Form 20-F Form 40-F

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

Amended Form 6K dated October 23, 2009, to the announcement of LM Ericsson Telephone company, dated October 22, 2009 *On October 22, 2009, LM Ericsson Telephone Company filed its quarterly report for the third quarter ended September 30, 2009 on Form 6-K. This amendment to the Form 6-K filed on October 22, 2009 is being filed in order to include the Financial Statements and Additional Information inadvertently omitted from the earlier filing.*

THIRD QUARTER REPORT

October 22, 2009

ERICSSON REPORTS

THIRD QUARTER RESULTS

Sales SEK 46.4 (49.2) b, down 4% for comparable units, down 12% currency adjusted

Operating income¹ before JVs SEK 5.5 (5.6) b

Operating margin¹ before JVs 11.7% (11.5%)

Share in earnings from JVs² SEK -1.5 (0.0) b

Income after financial items³ SEK 4.0 (6.2) b

Restructuring charges of SEK 2.7 (1.9) b, excl JV

Net income SEK 0.8 (2.9) b

Earnings per share SEK 0.25 (0.89)

Cash flow⁴ SEK 6.9 (2.7) b

1) *Excluding restructuring charges*

2) *Excluding cash outlays for restructuring of SEK 1.2 (0.3) b and dividend from Sony Ericsson of SEK 1.4 b in Q3 2008*

CEO COMMENTS

SALES BY QUARTER

2008

AND 2009 (SEK B)

Sales of network equipment declined due to lower demand in the current tougher market environment. Despite lower volumes, Network margins remain stable. The strong development in Professional Services continued, says Carl-Henric Svanberg, President and CEO of Ericsson (NASDAQ:ERIC). Our cost reduction activities are running ahead of plan with further opportunities for efficiency improvements and savings.

As commented on in previous reports, the economic climate affects the global mobile infrastructure market and the credit environment is still tight in several emerging markets. However, other markets, including the world's leading economies such as China, India, US and Japan show good development.

The technology shift from voice telephony to mobile broadband is ongoing. Mobile broadband users and traffic are increasing rapidly and will eventually connect billions of people to internet. With the shift follows the anticipated decline in GSM sales, accelerated by the current recession, which is not yet offset by the growth in mobile broadband.

Our services operation continues to show strong development. While managed services are often in focus, systems integration and consulting are increasingly important. Services margins are stable despite being negatively affected by the start up costs in the third quarter for the Sprint and Zain services contracts as well as the reduced scope and transformation costs for the renewed managed services agreement in Italy.

In late September, we were pleased to welcome the former Sprint employees into Ericsson, and we look forward to soon also welcome former Nortel employees. This, together with the major contract wins with Verizon, AT&T and Metro PCS in mobile and fixed broadband, makes Ericsson the leading provider of telecommunications technology and services in North America.

While the current economic environment affects all parts of society the longer-term fundamentals for our industry remain solid. Mobile telephony is reaching a penetration beyond all expectations. We expect mobile broadband to show a similar exciting development over the years to come, not least as the vast majority of the world's population will be able to reach internet only through mobile technology. We are well positioned to lead our industry forward, concludes Carl-Henric Svanberg.

FINANCIAL HIGHLIGHTS

Income statement and cash flow

SEK b.	Third quarter			Second quarter		Nine months

All numbers, excl. EPS, Net income and Cash flow from operations excl. restructuring charges.

- 1) Cash flow from operations excl. restructuring cash outlays. Nine months cash outlays of SEK 3.2 (0.8) b and dividends from Sony Ericsson of SEK 0.0 (3.6) b

Sales in the quarter decreased 4% year-over-year for comparable units, i.e. excluding Ericsson Mobile Platforms, and decreased 12% adjusted for currency exchange rate effects and hedging. The third quarter last year was comparatively strong with no normal seasonality.

Sequential sales decreased 11%, negatively impacted by currency exchange rate effects, seasonality and a reduced scope of the renewed managed services agreement in Italy. The lower year-over-year sales in Networks and Multimedia were partly offset by stronger sales in Professional Services.

The gross margin, was flat sequentially despite the lower sales, and decreased only slightly year-over-year to 36.2% (37.0%). The year-over-year change is largely attributable to the sales mix, with a higher proportion of network rollout and professional services, efficiency gains and some currency exchange rate effects.

Operating expenses amounted to SEK 11.6 (12.9) b. in the quarter, excluding restructuring charges. The year-over-year reduction is primarily a result of ongoing cost reduction activities, offsetting negative impact from currency exchange rate effects.

Edgar Filing: ERICSSON LM TELEPHONE CO - Form 6-K/A

Operating income excluding joint ventures and restructuring charges amounted to SEK 5.5 (5.6) b. in the quarter, resulting in a slightly improved operating margin of 11.7% (11.5%). The margin was stable sequentially when adjusted for a capital gain of SEK 0.8 b. in the second quarter 2009.

Ericsson's share in earnings from joint ventures amounted to SEK -1.5 (0.0) b. in the quarter, excluding restructuring charges. This is a significant reduction from the second quarter as a result of the ongoing efficiency improvements. Restructuring charges in joint ventures were insignificant in the quarter.

Financial net was SEK 0.0 (0.5) b. in the quarter, due to lower interest net.

Net income amounted to SEK 0.8 (2.9) b. in the quarter.

Adjusted cash flow amounted to SEK 6.9 (2.7) b. in the quarter, down sequentially from SEK 9.9 b., excluding cash outlays for restructuring of SEK 1.2 b. Year-to-date cash conversion rate was 87% (102%). Trade receivables was positively impacted by currency exchange rate effects and lower sales. While days sales outstanding (DSO) improved slightly sequentially to 118 (121) days, the credit environment is however still tough for second and third tier operators in emerging markets.

Inventory was reduced by SEK 2.2 b. in the quarter to SEK 26.8 b. and turnover was stable at 77 (78) days.

Balance sheet and other performance indicators

SEK b.	Sep 30 2009	June 30 2009	Mar 31 2009	Dec 31 2008
Net cash	33.9	27.9	22.9	34.7
Interest-bearing liabilities and post-employment benefits	45.9	47.6	41.2	40.4
Trade receivables	62.4	69.4	75.2	75.9
Days sales outstanding	118	121	124	106
Inventory	26.8	29.0	30.7	27.8
Of which market unit inventory	15.9	17.7	18.9	16.5
Inventory days	77	78	83	68
Payable days	57	59	65	55
Customer financing, net	2.7	3.1	2.8	2.8
Return on capital employed	4%	5%	7%	11%
Equity ratio	52%	51%	52%	50%

The net cash position amounted to SEK 33.9 (27.9) b., up SEK 6.0 b. in the quarter. Cash, cash equivalents and short-term investments amounted to SEK 79.8 (75.5) b.

Customer financing remained low at of SEK 2.7 (3.1) b., reduced by a lower USD rate.

During the quarter, approximately SEK 3.1 b. of provisions were utilized, of which SEK 1.2 b. were related to restructuring. Additions of SEK 2.2 b. were made, of which SEK 0.5 b. related to restructuring. Reversals of SEK 0.1 b. were made.

Ericsson intends to repurchase its callable bond EUR LME 6.75%, maturing on November 28, 2010. The intention is to make a full redemption on November 28, 2009, of all outstanding notes with a total nominal amount of EUR 471 million. The repurchase will reduce gross debt and improve annual interest net.

Cost reductions

In January, 2009, cost reduction activities were initiated, targeting annual savings of SEK 10 b. from the second half of 2010, split equally between cost of sales and operating expenses. Related restructuring charges were estimated to SEK 6-7 b.

Restructuring charges, excluding joint ventures, in the third quarter were SEK 2.7 b. with a total of SEK 7.0 b. of charges year-to-date. At the end of the quarter, cash outlays of SEK 3.3 b. remain to be made.

The transition to IP technologies with fewer software platforms as well as products with less hardware paves the way for synergies within the product portfolio. The program is ahead of plan and additional opportunities for efficiency improvements have evolved during the program. This will lead to further cost savings and related charges during the last three quarters of the program.

	Third quarter 2009	Second quarter 2009	First quarter 2009	Full year 2008
Restructuring charges, SEK b.				
Cost of sales	-0.8	-1.3	-0.4	-2.5

2) 2008 and 2009 numbers for Multimedia exclude divested Ericsson Mobile Platforms and PBX operations

Networks

Network sales in the third quarter declined year-over-year by 8%. Even though the comparison is tough with last year's strong third quarter, the market was weaker. The markets are fairly strong in the world's leading economies, while demand is weaker in several emerging markets affected by the present economic climate.

The rapid growth in demand for mobile broadband continues although the growth does not yet offset this year's lower demand for GSM.

The ongoing efficiency and cost reduction activities are driven by new, less labor intense, products and fewer platforms. This leads to a consolidation of sites which is a key element in the ongoing cost reduction activities. Effects from the program are already visible, and despite lower sales and a high level of network rollout, EBITDA-margin was flat at 15%.

During the quarter, several strategic wins were achieved in mobile and IP and the footprint in North America was significantly improved. AT&T's selection of Ericsson as one of its domain suppliers of wireline access, the LTE contract from Metro PCS and the planned acquisition of Nortel's CDMA/LTE businesses, all contributed to the strengthened position. The Nortel businesses are expected to be consolidated in the fourth quarter and will be reported within segments Networks and Professional Services.

SEGMENT SALES BY **Professional Services**

QUARTER,

2008 AND 2009 (SEK B)

Professional Services sales increased 9% year-over-year. Growth in local currencies amounted to 4%. Total service sales, including network rollout, now account for 40% of Group sales. In the present financial climate there is strong demand for services targeting the operational efficiency of operators such as managed services and consulting. However, managed services sales increased by just 3% year-over-year due to the reduced scope of the renewed agreement in Italy. Other professional services sales increased by 11% year-over-year.

EBITDA-margin in the quarter declined to 17% (19%) negatively impacted by start-up costs from new managed services contracts with Sprint, Zain as well as costs associated to the renewed agreement in Italy. This was partially offset by continued efficiency gains.

The Sprint contract is a proof point of Ericsson's service offering, as the services relate to a network with no Ericsson equipment. The added CDMA competence brought by the former Sprint employees opens up possibilities for further growth of the service business.

The total number of subscribers in managed operations is now 350 million, of which 50% are in high-growth markets.

Multimedia

Multimedia sales increased slightly sequentially despite seasonality. Multimedia brokering (IPX) and consumer and business applications continued to show good growth.

EBITDA-margin in the quarter for comparable units improved to 19% (16%). Sales and margins may still vary between quarters.

Sony Ericsson

Third quarter

Second quarter

Nine months

Edgar Filing: ERICSSON LM TELEPHONE CO - Form 6-K/A

EUR m.	2009	2008	Change	2009	Change	2009	2008	Change
Number of units shipped (m.)	14.1	25.7	-45%	13.8	2%	42.5	72.5	-41%
Average selling price (EUR)	114	109	5%	122	-7%	119	115	3%
Net sales	1,619	2,808	-42%	1,684	-4%	5,038	8,330	-40%
Gross margin	16%	22%		12%		12%	25%	
Operating margin	-12%	-1%		-16%		-17%	2%	
Income before taxes	-199	-23		-283		-853	179	
Income before taxes, excl restructuring charges	-198	12		-283		-838	225	
Net income	-164	-25		-213		-669	114	

Units shipped in the quarter were 14.1 million, a sequential increase of 2% and a decrease of 45% year-over-year. Sales in the quarter were EUR 1,619 million, a sequential decrease of 4% and a decrease of 42% year-over-year. The sequential decline in average selling price was due to product mix and continued challenging market conditions. Gross margin improved sequentially but dropped year-over-year due to lower sales and currency exchange rate effects.

The sequential improvement was seen in both percentage rate and in volume driven by cost saving activities and successful sales of the W995 Walkman phone.

Income before taxes for the quarter, excluding restructuring charges, was a loss of EUR -198 (12) million. The loss in the second quarter was EUR -283 million. The reduced loss was due to better cost of sales efficiency as well as reduced operating expenses. As of September 30, 2009, Sony Ericsson retained a net cash position of EUR 841 million.

Since the beginning of the quarter, facilities of EUR 455 million were signed to strengthen the balance sheet and improve liquidity. EUR 155 million were drawn by the end of September and EUR 100 million were drawn in the beginning of October. In addition, a two-year committed back-up facility of EUR 200 million is available but has not been utilized. The parent companies have guaranteed EUR 350 million of these facilities on a 50/50 basis.

Bert Nordberg, former head of Ericsson Silicon Valley and Executive Vice President in Ericsson has been appointed President of Sony Ericsson as of October 15, 2009.

Ericsson's share in Sony Ericsson's income before tax was SEK -1.0 (-0.1) b. in the quarter.

ST-Ericsson

USD m.	2009			2008
	Third quarter	Second quarter	Feb-Mar	Proforma third quarter
Net sales	728	666	391	1,003
Adjusted operating income ¹⁾	-77	-165	-78	-34
Operating income before taxes	-121	-224	-98	-59
Net income	-112	-213	-89	NA

1) *Operating loss adjusted for amortization of acquisition related intangibles and restructuring charges*

Net sales in the quarter showed an increase of 9% sequentially with solid performance in Asia.

Adjusted operating loss in the quarter was USD -77 (-34) m. The adjusted operating loss in the second quarter was USD -165 million. The reduced loss reflects a tight control of product costs and operational expenses as well as positive seasonal effects. The USD 250 m. cost synergies program, defined by ST-NXP Wireless in the third quarter 2008, is now substantially completed. The new restructuring plan of USD 230 m. cost synergies, announced at the end of April, had a limited benefit to the third quarter result.

Edgar Filing: ERICSSON LM TELEPHONE CO - Form 6-K/A

Gilles Delfassy, with a long experience from the microelectronics business has been appointed President and CEO of ST-Ericsson as of November 2, 2009.

ST-Ericsson is reported in US-GAAP. Ericsson's share in ST-Ericsson's income before tax, adjusted to IFRS, was SEK -0.5 b. in the quarter, including restructuring charges of SEK 0.1 b. Ericsson Mobile Platforms incurred a loss of SEK 0.5 b. in January 2009, which is added to the result in segment ST-Ericsson year-to-date.

REGIONAL OVERVIEW

Sales, SEK b.	Third quarter			Second quarter		Nine months		
	2009	2008	Change	2009	Change	2009	2008	Change
Western Europe	10.1	11.6	-13%	11.4	-11%	32.7	35.4	-8%
Central and Eastern Europe, Middle East and Africa	11.6	13.1	-11%	12.6	-8%	36.7	35.5	4%
Asia Pacific	15.3	14.1	9%	17.4	-12%	49.0	42.8	15%
Latin America	5.0	6.1	-18%	4.8	4%	14.2	15.2	-7%

Total	46.4	49.2	-6%	52.1	-11%	148.1	141.9	4%

REGIONAL SALES BY
 QUARTER,
 2008 AND 2009 (SEK B)

Western Europe sales declined -6% year-over-year for comparable units. However, the region showed growth when adjusting for the impact of the reduced scope for the renewed managed services agreement in Italy. UK showed the strongest growth driven by managed services while Spain is still weak. Mobile broadband is growing strongly throughout the region. This creates demand for more spectrum, including new licenses for 2.6GHz and 800MHz spectrums and refarming of existing spectrum. There is also a continued increase in demand for managed services.

Sales in Central and Eastern Europe, Middle East and Africa decreased by -11% year-over-year. This is the region presently most impacted by the economic climate including credit constraints. Egypt, Nigeria, Turkey and Saudi Arabia showed the strongest development. The Turkish market remains particularly strong with a continued fast rollout of 3G networks. New licenses are issued in the region, latest in Tunisia, where Ericsson was selected as one of the main suppliers of a new 2G and 3G network. The interest for managed services is strong in the region and Ericsson has signed several new contracts.

Asia Pacific sales increased 9% year-over-year. India was the largest market for Ericsson in the quarter. China sales were up significantly year-over-year due to major 3G rollouts. Japan and Vietnam also showed strong growth while markets such as Bangladesh, Pakistan and Indonesia were down significantly. Several operators are forced to delay investments due to credit constraints despite traffic growth. Government driven next-generation broadband and fiber backhaul networks are being built in several countries across the region.

Latin American sales decreased by -18% year-over-year with lower demand across the region. Demand for mobile broadband continues to develop well. Meanwhile, due to delays of licensing of new spectrum and services, in larger countries like Mexico, Brazil and Argentina, operators hold back investments in new technologies and applications.

North American sales increased by 1% year-over-year in a tough year-over-year comparison. Data traffic shows strong growth and the demand for mobile broadband is high. AT&T named Ericsson as a domain supplier for their wireline access network. Ericsson was also selected sole LTE supplier to Metro PCS. The Sprint Network Advantage partnership commenced on September 21.

MARKET DEVELOPMENT

Growth rates are based on Ericsson and market estimates

The global economic slowdown is affecting all parts of the society. However, we believe that the fundamentals for longer-term positive development for our industry remain solid. The need for telecommunication continues to grow and plays a vital role for the development of a sustainable and prosperous society. Ericsson is well positioned to drive and benefit from this development.

There is continued growth in mobile subscriptions, although the current growth rate is lower than in 2008. Mobile subscriptions grew by some 133 million in the quarter to a total of 4.4 billion. In India alone subscriptions are growing by some 14 million per month. The global number of new WCDMA subscriptions is accelerating and grew by 36 million in the quarter to a total of 411 million. In the second quarter, fixed broadband connections grew to 422 million, adding 12 million subscribers.

The traffic in the mobile networks is accelerating, which creates need for new and expanded mobile networks and corresponding professional services. GSM/WCDMA/LTE is the dominating technology track. The build-out of telecommunications in emerging markets continues, and although they represent less than one third of global GDP they represent significantly more of the market for mobile network equipment.

Data traffic, as part of operator revenues, continues to increase. For many large operators, mobile data revenues now constitute 25% of total service revenues or more. In addition to capacity enhancements, operators face the challenge of converting to all-IP broadband networks. This will include increased deployments of broadband access, routing and transmission equipment along with next-generation service delivery and revenue management systems.

There is continued strong growth in telecom services, fueled by operators' desire to reduce operating expenses and improve efficiency in network operation and maintenance. The move toward all-IP and increased network complexity will create further demand for systems integration and consulting.

PARENT COMPANY INFORMATION

Net sales for the nine-month period amounted to SEK 0.3 (4.1) b. and income after financial items was SEK 5.8 (17.6) b. Effective January 1, 2009, the right to all license revenues from third parties related to patent licenses has been transferred to Ericsson AB, a wholly owned subsidiary, and consequently net sales in 2009 will be insignificant compared to 2008.

Edgar Filing: ERICSSON LM TELEPHONE CO - Form 6-K/A

Major changes in the Parent Company's financial position for the nine-month period include investments in the joint venture with ST-Ericsson of SEK 8.4 b., decreased current and non-current receivables from subsidiaries of SEK 13.6 b. and increased cash and bank and short-term investments of SEK 8.2 b.

Notes and bond loans increased by net SEK 5.8 b. through new borrowings and loan repayment during the second quarter. Current and non-current liabilities to subsidiaries increased by SEK 2.9 b. and other current liabilities decreased by SEK 6.6 b. As per September 30, 2009, cash and bank and short-term investments amounted to SEK 67.4 (59.2) b.

In accordance with the conditions of the Stock Purchase Plans and Option Plans for Ericsson employees, 2,164,500 shares from treasury stock were sold or distributed to employees during the third quarter. The holding of treasury stock at September 30, 2009, was 82,215,837 Class B shares.

OTHER INFORMATION

Ericsson to acquire majority of Nortel's North American wireless business

On July 25, 2009, Ericsson announced that it has entered into an asset purchase agreement to acquire the parts of the Carrier Networks division of Nortel relating to CDMA and LTE technology in North America. The purchase is structured as an asset sale at a cash purchase price of USD 1.13 b. on a cash and debt free basis.

Completion of the transaction is still subject to approval in the United States.

New President of Sony Ericsson appointed

On August 17, 2009, Bert Nordberg, Executive Vice President of Ericsson was appointed President of Sony Ericsson as of October 15, 2009. Nordberg left his position in Ericsson when he joined Sony Ericsson.

New President and CEO of ST-Ericsson

On September 2, 2009, Gilles Delfassy, was appointed President and CEO of ST-Ericsson as of November 2, 2009. Delfassy is a highly regarded expert in the wireless industry.

Head of strategy appointed

On August 11, 2009, Douglas L. Gilstrap was appointed Senior Vice President and Head of Group Function Strategy as of October 1, 2009. Gilstrap brings more than 15 years of experience in the global telecommunications and IT industry.

Assessment of risk environment

Ericsson's operational and financial risk factors and uncertainties are described under "Risk factors Assessment of risk environment" in our Annual Report 2008.

Risk factors and uncertainties in focus during the forthcoming six-month period for the Parent Company and the Ericsson Group include:

potential negative effects of the continued uncertainty in the financial markets and the weak economic business environment on operators' willingness to invest in network development as well as uncertainty regarding the financial stability of suppliers, for example due to lack of borrowing facilities, or reduced consumer telecom spending, or increased pressure on us to provide financing;

effects on gross margins and/or working capital of the product mix in the Networks segment between sales of software, upgrades and extensions and the pro-portion of new network build-outs and break-in contracts;

a volatile sales pattern in the Multimedia segment or variability in our overall sales seasonality could make it more difficult to forecast future sales;

results and capital needs of our two major joint ventures, Sony Ericsson and ST-Ericsson, which both are negatively affected to a larger extent than our three other segments by the current economic slowdown;

effects of the ongoing industry consolidation among our customers as well as between our largest competitors, e.g. intensified price competition;

Edgar Filing: ERICSSON LM TELEPHONE CO - Form 6-K/A

changes in foreign exchange rates, in particular USD and EUR;

continued political unrest or instability in certain markets.

Ericsson conducts business in certain countries which are subject to trade restrictions or which are focused on by certain investors. We stringently follow all relevant regulations and trade embargos applicable to us in our dealings with customers operating in such countries. Moreover, Ericsson operates globally in accordance with Group level policies and directives for business ethics and conduct. In no way should our business activities in these countries be construed as supporting a particular political agenda or regime. We have activities in such countries mainly due to that certain customers with multi-country operations put demands on us to support them in all of their markets.

Please refer further to Ericsson's Annual Report 2008, where we describe our risks and uncertainties along with our strategies and tactics to mitigate the risk exposures or limit unfavorable outcomes.

AUDITORS REVIEW REPORT

We have reviewed this report for the period January 1 to September 30, 2009, for Telefonaktiebolaget LM Ericsson (publ). The board of directors and the CEO are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

We conducted our review in accordance with the Standard on Review Engagements SÖG 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by FAR SRS. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing in Sweden, RS, and other generally accepted auditing practices. The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act regarding the Group and with the Swedish Annual Accounts Act regarding the Parent Company.

Ericsson Third Quarter Report 2009

11

Disclosure Pursuant to the Swedish Securities Markets Act

Ericsson discloses the information provided herein pursuant to the Securities Markets Act. The information was submitted for publication at 07.30 CET, on October 22, 2009.

Safe Harbor Statement of Ericsson under the US Private Securities Litigation Reform Act of 1995;

All statements made or incorporated by reference in this release, other than statements or characterizations of historical facts, are forward-looking statements. These forward-looking statements are based on our current expectations, estimates and projections about our industry, management's beliefs and certain assumptions made by us. Forward-looking statements can often be identified by words such as anticipates, expects, intends, plans, predicts, believes, seeks, estimates, may, will, should, would, potential, continuing, or variations of these words, and include, among others, statements regarding: (i) strategies, outlook and growth prospects; (ii) positioning to deliver future plans and to realize potential for future growth; (iii) liquidity and capital resources and expenditure, and our credit ratings; (iv) growth in demand for our products and services; (v) our joint venture activities; (vi) economic outlook and industry trends; (vii) developments of our markets; (viii) the impact of regulatory initiatives; (ix) re-search and development expenditures; (x) the strength of our competitors; (xi) future cost savings; (xii) plans to launch new products and services; (xiii) assessments of risks; (xiv) integration of acquired businesses; (xv) compliance with rules and regulations and (xvi) infringements of intellectual property rights of others.

In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. These forward-looking statements speak only as of the date hereof and are based upon the information available to us at this time. Such information is subject to change, and we will not necessarily inform you of such changes. These statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, our actual results could differ materially and adversely from those expressed in any forward-looking statements as a result of various factors. Important factors that may cause such a difference for Ericsson include, but are not limited to: (i) material adverse changes in the markets in which we operate or in global economic conditions; (ii) increased product and price competition; (iii) reductions in capital expenditure by network operators; (iv) the cost of technological innovation and increased expenditure to improve quality of service; (v) significant changes in market share for our principal products and services; (vi) foreign exchange rate or interest rate fluctuations; and (vii) the successful implementation of our business and operational initiatives.

Accounting Policies

The Group

This interim report is prepared in accordance with IAS 34. The term IFRS used in this document refers to the application of IAS and IFRS as well as interpretations of these standards as issued by IASB's Standards Interpretation Committee (SIC) and International Financial Reporting Interpretations Committee (IFRIC).

As from January 1, 2009, the Company has applied the following new or amended IFRS:

IAS 1 (Revised), Presentation of Financial Statements . The revised standard requires all non-owner changes in equity to be shown in a performance statement. The Company therefore presents two statements, the Income Statement and a Statement of Comprehensive Income.

Also, to improve the understanding of the Company's financial performance, a new subtotal line has been added in the Income Statement, Operating income before share in earnings of JV and associated companies . This is to distinguish between operating income from operations consolidated and from shares in earnings of JV and associated companies accounted for using the equity method. In the interim report text, this line item is for simplicity referred to as Operating income before joint ventures .

IFRS 8 Operating Segments . This standard replaces IAS 14 Segment Reporting and requires a management approach , under which segment information is presented on the same basis as that used for internal reporting to the Chief Operating Decision Maker (CODM). In Ericsson, the Group Management Team is defined as the CODM function. The new standard has not resulted in any changes of the reportable segments.

The new joint venture, ST-Ericsson, established in February 2009, is presented as a new reportable segment. Segment Phones has been renamed to Sony Ericsson. No other changes have been made in relation to this reported segment.

None of the following new or amended standards and interpretations have had any significant impact on the financial result or position of the Company:

IFRS 2 (Amendment), Share-Based Payments . The amended standard deals with vesting conditions and cancellations.

Revised IAS 23, Borrowing Costs and Improvements to IFRSs , (May 2008), in relation to IAS 23.

IAS 32 and IAS 1 (Amendments), Puttable Financial Instruments and Obligations Arising on Liquidation .

Improvements to IFRSs , published in May 2008. These are improvements to twenty two already effective IFRSs.

IFRIC 12, Service Concession Arrangements

IFRIC 13, Customer Loyalty Programmes

IFRIC 16, Hedges of a Net Investment on A Foreign Operation

Edgar Filing: ERICSSON LM TELEPHONE CO - Form 6-K/A

IFRIC 15, Agreements for Construction of Real Estate

Amendment to IAS39: Effective Date and Transition

The Company has not yet applied the following interpretations and amendments since these are still subject to EU endorsement:

Amendments to IFRS 7 Improving Disclosures about Financial Instruments

Amendments to IFRIC 9 and IAS 39 Embedded Derivatives

IFRIC 18 Transfers of Assets from Customers

IFRIC 17 Distributions of Non-Cash Assets to Owners

Amendments to IFRS 2 Group Cash-settled Share-based Payment Transactions

Amendment to IAS 32 Classification of Rights Issues

However, none of the interpretations and amendments is expected to have any significant impact on the Company's financial statements.

Company amendment of key ratio Inventory turnover

Prior to 2009, this key ratio disclosed the number of times the inventory was turned over per year.

As from January 1, 2009, the inventory turnover key ratio has been amended by the Company to disclose the number of turnover days of inventory.

Ericsson Third Quarter Report, October 22, 2009

Ericsson Planning Assumptions for Year 2009					

Research and development expenses

We estimate R&D expenses for the full year 2009 to be at around SEK 27-28 b. The estimate includes amortizations/write-downs of intangible assets related to major acquisitions previously made and excludes Ericsson Mobile Platforms and restructuring charges. However, currency effects may cause this to change.

Capital expenditures

Excluding acquisitions, the capital expenditures in relation to sales are not expected to be significantly different in 2009, remaining at roughly two percent of sales.

Utilization of provisions

The expected utilization of provisions for year 2009 is stated in Note C 18 in the Annual Report 2008.

Edgar Filing: ERICSSON LM TELEPHONE CO - Form 6-K/A
