In the second quarter of 2007, AEGON N.V. changed the accounting principles it uses to value minimum interest rate guarantees related to insurance products offered by AEGON The Netherlands, including group pension contracts and traditional products. Starting with the second quarter of 2007, AEGON The Netherlands values the guarantees at fair value. Changes in the fair value are recognized in AEGON's income statements. Prior to the second quarter of 2007, these guarantees were valued applying a corridor approach for the group pension contracts. Changes in the provision, if outside the corridor, were reflected in the income statements. The guarantees embedded in traditional products were not valued explicitly, but were considered in the liability adequacy test. In accordance with International Accounting Standard No. 8, Accounting Policies, Changes in Accounting Estimates and Errors, AEGON has applied the change in accounting principle retrospectively and has adjusted all affected figures for each period presented to reflect the new accounting principle.

In addition AEGON N.V. also changed its reportable segments in 2007. Until January 1, 2007, AEGON's secondary segment information was based on product characteristics. Starting in 2007, AEGON reports its secondary segment information based on lines of business. The 2006 information included in this report has been adjusted to reflect the retrospective application of the change in accounting principles.
