Common Stock in the offering, the amount that cannot be invested in IF Bancorp, Inc. The Plan is a tax-qualified plan with a cash or deferred compensation feature established in accordance with the requirements under Section 401(a) and Section 401(k) of the Internal Revenue Code of 1986, as amended (the Code).

Iroquois Federal Savings and Loan Association intends that the Plan, in operation, will comply with the requirements under Section 401(a) and Section 401(k) of the Code. Iroquois Federal Savings and Loan Association will adopt any amendments to the Plan that may be necessary to ensure the continuing qualified status of the Plan under the Code and applicable Treasury Regulations.

Employee Retirement Income Security Act (ERISA). The Plan is an individual account plan other than a money purchase pension plan within the meaning of ERISA. As such, the Plan is subject to all of the provisions of Title I (Protection of Employee Benefit Rights) and Title II (Amendments to the Code Relating to Retirement Plans) of ERISA, except for the funding requirements contained in Part 3 of Title I of ERISA which by their terms do not apply to an individual account plan (other than a money purchase plan). The Plan is not subject to Title IV (Plan Termination Insurance) of ERISA. The funding requirements contained in Title IV of ERISA are not applicable to participants or beneficiaries under the Plan.

Reference to Full Text of Plan. The following portions of this prospectus supplement summarize certain provisions of the Plan. They are not complete and are qualified in their entirety by the full text of the Plan. Copies of the Plan are available to all employees by filing a request with the Plan administrator at Iroquois Federal Savings and Loan Association, 201 East Cherry Street, Watseka, Illinois 60970. You are urged to read carefully the full text of the Plan.

Table of Contents

Contributions Under the Plan

Salary Deferrals. You are permitted to defer, on a pre-tax basis, up to 100% of your compensation, subject to certain restrictions imposed by the Code, and to have that amount contributed to the Plan on your behalf. For purposes of the Plan, compensation means your W-2 wages received from Iroquois Federal Savings and Loan Association. In 2011, the annual compensation of each participant taken into account under the Plan is limited to \$245,000. (Limits established by the Internal Revenue Service are subject to increase pursuant to an annual cost-of-living adjustment, as permitted by the Code). You may elect to modify the amount contributed to the Plan by filing a new elective deferral agreement in accordance with the policy set by Iroquois Federal Savings and Loan Association.

Employer Matching Contributions. In its discretion, Iroquois Federal Savings and Loan Association may make matching contributions to the Plan.

Discretionary Employer Contributions. Iroquois Federal Savings and Loan Association may make discretionary employer contributions to the Plan. The discretionary employer contributions made by Iroquois Federal Savings and Loan Association are allocated on an age and service-weighted basis. For a more thorough discussion of the allocation formula, you should refer to the Summary Plan Description for the Plan.

Limitations on Contributions

Limitations on Employee Salary Deferrals. For the Plan Year beginning January 1, 2011, the amount of your before-tax contributions may not exceed \$16,500 per calendar year. In addition, if you are at least 50 years old in 2011, you will be able to make a catch-up contribution of up to \$5,500 in addition to the \$16,500 limit. The catch-up contribution limit may be adjusted periodically by law, based on changes in the cost of living. Contributions in excess of these limits, as applicable to you, are known as excess deferrals. If you defer amounts in excess of these limitations, as applicable to you, your gross income for federal income tax purposes will include the excess in the year of the deferral. In addition, unless the excess deferral is distributed before April 15 of the following year, it will be taxed again in the year distributed. Income on the excess deferral distributed by April 15 of the immediately succeeding year will be treated, for federal income tax purposes, as earned and received by you in the tax year in which the contribution is made.

Contribution Limit. Generally, the law imposes a maximum limit on the amount of contributions you may receive under the Plan. This limit applies to all contributions to the Plan, including your salary deferrals and all other employer contributions made on your behalf during the year, excluding earnings and any transfers/rollovers. For the Plan Year beginning January 1, 2011, this total cannot exceed the lesser of \$49,000 or 100% of your annual compensation.

Benefits Under the Plan

Vesting. At all times, you have a fully vested, nonforfeitable interest in the salary deferrals you have made and to rollover contributions. Non-elective contributions and matching contributions are subject to a 6-year graded vesting schedule in which such amounts vest at the rate of 20% each year after two years of service until a participant is 100% vested upon

Table of Contents

completion of 6 years of service. In the event of your death or disability, your employer discretionary contributions would immediately become fully vested.

Withdrawals and Distributions from the Plan

Applicable federal law requires the Plan to impose substantial restrictions on the right of a Plan participant to withdraw amounts held for his or her benefit under the Plan prior to the participant's termination of employment with the employer.

Withdrawal upon Retirement. You may withdraw from your account upon attainment of age 59-1/2 (your Normal Retirement Age). However, if you continue working past your Normal Retirement Age, the distribution of your benefits will be postponed until you actually retire, unless you elect to receive an in-service distribution (as described below). You may also leave your account in the Plan and defer commencement of receipt of your vested balance until April 1 of the calendar year following the calendar year in which you attain age 70 1/2, except that distributions to a participant (other than a 5% owner) with respect to benefits accrued after the later of the adoption of the Plan or the effective date of the amendment of the Plan must commence no later than the April 1 of the calendar year following the later of the calendar year in which the participant attains age 70 1/2 or the calendar year in which the participant retires.

Withdrawal upon Termination. You may request a distribution from your account if your termination of employment occurs before your Normal Retirement Age.

Withdrawal upon Disability. If you are disabled in accordance with the definition of disability under the Plan, you will be entitled to the same withdrawal rights as if you had terminated your employment.

Withdrawal upon Death. If you die while you are a participant in the Plan, the value of your entire account will be payable to your beneficiary.

In-Service Distribution. While employed, you are eligible to receive an in-service distribution from your account after your attainment of age 59 1/2.

Form of Distribution. Your benefits under the Plan will be distributed to you or your beneficiary as a single lump-sum payment.

Investment of Contributions and Account Balances

All amounts credited to your accounts under the Plan are held in the Plan trust (the Trust) which is administered by the trustee appointed by Iroquois Federal Savings and Loan Association's Board of Directors.

If the Plan is terminated in whole or in part, then regardless of other provisions in the Plan, you will have a fully vested interest in your accounts. Federal Income Tax Consequences

The following is a brief summary of the material federal income tax aspects of the Plan. You should not rely on this summary as a complete or definitive description of the material federal income tax consequences relating to the Plan. Statutory provisions change, as do their interpretations, and their application may vary in individual circumstances. Finally, the consequences under applicable state and local income tax laws may not be the same as under the federal income tax laws. Please consult your tax advisor with respect to any distribution from the Plan and transactions involving the Plan.

As a tax-qualified retirement plan, the Code affords the Plan special tax treatment, including:

- (1) the sponsoring employer is allowed an immediate tax deduction for the amount contributed to the Plan each year;
- (2) participants pay no current income tax on amounts contributed by the employer on their behalf; and
- (3) earnings of the Plan are tax-deferred, thereby permitting the tax-free accumulation of income and gains on investments.

Iroquois Federal Savings and Loan Association will administer the Plan to comply with the requirements of the Code as of the applicable effective date of any change in the law.

A distribution from the Plan to a participant or the beneficiary of a participant will qualify as a lump-sum distribution if it is made within one taxable year, on account of the participant's death, disability or separation from service, or after the participant attains age 59 1/2, and consists of the balance credited to participants under the Plan and all other profit sharing plans, if any, maintained by Iroquois Federal Savings and Loan Association. The portion of any lump-sum distribution required to be included in your taxable income for federal income tax purposes consists of the entire amount of the lump-sum distribution, less the amount of after-tax contributions, if any, you have made to this Plan and any other profit sharing plans maintained by Iroquois Federal Savings and Loan Association, which is included in the distribution.

IF Bancorp, Inc. Common Stock Included in Lump-Sum Distribution. If a lump-sum distribution includes IF Bancorp, Inc. Common Stock, to the extent of the amount of net unrealized appreciation at the time of distribution, will constitute long-term capital gain, regardless of the holding period of IF Bancorp, Inc. Common Stock. Any gain on a subsequent sale or other taxable disposition of IF Bancorp, Inc. Common Stock, in excess of the amount of net unrealized appreciation at the time of distribution, will be considered long-term capital gain. Notice of Your Rights Concerning Employer Securities.

Federal law provides specific rights concerning investments in employer securities. Because you may in the future have investments in IF Bancorp, Inc. Common Stock under the Plan, you should take the time to read the following information carefully.

Your Rights Concerning Employer Securities. The Plan must allow you to elect to move any portion of your account that is invested in IF Bancorp, Inc. Common Stock from that investment into other investment alternatives under the Plan. You may contact the Plan administrator shown above for specific information regarding this right, including how to make this election. All of the investment options under the Plan are available to you if you decide to diversify out of your investment in IF Bancorp, Inc. Common Stock.

Table of Contents

The Importance of Diversifying Your Retirement Savings. To help achieve long-term retirement security, you should give careful consideration to the benefits of a well-balanced and diversified investment portfolio. Spreading your assets among different types of investments can help you achieve a favorable rate of return, while minimizing your overall risk of losing money. This is because market or other economic conditions that cause one category of assets, or one particular security, to perform very well often cause another asset category, or another particular security, to perform poorly. If you invest more than 20% of your retirement savings in any one company or industry, your savings may not be properly diversified. Although diversification is not a guarantee against loss, it is an effective strategy to help you manage investment risk.

In deciding how to invest your retirement savings, you should take into account all of your assets, including any retirement savings outside of the Plan. No single approach is right for everyone because, among other factors, individuals have different financial goals, different time horizons for meeting their goals, and different tolerance for risk. Therefore, you should carefully consider the rights described here and how these rights affect the amount of money that you invest in employer common stock through the Plan.

It is also important to periodically review your investment portfolio, your investment objectives, and the investment options under the Plan to help ensure that your retirement savings will meet your retirement goals.

Additional Employee Retirement Income Security Act (ERISA) Considerations

As noted above, the Plan is subject to certain provisions of ERISA, including special provisions relating to control over the Plan's assets by participants and beneficiaries. The Plan's feature that allows you to direct the investment of your account balances is intended to satisfy the requirements of Section 404(c) of ERISA relating to control over plan assets by a participant or beneficiary. The effect of this is two-fold. First, you will not be deemed a fiduciary because of your exercise of investment discretion. Second, no person who otherwise is a fiduciary, such as Iroquois Federal Savings and Loan Association, the Plan administrator, or the Plan's trustee is liable under the fiduciary responsibility provision of ERISA for any loss which results from your exercise of control over the assets in your Plan account.

Because you will be entitled to invest up to 90% of your account balance in the Plan in IF Bancorp, Inc. Common Stock, the regulations under Section 404(c) of the ERISA require that the Plan establish procedures that ensure the confidentiality of your decision to purchase, hold, or sell employer securities, except to the extent that disclosure of such information is necessary to comply with federal or state laws not preempted by ERISA. These regulations also require that your exercise of voting and similar rights with respect to IF Bancorp, Inc. Common Stock be conducted in a way that ensures the confidentiality of your exercise of these rights.

These requirements generally involve restrictions upon the timing of elections to acquire or dispose of employer securities for the accounts of Section 16(b) persons.

Except for distributions of IF Bancorp, Inc. Common Stock due to death, disability, retirement, termination of employment or under a qualified domestic relations order, persons affected by Section 16(b) are required to hold shares of IF Bancorp, Inc. Common Stock distributed from the Plan for six months following such distribution and are prohibited from directing additional purchases of IF Bancorp, Inc.
