Section 2 Financial Information

Item 2.02. Results of Operations and Financial Condition

On February 27, 2009, Lydall, Inc. (the Company) issued a press release setting forth the Company's financial results for the fourth quarter and year ended December 31, 2008. A copy of the Company's press release is attached hereto as Exhibit 99.1 and is hereby incorporated by reference.

Item 2.06. Material Impairments

On February 23, 2009 the Audit Committee of the Board of Directors of the Company concurred with the conclusion of management that certain carrying values of the Company's goodwill and long-lived assets were impaired. The Company announced in the press release setting forth the Company's financial results for the fourth quarter and year ended December 31, 2008, the recording of non-cash impairment charges of \$17.4 million for the fourth quarter of 2008. A copy of the Company's press release is attached hereto as Exhibit 99.1 and is hereby incorporated by reference.

Based on the current economic environment impacting industry conditions, including deterioration in the credit and financial markets, the Company's actual results and forecasted operating performance and the Company's market capitalization, which fell significantly below the recorded value of its consolidated net assets, the Company determined that goodwill impairment existed for the Company's North American automotive (NA Auto) and Affinity temperature control equipment (Affinity) reporting units. In addition, the Company concluded that certain long-lived assets at the Company's Affinity business were also impaired.

The results of the Company's goodwill impairment analysis indicated that there was no remaining implied fair value attributable to the Company's NA Auto or Affinity goodwill. Accordingly, the Company wrote off all of the \$12.2 million of NA Auto goodwill and all of the \$4.2 million of Affinity goodwill in the fourth quarter of 2008 financial results. The Company also determined that the long-lived assets of the Affinity business were impaired by \$1.0 million, which was also recorded in the financial results for the fourth quarter of 2008.

These impairment charges do not result in any current or future cash expenditures and do not adversely impact Lydall's normal business operations or liquidity.
