Payment of Filing Fee (check the appropriate box):

x No fee required.

.. Fee computed on table below per Exchange Act Rule 14a-6(i)(4) and 0-11.

1) Title of each class of securities to which transaction applies:

2) Aggregate number of securities to which transaction applies:

Edgar Filing: BIOGEN IDEC INC. - Form DFAN14A

-
- 3) Per unit price or other underlying value of transaction computed pursuant to Exchange Act Rule 0-11 (set forth the amount on which the filing fee is calculated and state how it was determined):

-
- 4) Proposed maximum aggregate value of transaction:

-
- 5) Total fee paid:
-

.. Fee paid previously with preliminary materials.

.. Check box if any part of the fee is offset as provided by Exchange Act Rule 0-11(a)(2) and identify the filing for which the offsetting fee was paid previously. Identify the previous filing by registration statement number, or the Form or Schedule and the date of its filing.

- 1) Amount Previously Paid:

-
- 2) Form, Schedule or Registration Statement No.:

-
- 3) Filing Party:

-
- 4) Date Filed:

On May 19, 2009, the Participants (as defined below), distributed a presentation to stockholders of Biogen Idec Inc. The presentation is attached hereto as Exhibit I and is incorporated herein by reference. In addition, on May 19, 2009, the Participants distributed a memorandum to stockholders of Biogen Idec Inc. The memorandum is attached hereto as Exhibit II and is incorporated herein by reference.

ON MAY 15, 2009, THE PARTICIPANTS FILED A DEFINITIVE PROXY STATEMENT WITH THE SECURITIES AND EXCHANGE COMMISSION. SECURITY HOLDERS ARE ADVISED TO READ THE PROXY STATEMENT AND OTHER DOCUMENTS RELATED TO THE SOLICITATION OF PROXIES BY CARL C. ICAHN, ALEXANDER J. DENNER, RICHARD C. MULLIGAN, THOMAS F. DEUEL, DAVID SIDRANSKY, MAYU SRIS, ERIC ENDE, JEFFREY MECKLER, ICAHN PARTNERS LP, ICAHN PARTNERS MASTER FUND LP, ICAHN PARTNERS MASTER FUND II LP, ICAHN PARTNERS MASTER FUND III LP, HIGH RIVER LIMITED PARTNERSHIP, BARBERRY CORP. , HOPPER INVESTMENTS LLC, ICAHN OFFSHORE LP, ICAHN ONSHORE LP, ICAHN CAPITAL LP, IPH GP LLC, ICAHN ENTERPRISES HOLDINGS L.P. , ICAHN ENTERPRISES G.P. INC., BECKTON CORP. (COLLECTIVELY, THE PARTICIPANTS) AND CERTAIN OF THEIR RESPECTIVE AFFILIATES FROM THE STOCKHOLDERS OF BIOGEN IDEC INC. FOR USE AT ITS ANNUAL MEETING, BECAUSE THEY CONTAIN IMPORTANT INFORMATION, INCLUDING INFORMATION RELATING TO THE PARTICIPANTS IN THE PROXY SOLICITATION. THE DEFINITIVE PROXY STATEMENT AND A FORM OF PROXY ARE AVAILABLE TO STOCKHOLDERS OF BIOGEN IDEC INC. FROM THE PARTICIPANTS AT NO CHARGE AND ARE ALSO AVAILABLE AT NO CHARGE AT THE SECURITIES AND EXCHANGE COMMISSION S WEBSITE AT [HTTP://WWW.SEC.GOV](http://www.sec.gov) OR BY CONTACTING D.F. KING & CO., INC. BY TELEPHONE TOLL FREE AT 1 (800) 769-4414.

Biogen Idec
Investor Presentation
May 2009
EXHIBIT I

2

Special note regarding presentation

This presentation includes information based on data found in filings with the SEC, independent industry publications and other sources. Although we believe that the data is reliable, we do not guarantee the accuracy or completeness of this information and have not independently verified any such information. We have not sought, nor have we received, permission from any third-party to include their information in this presentation.

Many of the statements in this presentation reflect our subjective belief. Although we have reviewed and analyzed the information that has informed our opinions, we do not guarantee the accuracy of any such beliefs.

Sections of this presentation refer to the experience of our nominees for director at Biogen Idec Inc. during their tenure as directors of ImClone Systems Inc. We believe their experience at ImClone was a success and resulted in an increase in shareholder value that benefited all shareholders. However, their

success

at

ImClone

is

not

necessarily

indicative

of

future

results

at

Biogen

Idec

if

our

nominees

were to be elected to the Biogen Idec Board of Directors.

All stockholders of Biogen Idec are advised to read the definitive proxy statement, the gold proxy card and other documents related to the solicitation of proxies by the Participants from the stockholders of the Company for use at the 2009 annual meeting of stockholders of the Company because they contain important information. The definitive proxy statement and form of proxy along with other relevant documents, are available at no charge on the SEC's website at <http://www.sec.gov> or by contacting D.F. King & Co., Inc. by telephone toll free at 1-800-769-4414 or by visiting their website at <http://www.dfking.com/BIIB>. In addition, the Participants will provide copies of the definitive proxy statement without charge upon request.

Agenda

Situation Overview

-

Strategic failures

-

Operational failures

-

Business development failures

-

Research & development failures

Our Qualifications & Proposals

-

Biographies of our nominees

-

ImClone Systems case study

-

Proposals for Biogen Idec

4

We strongly believe Biogen Idec needs better management

Biogen Idec has a collection of **valuable assets**

-
- AVONEX for relapsing multiple sclerosis and TYSABRI for MS and Crohn's disease, \$2.8B of 2008 sales
-
- RITUXAN for B-cell non-Hodgkin's lymphoma and rheumatoid arthritis, \$1.1B of 2008 sales
-
- Promising pipeline (BG-12, Lixivaptan, ADENTRI, etc.) and biologics manufacturing facilities

Board
and
management
have
failed
to
achieve
the
full
potential
of
Biogen
Idec

-
Biogen
IDEC merger has not created much value

-
Management has failed shareholders strategically and operationally

-
Weak business development and research & development efforts inhibit company's prospects

Quality of board and management **especially crucial today**

-
R&D organization needs to be reinvigorated; Strategic review of pipeline needs to be conducted

-
Cost structure needs to be examined and partner relations need to be revitalized

-
Product sales growth likely to slow

-
Board needs to evaluate possibility of separating assets in order to enhance value

-
Management not aligned with shareholder interests

Electing our directors could **maximize shareholder value**

-

Our
slate
will
press
hard
for
management
accountability
and
will
provide
experienced
oversight

-

Our nominees
experience with ImClone Systems useful to Biogen Idec

-

Specifically,
we
recharged
partner
relations,
optimized
the
cost
structure
and
rebuilt
the
pipeline

Better management of Biogen Idec assets will
enhance value for all shareholders

5

31

Are board and management aligned with you?

In our opinion, management ran a flawed auction process last year

-

Board severely limited due diligence opportunities

-

Refused to allow bidders access to Elan until bidders submitted a firm and binding offer

-

At least one bidder was denied its request to speak with Elan which may have caused that bidder to walk away from the process

-

Board minutes that Biogen provided to us under court order last year show what we consider to be a poorly designed process that lacked active Board oversight

Same management and Board that ran the 2007 sales process continue to run the company today. How would they treat a bidder in 2009? Is shareholder value a priority for this Board?

Our nominees helped deliver results at ImClone

Name

Alex Denner

Thomas Deuel

Richard Mulligan

David Sidransky

Education

M.S., M.Phil., Ph.D. from Yale University

S.B. from Massachusetts Institute of Technology

M.D. from Columbia University

A.B. from Princeton University

Ph.D. from Department of Biochemistry at Stanford
University School of Medicine

B.S. from Massachusetts Institute of Technology

M.D. from Baylor College of Medicine

B.A. from Brandeis University

Relevant experience

Managing Director, Icahn Partners

Director, Adventrx Pharmaceuticals

Former Portfolio Manager, Viking Global Investors

Former Portfolio Manager, Morgan Stanley

Former Director and Chairman of Executive Committee,
ImClone Systems

Professor of Molecular and Experimental Medicine and Cell
Biology, Scripps Research Institute

Professor Emeritus, Harvard Medical School

Former Director, Division of Growth Regulation at Beth

Israel Hospital

Former Professor of Medicine and Biochemistry and Head of Oncology Services, Washington University School of Medicine

Former Director, ImClone Systems

Mallinckrodt Professor of Genetics, Harvard Medical School

Director of Harvard Gene Therapy Initiative

Former Professor of Molecular Biology, Massachusetts Institute of Technology

Founder, Somatix Therapy Corporation

Member of Scientific Advisory Board, Cell Genesys

Former Director and Member of Executive Committee, ImClone Systems

Director of Head and Neck Cancer Research Division, Johns Hopkins University School of Medicine

Chairman, Champions Biotechnology

Former Member of Scientific Advisory Board for MedImmune, Telik, Roche and Amgen

Former Director, ImClone Systems

37

New executive committee enhanced value at ImClone

New executive committee, including Alex Denner and Richard Mulligan, formed in October 2006

Embarked on a comprehensive review of the company's operations which led to the following courses of action:

-

Recharged partner relations

-

Optimized cost structure

-

Rebuilt product pipeline

-

Changed culture

-

Settled litigation

38

Recharged ImClone
partner relations and optimized
cost structure

Note: CRO s = Contract Research Organizations

Recharged partner relations

-

Partnership with Bristol-Myers Squibb had deteriorated due to prior management neglect

-

Initiated dialogue and led negotiations, ultimately leading to new agreement with Bristol-Myers Squibb that expanded Erbitux s development with no change to ImClone economics

-

From 2005 to 2007, ERBITUX sales grew by 41% annually and ImClone royalty revenue grew by 37% annually

Optimized cost structure

-

ImClone cost structure had not been appropriate for company needs

-

Executive
committee
reallocated
costs,
shifting
SG&A
spending
by
expanding
sales
force
for tactical reasons while reducing overhead costs

-

Margin expansion and capex reduction led to substantial free cash flow growth

-

Increased spending on R&D and salesforce was funded through savings on corporate costs
(re-negotiating
with
CROs,
transportation
costs,
smarter
purchasing,
etc.)

39

Rebuilt pipeline, changed culture and settled litigation

Rebuilt product pipeline

-

Industry had poor perception of ImClone pipeline and research and development efforts

-

Executive committee conducted top-down review of pipeline

Significantly increased investments in particularly promising candidates such as 1121B, A12, 11F8 and others

Cancelled programs where the return on investment was poor

-

Pipeline cited as major strategic rationale for whole company acquisition

Changed culture

-

ImClone morale poor due to lack of strategic direction from prior management

-

Took steps to institute a new culture

Emphasis on cash flow

Investment in R&D

Gave responsibility to scientists and clinicians

Settled litigation

-

Settled litigation including Yeda, Abbott and Repligen

40

From 2005 to 2007, ImClone royalty revenue grew by
37% annually

44

We believe ImClone and Biogen Idec situations
analogous

Partner relations

Cost structure

Product pipeline

Strategic direction

Litigation

ImClone Systems

Relationships with Bristol Myers Squibb were
strained

Renegotiated agreement with BMS, leading to
increased support and sales

Cost structure was not appropriate for
company needs

Reallocated costs, led to margin expansion
and free cash flow growth

Pipeline poorly regarded by industry

Conducted review and increased investments
in certain candidates

Pipeline key rationale for acquisition

Strategic direction lacking and morale poor as
a result

Installed new leadership and established clear
strategic priorities

Settled litigation including Yeda, Abbott, and
Repligen
Biogen Idec

Relationships with Genentech, Roche and
Elan could be improved

Excluding Rituxan, operating margins below
peers

Pipeline has not advanced significantly over
last five years

Poor product lifecycle management

Strategic direction unclear as focus diffused
over too many therapeutic areas

Adverse Genentech arbitration settlement is
valuation overhang

Electing our directors with directly relevant
experience could help Biogen Idec

45

We have several proposals

Board should study potential splitting of Biogen Idec into
neurology-focused and cancer-focused companies

Examine cost structure

Prioritize, improve focus, and re-invigorate R&D efforts

Improve partner relationships

46

Board should evaluate whether separating assets will enhance value

NF Co. had \$2,926M of 2008 sales

NF Co. assets include the following:

-

Key products include AVONEX and TYSABRI

-

Related pipeline such as BG-12, Lixivaptan, ADENTRI and other neurology and cardiovascular product candidates

-

Biologics manufacturing plants in North Carolina, Massachusetts and Denmark

-

Majority of existing research &

development infrastructure and sales force

-

Collaboration with Elan on TYSABRI

NF Co. will benefit from improved focus
on core neurology competency
Neurology-Focused Company

CF Co. had \$1,172M of 2008 sales

CF Co. assets include the following:

-

Key products include RITUXAN and
FUMADERM

-

Related pipeline such as galiximab,
lumiliximab, ocrelizumab and other
oncology and autoimmune product
candidates

-

Collaboration with Genentech in the US,
Zenyaku and Chugai in Japan and Roche
in the rest of the world

CF Co. will benefit from improved focus
on core oncology competency
Cancer-Focused Company

Separating Biogen assets could enhance shareholder value
as management focus should improve

47

Separated assets have different growth profiles

Overhead spending can be reduced

Note: Peer group includes Genentech, Amgen, Gilead Sciences and Celgene

Source: Company documents

In 2008, Biogen Idec spent 23% of sales on selling, general and administrative expenses

-

Median biotech company = 21%

-

Best in class company = 15%

Reducing overhead spending will improve cash flows

-

Applying median SG&A % of sales generates \$46M of cost savings

-

Applying best in class SG&A % of sales generates \$309M of cost savings

50

We would push hard to reinvigorate R&D and improve productivity

- Identify most promising products

- Focus investment in key therapeutic areas

- Rationalize pipeline products not part of overall strategy

51

Electing our directors could help maximize
shareholder value

Board and management have failed to achieve the full potential
of Biogen Idec

Quality of board and management especially crucial today

Electing our directors could help maximize shareholder value

Better management of Biogen Idec assets

will enhance value for all shareholders

52

We have shown that
management has failed
shareholders
strategically and
operationally, resulting
in a company not well
positioned for future
challenges!

ICAHN CAPITAL LP

We believe Biogen Idec is a company with valuable assets that has failed to achieve its full potential. The company faces several challenges including an R&D organization that needs reinvigoration, a key product that has ceded market leadership and market share, and a cost structure that needs examination. Biogen Idec's ability to successfully address these and other challenges would improve from the fresh perspective of our experienced and qualified director nominees who helped create substantial value at ImClone Systems.

We believe leadership has failed on many fronts:

The Biogen Idec merger created little equity value slide 7

Avonex has lost US multiple sclerosis market leadership slide 11

Biogen Idec has failed to manage the Avonex product lifecycle slide 12

TYSABRI is not achieving management's goals slide 14

Five year stock performance has trailed peer group slide 15

In the past five years, there have been few in-licensing deals slide 20

Research and development productivity worst in the peer group slide 22

Product pipeline has failed to show meaningful progress slide 24

Biogen Idec has launched no new drugs since 2004 slide 25

Our proposals include:

Board should study potential splitting of Biogen Idec into neurology-focused and cancer-focused companies

Examine cost structure and improve partner relationships

Prioritize, improve focus and reinvigorate R&D efforts

Our experienced director nominees successfully helped effect change at ImClone Systems which resulted in substantial value creation. We believe the ImClone and Biogen Idec situations are analogous and drawing upon our nominees' ImClone experience will benefit all Biogen Idec stockholders. Specifically, at ImClone, the board (including all four of our director nominees) recharged partner relations, optimized the cost structure, rebuilt the product pipeline, settled litigation, and improved the culture.

Edgar Filing: BIOGEN IDEC INC. - Form DFAN14A

In summary, we believe current Biogen Idec leadership has failed to achieve the company's full potential. The quality of board and management are especially crucial today. Electing our qualified and experienced directors could help maximize stockholder value.
