INFORMATION REGARDING VOTING AT THE ANNUAL GENERAL MEETING

General

At the annual general meeting, the shareholders are being asked to consider and to vote upon: (1) the election of two Class 3 directors, who will hold office for a three-year term until the 2012 annual general meeting of shareholders or until their successors are duly elected and qualified (see Proposal 1 Election of Directors at page 5 of this proxy statement); and (2) the re-appointment of PricewaterhouseCoopers LLP (PricewaterhouseCoopers) as our auditors and independent registered public accounting firm, and authorization of the audit committee, acting on behalf of our board of directors, to fix the remuneration of the auditors and independent registered public accounting firm, in both cases for our fiscal year ending January 30, 2010 (see Proposal 2 Re-appointment of Auditors and Independent Registered Public Accounting Firm, and Authorization of the Audit Committee to Fix Remuneration at page 41 of this proxy statement).

Electronic Availability of Proxy Materials for 2009 Annual General Meeting of Shareholders

Under rules adopted by the U.S. Securities and Exchange Commission (SEC), we are furnishing proxy materials to our shareholders primarily via the Internet, instead of mailing printed copies of those materials to each shareholder. On May 29, 2009, we mailed to our shareholders (other than those who previously requested electronic or paper delivery or our shareholders of record) a Notice of Internet Availability of Proxy Materials containing instructions on how to access our proxy materials, including our proxy statement, our annual report on Form 10-K and a Shareholder Letter from our Chairman. The Notice of Internet Availability of Proxy Materials also instructs you on how to vote electronically over the Internet.

This new process is designed to expedite shareholders receipt of proxy materials, lower the cost of the annual meeting and help conserve natural resources. However, if you would prefer to receive printed proxy materials, please follow the instructions included in the Notice of Internet Availability of Proxy Materials. If you have previously elected to receive our proxy materials electronically, you will continue to receive these materials via e-mail unless you elect otherwise.

If you are a shareholder of record you will continue to receive your proxy materials by regular mail. Our proxy statement for the 2009 annual general meeting of shareholders, our annual report on Form 10-K and a Letter from our Chairman are available at www.marvellproxy.com. These proxy materials were first mailed to shareholders of record on or about May 29, 2009.

Record Date

The record date for the annual general meeting has been set as Tuesday, May 19, 2009. Only shareholders of record as of such date will be entitled to notice of and to vote at the annual general meeting. On the record date, 618,958,805 shares, par value \$0.002 per share (common shares), were outstanding. Each outstanding common share is entitled to one vote on each matter to be voted on at the annual general meeting. There is no cumulative voting in the election of directors. Shares held as of the record date include common shares that are held directly in your name as the shareholder of record and those shares held for you as a beneficial owner through a broker, bank or other nominee.

Quorum

The presence, in person or by proxy, of two or more persons holding at least a majority of the voting power of the common shares issued and outstanding and entitled to vote is necessary to constitute a quorum at the annual general meeting. In the event there are not sufficient votes for a quorum at the time of the annual general meeting, the annual general meeting will stand adjourned for one week or otherwise as may be determined by our board of directors in accordance with our Second Amended and Restated Bye-Laws (the Bye-Laws) in order to permit the further solicitation of proxies.

Voting

Many of our shareholders hold their shares through a broker, bank or other nominee rather than directly in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Shareholders of Record

If your shares are registered directly in your name with our transfer agent, American Stock Transfer & Trust Company, you are considered the shareholder of record with respect to those shares and the proxy materials have been sent directly to you. As the shareholder of record, you have the right to grant your voting proxy directly to us or to vote in person at the annual general meeting.

Table of Contents

Shareholders of record should complete and return proxy cards as soon as possible. To be valid, a proxy card must be completed in accordance with the instructions on it and received by 12:00 p.m. Eastern time on July 10, 2009 at the address indicated on the proxy card. No postage is required if the proxy is mailed in the enclosed postage-prepaid envelope within the United States to the address indicated on the proxy card.

Beneficial Owners

If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in street name, and the proxy materials will either be forwarded to you by your broker, bank or other nominee who is considered, with respect to those shares, the shareholder of record, or you can find where to access the proxy materials in the Notice of Internet Availability of Proxy Materials. As the beneficial owner, you have the right to direct your broker, bank or other nominee on how to vote and are also invited to attend the annual general meeting. If Internet voting is available to you, you can find voting instructions in the Notice of Internet Availability of Proxy Materials or in the materials sent to you. If, however, you have elected to receive paper copies of our proxy materials from your broker, bank or other nominee, you will receive a voting instruction form. Please complete and return the enclosed voting instruction form and mail it in the addressed, postage paid envelope provided. All forms of voting must be completed by 12:00 p.m. Eastern time on July 10, 2009, unless you intend to vote in person. Please be aware that if you vote over the Internet, you may incur costs such as Internet access and telephone charges for which you will be responsible.

Abstentions and Broker Non-Votes

With regard to the matters scheduled to come before the annual general meeting, votes may be cast in favor or against. A shareholder may also abstain. An abstention occurs when a shareholder sends in a proxy with explicit instructions to decline to vote regarding a particular matter. The required vote is, assuming the presence of a quorum, a majority of votes cast. Abstentions and broker non-votes are counted for the purpose of determining the presence or absence of a quorum for the transaction of business. However, abstentions and broker non-votes are not considered negative votes under the Bermuda Companies Act 1981 (the Act) and the Bye-Laws, and as such none will effect the calculation of the requisite vote with respect to any of the proposals at this year's annual general meeting.

The term broker non-vote refers to shares held by a broker or other nominee (for the benefit of its client) that are represented at the meeting, but with respect to which such broker or nominee is not instructed to vote on a particular proposal and does not have discretionary authority to vote on that proposal. Brokers and nominees do not have discretionary voting authority on certain non-routine matters and accordingly may not vote on such matters absent instructions from the beneficial holder. If you hold your shares in street name or through a broker it is important that you give your broker your voting instructions.

The election of directors and the proposal to re-appoint PricewaterhouseCoopers as our auditors and independent registered public accounting firm for the current fiscal year should be considered routine matters. To the extent your brokerage firm votes your shares on your behalf on either or both of these two proposals, your shares also will be counted as present for the purpose of determining a quorum.

Attending the Annual General Meeting

If your shares are held in the name of your broker, bank or other nominee and you plan to attend the annual general meeting, please bring a proxy from your broker, bank or other nominee with you to the meeting. If you are a shareholder of record, no proof is required.

Table of Contents

Revocation of Proxies

Execution of a proxy will not in any way affect a shareholder's right to attend the annual general meeting and vote in person, and any person giving a proxy has the right to revoke it at any time before it is exercised. A proxy may be revoked by:

delivering a written notice of revocation to our Secretary at Argyle House, 41A Cedar Avenue, Hamilton, HM 12, Bermuda, prior to the commencement of the annual general meeting;

entering a new vote over the Internet or by delivering another proxy card at a later date; or

voting in person at the annual general meeting.

Solicitation

We are making this solicitation, and will bear the entire cost of preparing, assembling and mailing the proxy materials. Our directors, officers and other employees may solicit proxies by mail, telephone, e-mail or in person. These persons will receive no additional compensation for these services. We have retained Georgeson, Inc. to assist us in the solicitation of proxies. Georgeson will receive a fee of \$6,500 for such services plus out-of-pocket expenses, which fees and expenses will be paid by us. Brokerage houses and other nominees, fiduciaries and custodians nominally holding common shares of record will be requested to forward proxy soliciting material to the beneficial owners of such shares, and will be reimbursed by us for their reasonable charges and expenses in connection therewith.

Voting Results

All votes will be tabulated by the inspector of election appointed for the annual general meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes. We will announce preliminary results at the annual general meeting. We will report final results in our first quarterly report on Form 10-Q filed after the date of the annual general meeting.

PRESENTATION OF FINANCIAL STATEMENTS

In accordance with Section 84 of the Act and Bye-Law 73 of the Bye-Laws, our audited consolidated financial statements for the fiscal year ended January 31, 2009 will be presented at the annual general meeting. These statements have been approved by our board of directors. There is no requirement under Bermuda law that these statements be approved by shareholders, and no such approval will be sought at the meeting.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

Nominees

The Bye-Laws provide for not less than two directors or such number in excess thereof as our board of directors may determine. The number of directors is currently fixed at nine. The number of directors currently serving on our board of directors is six. There is currently three vacancies on our board of directors. Assuming the election of two Class 3 directors, immediately thereafter there will remain three vacancies on our board of directors.

Our board of directors is currently divided into three classes, with Class 1 having one member, Class 2 having three members and Class 3 having two members. One class of our board of directors is elected by the shareholders each year. Each class serves staggered three-year terms, which means that as a general matter only one class of directors is elected at each annual general meeting with the other classes continuing for the remainder of their respective terms. At the annual general meeting, shareholders will be asked to vote on the election of two Class 3 directors. The nominees for Class 3 directors elected at the annual general meeting will hold office for a three-year term until the 2012 annual general meeting of shareholders or until their successors are duly elected and qualified. Directors may only be removed for cause by a special resolution of our shareholders, pursuant to the terms of the Bye-Laws.

Our nominees for the Class 3 directors are Dr. Sehat Sutardja and Dr. Pantas Sutardja. Biographical information for each of our nominees can be found on page 6 of this proxy statement. We have been advised that Dr. Sehat Sutardja and Dr. Pantas Sutardja are willing to be named as such herein and are willing to serve as directors if elected. However, if Dr. Sehat Sutardja and Dr. Pantas Sutardja should be unable to serve as director, the proxy holders may vote for a substitute nominee recommended by the nominating and governance committee and approved by our board of directors.

Board Recommendation and Required Vote

Our board of directors unanimously recommends that you vote FOR each of the nominees for director identified above.

Unless authority to do so is withheld, the proxy holders named in each proxy will vote the shares represented thereby FOR the election of such nominee. Assuming the presence of a quorum, the required vote is the affirmative vote of at least a majority of votes cast and entitled to vote at the annual general meeting. Abstentions and broker non-votes will be entirely excluded from the vote and will have no effect on the outcome. If the proposal for the appointment of a director nominee does not receive the required majority of the votes cast, then the director will not be appointed and the position on our board of directors that would have been filled by the director nominee will become vacant. Our board of directors has the ability to fill the vacancy upon the recommendation of the nominating and governance committee, in accordance with the Bye-Laws, with that director subject to election by our shareholders at the next following annual general meeting of shareholders.

Corporate Governance Guidelines and Practices, Meetings, Independence and Compensation of our Board of Directors

Corporate Governance Guidelines and Practices

Our board of directors has adopted a set of corporate governance guidelines and practices to establish a framework within which it will conduct its business. The corporate governance guidelines and practices can be found on our website at www.marvell.com/investors/governance.jsp. The corporate governance guidelines and practices were last revised on April 30, 2009. The corporate governance guidelines and practices provide, among other things, that:

in the absence of a non-executive Chairman of the Board, the board of directors shall designate a lead independent director who, among other duties, is responsible for presiding over executive sessions of independent directors;

a majority of the directors must be independent;

our board of directors shall appoint all members of the board committees;

the nominating and governance committee screens and recommends board candidates to our board of directors;

the audit committee, executive compensation committee and nominating and governance committee must consist solely of independent directors; and

the independent directors shall meet regularly in executive session without the presence of the non-independent directors or members of our management.

We also provide our directors annual training events on issues facing us and on subjects that would assist the directors in discharging their duties.

Our board of directors may modify the corporate governance guidelines and practices from time to time, as appropriate. Our independent directors have appointed Mr. Krueger to serve as the lead independent director for our board of directors.

Meetings of our Board of Directors; Attendance

There were 16 meetings of our board of directors in fiscal 2009, which included six in-person meetings at our U.S. headquarters. All directors attended at least 75% of the total number of meetings of the board and committees on which such director served. The independent directors meet in executive sessions without the presence of the non-independent directors or members of our management at least twice per year during regularly scheduled board meeting days and otherwise from time to time as deemed necessary or appropriate.

Although directors are encouraged to attend annual general meetings, we do not have a formal policy requiring such attendance. Two directors attended the 2008 annual general meeting of shareholders.

Director Independence

Our board of directors has determined that, among current directors with continuing terms and the director nominees standing for reelection, each of Mr. Chang, Dr. Gromer, Mr. Krueger and Dr. Kassakian are

Table of Contents

independent as such term is defined by the applicable listing standards of The NASDAQ Stock Market (Nasdaq) and the rules of the SEC. To be considered independent, our board of directors must affirmatively determine that neither the director, nor any member of his or her immediate family, has had any direct or indirect material relationship with us within the previous three years.

Our board of directors considered relationships, transactions and/or arrangements with each of the directors and concluded that none of the non-employee directors, or any of his immediate family members, has any relationship with us that would impair his independence.

Compensation of Directors

Directors who are employees of the company do not receive any additional compensation for their services as directors. Our non-employee directors each receive \$1,000 per board meeting attended in person and \$250 per meeting attended telephonically. The fee for attendance, whether in person or telephonic, at a regularly scheduled board meeting as set forth on the board calendar is \$1,000. Our non-employee directors also receive an annual retainer of \$40,000. Our lead independent director of our board of directors will receive an additional annual retainer of \$20,000. Our non-employee directors also receive \$7,500 for annual service on the audit committee, and \$5,000 for annual service on the executive compensation and nominating and governance committees. Each non-employee director also receives \$1,000 per committee meeting attended in person and \$250 per meeting attended telephonically. In addition, the chair of the audit committee receives an additional cash retainer of \$7,500 per year and chairs of the other committees of our board of directors receive an additional cash retainer of \$2,500 per year. In addition to the retainer and meeting fees, non-employee directors are reimbursed for travel and other reasonable out-of-pocket expenses related to attendance at board and committee meetings.

In addition, under our 2007 Directors Stock Incentive Plan (the 2007 Director Plan), each new non-employee director receives an option to purchase 50,000 common shares upon joining our board of directors. The options vest over a period of three years, with 1/3 vesting each year thereafter provided that the non-employee director remains a director through such period. In addition, under the 2007 Director Plan, each eligible outside director is granted an option to purchase an additional 12,000 common shares on the date of our annual general meeting, provided that on such date the director has served on our board of directors for at least six months prior to the date of such annual general meeting. Each of our current independent directors is considered an eligible outside director. This option fully vests on the earlier of the next annual general meeting or the one year anniversary of the option grant date. All options will vest in full upon a change of control. The exercise price per share for each option is equal to the fair market value on the date of grant.

Director Compensation Table Fiscal 2009

The following table details the total compensation paid to our non-employee directors in fiscal 2009.

Table of Contents

Under the Bye-Laws, any director appointed by our board of directors would need to be reappointed by shareholders at our next annual general meeting or by our board of directors following the annual general meeting. If a suitable candidate is identified after the date of this proxy statement but prior to the upcoming annual general meeting, our board of directors intends to appoint such individual for an initial term lasting up to the next annual general meeting and then reappoint such individual following the annual general meeting. Our shareholders will then vote on the reappointment of such director at the 2010 annual general meeting.

The nominees for election at this annual general meeting were unanimously recommended and approved by the nominating and governance committee and our board of directors, respectively. The nominating and governance committee will consider proposals for nomination from shareholders that are made in writing to our Secretary at Argyle House, 41A Cedar Avenue, Hamilton, HM 12, Bermuda that are timely and that contain sufficient background information concerning the nominee to enable proper judgment to be made as to his or her qualifications. For general information regarding shareholder proposals and nominations, see Shareholder Proposals and Nominations for the 2010 Annual General Meeting on page 43.

Director Qualifications

The nominating and governance committee believes that the following specific, minimum qualifications must be met by a nominee for the position of director:

the highest personal and professional ethics and integrity;

the ability to work together with other directors, with full and open discussion and debate as an effective, collegial group;

current knowledge and experience in our business or operations, or contacts in the community in which we do business and in the industries relevant to our business, or substantial business, financial or industry-related experience; and

the willingness and ability to devote adequate time to our business.

Other than the foregoing there are no stated minimum criteria for director nominees. We are required to have at least one member of our board of directors who meets the criteria for an audit committee financial expert as defined by Nasdaq and the SEC, and to have a majority of independent directors who meet the definition of independent director under applicable Nasdaq and SEC rules. We also believe it is appropriate for certain key members of management to participate as members of our board of directors.

When making its determination whether a nominee is qualified for the position of director, the nominating and governance committee may also consider such other factors as it may deem are in the best interests of the company and its shareholders, such as the following qualities and skills:

relationships that may affect the independence of the director or conflicts of interest that may affect the director's ability to discharge his or her duties;

diversity of experience and background, including the need for financial, business, academic, public sector or other expertise on our board of directors or its committees; and

the fit of the individual's skills and experience with those of the other directors and potential directors in comparison to the needs of the company.

When evaluating a candidate for nomination, the nominating and governance committee does not assign specific weight to any of these factors or believe that all of the criteria necessarily apply to every candidate.

Identifying and Evaluating Nominees for Director

The nominating and governance committee reviews the appropriate skills and characteristics required of directors in the context of the current composition of our board of directors. Candidates considered for

nomination to our board of directors may come from several sources, including current and former directors, professional search firms and shareholder nominations. A shareholder seeking to recommend a prospective nominee for the nominating and governance committee's consideration should submit the candidate's name and qualifications to our Secretary at Argyle House, 41A Cedar Avenue, Hamilton, HM 12, Bermuda. The nominating and governance committee will consider candidates recommended by shareholders in the same manner as candidates recommended to the nominating and governance committee from other sources. Nominees for director are evaluated by the nominating and governance committee, which may retain the services of a professional search firm to assist them in identifying or evaluating potential nominees.

Shareholder Communications with our Board of Directors

At present, our Chairman and Chief Executive Officer is responsible for maintaining effective communications with our shareholders, customers, employees, communities, suppliers, creditors, governments and corporate partners. It is the policy of our board of directors that management speaks for the company. This policy does not preclude independent directors from meeting with shareholders, but management, where appropriate, should be present at such meetings.

Nonetheless, our board of directors has established a process for shareholders to send communications to our directors. If you wish to communicate with our board of directors or individual directors, you may send your communication in writing to: General Counsel, Marvell Semiconductor, Inc., 5488 Marvell Lane, MS 1-501, Santa Clara, California 95054. You must include your name and address in the written communication and indicate whether you are a shareholder of Marvell. The General Counsel (or other officer acting in such capacity) will compile all such communications and will forward them to the appropriate director or directors or committee of our board of directors based on the subject matter or to the director or directors to whom such communications is addressed.

Compensation Discussion and Analysis

This Compensation Discussion and Analysis provides information regarding the compensation paid to the four executives who were the named executive officers of Marvell Technology Group Ltd. (and who we refer to as our named executive officers) during fiscal 2009, which ran from February 3, 2008 until January 31, 2009. These individuals were:

Dr. Sehat Sutardja, President, Chief Executive Officer and Chairman of the Board;

Dr. Pantas Sutardja, Vice President, Chief Technical Officer, Chief Research and Development Officer and Director;

Mr. Clyde R. Hosein, Chief Financial Officer, Interim Chief Operating Officer and Secretary; and

Mr. George de Urioste, former Interim Chief Financial Officer and former Acting Chief Operating Officer.

Historically, we have only had four named executive officers, because we have only had two executives in addition to our Chief Executive Officer and Chief Financial Officer who have had the level of responsibility to be considered executive officers. This was again true for most of fiscal 2009. Mr. de Urioste's employment with us concluded in October 2008, which means that since October 2008, we have had only three named executive officers.

The compensation paid to or earned by our named executive officers for fiscal 2009 is reported in the tables and associated narrative disclosure beginning on page 27 of this proxy statement. This Compensation Discussion and Analysis addresses the following topics:

Company Performance and its Effect on Executive Compensation

Governance of Executive Compensation Program

Executive Compensation Philosophy and Framework

Named Executive Officer Compensation Decisions

Other Considerations

Company Performance and its Effect on Executive Compensation

As with many companies in the semiconductor industry, the second half of fiscal 2009 was a challenging time for us. In response to the deteriorating global economic environment we implemented cost reduction measures to lower our overall costs and expenses. The declining economic environment and its expected effect on our performance was taken into account by the executive compensation committee in its fiscal 2009 executive compensation decisions as is more fully described below in the section Named Executive Officer Compensation Decisions. As a result of the changing global economic environment, we did not pay any bonuses for fiscal 2009 to any of our named executive officers, other than in connection with the hiring of a new Chief Financial Officer in June 2008.

Governance of Executive Compensation Program

Role of the Executive Compensation Committee

The executive compensation committee of our board of directors (referred to in this discussion as the executive compensation committee) has been charged to act on behalf of our board of directors to fulfill its responsibilities to set and oversee the compensation of our executive officers. With respect to our named executive officers, the executive compensation committee reviews and approves: (i) annual base salaries; (ii) annual incentive compensation; (iii) long-term incentive compensation (in the form of equity awards); (iv) employment, severance and change-in-control agreements; and (v) other compensation and benefits, if any.

Committee Interaction with Management

In carrying out its responsibilities, the executive compensation committee works with Dr. Sehat Sutardja, our President and Chief Executive Officer, and Reid Linney, our Vice President of Human Resources, in determining executive compensation. Dr. Sehat Sutardja, with the assistance of Mr. Linney, assesses the performance and submits recommendations with respect to the compensation of the other executive officers that are given to the executive compensation committee for their review and approval. In addition, Dr. Sehat Sutardja and Mr. Linney provided assistance in the negotiation of the compensation of Mr. Hosein, whose compensation package was then approved by the executive compensation committee prior to the commencement of Mr. Hosein's employment with us, subject to our board of directors' process for reviewing his equity compensation, as described below. Subsequent to his accepting the added responsibility of Interim Chief Operating Officer in October 2008, Mr. Hosein has participated with Dr. Sehat Sutardja and Mr. Linney in the discussions regarding the compensation of the other named executive officer. With respect to his own compensation, Dr. Sehat Sutardja did not submit recommendations to the executive compensation committee nor did he participate in the deliberations regarding his own compensation. However, the executive compensation committee discussed Dr. Sehat Sutardja's proposed compensation package with him to obtain his feedback. The final decision for the compensation of Dr. Sehat Sutardja was determined solely by the executive compensation committee, in its discretion, subject to our board of directors' process for reviewing his equity compensation, as described below.

Committee Process

In fiscal 2009, the special committee regarding derivative litigation of our board of directors recommended several corporate governance reforms to our board of directors. One of these recommendations was that our full board of directors be involved in determining the equity compensation of our named executive officers. Our board of directors approved this recommendation, so that our current process, including the one used in our executive equity compensation decisions, now consists of a three-step process for the approval of executive equity compensation decisions. First, the executive compensation committee develops recommendations regarding the equity compensation of the named executive officers for our board of directors' consideration. Our board of directors then reviews and recommends the equity compensation for approval (with any interested directors abstaining from voting) by the executive compensation committee. Finally, as required to comply with several regulatory requirements, the executive compensation committee approves the final recommendations of our board of directors for the equity compensation of our named executive officers.

The executive compensation committee reviews the compensation of the named executive officers annually. Typically, at the time of the review, the executive compensation committee evaluates our financial results and assesses the named executive officers' performance for the prior fiscal year (which includes the assessment and recommendation of Dr. Sehat Sutardja for the other executive officers). Based on its evaluation and these assessments, the executive compensation committee then determines whether any adjustments to base salaries are appropriate, determines the payouts for the prior fiscal year's annual incentive compensation plans and grants equity awards.

For fiscal 2009, the executive compensation committee finalized its review of named executive officer performance for fiscal 2008, which ended February 2, 2009, and made its executive compensation decisions in December 2008, the last quarter of fiscal 2009. The review of performance and compensation was completed late in fiscal 2009 because the executive compensation review in fiscal 2008 occurred in the last quarter of fiscal 2008, so the executive compensation committee did not believe it was necessary to review executive compensation earlier in fiscal 2009.

Committee Membership and Meetings

During fiscal 2009, Dr. Paul Gray served as the executive compensation committee's chair until his retirement from our board of directors in April 2008. At that time, Dr. Juergen Gromer became the chairman of

Table of Contents

the executive compensation committee and Mr. Arturo Krueger became a member of the committee. In July 2008, Dr. John G. Kassakian was appointed to our board of directors and became a member of the executive compensation committee. In fiscal 2009, all executive compensation committee members met the independent director definition of the Nasdaq rules; the non-employee director definition of Rule 16b-3 under Section 16 of the Exchange Act; and the outside director definition of Section 162(m) of the Internal Revenue Code.

The executive compensation committee holds regular monthly meetings and meets additionally as often as it deems necessary to carry out its responsibilities. The executive compensation committee met 22 times in fiscal 2009.

Use of External Advisors

Beginning in March 2006 and continuing through fiscal 2009, the executive compensation committee has engaged Compensia, Inc., a national executive compensation consulting firm, to provide it with advice and market data relating to executive compensation. Compensia serves at the discretion of the executive compensation committee. Other than its engagement with the executive compensation committee, Compensia did not provide any services to us in fiscal 2009 nor did Compensia receive any compensation other than for the services provided to the executive compensation committee described below.

In fiscal 2009, Compensia provided the following assistance to the executive compensation committee:

Revised and updated our compensation peer groups;

Developed an executive compensation market assessment that provided market data with respect to our named executive officers base salary, annual incentive compensation awards and long-term incentive compensation levels and program structures;

Provided advice and assistance to the executive compensation committee in analyzing management's proposals for named executive officer compensation;

Assisted in the drafting of the Compensation Disclosure and Analysis included in our fiscal 2008 proxy statement; and

Assisted with the design and implementation of an option for restricted stock unit exchange program.

Executive Compensation Philosophy and Objectives

Compensation Philosophy

Our primary business objective is to create long-term value for our shareholders. To achieve this objective, our executive compensation program is designed to attract, motivate, reward and retain our executives and align their interests with those of our shareholders.

Compensation Objectives

Consistent with our philosophy, our executive compensation program is intended to achieve five primary objectives:

1. Provide for a competitive level of total compensation;
2. Establish a direct link between compensatory rewards and both overall business results and individual performance;

Edgar Filing: MARVELL TECHNOLOGY GROUP LTD - Form DEF 14A

3. Promote a long-term focus for our named executive officers with incentive compensation that is designed with multi-year performance objectives;
4. Align the interests and objectives of our named executive officers and employees with furthering our growth and creating shareholder value; and

Table of Contents

5. Share the enterprise value created by our named executive officers and employees through distribution of equity to key employees.
Compensation Mix

To achieve these objectives, the executive compensation committee provides a mix of compensation elements primarily composed of base salary, long-term incentive compensation (in the form of equity awards) and annual cash incentives. Each of these components is discussed in greater detail below. In addition, we provide our named executive officers with life, health and welfare benefits and a tax-qualified retirement savings program on substantially the same terms and conditions as these benefits are provided to other salaried employees in the United States, as well as certain perquisites for Dr. Sehat Sutardja, our President and Chief Executive Officer.

For fiscal 2009, the executive compensation committee determined the amount of each compensation element separately to ensure that each element met the desired objectives for that element (as described below). The executive compensation committee does not have a formal policy regarding the compensation mix between short-term and long-term compensation or between cash and non-cash compensation. Upon completing its determination of each compensation element, the executive compensation committee reviews the value of the total compensation package of each named executive officer to ensure that, in the aggregate, the compensation package is reasonable, and reasonably consistent with market practices, as discussed below under *Peer Groups*, with all decisions based on the judgment of the members of the executive compensation committee. However, based on our philosophy of aligning the interests of our named executive officers with those of our shareholders and our focus on long term value creation by our named executive officers, a substantial portion of our named executive officers compensation, and especially the compensation of Dr. Sehat Sutardja, our President and Chief Executive Officer, consists of long-term incentive compensation in the form of both time-based vesting and performance-based vesting stock options.

Peer Groups

To assess the competitiveness of our executive compensation program and individual compensation elements and levels, as part of its annual compensation review the executive compensation committee is provided with a market assessment based on the executive compensation practices of two groups of peer companies.

The first (or primary) peer group consisted of semiconductor companies the executive compensation committee believed to be generally comparable to us in terms of revenue. The second (or high growth) peer group consisted of a subset of the primary peer group with revenue and earnings growth over the last several years that the executive compensation committee believed generally to be higher than typical market levels. The executive compensation committee believes the high growth peer group is useful for calibrating performance and performance metrics, because, historically, we have had a higher than average revenue growth rate.

For fiscal 2009, the executive compensation committee updated the primary peer group used in fiscal 2008 with the assistance of Compensia based on our peer group selection criteria. We removed some companies used in the fiscal 2008 peer group primarily because their revenues were below our target range or because of differences in their performance or business focus. For our fiscal 2009 primary peer group, we added Juniper Networks, Inc., KLA-Tencor Corporation, Level 3 Communications, Inc., MEMC Electronic Materials, Inc., Micron Technology, Inc., SanDisk Corporation and UTStarcom, Inc. because we believed that their business focus, performance and revenue made them suitable for the peer group. Based on our review of the high growth peer group the only deletion was of Micron Technology, because we determined that its recent performance was not in alignment with our criteria for the high growth peer group.

Compensation Positioning

In determining each individual element of compensation, the executive compensation committee considered the proposed compensation of Dr. Sehat Sutardja, Dr. Pantas Sutardja and Mr. Hosein in comparison to the market range (i.e., 25th, 50th and 75th percentiles) of that compensation element paid to similarly situated executives of the companies in our primary peer group for their most recently disclosed fiscal year. In general, for fiscal 2009, each element of compensation was targeted at the 50th percentile of our primary peer group for Dr. Sehat Sutardja, Dr. Pantas Sutardja and Mr. Hosein. While the executive compensation committee did not set a specific target for total direct compensation for the named executive officers, it believed that total direct compensation would be consistent with market practice in fiscal 2009 based on targeting each element of compensation at the 50th percentile.

At the time we were negotiating with Mr. Hosein, we reviewed data provided by our external executive recruiters regarding the compensation of recently hired Chief Financial Officers at high technology companies located in the San Francisco Bay area with revenues equal to or less than ours. We also reviewed data provided by our own internal sources regarding specific competitors' practices. Finally, we reviewed data provided by Compensia. This data was collectively used to understand the market for Chief Financial Officers and to provide a context for developing our compensation for Mr. Hosein.

We did not specifically position the compensation for Mr. de Urioste, our former Interim Chief Financial Officer and former Acting Chief Operating Officer, with market practices because he was hired on a temporary basis pursuant to a formal employment agreement that governed his compensation during the time of his service with us.

Named Executive Officer Compensation Decisions

The primary elements of our executive compensation program are base salary, an annual incentive compensation opportunity and long-term incentive compensation (in the form of stock options). The executive compensation committee did not consider any changes to the compensation of Mr. de Urioste, because his compensation was governed by his formal employment agreement.

Base Salary

In January 2008, in recognition of the reduction in force implemented at the end of fiscal 2008, Dr. Sehat Sutardja and Dr. Pantas Sutardja requested that their base salaries be temporarily reduced to \$1 per year. The executive compensation committee approved their request in January 2008. In December 2008, in connection with its review of executive compensation, the executive compensation committee restored the base salaries of Dr. Sehat Sutardja and Dr. Pantas Sutardja to their previous levels of \$657,000 and \$400,000, respectively. The executive compensation committee did not make any adjustments to their base salaries and did not compare their base salaries against the peer groups, because it did not believe that any adjustments were appropriate at that time due to the challenging economic environment then faced by the company. Mr. Hosein's base salary was set at \$450,000 as a result of the negotiations for his employment with us. In December 2008, the executive compensation committee left his base salary unchanged, because his base salary had been agreed upon at the time when he commenced employment only six months earlier. Dr. Sehat Sutardja's base salary is below the 25th percentile of the primary peer group, while the base salaries of Dr. Pantas Sutardja and Mr. Hosein approximate the 50th percentile of the primary peer group.

Annual Incentive Compensation

For fiscal 2009, as a result of the changing global economic environment, the executive compensation committee decided that no annual performance-based incentive awards would be paid to the named executive officers.

Table of Contents

Mr. Hosein received a sign-on bonus of \$350,000 in connection with the acceptance of our offer of employment. The executive compensation committee determined that this payment was necessary to induce Mr. Hosein to accept our offer of employment. The payment is conditioned on Mr. Hosein remaining employed with us for two years. If, prior to the expiration of this two-year period, Mr. Hosein voluntarily terminates his employment with us without good reason or he is terminated by us for cause or for performance-related issues, he is required to repay a pro-rated portion of the sign-on bonus. In addition, as part of our employment negotiations with Mr. Hosein, we agreed that he would be eligible for a target bonus equal to 80% of his base salary. Pursuant to the terms of his employment agreement, 50% of this bonus would be earned based on the company's overall performance and the remaining 50% would be earned based on achievement of mutually agreed upon performance metrics. Because of the challenging economic environment faced by the company at the end of fiscal 2009, the executive compensation committee and Mr. Hosein did not establish performance metrics for fiscal 2009 and agreed that Mr. Hosein would not receive a performance-based annual incentive award for fiscal 2009. For a further description of Mr. Hosein's employment agreement, please refer to the section entitled "Employment Contracts and Change-in-Control Arrangements" below.

In prior years, the executive compensation committee had granted to Dr. Sehat Sutardja and Dr. Pantas Sutardja stock options in lieu of participation in an annual cash incentive award plan. In December 2008, the executive compensation committee decided that, beginning in fiscal 2010, Dr. Sehat Sutardja and Dr. Pantas Sutardja will participate in our executive annual cash incentive compensation plan. The executive compensation committee believes that this was appropriate to provide a common focus within the executive team on both short-term and long-term goals. Under our executive annual cash incentive compensation plan, bonuses are determined at the end of the fiscal year based on a review of each executive's performance and contributions to us. The executive compensation committee determines the amount of any bonus for Dr. Sehat Sutardja based on its judgment of his and our performance. For the other executives, Dr. Sehat Sutardja provides recommendations to the executive compensation committee on the performance of each executive and us and the amount of the bonus, based on his judgment. The executive compensation committee then reviews the recommendations provided by Dr. Sehat Sutardja and determines whether to approve a bonus to other executives.

Long-Term Incentive Compensation

Our long-term incentive compensation practices are designed to be competitive in retaining and rewarding our named executive officers. The executive compensation committee believes that our long-term incentive compensation program should focus our named executive officers on shareholder value creation through long-term performance, as well as motivate them and retain their services in a competitive job market by providing significant long-term earnings potential.

Generally, equity awards are granted upon an executive officer's initial hire and in connection with any promotion. In addition, since fiscal 2007, the executive compensation committee has determined on an annual basis whether each named executive officer should receive an equity award based on its evaluation of corporate and individual performance.

Award Mix

Generally, the long-term incentive compensation for our named executive officers consists entirely of stock options. The executive compensation committee believes that as a high growth company, stock options provide the named executive officers with the best set of incentives to increase shareholder value as well as the best structure to meet our motivation and retention objectives.

The stock options, which are granted with an exercise price equal to the fair market value of our common shares on the grant date, reward our executives only to the extent that our stock price appreciates and shareholders realize value following the grant date. The executive compensation committee believes that using a multi-year vesting schedule for our stock option awards aids retention; is consistent with peer group practices; and provides rewards for longer-term stock price appreciation. In addition, the executive compensation

Table of Contents

committee may choose to grant stock options to our named executive officers with performance-based vesting requirements to further tie their compensation to our performance.

Fiscal 2009 Equity Awards

In determining the size of the stock option grants to the named executive officers, the executive compensation committee reviewed the equity awards granted by the companies in our peer groups at the 50th percentile based on (i) the percentage of our outstanding equity that was awarded; (ii) the value of awards as a percent of market capitalization; (iii) the value of awards calculated using current stock prices for the exercise price; and (iv) the current value of the awards at current stock prices but using the historical exercise prices. The executive compensation committee used these metrics to understand and evaluate the historical data for the companies in our peer groups in light of the significant depreciation in stock prices since the peer group data was compiled.

For Dr. Sehat Sutardja, our executive compensation committee determined that a stock option for 600,000 common shares approximated the 50th percentile value of an annual equity award for the primary peer group. As in fiscal 2008, the executive compensation committee split the proposed stock option grant evenly between a time-based vesting stock option and a performance-based vesting stock option. Based on its judgment of the degree of difficulty in achieving the performance objectives, the executive compensation committee increased the number of shares subject to the performance-based vesting option by 30%. Therefore, the executive compensation committee granted Dr. Sehat Sutardja a time-based vesting option to purchase 300,000 common shares and a performance-based vesting option to purchase 390,000 common shares.

The performance-based vesting stock option will vest based on our financial performance as measured over up to five annual performance periods. In each of the first four annual performance periods, beginning with fiscal 2010 and ending with fiscal 2013, 25% of the option shares (or 97,500 shares), may vest depending on our actual performance as measured against the following performance objectives.

Full vesting of an annual tranche occurs if, for each annual performance period, our Modified GAAP Operating Margin (as defined below) for such fiscal year is equal to or greater than the 60th percentile of the comparably calculated operating margin for the four consecutive fiscal quarters ending on or before our fiscal year end for the companies in our Performance Peer Group (as defined below).

If we do not meet the Modified GAAP Operating Margin (as defined below) target for any annual performance period, then the option shares otherwise eligible for vesting in such period are to be carried forward to the next performance period and aggregated with the option shares eligible to vest during that period and may vest upon achievement of the subsequent year's performance objectives.

If, at the end of fiscal 2013, any option shares remain unvested, then such option shares may vest in a final annual performance period covering fiscal 2014 if our Modified GAAP Operating Margin (as defined below) for such fiscal year is equal to or greater than the 60th percentile of the comparably calculated operating margin for the four consecutive fiscal quarters ending on or before our fiscal year-end for the companies in our Performance Peer Group (as defined below).

For purposes of this performance-based stock option, Modified GAAP Operating Margin means the company's operating margin calculated under generally accepted accounting principles and adjusted to exclude the impact of (i) non-cash stock-based compensation charges recognized under SFAS 123R and (ii) non-cash acquisition-related charges, including intangible amortization and in-process research and development charges.

For purposes of this performance-based stock option, the Performance Peer Group consists of Altera Corporation, Analog Devices, Inc., Broadcom Corporation, LSI Corporation, Micron Technology, Inc., National Semiconductor Corporation, NVIDIA Corporation, SanDisk Corporation, UTStarcom, Inc. and Xilinx, Inc. If there are less than eight of the companies remaining in the Performance Peer Group for any performance period, the Performance Peer Group will be expanded to include all of the U.S.-based publicly traded companies in the Philadelphia Stock Exchange's Semiconductor Index at that point in time.

Table of Contents

The executive compensation committee believes it is useful for incentivizing superior company performance and increasing shareholder value that a portion of the stock options granted to Dr. Sehat Sutardja have performance-based vesting requirements in addition to a time-based vesting requirement and the inherent stock price performance requirements of a stock option. The executive compensation committee believes that the terms of the performance-based vesting stock option will incentivize Dr. Sehat Sutardja to drive superior performance for the company. The executive compensation committee believes that operating margin is a useful measure of company performance and appropriate to use for measuring our performance against the companies in the Performance Peer Group. Vesting was set at the 60th percentile of performance against the Performance Peer Group, because the 60th percentile reflects above-average performance and will be difficult to achieve on a consistent basis. The companies in the Performance Peer Group were selected based on the similarity of their business to ours. The Performance Peer Group is not the same as our primary peer group because we did not use revenue as a measure for determining the Performance Peer Group since similar revenue is not required to measure operating margin.

For Dr. Pantas Sutardja, our executive compensation committee determined that the 50th percentile of the annual equity award value for the primary peer group equaled a stock option to purchase 120,000 common shares. Vesting for this option is our standard service-based schedule of four years with 25% of the option shares vesting each year on the anniversary of the grant date.

In connection with his acceptance of employment with us, the executive compensation committee granted Mr. Hosein a time-based vesting stock option for 450,000 common shares that vests over a five-year period. In addition, the executive compensation committee granted Mr. Hosein a stock option for 200,000 common shares that vests upon the achievement of certain performance objectives as described below. The size of these awards were based on review of market data for chief financial officer equity compensation as well as the negotiations with Mr. Hosein. In addition, in December 2008, in connection with the review of executive compensation, the executive compensation committee granted Mr. Hosein a time-based vesting stock option for 100,000 common shares that vests over four years. The executive compensation committee determined the size of this award based on its determination of the competitive level of annual equity awards for the primary peer group using the various measures of equity compensation value described above. This award was pro-rated based on Mr. Hosein's time of service with the Company.

Mr. Hosein's performance-based vesting option granted in connection with his commencement of employment vests upon our achievement of pro forma earnings per share equaling or exceeding 200% of the baseline earnings per share. Performance is measured over six one-year performance periods with the first performance period beginning with the first fiscal quarter after Mr. Hosein commenced employment. For the first five performance periods, 20% of the option shares plus any option shares that did not vest in a prior performance period will vest if our actual pro forma earnings per share equal or exceed 200% of the baseline. In the sixth performance period, any option shares that did not vest in a prior performance period will vest if our actual pro forma earnings per share equal or exceed 200% of the baseline. Pro forma earnings per share are calculated by adjusting earnings per share calculated under generally accepted accounting principles for (i) non-cash stock-based compensation charges recognized under SFAS 123R and (ii) non-cash acquisition-related charges, including intangible amortization and in-process research and development charges. Baseline earnings per share equal the pro forma earnings per share for the four fiscal quarters immediately prior to Mr. Hosein's commencement of employment.

The executive compensation committee based the performance terms for Mr. Hosein's award on the terms used for Dr. Sehat Sutardja's fiscal 2008 performance-based vesting stock option. The executive compensation committee believed that using similar terms would align the incentives for Dr. Sehat Sutardja and Mr. Hosein.

Benefits

Our named executive officers are eligible to participate in our life, health and welfare benefit programs and our tax-qualified Section 401(k) profit sharing-plan. They participate in these plans on the same terms and

Table of Contents

conditions as our other salaried employees. Under our Section 401(k) plan, we match 100% of the employees' contributions up to \$500 each semi-annual contribution period for a maximum of \$1,000 each year, subject to various limitations. We also offer all employees, including our named executive officers, the ability to purchase our common shares at a discount under our Amended 2000 Employee Stock Purchase Plan. Employees who own more than 5% of our stock may not participate in this plan, so Dr. Sehat Sutardja and Dr. Pantas Sutardja are not eligible to participate in our Amended 2000 Employee Stock Purchase Plan. Other than the personal use of our corporate jet by Dr. Sehat Sutardja described in the following paragraph, our named executive officers did not receive any employee benefits or perquisites in fiscal 2009 other than the employee benefits and perquisites provided to all employees.

In May 2008, the executive compensation committee approved a formal corporate policy for use of our corporate jet and ratified its prior use by Dr. Sehat Sutardja and Ms. Dai. Dr. Sehat Sutardja and Ms. Dai are husband and wife, and Ms. Dai is an employee of MSI. This policy permits personal use of our corporate jet only by Dr. Sehat Sutardja, as our President and Chief Executive Officer. Dr. Sehat Sutardja may use our jet for three personal round trip flights. Any additional personal use of our corporate jet by Dr. Sehat Sutardja requires the approval of the executive compensation committee. For purposes of the three round trip limitation, a multi-stop trip will be considered one round trip flight. Dr. Sehat Sutardja may be accompanied by his family and friends and any persons involved in a charitable interest of Dr. Sehat Sutardja or he may permit any of these people to use the jet in his place within the guidelines. During fiscal 2009, Dr. Sehat Sutardja made use of the jet for two personal round trip flights.

Employment Agreements

At this time, other than for Mr. de Urioste, our former Interim Chief Financial Officer and former Acting Chief Operating Officer, and Mr. Hosein, our Chief Financial Officer, Interim Chief Operating Officer and Secretary, we do not have any employment, change-in-control, or severance agreements or arrangements with any of our named executive officers. This enables us to terminate their employment with flexibility as to the terms of any severance arrangement. We entered into employment agreements with Messrs. de Urioste and Hosein as a necessary inducement for their acceptance of their positions with us, including provisions for their severance and, in the case of Mr. Hosein, change-in-control severance benefits. The terms of these employment agreements were determined based on negotiations between the executives and Dr. Sehat Sutardja, who received input from the executive compensation committee. The executive compensation committee reviewed market data at the time of the negotiations to better understand the market range for the various compensation elements, but the market data was used to primarily contrast the negotiated compensation with current competitive practice. For a further description of Mr. de Urioste's and Mr. Hosein's employment agreements, please refer the section entitled "Employment Contracts and Change-in-Control Arrangements" below.

Other Considerations

Equity Grant Practices

In fiscal 2008, our board of directors adopted a policy with respect to our stock option grant practices. Our current policy, which was revised in October 2008, covers, among other things, the following:

All stock option grants must have an exercise price per share no less than the per share fair market value of our common shares on the date of grant, as determined under the appropriate U.S. financial accounting rules and the applicable rules and regulations under the U.S. securities laws.

The executive compensation committee has the authority to make equity grants to all employees, including our executive officers. However, equity grants to executive officers must involve our board of directors. First, the executive compensation committee develops recommendations regarding the equity compensation of the named executive officers for our board of directors' consideration. Our board of directors then reviews and recommends the equity compensation for approval (with any interested directors abstaining from voting) by the executive

Table of Contents

compensation committee. Finally, as required to comply with several regulatory requirements, the executive compensation committee approves the final recommendations of our board of directors for the equity compensation of our named executive officers.

Equity grants to newly hired employees are made once per month during regularly scheduled executive compensation committee meetings. An equity award proposal is generally prepared for the executive compensation committee's consideration in the month following the month of the new employees' date of hire. These awards may only be made by the executive compensation committee and are typically based upon the recommendation of Dr. Sehat Sutardja.

Equity grants to employees (other than new hires) are generally made after the annual review process is completed. In the past, we did not have any policy to coordinate our stock option grants with the release of material non-public information for the purpose of affecting the value of equity compensation. Grants to executives with the title of associate vice president or higher must be made at the first regularly scheduled meeting of the executive compensation committee after the completion of the annual review that occurs during an "open window" pursuant to our insider trading policy.

Tax Considerations

The executive compensation committee considers the potential effects of Section 162(m) of the Internal Revenue Code on the compensation paid to our named executive officers. Section 162(m) generally disallows a tax deduction to any publicly held corporation for compensation exceeding \$1 million paid in any taxable year to certain executive officers, unless the compensation is performance-based.

The executive compensation committee has examined our current executive compensation program and determined that, for fiscal 2009, none of our named executive officers received compensation that would not be deductible under Section 162(m).

While we cannot predict how the \$1 million deduction limit may impact our executive compensation program in future years, the executive compensation committee intends to maintain an approach to executive compensation that strongly links pay to performance. While the executive compensation committee has not adopted a formal policy regarding the tax deductibility of the compensation paid to Dr. Sehat Sutardja and our other named executive officers, the executive compensation committee intends to review the tax deductibility under Section 162(m) of executive compensation. However, the executive compensation committee may, in its judgment, authorize and pay compensation that does not satisfy the requirements of this or any of the other exemptions to the \$1 million deduction limit when it believes that such compensation is necessary and appropriate to attract and retain key executives.

Section 409A of the Internal Revenue Code imposes taxes in the event that an employee, including a named executive officer, receives "deferred compensation" that does not satisfy the requirements of Section 409A. Although we do not maintain a traditional nonqualified deferred compensation plan, Section 409A applies to certain severance arrangements and equity awards. Consequently, to assist our employees in avoiding the taxes imposed by Section 409A, we have structured our equity awards in a manner intended to either avoid the application of Section 409A or, to the extent doing so is not possible, comply with the applicable Section 409A requirements.

Accounting Considerations

We account for our equity compensation under SFAS 123R. Under SFAS 123R, we are required to estimate and record an expense for each equity award over its vesting period. The executive compensation committee reviews the effect of the compensation expense under SFAS No. 123R for equity compensation to the named executive officers.

Table of Contents

Other Policies

The executive compensation committee has not considered whether it would adjust or attempt to recover bonus awards paid to the named executive officers if the relevant performance objectives upon which such bonus awards were based were to be restated or otherwise adjusted in a manner that would have the effect of reducing the amounts awarded or paid. However, in accordance with Section 304 of the Sarbanes-Oxley Act of 2002, the Chief Executive Officer and Chief Financial Officer may be legally required to reimburse us for any bonus or other incentive-based or equity-based compensation she, he or they receive from us under certain circumstances.

In April 2008, our board of directors amended our insider trading policy to permit Exchange Act Rule 10b5-1 trading plans. Mr. de Urioste is the only employee to have implemented an Exchange Act Rule 10b5-1 trading plan. Currently, we do not have any stock ownership guidelines. The executive compensation committee has not believed that guidelines were necessary because of the significant stock ownership accumulated by Dr. Sehat Sutardja and Dr. Pantas Sutardja without such guidelines. The executive compensation committee and the nominating and governance committee of our board of directors continues to review the appropriateness of stock ownership guidelines for our named executive officers from time to time.

The executive compensation committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management. Based on such review and discussions, the executive compensation committee has recommended to our board of directors that the Compensation Discussion and Analysis be included in our Annual Report on Form 10-K for the fiscal year ended January 31, 2009 and this proxy statement.

- (1) Amounts listed in this column represent the compensation expense of option and stock awards we recognized, before forfeitures, under SFAS 123R for the respective fiscal year, rather than amounts paid to or realized by the named individual, and includes expense recognized for awards prior to the respective years. Please refer to Notes 1 and 9 of the notes to our consolidated financial statements included in our 2007, 2008 and 2009 Annual Report on Form 10-K for the fiscal years ended January 27, 2007, February 2, 2008 and January 31, 2009, respectively, for the underlying assumptions for this expense. There can be no assurance that options will be exercised (in which case no value will be realized by the individual) or that the value on exercise will approximate the compensation expense to be recognized by us over their vesting term. The executive compensation committee made separate grants based on previous years' performance. For more information, please see the Compensation Discussion and Analysis above.
- (2) These amounts were paid pursuant to our patent issuance bonus plan whereby employees are eligible to receive a bonus award for certain patent components including: \$500 for each patent disclosure submitted by that employee; \$250 for each patent disclosure in which that employee is a manager of at least one of the inventors; \$1,000 for each patent application filed on behalf of that employee; \$1,000 for each patent issued to that employee; and \$5,000 for every five patents issued to that employee. Amounts paid to our executive officers under the plan were approved by the executive compensation committee. The patent bonuses earned in fiscal 2007 were included in the All Other Compensation column in the summary compensation table in our proxy statement filed on September 14, 2007. The executive compensation committee discontinued the participation of executive officers in the patent issuance bonus plan in June 2007.
- (3) On December 15, 2008, the executive compensation committee approved a reinstatement of Dr. Sehat Sutardja's salary from \$1 to \$675,000 effective as of December 15, 2008.

The total incremental cost as estimated by us for the personal use of the corporate aircraft was \$30,370, including aircraft costs for fuel, fees for landing and parking and pilot expenses for food, hotels and car rental. During fiscal 2009, Dr. Sehat Sutardja took one personal flight and another business flight for which three passengers were attributable to his personal use for tax purposes. The value of the flights attributed to Dr. Sehat Sutardja was \$29,716, which was determined for each flight per the Standard Industry Fare level rate prescribed by the Internal Revenue Code. For more information regarding the corporate aircraft policy, please see the Compensation Discussion and Analysis above.

- (1) Options granted under the 1995 Plan and have a term of 10 years.
- (2) Amounts listed in this column represent the grant date fair value of option we awarded, under SFAS 123R for fiscal 2009, rather than amounts paid to or realized by the named individual. Please refer to Notes 1 and 9 of the notes to our consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended January 31, 2009 for the underlying assumptions for this expense. There can be no assurance that options will be exercised (in which case, no value will be realized by the individual) or that the value on exercise will approximate the compensation expense we will recognize over their vesting term.
- (3) 25% vests on the one year anniversary of the vesting commencement date and 1/4th yearly thereafter. The vesting commencement date was December 15, 2008.
- (4) This option is subject to the performance-based vesting in four separate and equal annual performance tranches (each a "Tranche") of 97,500 unvested options. Each Tranche will be associated with one of four complete fiscal years, beginning with our fiscal year 2010 and ending with our fiscal year 2013. The Tranche for any fiscal year will become vested and fully exercisable as of the 10-K Due Date if our Modified GAAP Operating Margin for such fiscal year is equal to or greater than the 60th percentile of the comparably calculated operating margin for the four consecutive fiscal quarters ending on or before our fiscal year for our Performance Peer Group (the "Performance Threshold"). If our Modified GAAP Operating Margin for any fiscal year performance period is less than the applicable Performance Threshold, the options for such Tranche shall not vest immediately, but shall be added to the unvested options of the following year's Tranche. If at the end of the Company's fiscal year 2013, any performance-based stock options remain unvested as a result of the Performance Threshold not having been achieved for our fiscal year 2013, then such shares shall become eligible to vest in a final fifth annual Tranche associated with our fiscal year 2014. If any performance shares remain unvested as a result of the Performance Threshold not having been achieved for our fiscal year 2014, the remaining unvested options shall expire. 10-K Due Date means, with respect to a fiscal year, the prescribed due date on which our Annual Report on Form 10-K is required to be filed with the SEC for the fiscal year. Modified GAAP Operating Margin with respect to a company shall mean its operating margin determined by adjusting operating margin calculated under generally accepted accounting principles to exclude the impact of (i) non-cash stock-based compensation charges recognized under SFAS 123R and (ii) non-cash acquisition-related charges, including intangible amortization and in-process research and development charges. The Performance Peer Group for this performance-based stock option grant is set forth on page 22 of this proxy statement in the Compensation Discussion and Analysis above.
- (5) Mr. Hosein is eligible to receive an annual incentive opportunity target up to 80% of Mr. Hosein's base salary. 50% of the annual incentive bonus would be earned based on our overall performance and the remaining 50% would be earned based on achievement of mutually agreed upon performance metrics. Payment of the bonus may be made in a combination of cash, options and/or restricted stock units. No annual incentive bonus was earned by Mr. Hosein in fiscal 2009.
- (6) 20% vests on the one year anniversary of the vesting commencement date and 1/60th monthly thereafter. The vesting commencement date was June 23, 2008.
- (7) This option vests if the target earnings per share (the "Target EPS") for the performance period is 200% of Baseline EPS. Performance is measured over six one-year performance periods with the first performance period beginning with the first fiscal quarter after Mr. Hosein commenced employment and ending on the 10-Q Due Date. For the first five performance periods, 20% of the option shares plus any option shares that did not vest in a prior performance period will vest and, in the sixth performance period, any option shares that did not vest in a prior performance period will vest if the performance metrics are met. If at the end of the sixth and final performance period, any unvested performance-based stock options remain unvested as a result of not having met or exceeded the Target EPS during the final performance period then the remaining unvested options shall expire. 10-Q Due Date means, with respect to a performance period, the prescribed due date on which our Quarterly Report on Form 10-Q is required to be filed with the SEC for the fiscal quarter of such performance period. EPS for purposes of this option grant is calculated by adjusting diluted net income per share under generally accepted accounting principles ("GAAP EPS") for the impact of (i) non-cash stock-based compensation charges by adding to GAAP EPS non-cash stock-based compensation expense recognized

Edgar Filing: MARVELL TECHNOLOGY GROUP LTD - Form DEF 14A

under SFAS 123R, and (ii) non-cash charges associated with purchase accounting and other write-off related expenses by adding to GAAP EPS amortization and write-off of acquired intangible assets and other, and acquired in-process research and development. Baseline EPS is calculated as the cumulative EPS for the four consecutive fiscal quarters immediately preceding the fiscal quarter in which his employment with us began. The Target EPS will be proportionately adjusted by the executive compensation committee for any stock split, reverse stock split, stock dividend, share combination, recapitalization or similar event affected subsequent to the date of grant. For more information regarding this performance-based option, please see the Compensation Discussion and Analysis above.

On December 27, 2006, Dr. Sehat Sutardja agreed to amend the option exercise price for such options to the corrected price that would have been applicable had the grants been made using the actual measurement dates for financial accounting purposes. There was no incremental fair value to any modified option awards, computed in accordance with SFAS 123R. The 2010 Target EPS will be proportionately adjusted by the executive compensation committee for any stock split, reverse stock split, stock dividend, share combination, recapitalization or similar event effected subsequent to the date of grant. Pro Forma EPS is calculated by adjusting diluted net income per share under generally accepted accounting principles (GAAP EPS) for the impact of (i) non-cash stock-based compensation charges by adding to GAAP EPS non-cash stock-based compensation expense recognized under SFAS 123R, and (ii) non-cash charges associated with purchase accounting and other write-off related expenses by adding to GAAP EPS amortization and write-off of acquired intangible assets and other, and acquired in-process research and development. Any of our executive officers may resign at any time and the employment of any executive officer may be terminated at any time by our board of directors.

George de Urioste

Mr. Hosein will be entitled to severance benefits if within 12 months of a change-in-control, we terminate his employment other than for cause, if Mr. Hosein terminates employment for good reason or if Mr. Hosein's employment is terminated within 30 days after being removed as Chief Financial Officer of the ultimate parent corporation of the surviving entity. Cause is defined as any of the following: (i) Mr. Hosein's willful and continued failure to perform the duties and responsibilities customary of his position after he has been delivered a written demand for performance from our Chief Executive Officer which describes the basis for his belief that he has not substantially performed his duties and provides him with 90 days to take corrective action; (ii) any act of personal and intentional dishonesty taken by him in connection with his responsibilities as our employee with the intention or reasonable expectation that such action may result in his substantial personal enrichment; (iii) Mr. Hosein's conviction of, or plea of nolo contendere to, a felony that our board of directors reasonably believes has had or will have a material detrimental effect on our reputation or business; (iv) a breach of any fiduciary duty owed to us by him that has a material detrimental effect on our reputation or business; (v) Mr. Hosein being found liable in any SEC or other civil or criminal securities law action or entering any cease and desist order with respect to such action (regardless of whether or not he admits or denies liability); (vi) Mr. Hosein's (A) obstructing or impeding, (B) endeavoring to influence, obstruct or impede, or (C) failing to materially cooperate with, any investigation authorized by our board of directors or any governmental or self-regulatory entity (an Investigation), however, Mr. Hosein's failure to waive attorney-client privilege relating to communications with his own attorney in connection with an Investigation will not constitute cause; or (vii) Mr. Hosein's disqualification or bar by any governmental or self-regulatory authority from serving in the capacity contemplated by this letter or his loss of any governmental or self-regulatory license that is reasonably necessary for him to perform his responsibilities to us under the terms of his offer letter, if (A) the disqualification, bar or loss continues for more than 30 days, and (B) during that period we use our good faith efforts to cause the disqualification or bar to be lifted or the license replaced.

Good Reason is defined as any of the following: (a) the assignment to Mr. Hosein of any duties inconsistent with his position, duties, responsibilities, reporting requirement, and status with us; (b) the material diminishment of his duties, responsibilities, or authority; (c) a reduction of more than 10% in the rate of pay he was receiving, even if a similar reduction applies generally to other executive officers of the company; (d) a reduction of less than 10% in the rate of pay he was receiving, unless a similar reduction applies generally to other executive officers of us; (e) a material reduction of any benefits, perquisites, pensions, life or medical insurance or disability plans, other than a reduction that is generally applicable to other executive officers of us; or (f) any relocation of his place of employment more than 50 miles from the current location.

The receipt of any severance or other benefits will be subject to Mr. Hosein signing and not revoking a standard separation agreement and mutual release of claims.

Potential Payments in the Event of Termination at the End of our Last Fiscal Year

The following table shows the potential payments that would have been made to Mr. Hosein had (i) a termination without cause or, his resignation for good reason, occurred as of January 31, 2009, in each case unrelated to a change-in-control of the company, and (ii) within twelve months of the consummation of a change-in-control, a termination without cause or, his resignation for good reason, occurred as of January 31, 2009. Under SEC rules and our written policy, a related person is a director, officer, nominee for director, or 5% shareholder since the beginning of the last fiscal year and their immediate family members. Pursuant to our policy, the following transactions will not be deemed to be related person transactions requiring approval by the nominating and governance committee:

Employment of executive officers. Any employment by us of an executive officer of our company if: (a) the related compensation is required to be reported in our proxy statement under SEC compensation disclosure rules; or (b) the executive officer is not an immediate family member of another executive officer or director of our company, and the related compensation would have been reported in our proxy statement under SEC compensation disclosure rules if the executive officer was a named executive officer, and the executive compensation committee approved (or recommended that our board of directors approve) such compensation.

Director compensation. Any compensation paid to a director if the compensation is required to be reported in our proxy statement under SEC compensation disclosure rules.

Certain transactions with other companies. Any transaction with another company at which a related person's only relationship is as an employee (other than an executive officer), director or beneficial owner of less than 10% of that company's shares, if the aggregate amount involved does not exceed the greater of \$1,000,000, or two percent of that company's total annual revenues.

Transactions involving competitive bids. Any transaction involving a related person where the rates or charges involved are determined by competitive bids.

Regulated transactions. Any transaction with a related person involving the rendering of services as a common or contract carrier, or public utility, at rates or charges fixed in conformity with law or governmental authority.

REPORT OF THE AUDIT COMMITTEE

The following is the report of the audit committee with respect to our audited financial statements for the fiscal year ended January 31, 2009. The information contained in this report shall not be deemed to be soliciting material or to be filed with the SEC, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, except to the extent that the company specifically incorporates the information by reference in such filing.

Established on March 21, 2000, the audit committee is currently comprised of three independent directors: Dr. Gromer, its Chairman, and Messrs. Chang and Krueger. Dr. Gromer was appointed to the audit committee and as chairman in December 2007, Mr. Chang was appointed to the audit committee on April 17, 2008, and Mr. Krueger was appointed to the audit committee in August 2005. During the fiscal year ended January 31, 2009, Dr. Gray also served on the audit committee until his resignation effective as of April 11, 2008. The purpose of the audit committee is to assist our board of directors in its general oversight of our financial reporting, internal controls and audit functions. The audit committee is directly responsible for the appointment, retention, evaluation, compensation, oversight and termination of our independent registered public accounting firm.

The audit committee reviews the results and scope of audit and other services provided by the independent auditors and reviews the accounting principles and auditing practices and procedures to be used in our financial reporting process, including its systems of internal control, and in the preparation of consolidated financial statements in accordance with generally accepted accounting principles. Our independent registered public accounting firm for the last fiscal year, PricewaterhouseCoopers, is responsible for performing an independent audit of those financial statements. As more fully explained in the audit committee's charter, the audit committee's responsibility is to provide oversight of and to review those processes. The audit committee does not conduct auditing or accounting reviews or procedures, and relies on information and representations provided by management and the independent auditors. The audit committee has relied on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States and on the representations of the independent registered public accounting firm included in their report on our financial statements.

The audit committee has reviewed and discussed the audited financial statements with our management. Management is responsible for maintaining adequate internal control over financial reporting and for assessing the effectiveness of internal control over financial reporting. The audit committee was kept apprised of the progress of management's assessment of our internal control over financial reporting and provided oversight to management during the process. In connection with this oversight, the audit committee received periodic updates provided by management at meetings throughout the year. At the conclusion of the process, management provided the audit committee with a report on the effectiveness of our internal control over financial reporting. The audit committee reviewed this report of management and Item 9A, "Control and Procedures," contained in our Annual Report on Form 10-K for the fiscal year ended January 31, 2009 filed with the SEC, as well as PricewaterhouseCoopers' report of independent registered public accounting firm (included in our Annual Report on Form 10-K) relating to its audit of the consolidated financial statements. The audit committee also reviewed with management and PricewaterhouseCoopers (a) matters related to the conduct of the audit of the consolidated financial statements by the independent registered public accounting firm and its audit of internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 and (b) the additional analyses undertaken and procedures performed by us to support certifications by our Chief Executive Officer and Chief Financial Officer that are required by the SEC and the Sarbanes-Oxley Act of 2002 to accompany our periodic filings with the SEC.

In addition, the audit committee has reviewed and discussed the audited financial statements with PricewaterhouseCoopers, including such items as Statement on Auditing Standards No. 61, as amended, "Communication with Audit Committees," as adopted by the Public Company Accounting Oversight Board. The

audit committee has received from the independent registered public accounting firm, PricewaterhouseCoopers, the written disclosures and the letter required by the Public Company Accounting Oversight Board, and the audit committee has discussed with PricewaterhouseCoopers the independence of the independent registered public accounting firm.

After review of all discussions and all written correspondence described above, as well as such other matters deemed relevant and appropriate by the audit committee, the audit committee recommended to our board of directors that the audited financial statements for the last fiscal year be included in our Annual Report on Form 10-K for the fiscal year ended January 31, 2009. The audit committee re-appointed PricewaterhouseCoopers as our independent registered public accounting firm for the year ending January 30, 2010, subject to our shareholders approving such appointment at the annual general meeting of shareholders.

In accordance with Section 89 of the Act, our shareholders have the authority to appoint our auditors and independent registered public accounting firm, and to authorize the audit committee, acting on behalf of our board of directors, to fix the remuneration of the auditors and independent registered public accounting firm. At the annual general meeting, shareholders will be asked to re-appoint PricewaterhouseCoopers as our auditors and independent registered public accounting firm, and authorize the audit committee to fix the remuneration of the auditors and independent registered public accounting firm for the fiscal year ending January 30, 2010.

Board Recommendation and Required Vote

Our board of directors unanimously recommends that you vote FOR the re-appointment of PricewaterhouseCoopers as our auditors and independent registered public accounting firm, and authorization of the audit committee, acting on behalf of our board of directors, to fix the remuneration of the auditors and independent registered public accounting firm, in both cases for the fiscal year ending January 30, 2010.

Unless authority to do so is withheld, the proxy holders named in each proxy will vote the shares represented thereby FOR the re-appointment of PricewaterhouseCoopers and the authorization of the audit committee to fix its remuneration. Assuming the presence of a quorum, the required vote is the affirmative vote of at least a majority of votes cast and entitled to vote at the annual general meeting. Abstentions and broker non-votes will be entirely excluded from the vote and will have no effect on the outcome. In the event that the shareholders do not re-appoint PricewaterhouseCoopers at the annual general meeting, Bermuda law requires that the existing auditors and independent registered public accounting firm remain in office until a successor is appointed in accordance with Bermuda law and our Bye-Laws.
