BRASIL TELECOM SA
Form 425
August 14, 2009

Filed by Tele Norte Leste Participações S.A.

Pursuant to Rule 425 of the Securities Act of 1933

Subject Company: Brasil Telecom Participações S.A.

Commission File No.: 001-14477

Subject Company: Coari Participações S.A.

Commission File No.: 132-02657

Subject Company: Brasil Telecom S.A.

Commission File No.: 001-15256

THE FOLLOWING ARE MATERIALS MADE PUBLIC BY TELE NORTE LESTE PARTICIPAÇÕES S.A., TELEMAR NORTE LESTE S.A., COARI PARTICIPAÇÕES S.A., BRASIL TELECOM PARTICIPAÇÕES S.A. AND/OR BRASIL TELECOM S.A. RELATING TO THE PROPOSED MERGER OF BRASIL TELECOM PARTICIPAÇÕES S.A. WITH AND INTO BRASIL TELECOM S.A.

* * * * *

Additional Information and Where to Find It:

This communication contains information with respect to:

the proposed merger (*incorporação*) of Brasil Telecom Participações S.A. (Brasil Telecom Holding) with and into Brasil Telecom S.A. (Brasil Telecom);

the proposed share exchange (*incorporação de ações*) between Brasil Telecom and Coari Participações S.A. (Coari); and

the proposed merger (*incorporação*) of Coari with and into Telemar Norte Leste S.A. (Telemar).

In connection with the merger of Brasil Telecom Holding with and into Brasil Telecom, Brasil Telecom (1) has filed with the U.S. Securities and Exchange Commission (the Commission) a registration statement on Form F-4, containing a prospectus which will be mailed to the shareholders of Brasil Telecom Holding, and (2) has filed and will file with the Commission other documents regarding the merger.

In connection with the proposed share exchange between Brasil Telecom and Coari, Coari plans to file with the Commission (1) a registration statement on Form F-4, containing a prospectus which will be mailed to the shareholders of Brasil Telecom, and (2) other documents regarding the proposed share exchange.

In connection with the proposed merger of Coari with and into Telemar, Telemar plans to file with the Commission (1) a registration statement on Form F-4, containing a prospectus which will be mailed to the shareholders of Coari, and (2) other documents regarding the proposed merger.

We urge investors and security holders to carefully read the relevant prospectuses and other relevant materials when they become available as they will contain important information about the proposed share exchange and mergers.

Investors and security holders will be able to obtain the documents filed with the Commission regarding the proposed share exchange and mergers, when available, free of charge on the Commission's website at www.sec.gov or from the issuer of the relevant securities, Brasil Telecom, Coari or Telemar, as applicable.

Special Note Regarding Forward-Looking Statements:

This communication contains certain forward-looking statements. Statements that are not historical facts, including statements about our beliefs and expectations, are forward-looking statements. The words anticipates, believes, estimates, expects, plans and similar expressions, as they relate to Tele Norte Leste Participações S.A., Telemar, Coari, Brasil Telecom Holding and Brasil Telecom, are intended to identify forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations. Undue reliance should not be placed on such statements. Forward-looking statements speak only for the date they are made.

1

Rio de Janeiro, August 13, 2009: Tele Norte Leste Participações S.A. (Bovespa: TNLP4 and TNLP3), Telemar Norte Leste S.A. (Bovespa: TMAR3, TMAR5 and TMAR6), Brasil Telecom Participações S.A. (Bovespa: BRTP3 and BRTP4) and Brasil Telecom S.A. (Bovespa: BRTO3 and BRTO4) are pleased to announce their results for the second quarter of 2009. This release contains the consolidated results of Tele Norte Leste Participações and its direct and indirect subsidiaries as of June 30, 2009. In order to better understand the results and view the progression from past performance, we present the pro-forma 2Q08 consolidated figures for TNLP (Oi) and BrTP.

Message to our Shareholders:

With the aim of updating our shareholders and the market on the integration of Oi and Brt, we wish to share the status of this important moment.

From a corporate standpoint: (i) As of the end of June, the acquisition of Brasil Telecom ON shares was completed by means of a Mandatory Tender Offer. After this stage, a total of R\$12.4 billion had been disbursed for the acquisition of a 55% stake in Brasil Telecom Participações and an 11% interest in Brasil Telecom S.A.. Considering the stake that BrTP already held in BrTO, the latter will have a 22% free float. (ii) As of the end of July, following the end of the quarter, we carried out the first stage of the corporate simplification plan, during which several shareholders' meetings were held to approve the incorporation of many holdings into BrTP and BrTO, without affecting current shareholding ownership.

From an operating perspective, shortly after the BrT's acquisition we began to integrate both companies, seeking to achieve immediate synergies and to consolidate commercial practices. The priority of the Company's management team is to quickly obtain benefits from the integration and to generate as much cash as possible in order to reduce Oi's net debt. The main actions that we carried out include:

Management: Oi's senior managers are concentrated in Rio de Janeiro in a single and integrated organization that covers all operations. In addition, there were the unification of many departments such as accounting, supply planning, legal, treasury, human resources, auditing, investor relations, among others;

Unification of the Network Operating Center in Rio de Janeiro: The operational integration of the Telecom networks was finalized, in order to provide the best technical quality in the market. Therefore, the old network operating centers were merged into one single unit in Rio de Janeiro, in addition to several processes in use at both companies, the data centers, IT-Information Technology areas and contracts for computer support and services, among others.

Review of the internal and external plant maintenance model: By targeting an improvement in the quality of services and a reducing spending on network maintenance, the internal and external plant maintenance model was reviewed. The new model was applied to the internal plant leading to significant synergy gains (to be incorporated just in the second half of the year), while the review of the external plant has yet to be conducted;

Launch of the Oi brand in Region II: During the initial months of the year, all of Brasil Telecom's brand impressions were mapped and the migration process started. In less than one month about 10 thousand public

telephones, 80 stores and kiosks, more than 700 authorized stores and roughly 1,000 sales counters had been migrated. Additionally, every call center attendant and field technician has been re-trained and their service routines altered. In support of this migration, many marketing campaigns supporting the launch of the Oi brand in the Brasil Telecom region was conducted. These campaigns conveyed Oi-brand messages such as freedom and simplicity.

Oi offers launched in the wireless segment: In May Oi entered Region II and offered the Oi Ligadores prepaid plan, migrating 100% of sales to naked sim card sales. This offer enabled Oi to add one million customers in just one month. The company kept working to align its mobile portfolios and launched the post paid plans Oi Controle (the control post paid plan) and Oi Conta (the post paid plan) in June.

Implementation of a single sales and service model: A single model for sales and service operations for all of Oi's channels is being implemented. The retail market area was restructured in order to focus on small-scale retail channels with exclusive distributors, thus guaranteeing greater efficiency and expanding the company's distribution. This action was followed by an expansion of virtual recharge through the launch of Oi PDV.

The company's stores are being migrated to Oi's franchise model, which will enable more sales, better relationship with clients and a gain in distribution. As for the authorized agents, the focus is being redirected to the post-paid segment. The corporate segment is aiming to consolidate a nationwide approach to customers.

Other initiatives: In all, more than 40 actions directed to boost efficiency in the two companies' combined operations have already been implemented. Some of these actions have already generated savings, while others will only amount to lower costs in the coming months. In addition to these described measures, we highlight actions adopted to curb roaming costs, costs of goods sold (sim cards mostly), interconnection costs and the review of the company's logistics.

The project started six months ago and we now have a better perception of what is feasible for the full year. Our analysis point to cost savings and CAPEX-synergy benefits for 2009.

The two companies will fully integrate by the start of 2010. This process will prepare Oi for a new operating level, whose results will only start being felt next year. In 2010 the company will stop having non-recurring impacts linked to the integration process and to the start-up in São Paulo.

1) **HIGHLIGHTS IN 2Q09:**

59.8 million Revenue Generating Units (RGUs) at the end of June 2009, with 2.2 million net additions in the quarter.

Oi Mobile ended the period with almost 34 million customers, boosted by the start of the portfolio integration with Brasil Telecom through the launch of the Oi Ligadores campaign in Region II, in addition to the São Paulo operation. Oi's nationwide market share in this segment rose from 19.0% in June 2008 to 21.3% in June 2009.

224 thousand new customers in fixed broadband and 3G mini modems in 2Q09, of which 128 thousand were via ADSL/cable and 96 thousand via mini modems. Additionally, approximately 44 thousand new customers were added to the mobile broadband (3G) services via data plans. The total of new broadband customers (fixed and mobile) added to 268 thousand in the quarter.

Consolidated gross revenue totaled R\$11.2 billion, stable as compared to the previous quarter and 2.9% higher than that in 2Q08. During this period, the company was not very active in marketing in Region II, which was reflected in the performance of wireline and broadband services in that region. Oi offers will be launched during the second half for these services.

Consolidated adjusted EBITDA totaled R\$2.4 billion in the quarter, 6.6% lower year-over-year mostly due to the São Paulo operation, which is still in its launch phase. Recurring EBITDA rose 3.0% in the quarter.

Consolidated Net Debt at Oi ended June 2009 at R\$21.6 billion, or 2.2x consolidated adjusted EBITDA for the past 12 months, following the disbursement for the acquisition of shares held by the minority shareholders of Brasil Telecom in the Mandatory Tender Offer.

In addition to non-recurring operating impacts, the R\$146 million loss (R\$-0.38 per share and US\$-0.18 per ADR) stems, mainly, from a temporary fiscal distortion due to the amortization of premium related to the BrT acquisition. We highlight that throughout 2Q09 this premium was still on the balance sheets of the holding companies that were created to acquire BrTP, thus not generating fiscal saving yet.

* The pro-forma consolidation was made from Invitel consolidated, the parent company of BrTP.

2) CONSOLIDATED OPERATING PERFORMANCE:

Following the acquisition of Brasil Telecom Participações in January 2009, below are the consolidated pro forma figures related to 2Q08 for comparison purposes.

The company ended 2Q09 with 59.8 million Revenue Generating Units (RGUs), 3.7% higher quarter-over-quarter and 17.6% above the 2Q08 level. Once again, the result was influenced by the expansion of the wireless user base and fixed broadband internet services.

August 13, 2009

www.oi.com.br/ir

5

Wireline Oi Fixed

The fixed lines in service were stable quarter-over-quarter and year-over-year. The fixed to mobile substitution and the increase in competition in some markets are being offset by the rise in offers of converging products (Oi Conta Total) and alternative plans, which help retain clients. At the end of 2Q09, alternative plans reached 11,332 thousand users, or 52.1% of fixed lines in service (50.8% in 1Q09).

Broadband Oi Velox

The fixed broadband accesses totaled 4,066 thousand, 3.2% and 15.7% higher than those in 1Q09 and 2Q08, respectively, accounting for 18.5% of fixed lines in service in the quarter (17.8% in 1Q09). Although net additions exceeded those in the previous quarter by 9%, it is worth mentioning that this performance was not backed by marketing actions in the first five months in Region II, while offers for broadband services similar to those in Region I will only be launched in the second half of this year.

In addition to fixed broadband, we understand that additions to the broadband service through mini-modems must be part of this analysis, because this is a broadband alternative offered to our clients. In 2Q09, 96 thousand users joined this segment.

The expansion of the broadband user base (ADSL + cable + 3G mini modems) totaled 224 thousand in 2Q09, in a 21.7% growth over 2Q08.

Wireless Oi Mobile

The wireless base added 2,097 thousand users to end the quarter with 33.9 million customers, accounting for 56.7% of all revenue generating units. In the last 12 months, the mobile segment grew by 8,618 thousand customers (+34.0%), being 3,621 thousand in Region III (SP) where operations began at the end of October of last year and 4,997 thousand from organic growth in Regions I and II (+19.7%).

The prepaid user base rose 7.0% in the quarter and 35.2% since 2Q08, mostly influenced by the successful Oi Ligadores campaign. The start of the Oi Cartão prepaid offer in Region II in May 2009 contributed positively to the addition of 761 thousand users in the quarter. The performance of the prepaid segment in Region II accounts for 40.2% of net additions in the segment.

The post-paid client base rose by 205 thousand quarter-over-quarter and 1,131 thousand since 2Q08, ending June with 5,183 thousand users (15.3% of the total). The Oi Conta Total plan, with 1,276 thousand customers at the end of 2Q09, already amounts to 31% of the post-paid base (29% in 1Q09) in Region I, the only area where it is available.

The 3G mobile internet base, including mini modems and data plans, ended June 2009 with 327 thousand users, with 140 thousand net additions in the quarter.

Oi's market share and penetration rates in June 2009 by region were:

Region I: 30.3% and penetration of 74.0%;

Region II: 16.2% and penetration of 91.8%;

Region III: 9.0% and penetration of 98.6%;

* Alternative plans include Planos de Minutos , Plano Economia , Digitronco , PABX Virtual and others.

3) CONSOLIDATED FINANCIAL RESULTS:

3.1) Revenue:

Consolidated gross revenue fell slightly compared with the previous quarter (-0.5%) and grew year-over-year (+2.9%). Again, annual expansion was fueled by the increase in revenues from data services (in spite of aggressive competition mostly in Region II) and from the mobile segment, partly offset by a small reduction in revenue from the traditional wireline segment.

Data and mobile segment revenues became more relevant, presently accounting for 39.3% of the company's consolidated gross revenue.

* Adjusted to adequately reflect revenue from fixed-to-mobile traffic (VC2/3).

Wireline Services:

Gross revenue from wireline services rose 0.5% from 2Q08. Year to date, revenue climbed especially as a result of growth in data revenue (+17.8%), partially offsetting the reduction in long-distance services and remuneration for network use. It must be noted that in general, the sharp reduction in marketing campaigns in Region II in the first five months of the year hit revenue growth in the wireline segment at that region in the quarter.

Local Service:

Fixed-to-Fixed (subscription, traffic, connection fee)

Revenues from fixed-to-fixed local service were stable compared with 1Q09 and 2Q08. The slight reduction in fixed lines in service was partially offset by greater minute packages in the alternative plans, in an attempt to widen recurring revenue. Compared with 2Q08, revenues were positively influenced by the tariff readjustment of July 2008 (Region I: 2.76%; Region II: 3.0%).

Edgar Filing: BRASIL TELECOM SA - Form 425

Fixed-to-Mobile:

(VC1)

Smaller traffic had a major impact on revenue for this service compared with the previous quarter. The tariff readjustment of July 2008 kept revenue stable (-0.2%) in the last 12 months.

August 13, 2009

www.oi.com.br/ir

8

Long Distance Services (LD) FF + SMP + VC2 and 3:

The 10.9% reduction in long-distance revenue results from a decrease in year-over-year traffic and a reduction in SMP traffic. We point out that in 2Q08 this type of traffic had been positively influenced by an incentive for Oi-originated long-distance calls, with the inclusion of long distance selection code 31 in the bonus of Oi Ligadores.

Remuneration for Network Usage:

Remuneration for fixed network usage, after R\$117 million eliminations in transactions among group companies, fell R\$38 million in the quarter and R\$50 million from 2Q08, basically due to a decrease in traffic. Comparing with 2Q08, it is evident that during that period calls originated on mobile networks and ended on fixed networks were also included in the mobile bonuses.

Data Communication Services:

Oi Velox revenues were the highlight in the fixed revenue, helping the quarter-over-quarter (+R\$69 million) and year-over-year comparisons (+R\$349 million). This result stems from growth in the Oi Velox ADSL access base, which has expanded 15.7% year-to-date. We highlight that these services could have performed better were it not for the sharp reduction in marketing campaigns in Region II during this period.

Wireless Segment:

Gross revenue from wireless services grew R\$84 million and R\$269 million quarter-over-quarter and year-over-year, respectively. The following factors influenced this result:

Subscription revenues increased compared with 1Q09 (+R\$8 million) and with 2Q08 (+R\$109 million), reflecting growth in the average user base and greater minute packages in the post-paid segment;

Revenues from outgoing calls rose due to a strong expansion in the prepaid client base (7.0% quarter-over-quarter and 35.2% year-over-year), boosted by the Oi Ligadores campaign, which began in May in Region II through the prepaid offer Oi Cartão ;

Consolidated revenue for mobile network usage ended the quarter at R\$566 million, after eliminating R\$535 million related to intercompany transactions, thus 9.5% and 8.8% higher than the results posted in 1Q09 and 2Q08, respectively, due to a greater average user base;

Data and value-added services revenues were stable in the quarter (+0.4%) but rose 46.3% compared with 2Q08 mostly due to the increase in 3G data subscription services and SMS services. The latter rose due to growth in the average client base, especially the prepaid base.

Average ARPU in the mobile segment (R\$21.0) was similar to that in the previous quarter and 15.0% lower as recorded in 2Q08. The annual reduction was basically driven by the recent relevant increase in Oi's customer base.

3.2) Operating Expenses:

Operating expenses in the quarter (excluding depreciation/amortization) fell R\$316 million in the quarter mainly as a result of lower spending on personnel, handset costs and other operating expenses, partially offset by an increase in marketing, third-party services and non-recurring expenses.

There were non-recurring expenses both in 2Q08 and 2Q09. In addition, there were costs and expenses accounted for this quarter that were not present one year ago (non-comparable items), as follows:

(1) Non-recurring costs and expenses in 2Q09 (R\$126 million) amounting to: consulting expenses related to the acquisition of Brasil Telecom, end of the deferral of subsidies on post-paid handsets, as detailed in the item Handset Costs/ Other COGS), as well as expenses linked to the integration of Oi and BrT;

(2) Non-comparable items in 2Q09 vs. 2Q08 (R\$287 million) consisting of: start-up in São Paulo and standardization of accounting policies at BrT and Oi.

Excluding the non-recurring effects in 2Q09 and 2Q08, consolidated operating expenses in the quarter vs. 2Q08 would have been stable. Excluding the recurring effects, there would have been a decrease of R\$289 million (-5.9%).

Table 4 Breakdown of Operating Expenses

| Item - R\$ million | 2Q08 | | Quarter | | | Half-Year | | |
|---|--------------|--------------|--------------|-------------|-------------|----------------|---------------|------------|

| Other Operating Expenses (Revenue), Net | 657 | 553 | 221 | -60.0 | -66.4 | 1,056 | 774 | -26.7 |
| TOTAL | 5,043 | 5,295 | 4,979 | -6.0 | -1.3 | 9,690 | 10,275 | 6.0 |

* The pro-forma consolidation was made from Invitel consolidated, the parent company of Brasil Telecom Participações.

Interconnection:

Consolidated interconnection costs were stable compared with the previous quarter, and were lower by 1.9% compared with 2Q08 mainly stemming from a reduction in outgoing traffic seen in Region II, given the wireless market share gain in this region (+1.9 percentage point).

Personnel:

Higher personnel expenses in the quarter (1.5%) due to the administrative restructuring that had taken place during the period. Compared with 2Q08, growth of 20.5% is basically due to: (a) an increase in the number of employees, which rose 11% in twelve months, especially in the call center (b) salary readjustment that took place at the end of last year; (c) an increase in spending generated by the integration with Brasil Telecom.

August 13, 2009

www.oi.com.br/ir

10

The increase in employees compared with 2Q08 stems from the launch and expansion of operations in São Paulo, as well as from Decree 6,523 (customer service regulation) in force since December 2008.

| Personnel | 2Q08 | 1Q09 | 2Q09 |
|----------------|---------------|---------------|---------------|
| TNL | 10,363 | 10,940 | 11,113 |
| BRT | 17,828 | 20,581 | 20,125 |
| Fixed / Mobile | 5,809 | 5,417 | 4,685 |
| Call Center | 12,019 | 15,164 | 15,440 |
| Total | 28,191 | 31,521 | 31,238 |

Handset Costs and Others (COGS):

Cost of goods sold (COGS) were affected by the non-cash cost when deferral of subsidies ended on post-paid handsets starting at the beginning of this year. Previously, the subsidy on post-paid handsets sold in the retail market was deferred at an average unit cost of R\$300, which was feasible due to the penalty customers paid for early cancellations or for migrating to a prepaid plan. This subsidy used to be amortized in 12 months. Currently, only the post-paid handsets sold in the corporate segment follow this procedure.

Third-Party Services:

Spending on third-party services rose R\$25 million in the quarter and R\$144 million compared with 2Q08.

Compared with the previous quarter, growth stemmed from:

Higher spending on plant maintenance;

A rise in commissions, basically as a result of higher Oi Velox sales.
Compared with 2Q08 there was:

Higher spending on plant maintenance, in addition to growth in the broadband user base and the increase generated by the mobile start-up in São Paulo;

Greater spending on commissions, mostly linked to the rise in Oi Velox and Oi Conta Total sales, and to the mobile start-up in São Paulo;

Higher call center expenses in Regions I and III stemming from the start-up in São Paulo, in addition to the impact of the demands brought by Decree 6,523.

August 13, 2009

www.oi.com.br/ir

11

Marketing:

Marketing expenses climbed R\$24 million in the quarter mostly due to spending on offers and the unification of the Oi brand in Region II. This expense was stable year-over-year.

Provisions for Bad Debts:

Provision for bad debts shrank 5.3% in the quarter, mostly as a result of an improvement in the corporate segment, and accounted for 3.4% of consolidated gross revenue. Year to date, 17.4% growth was fueled by the standardization of accounting policies of Oi and BrT.

Other Operating Expenses (Income):

Other operating expenses fell R\$332 million and R\$436 million compared with 1Q09 and 2Q08, respectively. Excluding the non-recurring effects in 2Q08, there was a year-over-year reduction due to smaller provisions for contingencies, especially civil and tax contingencies, and the reversion of the provision for employee profit sharing.

This item's reduction in the quarter also stems from smaller contingencies (mainly labor and tax-related) and from the reversion effect mentioned previously.

3.3) Other Items in the Consolidated Result:**EBITDA:****Table 5 Adjusted EBITDA and Adjusted EBITDA Margin**

| | Quarter | | | | | Half-Year | | |

* The pro-forma consolidation was made from Invitel consolidated, the parent company of BrTP.

August 13, 2009

www.oi.com.br/ir

12

Consolidated adjusted EBITDA totaled R\$2,449 million, 6.6% less compared with the pro-forma consolidated EBITDA for 2Q08 and 3.0% higher than that in the previous quarter. The year-over-year decrease was mainly a result of higher costs due to the São Paulo start-up and to the standardization of the accounting policies at Oi and BrT. These items did not exist last year. Excluding such effects, EBITDA would have remained stable compared with 2Q08.

TNL PCS (Oi Mobile) reported a R\$399 million EBITDA, an amount that includes non-recurring (and non-cash) items of R\$60 million, related to the end of the post paid handset subsidies. Still, this is R\$109 million higher than the amount recorded in the previous quarter due to growth in revenue generated by the increase in the user base combined with stable costs. However, there was a year-over-year reduction stemming from the São Paulo start-up and the end of the deferral of subsidies on post-paid handsets (retail). Excluding these effects, EBITDA would have reached R\$556 million (32.6% margin), equaling 13.9% growth.

Net Financial Income (Expenses):

Consolidated net financial expenses amounted to R\$496 million in 2Q09, representing a R\$134 million decrease in the quarter. However, it rose by R\$427 million compared with 2Q08. In the quarter, the result was influenced mainly by a foreign exchange gain over not hedged debt, given the real appreciation versus the U.S. dollar (15.7%) and the Japanese Yen (13.2%). Compared with 2Q08, growth occurred due to a greater average debt volume, combined with higher borrowing costs in the Brazilian market since 3Q08.

Table 6 Net Financial Income (Expenses)

| R\$ Million | Quarter | | | Half-Year | |

* The pro-forma consolidation was made from Invitel consolidated, the parent company of BrTP.

Depreciation/Amortization:

Depreciation and amortization in the wireline segment climbed 14.9% and 17.4% from 1Q09 and 2Q08, respectively. The increase in amortization resulted mainly from the reassessment of BrTP's shareholders' equity at market prices. The preliminary report defined that part of the premium was based on goodwill.

August 13, 2009

www.oi.com.br/ir

13

therefore without amortization. According to new analyses, this should represent a concession surplus for the rendering of telephony services, thus amortized over 17 years, as established by the corporate and fiscal legislation. This revaluation led to the recording of past amounts.

Depreciation in the wireless segment rose 14.2% compared with 2Q08 due to higher investments made since 2008 for the start-up in São Paulo and the beginning of amortization of 2G and 3G licenses.

Table 7 Depreciation and Amortization

| R\$ million | Quarter | | | | | Half-Year | | |
|-------------------------------|--------------------|--------------|--------------|-------------|-------------|-------------------|--------------|-------------|
| | 2Q08 Pro forma* | 1Q09 | 2Q09 | QoQ (%) | YoY (%) | 1H08 Pro forma | 1H09 | YoY (%) |

* The pro-forma consolidation was made from Invitel consolidated, the parent company of BrTP.

Net Earnings:

The company recorded net losses earnings in the amount of R\$146 million in 2Q09. This result was hit mainly by temporary fiscal effects due to amortizations of the goodwill generated by the acquisition of BrT, which was caused by our corporate ownership structure then. This distortion will disappear when BrT's corporate structure is streamlined, in accordance with the Material Fact of July 15, 2009.

4) DEBT AND CAPITAL EXPENDITURE:**4.1) Debt:**

Consolidated net debt rose by R\$2,442 million in 2Q09 to end the quarter at R\$21,638 million, or 2.2x adjusted EBITDA in the last 12 months. This growth results from a cash disbursement made during the quarter for the payment of ON shares acquired in the Mandatory Tender Offer taken place on June 23, 2009, which led to a total payment of R\$2,656 million to minority shareholders of Brasil Telecom.

Debt borrowed in foreign currencies and swaps accounted for 21.6% of total debt at the end of June 2009. However, at the end of the quarter the company's consolidated exposure to foreign exchange was 1.7% of total gross debt, equaling US\$225 million, or R\$498 million in June 2009, due to hedging operations. We note that debt payments through February 2011 are covered by hedging contracts and a cash balance kept in dollars.

The average cost of debt in the second quarter 2009 equaled 115% of the CDI interbank rate for local currency debt and USD Libor + 5% p.a. for debt in foreign currencies. For the quarter, however, the effective debt cost including hedging operations was 11.45% p.a., equating to 105% of the CDI rate. In the quarter, debt costs were influenced by the real rising against other currencies, which contributed to reduce the cost of debt that was still exposed to foreign exchange variation. The reduction in interest rates in 2009 also had a positive impact on debt costs, provided that after hedging operations much of the debt was linked to floating rates (about 97% of total debt).

16

The March 23, 2009 Ordinary General Meeting approved the public issuance by TMAR of simple non-convertible debentures. The issuance took place on April 6, 2009 and was effected in May 2009 in the amount of R\$2,571,677 thousand. The issuance involved 2,571,677 debentures in two series at a unit price of R\$1,000.00, as detailed below:

| | Nbr. of Debentures | Total Issued (R\$ million) | Rate | Maturity |
|------------------------|--------------------|----------------------------|-------------|------------|
| 1 st series | 964,409 | R\$ 964.4 | 115% of CDI | May 2011 |
| 2 nd series | 1,607,268 | R\$ 1,607.3 | 120% of CDI | April 2012 |
| Total | 2,571,677 | R\$ 2,571.7 | | |

This issuance aimed to extend TMAR's debt, whereas before, maturities were concentrated in 2009 and 2010 due to short-term borrowings carried out to help acquire Brasil Telecom Participações.

4.2) Capital Expenditure:

Consolidated capital expenditure totaled R\$940 million in 2Q09, 3.9% higher than that in the previous quarter and 63.8% smaller than that in 2Q08. Capex in 2Q09 accounted for 13% of consolidated net revenue, of which R\$466 million were earmarked to the mobile segment (49.6%) and R\$473 million to the fixed segment (+50.4%).

Capital expenditure in the fixed segment was 40.2% lower than that in 2Q08, basically as a result of the high sum invested in the expansion of coverage and capacity of the broadband platform, as well as an investment to adapt the network to number portability, which started in September 2008.

In the wireless segment, capital expenditure rose 21.4% in the quarter, especially for the expansion and improvement of the network. Year-over-year, the reduction (-74.2%) was influenced by the registration of licenses in April 2008 for the exploration of 3G network in regions I, II and III of the PGA (General Plan of Authorizations), and by investments directed to the São Paulo start-up.

Table 14 Capital Expenditure

| R\$ million | 2Q08 | | Quarter | | | Half-Year | | YoY (%) |
|----------------------------------|--------------|------------|------------|-------------|--------------|-----------------|--------------|--------------|
| | Pro forma* | 1Q09 | 2Q09 | QoQ (%) | YoY (%) | 1H08 Pro forma* | 1H09 | |

| 2G / 3G Licenses | 1,355 | 0 | 0 | | | 1,355 | 0 | |
| TOTAL | 2,599 | 905 | 940 | 3.9 | -63.8 | 3,406 | 1,845 | -45.8 |

5) ADDITIONAL INFORMATION:

5.1) Acquisition of Brasil Telecom Participações Events Taken Place in 2Q09

a) Outcome of the Tag Along Offer

On June 23, 2009 TMAR acquired R\$2,655.9 million in common shares of BrTP and BrTO through its indirect subsidiaries Copart 1 Participações S.A. and Copart 2 Participações S.A. at Voluntary Tender Offers:

| | BrTP | BrTO |
|----------------------------|------------|-----------|
| ONs | 40,452,227 | 630,872 |
| % of ONs | 78.61% | 27.67% |
| Price per Share | R\$ 64.71 | R\$ 60.64 |
| Total Amount (R\$ million) | 2,617.66 | 38.26 |

Following the Public Offerings, the total amount spent on the acquisition of BrTP is below:

| Cash disbursement and total value | Amount |
|--|------------------|
| Acquisition of preferred shares in the market | R\$ 2.3 billion |
| Acquisition of preferred shares at Tender Offer for preferred shares | R\$ 1.0 billion |
| Acquisition of control | R\$ 5.4 billion |
| Mandatory Tender Offer | R\$ 2.7 billion |
| Total paid | R\$ 11.4 billion |
| Invitel debt | R\$ 1.0 billion |
| Total | R\$ 12.4 billion |

The capital of both companies is thus composed as follows:

| BRTP | Capital | Capital exc.- treasury | Controlling shareholders | % | Shares outstanding | % |
|--------------|--------------------|---------------------------|-----------------------------|-------------|-----------------------|-------------|
| Common | 134,031,688 | 132,550,888 | 121,545,213 | 91.7 | 11,005,675 | 8.3 |
| Preferred | 229,937,525 | 229,937,525 | 76,645,842 | 33.3 | 153,291,683 | 66.7 |
| Total | 363,969,213 | 362,488,413 | 198,191,055 | 54.7 | 164,297,358 | 45.3 |

| BRTO | Capital | Capital exc.- treasury | Controlling shareholders | % | Shares outstanding | % |
|--------------|--------------------|---------------------------|-----------------------------|-------------|-----------------------|-------------|
| Common | 249,597,049 | 249,597,049 | 247,948,052 | 99.3 | 1,648,997 | 0.7 |
| Preferred | 311,353,240 | 298,121,684 | 179,867,686 | 60.3 | 118,253,998 | 39.7 |
| Total | 560,950,289 | 547,718,733 | 427,815,738 | 78.1 | 119,902,995 | 21.9 |

Shareholder structure as of June 23, 2009

The absence of the holders of 8.3% in Brasil Telecom Participações S.A. common shares and of 0.7% in Brasil Telecom S.A. amounted to R\$812.2 million in savings for the company.

b) Goodwill generated in the Acquisition

As a result of the payments for the acquisition of Brasil Telecom Participações and Brasil Telecom S.A., a total original value of R\$8,282,349,832.80 was accounted for as premium. In June 2009 this amount was accounted for at the holding companies created specifically for the acquisition Copart 1 and Copart 2. The existing premium at Invitel and Solpart (original value of R\$690,834,984.31 million) must be added to the premium described above, thus leading the total premium the group will amortize to R\$8,973,184,817.11.

When the holding companies are incorporated by BrTP, the premium originally registered at Copart 1, Invitel and Solpart in the amount of R\$8,235,520,378.00 will be amortized at BrTP. The premium that was originally recorded at Copart 2 in the amount of R\$737,664,439.11 will be amortized at BrTO.

Premiums are based on the surplus value of the fixed assets on BrTO's concession right to provide wireline services (STFC). The amount related to the surplus value of the fixed assets, which accounts for R\$2,105,290,148.56 (23.5%) will be amortized in 7 years for accounting and fiscal purposes. The amount related to the licenses, in the amount of R\$6,867,894,668.55 (76.5%) will be amortized in 17 years, either for accounting and tax purposes, or until the end of the STFC concession contract at BrTO.

c) First Stage of the Corporate Structure Simplification

Extraordinary General Meetings took place at many holding companies on July 31, 2009, setting off the corporate reorganization process announced in a Material Fact of April 25, 2008 (when the acquisition of Brasil Telecom was announced). In the end, this will concentrate all remaining shareholders of BrTP and BrTO in Telemar.

This first stage had the goal of removing certain intermediary companies that were indirectly controlled by Telemar from the control structure of BrTP and BrTO (see organization chart on the following page), pursuant to the following stages concluded on July 31, 2009:

- (i) incorporation of Invitel by its subsidiary Solpart Participações S.A., with Solpart absorbing Invitel and the subsequent termination of Invitel;
- (i) incorporation of Invitel by its parent company Copart 1 Participações S.A., with Copart 1 absorbing Solpart and the subsequent termination of Solpart;
- (iii) incorporation of Copart 1 by BrTP, with BrTP absorbing Copart 1, without an increase in the capital of BrTP, through which Coari, which had all Copart 1 shares, received shares of BrTP in exchange for its shares of Copart 1, which was terminated; and
- (iv) incorporation of Copart 2 Participações S.A. (Copart 2) by BrTO, absorbing Copart 2 without increasing the capital of BrTO. It thus owns all Copart 2 shares and received BrTO shares in exchange for shares of Copart 2, which was terminated.

Shareholder Structure Before Meetings of July 31 2009

Shareholder Structure after Meetings of

*The numbers don't contemplate treasury shares

More information is available at:

http://www.novaoi.com.br/ArquivosEstaticos/RI/documentos/comunicados/2009.07.15_Fato%20Relevante_incorporacoes%20intermediarias_ingles.pdf

The Incorporations did not change the number of shares in the capital of BrTP and BrTO. The substitution of BrTP and BrTO shares for Telemar shares, already announced on April 25, 2008 are also maintained (already adjusted to dividends and IoC declared from April 25, 2008 through July 31, 2009).

| | Substitution |
|------------------|---------------------|
| 1 BRTO3 receives | 0.4388445 TMAR3 |
| 1 BRTP3 receives | 0.5349947 TMAR3 |
| 1 BRTO4 receives | 0.2764830 TMAR5 |
| | 0.0754842 TMAR3 |
| 1 BRTP4 receives | 0.2514940 TMAR5 |

D) Next steps In the Groups' s Corporate ReStructuring

On August 12, 2009 a Material Fact informed that in the coming 45 days Extraordinary General Meetings will be assembled for the incorporation of BrTP by BRTO, pursuant to the Material Fact of April 25, 2008.

The documents can be viewed at:

http://www.novaoi.com.br/ArquivosEstaticos/RI/documentos/comunicados/2009.08.12_FATO%20RELEVANTE_%20INCORPORACAO%20BRTP%20

http://www.novaoi.com.br/ArquivosEstaticos/RI/documentos/comunicados/2008.25.04_Fato%20Relevante%20TNL_TMAR-TmarPart_Ingles.pdf

E) Launch of Oi Mobile Offers in Region II

Following the successful launch of prepaid plans on April 24, 2009 through the Ligadores campaign, which introduced the Oi brand in Region II, Oi Controle post-paid offer was launched on June 22, 2009 and the Oi Conta offer was launched on July 5, 2009.

Oi Controle is a hybrid plan with a R\$34.90 allowance (R\$1.04 per additional minute). When the allowance ends, it switches to a prepaid plan and the client recharges the account as needed. In the launch offer, advantages such as monthly bonus between R\$600 and R\$750 were given on local and long-distance calls to any Oi (via codes 31 and 14), SMS to any operator and R\$150 credit in 10 credit card installments for any purchase or in order to decrease the allowance amount.

The launch campaign for the Oi Conta plans, valid for additions up to September 1, 2009, with allowances from R\$49.90 to R\$319.90 and monthly bonus of 1000 minutes on calls within Oi's fixed and mobile networks and 1000 SMS. In addition, customers are entitled to credits from R\$300 to R\$650 in 10 installments depending on the plan.

5.2) Corporate Restructuring of TMAR Participações

Telemar Participações S.A. advanced its restructuring process by informing that on July 3, 2009 the dissolution of Fiago Participações S.A. was approved, with the assets partitioned among its shareholders Previ, Fundação Atlântico de Seguridade Social (FASS), Petros and Funcef.

Following the approval of the dissolution of Fiago, the capital of TmarPart is thus divided as follows:

| | % of Total Capital |
|---|-------------------------------|
| AG Telecom Participações S.A. / Luxemburgo Participações S.A. | 19.325% |
| LF Tel S.A. | 19.325% |
| FASS | 11.490% |
| BNDESPar | 31.383% |
| Previ | 12.948% |
| Funcef | 2.790% |
| Petros | 2.739% |
| Total | 100.00% |

5.3) Dividends Dates for TNLP and TMAR

TNLP and TMAR shares started to be traded ex- dividends from July 1, 2009, as approved at the Ordinary General Meetings of April 14, 2009. Investors who owned shares on June 30, 2009 will be entitled to receive dividends, whose payment will be announced by the companies up to the end of the fiscal year.

| | R\$ per share (accrued until June 30, 2009) | Nbr. of shares (*) | Total Amount (R\$) |
|--------------|--|-------------------------------|-------------------------------|
| TNLP3 (ON) | 2.07931191 | 127,575,583 | 265,269,429.02 |

| TOTAL | | 237,326,888 | 820,387,076.29 |

5.4) BRTP and BRTO payment of Interest on Capital

On August 7, 2009, the Board of Directors of Brasil Telecom Participações and Brasil Telecom approved the beginning of the payment of Interest on Capital credited to shareholders during 2008 in the total gross amounts of R\$264.8 million for BRTP and R\$324.3 million for BRTO. Payment started on August 10, 2009.

BRTP R\$264.8 million

| Declaration Date | Date of Exc-IOC | Gross Amount per share (R\$) ON /PN | Amount Net of Income Tax per share (R\$) ON /PN | Total Gross Amount (R\$) |
|-------------------------|----------------------------|--|--|-------------------------------------|
| March 31, 2008 | April 9, 2008 | 0.5159 | 0.4385 | 187,000,000.00 |

5.6) DTH Launch

On July 15, 2009, the company's DTH services were officially launched commercially, initially available only in the State of Rio de Janeiro. It exceeded the company's expectations. The service is available through a main package where 26 channels are offered for R\$29.90 (regular price is R\$49.90) and it may reach as many as 57 channels. During the first week sales exceeded the original forecast, which led us to reassess the original business plan.

After the launch in Rio de Janeiro, Oi expects to expand the service across the country gradually. Within one year Oi TV is expected to be offered in the whole of Brazil.

5.7) LAW # 11,638/2007 RELATED TO THE ELABORATION AND DISCLOSURE OF FINANCIAL STATEMENTS

On December 28, 2007, Law 11,638/07 was put into effect and added new provisions to and modified Corporate Law 6,404/1976. This Law set a number of alterations to accounting practices and to the preparation of financial statements, aiming to align them with International Financial Reporting Standards (IFRS). Therefore, it attributed to the CVM the power to issue accounting norms and procedures for joint stock companies.

On December 3, 2008, the Provisional Measure 449/2008, with the force of law, instituted the RTT Transitional Tax Regime for the accounting of earnings, which deals with tax adjustments stemming from new accounting methods and criteria introduced by Law 11,638/2007, and introduces changes to Law 6,404/1976.

The following table shows the reconciliations of the financial and income statements announced on June 30, 2008, pursuant to Law 11,638/2007 in order to allow its comparison with the quarter ended June 30, 2009.

| TNL Consolidated (R\$ million) | Shareholder s Equity on June 30, 2008 | Result on June 30, 2008 |
|--|---|----------------------------|
| Original balance | 11,408 | 734 |
| Financial instruments | 8 | 18 |
| Financial lease | 13 | 3 |
| Grants and government support | 86 | 86 |
| Stock-based remuneration | | -27 |
| Income tax and social contribution on the total adjustment | -7 | -7 |
| Minority interest effect | -12 | -12 |
| Equity accounting on the adjustments of Law 11,638/07 and Provisional Measure 449/08 | -4 | 58 |
| Balance after Law 11,638/07 | 11,492 | 853 |

| BrTP Consolidated (R\$ million) | Shareholder s Equity on June 30, 2008 | Result on June 30, 2008 |

Edgar Filing: BRASIL TELECOM SA - Form 425

II) This report contains forecasts and/or estimates regarding future events. These projections were carefully compiled based on the present scenario and work in progress, together with the corresponding expectations. The use of forward-looking statements, such as, but not limited to: project , estimate , expect , predict , plan , anticipate , is intended to indicate possible trends that, inevitably, involve uncertainty and risk and future results may differ from current expectations. Oi cannot be held responsible for the transactions or investment decisions of third parties based on these forecasts and/or estimates. The information presented has not been audited and may therefore differ from the final audited results.

Investor Relations
Exhibit 2

Investor Relations I
Oi
and BrT
Integration
Status of the Process of Operational Integration
Market and Channels
Launch of Oi
brand in Region II

Migration of stores, kiosks and public phones
Training of call center personnel and attendants
Launch of mobile plans (pre-paid, Oi Controle and Oi Conta)
Implementation of a single operational model for sales and customers service
Consolidation of national approach in Corporate segment Engineering and Network Opex Synergies
Conclusion of operational integration of telecom networks
Integration of 2 Network Operations Centers of the former Oi and BrT in Rio de Janeiro
Revision of outsourcing model for the internal and external plants, obtaining quality gains and reduction in expenses with network maintenance
Centralization of senior executives and unification of areas in Rio de Janeiro
More than 40 initiatives implemented in various areas:
Renegotiation of contracts with 70% of our suppliers
Revision and integration of the company's logistics model
Cuts in costs with roaming, COGS and interconnection
Synergies began to be effectively captured already in 2Q09
