SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-Q

(Mark One)

☒ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2012

OR

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission file number 1-15967

The Dun & Bradstreet Corporation

(Exact name of registrant as specified in its charter)

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

Delaware (State of incorporation)	22-3725387 (I.R.S. Employer Identification No.)
103 JFK Parkway, Short Hills, NJ (Address of principal executive offices)	07078 (Zip Code)
Registrant's telephone number, including area code: (973) 921-5500	

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one:)

Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/>	Smaller reporting company <input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

Title of Class	Shares Outstanding at June 30, 2012
Common Stock, par value \$0.01 per share	44,882,376

The accompanying notes are an integral part of the unaudited consolidated financial statements.

THE DUN & BRADSTREET CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(Tabular dollar amounts in millions, except per share data)

Note 1 Basis of Presentation

These interim unaudited consolidated financial statements have been prepared in accordance with the instructions to the Quarterly Report on Form 10-Q. They should be read in conjunction with the consolidated financial statements and related notes, which appear in The Dun & Bradstreet Corporation's (D&B, we or our) Annual Report on Form 10-K for the year ended December 31, 2011. The unaudited consolidated results for interim periods do not include all disclosures required by accounting principles generally accepted in the United States of America (GAAP) for annual financial statements and are not necessarily indicative of results for the full year or any subsequent period. In the opinion of our management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement of the unaudited consolidated financial position, results of operations and cash flows at the dates and for the periods presented have been included.

All inter-company transactions have been eliminated in consolidation.

Simultaneously with the sale of the domestic portion of our Japanese operations to Tokyo Shoko Research Ltd. (TSR), we entered into a ten-year commercial arrangement to provide TSR with global data for its Japanese competitors and became the exclusive distributor of TSR data to our Worldwide Network partners. We continue to manage our business through three segments. However, as of January 1, 2012, our Asia Pacific Partnerships have been moved out of our Europe and Other International Markets segment and into our Asia Pacific segment.

On January 1, 2012, we began managing our business through the following three segments (all prior periods have been reclassified to reflect the new segment structure):

North America (which consists of our operations in the United States (U.S.) and Canada);

Asia Pacific (which primarily consists of our operations in Australia, China, India and Asia Pacific Partnerships); and

Europe and Other International Markets (which primarily consists of our operations in the United Kingdom (UK), Netherlands, Belgium, Latin America and European Partnerships).

Prior to January 1, 2012, we managed and reported our business globally through the following three segments:

North America (which consisted of our operations in the U.S. and Canada);

Asia Pacific (which primarily consisted of our operations in Australia, Japan, China and India); and

Europe and Other International Markets (which primarily consisted of our operations in the UK, Netherlands, Belgium, Latin America and our Worldwide Network).

The financial statements of the subsidiaries outside North America reflect results for the three months ended May 31 in order to facilitate the timely reporting of our unaudited consolidated financial results and unaudited consolidated financial position.

Where appropriate, we have reclassified certain prior year amounts to conform to the current year presentation due to the change in segment structure discussed above.

Note 2 Recent Accounting Pronouncements

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

In July 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2012-02, Intangibles Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment. The amendments in this ASU allow a company to qualitatively assess whether indefinite-lived intangible assets are more likely than not impaired. If the indefinite-lived intangible assets are considered impaired, a company is required to perform the quantitative test under ASC 350-30, Intangibles Goodwill and Other General Intangibles Other than Goodwill. The authoritative guidance does not amend the requirement to test indefinite-lived intangible assets annually for impairment. In addition, the authoritative guidance does not amend the requirement to test these assets for impairment between annual tests if there is a change in events or circumstances. The authoritative guidance is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. Early adoption is permitted if a public entity's financial statements for the most recent annual or interim period have not yet been issued. We are currently assessing the impact of the adoption of this authoritative guidance on our consolidated financial statements.

In December 2011, the FASB issued ASU No. 2011-11, Balance Sheet (Topic 210); Disclosures about Offsetting Assets and Liabilities. The amendments in this ASU require a company to disclose information about offsetting and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. An entity is required to apply the amendments for annual reporting periods beginning on or after January 1, 2013 and interim periods within those annual periods. A company should provide the disclosures required by those amendments retrospectively for all comparative periods presented. We are currently assessing the impact of the adoption of this authoritative guidance on our consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

Note 3 Restructuring Charge

Financial Flexibility is an ongoing process by which we seek to reallocate our spending from low-growth or low-value activities to other activities that will create greater value for shareholders through enhanced revenue growth, improved profitability and/or quality improvements. With most initiatives, we have incurred restructuring charges (which generally consist of employee severance and termination costs, contract terminations, and/or costs to terminate lease obligations less assumed sublease income). These charges are incurred as a result of eliminating, consolidating, standardizing and/or automating our business functions.

Restructuring charges have been recorded in accordance with Accounting Standards Codification (ASC) 712-10, Nonretirement Postemployment Benefits, or ASC 712-10 and/or ASC 420-10, Exit or Disposal Cost Obligations, or ASC 420-10, as appropriate.

We record severance costs provided under an ongoing benefit arrangement once they are both probable and estimable in accordance with the provisions of ASC 712-10.

We account for one-time termination benefits, contract terminations, and/or costs to terminate lease obligations less assumed sublease income in accordance with ASC 420-10, which addresses financial accounting and reporting for costs associated with restructuring activities. Under ASC 420-10, we establish a liability for cost associated with an exit or disposal activity, including severance and lease termination obligations, and other related costs, when the liability is incurred, rather than at the date that we commit to an exit plan. We reassess the expected cost to complete the exit or disposal activities at the end of each reporting period and adjust our remaining estimated liabilities, if necessary.

The determination of when we accrue for severance costs and which standard applies depends on whether the termination benefits are provided under an ongoing arrangement as described in ASC 712-10 or under a one-time benefit arrangement as defined by ASC 420-10. Inherent in the estimation of the costs related to the restructurings are assessments related to the most likely expected outcome of the significant actions to accomplish the exit activities. In determining the charges related to the restructurings, we had to make estimates related to the expenses associated with the restructurings. These estimates may vary significantly from actual costs depending, in part, upon factors that may be beyond our control. We will continue to review the status of our restructuring obligations on a quarterly basis and, if appropriate, record changes to these obligations in current operations based on management's most current estimates.

Three Months Ended June 30, 2012 vs. Three Months Ended June 30, 2011

During the three months ended June 30, 2012, we recorded a \$9.3 million restructuring charge. The significant components of these charges included:

Severance and termination costs of \$8.1 million and \$1.1 million in accordance with the provisions of ASC 712-10 and ASC 420-10, respectively, were recorded. Approximately 500 employees were impacted. Of these 500 employees, approximately 435 employees exited the Company in the second quarter of 2012, with the remaining to exit in the second half of 2012. The cash payments for these employees will be substantially completed by the fourth quarter of 2012; and

Lease termination obligations, other costs to consolidate or close facilities and other exit costs of \$0.1 million.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

During the three months ended June 30, 2011, we recorded an \$8.5 million restructuring charge. The significant components of these charges included:

Severance and termination costs of \$5.4 million in accordance with the provisions of ASC 712-10 were recorded. Approximately 100 employees were impacted. Of these 100 employees, approximately 65 employees exited the Company in the second quarter of 2011, with the remaining having exited in the second half of 2011. The cash payments for these employees were substantially completed by the first quarter of 2012; and

Lease termination obligations, other costs to consolidate or close facilities and other exit costs of \$3.1 million.

Six Months Ended June 30, 2012 vs. Six Months Ended June 30, 2011

During the six months ended June 30, 2012, we recorded an \$18.4 million restructuring charge. The significant components of these charges included:

Severance and termination costs of \$11.2 million and \$4.7 million in accordance with the provisions of ASC 712-10 and ASC 420-10, respectively, were recorded. Approximately 620 employees were impacted. Of these 620 employees, approximately 555 employees exited the Company in the first half of 2012, with the remaining to exit in the second half of 2012. The cash payments for these employees will be substantially completed by the fourth quarter of 2012; and

Lease termination obligations, other costs to consolidate or close facilities and other exit costs of \$2.5 million.

During the six months ended June 30, 2011, we recorded a \$12.7 million restructuring charge. The significant components of these charges included:

Severance and termination costs of \$9.6 million in accordance with the provisions of ASC 712-10 were recorded. Approximately 200 employees were impacted. Of these 200 employees, approximately 160 exited the Company in the first half of 2011, with the remaining having exited in the second half of 2011. The cash payments for these employees were substantially completed by the first quarter of 2012; and

Lease termination obligations, other costs to consolidate or close facilities and other exit costs of \$3.1 million.

The following tables set forth, in accordance with ASC 712-10 and/or ASC 420-10, the restructuring reserves and utilization related to our Financial Flexibility initiatives:

	Severance and Termination	Lease Termination Obligations and Other Exit Costs	Total
Restructuring Charges:			
Balance Remaining as of December 31, 2011	\$ 8.3	\$ 2.2	\$ 10.5

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

Charge Taken during First Quarter 2012	6.7	2.4	9.1
Payments during First Quarter 2012	(4.0)	(1.0)	(5.0)
Balance Remaining as of March 31, 2012	\$ 11.0	\$ 3.6	\$ 14.6
Charge Taken during Second Quarter 2012	9.2	0.1	9.3
Payments during Second Quarter 2012	(7.5)	(0.8)	(8.3)
Balance Remaining as of June 30, 2012	\$ 12.7	\$ 2.9	\$ 15.6

(1) We incurred a settlement of \$1.0 million in the first quarter of 2011 related to our Canadian Pension Plan.

Note 4 Notes Payable and Indebtedness

Our borrowings are summarized in the following table:

	At June 30, 2012	At December 31, 2011
Debt Maturing Within One Year:		
Short-Term Fixed-Rate	\$ 400.0	\$ 0.0
Other	0.6	1.1
 Total Debt Maturing Within One year	 \$ 400.6	 \$ 1.1
Debt Maturing After One Year:		
Long-Term Fixed-Rate Notes (Net of a \$0.7 million and \$0.8 million discount as of June 30, 2012 and December 31, 2011, respectively)	\$ 299.3	\$ 699.2
Fair Value Adjustment Related to Hedged Debt	4.5	4.4
Credit Facility	308.6	259.4
Other	0.6	0.9
 Total Debt Maturing After One Year	 \$ 613.0	 \$ 963.9

Fixed-Rate Notes

In November 2010, we issued senior notes with a face value of \$300 million that mature on November 15, 2015 (the 2015 notes), bearing interest at a fixed annual rate of 2.875%, payable semi-annually. The proceeds were used in December 2010 to repay our then outstanding \$300 million senior notes, bearing interest at a fixed annual rate of 5.50%, which had a maturity date of March 15, 2011 (the 2011 notes). In connection with the redemption of the 2011 notes, we recorded a premium payment of \$3.7 million to Other Income (Expense) Net in the consolidated statement of operations and comprehensive income during the year ended December 31, 2010. The 2015 notes of \$299.3 million, net of \$0.7 million remaining discount, are recorded as Long-Term Debt in our unaudited consolidated balance sheet at June 30, 2012.

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

The 2015 notes were issued at a discount of \$1.1 million, and, in connection with the issuance, we incurred underwriting and other fees of approximately \$2.5 million. These costs are being amortized over the life of the 2015 notes. The 2015 notes contain certain covenants that limit our ability to create liens, enter into sale and leaseback transactions and consolidate, merge or sell assets to another entity. The 2015 notes do not contain any financial covenants.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

In November and December 2010, we entered into interest rate derivative transactions with aggregate notional amounts of \$125 million. The objective of these hedges was to offset the change in fair value of the fixed rate 2015 notes attributable to changes in LIBOR. These transactions have been accounted for as fair value hedges. We have recognized the gain or loss on the derivative instruments, as well as the offsetting loss or gain on the hedged item, in *Other Income (Expense) Net* in the consolidated statement of operations and comprehensive income.

In March 2012, in connection with our objective to manage exposure to interest rate changes and our policy to manage our fixed and floating-rate debt mix, these interest rate derivatives were terminated. This resulted in a gain of \$0.3 million and the receipt of \$5.0 million in cash on March 12, 2012, the swap termination settlement date. The gain of \$0.3 million was recorded in *Other Income (Expense) Net* in the consolidated statement of operations and comprehensive income during the six months ended June 30, 2012. The \$5.0 million cash received is reflected as an offset to interest paid in the unaudited consolidated statement of cash flows during the six months ended June 30, 2012.

Approximately \$0.8 million of derivative gains offset by a \$0.5 million loss on the fair value adjustment related to the hedged debt were recorded through the date of termination in the results for the three months ended March 31, 2012. The \$4.9 million adjustment in the carrying amount of the hedged debt at the date of termination will be amortized as an offset to *Interest Expense* in the consolidated statement of operations and comprehensive income over the remaining term of the 2015 notes. Approximately \$0.4 million of amortization was recorded from the swap termination date through June 30, 2012, resulting in a balance of \$4.5 million in our unaudited consolidated balance sheet at June 30, 2012.

In April 2008, we issued senior notes with a face value of \$400 million that mature on April 1, 2013 (the *2013 notes*), bearing interest at a fixed annual rate of 6.00%, payable semi-annually. The interest rate applicable to the 2013 notes is subject to adjustment if our debt rating is decreased four levels below the Standard & Poor's and Fitch A- credit ratings that we held on the date of issuance. After a rate adjustment, if our debt ratings are subsequently upgraded, the adjustment(s) would reverse. The maximum adjustment is 2.00% above the initial interest rate and the rate cannot adjust below 6.00%. As of June 30, 2012, no such adjustments to the interest rate have been made. Proceeds from this issuance were used to repay indebtedness under our credit facility. During the second quarter of 2012, the 2013 notes had been reclassified from long-term debt to short-term debt because they will expire in less than one year. As such, the 2013 notes are recorded as *Short-Term Debt* in our unaudited consolidated balance sheet at June 30, 2012.

The 2013 notes were issued at face value and, in connection with the issuance, we incurred underwriting and other fees of \$3.0 million. These costs are being amortized over the life of the 2013 notes. The 2013 notes contain certain covenants that limit our ability to create liens, enter into sale and leaseback transactions and consolidate, merge or sell assets to another entity. The 2013 notes do not contain any financial covenants.

On January 30, 2008, we entered into interest rate derivative transactions with an aggregate notional amount of \$400 million. The objective of these hedges was to mitigate the variability of future cash flows from market changes in Treasury rates in anticipation of the issuance of the 2013 notes. These transactions were accounted for as cash flow hedges and, as such, changes in fair value of the hedges that took place through the date of the issuance of the 2013 notes were recorded in *Accumulated Other Comprehensive Income (AOCI)*. In connection with the issuance of the 2013 notes, these interest rate derivative transactions were terminated, resulting in a loss and a payment of \$8.5 million on March 28, 2008, the date of termination. The payments are recorded in *AOCI* and are being amortized over the life of the 2013 notes.

Credit Facility

At June 30, 2012 and December 31, 2011, we had an \$800 million, five-year bank revolving credit facility, which expires in October 2016. Borrowings under the \$800 million credit facility are available at prevailing short-term interest rates. The facility requires the maintenance of interest coverage and total debt to Earnings Before Income Taxes, Depreciation and Amortization (*EBITDA*) ratios, which are defined in the credit agreement. We were in compliance with these credit facility covenants at June 30, 2012 and December 31, 2011.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

At June 30, 2012 and December 31, 2011, we had \$308.6 million and \$259.4 million, respectively, of borrowings outstanding under the \$800 million credit facility with weighted average interest rates of 1.25% and 1.58%, respectively. We borrowed under this facility from time-to-time during the six months ended June 30, 2012 to supplement the timing of receipts in order to fund our working capital and share repurchases. The \$800 million credit facility also supports our commercial paper borrowings of up to \$300 million (limited by borrowed amounts outstanding under the facility). We did not borrow under our commercial paper program during the six months ended June 30, 2012 and 2011.

Other

At June 30, 2012 and December 31, 2011, certain of our international operations had uncommitted lines of credit of \$2.1 million and \$3.2 million, respectively. There were no borrowings outstanding under these lines of credit at June 30, 2012 and \$0.2 million of borrowings outstanding under these lines of credit at December 31, 2011. These arrangements have no material facility fees and no compensating balance requirements.

At June 30, 2012 and December 31, 2011, we were contingently liable under open standby letters of credit issued by our bank in favor of third parties and guarantees in favor of certain of our banks totaling \$11.7 million and \$12.2 million, respectively.

In March 2012 we terminated our interest rate derivative transactions resulting in the receipt of \$5.0 million in cash on the date of termination. The \$5.0 million cash received is reflected as an offset to interest paid in the unaudited consolidated statement of cash flows. Interest paid for all outstanding debt totaled \$16.8 million and \$12.4 million during the three month and six month periods ended June 30, 2012, respectively. Interest paid for all outstanding debt totaled \$15.9 million and \$16.7 million during the three month and six month periods ended June 30, 2011, respectively.

Note 5 Earnings Per Share

In accordance with the authoritative guidance in ASC 260-10, we are required to assess if any of our share-based payment transactions are deemed participating securities prior to vesting and therefore need to be included in the earnings allocation when computing Earnings Per Share (EPS) under the two-class method. The two-class method requires earnings to be allocated between common shareholders and holders of participating securities. All outstanding unvested share-based payment awards that contain non-forfeitable rights to dividends are considered to be a separate class of common stock and should be included in the calculation of basic and diluted EPS. Based on a review of our stock-based awards, we have determined that only our restricted stock awards are deemed participating securities. The weighted average restricted shares outstanding were 8,396 shares and 66,559 shares for the three months ended June 30, 2012 and 2011, respectively. The weighted average restricted shares outstanding were 19,331 shares and 84,662 shares for the six months ended June 30, 2012 and 2011, respectively.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Net Income Attributable to D&B	\$ 56.5	\$ 58.5	\$ 119.9	\$ 108.4
Less: Allocation to Participating Securities	0.0	(0.1)	0.0	(0.2)
Net Income Attributable to D&B Common Shareholders - Basic and Diluted	\$ 56.5	\$ 58.4	\$ 119.9	\$ 108.2
Weighted Average Number of Shares Outstanding - Basic	46.7	49.3	47.2	49.4
Dilutive Effect of Our Stock Incentive Plans	0.3	0.4	0.4	0.4
Weighted Average Number of Shares Outstanding - Diluted	47.0	49.7	47.6	49.8

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

Basic Earnings Per Share of Common Stock Attributable to D&B Common Shareholders	\$ 1.21	\$ 1.19	\$ 2.54	\$ 2.19
Diluted Earnings Per Share of Common Stock Attributable to D&B Common Shareholders	\$ 1.20	\$ 1.18	\$ 2.52	\$ 2.17

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

Stock-based awards to acquire 1,470,565 shares and 1,291,801 shares of common stock were outstanding at the three month period ended June 30, 2012 and 2011, respectively, but were not included in the computation of diluted earnings per share because the assumed proceeds, as calculated under the treasury stock method, resulted in these awards being anti-dilutive. Stock-based awards to acquire 1,377,458 shares and 1,163,534 shares of common stock were outstanding at the six month period ended June 30, 2012 and 2011, respectively, but were not included in the computation of diluted earnings per share because the assumed proceeds, as calculated under the treasury stock method, resulted in these awards being anti-dilutive. Our options generally expire 10 years from the grant date.

Our share repurchases were as follows:

Program	For the Three Months Ended June 30,				For the Six Months Ended June 30,			
	2012		2011		2012		2011	
	Shares	\$ Amount	Shares	\$ Amount	Shares	\$ Amount	Shares	\$ Amount
	(Dollar amounts in millions)				(Dollar amounts in millions)

Repurchases to Mitigate the Dilutive Effect of the Shares Issued Under Our Stock Incentive Plans and Employee Stock Purchase Plan (ESPP)	59,563(c)	4.0	127,806(c)	10.4	59,563(c)	4.0	357,556(c)	29.1
Total Repurchases	3,028,266	\$ 204.0	420,100	\$ 33.8	3,028,266	\$ 204.0	832,200	\$ 67.5

- (a) In October 2011, our Board of Directors approved a \$500 million share repurchase program, which commenced in November 2011 upon completion of our then existing \$200 million share repurchase program. We anticipate that this program will be completed by December 31, 2012.
- (b) In February 2009, our Board of Directors approved a \$200 million share repurchase program, which commenced in December 2009 upon completion of our then existing \$400 million, two-year repurchase program. This program was completed in November 2011.
- (c) In May 2010, our Board of Directors approved a four-year, five million share repurchased program to mitigate the dilutive effect of the shares issued under our stock incentive plans and ESPP. This program commenced in October 2010 and expires in October 2014.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

Note 6 Other Accrued and Current Liabilities

	At June 30, 2012	At December 31, 2011
Restructuring Accruals	\$ 15.6	\$ 10.5
Professional Fees	41.7	33.6
Operating Expenses	30.3	35.1
Spin-Off Obligation(1)	1.6	20.5
Other Accrued Liabilities	41.7	53.9
	\$ 130.9	\$ 153.6

- (1) In 2000, as part of a spin-off transaction under which Moody's Corporation (Moody's) and D&B became independent of one another, Moody's and D&B entered into a Tax Allocation Agreement (TAA). Under the TAA, Moody's and D&B agreed that Moody's would be entitled to deduct the compensation expense associated with the exercise of Moody's stock options (including Moody's stock options exercised by D&B employees) and D&B would be entitled to deduct the compensation expense associated with the exercise of D&B stock options (including D&B stock options exercised by employees of Moody's). Put simply, the tax deduction would go to the company that granted the stock options, rather than to the employer of the individual exercising the stock options. In 2002 and 2003, the Internal Revenue Service (IRS) issued rulings that clarified that, under the circumstances applicable to Moody's and D&B, the compensation expense deduction belongs to the employer of the option grantee and not to the issuer of the option (i.e., D&B would be entitled to deduct the compensation expense associated with D&B employees exercising Moody's options and Moody's would be entitled to deduct the compensation expense associated with Moody's employees exercising D&B options). We have filed tax returns for 2001 through 2010 consistent with the IRS rulings. We may be required to reimburse Moody's for the loss of compensation expense deductions relating to tax years 2008 to 2010 of approximately \$1.6 million in the aggregate for such years. This liability was reduced from \$20.5 million at December 31, 2011 to \$1.6 million during the six months ended June 30, 2012 due to expiration of the statute of limitations. In 2005 and 2006, we paid Moody's approximately \$30.1 million in the aggregate, which represented the incremental tax benefits realized by D&B for tax years 2003-2005 from using the filing method consistent with the IRS rulings. In February 2011, we paid Moody's an additional sum of approximately \$2.5 million, for tax years 2003-2005. While not material, we may also be required to pay, in the future, amounts in addition to the approximately \$1.6 million referenced above based upon interpretations by the parties of the TAA and the IRS rulings.

Note 7 Contingencies

We are involved in tax and legal proceedings, claims and litigation arising in the ordinary course of business for which we believe that we have adequate reserves, and such reserves are not material to our consolidated financial statements. We record a liability when management believes that it is both probable that a liability has been incurred and we can reasonably estimate the amount of the loss. For such matters where management believes a liability is not probable but is reasonably possible, a liability is not recorded; instead, an estimate of loss or range of loss, if material individually or in the aggregate, is disclosed if reasonably estimable, or a statement will be made that an estimate of loss cannot be made. Once we have disclosed a matter that we believe is or could be material to us, we continue to report on such matter until there is finality of outcome or until we determine that disclosure is no longer warranted. Further, we believe our estimate of the aggregate range of reasonably possible losses, in excess of established reserves, for our legal proceedings was not material at June 30, 2012.

China Operations

On March 18, 2012, we announced that we had temporarily suspended our Shanghai Roadway D&B Marketing Services Co Ltd. (Roadway) operations in China, pending an investigation into allegations that its data collection practices may violate local Chinese consumer data privacy laws. Thereafter, the Company decided to permanently cease the operations of Roadway. In addition, we have been reviewing certain allegations that we may have violated the Foreign Corrupt Practices Act and certain other laws in our China operations. As previously reported, we are cooperating with the local Chinese authorities and have voluntarily contacted the Securities and Exchange Commission and the United States Department of Justice to advise both agencies of our investigation. Our investigation remains ongoing and is being conducted at the direction of

the Audit Committee.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

As the investigation is ongoing, we cannot yet predict the ultimate outcome of the matter or its impact, if any, on our business, financial condition, or results of operations. No amount in respect of any potential liability in this matter, including for penalties, fines or other sanctions, has been accrued in our consolidated financial statements.

In connection with the ongoing investigation and evaluation of other factors, such as the time, cost and management bandwidth required to resolve the current matters and restart the business, as well as the very fluid situation in China, we subsequently determined to permanently cease the operations of Roadway. The Roadway shut-down had no impact in our first quarter 2012 Asia Pacific revenue. For the six months ended June 30, 2012, \$5.4 million of revenue, \$14.5 million of operating loss and \$0.5 million shut-down costs was related to the Roadway business. D&B acquired Roadway's operations in 2009, and for 2011 Roadway accounted for approximately \$22 million in revenue and \$2 million in operating income. During the six months ended June 30, 2012, we recorded an impairment charge of \$12.9 million related to the accounts receivable, intangible assets, prepaid costs and software for Roadway, an operation in our Greater China reporting unit.

Nicholas Martin v. Dun & Bradstreet, Inc. and Convergys Customer Management Group, Inc., No. 12 CV 215 (USDC N.D. Ill.)

On January 11, 2012, Nicholas Martin filed suit against Dun & Bradstreet, Inc. and Convergys Customer Management Group, Inc. in the United States District Court for the Northern District of Illinois. The complaint alleges that Defendants violated the Telephone Consumer Protection Act (TCPA) (47 U.S.C. §227) by placing a call to Plaintiff's cell phone using an automatic telephone dialing system. Plaintiff seeks to bring this action as a class action on behalf of all persons who received a call on their cell phone which was initiated by Defendant(s) using an automatic telephone dialing system, where the Defendant(s) obtained the cell phone number from some source other than directly from the called party, during the period January 11, 2010 to the present. Both D&B and Convergys answered the complaint on March 2, 2012. Plaintiff has filed a motion for class certification. Discovery has commenced and at this point the court has not set a discovery cut-off date. The court has ordered Dun & Bradstreet to comply with all outstanding written discovery by August 15, 2012 unless Dun & Bradstreet and plaintiff's counsel agree on another date. Due to the inherent uncertainties of litigation, we cannot accurately predict the ultimate outcome of the matter. No amount in respect of any potential judgment in this matter has been accrued in our consolidated financial statements.

Other Matters

In addition, in the normal course of business, and including without limitation, our merger and acquisition activities and financing transactions, D&B indemnifies other parties, including customers, lessors and parties to other transactions with D&B, with respect to certain matters. D&B has agreed to hold the other parties harmless against losses arising from a breach of representations or covenants, or arising out of other claims made against certain parties. These agreements may limit the time within which an indemnification claim can be made and the amount of the claim. D&B has also entered into indemnity obligations with its officers and directors.

Additionally, in certain circumstances, D&B issues guarantee letters on behalf of our wholly-owned subsidiaries for specific situations. It is not possible to determine the maximum potential amount of future payments under these indemnification agreements due to the limited history of prior indemnification claims and the unique facts and circumstances involved in each particular agreement. Historically, payments made by D&B under these agreements have not had a material impact on our consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

Note 8 Income Taxes

For the three months ended June 30, 2012, our effective tax rate was 30.2% as compared to 20.1% for the three months ended June 30, 2011. The 2011 effective tax rate was significantly impacted by the release of reserves for uncertain tax positions in 2011 due to the expiration of a statute of limitations in 2011 which did not re-occur in 2012. The 2012 effective tax rate was positively impacted by an incremental benefit recorded for the divestiture of the domestic portion of our Japan operations and by a benefit recorded as a result of a change to state apportionment related to a prior tax period. For the three months ended June 30, 2012, there are no changes in our effective tax rate that either have had or that we expect may reasonably have a material impact on our operations or future performance.

For the six months ended June 30, 2012, our effective tax rate was 21.4% as compared to 29.2% for the six months ended June 30, 2011. The effective tax rate for the six months ended June 30, 2012, as compared to the six months ended June 30, 2011, was positively impacted by a tax benefit on a loss on the tax basis of a legal entity and by tax benefits from the divestiture of the domestic portion of our Japan operations and negatively impacted by an impairment related to permanently ceasing operations of Roadway in China. For the six months ended June 30, 2012, there are no changes in our effective tax rate that either have had or that we expect may reasonably have a material impact on our operations or future performance.

The total amount of gross unrecognized tax benefits as of June 30, 2012 was \$124.9 million. The amount of unrecognized tax benefits that, if recognized, would impact the effective tax rate is \$117.1 million, net of tax benefits. During the three months ended June 30, 2012, we increased our unrecognized tax benefits by \$0.1 million, net of decreases. The increase is primarily related to additions in prior year tax positions. During the six months ended June 30, 2012, we increased our unrecognized tax benefits by approximately \$4.8 million (net of decreases), primarily related to legacy tax matters. The company anticipates that it is reasonably possible total unrecognized tax benefits will decrease by approximately \$34 million within the next twelve months as a result of the expiration of applicable statutes of limitation.

We recognize accrued interest expense related to unrecognized tax benefits in income tax expense. The total amount of interest expense recognized in the three month and six month periods ended June 30, 2012 was \$0.8 million and \$1.3 million, net of tax benefits, respectively, as compared to \$0.9 million and \$1.6 million, net of tax benefits in the three month and six month periods ended June 30, 2011, respectively. The total amount of accrued interest as of June 30, 2012 was \$12.7 million, net of tax benefits, as compared to \$10.3 million, net of tax benefits, as of June 30, 2011.

We or one of our subsidiaries file income tax returns in the U.S. Federal, and various state, local and foreign jurisdictions. In the U.S. Federal jurisdiction, we are no longer subject to examination by the IRS for years prior to 2005. In state and local jurisdictions, with a few exceptions, we are no longer subject to examinations by tax authorities for years prior to 2008. In foreign jurisdictions, with a few exceptions, we are no longer subject to examinations by tax authorities for years prior to 2007.

The IRS has completed its examination of our 2004, 2005 and 2006 tax years. As reported in our Annual Report on Form 10-K for the year ended December 31, 2011 the IRS proposed certain adjustments to our Research Tax Credits and Domestic Production Deduction. We agreed with the proposed Research Tax Credit adjustments which were fully reserved under authoritative guidance. We disagreed with the proposed Domestic Production Deduction adjustments and are currently having this matter reviewed by the IRS Office of Appeals. As of June 30, 2012, we expect this dispute will be resolved within twelve months. Should the IRS Office of Appeals decide in favor of the IRS, we do not expect the Domestic Production Deduction adjustment to have a material impact on our consolidated statement of operations or consolidated statement of cash flows.

The IRS has commenced an examination of our 2007, 2008 and 2009 tax years. We expect the examination will be completed in the fourth quarter of 2013.

Note 9 Pension and Postretirement Benefits

The following table sets forth the components of the net periodic cost (income) associated with our pension plans and our postretirement benefit obligations:

	Pension Plans				Postretirement Benefit Obligations			
	For the Three Months Ended June 30,		For the Six Months Ended June 30,		For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011	2012	2011	2012	2011
Components of Net Periodic Cost (Income):								
Service cost	\$ 1.5	\$ 1.7	\$ 3.1	\$ 3.4	\$ 0.1	\$ 0.1	\$ 0.2	\$ 0.2
Interest cost	18.8	21.3	37.5	42.7	0.2	0.3	0.4	0.5
Expected return on plan assets	(24.9)	(27.5)	(49.7)	(55.1)	0.0	0.0	0.0	0.0
Amortization of prior service cost (credit)	0.1	0.1	0.2	0.2	(2.5)	(2.5)	(5.0)	(5.0)
Recognized actuarial loss (gain)	8.9	6.8	17.7	13.6	(0.5)	(0.6)	(1.0)	(1.1)
Net Periodic Cost (Income)	\$ 4.4	\$ 2.4	\$ 8.8	\$ 4.8	\$ (2.7)	\$ (2.7)	\$ (5.4)	\$ (5.4)

We previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2011 that we expected to contribute \$26.0 million to our U.S. Non-Qualified plans and non-U.S. pension plans and \$6.0 million to our postretirement benefit plan for the year ended December 31, 2012. As of June 30, 2012, we have made contributions to our Non-Qualified U.S. and non-U.S. pension plans of \$10.6 million and postretirement benefit plan of \$1.2 million, respectively.

We incurred a settlement charge of \$1.0 million in the first quarter of 2011, related to our Canadian plan. This charge was associated with our Financial Flexibility initiatives.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

Note 10 Segment Information

The operating segments reported below are our segments for which separate financial information is available and upon which operating results are evaluated by management on a timely basis to assess performance and to allocate resources.

Simultaneously with the sale of the domestic portion of our Japanese operations to TSR, we entered into a ten-year commercial arrangement to provide TSR with global data for its Japanese competitors and became the exclusive distributor of TSR data to our Worldwide Network partners. We continue to manage our business through three segments. However, as of January 1, 2012, our Asia Pacific Partnerships have been moved out of our Europe and Other International Markets segment and into our Asia Pacific segment.

On January 1, 2012, we began managing our business through the following three segments (all prior periods have been reclassified to reflect the new segment structure):

North America (which consists of our operations in the U.S. and Canada);

Asia Pacific (which primarily consists of our operations in Australia, China, India and Asia Pacific Partnerships); and

Europe and Other International Markets (which primarily consists of our operations in the UK, Netherlands, Belgium, Latin America and European Partnerships).

Prior to January 1, 2012, we managed and reported our business globally through the following three segments:

North America (which consisted of our operations in the U.S. and Canada);

Asia Pacific (which primarily consisted of our operations in Australia, Japan, China and India); and

Europe and Other International Markets (which primarily consisted of our operations in the UK, Netherlands, Belgium, Latin America and our Worldwide Network).

Our customer solution sets are D&B Risk Management Solutions, D&B Sales & Marketing Solutions and D&B Internet Solutions. Inter-segment sales are immaterial, and no single customer accounted for 10% or more of our total revenue. For management reporting purposes, we evaluate business segment performance before restructuring charges, intercompany transactions and our Strategic Technology Investment, which we refer to as MaxCV for Maximizing Customer Value, because these charges are not a component of our ongoing income or expenses and may have a disproportionate positive or negative impact on the results of our ongoing underlying business.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

- (3) During the six months ended June 30, 2012, we: a) completed the sale of: i) the domestic portion of our Japanese operations to TSR; and ii) our market research business in China, consisting of two joint venture companies; and b) shut-down of Roadway operations. These businesses have been classified as Divested and Other Businesses. These Divested and Other Businesses contributed 17% of our Asia Pacific total revenue for the six months ended June 30, 2012. During the three month and six month periods ended June 30, 2011, these Divested and Other Businesses contributed 38% and 37% of our Asia Pacific total revenue.

During the six months ended June 30, 2012, we completed the sale of: i) AllBusiness.com, Inc.; ii) Purisma Incorporated; and iii) a small supply management company. These businesses have been classified as Divested and Other Businesses. These Divested and Other Businesses contributed 1% in the aggregate of our North America total revenue for both the three month and six month periods ended June 30, 2011, respectively.

The following table represents Divested and Other Businesses revenue by solution set:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011
Divested and Other Businesses:				
Risk Management Solutions	\$ 0.0	\$ 9.4	\$ 8.7	\$ 18.3
Sales & Marketing Solutions	0.0	18.1	9.4	30.4
Internet Solutions	0.0	1.1	0.0	2.2
Total Divested and Other Businesses Revenue	\$ 0.0	\$ 28.6	\$ 18.1	\$ 50.9

	At June 30, 2012	At December 31, 2011
Assets:		
North America	\$ 673.4	\$ 790.6
Asia Pacific	409.1	466.8
Europe and Other International Markets	306.8	317.8
Total Segments	1,389.3	1,575.2
Corporate and Other (primarily taxes)	406.3	401.9
Consolidated Total	\$ 1,795.6	\$ 1,977.1
Goodwill(4):		
North America	\$ 265.9	\$ 266.0
Asia Pacific	222.0	222.0
Europe and Other International Markets	107.7	110.4
Consolidated Total	\$ 595.6	\$ 598.4

- (4) The decrease in goodwill in the Europe and Other International Markets operating segment to \$107.7 million at June 30, 2012 from \$110.4 million at December 31, 2011 was primarily due to the negative impact of foreign currency translation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

Note 11 Financial Instruments

We employ established policies and procedures to manage our exposure to changes in interest rates and foreign currencies. We use foreign exchange forward contracts to hedge short-term foreign currency denominated loans, investments and certain third-party and intercompany transactions. We may also use foreign exchange forward contracts to hedge our net investments in our foreign subsidiaries and foreign exchange option contracts to reduce the volatility that fluctuating foreign exchange rates may have on our international earnings streams. In addition, we may use interest rate derivatives to hedge a portion of the interest rate exposure on our outstanding debt or in anticipation of a future debt issuance, as discussed under *Interest Rate Risk Management* below.

We do not use derivative financial instruments for trading or speculative purposes. If a hedging instrument ceases to qualify as a hedge in accordance with hedge accounting guidelines, any subsequent gains and losses are recognized currently in income. Collateral is generally not required for these types of instruments.

By their nature, all such instruments involve risk, including the credit risk of non-performance by counterparties. However, at June 30, 2012 and December 31, 2011, there was no significant risk of loss in the event of non-performance of the counterparties to these financial instruments. We control our exposure to credit risk through monitoring procedures.

Our trade receivables do not represent a significant concentration of credit risk at June 30, 2012 and December 31, 2011, because we sell to a large number of customers in different geographical locations.

Interest Rate Risk Management

Our objective in managing exposure to interest rates is to limit the impact of interest rate changes on our earnings, cash flows and financial position, and to lower overall borrowing costs. To achieve these objectives, we maintain a policy that floating-rate debt be managed within a minimum and maximum range of our total debt exposure. To manage our exposure and limit volatility, we may use fixed-rate debt, floating-rate debt and/or interest rate swaps. We recognize all derivative instruments as either assets or liabilities at fair value in the statement of financial position.

Fair Value Hedges

For interest rate derivative instruments that are designated and qualify as a fair value hedge, we assess quarterly whether the interest rate swaps are highly effective in offsetting changes in the fair value of the hedged debt. Changes in fair values of interest rate swap agreements that are designated fair-value hedges are recognized in earnings as an adjustment of *Other Income (Expense) Net* in our consolidated statement of operations and comprehensive income. The effectiveness of the hedge is monitored on an ongoing basis for hedge accounting purposes, and if the hedge is considered ineffective, we discontinue hedge accounting prospectively.

In November 2010, we issued senior notes with a face value of \$300 million that mature on November 15, 2015 (the 2015 notes). In November and December 2010, we entered into interest rate derivative transactions with aggregate notional amounts of \$125 million. The objective of these hedges was to offset the change in fair value of the fixed rate 2015 notes attributable to changes in LIBOR. These transactions have been accounted for as fair value hedges. We have recognized the gain or loss on the derivative instruments, as well as the offsetting loss or gain on the hedged item, in *Other Income (Expense) Net* in our consolidated statement of operations and comprehensive income.

In March 2012, in connection with our objective to manage exposure to interest rate changes and our policy to manage our fixed and floating-rate debt mix, these interest rate derivatives were terminated. This resulted in a gain of \$0.3 million and the receipt of \$5.0 million in cash on March 12, 2012, the swap termination settlement date. The gain of \$0.3 million was recorded in *Other Income (Expense) Net* in the unaudited consolidated statement of operations and comprehensive income during the six months ended June 30, 2012. The \$5.0 million cash received is reflected as an offset to interest paid in the unaudited consolidated statement of cash flows during the six months ended June 30, 2012.

Approximately \$0.8 million of derivative gains offset by a \$0.5 million loss on the fair value adjustment related to the hedged debt were recorded through the date of termination in the results for the three months ended March 31, 2012. The \$4.9 million adjustment in the carrying amount of the hedged debt at the date of termination will be amortized as an offset to *Interest Expense* in the consolidated statement of

operations and comprehensive income over the remaining term of the 2015 notes. Approximately \$0.4 million of amortization was recorded from the swap termination date through June 30, 2012, resulting in a balance of \$4.5 million in our unaudited consolidated balance sheet at June 30, 2012.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

Approximately \$2.2 million of derivative gains offset by a \$2.2 million loss on the fair value adjustment related to the hedged debt were recorded for the three months ended June 30, 2011. Approximately \$1.7 million of derivative gains offset by a \$1.7 million loss on the fair value adjustment related to the hedged debt were recorded for the six months ended June 30, 2011.

Cash Flow Hedges

For interest rate derivative instruments that are designated and qualify as a cash flow hedge, the effective portion of the periodic hedge remeasurement gains or losses on the derivative are reported as a component of other comprehensive income and reclassified to earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings.

In January 2009 and December 2008, we entered into interest rate swap agreements with aggregate notional amounts of \$25 million and \$75 million, respectively, and designated these interest rate swaps as cash flow hedges against variability in cash flows related to our then existing \$650 million credit facility. These transactions were accounted for as cash flow hedges and, as such, changes in the fair value of the hedges were recorded in other comprehensive income. In connection with the termination of our former \$650 million credit facility, these interest rate derivative transactions were terminated, resulting in an acceleration of payments otherwise due under the instruments of \$0.3 million on October 25, 2011, the credit facility termination date, and were recorded in Other Income (Expense) Net in the consolidated statement of operations and comprehensive income at December 31, 2011.

Foreign Exchange Risk Management

Our objective in managing exposure to foreign currency fluctuations is to reduce the volatility caused by foreign exchange rate changes on the earnings, cash flows and financial position of our international operations. We follow a policy of hedging balance sheet positions denominated in currencies other than the functional currency applicable to each of our various subsidiaries. In addition, we are subject to foreign exchange risk associated with our international earnings and net investments in our foreign subsidiaries. We use short-term, foreign exchange forward and option contracts to execute our hedging strategies. Typically, these contracts have maturities of twelve months or less. These contracts are denominated primarily in the British pound sterling, the Euro and Canadian dollar. The gains and losses on the forward contracts associated with the balance sheet positions are recorded in Other Income (Expense) Net in our consolidated statement of operations and comprehensive income and are essentially offset by the gains and losses on the underlying foreign currency transactions.

As in prior years, we have hedged substantially all balance sheet positions denominated in a currency other than the functional currency applicable to each of our various subsidiaries with short-term foreign exchange forward contracts. In addition, we may use foreign exchange option contracts to hedge certain foreign earnings streams and foreign exchange forward contracts to hedge certain net investment positions. The underlying transactions and the corresponding foreign exchange forward and option contracts are marked-to-market at the end of each quarter and the fair value impacts are reflected within our consolidated financial statements.

As of June 30, 2012 and 2011, the notional amounts of our foreign exchange contracts were \$258.5 million and \$375.1 million, respectively.

<i>Fair Value of Financial Instruments</i>					

Our financial assets and liabilities that are reflected in the consolidated financial statements include derivative financial instruments, cash and cash equivalents, accounts receivable, other receivables, accounts payable, short-term borrowings and long-term borrowings. We use short-term foreign exchange forward contracts to hedge short-term foreign currency-denominated intercompany loans and certain third-party and intercompany transactions and we use foreign exchange option contracts to reduce the volatility that fluctuating foreign exchange rates may have on our international earnings streams. Fair value for derivative financial instruments is determined utilizing a market approach.

We have a process for determining fair values. Fair value is based upon quoted market prices, where available. If listed prices or quotes are not available, we use quotes from independent pricing vendors based on recent trading activity and other relevant information including market interest rate curves and referenced credit spreads.

In addition to utilizing external valuations, we conduct our own internal assessment of the reasonableness of the external valuations by utilizing a variety of valuation techniques including Black-Scholes option pricing and discounted cash flow models that are consistently applied. Inputs to these models include observable market data, such as yield curves, and foreign exchange rates where applicable. Our assessments are designed to identify prices that do not accurately reflect the current market environment, those that have changed significantly from prior valuations and other anomalies that may indicate that a price may not be accurate. We also follow established routines for reviewing and reconfirming valuations with the pricing provider, if deemed appropriate. In addition, the pricing provider has an established challenge process in place for all valuations, which facilitates identification and resolution of potentially erroneous prices. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. These adjustments include amounts to reflect counterparty credit quality and our own creditworthiness and constraints on liquidity. For inactive markets that do not have observable pricing or sufficient trading volumes, or for positions that are subject to transfer restrictions, valuations are adjusted to reflect illiquidity and/or non-transferability. Such adjustments are generally based on available market evidence. In the absence of such evidence, management's best estimate will be used.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while we believe our valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

The following table presents information about our assets and liabilities measured at fair value on a recurring basis as of June 30, 2012 and December 31, 2011, and indicates the fair value hierarchy of the valuation techniques utilized by us to determine such fair value. Level inputs, as defined by authoritative guidance, are as follows:

Level Input: Input Definition:

Level I	Observable inputs utilizing quoted prices (unadjusted) for identical assets or liabilities in active markets at the measurement date.
Level II	Inputs other than quoted prices included in Level I that are either directly or indirectly observable for the asset or liability through corroboration with market data at the measurement date.
Level III	Unobservable inputs for the asset or liability in which little or no market data exists therefore requiring management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The following table summarizes fair value measurements by level at June 30, 2012 for assets and liabilities measured at fair value on a recurring basis:

	Quoted Prices in Active Markets for Identical Assets (Level I)	Significant Other Observable Inputs (Level II)	Significant Unobservable Inputs (Level III)	Balance at June 30, 2012
Assets:				
Cash Equivalents(1)	\$ 37.5	\$ 0.0	\$ 0.0	\$ 37.5
Other Current Assets:				
Foreign Exchange Forwards(2)	\$ 0.0	\$ 0.3	\$ 0.0	\$ 0.3
Foreign Exchange Option Contracts(2)	\$ 0.0	\$ 0.2	\$ 0.0	\$ 0.2
Liabilities:				
Other Accrued and Current Liabilities:				
Foreign Exchange Forwards(2)	\$ 0.0	\$ 0.3	\$ 0.0	\$ 0.3

- (1) Cash equivalents represent fair value as it consists of highly liquid investments with an original maturity of three months or less.
(2) Primarily represents foreign currency forward and option contracts. Fair value is determined utilizing a market approach and considers a factor for nonperformance in the valuation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

The following table summarizes fair value measurements by level at December 31, 2011 for assets and liabilities measured at fair value on a recurring basis:

	Quoted Prices in Active Markets for Identical Assets (Level I)	Significant Other Observable Inputs (Level II)	Significant Unobservable Inputs (Level III)	Balance at December 31, 2011
Assets:				
Cash Equivalents(1)	\$ 21.6	\$ 0.0	\$ 0.0	\$ 21.6
Other Current Assets:				
Foreign Exchange Forwards(2)	\$ 0.0	\$ 0.7	\$ 0.0	\$ 0.7
Swap Arrangement(3)	\$ 0.0	\$ 4.3	\$ 0.0	\$ 4.3
Liabilities:				
Other Accrued and Current Liabilities:				
Foreign Exchange Forwards(2)	\$ 0.0	\$ 0.7	\$ 0.0	\$ 0.7

- (1) Cash equivalents represent fair value as it consists of highly liquid investments with an original maturity of three months or less.
- (2) Primarily represents foreign currency forward contracts. Fair value is determined utilizing a market approach and considers a factor for nonperformance in the valuation.
- (3) Primarily represents our interest rate swap agreements including \$4.3 million related to fair value hedges. Fair value is determined utilizing a market approach and considers a factor for nonperformance in the valuation.

At June 30, 2012 and December 31, 2011, the fair value of cash and cash equivalents, accounts receivable, other receivables and accounts payable approximated carrying value due to the short-term nature of these instruments. The estimated fair values of other financial instruments subject to fair value disclosures, determined based on valuation models using discounted cash flow methodologies with market data inputs from globally recognized data providers and third-party quotes from major financial institutions (categorized as Level II in the fair value hierarchy) are as follows:

	June 30, 2012		Balance at December 31, 2011	
	Carrying Amount (Asset) Liability	Fair Value (Asset) Liability	Carrying Amount (Asset) Liability	Fair Value (Asset) Liability
Short-term Debt	\$ 400.0	\$ 419.9	\$ 0.0	\$ 0.0
Long-term Debt	\$ 299.3	\$ 306.1	\$ 699.2	\$ 723.3
Credit Facilities	\$ 308.6	\$ 305.5	\$ 259.4	\$ 259.8

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

Items Measured at Fair Value on a Nonrecurring Basis

In addition to assets and liabilities that are recorded at fair value on a recurring basis, we are required to record assets and liabilities at fair value on a nonrecurring basis as required by GAAP. Generally, assets are recorded at fair value on a nonrecurring basis as a result of impairment charges.

During the first quarter of 2012, we recorded an impairment charge of \$12.9 million related to the accounts receivable, intangible assets, prepaid costs and software for Roadway, an operation in our Greater China reporting unit. As a result of the ongoing investigation and evaluation of other factors, such as the time, cost and management bandwidth required to resolve the current matters and restart the business, as well as the very fluid situation in China, we subsequently determined to permanently cease the operations of Roadway and we have begun the process of winding down the business. See Note 7 to our unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q for further discussion on this investigation. We determined that the new cost basis of intangible assets, prepaid costs and software is zero based on Level III inputs (see Fair Value Measurements above for discussion on Level inputs) to measure fair value, as market data of these assets are not readily available. We wrote down the accounts receivable to its realizable value based on the probability of collecting from the customer accounts. Of the \$12.9 million impairment charge, \$4.1 million was included in Operating Costs and \$8.8 million was included in Selling and Administrative Expenses in our Asia Pacific segment.

During the six months ended June 30, 2011, we did not measure any assets or liabilities at fair value on a nonrecurring basis.

Note 12 Acquisition*MicroMarketing D&B (Beijing) Co. Ltd*

On November 1, 2011, we acquired substantially all of the assets of MicroMarketing, a leading provider of direct and digital marketing services in China with offices in Beijing and Shanghai. Specifically, MicroMarketing provides Sales & Marketing solutions in the technology sector and is expanding into higher growth targeted sectors including financial services, pharmaceuticals and automotive. This acquisition represents an important step to continue to grow our business in China. MicroMarketing will expand our business to business database in China and add digital marketing capabilities to enable us to better serve the sales and marketing needs of our customers. The results of MicroMarketing have been included in our consolidated financial statements since the date of acquisition.

The acquisition was valued at \$14.4 million, including a contingent consideration of \$1.5 million. The acquisition was funded with cash on hand. Transaction costs of \$1.2 million were included in operating expenses in the consolidated statement of operations and comprehensive income. As of June 30, 2012, the performance targets set forth in the purchase agreement for the contingent consideration are not expected to be met. As a result, this contingent liability was reversed, reducing our second quarter operating expenses in the consolidated statement of operations and comprehensive income. The acquisition was accounted for as a purchase transaction, and accordingly, the assets and liabilities of the acquired entity were recorded at their estimated fair values at the date of the acquisition. The table below reflects the purchase related to the acquisition and the resulting purchase price allocation:

	Amortization Life (years)	Acquisition
Intangible Assets:		
Trademark	8.5	\$ 0.6
Customer Relationships	10	2.7
Database	6.5	1.4
Technology	6.5	0.6
Goodwill	Indefinite	8.9
Other		0.2
Total Assets Acquired		14.4

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

Total Liabilities Assumed	0.0
---------------------------	-----

Total Purchase Price	\$ 14.4
----------------------	---------

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

The goodwill was assigned to our Greater China reporting unit, which is a part of our Asia Pacific segment. The primary item that generated the goodwill is the value of revenue growth from MicroMarketing's future customers and future technology development. The intangible assets, with useful lives from 6.5 to 10 years, are being amortized over a weighted-average useful life of 8.5 years. The intangibles have been recorded as Trademarks, Patents and Other within Other Non-Current Assets in our consolidated balance sheet since the date of acquisition. The impact that the acquisition would have had on our results had the acquisition occurred at the beginning of 2011 was not material, and as such, pro forma financial results have not been presented.

Treatment of Goodwill

The acquisition of MicroMarketing was an asset acquisition and under applicable Chinese tax law the goodwill acquired is not deductible for tax purposes.

Note 13 Divestitures and Other Businesses

Shanghai Roadway D&B Marketing Services Co Ltd.

On March 18, 2012, we announced that we had temporarily suspended our Shanghai Roadway D&B Marketing Services Co Ltd. (Roadway) operations in China, pending an investigation into allegations that its data collection practices may violate local Chinese consumer data privacy laws. Thereafter, we decided to permanently cease the operations of Roadway. In addition, we have been reviewing certain allegations that we may have violated the Foreign Corrupt Practices Act and certain other laws in our China operations. As previously reported, we are cooperating with the local Chinese authorities and have voluntarily contacted the Securities and Exchange Commission and the United States Department of Justice to advise both agencies of our investigation. Our investigation remains ongoing and is being conducted at the direction of the Audit Committee.

As the investigation is ongoing, we cannot yet predict the ultimate outcome of the matter or its impact, if any, on our business, financial condition, or results of operations. No amount in respect of any potential liability in this matter, including for penalties, fines or other sanctions, has been accrued in our consolidated financial statements.

In connection with the ongoing investigation and evaluation of other factors, such as the time, cost and management bandwidth required to resolve the current matters and restart the business, as well as the very fluid situation in China, we subsequently determined to permanently cease the operations of Roadway. The Roadway shut-down had no impact in our first quarter 2012 Asia Pacific revenue. For the six months ended June 30, 2012, \$5.4 million of revenue, \$14.5 million of operating loss and \$0.5 million shut-down costs was related to the Roadway business. D&B acquired Roadway's operations in 2009, and for 2011 Roadway accounted for approximately \$22 million in revenue and \$2 million in operating income. During the six months ended June 30, 2012, we recorded an impairment charge of \$12.9 million related to the accounts receivable, intangible assets, prepaid costs and software for Roadway, an operation in our Greater China reporting unit.

Domestic Portion of our Japanese Joint Venture

In February 2012, we completed the sale of the domestic portion of our Japan operations to TSR, our local joint venture partner since December 2007, for \$4.5 million. As a result, we recorded a pre-tax gain of \$3.0 million in Other Income (Expense) Net in the unaudited consolidated statement of operations and comprehensive income during the six months ended June 30, 2012. Our domestic Japanese operations generated approximately \$64 million in revenue during 2011.

Simultaneously with closing this transaction, we entered into a ten-year commercial arrangement to provide TSR with global data for its Japanese customers and to become the exclusive distributor of TSR data to our Worldwide Network partners. From the date of this transaction, this arrangement has aggregate future cash payments of approximately \$140 million.

AllBusiness.com, Inc.

In February 2012, we completed the sale of AllBusiness.com, Inc., a U.S. entity included in our North American reporting segment, for \$0.4 million. As a result, we recorded a pre-tax loss of \$0.4 million in Other Income (Expense) Net in the unaudited consolidated statement of

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

operations and comprehensive income during the six months ended June 30, 2012. AllBusiness.com, Inc. generated approximately \$4 million in revenue during 2011.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)-continued

(Tabular dollar amounts in millions, except per share data)

Chinese Market Research Joint Ventures

In January 2012, we completed the sale of our market research business in China, consisting of two joint venture companies, by selling our equity interests in such companies to our partner for a total purchase price of \$5.0 million. As a result, we recorded a pre-tax gain of \$1.4 million in Other Income (Expense) Net in the unaudited consolidated statement of operations and comprehensive income during the six months ended June 30, 2012. The joint venture generated approximately \$16 million in revenue during 2011.

Purisma Incorporated

In January 2012, we completed the sale of Purisma Incorporated, a U.S. entity included in our North American reporting segment, for \$2.0 million. As a result, we recorded a pre-tax gain of \$2.0 million in Other Income (Expense) Net in the unaudited consolidated statement of operations and comprehensive income during the six months ended June 30, 2012. Purisma Incorporated generated approximately \$4 million in revenue during 2011.

Note 14 Subsequent Events

Dividend Declaration

In August 2012, we approved the declaration of a dividend of \$0.38 per share for the third quarter of 2012. This cash dividend will be payable on September 18, 2012 to shareholders of record at the close of business on August 31, 2012.

Commercial Paper Program

We maintain an \$800 million commercial paper program which is supported by the bank revolving credit facility. The commercial paper program was increased from \$300 million to \$800 million in July 2012. Under this program, we may issue from time to time unsecured promissory notes in the commercial paper market in private placements exempt from registration under the Securities Act of 1933, as amended, for a cumulative face amount not to exceed \$800 million outstanding at any one time and with maturities not exceeding 364 days from the date of issuance. Outstanding commercial paper effectively reduces the amount available for borrowing under the credit facility.

Share Repurchase Program

In August 2012, our Board of Directors approved a \$500 million increase to our existing \$500 million share repurchase program, for a total program authorization of \$1 billion. As of June 30, 2012, \$229.8 million of common stock were purchased against the existing \$500 million share repurchase program, leaving \$770.2 million available. It is our intention to complete this program over the next twenty-four months. We expect that the share repurchase program will be funded from cash provided by operating activities, and supplemented as needed with available financing arrangements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Business Overview

The Dun & Bradstreet Corporation (D&B or we or our) is the world's leading source of commercial information and insight on businesses, enabling customers to Decide with Confidence[®] for 171 years. Our global commercial database contains more than 210 million business records. The database is enhanced by our proprietary DUNSRight[®] Quality Process, which provides our customers with quality business information. This quality information is the foundation of our global solutions that customers rely on to make critical business decisions.

We provide solution sets that meet a diverse set of customer needs globally. Customers use our D&B Risk Management Solutions to mitigate credit and supplier risk, increase cash flow and drive increased profitability; our D&B Sales & Marketing Solutions to increase revenue from new and existing customers; and our D&B Internet Solutions[®] to convert prospects into clients faster by enabling business professionals to research companies, executives and industries.

Simultaneously with the sale of the domestic portion of our Japanese operations to Tokyo Shoko Research Ltd. (TSR), we entered a ten-year commercial arrangement to provide TSR with global data for its Japanese competitors and became the exclusive distributor of TSR data to our Worldwide Network partners. We continue to manage our business through three segments. However, as of January 1, 2012, our Asia Pacific Partnerships have been moved out of our Europe and Other International Markets segment and into our Asia Pacific segment.

On January 1, 2012, we began managing our business through the following three segments (all prior periods have been reclassified to reflect the new segment structure):

North America (which consists of our operations in the United States (U.S.) and Canada);

Asia Pacific (which primarily consists of our operations in Australia, China, India and Asia Pacific Partnerships); and

Europe and Other International Markets (which primarily consists of our operations in the United Kingdom (UK), Netherlands, Belgium, Latin America and European Partnerships).

Prior to January 1, 2012, we managed and reported our business globally through the following three segments:

North America (which consisted of our operations in the U.S. and Canada);

Asia Pacific (which primarily consisted of our operations in Australia, Japan, China and India); and

Europe and Other International Markets (which primarily consisted of our operations in the UK, Netherlands, Belgium, Latin America and our Worldwide Network).

How We Manage Our Business

For internal management purposes, we refer to core revenue, which we calculate as total operating revenue less the revenue of divested and other businesses. Core revenue is used to manage and evaluate the performance of our segments and to allocate resources because this measure provides an indication of the underlying changes in revenue in a single performance measure. Core revenue does not include reported revenue of divested and shut-down businesses since they are not included in future revenue.

During the six months ended June 30, 2012, we a) completed the sale of: i) the domestic portion of our Japanese operations to TSR; and ii) our market research business in China, consisting of two joint venture companies; and b) shut-down of Shanghai Roadway D&B Marketing Service Co Ltd. (Roadway). These businesses have been classified as Divested and Other Businesses. These Divested and Other Businesses contributed 38% of our Asia Pacific total revenue for the three months ended June 30, 2011. These Divested and Other Businesses contributed 17% and 37% of our Asia Pacific total revenue for the six months ended June 30, 2012 and 2011, respectively. See Note 10 and Note 13 to our unaudited consolidated financial statements included in Item 1. of this Quarterly Report on Form 10-Q for further detail.

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

During the six months ended June 30, 2012, we completed the sale of: i) AllBusiness.com, Inc.; ii) Purisma Incorporated; and iii) a small supply management company. These businesses have been classified as Divested and Other Businesses. These Divested and Other Businesses contributed 1% in the aggregate of our North America total revenue for the three months ended June 30, 2011. See Note 10 and Note 13 to our unaudited consolidated financial statements included in Item 1. of this Quarterly Report on Form 10-Q for further detail.

We also isolate the effects of changes in foreign exchange rates on our revenue growth because we believe it is useful for investors to be able to compare revenue from one period to another, both with and without the effects of foreign exchange. The change in our operating performance attributable to foreign currency rates is determined by converting both our prior and current periods by a constant rate. As a result, we monitor our core revenue growth both after and before the effects of foreign exchange. Core revenue growth excludes the effects of foreign exchange.

From time-to-time we have analyzed and we may continue to further analyze core revenue growth before the effects of foreign exchange among two components, organic core revenue growth and core revenue growth from acquisitions. We analyze organic core revenue growth and core revenue growth from acquisitions because management believes this information provides an important insight into the underlying health of our business. Core revenue includes the revenue from acquired businesses from the date of acquisition.

We evaluate the performance of our business segments based on segment revenue growth before the effects of foreign exchange, and segment operating income growth before certain types of gains and charges that we consider do not reflect our underlying business performance. Specifically, for management reporting purposes, we evaluate business segment performance before non-core gains and charges because such charges are not a component of our ongoing income or expenses and/or may have a disproportionate positive or negative impact on the results of our ongoing underlying business operations. A recurring component of non-core gains and charges are our restructuring charges, which result from a foundational element of our growth strategy that we refer to as Financial Flexibility. Through Financial Flexibility, management identifies opportunities to improve the performance of the business in terms of reallocating our spending from low-growth or low-value activities to activities that will create greater value for shareholders through enhanced revenue growth, improved profitability and/or quality improvements. Management is committed through this process to examining our spending, and optimizing between variable and fixed costs to ensure flexibility in changes to our operating expense base as we make strategic choices. This enables us to continually and systematically identify improvement opportunities in terms of quality, cost and customer experience. Such charges are variable from period-to-period based upon actions identified and taken during each period. Management reviews operating results before such non-core gains and charges on a monthly basis and establishes internal budgets and forecasts based upon such measures. Management further establishes annual and long-term compensation such as salaries, target cash bonuses and target equity compensation amounts based on performance before non-core gains and charges and a significant percentage weight is placed upon performance before non-core gains and charges in determining whether performance objectives have been achieved. Management believes that by eliminating non-core gains and charges from such financial measures, and by being overt to shareholders about the results of our operations excluding such charges, business leaders are provided incentives to recommend and execute actions that are in the best long-term interests of our shareholders, rather than being influenced by the potential impact a charge in a particular period could have on their compensation. See Note 10 to our unaudited consolidated financial statements included in Item 1. of this Quarterly Report on Form 10-Q for financial information regarding our segments.

Similarly, when we evaluate the performance of our business as a whole, we focus on results (such as operating income, operating income growth, operating margin, net income, tax rate and diluted earnings per share) before non-core gains and charges because such non-core gains and charges are not a component of our ongoing income or expenses and/or may have a disproportionate positive or negative impact on the results of our ongoing underlying business operations and may drive behavior that does not ultimately maximize shareholder value. It may be concluded from our presentation of non-core gains and charges that the items that result in non-core gains and charges may occur in the future.

We monitor free cash flow as a measure of our business. We define free cash flow as net cash provided by operating activities minus capital expenditures and additions to computer software and other intangibles. Free cash flow measures our available cash flow for potential debt repayment, acquisitions, stock repurchases, dividend payments and additions to cash, cash equivalents and short-term investments. We believe free cash flow to be relevant and useful to our investors as this measure is used by our management in evaluating the funding available after supporting our ongoing business operations and our portfolio of product investments.

Free cash flow should not be considered as a substitute measure for, or superior to, net cash flows provided by operating activities, investing activities or financing activities. Therefore, we believe it is important to view free cash flow as a complement to our consolidated statements of cash flows.

In addition, we evaluate our North America Risk Management Solutions based on two metrics: (1) subscription, and non-subscription, and (2) DNBI[®] and non-DNBI. We define subscription as contracts that allow customers unlimited use. In these instances, we recognize revenue ratably over the term of the contract, which is generally one year and

non-subscription as all other revenue streams. We define DNB_i as our interactive, customizable online application that offers our customers real time access to our most complete and up-to-date global DUNSR_{ight} information, comprehensive monitoring and portfolio analysis and non-DNB_i as all other revenue streams. Management believes these measures provide further insight into our performance and growth of our North America Risk Management Solutions revenue.

The adjustments discussed herein to our results as determined under generally accepted accounting principles in the United States of America (GAAP) are among the primary indicators management uses as a basis for our planning and forecasting of future periods, to allocate resources, to evaluate business performance and, as noted above, for compensation purposes. However, these financial measures (e.g., results before non-core gains and charges and free cash flow) are not prepared in accordance with GAAP, and should not be considered in isolation or as a substitute for total revenue, operating income, operating income growth, operating margin, net income, tax rate, diluted earnings per share, or net cash provided by operating activities, investing activities and financing activities prepared in accordance with GAAP. In addition, it should be noted that because not all companies calculate these financial measures similarly, or at all, the presentation of these financial measures is not likely to be comparable to measures of other companies.

See Results of Operations below for a discussion of our results reported on a GAAP basis.

Overview

Simultaneously with the sale of the domestic portion of our Japanese operations to TSR, we entered into a ten-year commercial arrangement to provide TSR with global data for its Japanese competitors and became the exclusive distributor of TSR data to our Worldwide Network partners. We continue to manage our business through three segments. However, as of January 1, 2012, our Asia Pacific Partnerships have been moved out of our Europe and Other International Markets segment and into our Asia Pacific segment.

On January 1, 2012, we began managing our business through the following three segments (all prior periods have been reclassified to reflect the new segment structure):

North America (which consists of our operations in the U.S. and Canada);

Asia Pacific (which primarily consists of our operations in Australia, China, India and Asia Pacific Partnerships); and

Europe and Other International Markets (which primarily consists of our operations in the UK, Netherlands, Belgium, Latin America and European Partnerships).

Prior to January 1, 2012, we managed and reported our business globally through the following three segments:

North America (which consisted of our operations in the U.S. and Canada);

Asia Pacific (which primarily consisted of our operations in Australia, Japan, China and India); and

Europe and Other International Markets (which primarily consisted of our operations in the UK, Netherlands, Belgium, Latin America and our Worldwide Network).

The financial statements of our subsidiaries outside North America reflect a fiscal quarter ended May 31 to facilitate the timely reporting of our unaudited consolidated financial results and unaudited consolidated financial position.

The following table presents the contribution by segment to total revenue and core revenue:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011
Total Revenue:				
North America	73%	69%	72%	71%
Asia Pacific	12%	17%	13%	15%
Europe and Other International Markets	15%	14%	15%	14%
Core Revenue:				
North America	73%	74%	74%	75%
Asia Pacific	12%	11%	11%	10%
Europe and Other International Markets	15%	15%	15%	15%

The following table presents contributions by customer solution set to total revenue and core revenue:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011
Total Revenue by Customer Solution Set(1):				
Risk Management Solutions	67%	64%	64%	64%
Sales & Marketing Solutions	25%	22%	26%	23%
Internet Solutions	8%	7%	8%	7%
Core Revenue by Customer Solution Set:

Sales & Marketing Solutions	25%	24%	26%	25%
Internet Solutions	8%	8%	8%	7%

- (1) Our Divested and Other Businesses contributed 7% of our total consolidated revenue for the three months ended June 30, 2011. Our Divested and Other Businesses contributed 2% and 6% of our total consolidated revenue for the six months ended June 30, 2012, and 2011, respectively. See Note 10 and Note 13 to our unaudited consolidated financial statements included in Item 1. of this Quarterly Report on Form 10-Q for further detail.

Our customer solution sets are discussed in greater detail in Item 1. Business in our Annual Report on Form 10-K for the year ended December 31, 2011.

Within our Risk Management Solutions, we monitor the performance of our Traditional products, our Value-Added products and our Supply Management products. Within our Sales & Marketing Solutions, we monitor the performance of our Traditional products and our Value-Added products.

Risk Management Solutions

Our Traditional Risk Management Solutions include our DNBi product line, as well as reports from our database which are used primarily for making decisions about new credit applications. Our Traditional Risk Management Solutions constituted the following percentages of total Risk Management Solutions Revenue, Total Revenue and Core Revenue:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011
Risk Management Solutions Revenue	76%	75%	76%	75%
Total Revenue	50%	48%	49%	48%
Core Revenue	50%	51%	50%	51%

Our Value-Added Risk Management Solutions generally support automated decision-making and portfolio management through the use of scoring and integrated software solutions. Our Value-Added Risk Management Solutions constituted the following percentages of total Risk Management Solutions Revenue, Total Revenue and Core Revenue:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011
Risk Management Solutions Revenue	19%	19%	19%	19%
Total Revenue	13%	12%	12%	12%
Core Revenue	13%	13%	12%	13%

Our Supply Management Solutions can help companies better understand the financial risk of their supply chain. Our Supply Management Solutions constituted the following percentages of total Risk Management Solutions Revenue, Total Revenue and Core Revenue:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011
Risk Management Solutions Revenue	5%	6%	5%	6%
Total Revenue	4%	4%	3%	4%
Core Revenue	4%	4%	4%	4%

Sales & Marketing Solutions

Our Traditional Sales & Marketing Solutions generally consist of marketing lists, labels and customized data files used by our customers in their direct mail and marketing activities. Our Traditional Sales & Marketing Solutions constituted the following percentages of total Sales & Marketing Solutions Revenue, Total Revenue and Core Revenue:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011
Sales & Marketing Solutions Revenue	28%	32%	30%	33%
Total Revenue	7%	7%	8%	8%
Core Revenue	7%	8%	8%	9%

Our Value-Added Sales & Marketing Solutions generally include decision-making and customer information management solutions, including data management solutions like Optimizer (our solution to cleanse, identify and enrich our customers' client portfolios) and products introduced as part of our Data-as-a-Service (or DaaS) Strategy, which integrates our data directly into the applications and platforms that our customers use every day. Our Value-Added Sales & Marketing Solutions constituted the following percentages of total Sales & Marketing Solutions Revenue, Total Revenue and Core Revenue:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011
Sales & Marketing Solutions Revenue	72%	68%	70%	67%
Total Revenue	18%	15%	18%	15%
Core Revenue	18%	16%	18%	16%

Critical Accounting Policies and Estimates

In preparing our unaudited consolidated financial statements and accounting for the underlying transactions and balances reflected therein, we have applied the critical accounting policies described in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2011.

Recently Issued Accounting Standards

See Note 2 to our unaudited consolidated financial statements included in Item 1. of this Quarterly Report on Form 10-Q for disclosure of the impact that recent accounting pronouncements may have on our unaudited consolidated financial statements.

Results of Operations

The following discussion and analysis of our financial condition and results of operations are based upon our unaudited consolidated financial statements and should be read in conjunction with the unaudited consolidated financial statements and related notes set forth in Item 1. of this Quarterly Report on Form 10-Q, and our Annual Report on Form 10-K for the year ended December 31, 2011, all of which have been prepared in accordance with GAAP.

Consolidated Revenue

The following table presents our core and total revenue by segment:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011
	(Amounts in millions)		(Amounts in millions)	
Revenue:				
North America	\$ 279.0	\$ 286.0	\$ 564.5	\$ 574.5
Asia Pacific	46.6	42.4	88.4	78.9
Europe and Other International Markets	58.3	59.8	115.7	116.1
Core Revenue	383.9	388.2	768.6	769.5
Divested and Other Businesses	0.0	28.6	18.1	50.9
Total Revenue	\$ 383.9	\$ 416.8	\$ 786.7	\$ 820.4

The following table presents our core and total revenue by customer solution set:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011
	(Amounts in millions)		(Amounts in millions)

Total Revenue	\$ 383.9	\$ 416.8	\$ 786.7	\$ 820.4

Three Months Ended June 30, 2012 vs. Three Months Ended June 30, 2011

Total revenue decreased \$32.9 million, or 8% (7% decrease before the effect of foreign exchange), for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011. The decrease in total revenue was primarily driven by a decrease in Asia Pacific total revenue of \$22.1 million, or 32% (33% decrease before the effect of foreign exchange), a decrease in North America total revenue of \$9.3 million, or 3% (both before and after the effect of foreign exchange) and a decrease in Europe and Other International Markets total revenue of \$1.5 million, or 3% (2% increase before the effect of foreign exchange).

Asia Pacific total revenue was negatively impacted by: a) the divestiture of: i) the domestic portion of our Japanese operations to TSR; and ii) our market research business in China, consisting of two joint venture companies; and b) shut-down of Roadway operations, in the first quarter of 2012, all of which we reclassified as Divested and Other Businesses.

North America total revenue was negatively impacted by the divestiture of: i) AllBusiness.com, Inc.; ii) Purisma Incorporated and iii) a small supply management company in the first half of 2012, all of which we reclassified as Divested and Other Businesses.

Core revenue, which reflects total revenue less revenue from Divested and Other Businesses, decreased \$4.3 million, or 1% (less than 1% decrease before the effect of foreign exchange), for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011. The decrease in core revenue is primarily attributed to:

Lower revenue from non-DNB subscription products as customers continue to manage their spend in the current economic climate and migration to usage based products at a lower customer commitment value;
partially offset by:

An increase in revenue as a result of the acquisition of MicroMarketing, which we consolidated in the fourth quarter of 2011.
Customer Solution Sets

On a customer solution set basis, core revenue reflects:

An \$8.2 million, or 3% decrease (2% decrease before the effect of foreign exchange), in Risk Management Solutions. The decrease was driven by a decrease in revenue in North America of \$8.2 million, or 5% (both before and after the effect of foreign exchange), and a decrease in revenue in Europe and Other International Markets of \$2.0 million, or 4% (less than 1% increase before the effect of foreign exchange), partially offset by an increase in revenue in Asia Pacific of \$2.0 million, or 5% (7% increase before the effect of foreign exchange);

A \$3.8 million, or 4% increase (5% increase before the effect of foreign exchange), in Sales & Marketing Solutions. The increase was driven by an increase in revenue in Asia Pacific of \$2.3 million, or 44% (54% increase before the effect of foreign exchange), an increase in revenue in North America of \$1.1 million, or 1% (both before and after the effect of foreign exchange), and an increase in Europe and Other International Markets of \$0.4 million, or 5% (9% increase before the effect of foreign exchange); and

A \$0.1 million, or 1% increase (both before and after the effect of foreign exchange), in Internet Solutions. The increase was driven by an increase in revenue in North America of \$0.1 million, or 1% (both before and after the effect of foreign exchange), an increase in revenue in Europe and Other International Markets of \$0.1 million, or 6% (8% increase before the effect of foreign exchange), partially offset by a decrease in revenue in Asia Pacific of \$0.1 million, or 5% (6% increase before the effect of foreign exchange).

Six Months Ended June 30, 2012 vs. Six Months Ended June 30, 2011

Total revenue decreased \$33.7 million, or 4% (both before and after the effect of foreign exchange), for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011. The decrease in total revenue was primarily driven by a decrease in Asia Pacific total revenue of \$18.3 million, or 15% (16% decrease before the effect of foreign exchange), a decrease in North America total revenue of \$15.0 million, or 3% (both before and after the effect of foreign exchange), and a decrease in Europe and Other International Markets total revenue of \$0.4 million, or less than 1% (2% increase before the effect of foreign exchange).

Asia Pacific total revenue was negatively impacted by: a) the divestiture of: i) the domestic portion of our Japanese operations to TSR; and ii) our market research business in China, consisting of two joint venture companies; and b) shut-down of Roadway operations, in the first quarter of 2012, all of which we reclassified as Divested and Other Businesses.

North America total revenue was negatively impacted by the divestiture of: i) AllBusiness.com, Inc.; ii) Purisma Incorporated and iii) a small supply management company in the first half of 2012, all of which we reclassified as Divested and Other Businesses.

Core revenue, which reflects total revenue less revenue from Divested and Other Businesses, decreased \$0.9 million, or less than 1% (less than 1% before the effect of foreign exchange), for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011. The decrease in core revenue is primarily attributed to:

Lower revenue from non-DNBi subscription products as customers continue to manage their spend in the current economic climate and migration to usage based products at a lower customer commitment value;

partially offset by:

An increase in revenue as a result of the acquisition of MicroMarketing, which we consolidated in the fourth quarter of 2011; and

Year-over-year growth in our core DNBi subscription plans that excludes modules enabled by our DNBi platform.

Customer Solution Sets

On a customer solution set basis, core revenue reflects:

A \$12.7 million, or 2% decrease (both before and after the effect of foreign exchange), in Risk Management Solutions. The decrease was driven by a decrease in revenue in North America of \$16.6 million, or 5% (both before and after the effect of foreign exchange), and a decrease in revenue in Europe and Other International Markets of \$1.0 million, or 1% (2% increase before the effect of foreign exchange), partially offset by an increase in revenue in Asia Pacific of \$4.9 million, or 7% (both before and after the effect of foreign exchange);

A \$10.4 million, or 6% increase (both before and after the effect of foreign exchange), in Sales & Marketing Solutions. The increase was driven by an increase in revenue in North America of \$5.3 million, or 3% (both before and after the effect of foreign exchange), an increase in revenue in Asia Pacific of \$4.7 million, or 51% (59% increase before the effect of foreign exchange), and an increase in revenue in Europe and Other International Markets of \$0.4 million, or 3% (5% increase before the effect of foreign exchange); and

A \$1.4 million, or 3% increase (both before and after the effect of foreign exchange), in Internet Solutions. The increase was driven by an increase in revenue in North America of \$1.3 million, or 3% (both before and after the effect of foreign exchange), an increase

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

in revenue in Europe and Other International Markets of \$0.2 million, or 14% (16% increase before the effect of foreign exchange), partially offset by a decrease in revenue in Asia Pacific of \$0.1 million, or 10% (less than 1% decrease before the effect of foreign exchange).

Recent Developments

On March 18, 2012, we announced that we had temporarily suspended our Shanghai Roadway D&B Marketing Services Co Ltd. (Roadway) operations in China, pending an investigation into allegations that its data collection practices may violate local Chinese consumer data privacy laws. Thereafter, we decided to permanently cease the operations of Roadway. In addition, we have been reviewing certain allegations that we may have violated the Foreign Corrupt Practices Act (FCPA) and certain other laws in our China operations. As previously reported, we are cooperating with the local Chinese authorities and have voluntarily contacted the Securities and Exchange Commission (SEC) and the United States Department of Justice (DOJ) to advise both agencies of our investigation. Our investigation remains ongoing and is being conducted at the direction of the Audit Committee.

In connection with the ongoing investigation and evaluation of other factors, such as the time, cost and management bandwidth required to resolve the current matters and restart the business, as well as the very fluid situation in China, we subsequently determined to permanently cease the operations of Roadway. The Roadway shut-down had no impact in our first quarter 2012 Asia Pacific revenue. For the first quarter of 2012, \$5.4 million of revenue, \$14.5 million of operating loss and \$0.5 million shut-down costs was related to the Roadway business. D&B acquired Roadway's operations in 2009, and for 2011 Roadway accounted for approximately \$22 million in revenue and \$2 million in operating income. During the first quarter of 2012, we recorded an impairment charge of \$12.9 million related to the accounts receivable, intangible assets, prepaid costs and software for Roadway, an operation in our Greater China reporting unit. In addition, we performed a goodwill impairment assessment for the Greater China reporting unit during the first quarter of 2012. The assessment did not result in a goodwill impairment charge for the first quarter of 2012. The key assumptions factored in the goodwill impairment assessment were: recent operating results, economic projections, anticipated future revenue and cash flows and potential sanctions imposed by the Chinese government. The fair value of the Greater China reporting unit exceeded its carrying value by approximately 15%. Total goodwill associated with the reporting unit was \$35.6 million at June 30, 2012. A 100 basis points increase or decrease in the revenue growth or discount rate assumption will have a 5% impact on the fair value of the Greater China reporting unit. See Note 7 to our unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q for further discussion on this investigation.

We are presently unable to predict the duration, scope or result of the Audit Committee's investigation, of any investigations by the SEC, or the DOJ, or any other US or foreign governmental authority, or whether any such authority will commence any legal action against us. The SEC and the DOJ have a broad range of civil and criminal sanctions under the FCPA and other laws and regulations including, but not limited to, injunctive relief, disgorgement, fines, penalties, modifications to business practices, including the termination or modification of existing business relationships and the imposition of compliance programs and the retention of a monitor to oversee compliance with the FCPA. These investigations could ultimately result in penalties or other payments by us. In connection with the wind down of the Roadway operations, we believe we may incur additional cash expenditures for severance, lease payments, etc.

Consolidated Operating Costs

The following table presents our consolidated operating costs and operating income for the three month and six month periods ended June 30, 2012 and 2011:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012 (Amounts in millions)	2011 (Amounts in millions)	2012 (Amounts in millions)	2011 (Amounts in millions)
Operating Expenses	\$ 126.4	\$ 143.7	\$ 271.0	\$ 280.9
Selling and Administrative Expenses	139.2	154.3	293.7	307.8
Depreciation and Amortization	19.7	20.6	39.9	40.0
Restructuring Charge	9.3	8.5	18.4	12.7
Operating Costs	\$ 294.6	\$ 327.1	\$ 623.0	\$ 641.4
Operating Income	\$ 89.3	\$ 89.7	\$ 163.7	\$ 179.0

Operating Expenses

Three Months Ended June 30, 2012 vs. Three Months Ended June 30, 2011

Operating expenses decreased \$17.3 million, or 12%, for the three months ended June 30, 2012, compared to the three months ended June 30, 2011. The decrease was primarily due to the following:

Lower costs as a result of: a) the divestiture of i) the domestic operations of our Japanese operations to TSR; and ii) our market research business in China, consisting of two joint venture companies, and b) shut-down of Roadway operations; and

Lower compensation costs (i.e., bonus and commissions);
partially offset by:

Increased data costs.

Six Months Ended June 30, 2012 vs. Six Months Ended June 30, 2011

Operating expenses decreased \$9.9 million, or 4%, for the six months ended June 30, 2012, compared to the six months ended June 30, 2011. The decrease was primarily due to the following:

Lower costs as a result of: a) the divestiture of i) the domestic operations of our Japanese operations to TSR; and ii) our market research business in China, consisting of two joint venture companies, and b) shut-down of Roadway operations; and

Lower compensation costs (i.e., bonus and commissions);
partially offset by:

Increased data costs; and

Impairment charge in China related to Roadway (see Recent Developments discussed above).

Selling and Administrative Expenses

Three Months Ended June 30, 2012 vs. Three Months Ended June 30, 2011

Selling and administrative expenses decreased \$15.1 million, or 10%, for the three months ended June 30, 2012, compared to the three months ended June 30, 2011. The decrease was primarily due to the following:

Lower costs as a result of: a) the divestiture of i) the domestic operations of our Japanese operations to TSR; and ii) our market research business in China, consisting of two joint venture companies, and b) shut-down of Roadway operations; and

Lower compensation costs (i.e., bonus and commissions);
partially offset by:

Legal fees and other shut-down expenses associated with allegations in China (see Recent Developments discussed above).
Six Months Ended June 30, 2012 vs. Six Months Ended June 30, 2011

Selling and administrative expenses decreased \$14.1 million, or 5%, for the six months ended June 30, 2012, compared to the six months ended June 30, 2011. The decrease was primarily due to the following:

Lower compensation costs (i.e., bonus and commissions); and

Lower costs as a result of: a) the divestiture of i) the domestic operations of our Japanese operations to TSR; and ii) our market research business in China, consisting of two joint venture companies, and b) shut-down of Roadway operations; partially offset by:

Impairment charge in China related to Roadway (see Recent Developments discussed above); and

Legal fees and other shut-down expenses associated with allegations in China (see Recent Developments discussed above).

Matters Impacting Both Operating Expenses and Selling and Administrative Expenses

Pension, Postretirement and 401(k) Plan

We had net pension cost of \$4.4 million and \$8.8 million for the three month and six month periods ended June 30, 2012, respectively, compared with \$2.4 million and \$4.8 million for the three month and six month periods ended June 30, 2011, respectively. Higher pension cost in 2012 was primarily driven by a lower expected return from plan assets related to our U.S. qualified plan. For our U.S. plans, the increase in pension cost in 2012 is primarily driven by a lower expected return from plan assets. For 2012, we use an expected long-term rate of return of 7.75%, a 50 basis points decrease, compared to 8.25% used for 2011. Additionally, a lower expected return from plan assets is also due to a lower market-related value of plan assets, which increased our 2012 net pension cost. Higher actuarial losses amortization in 2012 is substantially offset by lower interest cost, both driven by a lower discount rate. The discount rate applied to our U.S. plans at January 1, 2012 is 4.05%, a 101 basis points decrease from the 5.06% discount rate used for 2011.

We had postretirement benefit income of \$2.7 million and \$5.4 million for each of the three month and six month periods ended June 30, 2012 and 2011, respectively. The postretirement benefit income was flat compared to prior year.

We had expense associated with our 401(k) Plan of \$1.9 million and \$4.7 million for the three month and six month periods ended June 30, 2012, respectively, compared with \$1.9 million and \$5.1 million for the three month and six month periods ended June 30, 2011, respectively. The decrease in expense in 2012 was due to the lower company match as a result of lower employee contributions driven by lower salaries, bonus, overtime and commission payout and headcount. The employer maximum match was 50% of seven percent of a team member's eligible compensation, subject to certain 401(k) Plan limitations.

Stock-Based Compensation

For the three month and six month periods ended June 30, 2012, we recognized total stock-based compensation expense of \$2.7 million and \$5.8 million, compared to \$2.4 million and \$6.0 million for the three month and six month periods ended June 30, 2011, respectively.

Expense associated with our stock option programs was \$1.1 million and \$2.0 million for the three month and six month periods ended June 30, 2012, compared to \$1.0 million and \$2.0 million for the three month and six month periods ended June 30, 2011.

Expense associated with restricted stock, restricted stock unit and restricted stock opportunity awards was \$1.4 million and \$3.4 million for the three month and six month periods ended June 30, 2012, compared to \$1.2 million and \$3.5 million for the three month and six month periods ended June 30, 2011. The increase for the three month period was primarily due to higher forfeitures during the prior year period partially offset by a decrease in the fair value of the awards issued over the past several years. The decrease for the six month period was primarily due to a decrease in the fair value of the awards issued over the past several years.

Expense associated with our Employee Stock Purchase Plan (ESPP) was \$0.2 million and \$0.4 million for the three month and six month periods ended June 30, 2012, compared to \$0.2 million and \$0.5 million for the three month and six month periods ended June 30, 2011, respectively.

We expect total equity-based compensation of approximately \$12.4 million for 2012. We consider these costs to be part of our compensation costs and, therefore, they are included in operating expenses and in selling and administrative expenses, based upon the classifications of the underlying compensation costs.

Depreciation and Amortization

Depreciation and amortization decreased \$0.9 million, or 4%, for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011. This decrease was primarily driven by our Divested and Other Businesses.

Depreciation and amortization decreased \$0.1 million, or less than 1%, for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011.

Restructuring Charge

Financial Flexibility is an ongoing process by which we seek to reallocate our spending from low-growth or low-value activities to other activities that will create greater value for shareholders through enhanced revenue growth, improved profitability and/or quality improvements. With most initiatives, we have incurred restructuring charges (which generally consist of employee severance and termination costs, contract terminations, and/or costs to terminate lease obligations less assumed sublease income). These charges are incurred as a result of eliminating, consolidating, standardizing and/or automating our business functions.

Restructuring charges have been recorded in accordance with Accounting Standards Codification (ASC) 712-10, Nonretirement Postemployment Benefits, or ASC 712-10 and/or ASC 420-10, Exit or Disposal Cost Obligations, or ASC 420-10, as appropriate.

We record severance costs provided under an ongoing benefit arrangement once they are both probable and estimable in accordance with the provisions of ASC 712-10.

We account for one-time termination benefits, contract terminations, and/or costs to terminate lease obligations less assumed sublease income in accordance with ASC 420-10, which addresses financial accounting and reporting for costs associated with restructuring activities. Under ASC 420-10, we establish a liability for cost associated with an exit or disposal activity, including severance and lease termination obligations, and other related costs, when the liability is incurred, rather than at the date that we commit to an exit plan. We reassess the expected cost to complete the exit or disposal activities at the end of each reporting period and adjust our remaining estimated liabilities, if necessary.

The determination of when we accrue for severance costs and which standard applies depends on whether the termination benefits are provided under an ongoing arrangement as described in ASC 712-10 or under a one-time benefit arrangement as defined by ASC 420-10. Inherent in the estimation of the costs related to the restructurings are assessments related to the most likely expected outcome of the significant actions to accomplish the exit activities. In determining the charges related to the restructurings, we had to make estimates related to the expenses associated with the restructurings. These estimates may vary significantly from actual costs depending, in part, upon factors that may be beyond our control. We will continue to review the status of our restructuring obligations on a quarterly basis and, if appropriate, record changes to these obligations in current operations based on management's most current estimates.

Three Months Ended June 30, 2012 vs. Three Months Ended June 30, 2011

During the three months ended June 30, 2012, we recorded a \$9.3 million restructuring charge. The significant components of these charges included:

Severance and termination costs of \$8.1 million and \$1.1 million in accordance with the provisions of ASC 712-10 and ASC 420-10, respectively, were recorded. Approximately 500 employees were impacted. Of these 500 employees, approximately 435 employees exited the Company in the second quarter of 2012, with the remaining to exit in the second half of 2012. The cash payments for these employees will be substantially completed by the fourth quarter of 2012; and

Lease termination obligations, other costs to consolidate or close facilities and other exit costs of \$0.1 million.

During the three months ended June 30, 2011, we recorded an \$8.5 million restructuring charge. The significant components of these charges included:

Severance and termination costs of \$5.4 million in accordance with the provisions of ASC 712-10 were recorded. Approximately 100 employees were impacted. Of these 100 employees, approximately 65 employees exited the Company in the second quarter of 2011,

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

with the remaining having exited in the second half of 2011. The cash payments for these employees were substantially completed by the first quarter of 2012; and

Lease termination obligations, other costs to consolidate or close facilities and other exit costs of \$3.1 million.

Six Months Ended June 30, 2012 vs. Six Months Ended June 30, 2011

During the six months ended June 30, 2012, we recorded an \$18.4 million restructuring charge. The significant components of these charges included:

Severance and termination costs of \$11.2 million and \$4.7 million in accordance with the provisions of ASC 712-10 and ASC 420-10, respectively, were recorded. Approximately 620 employees were impacted. Of these 620 employees, approximately 555 employees exited the Company in the first half of 2012, with the remaining to exit in the second half of 2012. The cash payments for these employees will be substantially completed by the fourth quarter of 2012; and

Lease termination obligations, other costs to consolidate or close facilities and other exit costs of \$2.5 million.

During the six months ended June 30, 2011, we recorded a \$12.7 million restructuring charge. The significant components of these charges included:

Severance and termination costs of \$9.6 million in accordance with the provisions of ASC 712-10 were recorded. Approximately 200 employees were impacted. Of these 200 employees, approximately 160 employees exited the Company in the first half of 2011, with the remaining having exited in the second half of 2011. The cash payments for these employees were substantially completed by the first quarter of 2012; and

Lease termination obligations, other costs to consolidate or close facilities and other exit costs of \$3.1 million.

Interest Income (Expense) Net

The following table presents our Interest Income (Expense) Net for the three month and six month periods ended June 30, 2012 and 2011:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
	(Amounts in millions)		(Amounts in millions)	
Interest Income	\$ 0.2	\$ 0.5	\$ 0.3	\$ 0.9
Interest Expense	(9.2)	(9.1)	(18.3)	(18.3)
Interest Income (Expense) - Net	\$ (9.0)	\$ (8.6)	\$ (18.0)	\$ (17.4)

Interest income decreased \$0.3 million, or 60%, for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011. The decrease in interest income is primarily attributable to lower average amounts of interest-bearing balances. Interest income decreased \$0.6 million, or 63%, for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011. The decrease in interest income is primarily attributable to lower average amounts of interest-bearing balances.

Interest expense increased \$0.1 million, or 2%, for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011. The increase in interest expense is primarily attributable to modestly higher average interest rates. Interest expense remained flat for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011.

Other Income (Expense) Net

The following table presents our Other Income (Expense) Net for the three months ended March 31, 2012 and 2011:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
	(Amounts in millions)		(Amounts in millions)	
Effect of Legacy Tax Matters(a)	\$ 0.3	\$ (7.9)	\$ 0.4	\$ (7.7)
Gain on Sale of Businesses(b)	0.0	0.0	6.0	0.0
Loss on Investment(c)	0.0	0.1	0.0	(3.1)
Miscellaneous Other Income (Expense) - Net(d)	(0.3)	(0.5)	0.2	(0.8)
Other Income (Expense) - Net	\$ 0.0	\$ (8.3)	\$ 6.6	\$ (11.6)

- (a) During the three month and six month periods ended June 30, 2011, we recognized the reduction of a contractual receipt under the Tax Allocation Agreement between Moody's Corporation and D&B as it relates to the expiration of the statute of limitations.
- (b) During the six months ended June 30, 2012, we recognized gains primarily related to the sale of the domestic portion of our Japanese operations to TSR and our market research business in China, consisting of two joint venture companies. See Note 13 to our unaudited consolidated financial statements in Item 1. of this Quarterly Report on Form 10-Q.
- (c) During the six months ended June 30, 2011, we recorded an impairment charge related to a 2008 investment in a research and development data firm as a result of its financial condition and our focus on MaxCV.
- (d) Miscellaneous Other Income (Expense) Net increased for the three month and six month periods ended June 30, 2012 compared to the three month and six month periods ended June 30, 2011, primarily due to foreign exchange.

Provision for Income Taxes

For the three months ended June 30, 2012, our effective tax rate was 30.2% as compared to 20.1% for the three months ended June 30, 2011. The 2011 effective tax rate was significantly impacted by the release of reserves for uncertain tax positions in 2011 due to the expiration of a statute of limitations in 2011 which did not re-occur in 2012. The 2012 effective tax rate was positively impacted by an incremental benefit recorded for the divestiture of the domestic portion of our Japan operations and by a benefit recorded as a result of a change to state apportionment related to a prior tax period. For the three months ended June 30, 2012, there are no changes in our effective tax rate that either have had or that we expect may reasonably have a material impact on our operations or future performance.

For the six months ended June 30, 2012, our effective tax rate was 21.4% as compared to 29.2% for the six months ended June 30, 2011. The effective tax rate for the six months ended June 30, 2012, as compared to the six months ended June 30, 2011, was positively impacted by a tax benefit on a loss on the tax basis of a legal entity and by tax benefits from the divestiture of the domestic portion of our Japan operations and negatively impacted by an impairment related to permanently ceasing operations of Roadway in China. For the six months ended June 30, 2012, there are no changes in our effective tax rate that either have had or that we expect may reasonably have a material impact on our operations or future performance.

The total amount of gross unrecognized tax benefits as of June 30, 2012 was \$124.9 million. The amount of unrecognized tax benefits that, if recognized, would impact the effective tax rate is \$117.1 million, net of tax benefits. During the three months ended June 30, 2012, we increased our unrecognized tax benefits by \$0.1 million, net of decreases. The increase is primarily related to additions in prior year tax positions. During the six months ended June 30, 2012, we increased our unrecognized tax benefits by approximately \$4.8 million (net of decreases), primarily related to legacy tax matters. The company anticipates that it is reasonably possible total unrecognized tax benefits will decrease by approximately \$34 million within the next twelve months as a result of the expiration of applicable statutes of limitation.

We recognize accrued interest expense related to unrecognized tax benefits in income tax expense. The total amount of interest expense recognized in the three month and six month periods ended June 30, 2012 was \$0.8 million and \$1.3 million, net of tax benefits, respectively, as compared to \$0.9 million and \$1.6 million, net of tax benefits in the three month and six month periods ended June 30, 2011, respectively. The total amount of accrued interest as of June 30, 2012 was \$12.7 million, net of tax benefits, as compared to \$10.3 million, net of tax benefits, as of June 30, 2011.

We or one of our subsidiaries file income tax returns in the U.S. Federal, and various state, local and foreign jurisdictions. In the U.S. Federal jurisdiction, we are no longer subject to examination by the IRS for years prior to 2005. In state and local jurisdictions, with a few exceptions, we are no longer subject to examinations by tax authorities for years prior to 2008. In foreign jurisdictions, with a few exceptions, we are no longer subject to examinations by tax authorities for years prior to 2007.

The IRS has completed its examination of our 2004, 2005 and 2006 tax years. As reported in our Annual Report on Form 10-K for the year ended December 31, 2011 the IRS proposed certain adjustments to our Research Tax Credits and Domestic Production Deduction. We agreed with the proposed Research Tax Credit adjustments which were fully reserved under authoritative guidance. We disagreed with the proposed Domestic Production Deduction adjustments and are currently having this matter reviewed by the IRS Office of Appeals. As of June 30, 2012, we expect this dispute will be resolved within twelve months. Should the IRS Office of Appeals decide in favor of the IRS, we do not expect the Domestic Production Deduction adjustment to have a material impact on our consolidated statement of operations or consolidated statement of cash flows.

The IRS has commenced an examination of our 2007, 2008 and 2009 tax years. We expect the examination will be completed in the fourth quarter of 2013.

Earnings per Share

In accordance with the authoritative guidance in ASC 260-10, we are required to assess if any of our share-based payment transactions are deemed participating securities prior to vesting and therefore need to be included in the earnings allocation when computing EPS under the two-class method. The two-class method requires earnings to be allocated between common shareholders and holders of participating securities. All outstanding unvested share-based payment awards that contain non-forfeitable rights to dividends are considered to be a separate class of common stock and should be included in the calculation of basic and diluted EPS. Based on a review of our stock-based awards, we have determined that only our restricted stock awards are deemed participating securities. The weighted average restricted shares outstanding were 8,396 shares and 66,559 shares for the three months ended June 30, 2012 and 2011, respectively. The weighted average restricted shares outstanding were 19,331 shares and 84,662 shares for the six months ended June 30, 2012 and 2011, respectively.

The following table sets forth our EPS for the three month and six month periods ended June 30, 2012 and 2011:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Basic Earnings Per Share of Common Stock Attributable to D&B Common Shareholders	\$ 1.21	\$ 1.19	\$ 2.54	\$ 2.19
Diluted Earnings Per Share of Common Stock Attributable to D&B Common Shareholders	\$ 1.20	\$ 1.18	\$ 2.52	\$ 2.17

For the three months ended June 30, 2012, basic and diluted EPS attributable to D&B common shareholders increased 2%, compared with the three months ended June 30, 2011, due to a 5% reduction in the weighted average number of basic and diluted shares outstanding resulting from our total share repurchases, partially offset by a decrease of 3% in Net Income Attributable to D&B common shareholders.

For the six months ended June 30, 2012, basic EPS attributable to D&B common shareholders increased 16%, compared with the six months ended June 30, 2011, due to an increase of 11% in Net Income Attributable to D&B common shareholders and a 4% reduction in the weighted average number of basic shares outstanding resulting from our total share repurchases. For the six months ended June 30, 2012, diluted EPS attributable to D&B common shareholders increased 16%, compared with the six months ended June 30, 2011, due to an increase of 11% in Net Income Attributable to D&B common shareholders and a 5% reduction in the weighted average number of diluted shares outstanding resulting from our total share repurchases.

Segment Results

Simultaneously with the sale of the domestic portion of our Japanese operations to Tokyo Shoko Research Ltd., we entered into a ten-year commercial arrangement to provide TSR with global data for its Japanese competitors and became the exclusive distributor of TSR data to our Worldwide Network partners. We continue to manage our business through three segments. However, as of January 1, 2012, our Asia Pacific Partnerships have been moved out of our Europe and Other International Markets segment and into our Asia Pacific segment.

On January 1, 2012, we began managing our business through the following three segments (all prior periods have been reclassified to reflect the new segment structure):

North America (which consists of our operations in the U.S. and Canada);

Asia Pacific (which primarily consists of our operations in Australia, China, India and Asia Pacific Partnerships); and

Europe and Other International Markets (which primarily consists of our operations in the UK, Netherlands, Belgium, Latin America and European Partnerships).

Prior to January 1, 2012, we managed and reported our business globally through the following three segments:

North America (which consisted of our operations in the U.S. and Canada);

Asia Pacific (which primarily consisted of our operations in Australia, Japan, China and India); and

Europe and Other International Markets (which primarily consisted of our operations in the UK, Netherlands, Belgium, Latin America and our Worldwide Network).

North America

North America is our largest segment representing 73% and 72% of our total revenue for the three month and six month periods ended June 30, 2012 compared to 69% and 71% of our total revenue for the three month and six month periods ended June 30, 2011, respectively.

During the six months ended June 30, 2012, we completed the sale of: i) AllBusiness.com, Inc.; ii) Purisma Incorporated; and a small supply management company. These businesses have been classified as Divested and Other Businesses. These Divested and Other Businesses contributed 1%, in the aggregate, of our North America total revenue for the three months ended June 30, 2011. See Note 10 and Note 12 to our unaudited consolidated financial statements included in Item 1. of this Quarterly Report on Form 10-Q for further detail.

North America represented 73% and 74% of our core revenue for the three month and six month periods ended June 30, 2012 compared to 74% and 75% of our core revenue for the three month and six month periods ended June 30, 2011.

The following table presents our North America revenue by customer solution set and North America operating income for the three month and six month periods ended June 30, 2012 and 2011.

Additionally, this table reconciles the non-GAAP measure of core revenue to the GAAP measure of total revenue:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012 (Amounts in millions)	2011 (Amounts in millions)	2012 (Amounts in millions)	2011 (Amounts in millions)
Revenue:				
Risk Management Solutions	\$ 169.5	\$ 177.7	\$ 339.7	\$ 356.3
Sales & Marketing Solutions	80.7	79.6	166.8	161.5
Internet Solutions	28.8	28.7	58.0	56.7
North America Core Revenue	279.0	286.0	564.5	574.5
Divested and Other Businesses	0.0	2.3	0.0	5.0
North America Total Revenue	\$ 279.0	\$ 288.3	\$ 564.5	\$ 579.5
Operating Income	\$ 103.2	\$ 105.0	\$ 205.7	\$ 211.9

Three Months Ended June 30, 2012 vs. Three Months Ended June 30, 2011

North America Overview

North America total revenue decreased \$9.3 million, or 3% (both before and after the effect of foreign exchange), for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011. North America total revenue was negatively impacted by the divestiture of i) AllBusiness.com, Inc.; ii) Purisma Incorporated; and iii) a small supply management company in the first half of 2012, all of which we reclassified as Divested and Other Businesses. Excluding the impact of the Divested and Other Businesses, core revenue decreased \$7.0 million, or 2% (both before and after the effect of foreign exchange).

North America Customer Solution Sets

On a customer solution set basis, the \$7.0 million decrease in core revenue for the three months ended June 30, 2012, as compared to the three months ended June 30, 2011, reflects:

Risk Management Solutions

A decrease in Risk Management Solutions of \$8.2 million, or 5% (both before and after the effect of foreign exchange) primarily due to:

Lower revenue from non-DNB subscription products. Budget constraints have led customers to migrate from non-DNB subscriptions to smaller usage based plans; and

DNB subscription plans were down due to a decline in modules, reflecting the delay in innovation on the DNB platform as we moved DNB to our development center in Ireland. Our first enhancement was not rolled out until late December 2011 and missed the fourth quarter renewal season. Within DNB, pricing remains firm with lift in the mid-single digits and annualized retention holding steady in the low 90% range.

Traditional Risk Management Solutions, which accounted for 71% of total North America Risk Management Solutions, decreased 3% (both before and after the effect of foreign exchange). The decrease was primarily due to:

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

Lower revenue from non-DNBi subscription products as customers continue to manage their spend in the current economic climate and migration to usage based products at a lower customer commitment value;
partially offset by:

Year-over-year growth in our core DNBi subscription plans that excludes modules (see Value-Added Risk Management Solutions below for further discussion) enabled by our DNBi platform. The increase in core DNBi was driven by continued high retention, increased dollar spend for our existing customers and new product releases. We continue to see mid-single digit price increases with these customers when they renew these subscription plans.

Value-Added Risk Management Solutions, which accounted for 22% of total North America Risk Management Solutions, decreased 8% (both before and after the effect of foreign exchange). The decrease was primarily due to:

Lower purchases from existing customers of modules enabled by our DNBⁱ platform as customers' budgets were more focused towards our core DNBⁱ products and the delay in innovation on the DNBⁱ platform as we moved DNBⁱ to our development center in Ireland. Our first enhancement was not rolled out until late December 2011 and missed the fourth quarter renewal season;

A one-time benefit in the prior year due to revenue recognition on the existing customer set and the allocation of revenue in new arrangements using the best estimated selling price; and

A shift in product mix from our Value-Added Risk Management Solutions to our Value-Added Sales & Marketing Solutions; *partially offset by:*

Increased usage by existing customers of transactional products.

Supply Management Solutions, which accounted for 7% of total North America Risk Management Solutions, decreased 6% (both before and after the effect of foreign exchange), on a small base.

Sales & Marketing Solutions

An increase in Sales & Marketing Solutions of \$1.1 million, or 1% (both before and after the effect of foreign exchange) primarily due to strong performance from our Value-Added products partially offset by a decline in Traditional Sales & Marketing Solutions. Traditional Sales & Marketing Solutions, which accounted for 20% of total North America Sales & Marketing Solutions, decreased 24% (both before and after the effect of foreign exchange). The decrease was primarily due to:

The timing impact of entering into a commercial arrangement with a third party whereby certain products will be provided under a licensing agreement;

Our decision to stop selling certain legacy products and convert the existing customer base as well as new prospects to Hoover's solutions; and

Decreased purchases from certain customers due to economic and budgetary pressures particularly in our education marketing business.

Value-Added Sales & Marketing Solutions, which accounted for 80% of total North America Sales & Marketing Solutions, increased 11% (both before and after the effect of foreign exchange). The increase was primarily due to:

Growth in our products as a result of increased commitments primarily related to growth in our new Data as a Service or DaaS products (e.g., D&B 360);

The completion of large customized projects; and

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

A shift in product mix from our Value-Added Risk Management Solutions to our Value-Added Sales & Marketing Solutions;
partially offset by:

A one-time benefit in the prior year due to revenue recognition on the existing customer set and the allocation of revenue in new arrangements using the best estimated selling price.

Internet Solutions

An increase in Internet Solutions of \$0.1 million, or 1% (both before and after the effect of foreign exchange) as a result of continued growth in our subscription revenue at Hoover's partially offset by decreased advertising revenue. Growth decelerated due to customer budget considerations.

North America Operating Income

North America operating income for the three months ended June 30, 2012 was \$103.2 million, compared to \$105.0 million for the three months ended June 30, 2011, a decrease of 1.8 million, or 2%. The decrease in operating income was primarily attributable to:

A decrease in total revenue; and

Increased costs associated with our investments and marketing efforts;
partially offset by:

Lower compensation costs (i.e., bonus and commissions).

Six Months Ended June 30, 2012 vs. Six Months Ended June 30, 2011

North America Overview

North America total revenue decreased \$15.0 million, or 3% (both before and after the effect of foreign exchange), for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011. North America total revenue was negatively impacted by the divestiture of: i) AllBusiness.com, Inc.; ii) Purisma Incorporated; and iii) a small supply management company in the first half of 2012, all of which we reclassified as Divested and Other Businesses. Excluding the impact of the Divested and Other Businesses, core revenue decreased \$10.0 million, or 2% (both before and after the effect of foreign exchange).

North America Customer Solution Sets

On a customer solution set basis, the \$10.0 million decrease in core revenue for the six months ended June 30, 2012, as compared to the six months ended June 30, 2011, reflects:

Risk Management Solutions

A decrease in Risk Management Solutions of \$16.6 million, or 5% (both before and after the effect of foreign exchange) primarily due to:

Lower revenue from non-DNB subscription products. Budget constraints have led customers to migrate from non-DNB subscriptions to smaller usage based plans; and

A shift in product mix from our Value-Added Risk Management Solutions to our Value-Added Sales & Marketing Solutions. Traditional Risk Management Solutions, which accounted for 72% of total North America Risk Management Solutions, decreased 3% (both before and after the effect of foreign exchange). The decrease was primarily due to:

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

Lower revenue from non-DNBI subscription products as customers continue to manage their spend in the current economic climate and migration to usage based products at a lower customer commitment value;
partially offset by:

Year-over-year growth in our core DNBI subscription plans that excludes modules (see Value-Added Risk Management Solutions below for further discussion) enabled by our DNBI platform. The increase in core DNBI was driven by continued high retention, increased dollar spend for our existing customers and new product releases. We continue to see mid-single digit price increases with these customers when they renew these subscription plans.

Value-Added Risk Management Solutions, which accounted for 21% of total North America Risk Management Solutions, decreased 10% (both before and after the effect of foreign exchange). The decrease was primarily due to:

A shift in product mix from our Value-Added Risk Management Solutions to our Value-Added Sales & Marketing Solutions;

Lower purchases from existing customers of modules enabled by our DNBⁱ platform as customers' budgets were more focused towards our core DNBⁱ products and the delay in innovation on the DNBⁱ platform as we moved DNBⁱ to our development center in Ireland. Our first enhancement was not rolled out until late December 2011 and missed the fourth quarter renewal season; and

A one-time benefit in the prior year due to revenue recognition on the existing customer set and the allocation of revenue in new arrangements using the best estimated selling price;

partially offset by:

Increased usage by existing customers of transactional products.

Supply Management Solutions, which accounted for 7% of total North America Risk Management Solutions, decreased 6% (7% decrease before the effect of foreign exchange), on a small base.

Sales & Marketing Solutions

An increase in Sales & Marketing Solutions of \$5.3 million, or 3% (both before and after the effect of foreign exchange) primarily due to strong performance from our Value-Added products partially offset by a decline in Traditional Sales & Marketing Solutions. Traditional Sales & Marketing Solutions, which accounted for 23% of total North America Sales & Marketing Solutions, decreased 14% (both before and after the effect of foreign exchange). The decrease was primarily due to:

Our decision to stop selling certain legacy products and convert the existing customer base as well as new prospects to Hoover's solutions; and

Decreased purchases from certain customers due to economic and budgetary pressures particularly in our education marketing business.

partially offset by:

The positive impact of entering into a commercial arrangement with a third party whereby certain products will be provided under a licensing agreement.

Value-Added Sales & Marketing Solutions, which accounted for 77% of total North America Sales & Marketing Solutions, increased 10% (both before and after the effect of foreign exchange). The increase was primarily due to:

Growth in our products as a result of increased commitments primarily related to growth in our new Data as a Service or DaaS products (e.g., D&B 360); and

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

A shift in product mix from our Value-Added Risk Management Solutions to our Value-Added Sales & Marketing Solutions; *partially offset by:*

A one-time benefit in the prior year due to revenue recognition on the existing customer set and the allocation of revenue in new arrangements using the best estimated selling price.
Internet Solutions

An increase in Internet Solutions of \$1.3 million, or 3% (both before and after the effect of foreign exchange) as a result of continued growth in our subscription revenue at Hoover's and migration by certain customers from Traditional Sales & Marketing Solutions as customers see our improved value proposition and innovation, partially offset by decreased advertising revenue. Growth decelerated due to customer budget considerations.

North America Operating Income

North America operating income for the six months ended June 30, 2012 was \$205.7 million, compared to \$211.9 million for the six months ended June 30, 2011, a decrease of \$6.2 million, or 3%. The decrease in operating income was primarily attributable to:

A decrease in total revenue; and

Increased costs associated with our investments (i.e., data and product innovation) and marketing efforts;
partially offset by:

Lower compensation costs (i.e., bonus and commissions).

Asia Pacific

Asia Pacific represented 12% and 13% of our total revenue for the three month and six month periods ended June 30, 2012, as compared to 17% and 15% of our total revenue for the three month and six month periods ended June 30, 2011.

During the first quarter of 2012, we completed the sale of: i) the domestic portion of our Japanese operations to TSR; and ii) our market research business in China, consisting of two joint venture companies. These businesses have been classified as Divested and Other Businesses.

During the second quarter of 2012, we permanently ceased our Roadway operations in China, pending an investigation into allegations that its data collection practices may violate local Chinese consumer data privacy laws. In addition, we have been reviewing certain allegations that we may have violated the FCPA and certain other laws in our China operations. We are cooperating with the local Chinese authorities and have voluntarily contacted the SEC and the DOJ to advise both agencies of our investigation. Our investigation remains ongoing and is being conducted at the direction of the Audit Committee. This business has been classified as a Divested and Other Businesses.

These Divested and Other Businesses contributed 38% of our Asia Pacific total revenue for the three months ended June 30, 2011. These Divested and Other Businesses contributed 17% and 37% of our Asia Pacific total revenue for the six months ended June 30, 2012 and 2011, respectively.

Asia Pacific represented 12% and 11% of our core revenue for the three month and six month periods ended June 30, 2012, as compared to 11% and 10% of our core revenue for the three month and six month periods ended June 30, 2011.

The following table presents our Asia Pacific revenue by customer solution set and Asia Pacific operating income for the three month and six month periods ended June 30, 2012 and 2011.

Additionally, this table reconciles the non-GAAP measure of core revenue to the GAAP measure of total revenue by customer solution set:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012 (Amounts in millions)	2011 (Amounts in millions)	2012 (Amounts in millions)	2011 (Amounts in millions)
Revenue:				
Risk Management Solutions	\$ 38.9	\$ 36.9	\$ 74.0	\$ 69.1
Sales & Marketing Solutions	7.5	5.2	14.0	9.3
Internet Solutions	0.2	0.3	0.4	0.5
Asia Pacific Core Revenue	46.6	42.4	88.4	78.9
Divested and Other Businesses	0.0	26.3	18.1	45.9
Asia Pacific Total Revenue	\$ 46.6	\$ 68.7	\$ 106.5	\$ 124.8
Operating Income (Loss)	\$ 5.6	\$ 7.5	\$ (5.5)	\$ 5.7

Three Months Ended June 30, 2012 vs. Three Months Ended June 30, 2011

Asia Pacific Overview

Asia Pacific total revenue decreased \$22.1 million, or 32% (33% decrease before the effect of foreign exchange), for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011.

Asia Pacific total revenue was negatively impacted by a) the divestiture of: i) the domestic portion of our Japanese operations to TSR; and ii) our market research business in China, consisting of two joint venture companies; and b) shut-down of Roadway operations, in the first quarter of 2012, all of which we reclassified as Divested and Other Businesses.

Asia Pacific total revenue was positively impacted by the acquisition of MicroMarketing which contributed six percentage points of growth before the impact of foreign exchange to total Asia Pacific revenue growth during the three months ended June 30, 2012.

Excluding the impact of the Divested and Other Businesses, core revenue increased \$4.2 million, or 10% (12% increase before the effect of foreign exchange) for the three months ended June 30, 2012.

Asia Pacific Customer Solution Sets

On a customer solution set basis, the \$4.2 million increase in Asia Pacific core revenue for the three months ended June 30, 2012, as compared to the three months ended June 30, 2011, reflects:

Risk Management Solutions

An increase in Risk Management Solutions of \$2.0 million, or 5% (7% increase before the effect of foreign exchange) primarily due to:

Increased revenue from our commercial agreement to provide TSR with global data for its Japanese customers and to distribute TSR data to our Worldwide Network partners; and

Increased purchases and usage by new and existing customers in certain of our markets.

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

Traditional Risk Management Solutions, which accounted for 90% of Asia Pacific Risk Management Solutions, increased 3% (4% increase before the effect of foreign exchange). This increase was primarily due to:

Increased purchases and usage by new and existing customers in certain of our markets;

Increased revenue from our commercial agreement to provide TSR with global data for its Japanese customers and to distribute TSR data to our Worldwide Network partners; and

Increased collections revenue in our Australia market primarily due to economic recovery from the prior year's natural disasters which slowed-down collection activity in 2011;
partially offset by:

Decreased revenue resulting from changes in China in the second quarter of 2012 which restricted our access to Chinese company financial statements.

Value-Added Risk Management Solutions, which accounted for 10% of Asia Pacific Risk Management Solutions, increased 38% (39% increase before the effect of foreign exchange), primarily due to increased revenue from our commercial agreement to provide TSR with global data for its Japanese customers and to distribute TSR data to our Worldwide Network partners.

Sales & Marketing Solutions

An increase in Sales & Marketing Solutions of \$2.3 million, or 44% (54% increase before the effect of foreign exchange) primarily due to increased revenue as a result of the acquisition of MicroMarketing, which we consolidated in the fourth quarter of 2011. Traditional Sales & Marketing Solutions, which accounted for 68% of Asia Pacific Sales & Marketing Solutions, increased 30% (41% increase before the effect of foreign exchange). This increase was primarily due to increased revenue as a result of the acquisition of MicroMarketing, which we consolidated in the fourth quarter of 2011.

Value-Added Sales & Marketing Solutions, which accounted for 32% of Asia Pacific Sales & Marketing Solutions, increased 90% (95% increase before the effect of foreign exchange). This increase was primarily due to increased revenue as a result of the acquisition of MicroMarketing, which we consolidated in the fourth quarter of 2011.

Internet Solutions

Internet Solutions decreased \$0.1 million, or 5% (6% increase before the effect of foreign exchange), on a small base.
Asia Pacific Operating Income

Asia Pacific operating income for the three months ended June 30, 2012 was \$5.6 million, compared to operating income of \$7.5 million for the three months ended June 30, 2011, a decrease of \$1.9 million, or 26%. The decrease was primarily due to:

A decrease in Asia Pacific total revenue;
partially offset by:

Lower costs as a result of: a) the divestiture of i) the domestic operations of our Japanese operations to TSR; and ii) our market research business in China, consisting of two joint venture companies, and b) shut-down of Roadway operations.
Six Months Ended June 30, 2012 vs. Six Months Ended June 30, 2011

Asia Pacific Overview

Asia Pacific total revenue decreased \$18.3 million, or 15% (16% decrease before the effect of foreign exchange), for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011.

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

Asia Pacific total revenue was negatively impacted by a) the divestiture of: i) the domestic portion of our Japanese operations to TSR; and ii) our market research business in China, consisting of two joint venture companies; and b) shut-down of Roadway operations, in the first quarter of 2012, all of which we reclassified as Divested and Other Businesses.

Asia Pacific total revenue was positively impacted by the acquisition of MicroMarketing, which contributed seven percentage points of growth, before the impact of foreign exchange, to total Asia Pacific revenue growth, during the six months ended June 30, 2012.

Excluding the impact of the Divested and Other Businesses, core revenue increased \$9.5 million, or 12% (13% increase before the effect of foreign exchange) for the six months ended June 30, 2012.

Asia Pacific Customer Solution Sets

On a customer solution set basis, the \$9.5 million increase in Asia Pacific core revenue for the six months ended June 30, 2012, as compared to the six months ended June 30, 2011, reflects:

Risk Management Solutions

An increase in Risk Management Solutions of \$4.9 million, or 7% (both before and after the effect of foreign exchange) primarily due to:

Increased collections revenue in our Australia market, primarily due to economic recovery from the prior year's natural disasters, which slowed-down collection activity in 2011; and

Increased revenue from our commercial agreement to provide TSR with global data for its Japanese customers, and to distribute TSR data to our Worldwide Network partners.

Traditional Risk Management Solutions, which accounted for 91% of Asia Pacific Risk Management Solutions, increased 8% (both before and after the effect of foreign exchange). This increase was primarily due to:

Increased collections revenue in our Australia market, primarily due to economic recovery from the prior year's natural disasters, which slowed-down collection activity in 2011;

Increased purchases and usage by new and existing customers in certain of our markets; and

Increased revenue from our commercial agreement to provide TSR with global data for its Japanese customers, and to distribute TSR data to our Worldwide Network partners;

partially offset by:

Decreased revenue resulting from changes in China in the second quarter of 2012 which restricted our access to Chinese company financial statements.

Value-Added Risk Management Solutions, which accounted for 9% of Asia Pacific Risk Management Solutions, increased 4% (3% increase before the effect of foreign exchange). This increase was primarily due to increased revenue from our commercial agreement to provide TSR with global data for its Japanese customers, and to distribute TSR data to our Worldwide Network partners.

Sales & Marketing Solutions

An increase in Sales & Marketing Solutions of \$4.7 million, or 51% (59% increase before the effect of foreign exchange) primarily due to increased revenue as a result of the acquisition of MicroMarketing, which we consolidated in the fourth quarter of 2011.

Traditional Sales & Marketing Solutions, which accounted for 67% of Asia Pacific Sales & Marketing Solutions, increased 33% (43% increase before the effect of foreign exchange). This increase was primarily due to increased revenue as a result of the acquisition of MicroMarketing, which we consolidated in the fourth quarter of 2011.

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

Value-Added Sales & Marketing Solutions, which accounted for 33% of Asia Pacific Sales & Marketing Solutions, increased 106% (107% increase before the effect of foreign exchange). This increase was primarily due to increased revenue as a result of the acquisition of MicroMarketing, which we consolidated in the fourth quarter of 2011.

Internet Solutions

Internet Solutions decreased \$0.1 million, or 10% (less than 1% decrease before the effect of foreign exchange), on a small base.

Asia Pacific Operating Income

Asia Pacific operating loss for the six months ended June 30, 2012 was \$5.5 million, compared to operating income of \$5.7 million for the six months ended June 30, 2011, a decrease of \$11.2 million. The decrease was primarily due to:

A decrease in Asia Pacific total revenue; and

Impairment charge in China related to Roadway (see Recent Developments discussed above);
partially offset by:

Lower costs as a result of: a) the divestiture of i) the domestic operations of our Japanese operations to TSR; and ii) our market research business in China, consisting of two joint venture companies, and b) shut-down of Roadway operations.

Europe and Other International Markets

Europe and Other International Markets represented 15% of our total revenue for the three month and six month periods ended June 30, 2012, as compared to 14% of our total revenue for the three month and six month periods ended June 30, 2011.

Europe and Other International Markets represented 15% of our core revenue for the three month and six month periods ended June 30, 2012 and 2011.

There were no divestitures within this segment during the three month and six month periods ended June 30, 2012 and 2011. The following table presents our Europe and Other International Markets revenue by customer solution set and Europe and Other International Markets operating income for the three month and six month periods ended June 30, 2012 and 2011:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012 (Amounts in millions)	2011 (Amounts in millions)	2012 (Amounts in millions)	2011 (Amounts in millions)
Revenue:				
Risk Management Solutions	\$ 48.5	\$ 50.5	\$ 96.2	\$ 97.2
Sales & Marketing Solutions	9.2	8.8	18.2	17.8
Internet Solutions	0.6	0.5	1.3	1.1
 Europe and Other International Markets Total and Core Revenue	 \$ 58.3	 \$ 59.8	 \$ 115.7	 \$ 116.1
 Operating Income	 \$ 14.6	 \$ 9.8	 \$ 28.8	 \$ 20.8

*Three Months Ended June 30, 2012 vs. Three Months Ended June 30, 2011**Europe and Other International Markets Overview*

Europe and Other International Markets total and core revenue decreased \$1.5 million, or 3% (2% increase before the effect of foreign exchange), for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011.

Europe and Other International Markets Customer Solution Sets

On a customer solution set basis, the \$1.5 million decrease in Europe and Other International Markets total and core revenue for the three months ended June 30, 2012, as compared to the three months ended June 30, 2011, reflects:

Risk Management Solutions

A decrease in Risk Management Solutions of \$2.0 million, or 4% (less than 1% increase before the effect of foreign exchange) primarily due to:

The negative impact of foreign exchange; and

Lower transactional volumes as a result of our customers carefully managing their spend due to budgetary pressures; *partially offset by:*

Increased purchases as a result of new project-oriented business.

Traditional Risk Management Solutions, which accounted for 80% of Europe and Other International Markets Risk Management Solutions, decreased 6% (2% decrease before the effect of foreign exchange). This decrease was primarily due to:

The negative impact of foreign exchange; and

Lower transactional volumes as a result of our customers carefully managing their spend due to budgetary pressures.

Value-Added Risk Management Solutions, which accounted for 18% of Europe and Other International Markets Risk Management Solutions, increased 4% (9% increase before the effect of foreign exchange). This increase was primarily due to increased purchases as a result of new project-oriented business in most of our European markets.

Supply Management Solutions, which accounted for 2% of Europe and Other International Markets Risk Management Solutions, increased 22% (36% increase before the effect of foreign exchange), on a small base.

Sales & Marketing Solutions

An increase in Sales & Marketing Solutions of \$0.4 million, or 5% (9% increase before the effect for foreign exchange) primarily due to increased purchases by existing customers in certain of our markets.

Traditional Sales & Marketing Solutions, which accounted for 63% of Europe and Other International Markets Sales & Marketing Solutions, increased 14% (17% increase before the effect of foreign exchange). This increase was primarily due to increased purchases by existing customers in certain of our markets.

Value-Added Sales & Marketing Solutions, which accounted for 37% of Europe and Other International Markets Sales & Marketing Solutions, decreased 7% (3% decrease before the effect of foreign exchange), on a small base.

Internet Solutions

Internet Solutions increased \$0.1 million, or 6% (8% increase before the effect of foreign exchange) on a small base.

Europe and Other International Markets Operating Income

Europe and Other International Markets operating income for the three months ended June 30, 2012 was \$14.6 million, compared to \$9.8 million for the three months ended June 30, 2011, an increase of \$4.8 million, or 49%, primarily due to:

Decreased operating expenses (e.g., compensation, travel related expenses, etc.); and

Lower costs as a result of our reengineering efforts; *partially offset by:*

A decrease in total revenue.

Six Months Ended June 30, 2012 vs. Six Months Ended June 30, 2011

Europe and Other International Markets Overview

Europe and Other International Markets total and core revenue decreased \$0.4 million, or less than 1% (2% increase before the effect of foreign exchange), for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011.

Europe and Other International Markets Customer Solution Sets

On a customer solution set basis, the \$0.4 million decrease in Europe and Other International Markets total and core revenue for the six months ended June 30, 2012, as compared to the six months ended June 30, 2011, reflects:

Risk Management Solutions

A decrease in Risk Management Solutions of \$1.0 million, or 1% (2% increase before the effect of foreign exchange) primarily due to:

The negative impact of foreign exchange;
partially offset by:

Increased purchases as a result of new project-oriented business in most of our European markets.
Traditional Risk Management Solutions, which accounted for 80% of Europe and Other International Markets Risk Management Solutions, decreased 4% (2% decrease before the effect of foreign exchange). This decrease was primarily due to:

The negative impact of foreign exchange; and

Lower transactional volumes as a result of our customers carefully managing their spend due to budgetary pressures.
Value-Added Risk Management Solutions, which accounted for 18% of Europe and Other International Markets Risk Management Solutions, increased 11% (14% increase before the effect of foreign exchange). This increase was primarily due to increased purchases as a result of new project-oriented business in most of our European markets.

Supply Management Solutions, which accounted for 2% of Europe and Other International Markets Risk Management Solutions, increased 38% (50% increase before the effect of foreign exchange), on a small base.

Sales & Marketing Solutions

An increase in Sales & Marketing Solutions of \$0.4 million, or 3% (5% increase before the effect of foreign exchange) primarily due to increased purchases by existing customers in certain of our markets.
Traditional Sales & Marketing Solutions, which accounted for 63% of Europe and Other International Markets Sales & Marketing Solutions, increased 4% (6% increase before the effect of foreign exchange). This increase was primarily due to increased purchases by existing customers in certain of our markets.

Value-Added Sales & Marketing Solutions, which accounted for 37% of Europe and Other International Markets Sales & Marketing Solutions, increased less than 1% (3% increase before the effect of foreign exchange). This increase was primarily due to increased sales to our existing customer base in certain of our markets.

Internet Solutions

Internet Solutions increased \$0.2 million, or 14% (16% increase before the effect of foreign exchange) on a small base.
Europe and Other International Markets Operating Income

Edgar Filing: DUN & BRADSTREET CORP/NW - Form 10-Q

Europe and Other International Markets operating income for the six months ended June 30, 2012 was \$28.8 million, compared to \$20.8 million for the six months ended June 30, 2011, an increase of \$8.0 million, or 38%, primarily due to:

Decreased operating expenses (e.g., compensation, travel related expenses, etc.); and

Lower costs as a result of our reengineering efforts;
partially offset by:

A decrease in total revenue.

Forward-Looking Statements

We may from time-to-time make written or oral forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including statements contained in filings with the Securities and Exchange Commission, in reports to shareholders and in press releases and investor Web casts. These forward-looking statements can be identified by the use of words like anticipates, aspirations, believes, continues, estimates, expects, goals, guidance, intends, plans, strategy, targets, commits, will and other words of similar meaning. They can also be identified by the fact that they do not relate strictly to historical or current facts.

We cannot guarantee that any forward-looking statement will be realized. Achievement of future results is subject to risks, uncertainties and inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Investors should bear this in mind as they consider forward-looking statements and whether to invest in, or remain invested in, our securities. In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, we are identifying in the following paragraphs important factors that, individually or in the aggregate, could cause actual results to differ materially from those contained in any forward-looking statements made by us; any such statement is qualified by reference to the following cautionary statements.

The following important factors could cause actual results to differ materially from those projected in such forward-looking statements:

We rely significantly on third parties to support critical components of our business model in a continuous and high quality manner, including third-party data providers, strategic third-party members in our D&B Worldwide Network, and third parties with whom we have significant outsourcing arrangements;

Our ability to implement and derive the benefit of our Strategic Technology Investment (MaxCV) program announced in February 2010 and to maintain sufficient investment in our technology infrastructure thereafter;

Any consequences of the investigation of our China operations and risks associated with potential violations of the Foreign Corrupt Practices Act;

Demand for our products is subject to intense competition, changes in customer preferences and economic conditions which impact customer behavior;

Our solutions and brand image are dependent upon the integrity and security of our global database and the continued availability thereof through the internet and by other means, as well as our ability to protect key assets, such as our data centers;

Our ability to secure our information technology infrastructure from cyber attack and unauthorized access;

Our ability to maintain the integrity of our brand and reputation, which we believe are key assets and competitive advantages;

Our ability to renew large contracts, the related revenue recognition and the timing thereof, or a shift in product mix, may impact our results of operations from period-to-period;

As a result of the macro-economic challenges currently affecting the global economy, our customers or vendors may experience problems with their earnings, cash flow, or both. This may cause our customers to delay, cancel or significantly decrease their purchases from us and impact their ability to pay amounts owed to us. In addition, our vendors may substantially increase their prices without notice. Such behavior may materially, adversely affect our earnings and cash flow. In addition, if economic conditions in the

United States and other key markets deteriorate further or do not show improvement, we may experience material adverse impacts to our business, operating results, and/or access to credit markets;

Our results are subject to the effects of foreign economies, exchange rate fluctuations, legislative or regulatory requirements, such as the adoption of new or changes in accounting policies and practices, including pronouncements by the Financial Accounting Standards Board or other standard setting bodies, and the implementation or modification of fees or taxes that we must pay to acquire, use, and/or redistribute data. Future laws or regulations with respect to the collection, compilation, use and/ or publication of information and adverse publicity or litigation concerning the commercial use of such information, or changes in the rules governing the operation of the Internet could, have a material adverse effect on our business and financial results;

Our ability to acquire and successfully integrate other complementary businesses, products and technologies into our existing business, without significant disruption to our existing business or to our financial results;

The continued adherence by third-party members of our D&B Worldwide Network, or other third parties who license and sell under the D&B name, to our quality standards, our brand and communication standards and to the terms and conditions of our commercial services arrangements;

The profitability of our international businesses depends on our ability to identify and execute on various initiatives, such as successfully managing our D&B Worldwide Network, complying with the Foreign Corrupt Practices Act and other anti-bribery and anti-corruption laws in all jurisdictions, and our ability to identify and contend with various challenges present in foreign markets, such as local competition and the availability of public records at no cost, or the adoption of new laws or regulations governing the collection, compilation, use and/ or publication of information, particularly in emerging markets;

Our future success requires that we attract and retain qualified personnel, including members of our sales force and technology teams, in regions throughout the world;

Our ability to successfully implement our growth strategy requires that we successfully reduce our expense base through our Financial Flexibility initiatives, and reallocate certain of the expense-base reductions into initiatives that produce desired revenue growth;

We are involved in various legal proceedings, the outcomes of which are unknown and uncertain with respect to the impact on our cash flow and profitability;

Our ability to repurchase shares is subject to market conditions, including trading volume in our stock, and our ability to repurchase shares in accordance with applicable securities laws; and

Our projection for free cash flow is dependent upon our ability to generate revenue, our collection processes, customer payment patterns, the timing and volume of stock option exercises and the amount and timing of payments related to the tax and other matters and legal proceedings in which we are involved.

We elaborate on the above list of important factors throughout this document and in our other filings with the SEC, particularly in the discussion of our Risk Factors in Item 1A. of our Annual Report on Form 10-K. It should be understood that it is not possible to predict or identify all risk factors. Consequently, the above list of important factors and the Risk Factors discussed in Item 1A. of our Annual Report on Form 10-K should not be considered to be a complete discussion of all of our potential trends, risks and uncertainties. Except as otherwise required by federal securities laws, we do not undertake any obligation to update any forward-looking statement we may make from time-to-time.

Liquidity and Financial Position

In connection with our commitment to delivering Total Shareholder Return, we will remain disciplined in the use of our shareholders' cash, maintaining three key priorities for the use of this cash:

First, making ongoing investments in the business to drive growth;

Second, investing in acquisitions that we believe will be value-accretive to enhance our capabilities and accelerate our growth; and

Third, continuing to return cash to shareholders.

We believe that cash provided by operating activities, supplemented as needed with available financing arrangements, is sufficient to meet our short-term needs (twelve months or less), including restructuring charges, transition costs, our Strategic Technology Investment, which we refer to as MaxCV for Maximizing Customer Value, contractual obligations and contingencies (see Note 7 to our unaudited consolidated financial statements included in Item 1. of this Quarterly Report on Form 10-Q), excluding the legal matters identified in such note for which exposures cannot be estimated or are not probable. In addition, we believe that our ability to readily access the bank and capital markets for incremental financing needs will enable us to meet our continued focus on Total Shareholder Return. We have the ability to access the short-term borrowings market to supplement the seasonality in the timing of receipts in order to fund our working capital needs and share repurchases. Such borrowings would be supported by our credit facility, when needed. Our future capital requirements will depend on many factors that are difficult to predict, including the size, timing and structure of any future acquisitions, future capital investments, and the ultimate resolution of issues arising from the investigation regarding potential Foreign Corrupt Practices Act and data privacy violations in our China operation and future results of operations.

The disruption in the economic environment has had a significant adverse impact on a number of commercial and financial institutions. Our liquidity has not been impacted by the current credit environment and management does not expect that it will be materially impacted in the near future. Management continues to closely monitor our liquidity, the credit markets and our financial counterparties. However, management cannot predict with any certainty the impact to us of any further disruption in the credit environment.

On July 13, 2012, Standard and Poor's lowered our long-term credit rating from A- to BBB+ and affirmed our short-term credit rating at A-2. The long-term rating revision is not expected to materially impact our liquidity position, access to the capital markets or funding costs. On July 19, 2012, Fitch Ratings affirmed our issuer default rating and short-term issuer default rating at A- and F-2, respectively.

Cash Provided by Operating Activities

Net cash provided by operating activities was \$243.6 million and \$214.2 million for the six months ended June 30, 2012 and 2011, respectively. The \$29.4 million increase was primarily driven by:

Increased net income of our underlying business excluding the impact of non-cash gains and losses; and

Receipt related to the termination of interest rate derivatives;
partially offset by

Increased net tax payments as compared to prior year.

Cash Used in Investing Activities

Net cash used in investing activities was \$24.4 million for the six months ended June 30, 2012, as compared to net cash used in investing activities of \$21.9 million for the six months ended June 30, 2011. The \$2.5 million change primarily reflects the following activities:

An increase in additions to computer software and other intangibles (e.g., MaxCV);

partially offset by:

Proceeds related to the sale of: i) the domestic portion of our Japanese operations to TSR; ii) Purisma Incorporated; iii) our market research business in China, consisting of two joint venture companies; and iv) AllBusiness.com, Inc. See Note 13 to our unaudited consolidated financial statements included in Item 1. of this Quarterly Report on Form 10-Q.

Cash Used in Financing Activities

Net cash used in financing activities was \$183.2 million and \$196.4 million for the six months ended June 30, 2012 and 2011, respectively. As set forth below, this \$13.2 million change primarily relates to contractual obligations and share repurchases.

Contractual Obligations

Credit Facility

At June 30, 2011, we had a \$650 million, five-year bank revolving credit facility, which we terminated on October 25, 2011 and entered into an \$800 million, five-year bank revolving credit facility.

At June 30, 2012, we had an \$800 million, five-year bank revolving credit facility, which expires in October 2016. We had \$308.6 million of borrowings outstanding under the \$800 million, five-year revolving credit facility at June 30, 2012. We had \$160.0 million of borrowings outstanding under the \$650 million, five-year revolving credit facility at June 30, 2011. We borrowed under these facilities from time-to-time during the six months ended June 30, 2012 to supplement the seasonality in the timing of receipts in order to fund our working capital needs and share repurchases.

Share Repurchases

During the six months ended June 30, 2012, we repurchased 3,028,266 shares of common stock for \$204.0 million. The share repurchases were comprised of the following programs:

In October 2011, our Board of Directors approved a \$500 million share repurchase program, which commenced in November 2011 upon completion of our then existing \$200 million share repurchase program. We repurchased 2,968,703 shares of common stock for \$200.0 million under this share repurchase program during the six months ended June 30, 2012. We anticipate that this program will be completed by December 31, 2012; and

In May 2010, our Board of Directors approved a four-year, five million share repurchase program to mitigate the dilutive effect of the shares issued under our stock incentive plans and ESPP. We repurchased 59,563 shares of common stock for \$4.0 million under this share repurchase program during the six months ended June 30, 2012. This repurchase program commenced in October 2010 and expires in October 2014.

During the six months ended June 30, 2011, we repurchased 832,200 shares of common stock for \$67.5 million. The share repurchases were comprised of the following programs:

In February 2009, our Board of Directors approved a \$200 million share repurchase program, which commenced in December 2009. We repurchased 474,644 shares of common stock for \$38.4 million under this share repurchase program during the six months ended June 30, 2011. This program was completed in November 2011; and

In May 2010, our Board of Directors approved a four-year, five million share repurchase program to mitigate the dilutive effect of the shares issued under our stock incentive plans and ESPP. We repurchased 357,556 shares of common stock for \$29.1 million under this share repurchase program during the six months ended June 30, 2011. This repurchase program commenced in October 2010 and expires in October 2014.

Future Liquidity Sources and Uses of Funds

Share Repurchases

In October 2011, our Board of Directors approved a \$500 million share repurchase program, which commenced in November 2011. During the six months ended June 30, 2012, we repurchased 2,968,703 shares of common stock for \$200.0 million under this share repurchase program leaving \$270.2 million remaining under this program as of June 30, 2012. We anticipate that this program will be completed by December 31, 2012.

In May 2010, our Board of Directors approved a four-year, five million share repurchase program to mitigate the dilutive effect of shares issued under our stock incentive plans and ESPP. During the six months ended June 30, 2012, we repurchased 59,563 shares of common stock for \$4.0 million under this share repurchase program with 4,116,003 shares of common stock remaining under this program. This program commenced in October 2010 and expires in October 2014.

In August 2012, our Board of Directors approved a \$500 million increase to our existing \$500 million share repurchase program, for a total program authorization of \$1 billion. As of June 30, 2012, \$229.8 million of common stock were purchased against the existing \$500 million share repurchase program, leaving \$770.2 million available. It is our intention to complete this program over the next twenty-four months. We expect that the share repurchase program will be funded from cash provided by operating activities, and supplemented as needed with available financing arrangements.

Dividends

In August 2012, we approved the declaration of a dividend of \$0.38 per share for the third quarter of 2012. This cash dividend will be payable on September 18, 2012 to shareholders of record at the close of business on August 31, 2012.

Debt

We have \$400 million of senior notes maturing on April 1, 2013 and intend to refinance the notes. While we believe we will be able to refinance the notes, we also have the ability to retire the notes as they come due based on available borrowing capacity under our credit facility, future cash provided by operations, and current cash balances.

Strategic Technology Investment Program or MaxCV

In February 2010, we announced MaxCV, aimed at strengthening our leading position in commercial data and improving our current technology platform to meet the emerging needs of customers.

We expect that MaxCV will have a total cost of approximately \$160 million on a project basis through 2012, of which the 2012 spend will be approximately \$60 million. The project will largely focus on continuing to rebuild the data supply chain as well as introducing additional Web services. We expect MaxCV and the associated spending will be largely complete by the end of 2012. However, product and customer migration are now targeted to be concluded in 2013. We may experience additional costs that we do not currently foresee.

Spin-off Obligation

In 2000, as part of a spin-off transaction under which Moody's Corporation (Moody's) and D&B became independent of one another, Moody's and D&B entered into a Tax Allocation Agreement (TAA). Under the TAA, Moody's and D&B agreed that Moody's would be entitled to deduct the compensation expense associated with the exercise of Moody's stock options (including Moody's stock options exercised by D&B employees) and D&B would be entitled to deduct the compensation expense associated with the exercise of D&B stock options (including D&B stock options exercised by employees of Moody's). Put simply, the tax deduction would go to the company that granted the stock options, rather than to the employer of the individual exercising the stock options. In 2002 and 2003, the Internal Revenue Service (IRS) issued rulings that clarified that, under the circumstances applicable to Moody's and D&B, the compensation expense deduction belongs to the employer of the option grantee and not to the issuer of the option (i.e., D&B would be entitled to deduct the compensation expense associated with D&B employees exercising Moody's options and Moody's would be entitled to deduct the compensation expense associated with Moody's employees exercising D&B options). We have filed tax returns for 2001 through 2010 consistent with the IRS rulings. We may be required to reimburse Moody's for the loss of compensation expense deductions relating to tax years 2008 to 2010 of approximately \$1.6 million in the aggregate for such years. This liability was reduced from \$20.5 million at December 31, 2011 to \$1.6 million during the six months ended June 30, 2012 due to expiration of the statute of limitations. In 2005 and 2006, we paid Moody's approximately \$30.1 million in the aggregate, which represented the incremental tax benefits realized by D&B for tax years 2003-2005 from using the filing method consistent with the IRS rulings. In February 2011, we paid Moody's an additional sum of approximately \$2.5 million, for tax years 2003-2005. While not material, we may also be required to pay, in the future, amounts in addition to the approximately \$1.6 million referenced above based upon interpretations by the parties of the TAA and the IRS rulings.

Commercial Paper Program

We maintain an \$800 million commercial paper program which is supported by the bank revolving credit facility. The commercial paper program was increased from \$300 million to \$800 million in July 2012. Under this program, we may issue from time to time unsecured promissory notes in the commercial paper market in private placements exempt from registration under the

Securities Act of 1933, as amended, for a cumulative face amount not to exceed \$800 million outstanding at any one time and with maturities not exceeding 364 days from the date of issuance. Outstanding commercial paper effectively reduces the amount available for borrowing under the bank revolving credit facility.

Potential Payments in Legal Matters

We are involved in certain legal proceedings, claims and litigation arising in the ordinary course of business. These matters are at various stages of resolution, but could ultimately result in significant cash payments as described in Note 7 to our unaudited consolidated financial statements included in Item 1. of this Quarterly Report on Form 10-Q. We believe we have adequate reserves recorded in our unaudited consolidated financial statements for our current exposures in these matters, where applicable, as described herein.

As discussed under *Recent Developments* above, we are currently investigating alleged violations of law in our China operations, which could ultimately result in penalties or other payments by us. In connection with the shut-down of the Roadway operations, we believe we may incur additional cash expenditures for severance, lease payments, etc.

Unrecognized Tax Benefits

In addition to our contractual cash obligations as set forth in our Annual Report on Form 10-K for the year ending December 31, 2011, we have a total amount of unrecognized tax benefits of \$124.9 million as of June 30, 2012. Although we do not anticipate payments within the next twelve months for these matters, these could require the aggregate use of cash totaling approximately \$151.4 million.

Off-Balance Sheet Arrangements and Related Party Transactions

We do not have any transactions, obligations or relationships that could be considered off-balance sheet arrangements except for those disclosed in Note 7 to our consolidated financial statements included in Item 8. of our Annual Report on Form 10-K for the year ended December 31, 2011.

We do not have any related party transactions as of June 30, 2012.

Fair Value Measurements

Our non-recurring non-financial assets and liabilities include long-lived assets held and used, goodwill and intangible assets. These assets are recognized at fair value when they are deemed to be impaired.

During the first quarter of 2012, we recorded an impairment charge of \$12.9 million related to the accounts receivable, intangible assets, prepaid costs and software for Roadway, an operation in our Greater China reporting unit. As a result of the ongoing investigation and evaluation of other factors, such as the time, cost and management bandwidth required to resolve the current matters and restart the business, as well as the very fluid situation in China, we subsequently determined to permanently cease the operations of Roadway and we have begun the process of winding down the business. See Note 7 to our unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q for further discussion on this investigation. We determined that the new cost basis of intangible assets, prepaid costs and software is zero based on Level III inputs (see Note 11 to our unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q for further discussion on the level inputs) to measure fair value, as market data of these assets are not readily available. We wrote down the accounts receivable to its realizable value based on the probability of collecting from the customer accounts. Of the \$12.9 million impairment charge, \$4.1 million was included in *Operating Costs* and \$8.8 million was included in *Selling and Administrative Expenses* in our Asia Pacific segment.

As of June 30, 2012, we did not have any unobservable (Level III) inputs in determining fair value for our assets and liabilities measured at fair value on a recurring basis other than our real estate funds.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our market risks primarily consist of the impact of changes in currency exchange rates on assets and liabilities, the impact of changes in the market value of certain of our investments and the impact of changes in interest rates. As of June 30, 2012, no material change had occurred in our market risks, compared with the disclosure in our Annual Report on Form 10-K for the year ended December 31, 2011 included in Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

Item 4. Controls and Procedures.

We evaluated the effectiveness of our disclosure controls and procedures (Disclosure Controls) as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act) as of the end of the period covered by this report. This evaluation (Controls Evaluation) was done with the participation of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO).

Disclosure Controls are controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Limitations on the Effectiveness of Controls

Our management, including our CEO and CFO, does not expect that our Disclosure Controls or our internal control over financial reporting will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable assurance that the objectives of a control system are met. Further, any control system reflects limitations on resources, and the benefits of a control system must be considered relative to its costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within D&B have been detected. Judgments in decision-making can be faulty and breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by individual acts, by collusion of two or more people, or by management override. The design of a control system is also based upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected. Our Disclosure Controls are designed to provide reasonable assurance of achieving their objectives.

Conclusions Regarding Disclosure Controls

Based upon our Controls Evaluation, our CEO and CFO have concluded that as of the end of the quarter ended June 30, 2012, our Disclosure Controls are effective at a reasonable assurance level.

Change in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the second quarter of 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Information in response to this Item is included in Part I Item 1. Note 7 Contingencies and is incorporated by reference into Part II of this Quarterly Report on Form 10-Q.

Item 1a. Risk Factors

The outcome of the investigation by our audit committee or government agencies of possible violations of consumer data privacy laws, the Foreign Corrupt Practices Act (FCPA), and similar laws or, similar investigations and compliance reviews that we may conduct from time to time, could have a material adverse effect on our business.

On March 18, 2012, we announced that we had temporarily suspended our Shanghai Roadway D&B Marketing Services Co Ltd. (Roadway) operations in China, pending an investigation into allegations that its data collection practices may violate local Chinese consumer data privacy laws. Thereafter, we decided to permanently cease the operations of Roadway. In addition, we have been reviewing certain allegations that we may have violated the FCPA and certain other laws in our China operations.

Our investigation remains ongoing and is being conducted at the direction of the Audit Committee. In connection with the ongoing investigation and evaluation of other factors, such as the time, cost and management bandwidth required to resolve the current matters and restart the business, as well as the very fluid situation in China, we subsequently determined to permanently cease the operations of Roadway. D&B acquired Roadway s operations in 2009, and for 2011 Roadway accounted for approximately \$22 million in revenue and \$2 million in operating income.

As previously reported, we are cooperating with the local Chinese authorities and have voluntarily contacted the Securities and Exchange Commission (SEC), and the United States Department of Justice (DOJ), to advise both agencies of our investigation. We are presently unable to predict the duration, scope or result of the Audit Committee s investigation, of any investigations by the SEC, or the DOJ, or any other US or foreign governmental authority, or whether any such authority will commence any legal action against us. The SEC and the DOJ have a broad range of civil and criminal sanctions under the FCPA and other laws and regulations including, but not limited to, injunctive relief, disgorgement, fines, penalties, modifications to business practices, including the termination or modification of existing business relationships, and the imposition of compliance programs and the retention of a monitor to oversee compliance with the FCPA. The imposition of any of these sanctions or remedial measures could have a material adverse effect on our business, financial condition or results of operations.

From time to time, we may conduct internal investigations and compliance reviews, the findings of which could negatively impact our business. Any determination that our operations or activities are not, or were not, in compliance with existing United States or foreign laws or regulations could result in the imposition of substantial fines, interruptions of business, loss of supplier, vendor or other third party relationships, termination of necessary licenses and permits, and other legal or equitable sanctions. Other internal or government investigations or legal or regulatory proceedings, may also follow as a consequence.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Period	Total Number of Shares Purchased (a)(b)	Average Price Paid Per Share	Total Number of Shares Purchased as part of Publicly Announced Plans or Programs (a)(b)	Maximum Number of Currently Authorized Shares that May Yet Be Purchased Under the Plans or Programs (a)	Approximate Dollar Value of Currently Authorized Shares that May Yet Be Purchased Under the Plans or Programs (b)
(Dollar amounts in millions, except share data)					
April 1 - 30, 2012		\$			\$
May 1 - 31, 2012	2,200,700	\$ 67.55	2,200,700		\$
June 1 - 30, 2012	827,566	\$ 66.91	827,566		\$
	3,028,266	\$ 67.38	3,028,266	4,116,003	\$ 270.2

- (a) During the three months ended June 30, 2012 we repurchased 59,563 shares of common stock for \$4.0 million under our Board of Directors approved repurchase program to mitigate the dilutive effect of the shares issued under our stock incentive plans and Employee Stock Purchase Plan. This program was announced in May 2010 and expires in October 2014. The maximum number of shares authorized for repurchase under this program is 5,000,000 shares, of which 883,997 shares had been repurchased as of June 30, 2012. This program expires in October 2014.
- (b) During the three months ended June 30, 2012, we repurchased 2,968,703 shares of common stock for \$200.0 million related to a previously announced \$500 million share repurchase program approved by our Board of Directors in October 2011. We anticipate that this program will be completed by December 31, 2012.

Item 5. Other Information

On August 7, 2012, Mr. Douglas A. Kehring tendered his resignation from our Board of Directors, effective immediately. Mr. Kehring's resignation is not due to any disagreements with the Company on any matter relating to the Company's operations, policies or practices.

Our Corporate Governance Principles require that any Director affiliated with a competitor of D&B shall so tender his or her resignation. During its annual review of D&B's principal competitors list, our Board Affairs Committee approved the inclusion of Oracle Corporation to such list. Mr. Kehring is a Senior Vice President, Corporate Development and Strategic Planning for Oracle Corporation. Upon being notified of the Committee's determination, Mr. Kehring tendered his resignation.

Mr. Kehring did not serve on any Board committees. In connection with Mr. Kehring's resignation, the Board of Directors changed the size of the Board from 9 to 8.
