). The information set forth in Item 7.01 of this report shall not be deemed an admission as to the materiality of any information in this report on Form 8-K that is required to be disclosed solely to satisfy the requirements of Regulation FD.

Item 9.01 Financial Statements and Exhibits.
