Breakeven Analysis (pages 6-7)

This supplement replaces the breakeven analysis table and related footnotes with the following:

Breakeven Analysis

The breakeven analysis below indicates the approximate dollar returns and percentage required for the redemption value of a hypothetical investment in a single unit to equal the amount invested twelve months after the investment was made. For purposes of this breakeven analysis, we have assumed an initial selling price per unit of \$50.58, which equals the net asset value per unit on May 31, 2011. This breakeven analysis refers to the redemption of baskets by Authorized Purchasers and is not related to any gains an individual investor would have to achieve in order to break even. The breakeven analysis is an approximation only.

Assumed initial selling price per unit	\$ 50.58
Management Fee (0.60%) ¹	\$ 0.30
Creation Basket Fee ²	\$ (0.01)
Estimated Brokerage Fee (0.097%) ³	\$ 0.05
Interest Income (0.02%) ⁴	\$ (0.01)
Independent Directors and Officers Fees	\$ 0.01
Fees and expenses associated with tax accounting and reporting ⁶	\$ 0.00
NYMEX Licensing Fee ⁷	\$ 0.02
Amount of trading income (loss) required for the redemption value at the end of one year to equal the initial selling price of the unit	\$ 0.36
Percentage of initial selling price per unit	0.71%

¹ UGA is contractually obligated to pay the General Partner a management fee based on the daily net assets and paid monthly of 0.60% per annum on average net assets.

² Authorized Purchasers are required to pay a Creation or Redemption Basket fee of \$350 for each order they place to create or redeem one or more baskets. An order must be at least one basket, which are 100,000 units. This breakeven analysis assumes a hypothetical investment in a single unit so the Creation Basket fee is \$.01 (\$350/100,000).

³ This amount is based on the actual brokerage fees for UGA calculated on an annualized basis.

⁴ UGA earns interest on funds it deposits with the futures commission merchant and the custodian and it estimates that the interest rate will be 0.06% based on the current interest rate on three-month Treasury Bills as of May 31, 2011. The actual rate may vary.

⁵ The foregoing assumes that the assets of UGA are aggregated with those of USOF, US12OF, USNG, USHO, USSO, US12NG and USBO, that the aggregate fees paid to the independent directors was \$1,107,139, that the allocable portion of the fees borne by UGA equals \$15,802 and that UGA has \$141,612,619 in assets which is the amount of assets as of May 31, 2011.

⁶ The fees and expenses associated with tax accounting and reporting are paid by the General Partner on behalf of UGA pursuant to a voluntary expense waiver. The fees and expenses associated with tax accounting and reporting are estimated to be \$280,000 for the fiscal year ended December 31, 2011.

⁷ Assuming the aggregate assets of UGA and the Related Public Funds are \$1,000,000,000 or less, the NYMEX licensing fee is expected to be 0.04%.

The Offering Creation and Redemption (page 8)

The Creation and Redemption provision under the entry The Offering is deleted and replaced with the following:

Authorized Purchasers pay a \$350.00 fee for each order to create or redeem one or more Creation Baskets or Redemption Baskets. Authorized Purchasers are not required to sell any specific number or dollar amount of units. The per unit price of units offered in Creation Baskets on any particular day is the total NAV of UGA calculated shortly after the close of the core trading session on the NYSE Arca on that day divided by the number of issued and outstanding units.

Who is the General Partner? (pages 31-35)

The Who is the General Partner? provision is amended by adding the following individual as a Management Director to the General Partner:

Ms. Johnson has been listed with the CTFC as a Principal of the Sponsor since April 21, 2011. Ms. Johnson also served as the Director of Product Services of Ameristock Corporation from January 2007 to February 2009, where she was responsible for back office and marketing activities for the Ameristock Mutual Fund and Ameristock/Ryan Treasury ETFs. Ms. Johnson was previously employed by Gap Japan, a subsidiary of Gap Inc., from September 2005 to December 2006, and Gap Inc., a global specialty retailer offering clothing, accessories and personal care products to consumers from August 1990 to September 2005, where she most recently served as the Director of Planning for Gap Japan. Ms. Johnson holds a Series 7 registration. She holds a BS in Communications from Moorhead State University. Ms. Johnson is 49 years old.

The last paragraph of Who is the General Partner? is replaced with the following:

These individuals are Principals due to their positions, however, Nicholas Gerber and Melinda Gerber are also Principals due to their controlling stake in Wainwright. None of the Principals owns or has any other beneficial interest in UGA other than as described in the section of this prospectus entitled "Securities Ownership of Certain Beneficial Owners and Management." Nicholas Gerber and John Hyland make trading and investment decisions for UGA. Nicholas Gerber, John Hyland and John Love execute trades on behalf of UGA. In addition, Nicholas Gerber, John Hyland, Robert Nguyen, Ray Allen and Kyle Balough are registered with the CFTC as Associated Persons of the Sponsor and are NFA Associate Members.

What is UGA's Investment Strategy? (page 56)

The first line of the second paragraph on page 64 under the section What is UGA's Investment Strategy is amended as follows:

As an example, assume that a Creation Basket is sold by UGA, and that UGA's closing NAV per unit is \$50. In that case, UGA would receive \$5,000,000 in proceeds from the sale of the Creation Basket (\$50 NAV per unit multiplied by 100,000 units, and ignoring the Creation Basket fee of \$350).

Marketing Agent and Authorized Purchasers (page 71)

The first paragraph of the Marketing Agent and Authorized Purchasers is replaced with the following:

The offering of UGA's units is a best efforts offering. UGA is continuously offering Creation Baskets consisting of 100,000 units through the Marketing Agent, to Authorized Purchasers. Merrill Lynch Professional Clearing Corp. was the initial Authorized Purchaser. The initial Authorized Purchaser purchased the initial Creation

Basket of 100,000 units at a per unit price of \$50 on February 26, 2008. Authorized Purchasers pay a \$350 fee for each order to create one or more Creation Baskets. The Marketing Agent receives, for its services as marketing agent to UGA, a marketing fee of 0.06% on assets up to the first \$3 billion and 0.04% on assets in excess of \$3 billion; provided, however, that in no event may the aggregate compensation paid to the Marketing Agent and any affiliate of the General Partner for distribution-related services in connection with this offering of units exceed ten percent (10%) of the gross proceeds of this offering.

Creation and Redemption of Units (page 73)

The second paragraph under the heading "Creation and Redemption of Units" is deleted and replaced with the following:

Authorized Purchasers are the only persons that may place orders to create and redeem baskets. Authorized Purchasers must be (1) registered broker-dealers or other securities market participants, such as banks and other financial institutions, that are not required to register as broker-dealers to engage in securities transactions as described below, and (2) DTC Participants. To become an Authorized Purchaser, a person must enter into an Authorized Purchaser Agreement with the General Partner. The Authorized Purchaser Agreement provides the procedures for the creation and redemption of baskets and for the delivery of the Treasuries and any cash required for such creations and redemptions. The Authorized Purchaser Agreement and the related procedures attached thereto may be amended by UGA, without the consent of any limited partner or unitholder or Authorized Purchaser. Authorized Purchasers pay a transaction fee of \$350 to UGA for each order they place to create or redeem one or more baskets. Authorized Purchasers who make deposits with UGA in exchange for baskets receive no fees, commissions or other form of compensation or inducement of any kind from either UGA or the General Partner, and no such person will have any obligation or responsibility to the General Partner or UGA to effect any sale or resale of units.

Creation and Redemption Transaction Fee (page 76)

The "Creation and Redemption Transaction Fee" is deleted and replaced with the following:

Creation and Redemption Transaction Fee

To compensate UGA for its expenses in connection with the creation and redemption of baskets, an Authorized Purchaser is required to pay a transaction fee to UGA of \$350 per order to create or redeem baskets. An order may include multiple baskets. The transaction fee may be reduced, increased or otherwise changed by the General Partner. The General Partner shall notify DTC of any change in the transaction fee and will not implement any increase in the fee for the redemption of baskets until 30 days after the date of the notice.

The General Partner is also making updates to the "Prior Performance of the General Partner and its Affiliates" section effective as of the date of this prospectus supplement.

The table below shows the relationship between the trading prices of the units of UGA and each of the Related Public Funds and the daily NAV of such fund, since inception through May 31, 2011. The first row shows the average amount of the variation between the Related Public Fund's closing market price and NAV, computed on a daily basis since inception, while the second and third rows depict the maximum daily amount of the end of day premiums and discounts to NAV since inception, on a percentage basis. Management of the General Partner believes that maximum and minimum end of day premiums and discounts typically occur because trading in the units continues on the NYSE Arca until 4:00 p.m. New York time while regular trading in the benchmark futures contract on the NYMEX ceases at 2:30 p.m. New York time and the value of the relevant benchmark futures contract, for purposes of determining its end of day NAV, can be determined at that time. One known exception to this conclusion were the premiums on trading in USNG units that occurred between July 8, 2009 and September 28, 2009, when USNG suspended the issuance of Creation Baskets as a result of regulatory concern relating to the size of USNG's positions in the natural gas futures and cleared swap markets, and there was continued demand for such units and other similar natural gas futures linked investments in the market.

There are significant differences between investing in the Funds and the Related Public Funds and investing directly in the futures market. The Sponsor's results with UGA and the Related Public Funds may not be representative of results that may be experienced with a fund directly investing in futures contracts or other managed funds investing in futures contracts. Moreover, given the different investment objectives of UGA and the Related Public Funds, the performance of UGA may not be representative of the results that may be experienced by the other Related Public Funds. Worst Peak-to-Valley Draw-down: The largest percentage decline in the NAV per unit over the history of the fund. This need not be a continuous decline, but can be a series of positive and negative returns where the negative returns are larger than the positive returns. Worst Peak-to-Valley Draw-down represents the greatest percentage decline from any month-end NAV per unit that occurs without such month-end NAV per unit being equaled or exceeded as of a subsequent month-end. For example, if the NAV per unit declined by \$1 in each of January and February, increased by \$1 in March and declined again by \$2 in April, a peak-to-valley drawdown analysis conducted as of the end of April would consider that drawdown to be still continuing and to be \$3 in amount, whereas if the NAV per unit had increased by \$2 in March, the January – February drawdown would have ended as of the end of February at the \$2 level.
