Item 1.01 Entry into a Material Definitive Agreement.

On November 29, 2010, Applied Materials, Inc. (Applied) entered into a Settlement Agreement (the Agreement) with Samsung Electronics Co., Ltd. (Samsung). The Agreement resolves potential civil claims and removes the risk of civil litigation between the parties relating to the alleged acquisition, misappropriation and misuse of Samsung confidential semiconductor information in Korea that is the subject of criminal proceedings pending against employees of several companies, including current and former Applied Materials Korea employees, in the Seoul Eastern District Court of the Republic of Korea (the Korea proceedings). Neither Applied nor any of its subsidiaries is a defendant in the Korea proceedings. The settlement terms of the Agreement pertain to potential civil claims between the parties and are separate from and do not affect criminal proceedings against individual defendants, including but not limited to the individuals charged in the Korea proceedings.

Under the Agreement, which is generally effective for a three-year period starting November 1, 2010, Applied will provide volume-based rebates on purchases of semiconductor products by Samsung and its affiliated companies. Applied also will provide volume-based incentives related to Samsung's use of Applied systems (i) for production of semiconductor devices in applications for which Samsung has not previously used Applied systems, and (ii) for joint development activities. In addition, the Agreement includes volume-based credits for certain upgrades, engineering services and spare parts. The financial impact of the above rebates and incentives on Applied's consolidated results of operations and financial position will depend on the volume of purchases by Samsung after the effective date of the Agreement. In fiscal 2009, Samsung accounted for approximately 10% of Applied's consolidated net sales.

This report contains forward-looking statements, including those relating to future business activities and the financial impact of the Agreement. These statements are subject to known and unknown risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements, including, without limitation: the volume of Samsung's purchases of Applied semiconductor products; Applied's ability to accurately forecast the financial impact of the Agreement, which depends on multiple factors; and other risks described in Applied's SEC filings, including its most recent Form 10-Q. All forward-looking statements are based on management's estimates, projections and assumptions as of the date of this report, and Applied undertakes no obligation to update any such statements.

Item 7.01 Regulation FD Disclosure
