  - d. Max Investment Advisory Co., Ltd. is liquidated and is excluded from the scope of the consolidation.

3. Year ends of subsidiaries

Our subsidiaries have coterminous March 31 year end with the Company, except for Mizuho Investment Consulting (Shanghai) Co., Ltd. and other four subsidiaries, who have December 31 year end. Except for one company, December 31 financial statements are used for these subsidiaries with non-conterminous year end, with necessary adjustments made for the effect of significant transactions or events, if any, that occurred between the reporting date of the subsidiaries and that of the Company.

4. Accounting policies

(1) Valuation of trading account securities and derivatives

The Company and its subsidiaries, through its trading activities, intend to contribute to the market for their liquidity and price discovery process.

The Company holds trading positions for the purpose of : 1) responding to counterparties' needs to invest or hedge risk, and 2) gaining profit or mitigating loss due to fluctuations of market prices and differences of prices in various markets.

Securities, derivative transactions, and assets or liabilities in trading account are recorded at fair value.

(2) Valuation of non-trading securities

Non-trading securities are valued as follows:

A. Other securities with market value

Recorded at market value. Difference between the cost, using the moving average method, and market value is recorded as net unrealized gains (or losses) on other securities, net of taxes in net assets on the balance sheet.

B. Other securities without market value

Recorded at cost using moving average method.

C. Investment in Investment Associations (Treated as securities by Article 2(2) of Securities and Exchange Law) Initially recorded at cost and subsequently adjusted to reflect the Company's share of the net profit or loss of the partnership based on the latest financial reports available.

(3) Depreciation method of significant assets

A. Tangible fixed assets

The Company and its domestic subsidiaries apply the declining-balance method except for buildings (excluding leasehold improvement) acquired after March 31, 1998, for which the straight-line method is used.

Overseas subsidiaries mainly apply the straight-line method.

B. Intangible fixed assets

The straight-line method is primarily applied.

The amortization period of software for internal use (5-10 years) is determined based on estimated internal useful lives.

(4) Deferred assets

Bond issuance cost and stock issuance cost are charged to income when incurred.

(5) Accounting policies for reserves

A. Allowance for doubtful accounts

The Company provides the allowance for possible losses on doubtful accounts. For performing assets, allowance is calculated based on the past loss experience. For non-performing assets, it is based on the management's assessment of recoverability of the assets, and amount expected to be non-recoverable is provided for.

B. Reserve for bonuses

Reserve is provided for bonus payments to employees and corporate officers at the amount accrued at the end of the period, based on the estimated future payments and service periods.

C. Reserve for retirement benefits

Reserve for retirement benefits is provided for future retirement benefits to employees and corporate officers based on actuarial retirement benefits and plan assets at end of year.

Prior service cost is charged to income in the period which the cost is recognized.

Net actuarial gains or losses are recognized as income or expenses from the following fiscal year under the straight-line method over a certain term within the average remaining service period of the current employees.

## Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

### D. Reserve for retirement benefits for directors, operating officers and corporate auditors

Reserve for retirement benefits for directors, operating officers and corporate auditors is provided for future retirement benefits for them at the amount accrued at the end of the period, based on prescribed calculation method.

### (6) Accounting for lease transactions

Financing leases other than those for which the ownership of the leased property transfers to the lessee are mainly accounted for as ordinary rental transactions.

### (7) Accounting for hedging transactions

Certain forward foreign exchange transactions are entered into to hedge currency risk of investments in overseas subsidiaries. Gains and losses from such transactions are deferred to the extent that such hedge is effective, and are shown under Foreign currency translation adjustments in Net assets.

Borrowings in foreign currency entered into to hedge exchange risk of foreign currency denominated operating investment securities are accounted for under fair value hedge accounting.

Interest rate swaps to hedge interest rate rise of borrowings are, when they qualify for exceptional treatment, accounted for under exceptional method as permitted under Japanese GAAP.

### (8) Other significant accounting policies

#### Consumption taxes

Transactions subject to consumption taxes are recorded at amounts exclusive of consumption taxes.

### 5. Valuation of assets and liabilities of subsidiaries acquired

All assets and liabilities consolidated subsidiaries are valued at fair value and included in the consolidated financial statements when acquired.

**Change in the basis of consolidated financial statements**

## 1. Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries

The Company applied from this period Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements (PITF No.18, Accounting Standards Board of Japan, May 17, 2006), which is applicable to the fiscal period commencing on or after April 1, 2008, but early adoption is allowed. The effect on the consolidated financial statements is immaterial.

## 2. Application of new depreciation method

The company and its subsidiaries in Japan changed its depreciation method for assets acquired on or after April 1, 2007 to comply with Tax Reform Act 2007 and The treatment of depreciation for audit purpose at the present stage (JICPA Audit and Assurance Practice Committee Report No.81, April 25, 2007). **Notes to nonconsolidated financial statements**

The Company's financial statements are prepared in accordance with the Regulations Concerning the Terminology, Forms and Preparation Methods of Financial Statements (Ministry of Finance (MoF) Ordinance No.59, 1963) (the Regulations), as well as with the Cabinet Office Ordinance Concerning Financial Instruments Business (Cabinet Office Ordinance No.52, 2007), Uniform Accounting Standards of Securities Companies (approved by the board of directors of Japan Securities Dealers Association, November 14, 1974), and the Cabinet Office Ordinance Concerning Financial Accounting and Reporting for Special Finance Company (Prime Minister's Office and MoF Ordinance No. 32, 1999), subject to the provisions of Article 2 of the Regulations.

**Basis of nonconsolidated financial statements**

1. Valuation of trading account securities and derivatives

The Company holds trading positions for the purpose of: 1) responding to counterparties' needs to invest or hedge risk, and 2) gaining profit or mitigating loss due to fluctuations of market prices and differences of prices in various markets.

Securities, derivative transactions, and assets or liabilities in trading account are recorded at fair value.

2. Valuation of non-trading securities

(1) Investments in subsidiaries and affiliates are stated at cost, using the moving average method.

(2) Other securities:

A) Other securities with market value

Recorded at market value. Difference between the cost, using the moving average method, and market value is recorded as net unrealized gains (or losses) on other securities, net of taxes in net assets on the balance sheet.

B) Other securities without market value

Recorded at cost using the moving average method.

C) Investment in Investment Associations (Treated as securities by Article 2(2) of Financial Instruments and Exchange Law)

Initially recorded at cost and subsequently adjusted to reflect the Company's share of the net profit or loss of the partnership based on the latest financial reports available.

3. Depreciation and amortization

(1) Tangible fixed assets

The Company applies the declining-balance method except for buildings (excluding leasehold improvement) acquired after March 31, 1998, for which the straight-line method is used.

(2) Intangible fixed assets

The straight-line method is applied. The amortization period of software for internal use (5-10 years) is determined based on estimated internal useful lives.

4. Deferred assets

Bond issuance cost and stock issuance cost are charged to income when incurred.

5. Accounting policies for reserves

(1) Allowance for doubtful accounts

The Company provides the allowance for possible losses on doubtful accounts. For performing assets, allowance is calculated based on the past loss experience. For non-performing assets, it is based on the management's assessment of recoverability of the assets, and amount expected to be non-recoverable is provided for.

(2) Reserve for bonuses

Reserve is provided for bonus payments to employees and operating officers at the amount accrued at the end of the period, based on the estimated future payments and service periods.

(3) Reserve for retirement benefits

Reserve for retirement benefits is provided for future retirement benefits to employees based on actuarial retirement benefits and plan assets at end of year.

Prior service cost is charged to income in the period which the cost is recognized.

Net actuarial gains or losses are recognized as income or expenses from the following fiscal year under the straight-line method over a certain term within the average remaining service period of the current employees.

(4) Reserve for retirement benefits for directors, operating officers and corporate auditors

Reserve for retirement benefits for directors, operating officers and corporate auditors is provided for future retirement benefits for them at the amount accrued at the end of the period, based on prescribed calculation method.

6. Accounting of lease transactions

Financing leases other than those for which the ownership of leased property transfers to the lessee are accounted for as ordinary rental transactions.

#### 7. Accounting for hedging transactions

Gains or losses resulting from forward foreign exchange transactions entered into in order to hedge the exchange risk of foreign currency denominated equity investments in subsidiaries are deferred when they qualify for hedge accounting.

Borrowings in foreign currency entered into to hedge exchange risk of foreign currency denominated operating investment securities are accounted for under fair value hedge accounting.

Interest rate swaps to hedge interest rate rise of borrowings are, when they qualify for exceptional treatment, accounted for under exceptional method as permitted under Japanese GAAP.

Loans in foreign currencies, with currency swap to hedge the foreign currency risk, are treated as if they were loans in JPY, provided certain conditions are met.

#### 8. Consumption taxes

Transactions subject to consumption taxes are recorded at amounts exclusive of consumption taxes.

#### **Change in the basis of nonconsolidated financial statement**

##### Application of new depreciation method

The company changed its depreciation method for assets acquired on or after April 1, 2007 to comply with Tax Reform Act 2007 and the treatment of depreciation for audit purpose at the present stage (JICPA Audit and Assurance Practice Committee Report No.81, April 25, 2007). The effect on the consolidated financial statements is negligible.
