GENERAL INFORMATION

Proxy Statement

This Proxy Statement is furnished to shareholders of OMNI Energy Services Corp. (the Company) in connection with the solicitation on behalf of its Board of Directors (the Board) of proxies for use at the annual meeting of shareholders of the Company to be held on June 9, 2010, at the time and place set forth in the accompanying notice and at any adjournments thereof (the Annual Meeting).

Holders of record of the Company's common stock, par value \$0.01 per share (Common Stock), and holders of the Company's Series C 9% Convertible Preferred Stock (Series C Preferred Stock), at the close of business on April 30, 2010, are entitled to notice of, and to vote at, the Annual Meeting. On April 30, 2010, there were 24,146,492 shares of Common Stock outstanding and entitled to vote at the meeting, including 2,767,179 shares of Common Stock issuable upon conversion of the Series C Preferred Stock. Each share of Common Stock is entitled to one vote and the holders of the Series C Preferred Stock are entitled to one vote for each share of Common Stock into which their Series C Preferred Stock may be converted; provided however, that the holders of the Series C Preferred Stock will not be entitled to vote on Proposal No. 1.

The enclosed proxy may be revoked at any time prior to the Annual Meeting by filing with the Secretary of the Company a written revocation or duly executed proxy bearing a later date. The proxy will also be deemed revoked with respect to any matter on which the shareholder votes in person at the Annual Meeting. Attendance at the Annual Meeting will not, in and of itself, constitute a revocation of a proxy.

This Proxy Statement is first being mailed to shareholders on or about April 30, 2010.

Quorum; Vote Required and Voting of Proxies

The presence, in person or by proxy, of a majority of the outstanding shares of Common Stock, including shares of Common Stock issuable upon conversion of the Series C Preferred Stock, is necessary to constitute a quorum. Shareholders voting or abstaining from voting by proxy on any issue will be counted as present for purposes of constituting a quorum. If a quorum is present, the election of directors is determined by plurality vote. Shareholders may not cumulate their votes for the election of directors. The affirmative vote of a majority of the votes present and entitled to vote at the Annual Meeting is required to ratify Proposal No. 2 and is generally required to approve other proposals that may properly be brought before the Annual Meeting. Abstentions will be counted as votes **AGAINST** a proposal.

Edgar Filing: OMNI ENERGY SERVICES CORP - Form DEF 14A

If a shareholder holds its shares in street name and does not provide voting instructions to its broker, bank or nominee, such shares will not be voted on any proposal on which the broker does not have discretionary authority to vote. Brokers generally have discretionary authority to vote shares held in street name on routine matters but not on non-routine matters. The proposal to ratify the retention of the independent registered public accounting firm is generally considered a routine matter. The proposal to elect directors is generally considered a non-routine matter; therefore, if a shareholder whose shares are held in street name does not provide voting instructions on Proposal No. 1, such shares will not be voted on the proposal. The broker non-vote occurs when a broker holding shares for a shareholder in street name submits a proxy that votes such shares on one or more matters, but does not vote (the broker non-vote) on non-routine matters with respect to which the shareholder has not given voting instructions. Broker non-votes will be counted as present for purposes of a quorum but not cast with respect to such proposal.

Table of Contents

Unless otherwise marked, properly executed proxies in the form of the accompanying proxy card will be voted (i) **FOR** the election of the four nominees listed below to the Board, (ii) **FOR** ratification of Grant Thornton L.L.P to serve as the Company's independent registered accounting firm for the year ending December 31, 2010, and (iii) in the discretion of the persons named in the proxy in connection with any other business that may properly come before the Annual Meeting. The Company does not know of any matters to be presented at the Annual Meeting other than those described herein. However, if any other matters properly come before the Annual Meeting, it is the intention of the persons named in the enclosed proxy to vote the shares represented by them in accordance with their best judgment.

Table of Contents**PROPOSAL NO. 1****ELECTION OF DIRECTORS****General**

The Company's By-laws state that the Board may be comprised of up to eight members, with the exact number to be set by the Board. The Board has currently set the number of directors at six. The Articles of Incorporation provide that so long as at least 2,000 shares of Series C Preferred Stock remain outstanding, the holders of a majority of the Series C Preferred Stock, voting as a separate class to the exclusion of all other classes of the Company's capital stock, shall be entitled to elect two directors to the Board to serve on the Board until their successors are duly elected by the holders of the Series C Preferred Stock or they are removed from office (with or without cause) by the holders of the Series C Preferred Stock. Unless authority to vote for the election of directors is withheld, the proxies solicited hereby will be voted **FOR** the election of the Company's four nominees named below. If any nominee should decline or be unable to serve for any reason, votes will instead be cast for a substitute nominee designated by the Board. The Board has no reason to believe that any nominee will decline to be a candidate or, if elected, will be unable or unwilling to serve.

The Company's Chief Executive Officer serves on the Board, which the Company believes helps the Chief Executive Officer serve as a bridge between management and the Board, ensuring that both groups act with a common purpose. The Company believes that the Chief Executive Officer's presence on the Board enhances his ability to provide insight and direction on important strategic initiatives to both management and the independent directors and, at the same time, ensures that the appropriate level of independent oversight is applied to all decisions by the Board.

Currently, the members of the Corporate Governance and Nominating Committee are Messrs. Gerevas (Chair), Kaufman and Sciotto. The Board has determined that each member of the Corporate Governance and Nominating Committee currently is independent as independence is defined by Rule 10A-3 under the Exchange Act and by Rule 4200(a)(15) of the NASDAQ Marketplace Rules for issuers whose securities are listed on the NASDAQ Stock Market.

Risk Oversight

Board's Role in Risk Oversight

Edgar Filing: OMNI ENERGY SERVICES CORP - Form DEF 14A

The Board's role in the Company's risk oversight process includes receiving regular reports from members of senior management on areas of material risk to the Company, including operational, financial, legal and regulatory, and strategic risks. The Audit Committee is responsible for oversight of risks relating to the Company's accounting matters, financial reporting and legal and regulatory compliance. As part of this process, the Audit Committee meets regularly with management and Grant Thornton L.L.P. The Compensation Committee is responsible for overseeing risks relating to employment policies and the Company's compensation and benefits programs and senior management succession planning. As part of this process, the Compensation Committee meets regularly with management to understand the implications of compensation decisions, and particularly risks the Company's compensation policies pose to the Company's finances, human resources and shareholders. The Corporate Governance and Nominating Committee is responsible for overseeing risks relating to overall corporate governance. As part of this process, the Corporate Governance and Nominating Committee

Table of Contents

annually reviews board composition and board and committee performance and periodically reports to the Board on corporate governance matters. Company management is responsible for day-to-day management of risks the Company faces.

Risks Related to Compensation Policies and Practices

As part of its oversight of the Company's executive and non-executive compensation programs, the Compensation Committee considers the impact of the Company's compensation programs, and the incentives created by the compensation awards that it administers, on the Company's risk profile. In addition, the Compensation Committee reviews all of its compensation policies and procedures, including the incentives that they create and factors that may reduce the likelihood of excessive risk taking, to determine whether they present a significant risk to the Company. The Compensation Committee also considered the following risk mitigating factors:

Use of long-term equity-based incentive compensation;

Time vesting periods for equity-based compensation awards that encourage executives and other key employees to focus on sustained stock price appreciation;

The Company's internal control over financial reporting and other financial, operational and compliance policies and practices currently in place;

Base salaries consistent with executives' responsibilities so that they are not motivated to take excessive risks to achieve a reasonable level of financial security; and

Design of long-term compensation to reward executives and other key employees for driving sustainable, profitable, growth for shareholders and clients.

Based on this review, the Company has concluded that its compensation policies and procedures are not reasonably likely to have a material adverse effect on the Company.

Board Independence

The Board has determined that except for Mr. Recatto, the Company's President and Chief Executive Officer, all of the directors are independent as defined by Rule 4200(a)(15) of the NASDAQ Marketplace Rules. In making this determination, the Board considered transactions and relationships between each director or his immediate family and the Company and its subsidiaries, including those reported under Compensation Committee Interlocks and Insider Participation and Transactions with Related Persons below, and in the case of Mr. Kaufman, his past employment with Grant Thornton, L.L.P. The purpose of this review was to determine whether any such relationships or transactions were material and, therefore, inconsistent with a determination that the director is independent. There are no family relationships between any nominees, directors and executive officers, and the Board determined that Mr. Kaufman's prior employment with Grant Thornton L.L.P. did not change his status as an independent director.

Mr. Recatto is not an independent director because of his employment as President and Chief Executive Officer of the Company.

Nomination Policy

While the Board has not adopted a formal policy regarding diversity, the Board evaluates each candidate in the context of the Board's membership as a whole and seeks to achieve a mix of members that represent a diversity of background and experience in order to promote the representation of a diverse view on the Board. The Corporate Governance and Nominating Committee does not set minimum qualifications that nominees must meet in order for the Corporate Governance and Nominating Committee to recommend them to the Board, but

Table of Contents

rather the Corporate Governance and Nominating Committee will take into account the judgment, skill, diversity, experiences with business and other organizations of comparable size, the interplay of the nominees experiences with the experience of other directors, and the extent to which the candidate would be a desirable addition to the Board and any committees of the Board. Our Board believes that backgrounds and qualifications of its directors, considered as a group, should provide a mix of experience, knowledge and abilities that will allow the Board to fulfill its responsibilities.

The Corporate Governance and Nominating Committee discusses and evaluates possible candidates and has the authority to engage consultants. Once a candidate is identified whom the Corporate Governance and Nominating Committee believes to be qualified to serve on the Board, the Corporate Governance and Nominating Committee will recommend that candidate to the Board to stand for election as a director at the next annual meeting of shareholders or, if applicable, at a special meeting of the shareholders. The Corporate Governance and Nominating Committee may consider candidates proposed by management, but is not required to do so. The Committee will consider nominees properly submitted by shareholders of the Company (as described below under Shareholder Nomination Policy).

Shareholder Nomination Policy

Article IV E of the Company's Articles of Incorporation provides certain procedures that shareholders must follow in making director nominations. For any person other than a person nominated by the Board to be eligible for nomination for election as a director, advance notice must be provided to the Secretary of the Company at the Company's principal office, not more than 90 days and not less than 45 days, in advance of the annual meeting of shareholders; provided, however, that in the event that less than 55 days notice or prior public disclosure of the date of the meeting is given or made to shareholders, such notice will be deemed timely if received at the Company's principal office no later than the close of business on the tenth day following the day on which notice of the date of the meeting was mailed or such public disclosure was made. This notice must state (a) for each nominating shareholder, such shareholder's name and business and residential addresses, the number of shares of Common Stock beneficially owned by such shareholder, and, if requested by the Secretary of the Company, whether such shareholder is the sole beneficial owner of such Common Stock and, if not, the name and address of any other beneficial owner of such Common Stock, and (b) for each proposed nominee, the proposed nominee's name, age and business and residential addresses, the proposed nominee's principal occupation or employment and the number of shares of Common Stock beneficially owned by the proposed nominee, and the proposed nominee's written consent to being named in the proxy statement as a nominee and to serving as a director if elected, along with such other information regarding the proposed nominee as would be required to be included in a proxy statement filed pursuant to the proxy rules of the Securities and Exchange Commission, had the nominee been proposed by the Board. No such shareholder nominations have been received for the Annual Meeting.

Communication with Directors

The Board provides a process for shareholders to send communications to the Board or any of the directors. Shareholders may send written communications to the Board or any of the directors addressed to the Secretary of the Company at the address listed on the first page of this Proxy Statement. All communications will be compiled by the Secretary of the Company and submitted to the Board or the individual directors on a periodic basis.

The Audit Committee also discussed with the independent registered public accountants other matters required by Statement on Auditing Standards (SAS) No. 61, as amended (AICPA, *Professional Standards*, Vol. 1. AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

The Company's independent registered public accounting firm provided to the Audit Committee the written disclosures and letter required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered public accounting firm's communications with the Audit Committee concerning independence, and the Audit Committee has discussed with the independent registered public accounting firm and management the independent registered public accounting firm's independence. In addition, the Audit Committee considered whether the other non-audit consulting services provided by the independent registered public accounting firm could impair the auditor's independence and concluded that such services have not impaired the independent registered public accountants' independence.

Based on the Audit Committee's discussion with management and the independent registered public accounting firm and the Audit Committee's review of the representations of management and the report of the independent registered public accounting firm to the Audit Committee, the Audit Committee recommended to the Board that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009, filed with the SEC.

COMPENSATION DISCUSSION AND ANALYSIS

Overview

The Company's executive compensation policies are designed to reward the achievement of specific annual, long-term and strategic goals by the Company and to align executive's interest with those of its shareholders by rewarding performance for achieving or exceeding established goals, with the ultimate objective of improving shareholder value. The Company seeks to provide aggregate compensation opportunities for its executives that are competitive in the business marketplace and that are based upon Company and individual performance. The Company's foremost objectives are to:

align executive pay and benefits with the performance of the Company; and

attract, motivate, reward and retain the broad-based management talent required to achieve our corporate objectives.

The Board approves the appointment of members to the Compensation Committee (the Committee). During 2009, the Committee consisted of Messrs. Colson, Gerevas and White (Chair). After reviewing the qualifications of the current members of the Committee, and any relationships that they may have with the Company, the Board has determined that all of the members of the Committee are independent members of the Committee as independence is defined by Rule 10A-3 under the Exchange Act and Rule 4200(a)(15) of the NASDAQ Stock Market.

The Committee recommends to the Board the compensation for the Company's executive officers and other key employees, administers the Incentive Plan and performs such other functions as may be prescribed by the Board. The Committee meets as often as it deems necessary to review and consider all elements of the Company's executive officers' compensation including base salary, incentive pay, long-term equity incentives, benefits and payout obligations under severance and change in control scenarios.

Benchmarking Tools

In March 2006, the Committee engaged The Hay Group, an independent compensation consultant, to assist the Committee in the evaluation of executive compensation. In reviewing the appropriate range of overall compensation and the appropriate ranges of the components of compensation, the Committee used benchmarking tools and surveys presented by the Hay Group. The benchmarking tools and surveys presented by The Hay Group related to base compensation, short-term cash incentives and long-term non-cash incentives for executive officers. Surveys and proxies of a peer group of twelve companies comparable in size and nature of the business of the Company as identified by The Hay Group were used for comparison purposes. In 2010, the Committee updated the peer group (the Comparison Group) in order to more appropriately reflect the current commercial composition of the OMNI organization. The Company further refreshed the data with information gathered from the Comparison Group's recent proxies to reflect the current compensation programs of this updated peer group. The Committee used this refreshed information as a benchmarking tool for comparison purposes in evaluating the Company's overall executive compensation program.

Compensation Elements

Edgar Filing: OMNI ENERGY SERVICES CORP - Form DEF 14A

In the aggregate, the Company's compensation program is designed to not only attract and retain desired employees in a highly competitive market, but also to reward quality individual contribution and overall Company performance. The Company's philosophy is to match executive compensation with the performance of the Company and the individual by using several compensation components for the Company's executives. The components of the Company's compensation program for its executives consist of:

base salary;

annual performance-based incentives paid in cash;

Table of Contents

long-term performance-based incentives paid in stock options and restricted stock; and

benefits.

The Committee believes that the various elements of the Company's compensation program serve to support the overall objectives of the compensation program, and the Company considers several factors in making decisions to materially increase or decrease compensation either at the individual level or at the organizational level. At the individual level, those items considered include such things as employee performance, changes in scope of responsibility, contribution to the Company, changes in external market conditions and internal salary consistency. At the corporate level, the primary drivers of change in the compensation program include external market factors and overall Company performance.

The Company considers the overall business environment, Company circumstances, overall goals sought to be accomplished by the compensation adjustment, and the perceived desires of the executives and employees in allocating compensation adjustments between cash and non-cash compensation. Base salary adjustments are generally utilized to motivate employees in the immediate future and in the short term. Annual performance-based incentives paid in cash are utilized to award executives and employees for their contribution to the Company in recent periods while long-term performance-based equity incentives are utilized to cultivate loyalty and provide a sense of ownership among the executives and employees.

Compensation of many of the executives and key managers are set out in employment agreements. Determination of the amount of additional compensation in the form of performance-based incentives paid in cash are generally set out in the employment agreements and are based upon the accomplishment of certain pre-determined goals established in advance (i.e. levels of combined revenue, net income at the business unit level, personnel evaluations and statistics related to the Company's HSE record). A portion of the performance-based incentives is left to the discretion of the Committee.

Direct Compensation

Base Salary

In order to attract, motivate and retain the caliber of highly skilled, qualified employees that the Company believes is necessary for continued growth, the Company targets base salaries of the Named Executives (as defined in the Summary Compensation Table below) to be near the market median of the Comparison Group. The Committee adjusts annual base salaries where necessary so that the salary levels of all of the Named Executives are generally near the market median levels of salaries of the Comparison Group. The Company pays base salaries to its Named Executives under employment agreements. The employment agreements provide that the base salaries of the Named Executives cannot be decreased, but the Committee has sole discretion to determine any base salary increases.

In the fourth quarter of each year, the Committee, in collaboration with the Chief Executive Officer (with respect to all other executive officers), reviews and sets the compensation for the following year, including any increases under the employment agreements. Company management makes no recommendations as to the President and Chief Executive Officer's compensation. For executive officers other than the President and Chief Executive Officer, the Committee receives additional recommendations from the Company's President and Chief Executive Officer.

Employment Agreements. Effective January 2, 2008 and December 1, 2008, the Company entered into employment agreements with each of Messrs. Mogel and Recatto, respectively, which are in effect until January 1, 2012 and June 30, 2012, respectively. The agreements will be automatically extended for additional, successive one year periods at the expiration of their initial terms, unless either party gives notice of non-renewal as provided under the terms of the respective employment agreements. The annual base salaries under the employment agreements are \$250,000 and \$300,000 for each of Messrs. Mogel and Recatto, respectively. Both executives are eligible to receive an annual bonus. In 2008, each of Messrs. Mogel and Recatto were eligible to earn up to 125% of his annual salary through the achievement of targets determined by the Board upon approval of the 2008 OMNI Business Plan. The bonus is determined and, if appropriate, awarded by the Board during each calendar year, but is paid following the closing of the Company's books and records for each such calendar year, but not later than April 1 of the following calendar year. Mr. Recatto's employment agreement also provides that if both parties agree, bonus payments may be in the form of restricted stock in lieu of cash.

The Company entered into an employment agreement effective September 23, 2006 with Mr. Harris that was in effect until December 31, 2008 and which has been extended for a second additional year commencing on January 1, 2010. Mr. Harris's employment agreement will be automatically extended for additional, successive one year periods unless the Company or Mr. Harris gives notice of non-renewal as provided under the terms of his employment agreement. Under the terms of his employment agreement, Mr. Harris's annual base salary shall not be less than \$185,000. Mr. Harris is also eligible to receive an annual bonus if certain targets are met. The bonus targets are generated by the Chief Executive Officer, approved by the Board and presented to Mr. Harris on or before April 1 of each bonus year. The bonus is determined and, if appropriate, awarded by the Board during each calendar year, but is paid following the closing of the Company's books and records for each such calendar year, but not later than April 1 of the following calendar year.

Mr. Shaw's employment with the Company is governed by an employment agreement with Charles Holston, Inc. effective February 28, 2007 and which has been extended until June 30, 2012. The agreement will be automatically extended for additional, successive one year periods, unless either party gives notice of non-renewal as provided under the terms of the employment agreement. Under the terms of his employment agreement, Mr. Shaw's annual base salary shall not be less than \$150,000. Mr. Shaw is also eligible to receive an annual bonus if certain targets are met. The bonus targets are generated by the Chief Executive Officer, approved by the Board and presented to Mr. Shaw on or before April 1 of each bonus year. If a bonus is awarded by the Board, it will be paid following the closing of the Company's books and records for each such calendar year, but not later than April 1 of the following calendar year.

The Company entered into an employment agreement effective December 12, 2007 with Mr. Dufrene. The agreement will remain in effect until December 31, 2010, and will be automatically extended for additional successive one year periods commencing on January 1, 2011 unless either party gives notice of non-renewal as provided under the terms of the employment agreement. Under the terms of his employment agreement, Mr. Dufrene's annual base salary shall not be less than \$150,000. Mr. Dufrene is also eligible to receive an

annual bonus if certain targets are met. The bonus targets are generated by the Chief Executive Officer, approved by the Board and presented to Mr. Dufrene on or before April 1 of each bonus year. If a bonus is awarded by the Board, it will be paid following the closing of the Company's books and records for each such calendar year, but not later than April 1 of the following calendar year.

Annual Performance-Based Incentives Paid in Cash

In order to encourage and reward quality performance, the Company has developed an annual performance-based incentive program, which is paid in the form of a cash bonus. The Company believes that the program helps to focus its executive officers on financial and operational objectives that the Committee believes are primary drivers of the Company's stock price over time. The annual performance-based incentives paid in cash to certain of the Named Executives are provided for in their employment agreements (see "Employment Agreements" above). No Named Executive earned a performance-based incentive cash bonus in 2009.

Long-Term Incentive Compensation

In order to retain key officers and to create a linkage between those key officers, Company performance and shareholders' interest, the Company has developed a long-term incentive program that awards either stock options or restricted stock. In determining the level of long-term incentive compensation, appropriate focus is given to the following factors:

Long-term appreciation of the Company's stock price; and

Long-term appreciation of the Company's profitability (excluding acquisitions).

The Company believes that the grant of annual equity awards further links the interests of senior management and the Company's shareholders. Therefore, the Company believes that the grant of stock options and the award of restricted stock are important components of annual compensation. The Company's executive officers, including each of the Named Executives, are eligible to receive awards under the Incentive Plan. In the second quarter of each year, the Committee sets the components of the long-term incentive compensation for that year. The Committee considers several factors in determining whether awards are granted to an executive officer under the Incentive Plan. In addition to the factors referenced above regarding an executive officer's overall compensation, factors include the executive's position in the Company, his performance and responsibilities, the amount of options or other awards, if any, currently held by the officer, and their vesting schedule.

Stock options are granted at exercise prices equal to 100% of the fair market value of the Company's common stock on the grant date. Stock options vest quarterly over a three year period at a rate of one-twelfth per quarter and expire ten years from the date of grant.

At the 2008 annual shareholder meeting, the Company's shareholders approved, on an advisory basis, the Company's decision to conduct an option replacement and repricing program pursuant to Section 10.10B of the Incentive Plan which allows the Compensation Committee of the Board to cancel any incentive award granted under the Incentive Plan in consideration of a cash payment or an alternative award made to the participant of the cancelled award in an amount equal in value to the cancelled award. Accordingly, on May 29, 2009, the Compensation Committee replaced currently outstanding options to purchase shares of the Company's common stock issued under the Incentive Plan with exercise prices higher than the Company's closing stock price on May 29, 2009 (\$2.28) and previously granted to the Company's current

Edgar Filing: OMNI ENERGY SERVICES CORP - Form DEF 14A

employees, officers, consultants and directors with new stock options having a value equal to the value of the Subject Options (determined using the Black-Scholes option pricing model), based on the closing price of the Company's stock on May 29, 2009. Under the Replacement Program, the Compensation Committee replaced and repriced 1,487,465 Subject Options, including options to purchase 504,002 shares held by the Named Executives. The vesting period of the New Options remained unchanged from the vesting period of the Subject Options.

Upon his appointment as Chief Operating Officer in early 2008, the Company granted Mr. Recatto non-qualified options to purchase 168,820 shares (as adjusted under the Replacement Program) of the Company's common stock, under the Incentive Plan. In addition, the Company granted Mr. Recatto 37,500 restricted shares of the Company's common stock which vest at the rate of 3,125 shares at the close of each calendar quarter through December 31, 2010. In January 2010, the Company granted Mr. Mogel 17,500 restricted shares of the Company's common stock which vest at the rate of 4,375 shares on January 5, 2010, 2011, 2012 and 2013.

Upon the execution of his employment agreement in December 2007, the Company granted Mr. Dufrene 12,500 restricted shares of the Company's common stock which vest at the rate of 4,167 shares at December 12, 2008 and 1,042 shares at the end of each calendar quarter through September 30, 2010 and 1,039 shares on December 31, 2010. Additionally, in January 2010, the Company granted Mr. Dufrene 12,500 restricted shares of the Company's common stock which vest at the rate of 3,125 shares on January 5, 2010, 2011, 2012 and 2013.

In January 2010, the Company granted each of Messrs. Harris and Shaw 12,500 restricted shares of the Company's common stock which vest at the rate of 3,125 shares on January 5, 2010, 2011, 2012 and 2013.

The Company believes that the grant of these equity awards is in alignment with the Company's overall compensation philosophy described above.

Indirect Compensation

Various employee benefits assist the Company in attracting, motivating and retaining employees in a competitive labor market. From time to time the Committee reviews the benefit plans. The Committee may recommend that the Company implement changes to existing plans or adopt new benefits. The Committee strives to meet the market median with respect to Company benefits.

Health and Welfare Benefits

The Company offers a standard range of health and welfare benefits to all employees, including the Named Executives. The benefits include: medical, prescription drug, vision and dental coverage, life insurance, and accidental death and dismemberment. Executive officers participate in these employee benefit plans generally available to all employees on the same terms as similarly situated employees.

Perquisites and other Personal Benefits

In order to attract, motivate and retain key officers, the Company approves certain perquisites to those officers whose job duties or positions justify a business need for such items. Perquisites for certain officers include Company-owned vehicles and/or a fixed monthly mileage allowance and certain living expenses. See Summary Compensation Table for values associated with these perquisites and other personal benefits for the Named Executives.

Table of Contents

Auto allowances. Fixed monthly mileage allowance is awarded to those individuals whose job duties routinely require them to be out of the office either calling on customers or visiting various sites within the organization. Company-owned vehicles are offered to members of the executive team and to regional or divisional managers. These officers may elect to receive a fixed monthly mileage allowance in lieu of using a Company-owned vehicle. The fixed monthly mileage allowance can be as little as \$300 per month up to a maximum of \$1,000 per month, depending on the position and anticipated business usage. Additionally, individuals who have personal use of a Company-owned vehicle are required to complete an annual log and submit it to the Company. The value of the personal use of the Company-owned vehicle is added to such individual's taxable gross wages.

Living expenses. In order to facilitate effective management, the Company provided meals and housing during the week for Mr. Harris, who lived in Mississippi but spent the workweek in Louisiana during 2009. The cost of providing the meals and housing is determined using per diem rates as determined by the Internal Revenue Service for the meal component (\$39 per day per employee for 200 days) and rental estimates for the housing component (\$350 per month per employee).

Retirement Plans

The Company believes that financial security during retirement can be as important as financial security before retirement. Consistent with the Company's desire to provide financial security in retirement, the Company offers a 401(k) plan to its employees, including its executive officers. Historically, the Company has provided a 25% match of a portion of the contributions made by employees on a voluntary basis.

The amounts contributed by the Company to 401(k) plan matching accounts of the Named Executives for additional contributions for fiscal years 2009 and 2008 were \$2,684 and \$8,875, respectively. The amount of contribution made by the Company on behalf of the Named Executives as the employer matching contribution on the 401(k) portion of the Company's 401(k) averages less than 1% of base salaries. The Company suspended its 401(k) match program in the first quarter of 2009.

Change in Control/Severance Agreements

The Company has employment agreements with each of the Named Executives. Under the terms of these employment agreements, if the employment of the Named Executive is terminated, other than for cause (as defined below under **Executive Compensation Potential Payments Upon Termination or Change in Control Equity Acceleration**) and such Named Executive is not in breach of the obligations under his respective employment agreement, the Company shall pay (i) the annual base salary in effect in semi-monthly payments for the remainder of the contract period (in the case of Mr. Shaw) or twelve months, whichever is greater, (ii) vacation pay earned but not taken to the date of such termination, and (iii) except for Mr. Shaw, annual bonus prorated to the date of termination. In addition, other than Mr. Shaw's, the agreements provide that the stock options granted under the employment agreements will vest upon such termination without cause.

Mr. Mogel's employment agreement provides that upon a Change in Control (as defined below under **Executive Compensation Potential Payments Upon Termination or Change in Control Equity Acceleration**) all options and restricted stock granted to him under his employment agreement will vest immediately.

The Incentive Plan provides that upon a Change in Control (as defined below under **Executive Compensation Potential Payments Upon Termination or Change in Control Equity Acceleration**) all of the Named Executive's outstanding stock-based compensation awards (including

options, restricted stock and other stock-based awards) will automatically become fully exercisable, all restrictions or limitations will lapse and all performance criteria and other conditions relating to the payment of such award will be deemed to be achieved or waived by the Company, without the necessity of any action by any person.

Executive Compensation Policies

Securities Trading Policy. The Board has included in the Company's Code of Ethics a section which addresses the subject of insider trading. The provisions of the Code of Ethics expressly prohibit directors, officers or other employees from trading, either directly or indirectly, after becoming aware of material nonpublic information related to the Company. The Code of Ethics provides guidance as to what constitutes material information and when information becomes public. It also addresses transactions by family members as well as other transactions which may be prohibited. The Code of Ethics also discussed the consequences of an insider trading violation and mentions additional trading restrictions and certain reporting requirements applicable to directors, officers and designated key employees. The Company's Code of Ethics is available on the Company's corporate website at <http://www.omnienergy.com> on the Home page under About OMNI and then under Code of Ethics.

Recoupment of Equity Awards Policy. Performance-based equity awards are granted after the achievement of certain levels of performance, and these awards typically include a vesting period for ownership. This practice negates the need for a recoupment policy for equity awards.

Policy on the Re-pricing of Stock Options. Stock options are granted at the fair market value on the date of the grant and may be repriced at the discretion of the Compensation Committee.

Policy on Timing Stock Award. The timing of stock awards must be consistent with guidelines established in a stock program, such as the Incentive Plan, that the Committee approves prior to the awarding of any grant. The Committee approves the grant prior to the stock being awarded in the event of a requested special stock award or the awarding of stock or stock options to a new hire.

Policy on Hedging the Economic Risks of Equity Ownership. There is no policy regarding hedging the economic risks of equity ownership for the executive team or Directors of the Company and the Company does not engage in this practice.

Recoupment of Incentives Policy. There is no policy regarding the recoupment of incentives for the Company's executives or Directors.

Policy on Deductibility of Compensation Over \$1 Million. Unless compensation is performance based, Section 162(m) of the Internal Revenue Code, enacted in 1993, imposes a limit of \$1 million on the amount that a publicly held corporation may deduct in any year for the compensation paid or accrued with respect to its chief executive officer and each of its four other most highly compensated executive officers. None of the Company's executive officers currently receives compensation exceeding the limits imposed by Section 162(m). While the Committee cannot predict with certainty how the Company's executive compensation might be affected in the future by Section 162(m) or applicable tax regulations issued, the Committee intends to try to preserve the tax deductibility of all executive compensation while maintaining the Company's executive compensation program as described in this Compensation Discussion and Analysis.

Policies on the Impact of Accounting/Tax Treatments on any Elements of Compensation. The Company's stock-based compensation policy applies to all forms of stock-based compensation including stock options, restricted stock units, and share units. All stock-based compensation is accounted for under the fair-value method as required by United States generally accepted accounting principles. The expense associated with stock based compensation is recognized over the vesting period of each individual arrangement.

Edgar Filing: OMNI ENERGY SERVICES CORP - Form DEF 14A

The fair value of each stock option award is estimated on the date of grant using the Black-Scholes option valuation model. The fair value of restricted stock is based on the fair value at the date of grant. The fair value of each performance based share unit is estimated based on expected performance goals being attained and using the current public market price of the Company's common stock at the end of each reporting period.

Table of Contents

Policy on assessing past stock awards in determining future awards. The value, or lack of value, realized from at-risk awards granted in prior years is not taken into account by the Committee in the process of setting compensation for the current year. The Committee believes that doing so would be inconsistent with the underlying reasons for the use of at-risk compensation. If current year awards were increased to recover from below-target performance in prior years or decreased to account for above-target performance in prior years, the Committee would be diluting or eliminating the link between performance and award. Recipients would have little incentive to improve performance if it meant decreased target awards in the future, or if the negative consequences for poor performance would be cushioned by increases in the target value of future awards. Additionally, the value realized from equity-based awards granted in prior periods depends in large measure on when the recipient decides to realize that value by exercising options or by selling vested shares of stock. The Committee does not believe it would be appropriate to adjust future grants in light of these types of individual decisions.

At the 2008 annual shareholder meeting, the Company's shareholders approved, on an advisory basis, the Company's decision to conduct an option replacement and repricing program pursuant to Section 10.10B of the Incentive Plan which allows the Compensation Committee of the Board to cancel any incentive award granted under the Incentive Plan in consideration of a cash payment or an alternative award made to the participant of the cancelled award in an amount equal in value to the cancelled award. Accordingly, on May 29, 2009, the Compensation Committee replaced currently outstanding options to purchase shares of the Company's common stock issued under the Incentive Plan with exercise prices higher than the Company's closing stock price on May 29, 2009 (\$2.28) and previously granted to the Company's current employees, officers, consultants and directors with new stock options having a value equal to the value of the Subject Options (determined using the Black-Scholes option pricing model), based on the closing price of the Company's stock on May 29, 2009. Under the Replacement Program, the Compensation Committee replaced and repriced 1,487,465 Subject Options, including options to purchase 504,002 shares held by the Named Executives. The vesting period of the New Options remained unchanged from the vesting period of the Subject Options.

Table of Contents

The information below describes the assumptions that were used in creating the table above.

Termination by the Company without Cause

Under the employment agreements, a Named Executive will be entitled to the benefits as described in the table above if the Named Executive's employment is terminated by the Company for reasons other than cause. Generally, a termination is for cause if it is for any of the following reasons:

the conviction of, the indictment for (or its procedural equivalent), or the entering of a guilty plea or plea of no contest with respect to, any felony, the equivalent thereof, or any crime or offense causing harm to the Company or any of its affiliates (whether or not for personal gain) or involving acts of theft, fraud, embezzlement, moral turpitude or similar conduct;

the commission (or attempted commission) of an act of fraud upon the Company or any of its affiliates;

the misuse or diversion (or attempted misuse or diversion) of the Company's or any of its affiliates' funds or property;

fraudulent or willful and material misrepresentation or concealment on any written report submitted to the Company or any of its affiliates;

misconduct or failure to adhere to any written policy of the Company or any of its affiliates;

breach of the individual employment agreements, or failure to perform material duties assigned thereunder or the habitual neglect thereof;

the appropriation (or attempted appropriation) of a material business opportunity of the Company or any of its affiliates, including attempting to secure or securing personal profit in connection with any transaction entered into on behalf of the Company or any of its affiliates;

the engagement in any conflict of interest with the Company or any of its affiliates (except as otherwise provided in the employment agreement) without compliance with the Company's conflict of interest policy, if any, then in effect;

the engagement, without the prior written approval of the Board, in any activity or venture which competes with the domestic business of the Company or any of its affiliates;

the engagement in any behavior or conduct which would constitute a material violation of the provisions of the Company's insider trading policy or business ethics policy, if any, then in effect;

the engagement in any behavior or conduct which, in the judgment of the Board, is detrimental to or harms the business or reputation of the Company or any of its affiliates; or

the engagement by or acceptance of employment with another company or entity.

Equity Acceleration

Employment Agreements. Under the employment agreements of Messrs. Recatto, Mogel and Shaw, in the event of a termination of their respective employment by the Company other than for cause or, for Messrs. Recatto and Mogel, upon a Change in Control of the Company, such Named Executive will be entitled to full vesting of all of his outstanding stock options and restricted stock awards granted to him under his respective employment agreement.

Incentive Plan. Under the Incentive Plan, if there is a Change in Control of the Company, all stock based compensation awards (including options, restricted stock and other stock-based awards) will automatically become fully exercisable, all restrictions or limitations will lapse and all performance criteria and other conditions relating to the payment of such award will be deemed to be achieved or waived by the Company, without the necessity of any action by any person.

Under the Incentive Plan a Change in Control generally means (a) with certain exceptions, the acquisition of beneficial ownership of more than 50% of the outstanding shares of Common Stock; (b) with certain

Table of Contents

exceptions, a change in the majority of the Board serving as directors as of the date of the adoption of the Incentive Plan; (c) the consummation of a business combination transaction approved by the Company's shareholders where (i) the beneficial owners of the Common Stock and voting securities entitled to vote generally in the election of directors immediately prior to the business combination transaction own less than 50% of the then outstanding shares of common stock and the combined voting power of the corporation resulting from such business combination transaction (the Surviving Corporation), (ii) with certain exceptions, a person is the beneficial owner of 30% or more of the outstanding shares of common stock or the combined voting power of the outstanding voting securities of the Surviving Corporation, and (iii) less than a majority of the members of the board of directors of the Surviving Corporation were members of the Board at the time of the execution of the business combination agreement, or of the action of the Board, providing for the business combination transaction; or (d) approval by the Company's shareholders of a complete liquidation or dissolution.

PROPOSAL NO. 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board has appointed Grant Thornton L.L.P. (Grant Thornton) to serve as the Company s independent registered public accounting firm for the fiscal year ending December 31, 2010 and the quarterly periods therein. While the Company is not required to have shareholders ratify the selection of Grant Thornton as its independent registered public accounting firm, the Board considers the selection of the independent registered public accounting firm to be an important matter and is therefore submitting the selection of Grant Thornton for ratification by shareholders as a matter of good corporate practice.

During the fiscal years ended December 31, 2008 and 2007, and through the date of the appointment of Grant Thornton as the Company s independent auditors for fiscal year 2009, the Company did not consult with Grant Thornton regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company s financial statements, and no written report or oral advice was provided by Grant Thornton to the Company that Grant Thornton concluded was an important factor considered by the Company in reaching a decision as to the accounting, auditing or financial reporting issue; or (ii) any matter that was either the subject of a disagreement, as that term is defined in Item 304(a)(1)(iv) of Regulation S-K or a reportable event, as that term is described in Item 304(a)(1)(v) of Regulation S-K.

The Board recommends that shareholders vote in favor of ratifying Grant Thornton as the Company s independent registered public accounting firm for 2009. If shareholders do not ratify selection of the Company s independent registered public accounting firm, the audit committee will reconsider the appointment of Grant Thornton at the appropriate time. The Company anticipates, however, that there would be no change in its independent registered public accounting firm made for 2009 if shareholders do not ratify the selection of Grant Thornton because of the practical difficulty and expense associated with making such a change mid-year. Even if shareholders ratify the selection of Grant Thornton the Audit Committee and the Board may, in its discretion, change the Company s independent registered public accounting firm at any time if they determine that it would be in the best interests of the Company to do so.

A Grant Thornton representative is expected to be present at the annual meeting to respond to appropriate questions and will have the opportunity to make a statement if he or she desires to do so.

Prior to the Board s appointment of Grant Thornton, Pannell Kerr Forster of Texas, P.C. (PKF), served as the Company s independent auditors. On March 25, 2009, the Audit Committee and the Board determined that it would be in the best interests of the Company to dismiss PKF as the Company s independent registered public accounting firm for the fiscal year 2009 and any quarterly periods therein. PKF was notified of this action on March 25, 2009.

The reports of PKF on the Company s financial statements for the fiscal years ended December 31, 2008 and 2007 did not contain an adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope, or accounting principle. During the fiscal years ended December 31, 2008 and 2007, and through March 25, 2009, there have been no disagreements with PKF on any matters of accounting principles or practices, financial statement disclosure or auditing scope and procedure, which disagreements, if not resolved to the satisfaction of PKF, would have caused them to make reference to the subject matter of the disagreements in their reports on the financial statements for such years. During the fiscal years ended December 31, 2008 and 2007, and through March 25, 2009, there have been no reportable events (as defined in Item 304(a)(1)(v) of Regulation S-K).

Edgar Filing: OMNI ENERGY SERVICES CORP - Form DEF 14A

The Company provided PKF with a copy of the foregoing disclosures and requested that PKF furnish it with a letter addressed to the Securities and Exchange Commission stating whether or not it agrees with such

disclosures. A copy of such letter was filed as Exhibit 16.1 to the Form 8-K disclosing this change in independent registered public accountant.

THE BOARD OF DIRECTORS RECOMMENDS THAT SHAREHOLDERS VOTE FOR RATIFICATION OF APPOINTMENT OF THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM.

Independent Registered Public Accounting Firm's Fees

Pre-Approval Policy

The Audit Committee has adopted a policy to require pre-approval of all audit and non-audit services provided by the Company's principal accounting firm. All of the services in 2009 under the audit fees, audit related fees, tax fees and all other fees sections in the table above were pre-approved by the Audit Committee. The Audit Committee has established a policy intended to clearly define the scope of services performed by the Company's independent registered public accounting firm for non-audit services. This policy relates to audit services, audit-related services, tax and all other services which may be provided by the Company's independent registered public accounting firm and is intended to assure that such services do not impair the auditor's independence. The policy requires the pre-approval by the Audit Committee of all services to

be provided by the Company's independent registered public accounting firm. Under the policy, the Audit Committee will annually review and pre-approve the services that may be provided by the independent registered public accounting firm without obtaining specific pre-approval from the Audit Committee or its designee. In addition, the Audit Committee may delegate pre-approval authority to one or more of its members. The member or members to whom such authority is delegated is required to report to the Audit Committee at its next meeting any services which such member or members has approved. The policy also provides that the Audit Committee will pre-approve the fee levels for all services to be provided by the independent registered public accounting firm. Any proposed services exceeding these levels will require pre-approval by the Audit Committee.

TRANSACTIONS WITH RELATED PERSONS

The Board reviews all relationships and transactions in which the Company and its directors and executive officers or their immediate family members are participants to determine whether such persons have a direct or indirect material interest. As matters come up, the Company relies on its corporate legal counsel to obtain information from the directors and executive officers with respect to related person transactions and for then determining, based upon the facts and circumstances, whether the Company or a related person has a direct or indirect material interest in the transaction. As required under SEC rules, transactions that are determined to be directly or indirectly material to the Company or a related person are disclosed in the Company's proxy statement. In addition, the Audit Committee reviews and approves or ratifies any related person transaction that is required to be disclosed.

On May 17, 2005, the Company entered into a Securities Purchase Agreement with certain of its affiliates and executive officers to issue up to \$5.0 million of Series C Preferred Stock. The Series C Preferred Stock is convertible into shares of Common Stock at a conversion price of \$1.95 per share and includes detachable five-year warrants to purchase up to 6,550,000 additional shares of Common Stock at exercise prices ranging between \$1.95 and \$3.50 per share. A portion of the 9% dividend obligation related to the Series C Preferred Stock has been satisfied through the issuance of payment-in-kind (PIK) dividends. The PIK dividends may be paid through the issuance of additional shares of Series C Preferred Stock. These additional shares of preferred stock do not have warrants attached to them.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's directors, executive officers and persons who own more than 10% of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission. With respect to the year ended December 31, 2009, the Company believes that all filing requirements applicable to the Company's directors, executive officers, and 10% shareholders have been met.

PROXY SOLICITATION

The cost of soliciting proxies hereunder will be borne by the Company. Proxies may be solicited by mail, personal interview and/or telephone. Banks, brokerage houses and other nominees or fiduciaries will be requested to forward the soliciting material to their principals and to obtain authorization for the execution of proxies. The Company will, upon request, reimburse them for their expenses in so acting.
