THE ZWEIG TOTAL RETURN FUND, INC.

NOTES TO SCHEDULES OF INVESTMENTS AND SECURITIES SOLD SHORT

September 30, 2007
(Unaudited)

NOTE 1 -- SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Zweig Total Return Fund, Inc. (the "Fund") in the preparation of the Schedule of Investments. The preparation of the Schedules of Investments in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the Schedules of Investments. Actual results could differ from those estimates.

A. Security Valuation:

Equity securities are valued at the official closing price (typically last sale) on the exchange on which the securities are primarily traded, or if no closing price is available, at the last bid price.

Debt securities are valued on the basis of broker quotations or valuations provided by a pricing service, which utilizes information with respect to recent sales, market transactions in comparable securities, quotations from dealers, and various relationships between securities in determining value.

As required, some securities and other assets may be valued at fair value as determined in good faith by or under the direction of the Directors.

Certain foreign common stocks may be fair valued in cases where closing prices are not readily available or are deemed not reflective of readily available market prices. For example, significant events (such as movement in the U.S. securities market, or other regional and local developments) may occur between the time that foreign markets close (where the security is principally traded) and the time that the Fund calculates its net asset value (generally, the close of the NYSE) that may impact the value of securities traded in these foreign markets. In these cases, information from an external vendor may be utilized to adjust closing market prices of certain foreign common stocks to reflect their fair value. Because the frequency of significant events is not predictable, fair valuation of certain foreign common stocks may occur on a frequent basis.

Short-term investments having a remaining maturity of 60 days or less are valued at amortized cost, which approximates market.

In September 2006, Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("SFAS 157"), was issued and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value,

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form N-Q

establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management is currently evaluating the impact the adoption of SFAS 157 will have on the Funds' financial statement disclosures.

6

B. Foreign Security Country Determination:

A combination of the following criteria is used to assign the countries of risk listed in the Schedule of Investments and securities sold short: country of incorporation, actual building address, primary exchange on which the security is traded and country in which the greatest percentage of company revenue is generated.

7

Item 2. Controls and Procedures.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 3. Exhibits.

Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.
