**Trina Solar Announces Selected Estimated Third Quarter Results**

CHANGZHOU, China, Oct. 15, 2008 Trina Solar Limited ( Trina Solar or the Company ), a leading integrated manufacturer of photovoltaic products from the production of ingots, wafers and cells to the assembly of PV modules, founded in 1997, today announced its selected estimated unaudited financial results for the third quarter of 2008.

For the third quarter of 2008, the Company expects its net revenues to be in the range of approximately \$285 million to \$294 million, exceeding its previously forecasted range of \$250 million to \$265 million. The new range, which includes non-module income, represents an approximately 40% to 44% increase from its net revenues in the second quarter of 2008. During the quarter, the Company shipped approximately 66 MW of PV modules, compared to its previously forecasted range of 62 MW to 66 MW. As guided previously, the Company's gross margin for the third quarter is expected to be in the range of approximately 23.0% to 25.0%, and its operating margin is expected to be in the range of approximately 15.0% to 17.0%.

We are very pleased with our continued strong growth in the third quarter, reflecting our increasingly recognized brand and strong sales distribution capabilities in existing and new markets, said Mr. Jifan Gao, Trina Solar's Chairman and CEO. We expect to strengthen our operating cash flows over the third and fourth quarters of 2008, which combined with the proceeds from our senior convertible notes offering, will greatly enhance our cash position for future operations.

As these selected estimated results are subject to the Company's normal, quarter-end closing procedures, the Company's actual results may differ from its current estimates.

Based on customer commitments in signed contracts and the Company's current operating and market conditions, the Company believes it is on track to meet or exceed its full year 2008 targeted total net revenues of between \$850 million and \$900 million.

**About Trina Solar Limited**

Trina Solar Limited (NYSE: TSL) is a well recognized manufacturer of high quality modules and has a long history as a solar PV pioneer since it was founded in 1997 as a system installation company. Trina Solar is one of the few PV manufacturers that has developed a vertically integrated business model from the production of monocrystalline and multicrystalline ingots, wafers and cells to the assembly of high quality modules. Trina Solar's products provide reliable and environmentally-friendly electric power for a growing variety of end-user applications worldwide.
