Each Team Leader may invest for his own benefit in securities held in brokerage and mutual fund accounts. The information shown in the table does not include information about those accounts where the Team Leader or members of his family have a beneficial or pecuniary interest because no advisory relationship exists with Calamos Advisors or any of its affiliates.

\*Mr. Gary D. Black joined the firm as of August 31, 2012 and was not responsible for the day-to-day management of any registered investment vehicle, pooled investment vehicle or account as of July 31, 2012. As of August 31, 2012 he assumed day-to-day management of all noted accounts.

The Fund's Team Leaders are responsible for managing both the Fund and other accounts, including separate accounts and funds not required to be registered under the 1940 Act.

Other than potential conflicts between investment strategies, the side-by-side management of both the Fund and other accounts may raise potential conflicts of interest due to the interest held by Calamos in an account and certain trading practices used by the portfolio managers (e.g., cross-trades between the Fund and another account and allocation aggregated trades). Calamos has developed policies and procedures reasonably designed to mitigate those conflicts. For example, Calamos will only place cross-trades in securities held by the Fund in accordance with the rules promulgated under the 1940 Act and has adopted policies designed to ensure the fair allocation of securities purchased on an aggregated basis.

The allocation methodology employed by Calamos varies depending on the type of securities sought to be bought or sold and the type of client or group of clients. Generally, however, orders are placed first for those clients that have given Calamos brokerage discretion (including the ability to step out a portion of trades), and then to clients that have directed Calamos to execute trades through a specific broker. However, if the directed broker allows Calamos to execute with other brokerage firms, which then book the transaction directly with the directed broker, the order will be placed as if the client had given Calamos full brokerage discretion. Calamos and its affiliates frequently use a rotational method of placing and aggregating client orders and will build and fill a position for a designated client or group of clients before placing orders for other clients. A client account may not receive an allocation of an order if: (a) the client would receive an unmarketable amount of securities based on account size; (b) the client has precluded Calamos from using the particular broker; (c) the cash balance in the client account will be insufficient to pay for the securities allocated to it at settlement; (d) current portfolio attributes make an allocation inappropriate; or (e) account specific guidelines, objectives and other account specific factors make an allocation inappropriate. Allocation methodology may be modified when strict adherence to the usual allocation is impractical or leads to inefficient or undesirable results. Calamos head trader must approve each instance in which the usual allocation methodology is not followed and provide a reasonable basis for such instances and all modifications must be reported in writing to the Director of Compliance on a monthly basis.

The Team Leaders advise certain accounts under a performance fee arrangement. A performance fee arrangement may create an incentive for a Team Leader to make investments that are riskier or more speculative than would be the case in the absence of performance fees. A performance fee arrangement may result in increased compensation to the Team Leaders from such accounts due to under-realized appreciation as well as realized gains in the client's account.

As of October 31, 2011, John P. Calamos, Sr. and John P. Calamos, Jr. receive all of their compensation from Calamos Advisors. Each has entered into an employment agreement that provides for compensation in the form of an annual base salary and a target bonus, both components payable in cash. Their target bonus is set at a percentage of the respective base salary, ranging from 300% to 600%, with a maximum annual bonus opportunity of 150% of the target bonus. For example, the target bonus for a Team Leader who earns \$500,000 would range from \$1,500,000 to \$3,000,000 and the Team Leader's maximum annual bonus opportunity would range from \$2,250,000 to \$4,500,000. Also, due to the ownership and executive management positions with Calamos Asset Management, Inc., additional multiple corporate objectives are utilized to determine the target bonus for John P. Calamos, Sr., and John P. Calamos, Jr. For 2011, the additional corporate objectives were distribution effectiveness, as measured by redemption rates and sales growth; investment performance, as measured by risk-adjusted performance of the investment strategies managed by Calamos Advisors over a blended short- and long-term measurement period; income growth, as measured by operating margin and return on invested capital and the corporate investment portfolio; management evaluation, based upon several factors including the execution of strategic initiatives; and stockholder return relative to the industry peer group. Mr. Black has also entered into an employment agreement that provides for compensation in the form of an annual base salary, target bonus, and a long-term incentive ( LTI ) target bonus. His annual cash target bonus is 300% of base salary, the annual LTI target bonus is 300% of base salary, and he will receive up to 12.5% of certain incentive fee payments collected by an affiliated entity of Calamos Advisors.

As of October 31, 2011, Jeff Scudieri, Jon Vacko, John Hillenbrand, Steve Klouda, Christopher Hartman and Joe Wysocki receive all of their compensation from Calamos Advisors. They each receive compensation in the form of

an annual base salary, a discretionary bonus (payable in cash) and LTI awards. Each of these associates has a bonus range of opportunity which is expressed as a percentage of base salary. Each of these associates is also eligible for discretionary LTI awards, however these awards are not guaranteed from year to year. LTI awards consist of restricted stock units or a combination of restricted stock units and stock options.

The amounts paid to all Team Leaders and the criteria utilized to determine the amounts are benchmarked against industry specific data provided by third party analytical agencies. The Team Leaders' compensation structure does not differentiate between the Fund and other accounts managed by the Team Leaders, and is determined on an overall basis, taking into consideration the performance of the various strategies managed by the Team Leaders. Portfolio performance, as measured by risk-adjusted portfolio performance, is utilized to determine the target bonus, as well as overall performance of Calamos.

All Team Leaders are eligible to receive annual equity awards in shares of Calamos Asset Management, Inc. under an incentive compensation plan. The target annual equity awards are set at a percentage of their respective base salaries.

Historically, the annual equity awards granted under the incentive compensation plan have been comprised of stock options and restricted stock units. Most of the stock options and restricted stock units issued have vested annually in one-third installments beginning in the fourth year after the grant date and each award has been subject to accelerated vesting under certain conditions. Unless terminated early, the stock options have a ten-year term.

At October 31, 2011, each portfolio manager beneficially owned (as determined pursuant to Rule 16a-1a(a)(2) under the Exchange Act) shares of the Fund having value within the indicated dollar ranges.
