Under our current Corporate Governance Guidelines, the Board is free to select its Chairman and our Chief Executive Officer in the manner it considers to be in our best interests at any given point in time. Since 2008 the positions of Chairman of the Board and Chief Executive Officer have been held by separate persons. The Board believes that this structure is appropriate for us because it allows our Chief Executive Officer to focus his time and energy on leading our key business and strategic initiatives while the Board focuses on oversight of management, overall enterprise risk management and corporate governance. The Board and its committees meet throughout the year on a set schedule, usually at least once a quarter, and also hold special meetings from time to time. Agendas and topics for Board and committee meetings are developed through discussions between management and members of the Board and its committees. Information and data that are important to the issues to be considered are distributed in advance of each meeting. Board meetings and background materials focus on key strategic, operational, financial, governance and compliance matters applicable to us, including the following:

Reviewing quarterly our business, operations and performance;

Reviewing progress of strategic initiatives and longer-term strategic and business plans;

Reviewing key product, market, industry and competitive issues;

Reviewing and approving material investments or acquisitions, strategic transactions and other significant transactions that are not in the ordinary course of business;

Overseeing our compliance with legal and regulatory requirements;

Overseeing our financial results;

Edgar Filing: VERIFONE SYSTEMS, INC. - Form 10-K/A

Overseeing overall insurance structure and policies, including director and officer insurance levels;

Overseeing our enterprise risk management strategy;

Evaluating the performance of the Board and reviewing and determining the qualifications of directors and mix of expertise and other attributes of directors, including the financial expertise of members of the Audit Committee;

Reviewing and determining the independence of our directors, the appointment of the Chairman of the Board and the selection of Board committee members;

Selecting and approving director nominees; and

Reviewing and approving director compensation, executive compensation and overall compensation plans.

Board's Role in Risk Oversight

The Board executes its risk management responsibility directly and through its committees. As set forth in its charter and annual work plan, our Audit Committee has primary responsibility for overseeing our enterprise risk management process. The Audit Committee receives updates and discusses individual and overall risk areas during its meetings, including financial risk assessments,

Table of Contents

operations risk management policies, major financial risk exposures, exposures related to compliance with legal and regulatory requirements, and management's actions to monitor and control such exposures. Our Vice President of Internal Audit reviews with the Audit Committee our annual operational risk assessment results and at least once each quarter the results of internal audits, including the adequacy of internal controls over financial reporting. Our Vice President of Internal Audit and Chief Information Officer report to the Audit Committee on information systems controls and security. Throughout each fiscal year, the Audit Committee invites appropriate members of management to its meeting to provide enterprise-level reports relevant to the Audit Committee's oversight role, including adequacy and effectiveness of management reporting and controls systems used to monitor adherence to policies and approved guidelines, information systems, treasury, insurance structure and coverage, tax structure and planning, worldwide disaster recovery planning and the overall effectiveness of our operations risk management policies. The Audit Committee is generally scheduled to meet at least twice a quarter, and generally covers one or more areas relevant to its risk oversight role in at least one of these meetings. At each meeting, the Audit Committee also reviews with Mr. Liu, who serves as our General Counsel and Chief Compliance Officer, any significant compliance matters, including matters raised through internal audit reviews and our alert line.

Our Compensation Committee oversees risks associated with our compensation policies and practices with respect to both executive compensation and compensation generally. In establishing and reviewing our executive compensation program, including consultations with independent compensation experts, our Compensation Committee intends that the program does not encourage unnecessary or excessive risk taking. Our compensation program utilizes a mix of base salary and short-term and long-term incentive awards to align our executive compensation with our success, particularly with respect to financial performance and stockholder return. The Compensation Committee sets the amount of our executives' base salaries at the beginning of each fiscal year. A substantial portion of bonus amounts are tied to overall corporate performance and stockholder return, and total bonuses represent a relatively small percentage of an executive officer's total compensation opportunities. Compensation provided to the executive officers also includes a substantial portion in the form of long-term equity awards that help further align executives' interests with those of our stockholders. Similarly, the compensation programs for employees generally consist of base salary and a mix of performance-based bonus opportunities and long-term equity incentives designed to focus on creating long-term shareholder value and not to encourage the taking of short-term risks at the expense of long-term results. In general, bonus opportunities are capped and may be reduced at our discretion based on individual performance. Our Compensation Committee believes that these awards do not encourage unnecessary or excessive risk-taking because the ultimate value of the awards is tied to our financial performance and because awards are staggered and subject to long-term vesting schedules to help ensure that executives have significant value tied to long-term stock price performance.

Our Corporate Governance and Nominating Committee oversees risks related to our overall corporate governance, including development of corporate governance principles applicable to us, evaluation of federal securities laws and regulations with respect to our insider trading policy, development of standards to be applied in making determinations as to the absence of material relationships between us and a director and formal periodic evaluations of the Board and management. Our Corporate Governance and Nominating Committee seeks to align our governance practices with best practices among peer companies and considers recommendations by shareholder advisory organizations with respect to corporate governance.

Reports delivered by all of our committee chairmen on at least a quarterly basis keep the Board abreast of its committees' risk oversight and other activities.

Corporate Governance Guidelines

Our Board has adopted corporate governance guidelines that provide the framework within which the Board directs our corporate governance. Our Corporate Governance and Nominating Committee reviews these guidelines annually and recommends changes to the Board for approval as appropriate. Our corporate governance guidelines are available on the Investor Relations section of our website, <http://ir.verifone.com/>, and are available in print to any stockholder who requests it.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics, which is available on the Investor Relations section of our website, <http://ir.verifone.com/>, and is available in print to any stockholder who requests it. The Code of Business Conduct and Ethics applies to all of our employees, officers and directors. We will post any amendments to or waivers from a provision of our Code of Business Conduct and Ethics that applies to our principal executive officer, principal financial officer, principal accounting officer or controller or persons performing similar functions and that relates to any element of the code of ethics' definition set forth in Item 406(b) of Regulation S-K of the SEC at <http://ir.verifone.com/>.

Director Attendance at Meetings

Edgar Filing: VERIFONE SYSTEMS, INC. - Form 10-K/A

Although our Board recognizes that conflicts may occasionally prevent a director from attending a Board or stockholder meeting, the Board expects each director to make every reasonable effort to keep such absences to a minimum. During fiscal year

Table of Contents

2012, each of our directors attended not less than 75% of the aggregate of the total number of meetings of the Board and the total number of meetings held by the committees of the Board on which such director served (during the periods of such service). At the 2012 Annual Meeting of Stockholders, all of our directors standing for re-election were in attendance. In fiscal year 2012, the Board held a total of seven meetings.

Executive Sessions

Non-employee directors meet in executive session without any management directors or employees present at each regularly scheduled Board meeting. The presiding director at these meetings is the Chairman of the Board. For the first half of fiscal year 2012 our Chairman of the Board was Charles Rinehart. Mr. Rinehart did not stand for re-election at our 2012 Annual Meeting of Stockholders on June 27, 2012 and, following the election of directors at the Annual Meeting, the Board of Directors appointed Mr. McGinn as Chairman of the Board.

Communications with Directors

Any interested party may direct communications to individual directors, including the presiding director, to a board committee, the independent directors as a group or to the Board as a whole, by addressing the communication to the named individual, to the committee, the independent directors as a group or to the Board as a whole c/o Secretary, VeriFone Systems, Inc., 2099 Gateway Place, Suite 600, San Jose, CA, 95110. Our Secretary or an Assistant Secretary will review all communications so addressed and will relay to the addressee(s) all communications determined to relate to our business, management or governance.

Committees of our Board of Directors

Our Board has an Audit Committee, a Compensation Committee and a Corporate Governance and Nominating Committee.

Audit Committee

Our Board has a separately-designated standing Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended. Our Board has adopted an Audit Committee charter, which is available on the Investor Relations section of our website at <http://ir.verifone.com/>, and is available in print to any stockholder who requests it, and defines the Audit Committee's purposes to include:

Overseeing the compensation for and supervising our independent registered public accounting firm;

Reviewing our internal accounting procedures, systems of internal controls and financial statements;

Reviewing and approving the services provided by our internal auditors and independent registered public accounting firm, including the results and scope of their audits; and

Reviewing and approving all related party transactions.

The Audit Committee may, in its discretion, delegate all or a portion of its duties and responsibilities to a subcommittee of the Audit Committee. The Audit Committee may, in its discretion, delegate to one or more of its members the authority to pre-approve any audit or non-audit services to be performed by the independent auditors, provided that any pre-approvals made under delegated authority are presented to the Audit Committee at its next scheduled meeting.

In fiscal year 2012, our Audit Committee met nine times, and met in executive session without management present at each such meeting. Our Board and our Corporate Governance and Nominating Committee have determined that each member of the Audit Committee is independent within the meaning of the rules of both the New York Stock Exchange (the NYSE) and the SEC.

Audit Committee Financial Expert

Edgar Filing: VERIFONE SYSTEMS, INC. - Form 10-K/A

Our Board has determined that each of Robert W. Alspaugh and Robert B. Henske is qualified as an Audit Committee financial expert within the meaning of SEC regulations. In making this determination, the Board considered the following qualifications: (a) understanding of United States generally accepted accounting principles (GAAP) and financial statements; (b) ability to assess the general application of GAAP to accounting for estimates, accruals and reserves; (c) experience preparing, auditing, analyzing or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be raised by our financial statements, or experience actively supervising persons engaged in these activities; (d) understanding of internal control over financial reporting; and (e) understanding of Audit Committee functions.

Compensation Committee

Our Board has adopted a Compensation Committee charter, which is available on the Investor Relations section of our website at <http://ir.verifone.com/>, and is available in print to any stockholder who requests it, and defines the Compensation Committee's purposes to include:

Reviewing and approving corporate goals and objectives relevant to the compensation of our CEO, evaluating our CEO's performance in light of those goals and objectives and, either as a committee or together with the other independent directors (as directed by the Board), determining and approving our CEO's compensation level based on this evaluation;

Making recommendations to the Board with respect to non-CEO compensation, incentive compensation plans, and equity-based plans, including the VeriFone Bonus Plan and the 2006 Equity Incentive Plan, overseeing the activities of the individuals responsible for administering these plans, and discharging any responsibilities imposed on the Compensation Committee by any of these plans;

Approving any new equity compensation plan or any material change to an existing plan where stockholder approval has not been obtained;

Overseeing, in consultation with management, regulatory compliance with respect to compensation matters, including overseeing our policies on structuring compensation programs to preserve tax deductibility, and, as and when required, establishing performance goals and certifying that performance goals have been attained for purposes of Section 162(m) of the Internal Revenue Code;

Making recommendations to the Board with respect to any severance or similar termination payments proposed to be made to any of our current or former officers; and

Preparing an annual Report of the Compensation Committee for inclusion in our annual proxy statement.

The Compensation Committee may, in its discretion, delegate all or a portion of its duties and responsibilities to such standing or *ad hoc* subcommittees as it may determine to be necessary or appropriate for the discharge of its responsibilities, as long as the subcommittee contains at least the minimum number of directors necessary to meet any regulatory requirements.

In fiscal year 2012, our Compensation Committee met five times, and met in executive session without management present at each such meeting.

Our Board and our Corporate Governance and Nominating Committee have determined that each member of the Compensation Committee is independent within the meaning of the rules of both the NYSE and the SEC.

The report of the Compensation Committee is included in this Amendment No. 1 to Annual Report on Form 10-K under *Compensation Committee Report*.

Corporate Governance and Nominating Committee

Our Board has adopted a Corporate Governance and Nominating Committee charter, which is available on the Investor Relations section of our website at <http://ir.verifone.com/> and is available in print to any stockholder who requests it. Our Corporate Governance and Nominating Committee charter defines the Corporate Governance and Nominating Committee's purposes to include:

Edgar Filing: VERIFONE SYSTEMS, INC. - Form 10-K/A

Making recommendations to the Board from time to time as to changes that the Corporate Governance and Nominating Committee believes to be desirable to the size of the Board or any committee thereof;

Identifying and evaluating individuals believed to be qualified to become Board members, consistent with criteria approved by the Board, and selecting, or recommending to the Board, the nominees to stand for election as directors at the annual meeting of stockholders or, if applicable, at a special meeting of stockholders;

Developing and recommending to the Board, standards to be applied in making determinations as to the absence of material relationships between VeriFone and a director;

Identifying Board members qualified to fill vacancies on any committee of the Board (including the Corporate Governance and Nominating Committee) and recommending that the Board appoint the identified member or members to the respective committee;

Establishing procedures for the Corporate Governance and Nominating Committee to exercise oversight of the evaluation of the Board and management;

Developing and recommending to the Board a set of corporate governance principles applicable to VeriFone and reviewing those principles at least once a year; and

Assisting management in the preparation of the disclosure in our annual proxy statement regarding the operations of the Corporate Governance and Nominating Committee.

Table of Contents

Our Corporate Governance and Nominating Committee has not established specific minimum education, experience, or skill requirements for potential members, but, in general, expects that qualified candidates will have high-level managerial experience in a complex and global organization, and will be able to represent the interests of the stockholders as a whole and not just certain special interest groups or constituencies. The Corporate Governance and Nominating Committee considers each candidate's judgment, skill, diversity and professional experience with businesses and other organizations of comparable size in the context of the needs of the Board, the interplay of the candidate's experience with the experience of other Board members, and the extent to which the candidate would be a desirable addition to the Board and any committees of the Board. At this stage of our development, relevant experiences include, among other things, large-company CEO experience, senior management experience in the payments industry, senior-level experience at multi-national companies with oversight over international operations and financial, accounting expertise and executive-level experience in strategic markets for us, such as media. In addition, each candidate is expected to contribute positively to the existing chemistry and collaborative culture among Board members and must have the time and ability to make a constructive contribution to the Board. The Corporate Governance and Nominating Committee also values work ethic, leadership, problem-solving skills and diversity in selecting nominees to serve on the Board, and is committed to actively seeking out highly qualified individuals to contribute to the diversity of the pool from which Board nominees are chosen. Although the Corporate Governance and Nominating Committee does not have a formal policy on diversity, the Corporate Governance and Nominating Committee broadly construes diversity to mean a variety of opinions, perspectives, expertise, personal and professional experiences and backgrounds (including gender, race and ethnicity), as well as other differentiating characteristics. Our Board and each of the committees of the Board engage in an annual self-evaluation that includes an evaluation of diversity of the Board, and the Corporate Governance and Nominating Committee discusses the value of diversity during its annual review of Board composition.

The Corporate Governance and Nominating Committee has generally identified nominees based upon suggestions by directors, management, outside consultants, including third-party search firms, and stockholders. Before considering any nominee, the Corporate Governance and Nominating Committee makes a preliminary determination as to the need for additional members of the Board. If a need is identified, members of the Corporate Governance and Nominating Committee discuss and evaluate possible candidates in detail and suggest individuals to explore in more depth. Once a candidate is identified for further consideration, members of the Corporate Governance and Nominating Committee, as well as other members of the Board and management as appropriate, interview the nominee. After completing this evaluation, the Corporate Governance and Nominating Committee makes a recommendation and refers the nominee to the full Board for consideration. The Corporate Governance and Nominating Committee will consider candidates recommended by stockholders in the same manner as other candidates. Stockholders may nominate candidates for director in accordance with the advance notice and other procedures contained in our Bylaws.

The Corporate Governance and Nominating Committee may, in its discretion, delegate all or a portion of its duties and responsibilities to a subcommittee of the Corporate Governance and Nominating Committee.

In fiscal year 2012, our Corporate Governance and Nominating Committee met four times, and met in executive session without management present at each such meeting.

Our Board and our Corporate Governance and Nominating Committee have determined that each member of the Corporate Governance and Nominating Committee is independent within the meaning of the rules of both the NYSE and the SEC.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires VeriFone's executive officers, directors and persons who own more than 10% of our common stock to file with the SEC initial reports of ownership and reports of changes in ownership of our common stock and other equity securities. The officers, directors and 10% stockholders are required by SEC regulations to furnish VeriFone with copies of all Section 16(a) forms they file. SEC regulations require us to identify in our Annual Report on Form 10-K anyone who failed to file, on a timely basis, reports that were due during the most recent fiscal year or, in certain cases, prior years. Based on our review of reports we received, or written representations from reporting persons stating that they were not required to file these forms, we believe that, during our fiscal year ended October 31, 2012, all Section 16(a) filing requirements were satisfied on a timely basis, except for one late Form 4 filing by each of Messrs. Bergeron, Dumbrell, Dykes, Liu and Yanay to report the annual equity award received by each such named executive in January 2012.

ITEM 11. EXECUTIVE COMPENSATION COMPENSATION DISCUSSION AND ANALYSIS

The following Compensation Discussion and Analysis (CD&A) describes the principles, policies, and practices that formed the foundation of our compensation program in fiscal year 2012 and explains how they applied to our named executives for fiscal year 2012: our Chief Executive Officer, Douglas G. Bergeron; our Executive Vice President and Chief Financial Officer, Robert Dykes; our Executive Vice President managing Europe, Middle East, Africa and Asia, Jeff Dumbrell; our Executive Vice President, Corporate Development and General Counsel, Albert Liu; and our Executive Vice President of Operations, Eliezer Yanay. We refer to these executive officers as our named executives.

Compensation Program

Objectives

We believe that highly talented, dedicated, and results-oriented management is critical to our growth and long-term success. Our compensation program, which is subject to the oversight of our Board and its Compensation Committee, is designed to:

Attract, motivate, and retain management talent of high quality in a competitive market;

Align our management's interests with long-term stockholder value by providing for a significant portion of management's compensation in the form of stock options, restricted stock units, and other stock-based awards (with either time-based vesting schedules or performance-based vesting schedules) the value of which depends upon the performance of our common stock;

Tie each named executive's compensation to our success during the most recent fiscal year, measured in large part by our financial and operational performance and any variations in stockholder value during that period;

Tie a portion of each named executive's compensation to that executive's individual performance in supporting our goals for the fiscal year as outlined by the Board, in order to encourage and reflect individual contributions to our overall performance by rewarding individual achievement;

Ensure that each named executive's compensation is at appropriate and competitive levels relative to each other and to senior executives at companies that we have identified as peer group companies, including certain of our competitors; and

Structure, to the extent deemed appropriate by our Compensation Committee, the bonuses paid to our named executives to be tax deductible to us as qualified performance-based compensation under Section 162(m) of the Internal Revenue Code.

Implementing Our Objectives

The Compensation Committee determines the compensation for each of our named executives. The Compensation Committee evaluates base salaries and short-term and long-term incentive awards as tools to provide the appropriate incentives to meet our compensation objectives both individually and in the aggregate for our named executives. We believe the most important indicator of whether our compensation objectives are being met is whether we have motivated our named executives to deliver superior performance, particularly with respect to financial performance and stockholder return, and incentivized executives performing in line with our expectations to continue their careers with us.

We establish the performance targets for our named executives at the beginning of each fiscal year based on our operating plan for the company. The financial forecasts that form our operating plan reflect our company-wide growth targets and align with our strategic objectives. In order to incentivize our named executives, the financial performance targets used for purposes of executive compensation are generally set at the operating plan targets for performance at the higher end of the range of our planned growth. Our operating plan reflects what our management and Board believes we could achieve if we successfully execute our operational strategies and goals.

Table of Contents

Elements of Executive Compensation

Each compensation component is structured to recognize individual performance and the components are intended to incentivize both short- and long-term performance. Our compensation program consists of the following short-term and long-term components:

Short-term components

Base salary;

Variable annual and quarterly or semi-annual performance-based cash bonus awards;

Variable annual performance-based equity awards, such as restricted stock units or stock options;

Additional discretionary or one-time cash bonus awards for exceptional individual performance; and

Benefits and perquisites.

Long-term component

Periodic grants of long-term equity-based awards, including restricted stock units and stock options

The foregoing elements combine to promote the compensation objectives that we have outlined above. The Compensation Committee believes that a mix of both short-term cash and equity incentives and long-term equity incentives are appropriate to implement our overall compensation program. The Compensation Committee sets base salaries and benefits and perquisites at amounts that are designed to provide a competitive level of compensation in order to achieve our objective of attracting, motivating and retaining management talent of high quality in a competitive environment. The Compensation Committee structures performance-based cash bonus awards and short-term equity awards to provide our named executives with compensation that rewards the achievement of our quarterly and annual goals, as applicable, and other near term stockholder value-creation strategies. The Compensation Committee uses long-term equity incentive awards to motivate named executives to achieve superior performance over a longer period of time and to tie the majority of each named executive's compensation to long-term stockholder value creation. In determining the amount of compensation awarded to a particular named executive, the Compensation Committee considers the following factors:

Whether the short- and long-term components of the compensation package, in absolute as well as relative terms, assure that appropriate recognition, incentives and retention value are maintained;

Our share price performance during the fiscal year;

Our performance during the fiscal year as measured against projections of our performance prepared by management for the fiscal year and approved by the Board, including projections in respect of non-GAAP net revenues, non-GAAP net income and non-GAAP net income per share;

Edgar Filing: VERIFONE SYSTEMS, INC. - Form 10-K/A

Information prepared by the Compensation Committee's outside independent executive compensation consultant, Compensia, as described under "Competitive Data" and "Role of Compensation Consultants" below, including information with respect to the compensation plan arrangements of technology companies with revenues comparable to ours and selected peer companies; and

Evaluations prepared by our Chief Executive Officer with respect to the individual performance of each of our other named executives consistent with our compensation objectives. In making recommendations with respect to named executives other than himself, our Chief Executive Officer evaluates the performance of the executives against the performance goals set for each executive and considers the executive's responsibilities and compensation in relation to other officers. Our Chief Executive Officer does not make recommendations about his own compensation.

Based on the foregoing factors as well as the objectives described above, the Compensation Committee considers the total compensation that may be awarded to the named executive including the allocation among base salary, performance-based bonuses, equity incentives and benefits and perquisites. The Compensation Committee also takes into account the prior year's annual cash compensation of each named executive as well as how total compensation compares as between individual named executives. In addition, the Compensation Committee also considers equity holdings, including equity awards previously granted and the vesting schedules of such awards. Except as described above, the Compensation Committee does not take into account amounts realized from prior compensation or payable upon termination or change of control in determining total compensation. The Compensation Committee's goal in awarding compensation is to award compensation that is reasonable in relation to the objectives of our compensation program when all elements of potential compensation are considered.

Long-Term Incentive Award for CEO In September 2012, at the recommendation of our Compensation Committee, our Board determined to implement a long-term incentive program for our Chief Executive Officer starting in fiscal year 2013. The

Table of Contents

Compensation Committee believes this long-term incentive program will serve to drive company performance and further align our long-term performance targets for our Chief Executive Officer with share performance and the interests of our stockholders, while offering strong retention value for our Chief Executive Officer. For fiscal year 2013, the program comprises three equity components, with a January 2, 2013 grant date. The first component, which comprises approximately 25% of the total value of the award, consists of a grant of 259,500 stock options that vest as to 33.3% of the grant at each anniversary of the grant date, with full vesting at the end of three years. The second component, which comprises approximately 25% of the total value of the award, is a performance-based award of restricted stock units with a target of 98,200 shares that will vest one year from the grant date if Mr. Bergeron achieves certain objective performance targets set at the beginning of fiscal year 2013. The award is forfeited if achievement is below 80% of the targets, and may be achieved at 100% to 150% of the target depending on the actual level of achievement. Consistent with the difficulty of achievement for performance-based awards for our named executives, unless there are unusual or unexpected factors affecting our key markets and our business, if Mr. Bergeron executes well, we expect that it is probable, though not certain, that such targets will be achieved at approximately 100%, and in the case of exceptional performance by Mr. Bergeron, the targets may be achieved at levels above 100%. The third component, which comprises approximately 50% of the total value of the award, consists of a performance-based award of restricted stock units with a target of 167,200 shares that will vest three years from the grant date based on our achievement of total shareholder return relative to peers on a stacked-ranking basis over a three year performance period from the date of grant, with peers defined as those companies comprising the S&P Technology Index at the end of performance period. Stock price performance during the three year period will be calculated based upon the stock price returns for VeriFone and each peer company as of January 2, 2013 and January 2, 2016, using a 60 trading day closing average preceding those dates. The award is forfeited if achievement is below 50% of the target, and may be achieved at a level up to 200% of the target depending on the actual level of achievement. The Committee determined that the design of this long-term incentive program, which places significant emphasis on performance-based awards in the form of restricted stock units and stock options and provides for increased payout levels for exceptional achievement, appropriately incentivizes our Chief Executive Officer to improve company performance and will help us retain our Chief Executive Officer.

Mix of Compensation Elements

As discussed above, we weigh compensation for the named executives primarily toward short-term performance-based compensation and long-term equity compensation. However, we do not have any pre-established targets relating to the mix between base salary, short-term performance-based compensation and long-term equity compensation. The Compensation Committee makes a determination as to the particular mix of a named executive's total compensation for a particular year based on its review of the factors described above relating to how base salaries, short-term performance-based compensation and long-term equity compensation are set in each year. For fiscal year 2012 our Compensation Committee determined to award each named executive a performance-based equity award with vesting at the end of one year contingent upon our achievement of specified financial and business growth targets for fiscal year 2012 as one component of total fiscal year 2012 compensation. See *Grants of Plan-Based Awards* below for information about fiscal year 2012 equity awards to our named executives.

Executive Stock Ownership Guidelines

In March 2010, the Board adopted stock ownership guidelines that apply to our Chief Executive Officer and each executive officer who is a direct report to our Chief Executive Officer. The guidelines require our Chief Executive Officer to own a minimum number of shares of our common stock valued at approximately three times his annual base salary, and for each executive who is a direct report to the Chief Executive Officer to own a minimum number of shares of our common stock valued at approximately such executive's annual base salary.

Under these guidelines, restricted stock units awarded and owned stock count toward the ownership level. An executive has a five year period over which to achieve the target ownership level. Ownership and progress toward guidelines is reviewed annually by the Compensation Committee.

Tax Considerations

Section 162(m) of the U.S. Internal Revenue Code places a limit on the tax deduction for compensation in excess of \$1 million paid to certain covered employees of a publicly held corporation (generally, the corporation's principal executive officer and its next three most highly compensated executive officers (other than the corporation's chief financial officer) in the year that the compensation is paid). This limitation applies only to compensation that is not considered performance-based under the Section 162(m) rules. The Compensation Committee believes that it is in our best interests and the best interests of our stockholders to comply with the limitations of Section 162(m) of the Code to the extent practicable and consistent with retaining, attracting, and motivating our named executives. Our Bonus Plan may provide for performance based awards within the meaning of Section 162(m) and the Compensation Committee generally intends to grant awards under the Bonus Plan that are performance-based within the meaning of Section 162(m). However, the Compensation Committee retains the flexibility to pay non-deductible compensation in its discretion.

Table of Contents

Role of CEO in Determining Executive Compensation for Named Executives

As noted above, in connection with the determination of compensation for our named executives, Mr. Bergeron provides recommendations to the Compensation Committee; however, Mr. Bergeron does not make a recommendation as to his own compensation. While the Compensation Committee uses this information and values Mr. Bergeron's recommendations, the Compensation Committee ultimately approves the compensation program for named executives. Mr. Bergeron was not present at any Compensation Committee discussions regarding his own compensation.

Speculative Transactions

In accordance with our insider trading policy, we do not permit any employee, including the named executives, to enter into any derivative or hedging transaction on our stock (including short-sales, market options, equity swaps or other equity derivatives or hedging transactions).

Employment-Related Agreements with Named Executives

We may enter into employment and severance agreements with one or more of our named executives if we determine that such an agreement is necessary to obtain a measure of assurance as to the executive's continued employment in light of prevailing market competition for the particular position held by the named executive and the importance of the particular position, or if the Compensation Committee determines that an employment agreement is necessary and appropriate to attract, motivate, and retain executive talent in light of market conditions, the prior experience of the executive, or our practices with respect to other similarly situated employees. Based on an evaluation of these factors, we entered into an amended and restated employment agreement with our Chief Executive Officer, Mr. Bergeron, during the fiscal year ended October 31, 2009, which continues Mr. Bergeron's employment with VeriFone through October 31, 2013, subject to automatic extension as described below. The terms of this employment agreement are described below under *Employment Agreement with our Chief Executive Officer*. Our severance terms with Mr. Rothman, our current Chief Financial Officer, include certain severance benefits in the event of a qualifying termination, as described below under *Severance Agreements with our Chief Financial Officer*.

Employment Agreement with our Chief Executive Officer

In the first half of fiscal year 2009, our Compensation Committee undertook a review of the compensation program for Mr. Bergeron, our Chief Executive Officer, in light of the then-pending expiration of his January 2007 amended and restated employment agreement (the *2007 Employment Agreement*) on October 31, 2009. The Compensation Committee was mindful of Mr. Bergeron's role in our performance since July 2001 as well as our future performance. In conducting its review, the Compensation Committee also considered Mr. Bergeron's compensation history with VeriFone, equity holdings and the vesting schedule of his equity awards to assess the extent to which those holdings and the remaining unvested awards helped to serve the Compensation Committee's goal of retaining and motivating Mr. Bergeron. In addition, the Compensation Committee also conducted an evaluation of compensation levels, mix of compensation components and compensation structure for chief executive officers of peer group companies based on data provided by Compensia, the Compensation Committee's independent executive compensation consultant, and took into consideration the stock performance of VeriFone relative to the stock performance of peer group companies during the preceding 12 months and 36 months.

Our Compensation Committee determined that renewal of Mr. Bergeron's 2007 Employment Agreement was appropriate but also sought to establish a program that provided for both near term and long term incentives for Mr. Bergeron to promote increased value for our stockholders, including through share price appreciation, consistent with the aim of the 2007 Employment Agreement. To achieve these objectives, the Compensation Committee determined that it would be appropriate to combine time-based stock options, which would incentivize consistent performance over the vesting term, and performance-based equity awards based on achieving substantial improvement in financial and operating performance as measured by a non-GAAP net income per share financial target, which would reward near term performance.

Based on the Compensation Committee's review, on April 8, 2009, we entered into an amended and restated employment agreement with Mr. Bergeron (the *2009 Employment Agreement*), which superseded the remaining employment term of Mr. Bergeron and related compensation benefits under the 2007 Employment Agreement. The 2009 Employment Agreement provides for an annual base salary for fiscal year 2009, subject to annual increases in subsequent fiscal years at the discretion of the Board upon recommendation of the Compensation Committee, and for potential annual cash bonuses. Annual bonus eligibility and any related bonus target will be determined for each year by the Compensation Committee in its discretion. Annual bonuses may be between 0% and 200% of the target bonus amount, based on Mr. Bergeron's performance and the achievement of performance criteria to be established by our Compensation Committee. Further, to the extent that the Compensation Committee establishes an annual cash bonus target that is conditioned on our financial performance meeting specified targets, the Compensation Committee may, in its discretion, include a provision requiring that any bonus actually paid to Mr. Bergeron be reimbursed to us in the event or to the extent that, during a time period established by the Compensation Committee at the time such incentives are established, we announce a

restatement of our financial results, a result of which is that the relevant performance threshold would no longer be met.

Table of Contents

Under the 2009 Employment Agreement, the Compensation Committee recommended and the Board approved an annual base salary of \$800,000 for Mr. Bergeron and an annual bonus target of \$1.0 million for fiscal year 2012, which was the same as Mr. Bergeron's annual base salary and annual bonus target for fiscal years 2011 and 2010. See *Determination of Compensation* and *Fiscal Year 2012 Bonus Determinations* in this CD&A for information regarding Mr. Bergeron's compensation for fiscal year 2012.

Under the 2009 Employment Agreement, Mr. Bergeron is entitled to receive annual equity awards as determined by the Board upon the recommendation of the Compensation Committee, in amounts and under terms and conditions similar to those for his initial equity grant in fiscal year 2009. For fiscal year 2012, Mr. Bergeron received a grant of 186,000 time-based stock options and grants totaling 361,000 performance-based stock options. These equity award grants to Mr. Bergeron, and the goal achieved for each award, are discussed under *Grants of Plan-Based Awards* and *Long-Term Equity Incentive Compensation* below.

Effective April 30, 2012, the term of the 2009 Employment Agreement automatically extended for an additional 12 months and currently ends on October 31, 2013, and is subject to automatic renewal for additional one-year periods six months prior to the termination date unless we provide notice of our intent to not renew. If Mr. Bergeron's employment is terminated without cause or if Mr. Bergeron terminates his employment for good reason, then Mr. Bergeron may be entitled to severance equal to one year's current base salary and bonus paid for the immediately previous fiscal year provided that any severance payments are conditioned on Mr. Bergeron's compliance with the noncompetition and nonsolicitation provisions of the 2009 Employment Agreement. We have the option to extend the noncompetition and nonsolicitation period for an additional year, by paying Mr. Bergeron an additional year's severance. In the event of a termination of Mr. Bergeron's employment without cause or if Mr. Bergeron terminates his employment for good reason, Mr. Bergeron will be entitled to receive continuation of medical benefits for two years following the termination date on terms substantially the same as in effect immediately preceding the termination. Certain of our equity awards to Mr. Bergeron also include provisions for acceleration upon a qualifying termination in connection with a change of control. A qualifying termination occurs if Mr. Bergeron's employment is terminated other than for cause or if he resigns for good reason in the period beginning 90 days prior to a change in control and ending 12 months after a change in control. A change in control means any of the following events, subject to specified exceptions:

any person or group of persons becomes the beneficial owner of 40% or more of our outstanding voting securities;

the consummation of a merger or similar transaction that requires the approval of our stockholders (either for the transaction itself or for the issuance of securities);

the sale of all or substantially all of our assets; and

our liquidation or dissolution.

See *Potential Payments Upon Termination or Change of Control*.

Severance Agreements with our Former and Current Chief Financial Officer

Mr. Dykes

Mr. Dykes served as our Chief Financial Officer from September 9, 2008 to February 4, 2013. On February 4, 2013, we announced the appointment of Mr. Rothman as our Chief Financial Officer, succeeding Mr. Dykes effective February 4, 2013, and Mr. Dykes' retirement from VeriFone effective February 28, 2013.

In connection with Mr. Dykes' retirement, we and Mr. Dykes entered into a Separation Agreement, dated February 1, 2013 (the *Separation Agreement*), that replaces all previous severance agreements between Mr. Dykes and us. Pursuant to the Separation Agreement, following Mr. Dykes' planned retirement date of February 28, 2013, Mr. Dykes will remain available to assist us with respect to transition matters on an as-needed basis for the period from March 1, 2013 to May 1, 2013. During this period, Mr. Dykes will receive, subject to the terms and conditions set forth in the Separation Agreement, continued vesting of his outstanding and unvested equity awards, based on their current vesting schedule and terms, to and inclusive of May 1, 2013, and continued coverage under our standard health and welfare benefit plans.

Mr. Rothman

In connection with our appointment of Mr. Rothman as Chief Financial Officer, on February 4, 2013, we entered into certain severance terms with Mr. Rothman, which require us to provide specified payments and benefits to Mr. Rothman upon a qualifying termination (meaning a termination by us other than for cause or a termination by Mr. Rothman for good reason) or if we undergo a change of control that results in a qualifying termination of Mr. Rothman's employment. If there is a qualifying termination, then we shall pay Mr. Rothman, within ten days following the date of termination, a sum equal to the total of: (i) Mr. Rothman's base salary through the date of termination and any bonuses that have become payable and have not been paid or deferred, (ii) any accrued vacation pay and compensation previously deferred, other than pursuant to a tax-qualified plan; (iii) any amounts due under any plan or program in accordance with their terms; and (iv) a lump-sum cash payment equal to Mr. Rothman's annual base salary during the six-month period immediately prior to the date of termination. In connection with a qualifying termination, we must also provide Mr.

Table of Contents

Rothman with continuing medical, insurance and related benefits for six months following the date of such termination. Furthermore, the terms of the grant agreements for Mr. Rothman's initial equity awards provide that in connection with a person or group of persons becoming the beneficial owner of 40% or more of our outstanding voting securities, a merger or similar transaction, or the sale of all or substantially all of our assets that constitutes a change in control, and the change in control results in a qualifying termination of Mr. Rothman's employment (as defined in the grant agreements), any stock options, restricted stock and other stock-based rights that are covered by the award agreements shall vest in full pursuant to our 2006 Equity Incentive Plan.

Indemnification Agreements

We have adopted provisions in our amended and restated certificate of incorporation that authorize and require us to indemnify our officers and directors to the full extent permitted under Delaware law, subject to limited exceptions. We have also entered, and intend to continue to enter, into separate indemnification agreements with each of our directors and executive officers which may be broader than the specific indemnification provisions contained in Delaware law.

Determination of Compensation

Role of Compensation Consultants

We and the Compensation Committee consult from time to time with executive compensation consultants and consider the compensation levels of companies within our industry and other industries that compete for the same talent. We also subscribe to certain third-party compensation survey services that allow us and the Compensation Committee to access reports and compensation survey data detailing compensation practices at peer companies and in the relevant geographical locations for benchmarking purposes. In determining compensation policies and programs for our named executives, the Compensation Committee also considers the guidelines on executive pay practices periodically published by shareholder advisory firms. Neither we nor the Compensation Committee has maintained any long-term contractual relationship with any compensation consultant, but in recent years the Compensation Committee has retained an independent executive compensation consultant in connection with its review of compensation for the named executives. Periodically, the Compensation Committee also retains compensation consultants to assist in the design of programs that affect named executive compensation. As described below, in fiscal year 2012, the Compensation Committee used market data and analysis from Compensia in reviewing our compensation levels and the proposed structure of the compensation program for our Chief Executive Officer and other named executives. Neither Compensia nor any of its affiliates provided any services to VeriFone other than the services requested by the Compensation Committee.

Competitive Data

Our Compensation Committee relies upon market data and executive compensation data and trends of our peer group companies from independent compensation consultants in making executive compensation decisions. For fiscal year 2012, our Compensation Committee engaged Compensia to prepare analyses and reports, including an analysis of base salary and merit increase metrics and short- and long-term incentive plan practices in the general high technology industry and an evaluation of the competitiveness of our executive compensation program which focused on current trends and practices in pay-for-performance, short-term incentive plans and executive and company-side long-term incentive grants among peer group companies as well as the general high technology market. In addition, for fiscal year 2012, the Compensation Committee reviewed a detailed compensation assessment prepared by Compensia of our CEO compensation program compared to that of peer group companies. The peer group companies reviewed and approved by the Compensation Committee are primarily technology companies, some of which compete with us for business or for executive talent. The Compensation Committee's intent was to choose peer group companies that have one or more attributes significantly similar to us, including size (evaluated on the basis of revenue and market capitalization), location, general industry, or products. For fiscal year 2012, in light of our growth through strategic initiatives and increased revenue and market capitalization, the Compensation Committee determined to review executive compensation relevant to a peer group consisting of companies with financial characteristics at about the same level as ours, with some reference to our projected near term growth at the time of the compensation assessment. The Compensation Committee reviewed this and other benchmarking data and market trends derived from additional surveys and market information with representatives of our Human Resources department.

The following companies made up the peer group companies for fiscal year 2012:

Alliance Data Systems
Altera
Brocade Communications Systems

Linear Technology
MICROS Systems
Nuance Communications

Equinix
Global Payments
Itron
Lender Processing Services

NVIDIA
ON Semiconductor
Teradyne
Xilinx

Table of Contents

The Compensation Committee used the compensation data and market trends described above as one of a number of factors in its decisions regarding compensation and pay practices, and generally used such data and trends as a reference point rather than as a strict benchmarking tool in making decisions as to whether the contributions and responsibilities of each named executive are properly reflected in his compensation. The Compensation Committee also gave great weight to our business performance, including performance under several financial metrics, and individual performance as described below in its executive compensation decisions. It did not, however, separately consider the historical performance or future projected performance trends of any of these peer group companies relative to our historical performance or future projected performance trends for executive compensation purposes. The Compensation Committee applied a similar approach with respect to determinations of change of control or termination payments for our named executives, as further described below under *Potential Payments Upon Termination or Change of Control*.

The Compensation Committee reviewed our executive compensation programs and practices, and analyzed, for each named executive, all existing elements of compensation (including base pay, cash bonus awards, short-term performance-based equity awards, and long-term compensation in the form of equity awards). In evaluating the competitiveness of our executive compensation program and setting executive compensation, the Compensation Committee compared these compensation components separately, and in total, to compensation at the peer group companies. For fiscal year 2012, the Compensation Committee generally weighed the mix of compensation to the named executives, other than for our Chief Financial Officer, more toward long-term incentive awards, with total cash compensation levels at the 25th to 50th percentile of peer group companies and awards of long-term incentive awards in the 75th to 100th percentile of peer group companies. Total aggregate compensation for named executives, except for our Chief Financial Officer, including long-term incentive awards, remained at the top quartile of peer group companies as appropriate to retain and motivate our most talented and experienced executives. For our Chief Financial Officer, the Compensation Committee set total cash compensation and long-term incentive award levels at approximately the 50th percentile compared to peer group companies.

At our 2012 Annual Meeting held on June 27, 2012, we provided our stockholders with the opportunity to cast an advisory vote on our fiscal year 2011 executive compensation programs and policies (a say-on-pay proposal) and approximately 89% of the votes were in favor of the proposal. The Compensation Committee reviews the outcome of our stockholders' advisory vote on each year's say-on-pay proposal in its evaluation and determination of executive compensation. The Compensation Committee considered the results of the stockholders' advisory vote at our 2012 Annual Meeting, and did not make any changes to our executive compensation policies and decisions as a result of such vote.

Base Salary

The objective of base salary is to provide fixed compensation to a named executive that reflects individual job responsibilities, experience, value to our company, and demonstrated performance. The salaries for the named executives are typically determined by the Compensation Committee based on its subjective evaluation of a variety of factors including the following:

The scope and importance of the named executive's responsibilities.

The contribution and experience of the named executive.

Competitive market information regarding salaries.

Overall compensation trends and economic conditions for peer group companies and the broader technology market.

The importance of retaining the named executive along with the competitiveness of the market for the named executive's role and responsibilities.

The base salary of the named executive in prior fiscal years.

Edgar Filing: VERIFONE SYSTEMS, INC. - Form 10-K/A

The base salary of individual named executives as compared with each other.

For our Chief Executive Officer the detailed analysis of our CEO's compensation program by Compensia.

As to the named executives other than the Chief Executive Officer, the recommendation of our Chief Executive Officer based on his subjective evaluation of the individual's performance.

Base salaries are typically reviewed annually in the first quarter of each fiscal year in connection with annual performance reviews and adjusted to take into account the factors described above.

Fiscal Year 2012 Annual Base Salary Determination

The Compensation Committee set fiscal year 2012 annual base salaries of the named executives as follows:

Named Executives	Fiscal Year 2012
Douglas G. Bergeron	\$ 800,000
Robert Dykes	\$ 430,000
Jeff Dumbrell	\$ 350,000

Table of Contents

Named Executives	Fiscal Year 2012
Albert Liu	\$ 350,000
Eliezer Yanay (1)	\$ 332,481

(1) Mr. Yanay's annual base salary is set and paid in Israeli New Shekels. For disclosure purposes, Mr. Yanay's annual base salary of ILS 1,300,000 has been converted from Israeli New Shekels to U.S. Dollars at the October 31, 2012 exchange rate of 3.910 Shekels per one U.S. Dollar.

For the fiscal year ended October 31, 2012, the Compensation Committee generally set the annual base salary of each of our named executives after consideration of a number of factors, including similar arrangements in place at our peer group companies, the total fiscal year 2012 compensation package to be set for each named executive as well as total compensation in past fiscal years, each named executive's performance during the past fiscal year including based on the review by Mr. Bergeron of each named executive's achievements, the extent of relevant experience of each named executive, and each named executive's expected role and scope of responsibilities within our company for fiscal year 2012. The Compensation Committee also takes into consideration any significant increase in a particular named executive's responsibilities compared to the previous year.

The fiscal year 2012 base salary amount for Mr. Bergeron was set by the Compensation Committee in December 2011. In determining Mr. Bergeron's salary level (and compensation) for fiscal year 2012, the Compensation Committee engaged Compensia, an independent executive compensation consultant, to prepare an assessment of the components of Mr. Bergeron's compensation against peer group company data. The Compensation Committee evaluated Mr. Bergeron's leadership and performance as well as our overall financial and stock price performance against peer group companies in determining the compensation levels appropriate to retain and incentivize Mr. Bergeron. The companies forming part of our peer group are identified under *Determination of Compensation-Competitive Data* of the CD&A included in this Form 10-K/A.

Performance-Based Bonuses

Each of our named executives was eligible for performance-based cash bonuses as a component of overall compensation as well as to provide an incentive and reward for superior performance over the short-term. For fiscal year 2012, Mr. Bergeron and our other named executives were each eligible for an annual performance-based cash bonus. In addition to an annual performance-based bonus, Messrs. Dykes, Liu and Yanay were each eligible for semi-annual performance-based bonuses and Mr. Dumbrell was eligible for quarterly performance-based cash bonuses. Quarterly bonuses are generally paid in cash in the fiscal quarter following the applicable period's performance and are intended to account for approximately 75% of the aggregate bonus compensation for Mr. Dumbrell. The semi-annual cash bonus is intended to account for approximately one-third of the aggregate bonus compensation for Mr. Dykes, one-half of the aggregate bonus compensation for Mr. Liu and 75% of the aggregate bonus compensation of Mr. Yanay, and is paid in June for the first six months of our fiscal year and in December for the last six months of our fiscal year. Annual bonuses are typically approved by the Board upon recommendation of the Compensation Committee and paid in cash the first fiscal quarter of each year based on our financial performance during the prior fiscal year and on the individual performance of the named executives, in each case based on pre-established targets and objectives.

In setting annual bonus compensation, the Compensation Committee determines a target dollar value for annual bonus awards at the beginning of the fiscal year. For fiscal year 2012, the annual bonus compensation accounted for all of the bonus compensation of our CEO, one-fourth of the total cash bonus compensation of Messrs. Dumbrell and Yanay, approximately two-thirds of the total cash bonus compensation of Mr. Dykes, and one-half of the total cash bonus compensation of Mr. Liu. Under the 2009 Employment Agreement, the Compensation Committee has the discretion to deliver between 0% and 200% of the target annual bonus compensation for our CEO. For fiscal year 2012, one-half of Mr. Bergeron's target annual bonus may be paid at the discretion of the Board based on Mr. Bergeron's performance during fiscal year 2012 and the remaining one-half may be paid based on VeriFone achieving a target non-GAAP net income per share set based on our plan approved by the Board at the beginning of the fiscal year.

For our other named executives, the Compensation Committee generally allocates at least 80% of a named executive's total performance bonus based on performance against pre-established performance objectives. For fiscal year 2012, 100% of the total performance-based bonus for Messrs. Dykes, Liu and Yanay (who are non-sales named executives) and 90% of the total performance bonus for Mr. Dumbrell (who serves as a named executive in a sales role) were based on pre-established performance objectives, which were as follows:

Our actual corporate financial performance for the service period in comparison to internal financial performance forecasts prepared by our management and presented to the Compensation Committee and the Board in the first quarter of each fiscal year. This

Edgar Filing: VERIFONE SYSTEMS, INC. - Form 10-K/A

includes overall financial performance on a consolidated basis as well as performance of individual business units that a named executive is responsible for managing.

Successful execution related to key strategic initiatives such as integration of acquired businesses.

Table of Contents

Performance objectives for the business units managed by each named executive and individual performance objectives for each named executive, including considerations relating to increased responsibilities performed by a named executive during the fiscal year which were not contemplated when the named executive's target bonus was established.

Performance considerations relating to unforeseen events during the prior year.

These factors are described in further detail below:

Objective Portion of Bonuses**1. Financial Performance**

In the first quarter of each fiscal year, the Compensation Committee and the Board receives financial forecasts from management. Based on its review of the financial forecasts and its assessment of the probability of achieving these forecasts and after consultation with management and the full Board, the Compensation Committee approves the financial performance metrics for the named executives. These metrics serve as the primary basis for the Compensation Committee's evaluation of corporate financial performance. These financial performance metrics are set forth below:

Financial Performance Metric	Description
Non-GAAP net revenues (1), (3)	Growth in revenues is an essential component of long-term success and viability. Non-GAAP net revenues is used by us in addition to revenues recognized in accordance with GAAP, and is a non-GAAP financial measure.
Non-GAAP net income and non-GAAP net income per share (2), (3)	Growth in non-GAAP net income and non-GAAP net income per share provides an indicator of our ability to generate returns on our operations and fund future growth. These are non-GAAP financial measures that we have historically used to evaluate our performance and compare our current results with those for prior periods as well as with the results of other companies in our industry. These non-GAAP financial measures have also been used by investment analysts to evaluate our performance.

- (1) For fiscal year 2012, non-GAAP net revenues was calculated by adding back the amortization of step-down in deferred revenue on acquisitions to our GAAP revenue. We refer to this measure as non-GAAP net revenues in our reports of our financial results on Form 8-K.
- (2) Non-GAAP net income and non-GAAP net income per share are non-GAAP financial measures that we use in addition to GAAP results to evaluate our performance and compare our results to other companies. We refer to these measures as non-GAAP net income and non-GAAP net income per share in our reports of our financial results on Form 8-K. Non-GAAP net income and non-GAAP net income per share are calculated by excluding the following GAAP items from GAAP net income (loss) as reported: amortization of step-down in deferred revenue on acquisition; stock-based compensation; acquisition, divestiture and restructure related adjustments; amortization of purchased intangible assets; costs of efficiency initiatives; patent litigation loss contingency expense; non-cash interest expense; non-operating gains (losses); and the income tax effect of non-GAAP exclusions. In connection with our 1.375% Senior Convertible Notes we had entered into certain note hedge transactions. We repaid these Notes in cash upon maturity on June 15, 2012, and the then outstanding note hedge transactions expired unused on June 15, 2012. Non-GAAP diluted shares reflect the offset of shares that would have been deliverable in the periods presented prior to the maturity of the Notes pursuant to note hedge transactions. Under GAAP, shares delivered in hedge transactions are not considered offsetting shares in the fully diluted share calculation until they are actually delivered.
- (3) Each fiscal quarter and for each fiscal year we report non-GAAP net revenues, non-GAAP net income and non-GAAP net income per share in our reports of our financial results on Form 8-K. For the fiscal year ended October 31, 2012, our GAAP financial statements and the items to reconcile to our non-GAAP financial measures are described and included in our Form 8-K filed December 13, 2012 for our fourth quarter and fiscal year 2012 results; Form 8-K filed September 5, 2012 for our third quarter 2012 results; Form 8-Ks filed May 29, 2012 and May 24, 2012 for our second quarter 2012 results and Form 8-K filed March 5, 2012 for our first quarter 2012 results.

The Compensation Committee views financial and corporate performance as the most important factor in determining a named executive's annual bonus. A summary of our actual achievement against the above company-wide financial metric targets for the corporate component of

our named executives' performance-based awards for fiscal year 2012 is disclosed under *Fiscal Year 2012 Bonus Determinations-Determination of 2012 Target Bonus Amount*. Corporate achievement of the non-GAAP net revenues and non-GAAP net income targets must be at 80% or greater for both components in order for any award on either component. In addition to the above, a portion of the fiscal year 2012 quarterly performance-based bonus for Mr. Dumbrell was measured against pre-established contribution margin and gross margin targets for the business units that he manages.

Table of Contents

2. Stock Price Performance

In accordance with the compensation program goal of tying executive compensation to stock price performance, the Compensation Committee places significant weight on the stock price performance of our common stock in setting annual bonus awards. In particular, the Compensation Committee considers the relative performance of our stock price to the stock price of our peers that are identified under *Competitive Data* above when evaluating the compensation structure that would best achieve our compensation objectives.

3. Individual and Organizational Performance

The Compensation Committee recognizes that it is important to reward individual contributions measured based on performance goals set for each named executive that reflect our overall corporate business strategy as well as business unit-specific strategic and financial goals and other particular areas of importance for the business units managed by each named executive.

A portion of each named executive's bonus as set forth below under *Individual Bonus Targets* is evaluated based on attainment of pre-established personal and organizational, or business unit-specific, performance objectives. Generally, in the first quarter of each fiscal year, the Compensation Committee sets a list of individual performance goals for our Chief Executive Officer after meeting with him. The Compensation Committee also reviews the individual performance goals that the Chief Executive Officer recommends for the other named executives and makes adjustments to those performance goals as it deems appropriate.

After the completion of the fiscal year, the Compensation Committee meets with the Chief Executive Officer to review whether the Chief Executive Officer's pre-established individual performance goals were met and to provide the Chief Executive Officer with an opportunity to present what he believes are his significant contributions to our company for the fiscal year. The Compensation Committee also reviews the individual performance of each other named executive with the Chief Executive Officer. In determining the overall individual performance of each named executive other than the Chief Executive Officer, the Compensation Committee places substantial weight on the Chief Executive Officer's recommendations and its discussions with the Chief Executive Officer regarding the performance of the other named executives.

4. Difficulty of Achieving Performance Targets

In formulating the performance targets for executive compensation, the Compensation Committee balances the consideration of the likelihood of achieving such performance targets with the effectiveness of such targets in incentivizing our named executives' performance. The Compensation Committee aims to set company-wide and business-unit specific financial performance targets that are expected to be possible, but not easy, to achieve with meaningful effort. On a year-over-year basis, we typically plan for double-digit percentage growth in each of non-GAAP revenue, non-GAAP net income and non-GAAP net income per share when setting Plan targets, after taking into account growth opportunities, strategic initiatives and market position as well as any countervailing considerations. Therefore, in general, unless there are unusual or unexpected factors affecting our key markets or a key business unit or region or if a named executive fails to adequately execute on planned initiatives, it is probable, though not certain, that targets will be achieved at approximately 100% with meaningful effort. We estimate that there is generally less than a 50% chance that targets are achieved at materially greater than 100%. In fiscal year 2012, the corporate level targets were achieved in the range of 90th percentile to 120th percentile, in each case rounded to the nearest tenth percentile. Business-unit specific financial performance was achieved in the range of 80th percentile to 110th percentile, in each case rounded to the nearest tenth percentile.

5. Unforeseen Events

After the end of the fiscal year, the Compensation Committee reviews our actual performance against each of the financial and stock price performance metrics. In determining the extent to which the financial and stock price performance metrics are met for a given period, the Compensation Committee exercises its judgment whether to reflect or exclude the impact of changes in accounting principles and extraordinary, unusual or infrequently occurring events. To the extent appropriate, the Compensation Committee will also consider the nature and impact of such events in the context of the bonus determination.

We do not have a formal policy on the adjustment or recovery of awards or payments if the relative performance measures are restated or otherwise adjusted for our named executives other than with respect to certain of the outstanding performance equity awards for Mr. Bergeron. For Mr. Bergeron, in certain circumstances in which we restate financial results such that the performance condition for an equity award tranche would no longer be met, then such award would be forfeited. However, the Compensation Committee expects that named executives will forfeit or return any award or payment to the extent that such award or payment was incorrectly awarded or paid because the relevant performance measures used to determine such award or payment are restated or otherwise adjusted in a manner that would reduce the size of the award or payment.

Table of Contents**Discretionary Portion of Bonuses**

Although the Compensation Committee believes that the bulk of the bonus should normally be based on objective measures of financial and stock performance, the Compensation Committee believes that in certain circumstances subjective performance elements are also important in setting the bonus compensation of named executives.

1. Individual Bonus Targets

A portion of a named executive's bonus target may be awarded based on a subjective evaluation of the named executive's performance. For fiscal year 2012, approximately 10% of the total cash bonus target for Mr. Dumbrell was awarded each quarter based on whether he met or exceeded our CEO's expectations following our CEO's subjective review of his individual performance during each quarter. This performance assessment is evaluated subjectively and typically based on qualitative factors such as management abilities and staff development.

2. Compensation Committee Discretion

A named executive's bonus award may be adjusted based on the Compensation Committee's subjective evaluation of the named executive's individual performance. In addition, the Compensation Committee has the discretion, in appropriate circumstances, to award a bonus less than the amount determined by the objective steps set out above, including to award no bonus at all. The Compensation Committee also has the discretion to award special additional discretionary bonuses for exceptional performance or for the achievement of specific accomplishments that the Compensation Committee, after consultation with management, has determined are of significant importance to us.

Fiscal Year 2012 Bonus Determinations**Determination of 2012 Target Bonus Amount**

In the first quarter of each fiscal year, the Compensation Committee sets a target bonus amount for each named executive. The target bonus takes into account all factors that the Compensation Committee deems relevant, with a focus on the objectives of our compensation program. In particular, the Compensation Committee evaluates individual and company performance during the last fiscal year and then existing competitive market conditions for executive talent in determining the target bonus of the named executives in the current fiscal year. The Compensation Committee also places significant weight on the recommendation of and discussions with our Chief Executive Officer in setting target annual bonus compensation of the other named executives for the fiscal year.

A summary of our actual achievement against company-wide financial performance metrics used as targets for the corporate components of our named executives' performance-based awards for fiscal year 2012 is disclosed below:

Annual Target Bonus

For fiscal year 2012, the Compensation Committee approved the following annual target bonuses for the named executives:

Named Executive	Target
Douglas G. Bergeron	\$ 1,000,000
Robert Dykes	\$ 215,000
Jeff Dumbrell	\$ 50,000
Albert Liu	\$ 100,000
Eliezer Yanay (1)	\$ 38,363

- (1) Mr. Yanay's annual bonus amount is set and paid in Israeli New Shekels. For disclosure purposes, Mr. Yanay's annual bonus amount of ILS 150,000 has been converted from Israeli New Shekels to U.S. Dollars at the October 31, 2012 exchange rate of 3.910 Shekels per one U.S. Dollar.

For fiscal year 2012, the annual bonus for each of Messrs. Dykes, Liu and Yanay was based entirely on objective performance-based factors, and for Mr. Dumbrell was based 90% on objective performance-based factors. Under the 2009 Employment Agreement, Mr. Bergeron may receive between 0% and 200% of his target annual bonus. For fiscal year 2012, one-half of Mr. Bergeron's annual target bonus is based on whether our non-GAAP net income per share for fiscal year 2012 meets or exceeds a target set by the Board consistent with our plan and forecasts at the beginning of the fiscal year. The rest of Mr. Bergeron's annual bonus is based on Mr. Bergeron's personal performance as determined by the Board with consideration of VeriFone's overall financial performance and the Board's evaluation of Mr. Bergeron's execution on strategic initiatives and leadership. Accordingly, Mr. Bergeron may receive a bonus that is greater or less than his annual target bonus, depending on whether, and to what extent performance and other conditions are satisfied and the Board's evaluation of his performance, up to a maximum total cash bonus of 200% of his target annual bonus. For each named executive other than the Chief Executive Officer, a portion of the target annual bonus is measured based on our actual corporate financial performance for the service period compared to the financial plan developed at the beginning of the fiscal year and may be paid at 0% or, for achievement at or above 80% of both financial targets, based on the actual percent of

achievement. Messrs. Dykes, Liu and Yanay may receive between 0% and 200% of the portion of his annual target bonus that is measured against pre-set personal performance objectives which are specific for each named executive. A portion of the target annual bonus for Mr. Dumbrell is measured against business-unit specific performance criteria and may be paid out at 0% or, for achievement over a minimum percentage, at 50% to 200%. For Mr. Dumbrell, 10% of his annual bonus was allocated based on discretionary qualitative criteria. Accordingly, each named executive may receive an annual bonus that is greater or less than his annual target bonus, and which could be zero.

Table of Contents

For fiscal year 2012, for each of Messrs. Dykes, Liu and Yanay, 60% of the annual bonus was allocated based on the achievement of pre-set targets for non-GAAP net revenues and non-GAAP net income. The remaining 40% of the annual bonus for each of Messrs. Dykes, Liu and Yanay was based on achievement against pre-set personal performance objectives. For fiscal year 2012, 30% of the annual bonus for Mr. Dumbrell was allocated based on the achievement of pre-set targets for non-GAAP net revenues and non-GAAP net income. An additional 60% of the annual bonus for Mr. Dumbrell was allocated based on a set of business unit-specific financial criteria consistent with overall corporate goals and objectives, with each given equal weighting toward the business-unit specific component of his annual bonus. The remaining 10% of Mr. Dumbrell's annual bonus was allocated based on discretionary qualitative criteria. For Mr. Dykes, the personal performance objectives for fiscal year 2012 were continued efforts toward integration of acquired businesses, enhancement of financial systems, completion of key organizational initiatives and achievement of goals related to expense controls and operational efficiencies. Mr. Liu's personal performance objectives for fiscal year 2012 were contributions to corporate development initiatives, strategic transactions, business process enhancements related to Mr. Liu's areas of responsibility and key organizational initiatives. Mr. Yanay's personal performance objectives for fiscal year 2012 were completion of key organization initiatives for our global operations and enhancement of operational efficiencies, including for acquired business operations. For Mr. Dumbrell, the business unit-specific criteria for fiscal year 2012 were attainment of specified business unit contribution and gross margin targets as to the business operations that Mr. Dumbrell manages.

The following table provides a summary of the annual bonus performance targets, weighting of each and award for fiscal year 2012:

- (1) These amounts represent achievement at 100%. In the event we achieve non-GAAP net revenues and non-GAAP net income at above 100% of the target for each such financial metric, the annual bonus based on such metric shall be earned at the actual percent of achievement for each of Messrs. Dykes, Dumbrell, Liu and Yanay. Achievement at 80% or greater of both financial targets is required for any award on either component.
- (2) Mr. Yanay's annual bonus amount is set and paid in Israeli New Shekels. For disclosure purposes, the components of Mr. Yanay's annual bonus have been converted from Israeli New Shekels to U.S. Dollars at the October 31, 2012 exchange rate of 3.910 Shekels per one U.S. Dollar.
- (3) These amounts represent achievement at 100% of target. Messrs. Dykes, Liu and Yanay may receive between 0% and 200% of the portion of his annual target bonus that is measured against pre-set personal performance objectives, which are specific for each named executive. Mr. Dumbrell may receive between 0% and 200% of the portion of his annual target bonus that is measured against discretionary qualitative criteria.
- (4) These amounts represent achievement at 100% of target. The business unit-specific criteria for Mr. Dumbrell are contribution margin and gross margin. Contribution margin criteria must be at 80% attainment or higher for any payout and gross margin criteria must be at 90% attainment or higher for any payout, in each case with a maximum payout of 200%.

Annual Bonus Awards

A summary of our actual achievement against company-wide financial performance metrics used as targets for the corporate components of our named executives' performance-based awards for fiscal year 2012 is provided under *Fiscal Year 2012 Bonus Determinations - Determination of 2012 Target Bonus Amount* of this CD&A. Following the end of fiscal year 2012, our Compensation Committee undertook a review of VeriFone's financial performance compared to the board-approved plan for fiscal year 2012, as well as compared to peer group companies as measured by growth in revenues, net income, operating income, market capitalization and total shareholder return as prepared and reported by Compensia at the Compensation Committee's request.

Table of Contents

For fiscal year 2012, corporate achievement of non-GAAP net income per share, which accounts for 50% of Mr. Bergeron's annual bonus award, was achieved at the 110th percentile, rounded to the nearest tenth percentile. While the Compensation Committee and Board recognized Mr. Bergeron's execution and successful leadership on some of our key initiatives during fiscal year 2012, following review of our overall fiscal year 2012 performance, the Compensation Committee determined and Mr. Bergeron agreed that Mr. Bergeron would forego any annual bonus award for fiscal year 2012. Accordingly, Mr. Bergeron did not receive any annual bonus award for fiscal year 2012.

Based on the fiscal year 2012 corporate achievement for non-GAAP net revenues and non-GAAP net income, each of our named executives, other than Mr. Bergeron, earned a payout of the annual bonus award for fiscal year 2012 at the actual percentage achievement at or above 100% for the portion of their annual performance based on such financial metric.

Messrs. Dykes, Liu and Yanay each achieved the personal performance objectives component of their annual bonus at 100% for fiscal year 2012. Mr. Dumbrell achieved his business unit-specific criteria at the 100th percentile (rounded to the nearest tenth percentile) for both the contribution margin and the gross margin components and, as a result, received a payout for both the contribution margin component and the gross margin component. At the end of fiscal year 2012, Mr. Dumbrell achieved 100% of his discretionary qualitative bonus, which was based on the CEO's subjective evaluation of his management of his business units, overall staff management and development and management of customer relationships.

Mr. Bergeron, who interfaces directly with each named executive throughout the year and observes and evaluates his execution at both the business unit level and the corporate level, performs the initial assessment of achievement of these business unit criteria. Mr. Bergeron's recommendation is then presented to the Compensation Committee for review and approval. For fiscal year 2012, targets were established such that a named executive would receive achievement at up to a maximum of 200% of the non-financial business unit level components of the annual bonus if he executes well and meets or exceeds expectations as to all the criteria for his business unit, with a minimum achievement of 80%. In addition, both corporate achievement components for the fiscal year must be met at 80% or more. For the financial components of contribution margin and gross margin that, for fiscal year 2012 apply to Mr. Dumbrell, the business unit objectives may be achieved at a range of 0% up to a maximum of 200% based on actual achievement of the metrics against targets. The Compensation Committee has the discretion to determine that a named executive has achieved the business-unit specific criteria at greater than 100%, although we expect that the Compensation Committee would do so infrequently and in limited circumstances. For fiscal year 2012, no components were paid above the maximum range for such target.

For fiscal year 2012, the Compensation Committee determined, after considering the fiscal year performance and the recommendation of management, that each of the named executives other than Mr. Bergeron would receive the earned annual cash bonuses in the form of a performance-based award of restricted stock units of equivalent value in lieu of the cash award. Such equity awards vest at the one-year anniversary of their grant date, subject to VeriFone's achievement of a minimum non-GAAP net income per share target for fiscal year 2013 and the named executive's continued employment with VeriFone on the vest date.

The following table shows the annual bonus awards earned by our named executives for fiscal year 2012:

Named Executive	Fiscal Year 2012	
	Annual Bonus Awarded	
Douglas G. Bergeron (1)	\$	
Robert Dykes (2)	\$	222,525
Jeff Dumbrell (3)	\$	49,925
Albert Liu (4)	\$	103,500
Eliezer Yanay (5)	\$	39,706

- (1) As disclosed above, the Compensation Committee and Mr. Bergeron agreed that Mr. Bergeron would forego any annual cash bonus award earned for fiscal year 2012 and, therefore, Mr. Bergeron did not receive any award of annual bonus for fiscal year 2012.
- (2) Mr. Dykes received an award of 7,286 restricted stock units, granted on January 2, 2013, in lieu of cash for his annual bonus award. Such award vests on the one-year anniversary of the grant date subject to VeriFone's achievement of a minimum non-GAAP net income per share target for fiscal year 2013 and the named executive's continued employment with VeriFone on the vest date. On February 4, 2013, we announced Mr. Dykes' retirement as our Chief Financial Officer effective February 4, 2013 and retirement from VeriFone effective May 1, 2013. Since Mr. Dykes' retirement from VeriFone will occur prior to the vest date of the award of 7,286 restricted stock units, such award will be considered forfeited upon Mr. Dykes' retirement.

Mr. Yanay's annual bonus amount is set and paid in Israeli New Shekels. For disclosure purposes, Mr. Yanay's annual bonus award of ILS 150,000 has been converted from Israeli New Shekels to U.S. Dollars at the October 31, 2012 exchange rate of 3.910 Shekels per one U.S. Dollar.

Determination of 2012 Semi-Annual and Quarterly Target Bonus Amounts

In the first quarter of each fiscal year, the Compensation Committee sets quarterly bonus targets for each sales executive and semi-annual bonus targets for each non-sales executive, other than our CEO. For fiscal year 2012, Mr. Dumbrell received quarterly bonus targets and each of Messrs. Dykes, Liu and Yanay received semi-annual bonus targets. Messrs. Dykes, Liu and Yanay's semi-annual bonus targets are awarded based solely on performance-based goals established by the Compensation Committee and performance-based objectives recommended to the Compensation Committee by the CEO. Approximately 90% of the quarterly bonus targets of Mr. Dumbrell, which we refer to as performance target bonus in the below table, is awarded if performance-based goals established by the Compensation Committee for the quarter are met. The remaining 10% of such bonus targets, which we refer to as individual bonus in the below table, is not based on pre-set objectives, but rather is awarded if Mr. Dumbrell has met or exceeded the expectations of our CEO based on our CEO's subjective review of Mr. Dumbrell's individual performance during the quarter.

For fiscal year 2012, 60% of the semi-annual performance bonus for each of Messrs. Dykes, Liu and Yanay was based on the corporate financial performance metrics and 40% of such bonus was measured on each named executive achieving personal performance objectives specific to the areas of responsibilities and the organization managed by each such named executive. For Mr. Dykes, this included continued efforts toward integration of acquired businesses, implementing cost-savings and expense-control measures, development of the finance organization and infrastructure in-line with our growth, and implementing process improvements. For Mr. Liu, the primary achievements were strong execution on corporate development initiatives and strategic transactions, continued efforts toward integration of acquired businesses, managing corporate development initiatives and implementing business process enhancements. For Mr. Yanay, personal performance objective measures were achievement of operational efficiencies, continued efforts toward integration of the operations of acquired businesses, including the Hypercom and Point businesses, and effecting additional cost-savings and operational synergies.

For Mr. Dumbrell, quarterly performance target bonus was based on (1) the corporate financial performance metrics, (2) the contribution by his business unit to our operating income for the quarter, referred to as the contribution margin and (3) the gross margin achieved by his business unit for the quarter. For fiscal year 2012, 30% of each of Mr. Dumbrell's quarterly performance target bonus was based on achievement of the corporate financial performance metrics, 30% was based on achievement of the contribution margin targets, 30% was based on achievement of gross margin targets and 10% was allocated based on discretionary qualitative criteria. The business unit's gross margin and contribution margin targets for each fiscal quarter were determined based on specific business unit level gross margin and contribution margin improvements built into our company-wide plan and year-over-year growth goals. Contribution margin and gross margin targets achieved between 80% and 100% of contribution margin goals, result in a reduced payout of the portion of the performance-based quarterly bonuses attributed to such goals. Mr. Dumbrell's performance-based bonus could also exceed 100% of the target performance-based quarterly bonus if his business units contributed in excess of 100% of his performance-based goal.

The Compensation Committee approved the following target bonuses for fiscal year 2012 for the named executives:

Named Executive	First Half of Fiscal Year 2012		Second Half of Fiscal Year 2012		Total

Similarly, the Compensation Committee determined that the fourth fiscal quarter 2012 cash bonus for Mr. Dumbrell would be awarded in the form of a performance-based award of restricted stock units of equivalent value in lieu of cash payment. Such equity awards vest at the one-year anniversary of their grant date, subject to VeriFone's achievement of a minimum non-GAAP net income per share target fiscal year 2013 and the named executive's continued employment with VeriFone on the vest date.

For fiscal year 2012, Mr. Dumbrell's achievement of these targets, rounded to the nearest tenth percentile, were 100th percentile for both contribution margin and for gross margin in Q1; 110th percentile for both contribution margin and for gross margin in Q2; 100th percentile for both contribution margin and for gross margin in Q3; and 80th percentile for contribution margin and 100th percentile for gross margin in Q4. The individual bonus amounts paid to Mr. Dumbrell for fiscal year 2012 were achieved at 100% based on our CEO's subjective review of Mr. Dumbrell's individual performance, which took into consideration, among other factors, staff management and development and management of customer relationships. The performance bonus awards for Mr. Dumbrell for the first, second and third fiscal quarters of 2012 were paid in cash. For his fourth fiscal quarter 2012 cash bonus award, Mr. Dumbrell received an award of 1,040 shares of restricted stock units, granted on January 2, 2013, in lieu of cash. Such award vests on the one-year anniversary of the grant date subject to VeriFone's achievement of a minimum non-GAAP net income per share target fiscal year 2013 and Mr. Dumbrell's continued employment with VeriFone on the vest date.

Additional Discretionary Bonus

At the end of the fiscal year, the Compensation Committee also evaluated each named executive's performance for extraordinary performance exceeding expectations or significant increase in level of responsibility to determine whether to award any additional discretionary bonus. For fiscal year 2012, the Compensation Committee did not award any additional discretionary bonus to any named executive.

Short- and Long-Term Equity Incentive Compensation

On an annual basis, the Compensation Committee determines whether to make equity incentive awards to each named executive, with the exception of our Chief Executive Officer, whose employment agreement provides that he will receive an annual equity award unless otherwise determined by the Board. See *Employment-Related Agreements with Named Executives* *Employment Agreement with our Chief Executive Officer* above.

Amount of Incentive Compensation. The amount of equity incentive compensation and mix between short- and long-term equity grants (with short-term generally referring to awards that may be achieved or vest within one year and long-term generally referring to performance targets or vesting in excess of one year), if any, awarded each year to the named executives, other than our Chief Executive Officer, is determined by the Compensation Committee in consultation with our Chief Executive Officer after taking into account our overall compensation program objectives. These grants are intended to serve as incentives for our named executives to remain with us, continue performance at levels consistent with our corporate objectives and to tie a substantial amount of their overall compensation to the long-term performance of our common stock. In making awards of options and restricted stock units for our named executives, the Compensation Committee determined that allocating a substantial portion of total compensation for each of the named executives in the form of these awards aligns the interests of each of our named executives with the interests of our stockholders. The Compensation Committee has determined that the value of equity awards for purposes of the incentive compensation determination should be based on the value of the underlying common stock on the date of grant.

Mix of Awards. We view stock options as a way to link the compensation of our named executives directly to value creation for our stockholders, because the amount that a named executive realizes from stock options depends solely on the increase in value of our common stock from the grant date of the option. We view restricted stock units, which are an unsecured promise to deliver shares of our common stock, as a method to economically place each recipient of a restricted stock unit in the same position as a stockholder because the amount that a recipient ultimately receives from a restricted stock unit depends on the actual value of shares of common stock when the shares underlying the restricted stock units are delivered. In addition, more recently, we have used performance-based equity awards as a means to incentivize achievement of specific corporate objectives. The Compensation Committee considers all of these alternatives in determining the appropriate mix of equity awards to achieve the proper allocation of performance and retention incentives.

Vesting of Long-Term Incentives. Generally stock options granted with time-based vesting become exercisable as to 25% of the grant one year after the grant date and as to the remainder of the grant in equal quarterly installments over the following three years. The stock option life is seven years from the date of grant and offers named executives the right to purchase the stated number of shares of our common stock at an exercise price per share determined on the date of grant. Stock options have value only to the extent the price of our shares on the date of exercise exceeds the applicable exercise price. The exercise price is the fair market value of our common stock based on the stock closing price, as traded on the NYSE, on the grant date.

Table of Contents

Stock options granted with performance-based criteria are earned upon achievement of one or more specified performance target and become exercisable over a preset vesting schedule, usually within one year of the date the option award is granted.

Restricted stock units that are granted with time-based vesting generally vest as to 25% of the grant one year after the grant date and as to the remainder in equal quarterly installments over the following three years and upon vesting, shares of our common stock are deliverable on a one-for-one basis. Restricted stock units granted with performance-based criteria vest upon achievement of one or more set targets on the specified target date, usually within one year of the date the award is granted, and are forfeited if the targets are not met as specified.

Accounting Considerations. All equity grants are accounted for in accordance with Financial Accounting Standards Board (FASB) ASC Topic 718, *Share-Based Payment*. The Compensation Committee did not attribute significant weight to the stock-based compensation charges that would be recorded for accounting purposes for the grants of options and restricted stock units granted to our named executives in light of the fact that these items do not directly relate to the achievement of our compensation objectives.

Equity Grant Procedures. Equity awards to our employees are generally awarded only on dates that the Compensation Committee meets. As a result of this procedure, we have generally awarded equity grants to our named executives based on and immediately following an annual review of employee equity awards, except in the case of our Chief Executive Officer who has in the past received equity awards as part of his employment agreement. For fiscal year 2012, the annual review for our named executives, including our Chief Executive Officer, was completed in December 2011. The grant date is set as the first trading day of the month following Board approval of the equity award.

Fiscal Year 2012 Equity Incentive Determinations

In December 2011, following its evaluation of short- and long-term incentive plan practices and market trends, including the report by an executive compensation consultant retained by our Compensation Committee, as described above in this CD&A under *Determination of Compensation*, our Compensation Committee granted each of our named executives a short-term performance-based equity award with vesting on the first anniversary of grant contingent upon our achievement of a pre-set financial metric and a long-term equity award that time vests over four years. Messrs. Dykes, Liu and Dumbrell received their awards in the form of stock option grants and Mr. Yanay received his award in the form of restricted stock units. The Compensation Committee determined to continue to structure certain named executive equity awards as restricted stock units rather than stock options as a means to encourage executive ownership of VeriFone stock, consistent with the stock ownership guidelines implemented for our executives during fiscal year 2011. In addition to peer group data and market practices, the Compensation Committee also took into consideration the value of unvested equity awards held by each named executive and the exercise prices of the equity awards held by our named executives in determining what level of equity award would appropriately incentivize each named executive.

Each of Messrs. Dykes, Liu and Yanay's short-term performance-based equity award vests on the first anniversary of the grant date if our fiscal year 2012 non-GAAP net income per share is at or above a target set by the Compensation Committee in December 2011, and is forfeited if the fiscal year 2012 non-GAAP net income per share is below such target. For Mr. Bergeron, one-half of the short-term performance-based equity awards vest on the first anniversary of the grant date if our fiscal year 2012 non-GAAP net income per share is at or above the target set by the Compensation Committee in December 2011 and one-half of the short-term performance-based equity awards vest on the first anniversary of the grant date if the Board determines that we have successfully integrated certain of our recently acquired businesses. Mr. Dumbrell's performance-based equity award vests on the first anniversary of the grant date if he meets or exceeds the internal organic revenue and contribution margin targets set by the Board for his business unit as to one-half of the award and if Mr. Dumbrell submits and receives the Board's approval for a fiscal year 2013 operating plan for his business unit that includes revenue growth at a preset internal target percentage as to one-half of the award. The long-term equity awards granted with time-based vesting vests as to 25% of the grant approximately one year after the grant date and as to the remainder in equal quarterly installments over the following three years.

	Performance- Based Stock Option Award (Shares) (1), (2)	Stock Option Award with Time-Based Vesting (Shares) (1), (2)	Performance- Based Restricted Stock Unit Award (Shares) (1), (2)	Restricted Stock Unit Award with Time-Based Vesting (Shares) (2)
Douglas G. Bergeron (3)	361,000	186,000		
Robert Dykes (4)	34,200	34,200		
Jeff Dumbrell (5)	24,800	24,800		
Albert Liu (4)	51,300	51,300		
Eliezer Yanay (4)			20,600	20,600

- (1) For fiscal year 2012, we achieved the non-GAAP net income per share target set by the Compensation Committee in December 2011 for the performance-based equity awards. For further information on these equity incentive awards see *Grants of Plan-Based Awards* below.
- (2) In the first quarter of fiscal year 2012, the Compensation Committee engaged Compensia to prepare assessments of short and long-term equity incentive grant trends and practices as part of Compensia's assessment of our overall executive compensation program and competitiveness of our program. The Compensation Committee also reviewed and considered the value of each named executive's equity holdings. Based on its review, the Compensation Committee determined that some component of long-term equity incentive awards to named executives should be in the form of restricted stock units and/or stock options. Further, the Compensation Committee determined that of these equity awards, for our Chief Executive Officer approximately two-thirds should be contingent on performance and for the other named executives, approximately 50% should be contingent on performance, with the remaining equity awards based on time-based vesting, in order to incentivize and retain the named executives while aligning pay with shareholder value. In general, as to each named executive, the Compensation Committee placed significant weight on a value-based approach for equity awards. For fiscal year 2012, prior to the grant of such award, each named executive was given a choice to elect to receive their equity award either in the form of restricted stock units or the equivalent value in the form of stock options, in each case with value determined by the Compensation Committee based on peer group data as further described below. Each named executive elected to receive their equity award for fiscal year 2012 in the form of stock options, except for Mr. Yanay, who elected to receive his equity award in the form of restricted stock units.
- (3) In setting the fiscal year 2012 short- and long-term equity grants awarded to Mr. Bergeron, the Compensation Committee relied mainly on peer group and market data and pay-for-performance analysis prepared and presented by Compensia as part of its assessment of the competitiveness of our chief executive officer compensation program. The Compensation Committee took into account that our one- and three-year total shareholder return, financial performance, market capitalization growth were generally in the top half compared to peer group companies, including one-year total shareholder return at the 100th percentile compared to peer group companies. The Compensation Committee also considered our overall performance, and Mr. Bergeron's continued strong performance in his role as our chief executive, particularly Mr. Bergeron's deep understanding and knowledge of the payments industry and execution on key strategic and transformational initiatives, including the key role Mr. Bergeron was expected to have in the successful completion of the then-pending acquisition of Electronic Transaction Group Nordic Holding AB, a Swedish company operating the Point International business. The Compensation Committee was also mindful that Mr. Bergeron's total cash compensation had remained the same since fiscal year 2010 and remained at less than the 50th percentile of peer group companies. Taking into consideration all these factors, for fiscal year 2012, the Committee determined to set Mr. Bergeron's equity awards at the 100th percentile compared to peer group companies.
- (4) In setting the fiscal year 2012 short- and long-term equity grants awarded to Messrs. Dykes, Liu and Yanay, the Compensation Committee relied mainly on peer group and market data and pay-for-performance analysis prepared and presented by Compensia as part of its assessment of the competitiveness of our executive compensation program. For Messrs. Dykes, Liu and Yanay, the Compensation Committee gave considerable weight to the evaluation by Mr. Bergeron of each named executive's contributions to their areas of responsibilities and organizational and corporate-wide initiatives as well as our performance compared to peer group companies.
- (5) In setting the fiscal year 2012 short- and long-term equity grants awarded to Mr. Dumbrell, the Compensation Committee relied mainly on peer group and market data and pay-for-performance analysis prepared and presented by Compensia as part of its assessment of the competitiveness of our executive compensation program. In particular, the Compensation Committee took into account our recent growth, including through strategic acquisitions internationally in Mr. Dumbrell's region and the increased level of responsibility associated with

our expansion into new geographic regions or markets, in each case based on input from Mr. Bergeron.

- (1) Amounts shown in this column reflect the aggregate grant date fair value of these restricted stock unit awards as computed in accordance with FASB ASC Topic 718 and do not reflect whether the recipient has actually realized a financial benefit from the awards (such as by vesting in a restricted stock unit award). For information on the valuation of these amounts, refer to *Stockholders' Equity* of the notes to consolidated financial statements included in our Annual Report on Form 10-K filed with the SEC for the fiscal year ended October 31, 2012. See the *Grants of Plan-Based Awards* table below for information on awards made in fiscal year 2012.
- (2) Amounts shown in this column reflect the aggregate grant date fair value of stock option grants as well as any modification charge in each case computed in accordance with FASB ASC Topic 718 and do not reflect whether the recipient has actually realized a financial benefit from the awards (such as by exercising stock options). This column represents the total dollar amount that would be recognized as stock-based compensation for financial statement reporting purposes over the term of the stock option grants. The fair value was estimated using the Black-Scholes option pricing model in accordance with FASB ASC Topic 718. Pursuant to SEC rules, amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. For information on the valuation assumptions used for the calculation of these amounts, refer to *Stockholders' Equity* of the notes to consolidated financial statements included in our Annual Report on Form 10-K filed with the SEC for the fiscal year ended October 31, 2012.
