- (3) EBITDAS is defined as earnings before interest, tax, depreciation, amortization and share-based compensation cost. Share-based compensation includes both stock options and shares issued under our share allocation plans. EBITDAS is presented as additional information because we understand that it is one measure used by certain investors to determine our operating cash flow and historical ability to meet debt service and capital expenditure requirements. However, other companies may present EBITDAS and similar measures differently than we do. EBITDAS is not a measure of financial performance under IFRS and should not be considered as an alternative to cash flow from operating activities or as a measure of liquidity or an alternative to net income as indicators of our operating performance or any other measures of performance derived in accordance with IFRS.
- (4) Capital expenditures is defined as purchases of property, plant and equipment plus equipment acquired under capital lease and suppliers of fixed assets.
- (5) Net financial debt is defined as gross financial debt less cash and cash equivalents. Net financial debt is presented as additional information because we understand that certain investors believe that netting cash against debt provides a clearer picture of the financial liability exposure. However, other companies may present net financial debt differently than we do. Net financial debt is not a measure of financial performance under IFRS and should not be considered as an alternative to any other measures of performance derived in accordance with IFRS.
- (6) Gross financial debt is defined as bank overdrafts plus current portion of financial debt plus financial debt.

Interest Rate Exposure as of June 30, 2012

As of June 30, 2012, our variable-rate assets (net of liabilities) maturing in less than one year totaled U.S.\$74 million.

Directors and Senior Management and Principal Shareholders

The following information updates, and should be read together with, Item 6: Directors, Senior Management and Employees and Item 7: Principal Shareholders contained in the 2011 Annual Report.

Composition of the Board of Directors

David Work resigned as a member of the Board of Directors effective September 1, 2012. On September 21, 2012, the Board of Directors decided to appoint Ms. Agnès Lemarchand to fill the remaining portion of Mr. Work's term, which ends on the date of the general shareholders meeting in 2013. Ms. Lemarchand will be an independent director and will sit on the Appointment-Remuneration Committee, where she will replace Mr. Work. Ms. Lemarchand, 54, is currently Executive Chairman of Steetley Dolomite Limited, which she joined in 2005. She was previously the CEO of Lafarge Chau (1994-2004). Ms. Lemarchand is also a member of the supervisory boards of Mersen, Areva and SICLAE and a member of the French Economic, Social and Environmental Council.

Variable compensation of the CEO

For 2011, the variable component of the compensation for Mr. Jean-Georges Malcor, Chief Executive Officer, was conditioned on meeting certain individual objectives (representing one-third of the variable compensation) and financial objectives (representing two-thirds of the variable compensation). His target amount was set at 100% of his fixed compensation. The financial objectives related to Group revenues (weighted 30% of the total financial objectives), operating income (weighted 35%), EBITDA less capital expenditures (weighted 20%) and Group free cash flow (weighted 15%).

For 2012, the variable component of the Chief Executive Officer's compensation will be determined by the Board of Directors in consultation with the Appointment-Remuneration Committee in the first quarter of 2013 based on the 2012 financial statements. The variable component is conditioned on meeting certain individual objectives (representing one-third of the variable compensation) and financial objectives (representing two-thirds of the variable compensation).

The exercise of the options is not permitted during the first three years of the plan and is subject to the fulfillment of certain performance conditions. Moreover, the gain before tax that a stock-option beneficiary may derive from the option exercise depends upon the share market price on the exercise date. This gain could be nil if, during the duration of the plan, the exercise price remains above the share market price.

Stock-options are allocated without any possible discount.

Performance conditions

Rights to the options granted by the plan dated June 26, 2012 vest by three batches during the first four years of the plan. Such vesting is subject to the fulfillment of the following performance conditions:
