to identify forward-looking statements. You can also identify forward-looking statements by discussions of strategy, plans or intentions. These statements reflect our current views with respect to future events and are subject to risks, uncertainties and assumptions.

We may not be successful in implementing our business strategies, and management may fail to achieve its targets, for a wide range of possible reasons, including, without limitation, incurrence of significant credit-related costs; declines in the value of our securities portfolio, including as a result of the impact of the dislocation in the global financial markets stemming from U.S. subprime loan issues; changes in interest rates; foreign currency fluctuations; revised assumptions or other changes related to our pension plans; failure to maintain required capital adequacy ratio levels; downgrades in our credit ratings; the effectiveness of our operational, legal and other risk management policies; our ability to avoid reputational harm; and effects of changes in general economic conditions in Japan.

Further information regarding factors that could affect our financial condition and results of operations is included in Item 3.D. Key Information-Risk Factors, and Item 5. Operating and Financial Review and Prospects in our most recent Form 20-F filed with the U.S. Securities and Exchange Commission (SEC), which is available in the Financial Information section of our web page at www.mizuho-fg.co.jp/english/ and also at the SEC 's web site at www.sec.gov.

We do not intend to update our forward-looking statements. We are under no obligation, and disclaim any obligation, to update or alter our forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by the rules of the Tokyo Stock Exchange.

Beginning with fiscal 2008, MHFG has adopted Accounting Standard for Quarterly Financial Reporting (ASBJ Statement No.12) and Guidance on Accounting Standard for Quarterly Reporting (ASBJ Guideline No.14). MHFG prepared quarterly consolidated financial statements in conformity with Regulation for Quarterly Consolidated Financial Statement.

QUALITATIVE INFORMATION AND FINANCIAL STATEMENTS

(Please refer to Summary Results for the First Quarter of Fiscal 2008 on page 2-1 for more information)

1. Qualitative Information related to the Consolidated Results of Operations

Looking back over the global economic climate, in addition to clear signs of a stagnating U.S. economy arising from the subprime loan problem which has spread throughout the global economy, business sentiment has worsened in Europe and an economic downturn in certain regions in Asia has also intensified. In addition, concerns persist over the liquidity risk of securitized instruments due to subprime loan problems, resulting in a protracted dislocation in the international financial and capital markets.

As for the Japanese economy, the soaring prices of crude oil and raw materials are causing corporate earnings to deteriorate significantly and the higher prices are stagnating personal consumption resulting in the increase of the risk of an economic downside.

We believe financial institutions must strengthen further their system of internal controls in response to global concerns over the economic slowdown and dislocation in the financial and capital markets, especially at a time when financial deregulation is being promoted, together with a broadening of the scope of services that may be offered. In this changing economic environment, it has become even more important for Mizuho Financial Group to secure a competitive edge over our rivals and further strengthen profitability while continuing to enhance corporate governance such as risk management.

Reflecting the above economic environment, Net Income for the First Quarter of Fiscal 2008 amounted to ¥132.9 billion.

2. Qualitative information related to the consolidated financial conditions

Consolidated total assets as of June 30, 2008 amounted to ¥154,752.7 billion, increasing by ¥340.6 billion from the end of the previous fiscal year. Net Assets amounted to ¥5,327.6 billion, decreasing by ¥366.5 billion from the end of the previous fiscal year. Shareholders' Equity amounted to ¥3,425.2 billion, Valuation and Translation Adjustments amounted to ¥501.1 billion, and Minority Interests amounted to ¥1,401.2 billion.

In Assets, the balance of Loans and Bills Discounted amounted to ¥67,263.2 billion, increasing by ¥1,654.4 billion from the end of the previous fiscal year while Securities were ¥33,521.1 billion, decreasing by ¥437.4 billion from the end of the previous fiscal year. In Liabilities, Deposits amounted to ¥77,013.4 billion, increasing by ¥838.0 billion from the end of the previous fiscal year.

3. Qualitative Information related to the Consolidated Earnings Estimates

Based on the financial results for the first quarter of fiscal 2008, MHFG hereby revises its consolidated earnings estimates of Ordinary Profits for fiscal 2008, which were announced on May 15, 2008, and estimates Ordinary Profits of ¥270.0 billion for the first half of fiscal 2008 (a decrease of ¥80.0 billion from the May 2008 estimate) and ¥690.0 billion for fiscal 2008 (a decrease of ¥80.0 billion from the May 2008 estimate). There is no revision of earnings estimates of Ordinary Income and Net Income.

The above estimates constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. Please see the forward-looking statements legend on page 1-2 for a description of the factors that could affect our ability to meet these estimates.

4. Others

(1) Changes in Significant Subsidiaries during the Period (changes in specified subsidiaries accompanying changes in scope of consolidation)
None

(2) Adopted Simplified Accounting Methods and Specified Accounting Methods for the Preparation of Quarterly Consolidated Financial Statements
(Simplified Accounting Method)

1. Depreciation

As for tangible fixed assets that are depreciated by the declining-balance method, the depreciation expense is computed by the proportional distribution of the depreciation expense for the fiscal year.

2. Reserves for Possible losses on Loans

For the claims mentioned below, reserves for possible losses on loans are maintained at the estimated rate of losses for fiscal 2007.

(a) The claims other than the claims extended to Bankrupt Obligors and Substantially Bankrupt Obligors.

(b) The claims other than the claims extended to Intensive Control Obligor for which reserves are provided for the losses estimated for each individual loan.

(Specified Accounting Methods for the Preparation of Quarterly Consolidated Financial Statements)

None

(3) Changes of Accounting Methods and Presentation of Quarterly Consolidated Financial Statements

Adoption of Accounting Standard for Quarterly Consolidated Financial Statements

Beginning with fiscal 2008, MHFG has adopted Accounting Standard for Quarterly Financial Reporting (ASBJ Statement No.12) and Guidance on Accounting Standard for Quarterly Reporting (ASBJ Guideline No.14). MHFG prepared quarterly consolidated financial statements in conformity with Regulation for Quarterly Consolidated Financial Statement.

Accounting Standard for Lease Transactions

As Accounting Standard for Lease Transactions (ASBJ Statement No.13, March 30, 2007) and Guidance on Accounting Standard for Lease Transactions, (ASBJ Guidance No.16) can be applied from the quarter beginning April 1, 2008, MHFG has applied the new accounting standard and guidance beginning with the first quarter of fiscal 2008.

Although MHFG accounted for finance leases that do not involve transfer of ownership to lessee as operating leases, by this application, MHFG accounted for them as normal trade transactions, including the transactions that started before the end of fiscal 2007.

Depreciation of lease assets is computed by the declining-balance method and the lease contract period is mainly set as the term of useful life.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

The amount of accumulated impact until the end of fiscal 2007 on Income before Income Taxes and Minority Interests is recorded in Extraordinary Losses.

This change increases Tangible Fixed Assets by ¥10,460 million, Intangible Fixed Assets by ¥1,036 million, Other Liabilities by ¥21,752 million, Extraordinary Losses by ¥10,954 million, and decreases Income before Income Taxes and Minority Interests by ¥10,254 million.

This immediate release contains statements that constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995, including estimates, forecasts, targets and plans. Such forward-looking statements do not represent any guarantee by management of future performance.

In many cases, but not all, we use such words as aim, anticipate, believe, endeavor, estimate, expect, intend, may, plan, probability, project, risk, seek, should, strive, target and similar expressions in relation to us or our management to identify forward-looking statements. You can also identify forward-looking statements by discussions of strategy, plans or intentions. These statements reflect our current views with respect to future events and are subject to risks, uncertainties and assumptions.

We may not be successful in implementing our business strategies, and management may fail to achieve its targets, for a wide range of possible reasons, including, without limitation, incurrence of significant credit-related costs; declines in the value of our securities portfolio, including as a result of the impact of the dislocation in the global financial markets stemming from U.S. subprime loan issues; changes in interest rates; foreign currency fluctuations; revised assumptions or other changes related to our pension plans; failure to maintain required capital adequacy ratio levels; downgrades in our credit ratings; the effectiveness of our operational, legal and other risk management policies; our ability to avoid reputational harm; and effects of changes in general economic conditions in Japan.

*Further information regarding factors that could affect our financial condition and results of operations is included in Item 3.D. Key Information-Risk Factors, and Item 5. Operating and Financial Review and Prospects in our most recent Form 20-F filed with the U.S. Securities and Exchange Commission (**SEC**), which is available in the Financial Information section of our web page at*

We do not intend to update our forward-looking statements. We are under no obligation, and disclaim any obligation, to update or alter our forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by the rules of the Tokyo Stock Exchange.

Table of Contents**Summary Results for the First Quarter of Fiscal 2008****I. Summary of Income Analysis**

- **Consolidated Net Business Profits (Apr.1-Jun.30, 2008)**

Consolidated Gross Profits for the three months ended June 30, 2008 decreased on a year-on-year basis to JPY 423.8 billion. The decrease was mainly because, in Customer Groups of the banking subsidiaries, income from business with domestic corporate customers decreased against the backdrop of intensified competition among banks and other factors while income from business with individual customers and overseas customers increased and, at the securities subsidiaries, commission income and trading profits decreased due to stagnant stock market conditions and other factors.

In addition to the above, there was an increase in G&A expenses, particularly those associated with employee retirement benefits. As a result, Consolidated Net Business Profits amounted to JPY 127.0 billion, a decrease of JPY 39.1 billion on a year-on year basis.

- **Consolidated Net Income (Apr.1-Jun.30, 2008)**

Despite the above factors and the impact of the continued global financial market dislocation stemming from the US subprime loan issues, Consolidated Net Income for the three months ended June 30, 2008 amounted to JPY 132.9 billion, an increase of JPY 16.5 billion on a year-on-year basis, mainly due to a decrease in Credit-related Costs, a part of which was realized through Extraordinary Gains, and recording of deferred tax benefits.

The total impact of the global market dislocation on our consolidated P&L in the first quarter of fiscal 2008 was a loss of approximately JPY 27.0 billion.

[Breakdown of the P&L impact of JPY 27.0 billion (including overseas subsidiaries)]

II. Enhancement of Profitability

• **Net Interest Income**

The average loan balance for the first quarter of fiscal 2008 increased mainly driven by an expansion of overseas lending.

In addition, the domestic loan-and-deposit rate margin for the same period slightly decreased by 0.01% from that in the fourth quarter of fiscal 2007 but improved by 0.01% year-on-year.

As a result, Consolidated Net Interest Income for the first quarter increased by JPY 2.9 billion from the corresponding period of the previous fiscal year.

*1: Aggregate average balance of the 3 Banks for the period, excluding Trust Account and loans to Mizuho Financial Group, Inc.

*2: Aggregate figures of domestic operations of Mizuho Bank and Mizuho Corporate Bank after excluding loans to Mizuho Financial Group, Inc., Deposit Insurance Corporation of Japan and the Japanese Government

• **Non-Interest Income**

Net Fee and Commission Income of the 3 Banks for the first quarter of fiscal 2008 decreased to JPY 61.8 billion by JPY 14.3 billion year-on-year.

As for our business with individual customers, fee income associated with the sales of investment trusts and individual annuities for the three-month period decreased on a year-on-year basis, due to stagnant stock market conditions and other factors.

As for our business with corporate customers, fee and commission income from solution-related business, foreign exchange business and others decreased. Profits from trust and asset management business of Mizuho Trust & Banking also decreased. Those were against the backdrop of intensified competition among banks and other factors.

IV. Disciplined Capital Management

- Issuance of Non-Dilutive Preferred Securities**

In July 2008, we issued JPY 303.0 billion of preferred debt securities through an overseas special purpose subsidiary so as to increase the group's Tier 1 capital to secure the agility and to improve the flexibility of our capital strategy.

Meanwhile, we redeemed in full preferred debt securities (JPY 118.5 billion and USD 2.6 billion) which became redeemable at the issuer's option in June 2008.

- Repurchase and Cancellation of Own Shares (Common Shares)**

[For the Purpose of Offsetting Potential Dilutive Effect of Convertible Preferred Stock]

In July 2008, we repurchased our own shares (common shares) of JPY 150.0 billion (283,500 shares). As with the repurchases of our common shares which we have conducted since last year (the cumulative amount of repurchases: JPY 299.9 billion), they were made for the purpose of, among other things, offsetting the potential dilutive effect of the conversion of the Eleventh Series Class XI Preferred Stock (JPY 943.7 billion in aggregate issue amount, Initial Conversion Price of JPY 536,700) in consideration of the possibility that the number of shares of our common stock would increase after the commencement of the conversion period (from July 1, 2008).

We plan to cancel all the common shares repurchased, except the shares to be assigned for the exercise of Stock Compensation-type Stock Options (Stock Acquisition Rights) that we plan to issue in the future.

We will continue to address the potential dilutive effects described above, aiming to complete the process in about two years, by establishing additional repurchase limits and repurchasing and canceling our own shares based on market conditions, our earnings trends and other factors (Expected total amount of repurchases for this fiscal year is approximately JPY 400 billion, including JPY 150 billion that was already repurchased in July 2008).

*1 Except for the securitization products which were the reference assets of our securitization schemes for transferring credit risks to third parties (hedged portion), a Reserve for Possible Losses on Investments has been provided since the end of fiscal 2007 against unrealized losses on securitization products related to the discontinuation of business regarding credit investments primarily in Europe, which had been made as an alternative to loans.

The balance of reserve was approximately JPY 52 billion as of Jun. 30, 2008 (the difference from the March-end balance of approximately JPY 46 billion was included in the above Realized Gains/Losses for the first quarter of fiscal 2008).

Since securities were recognized at fair value on the consolidated balance sheet, the relevant balances as of Mar. 31, 2008 and Jun. 30, 2008 were those after being offset by the amount of Reserve for Possible Losses on Investments.

*2 The proportions of balances (fair value) of the securitization products, as of Jun. 30, 2008, which were the reference assets of our securitization schemes (with CDS and other means) for transferring credit risks to third parties until maturity.

In some of the securitization schemes, a portion of credit risk of the reference assets remained with Mizuho Financial Group through our retaining a small first loss position and a portion of senior tranches.

*3 The increase in balance from Mar. 31, 2008 (approximately JPY 5 billion) included approximately JPY 55 billion increase in balance due to foreign exchange translation impact caused by JPY depreciation.

*4 The proportion of US subprime mortgage loan-related assets to the total underlying assets of this CDO was up to approximately 40%. The entire balance (fair value) consisted of Super Senior tranche.

*5 The entire balance consisted of securitization products backed by original assets (non-securitized assets).

(Reference) Credit Default Swaps related to securitization products (as of Jun. 30, 2008)

The notional amount of credit default swaps (CDS*¹) referring to securitization products at Mizuho Securities was approximately JPY 381 billion (JPY 366 billion as of Mar. 31, 2008*²), and the fair value of the relevant reference assets (securitization products) was approximately JPY 321 billion (JPY 302 billion as of Mar. 31, 2008*²). NPV, or the estimated amount claimable for the settlement of the CDS, was approximately JPY 39 billion, which was the difference between the notional amount and the fair value (excluding JPY 21 billion that has already been received in cash from a CDS protection seller). (The above included CDS contracts with a US monoline (external ratings as of Jun. 30, 2008: AAA*³), of which the notional amount was approximately JPY 88 billion and the fair value of the relevant reference assets was approximately JPY 81 billion.)

*1 Excluded CDS shown in line 4 and 7 of the above table

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

- *2 These fiscal end figures were shown as corrected from those originally disclosed concerning the results for the fiscal year ended on Mar. 31, 2008 due to miscalculations in the managerial data.
- *3 One of the rating agencies is currently reviewing the rating it had granted for possible downgrade as of Jul. 28, 2008.

The vast majority of the above CDS contracts were with counterparties with external ratings of AA range or higher (as of Jun. 30, 2008), and the relevant reference assets were securitization products backed mainly by claims against corporations.

(The figures below are rounded to JPY 1 Bn)

2. Other relevant information (June 30, 2008)

Banking Subsidiaries

- **Loans held for sale (for which Reserve for Possible Losses on Sales of Loans was recorded)**

Approximately JPY 46 billion of Reserve for Possible Losses on Sales of Loans was recorded against approximately JPY 765 billion of loans held for sale associated with overseas LBO and other transactions (Reserve ratio: 5.9%)

(Note) The figures shown above exclude those related to Intensive Control Obligors or below. The reserve ratio would be 8.8%, if including the balances of loans held for sale to such obligors and the amounts of both Reserve for Possible Losses on Loans and Reserve for Contingencies in relation to the relevant balances.

Out of the aforementioned JPY 765 billion, the LBO/MBO related loans held for sale amounted to approximately JPY 645 billion, and the relevant reserve ratio was 6.2%.

(Note) The figures shown above exclude those related to Intensive Control Obligors or below. The reserve ratio would be 9.6%, if including the balances of loans held for sale to such obligors and the amounts of both Reserve for Possible Losses on Loans and Reserve for Contingencies in relation to the relevant balances.

- **Overseas ABCP program related**

The total assets of approximately JPY 225 billion acquired by overseas ABCP conduits, for which Mizuho Corporate Bank acted as a sponsor, included approximately JPY 115 billion of securitization products that were backed by credit card receivables, auto lease receivables, and others (of which approximately JPY 26 billion was guaranteed by US monolines as described below). No US subprime mortgage loan-related assets were included.

- **Securitization products and loans guaranteed by US financial guarantors (monolines)**

Securitization products guaranteed by US monolines

Approximately JPY 26 billion of securitization products backed by auto lease receivables, credit card receivables, and others, included in the acquired assets of the above-mentioned overseas ABCP conduits sponsored by Mizuho Corporate Bank.

Loans guaranteed by US monolines

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

Approximately JPY 19 billion of Mizuho Corporate Bank's loan commitments to overseas infrastructure projects (of which approximately JPY 10 billion was drawn down). No US subprime mortgage loan-related exposures were included. Although some of the monolines which provided the above guarantees were rated non-investment grade (based on external ratings), there were no particular concerns about the credit conditions of the aforementioned underlying assets or the projects as of Jun. 30, 2008.

(Note) For the purpose of reference to the Mizuho Financial Group's exposures related to US monolines, page 2-6 describes our securities subsidiaries' exposures to such counterparties of credit default swaps (CDS) referring to securitization products, in addition to the aforementioned transactions of the banking subsidiaries.

- **Investments and loans associated with SIVs**

All exposures had already been written-off in FY2007.

(The figures below are rounded to JPY 1 Bn)

Banking and Securities Subsidiaries

- **US government-owned corporation (Ginnie Mae) bonds and GSE (government-sponsored enterprises: Fannie Mae, Freddie Mac) bonds**

Banking Subsidiaries (Banking Account)

The total balance of the above bonds held was approximately JPY 976 billion, with approximately JPY 20 billion of unrealized losses. Out of the total balance, approximately JPY 972 billion was RMBS guaranteed by the Government National Mortgage Association (Ginnie Mae), a corporation wholly-owned by the US government. (Balance held as of Mar. 31, 2008: approximately JPY 1.2 trillion)

Securities Subsidiaries (Trading Account)

The total balance of RMBS, which were issued or guaranteed by the US government-owned corporation or GSE, was minimal (a few hundred million JPY).

Approximately JPY 171 billion of the corporate bonds issued by Fannie Mae and Freddie Mac was held for the purpose of, among other things, market-making activities in the US, and all the bonds were subject to mark-to-market accounting so that there were no unrealized losses (the recorded losses in the first quarter of fiscal 2008 were minimal.).

There was no holding of stocks of these entities.
