**Item 8.01 Other Events.**

In the quarter ended June 30, 2010, CONSOL Energy management changed the way segments of the company were being evaluated. These changes coincided with the acquisition of the Dominion Appalachian E&P business and the emerging high volatile metallurgical coal markets that began to develop in 2010. Although the overall segments remain unchanged (coal and gas), certain components of each these segments are now evaluated differently than was previously reported.

Coal is now evaluated as steam coal, high volatile metallurgical coal, low volatile metallurgical coal and other coal. This aggregation of reportable segments reflects more closely common financial parameters which are evaluated by executive management, primarily being market usage of coal sold.

Gas is now evaluated as coalbed methane, conventional, Marcellus and other gas. This change was primarily driven by the Dominion Appalachian E&P business and the additional focus on Marcellus Shale activities.

The Quarterly Report on Form 10-Q for the period ending March 31, 2010 has been recast to present the current segment information. Management discussion and analysis has also been recast for the March 31, 2010 Form 10-Q to present financial analysis based on the revised segments in the relevant financial statements. No changes in financial results, financial position or cash flows have been made. Changes are limited to reclassification of financial information into the current segment presentation.

Even though those financial statements related to periods prior to the revised segment reporting, we are providing the revised information in accordance with Securities and Exchange Commission guidance to enable us to incorporate by reference those financial statements and other information into subsequent registration statements that we may file with the SEC under the Securities Act of 1933.

The revised item 1 of Part I (Financial Statements) and item 2 of Part I (Management's Discussion and Analysis of Financial Condition and Results of Operations) for the quarters ended March 31, 2009 and March 31, 2010 are attached to this current report on Form 8-K as Exhibit 99.2 and incorporated by reference into this Item 8.01. The revised sections of our 2010 First Quarter Form 10-Q included in this report have not been otherwise updated for events occurring after the date of our unaudited Condensed Financial Statements included in our 2010 First Quarter Form 10-Q filed on May 4, 2010. Exhibit 99.2 should be read in conjunction with our 2010 First Quarter Form 10-Q (except for Item 1 of Part I and Item 2 of Part I, which are contained in this report).

Also attached to this current report on Form 8-K as Exhibit 99.3 are the combined financial statements for the quarterly period ended March 31, 2010 of Dominion Exploration & Production Inc., Dominion Reserves, Inc. and Dominion Transmission Inc.

We are also filing a Form 8-K which recasts the segment information in the Annual Report for the year ended December 31, 2009.
