PROXY STATEMENT

General

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the Board) of BioCryst Pharmaceuticals, Inc. (BioCryst or the Company) for the Annual Meeting of Stockholders of the Company to be held at our corporate offices at 4505 Emperor Blvd., Suite 200, Durham, NC 27703 on Friday May 31, 2013 at 3:00 p.m., Eastern Daylight Time, and any adjournment thereof (the Meeting) and for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders.

In this document, the words BioCryst , the Company we, our, ours and us refer only to BioCryst Pharmaceuticals, Inc. and not any other person or entity.

We are taking advantage of Securities and Exchange Commission (SEC) rules that allow us to deliver proxy materials to our stockholders on the Internet. Under these rules, we are sending our stockholders a one-page notice regarding the Internet availability of proxy materials instead of a full printed set of proxy materials. Our stockholders will not receive printed copies of the proxy materials unless specifically requested. Instead, the one-page notice that our stockholders receive will tell them how to access and review on the Internet all of the important information contained in the proxy materials. This notice also tells our stockholders how to submit their proxy card on the Internet and how to request to receive a printed copy of our proxy materials. We expect to provide notice and electronic delivery of this proxy statement to such stockholders on or about April 15, 2013.

Purpose of the Meeting

The matters to be considered at the Meeting are:

1. To elect the two directors nominated in this proxy statement to serve for a term of three years and until a successor is duly elected and qualified;
2. To ratify the selection of Ernst & Young LLP as our independent registered public accountants; and
3. To transact such other business as may properly come before the stockholders at the Meeting or any adjournment or postponement thereof.

Revocation and Voting of Proxies

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time prior to the voting thereof, by giving written notice to our Corporate Secretary at our principal executive offices, 4505 Emperor Blvd., Suite 200 Durham, NC 27703 or by voting in person at the Meeting. Attendance at the Meeting by itself will not, by itself, revoke a proxy. All valid, unrevoked proxies will be voted as directed. In the absence of any contrary directions, proxies received by the Board will be voted as follows:

FOR the election of each of the nominees named in this proxy statement for director of the Company; and

Edgar Filing: BIOCRYST PHARMACEUTICALS INC - Form DEF 14A

FOR ratification of the selection of Ernst & Young LLP as the Company's independent registered public accountants for 2013. With respect to such other matters as may properly come before the Meeting, in the discretion of the appointed proxies.

Voting and Quorum

Only holders of record (the Stockholders) of our common stock (the Common Stock) as of the close of business on April 5, 2013 (the Record Date) will be entitled to notice of and to vote at the Meeting. At April 5, 2013 there were 51,405,373 shares of Common Stock outstanding. Stockholders are entitled to vote in any one of the following ways:

1. In Person. Stockholders who choose to attend the Meeting can vote in person at the Meeting by presenting a form of photo identification acceptable to the Company.

Table of Contents

2. **By Internet.** Stockholders can vote on the Internet by following the instructions provided in the one-page notice regarding the Internet availability of proxy materials.

3. **By Mail.** Stockholders can vote by mail after requesting a paper copy of the proxy materials, including a proxy card, by following the instructions provided in the one-page notice regarding the Internet availability of proxy materials.

4. **By Telephone:** Stockholders can vote over the telephone using the toll-free telephone number obtained by accessing the website set forth in the instructions provided in the one-page notice regarding the Internet availability of proxy materials.

Each share of Common Stock is entitled to one vote on all matters on which Stockholders may vote. There is no cumulative voting in the election of directors. The presence, in person or by proxy, of a majority of the outstanding shares of Common Stock is necessary to constitute a quorum at the Meeting. Shares of Common Stock represented by a properly executed and returned proxy will be treated as present at the Meeting for purposes of determining the presence of a quorum without regard to whether the proxy is marked as casting a vote for or against, or withholding authority or abstaining with respect to a particular matter. In addition, shares of Common Stock represented by broker non-votes generally will be treated as present for purposes of determining the presence of a quorum. Broker non-votes are shares of Common Stock held in record name by brokers, banks or other nominees as to which a proxy is received and (i) instructions have not been received from the beneficial owners or persons entitled to vote, (ii) the broker or nominee does not have discretionary power and (iii) the record holder had indicated that it does not have authority to vote such shares on that matter.

Attending the Meeting

Stockholders as of the Record Date are invited to attend the Meeting. Stockholders must present a form of photo identification acceptable to the Company, such as a valid driver's license or passport. Registered holders may vote upon presentation of identification. Beneficial owners must obtain a proxy from their broker, bank or other holder of record and present it to the inspector of election with their ballot. The Meeting will begin promptly at 3 p.m., Eastern Daylight Time. Please allow ample time for the check-in procedures. Media may attend the Meeting by invitation only.

Required Votes, Abstentions, and Broker Non-Votes

Directors will be elected by a plurality of the votes cast. This means that the nominees with the most votes will be elected. Votes may be cast for or withheld from each nominee, but a withheld vote or a broker non-vote will not affect the outcome of the election of directors at the Meeting.

The affirmative vote of the holders of a majority of the Shares of Common Stock represented in person or by proxy at the Annual Meeting and entitled to vote on the proposal is required for approval of the ratification of our selection of Ernst & Young LLP as our independent registered public accountants. Abstentions with respect to these proposals will have the same effect as a vote against these proposals, and broker non-votes will have no effect upon these proposals.

Proxy Solicitation

We are making this proxy solicitation both through the mail and Internet, although proxies may be solicited by personal interview, telephone, facsimile, letter, e-mail or otherwise. Certain of our directors, officers and other employees, without additional compensation, may participate in the solicitation of proxies. We will pay the cost of this solicitation, including the reasonable charges and expenses of brokerage firms and others who forward solicitation materials to beneficial owners of the Common Stock. We have retained Morrow & Co., LLC, 470 West Ave, Stamford, CT 06902 to act as proxy solicitor in conjunction with the meeting. We have agreed to pay that firm approximately \$10,000, plus reasonable out of pocket expenses for their services.

Table of Contents**ITEMS TO BE VOTED ON****1. ELECTION OF DIRECTORS**

It is proposed to elect the two directors nominated in this proxy statement to serve until the annual meeting of stockholders in 2016, and until their successors have been duly elected and qualified. Proxies cannot be voted for more than two persons. Unless otherwise specified in the accompanying proxy, the shares voted by proxy will be voted FOR the election of the two persons listed for terms expiring in 2016. The Board expects that all of the nominees will be available for election but, if any of the nominees is not available, proxies received will be voted for substitute nominees to be designated by the Board or, if no such designation is made, proxies will be voted for a lesser number of nominees.

CORPORATE GOVERNANCE

Code of Business Conduct

We have a code of business conduct that applies to all of our employees as well as to each member of the Board. The code of business conduct is available on our website at www.biocryst.com under the Corporate Governance section. The Company intends to post on its website any amendments to, or waivers from, its code of business conduct. To date, there have not been any waivers by us under the code of business conduct.

Board of Directors

The Company is governed by a Board of Directors, which currently consists of nine directors as determined by resolution of the Board in accordance with the Company's Certificate of Incorporation. The Board has determined that eight of the nine current members of the Board (Abercrombie, Erck, Hutson, Jensen, Lee, Sanders, Higgins and Horovitz), are independent as defined by the Nasdaq Global Select Market, or Nasdaq. Mr. Higgins and Dr. Horovitz will no longer serve as directors after the Meeting, at which point the Board will consist of seven members. There are no family relationships among any of our directors or executive officers.

The Board has established the Audit, Compensation, and Corporate Governance and Nominating committees to assist in the oversight of the Company. The Board has adopted charters for each of these committees, which are posted on the Company's website at www.biocryst.com. The Company also makes available at its website its code of business conduct. Printed copies of these charters or the code of business conduct may be obtained, without charge, by contacting the Corporate Secretary, BioCryst Pharmaceuticals, Inc., 4505 Emperor Blvd., Suite 200, Durham, North Carolina 27703.

Board Leadership Structure

Dr. Horovitz currently serves as the Chairman of the Board. The Board has appointed Mr. Abercrombie to serve as Chairman of the Board upon Dr. Horovitz's retirement from the Board after the Meeting. The Chairman of the Board presides over the Board meetings and any executive session of the non-management directors. An executive session is held at every regularly scheduled Board meeting.

The Company's CEO is responsible for setting the Company's strategic direction and for the day-to-day leadership performance of the Company. The Company's independent Chairman provides input to the CEO and is responsible for presiding over the meetings of the Board and executive sessions of non-management directors. The Company believes that separating the roles of Chairman and CEO is the most appropriate leadership structure for the Company at this time, based on the current circumstances and direction of the Company and the membership of the Board, including the vast experience of our current and designated future Chairman of the Board in the pharmaceutical industry. This leadership structure permits the CEO to focus his attention on managing our business and allows the Chairman to function as an important liaison between management and the Board, enhancing the ability of the Board to provide oversight of the Company's management and affairs.

Risk Oversight

The Company does not view risk in isolation, but considers risk as part of its regular consideration of business strategy and business decisions. The Board oversees the Company's risk management function, either directly or through its committees. BioCryst approaches risk management by integrating its strategic planning, operational decision making and risk oversight and communicating risks and opportunities to the Board. The Board commits extensive time and effort every year to discussing and agreeing upon the Company's strategic plan, and it reconsiders key elements of the strategic plan as significant events and opportunities arise during the year. As part of the review of the strategic plan, as well as in evaluating events and opportunities that occur during the year, the Board and management also consider the risks relating to the strategic plan.

While the Board has primary responsibility for oversight of the Company's risk management, the Board's standing committees support the Board by regularly addressing various risks in their respective areas of oversight. Specifically, the Audit Committee assists the Board in fulfilling its oversight responsibilities with respect to risk management in the areas of financial reporting, internal controls and compliance with public

reporting requirements. The Compensation Committee assists the Board in fulfilling its risk management oversight responsibilities with respect to risks arising from compensation policies and programs. The Governance Committee assists the Board in fulfilling its risk management oversight responsibilities with respect to risks related to corporate governance matters. The Audit Committee is also responsible for reviewing, discussing and advising the Board with respect to our corporate compliance program and code of business conduct. For additional information related to the Compensation Committee's role in evaluating risks related to our executive compensation program, see Compensation Discussion and Analysis below.

The Company has a Compensation Committee, currently consisting of Mr. Erck, Mr. Abercrombie, Dr. Jensen and Dr. Sanders. The Compensation Committee is responsible for the annual review of officer compensation and other incentive programs. The Board has adopted a Compensation Committee Charter, available on the Company's website, that meets all applicable rules of Nasdaq and the SEC. The Compensation Committee members are independent directors as defined by Nasdaq. The Compensation Committee held four meetings during 2012. More information describing the Compensation Committee's processes and procedures for considering and determining executive compensation, including the role of consultants in determining or recommending the amount or form of director and executive compensation is included in under the heading Compensation Discussion and Analysis below.

Corporate Governance and Nominating Committee

The Company has a Corporate Governance and Nominating Committee consisting of Drs. Horovitz, Hutson and Jensen and Mr. Abercrombie. The Corporate Governance and Nominating Committee selects persons for election or re-election as directors and provides oversight of the corporate governance affairs and policies of the Board of Directors and the Company. The Board has adopted a Corporate Governance and Nominating Committee Charter, available on the Company's website, that meets all applicable rules of Nasdaq and the SEC. The Corporate Governance and Nominating Committee members are independent directors as defined by Nasdaq. The Corporate Governance and Nominating Committee met five times during 2012.

Selection of Board Nominees

The Corporate Governance and Nominating Committee will consider candidates for Board membership suggested by its members and other Board members, as well as management and stockholders. The Committee has established a procedure for submission of suggestions by stockholders and will consider candidates recommended in writing, including biographical information and personal references. All submissions by stockholders should be sent directly to the Chairman of the Board, Dr. Zola P. Horovitz (or George B. Abercrombie, after the Meeting), at 4505 Emperor Blvd., Suite 200, Durham, North Carolina 27703. The Chairman will provide copies of all submissions to the Committee for their consideration.

The Committee reviews all submissions and evaluates them based on predetermined selection criteria to identify prospective nominees. Once the Committee has identified a prospective nominee, the Committee makes an initial determination as to whether to conduct a full evaluation of the candidate. This initial determination is

Table of Contents

based on whatever information is provided to the Committee with the recommendation of the prospective candidate, as well as the Committee's own knowledge of the prospective candidate, which may be supplemented by inquiries to the person making the recommendation or to others. The preliminary determination is based primarily on the need for additional Board members to fill vacancies or expand the size of the Board and the likelihood that the prospective nominee can satisfy the evaluation factors described below. If the Committee determines, in consultation with the Chairman of the Board and other Board members as appropriate, that additional consideration is warranted, it may request additional information about the prospective nominee's background and experience. The Committee then evaluates the prospective nominee against our director selection criteria, including:

the ability of the prospective nominee to represent the interests of the stockholders of the Company;

the prospective nominee's standards of integrity, commitment and independence of thought and judgment;

the prospective nominee's ability to dedicate sufficient time, energy and attention to the diligent performance of his or her duties, including the prospective nominee's service on other public company boards; and

the extent to which the prospective nominee contributes to the range of talent, skill and expertise appropriate for the Board.

In evaluating candidates for Board membership, consideration is given to obtaining a diversity of experience and perspective within the Board. In considering diversity, we look at the entirety of the Board. Although we do not seek constituent or representational directors, the Committee considers the diversity of the Board whenever we are looking for a new director. The Committee and the Board evaluate the Board's diversity on a periodic basis as part of their review of the Board as a whole. For example, our Board conducts annual self-evaluations, which the Committee oversees, designed to solicit directors' views on a variety of topics, including whether directors as a whole have the appropriate mix of characteristics, business experience, background and tenure.

The Committee also considers such other relevant factors as it deems appropriate, including the current composition of the Board, the balance of management and independent directors, the need for Audit Committee expertise and the evaluations of other prospective nominees. In connection with this evaluation, the Committee determines whether to interview the prospective nominee, and if warranted, one or more members of the Committee, and others as appropriate, interview prospective nominees in person or by telephone. After completing this evaluation and interview, the Committee selects the director nominees for the next annual meeting of shareholders. The Committee recommended the nomination of each incumbent director whose term was expiring at the Annual Meeting for re-election to the Board of Directors.

Stockholder or Other Interested Party Communications

Stockholders or other parties interested in communicating directly with the Board, or specified individual directors, may do so by writing the Corporate Secretary, 4505 Emperor Blvd., Suite 200, Durham, North Carolina 27703. The Secretary will review all such correspondence and will regularly forward to the Board copies of all such correspondence that, in the opinion of the Secretary, relates to the functions of the Board or its committees or that the Secretary otherwise determines requires their attention. Directors may at any time review a log of all correspondence received by the Company that is addressed to members of the Board and request copies of such correspondence. Concerns relating to accounting, internal controls or auditing matters will immediately be brought to the attention of the Chairman of the Audit Committee and handled in accordance with procedures established by the Audit Committee with respect to such matters.

Stock Ownership Guidelines

We have adopted stock ownership guidelines for our directors to help ensure that they each maintain an equity stake in the Company and, by doing so, appropriately link their interests with those of stockholders. The guideline for non-employee directors is for each director to hold 10,000 shares of BioCryst stock. Non-employee directors are expected to achieve this ownership level within the later of three years of joining the Board or February 28, 2016.

Table of Contents**Director Attendance**

During 2012, the Board held fourteen meetings. Each member of the Board attended at least 75% of the meetings of the Board and committees of the Board of which he or she is a member. We encourage all members of the Board to attend the Annual Meeting of Stockholders. Our President and Chief Executive Officer, Jon P. Stonehouse, Mr. Lee and Mr. Abercrombie were each in attendance at the 2012 Annual Meeting of Stockholders.

Certain Relationships and Related Transactions

During 2012, other than a consulting agreement with Dr. Jensen described below, there were no relationships or related transactions requiring disclosure between the Company and any of its directors, executive officers or five percent stockholders. The Audit Committee Charter requires all related party transactions to be pre-approved by the Audit Committee. In 2012, the Company determined that it would benefit from a scientific consulting agreement with Dr. Jensen. Under the consulting agreement, Dr. Jensen received \$54,000. The consulting agreement expired on December 31, 2012.

COMPENSATION DISCUSSION AND ANALYSIS

Philosophy and Overview of Compensation

The Compensation Committee (referred to in this section as the Committee), of the Board of Directors has the responsibility for establishing, implementing and monitoring adherence with the Company's compensation philosophy. Our goal is to provide a compensation package that attracts, motivates and retains employees' talent and is designed to align employees' interest with the Company's corporate strategies, business objectives and the interests of the stockholders. We refer to the individuals who served as our Chief Executive Officer, or CEO, and Chief Financial Officer, or CFO, during 2012, as well as the other individuals included in the Summary Compensation Table, as our Named Executive Officers or NEOs. Those individuals are as follows:

Jon P. Stonehouse, who joined the Company in January 2007 as Chief Executive Officer and Director. He was also named President in July 2007.

Thomas R. Staab, II, who joined the Company in July 2011 as its Chief Financial Officer and Treasurer. He was also named Principal Accounting Officer in January 2013.

Yarlagadda S. Babu, Ph.D., who joined the Company in 1988 and was BioCryst's first full-time employee. Dr. Babu has served as the Company's Vice President - Drug Discovery since 1992.

William P. Sheridan, who joined the Company in July 2008 as its Senior Vice President and Chief Medical Officer.

David S. McCullough, who joined the Company in April 2007 as its Vice President, Strategic Planning, Commercialization and Corporate Development, and whose employment with the Company ended on December 15, 2012 as a part of a corporate restructuring. In accordance with Mr. McCullough's employment agreement, upon his termination, Mr. McCullough received twelve months salary, six months health insurance coverage under COBRA paid by the Company and \$3,000 of accrued vacation.

The Committee's primary objectives for our executive compensation program are as follows:

to have a substantial portion of each officer's compensation contingent upon the Company's performance as well as upon his or her own level of performance and contribution towards the Company's performance and long-term strategic goals;

to align the interests of our executives with the Company's corporate strategies, business objectives and the long-term interests of our stockholders; and

to attract, motivate and retain our executive talent.

Role of the Compensation Committee and Executive Officers

Edgar Filing: BIOCRYST PHARMACEUTICALS INC - Form DEF 14A

The Committee has the primary authority to determine the Company's compensation philosophy, assess overall Corporate performance for the year end and its impact on the bonus pool, options pool and base salary adjustment pool, and to establish compensation for the Company's executive officers. All employees in the Company are generally expected to participate in an annual performance review, which provides an assessment of the individual employee's performance and contributions toward the achievement of Company objectives. The Committee typically assesses the CEO's performance and contributions toward the achievement of Company's objectives. The Committee also reviews and approves the performance recommendations of the CEO with respect to the other Named Executive Officers and makes the compensation decisions for the other Named Executive Officers based in part on its considerations of the recommendations of the CEO.

Table of Contents

However for 2012 performance, the Committee determined that in light of setbacks to several Company programs during the year and the December 2012 restructuring, which resulted in the termination of approximately 50 percent of the Company's employees, and following management's recommendation, it would make general decisions on compensation rather than conducting individual performance reviews for 2012. In making these general decisions, the Committee considered the overall performance of the CEO and the other Named Executive Officers and determined compensation for all as further described below.

Role of Compensation Consultants

It is the practice of the Company to use a compensation consultant to perform an annual competitive compensation analysis of the Company's overall compensation practices. The overall analysis is conducted by LCG Group, and is focused on evaluating all positions within BioCryst, establishing appropriate organization levels within the Company and determining the competitive range of compensation, including both cash and stock, for each of the organization levels.

For executive positions, LCG Group conducted an updated analysis of competitive base salary, annual incentive targets and stock option grant levels based on the Radford Biotechnology Survey, a survey of the majority of the biotechnology companies across the country, focusing on comparable positions at approximately 125 comparably-sized companies with 50 to 149 employees. The results of this analysis were reviewed by the Committee in connection with its 2012 compensation decisions.

Role of the 2011 Advisory Vote on Executive Compensation

At our annual meeting in May 2011, our stockholders approved our say-on-pay proposal with more than 84% of the votes cast approving our executive compensation policies as described in our 2011 Proxy Statement filed on April 5, 2011. The Committee believes that this vote reflected stockholder agreement with the Committee's overall compensation philosophy, and therefore, the Committee continued to apply the same principles in determining the amounts and types of executive compensation for 2011. In light of setbacks to many of the Company's programs in 2012 and the Company's restructuring in December 2012, and following management's recommendation, the Committee enacted certain changes to executive compensation (described below) that the Committee believes are in keeping with its compensation philosophy and reflect the outcomes and impact to the Company in 2012. The Committee will continue to consider the outcome of stockholder say-on-pay votes in making future executive compensation decisions. Our next say-on-pay vote will take place at the 2014 annual meeting.

2012 Elements of Executive Compensation

The Company's 2012 compensation program for executive officers was primarily comprised of the following elements:

base salary;

annual incentive compensation;

stock option grants;

long-term equity incentive awards; and

other employee benefits.

Base Salary

The Company provides our Named Executive Officers and other employees with base salary to compensate them for services rendered during the fiscal year. In determining the base salary amount for each Named Executive Officer, the Committee primarily considers:

industry experience, knowledge and qualifications;

salary levels in effect for comparable positions within the Company's industry obtained from the Radford Biotechnology Survey; and

individual performance of the executive.

Table of Contents

The Company's compensation practice is to generally target the competitive 50th percentile for base salary, annual incentive and stock option grants. Base salary levels for our Named Executive Officers may fluctuate from the 50th percentile based on each Named Executive Officer's particular experience, performance and value to the Company. For example, high-performing, experienced Named Executive Officers may be paid at the 75th percentile, while newer Named Executive Officers may be paid at the 25th percentile. Base salary amounts are typically reviewed annually as part of the Company's performance review process as well as upon a promotion or other change in responsibility. To assist the Committee in determining appropriate base salary increases, LCG Group provided competitive base salary levels by updating the competitive data provided by the Radford Biotechnology Survey described in more detail above.

The results of the 2012 base salary increases for the Named Executive Officers were as follows:

For Mr. Stonehouse, who was hired as our CEO during 2007, the Committee established a base salary increase of 2.0% effective March 2012. In an effort to preserve the Company's capital, Mr. Stonehouse requested that he forgo his merit increase in 2012. In lieu of a base salary increase, the Committee approved a 2% merit increase in the form of a restricted stock grant, the amount and price of which was based on the stock price as of March 1, 2012. This resulted in a base salary of \$461,860, approximating between the 50th and 75th percentile.

Each of our Named Executive Officers other than Mr. Stonehouse received an increase in base salary of 1.5% to 5.0% in March 2012, primarily in recognition of the continuing advancement of the Company's clinical programs and key business milestones during 2011, and varying based on the individual performance of each Named Executive Officer during the year as well as the comparative base salary benchmarks, as described in more detail in the Company's 2012 Proxy Statement filed with the SEC on April 9, 2012.

Dr. Babu, our Vice President, Drug Discovery, was provided a base salary increase of 2.0% effective March 2012. This resulted in a base salary of \$331,540, at slightly above the 75th percentile.

Dr. Sheridan, who was hired as our Chief Medical Officer, or CMO, during 2008, was provided a base salary increase of 2.0% effective March 2012. This increase resulted in a base salary of \$406,660, at slightly above the 75th percentile.

For Mr. Staab, who was hired as our Chief Financial Officer, or CFO, in July 2011, the Committee established a base salary increase of 2.5% effective March 2012. This resulted in a base salary of \$376,200, at slightly above the 75th percentile.

Mr. McCullough, who served as our Vice President, Strategic Planning, Commercialization and Business Development from 2007 until his departure from the Company in December 2012, was provided a base salary increase of 5.0% effective March 2012. This resulted in a base salary of \$283,820, slightly below the 25th percentile.

As described above, 2013 base salary determinations were not based on individual performance reviews. Instead, the Committee determined that in light of the Company's 2012 performance and the December 2012 restructuring, under which approximately 50% of the Company's employees were terminated, and following management's recommendation, it was in the best interest of the Company to provide a 3% increase in base salary to all remaining employees, including each of our Named Executive Officers. The Committee believed that in light of the substantial tasks facing the remaining employees, maintaining overall competitive levels of compensation is imperative to appropriately incentivize and retain the remaining employees, who the Committee believes have the appropriate skills to ensure the future success of the Company.

The results of the 3% base salary increase for the Named Executive Officers are as follows:

For Mr. Stonehouse the increase resulted in a base salary of \$475,716, approximating between the 50th and 75th percentile.

For Dr. Babu the increase resulted in a base salary of \$341,486, approximating the 75th percentile.

For Dr. Sheridan the increase resulted in a base salary of \$418,860, at slightly above the 75th percentile.

For Mr. Staab the increase resulted in a base salary of \$387,486, at slightly above the 75th percentile.

Annual Incentive Compensation (AIP)

It is the Committee's objective to have a substantial portion of each officer's compensation contingent upon the Company's performance as well as upon his or her own level of performance and contribution towards the Company's performance. In light of the Company's 2012 performance, the December 2012 restructuring described in more detail above, and following management's recommendation, the Committee determined that no AIP awards would be made for 2012 performance.

Long-Term Equity Incentive Awards

The Company's officers, along with all other Company employees, are eligible to participate in the Company's periodic awards of stock options and other stock grants under the Company's Stock Incentive Plan. These awards are designed to:

enhance the link between creation of stockholder value and long-term executive compensation;

provide an opportunity for increased equity ownership by executives, which increases the alignment of the financial interests of our executive officers and our stockholders; and

maintain competitive levels of total compensation.

The Committee has historically granted equity awards to all employees and executives on an annual basis. The overall grant pool is established based, in part, on a review of competitive stock option grant levels by organizational level and the number of employees at each level using competitive data provided by the Radford Biotechnology Survey. The Committee also considers the current value of the Company's stock, assessed in December of each year. A grant range is established for each organizational level, with target grants set at roughly the 50th percentile based on the Radford Biotechnology Survey data, to ensure competitive compensation and promote executive retention and recruitment and grant opportunities varying based on individual performance.

In March 2011, based on a review of benchmarking data from LCG Group on competitive data provided by the Radford Biotechnology Survey, the Committee approved changes to the Long-Term Equity Incentive program. Beginning with the March 2011 equity grants, employees would receive a mix of stock options (75%) and restricted stock (25%), based on value of the grants, with the specific amount of grants awarded dependent upon individual performance ratings and organization level.

In March 2012, based on the Committee's performance review of each NEO with respect to his 2011 performance, which is described in detail under the heading "Annual Incentive Compensation" in the Company's 2012 Proxy Statement filed with the SEC on April 9, 2012, the Committee awarded stock option and restricted stock award grants as follows: Mr. Stonehouse, options to purchase 184,000 shares of common stock and 31,300 shares of restricted stock, plus an additional 1,953 shares of restricted stock in lieu of his merit increase as described under "Base Salary" above; Mr. Staab, options to purchase 31,000 shares of common stock and 5,600 shares of restricted stock (prorated to reflect only a partial year of performance and his start date in mid year in 2011); Dr. Babu, options to purchase 62,000 shares of common stock and 11,200 shares of restricted stock; Mr. McCullough, options to purchase 50,000 shares of common stock (none of which vested due to his termination) and 8,500 shares of restricted stock (none of which vested due to his termination); and Dr. Sheridan, options to purchase 50,000 shares of common stock and 8,500 shares of restricted stock. Additionally, the Committee determined that it was in the best interest of the Company to grant, as a retention award, options to purchase 100,000 shares of common stock, with a three year cliff vesting date, to Dr. Sheridan.

In determining the long-term equity incentive awards for 2012 performance, the Committee reviewed the compensation for the remaining employees of the Company and determined that providing equity awards to all employees and executives remains important to increase the alignment of the financial interests of the Company's remaining employees and stockholders. In addition, the Committee believed that in light of the substantial tasks facing the remaining employees, maintaining overall competitive levels of compensation is imperative in order to appropriately incentivize and retain the remaining employees who the Committee believes have the appropriate skills to ensure the future success of the Company. Therefore, in January 2013, the

Table of Contents

Committee determined that every employee in the Company would be granted the target amount for their organization level of stock options and restricted stock that were granted to employees at their current organization level in March 2012.

In January 2013, based on the long-term equity incentive award determination described above, the Committee awarded: to Mr. Stonehouse, options to purchase 184,000 shares of common stock and 31,300 shares of restricted stock; to Mr. Staab, options to purchase 50,000 shares of common stock and 8,500 shares of restricted stock; to Dr. Babu, options to purchase 50,000 shares of common stock and 8,500 shares of restricted stock; and to Dr. Sheridan, options to purchase 50,000 shares of common stock and 8,500 shares of restricted stock.

These stock options and restricted stock awards granted under the Stock Incentive Plan have a four-year 25% annual vesting schedule to provide a long-term incentive for continued employment. The options expire ten years after the date of the grant. This provides a reasonable time frame during which the executive officers and other employees who receive grants can benefit from the appreciation of the Company's shares. The exercise price of options granted under the Stock Incentive Plan cannot be less than 100% of the fair market value of the underlying stock on the date of grant.

Retention Program

The Compensation Committee periodically evaluates whether we are at risk of losing the services of any of our Named Executive Officers and other key personnel who we believe are critical to the success of our business. To ensure that we retain the employment of our Named Executive Officers and other key personnel who we believe may be at particular risk of voluntarily terminating employment, the Compensation Committee from time to time awards cash bonuses, shares of restricted stock or stock options to further our retention objectives and promote a commonality of interests with shareholders. In determining whom to award, and the number of shares of restricted stock or stock options to be awarded, the Compensation Committee considers the current stock and equity-based award holdings of each Named Executive Officer or other key personnel under consideration.

In 2012, the Compensation Committee determined that as a result of recent events and the December 2012 restructuring, there was significant risk of losing NEOs and other employees, all of whom are critical to the success of the business. Consequently in January 2013, the Compensation Committee awarded all employees additional stock options and shares of restricted stock, equal to the amounts that were granted by the Company in March of 2012 to recipients at the employee's current organization level. Each employee was provided with stock options and shares of restricted stock with a two year vesting schedule for these retention awards, except the retention award provided to Mr. Stonehouse included a four year vesting schedule.

In January 2013, based on the Committee's determination described above the Committee awarded: to Mr. Stonehouse, options to purchase 184,000 shares of common stock and 31,300 shares of restricted stock; to Mr. Staab, options to purchase 50,000 shares of common stock and 8,500 shares of restricted stock; to Dr. Babu, options to purchase 50,000 shares of common stock and 8,500 shares of restricted stock; and to Dr. Sheridan, options to purchase 50,000 shares of common stock and 8,500 shares of restricted stock.

Clawback Policy

In January 2013, our Board implemented a clawback policy. The policy provides that in the event of material noncompliance with financial reporting under the securities laws, we may recover (in whole or in part) any performance based incentive payments and equity-based performance awards received by our named executive officers three years prior to a material financial restatement, if the Board determines that such executive officer was personally involved in misconduct with respect to material noncompliance that led to the restatement and that such incentive payment or equity-based performance award would have been lower had they been calculated based on the restated results.

Other Elements of Compensation

In order to attract and retain key talent and pay market levels of compensation, we offer broad-based retirement, health and welfare employee benefits to our eligible employees, including our Named Executive Officers, subject to the terms and conditions of each benefit program. Our Named Executive Officers are eligible to participate in these benefits on the same basis as other full-time employees.

Table of Contents

Medical Insurance. The Company makes available to eligible employees and their dependents group health, dental and vision insurance coverage.

Life and Disability Insurance. The Company makes available disability and life insurance at coverage levels based upon the employee's level of compensation. In addition, as part of Mr. Stonehouse's employment agreement, he is entitled to have either a \$1 million life insurance policy payable to his beneficiary upon death, or, if there is no policy in place, we are required to pay his beneficiary \$1 million. An insurance policy was in place at December 31, 2012.

Defined Contribution Plan. The Company offers a retirement plan designed to meet the requirements under Section 401(k) of the Internal Revenue Code. The 401(k) plan permits eligible employees to defer up to 100% of their annual eligible compensation, subject to certain limitations imposed by the Internal Revenue Code. Employee elective deferrals are immediately vested and non-forfeitable. The Company makes matching contributions equal to the first 5% of the employee elective deferrals, which vest over a period not to exceed six years.

Stock Purchase Plan. The Company sponsors a broad-based employee stock purchase plan (the "ESPP"), designed to meet the requirements under Section 423 of the Internal Revenue Code. The ESPP permits employees to purchase Company stock at a discount through payroll deductions. ESPP participants are granted a purchase right to acquire shares of common stock at a price that is 85% of the stock price on either the first day of the stock purchase period or the last day of the stock purchase period, whichever is lower. The purchase dates occur on the last business days of January and July of each year. To pay for the shares, each participant may authorize periodic payroll deductions from 1% to 15% of the employee's cash compensation, subject to certain limitations imposed by the Internal Revenue Code. In addition, no employee may purchase more than 3,000 shares in each purchase period and/or \$25,000 in each calendar year. All payroll deductions collected from the participant during the purchase period are automatically applied to the purchase of common stock on the dates indicated above provided the participant remains an eligible employee and has not withdrawn from the ESPP prior to the purchase date.

Other. The Company makes available certain other fringe benefits to executive officers that are the same as are made available to its other employees, such as tuition reimbursement and payment of professional dues. The aggregate amount of these benefits was less than \$10,000 for each NEO during 2012.

Executive Relocation Policy. In November 2007, the Board approved the Committee's recommended adoption of an Executive Relocation Policy (the "Relocation Policy") for certain new employees of the Company, including executive officers. The Relocation Policy provides for a house hunting trip, temporary living and trips home for up to 90 days, home selling support or direct reimbursement for some selling expenses, moving costs and temporary storage of goods, customary closing expenses on the new home, a miscellaneous allowance of one month's salary, not to exceed \$5,000, and gross up of all taxable expenses. The Relocation Policy requires 100% repayment of benefits if the employee leaves or is terminated for cause within 12 months from the hire date.

Employment Agreement of CEO

Mr. Stonehouse entered into a one-year employment agreement with the Company on January 5, 2007 that automatically renews for successive annual terms. Mr. Stonehouse's minimum annual compensation is \$400,000 with the potential to earn a cash bonus of up to \$300,000 based on the Company's achievement of performance related goals. In addition, Mr. Stonehouse is entitled to receive reasonable vacation, sick leave, medical benefits, \$1,000,000 of life insurance during the term of his employment, participation in profit sharing or retirement plans, payment of fees for his participation in the advisory council at Duke University, and reimbursement for reasonable attorneys' fees incurred in connection with the negotiation of his employment agreement. His agreement also provided for stock option and restricted stock awards. The termination and change in control provisions of Mr. Stonehouse's agreement are set forth under the heading "Potential Payments Upon Termination or Change in Control."

Employment Agreements of Other Named Executive Officers

Under Mr. Staab's agreement, he is entitled to a base salary of \$370,000 and is eligible for an annual cash bonus of up to 30% of his base salary. The termination and change in control provisions of Mr. Staab's agreement are set forth under the heading "Potential Payments Upon Termination or Change in Control."

Table of Contents

Under Dr. Sheridan's agreement, he is entitled to a base salary of \$375,000 and a bonus based on a target amount equal to at least 25% of his base compensation. Dr. Sheridan was also provided with relocation assistance under the Relocation Policy consisting of temporary housing for up to six months and payment of certain moving expenses. The termination and change in control provisions of Dr. Sheridan's agreement are set forth under the heading Potential Payments Upon Termination or Change in Control.

Under Dr. Babu's agreement, he is entitled to a base salary of \$331,540 and a bonus based on a target amount equal to at least 30% of his base compensation. The termination and change in control provisions of Dr. Babu's agreement are set forth under the heading Potential Payments Upon Termination or Change in Control.

The stock option provisions for the other Named Executive Officers are the same as all other employees. In the event of termination of service other than on account of death or disability, each executive has three months to exercise any options exercisable prior to the termination in service. In the event of permanent disability, the executive will be able to exercise all outstanding options vested at the time of such disability in their entirety within the earlier of 12 months or the expiration of the option. In the event of death, the executor of his estate will be able to exercise all of the outstanding options in their entirety within the earlier of 12 months or the expiration of the option. If the executive has completed five years of service, all outstanding options vest in their entirety at death, but with less than five years of service only the portion of the option that was exercisable at the time of death will be exercisable during the 12 month period. As with all employees, if the executive is no longer an employee of the Company, but prior to the last date of employment continues service with the Company in another capacity, such as service as a consultant or service as a member of the Board of Directors, his outstanding options continue to vest and be exercisable until three months after separation from such service or expiration of the option.

Upon termination, each Named Executive Officer is entitled to receive amounts earned during the term of employment. These items are: accrued vacation pay, vested amounts payable under the Company's 401(k) plan, and the ability to exercise any outstanding vested stock options for a period of three months following the final date of employment.

In addition, upon death or disability, the executive, or beneficiary in the event of death, will receive benefits under the Company's disability benefit program or payments under a life insurance policy, as applicable.

The standard stock option terms for all optionees, including the Named Executive Officers, provides for full acceleration of vesting upon certain events. Full acceleration is automatic upon a change in control not approved by stockholders, such as: (i) acquisition of over 50% of the combined voting power of the Company, and (ii) change in composition of the Board over a period of 24 consecutive months or less such that a majority of the Board members ceases as a result of one or more contested elections. In the event of an acquisition such as: (i) a merger or consolidation, (ii) the sale, transfer or other disposition of all or substantially all of the assets of the Company in liquidation or dissolution of the Company, or (iii) any reverse merger in which the Company is the surviving entity but in which securities possessing more than 50% of the total combined voting power of the Company's outstanding securities are transferred to a person or persons different from the persons holding those securities immediately prior to such merger, then the unvested options of the optionees are accelerated unless the options are assumed by the acquiring company. These provisions are superseded by the provisions of the employment agreements of the Named Executive Officers, if applicable, as described under the heading Potential Payments Upon Termination or Change in Control.

Policy Regarding Tax Deductibility of Compensation

Section 162(m) of the Internal Revenue Code limits our ability to deduct compensation paid to certain of our Named Executive Officers (the covered employees) for tax purposes to \$1 million annually. Covered employees include our CEO and our next three highest paid executive officers, other than our principal financial officer. This limitation does not apply to performance-based compensation, provided certain conditions are satisfied. As part of its role, the Committee reviews and considers the deductibility of compensation with respect to Section 162(m) of the Internal Revenue Code. Options granted under the Stock Incentive Plan are expected to be fully deductible for federal income tax purposes. Compensation attributable to stock issuances or share right

awards under the Stock Incentive Plan may or may not qualify for the performance-based compensation exception, depending upon the specific terms of each grant. The application of Section 162(m) is complex and may change with time (with potentially retroactive effect). For 2012, the compensation paid in cash to the Company's executive officers did not exceed the \$1 million limit per officer.

Policy with Respect to Equity Compensation Awards

The Company grants all equity incentive awards based on the fair market value as of the date of grant. The exercise price for stock option grants and similar awards is determined by reference to the last quoted price per share on the Nasdaq Global Select Market at the close of business on the date of grant.

Risk Assessment of Compensation Programs

During the Company's proxy preparation process in the first quarter of 2013, management of the Company, together with the Company's compensation consultant and outside counsel and Compensation Committee, examined the Company's compensation program and discussed whether any elements of the program created risks that were reasonably likely to have a material adverse effect on the Company. Following this analysis, management concluded that the elements of the Company's compensation program did not create risks that are reasonably likely to have a material adverse effect on the Company. In its analysis, management considered a number of factors, including primarily: (1) the total value of the payments made under the Company's compensation program for the prior year and (2) that any corporate actions that would potentially lead to achievement of corporate performance objectives would require approval by the Company's Board of Directors, which provides a check on the ability of any individual to take risks that could have a material adverse effect on the Company in an effort to achieve a certain performance objective.

Table of Contents**POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL**

The following table sets forth potential payments payable to our Named Executive Officers upon termination of employment. The amounts include compensation payable upon voluntary or involuntary termination or retirement, termination following a change in control, and in the event of disability or death. None of the Named Executive Officers are entitled to any payments upon termination with cause. The Company's Annual Incentive Plan provides that if the employment of a participating employee is terminated as a result of death, retirement or permanent disability, the employee is eligible to receive a pro rata award based on his or her base salary on the date of separation during the plan year in which the employee was considered an active employee and the number of whole months actually worked. In all other circumstances, absent provisions to the contrary in an employment agreement, all awards are forfeited if an employee voluntarily or involuntarily terminates employment with the Company before the annual incentive awards are paid. The Company's Compensation Committee may in its discretion revise, amend or add to the benefits if it deems it advisable. The amounts shown assume the options are valued at their last intrinsic value in fiscal 2012 and that termination is effective December 31, 2012, and thus include amounts earned through such time and are estimates of the amounts which would be paid out to the executives upon their termination. The actual amounts to be paid out can only be determined at the time of such executive's separation from the Company. The amounts shown in the table do not include: accrued vacation, vested amounts payable under the Company's 401(k) plan, any accrued but unpaid bonus or base salary, or potential compensation recognized upon exercise of vested options as disclosed in the Outstanding Equity Awards table above. Upon termination from the Company Mr. McCullough received twelve months salary, six months health insurance coverage under COBRA paid by the Company \$3,000 of accrued vacation.

A description of the relevant provisions of the employment agreements of Messrs. Stonehouse, Staab and Drs. Sheridan and Babu is set forth below the table. A description of the benefits executive officers are entitled to upon death, retirement or disability under the AIP or under the terms of the Company's equity grants is included in Compensation Discussion and Analysis.

The Company will also pay the monthly premium for health insurance coverage under COBRA until the earlier of 12 months following the effective date of termination or the date upon which COBRA continuation coverage ceases. The receipt of such benefits is subject to his signing and not revoking a release of any and all claims against the Company, its officers, directors and employees, resigning from the Board, and returning to the Company all of its property and confidential information. Constructive Termination is defined as resignation of employment within 30 days of the occurrence of any of: (i) a reduction in his responsibilities or any change in his status or title with regard to his employment; (ii) a reduction in his base salary, unless such reduction occurs prior to a Change of Control (as defined below) and is made in connection with a fiscal downturn of the Company pursuant to which

Disability means the inability to perform his duties under the agreement by reason of physical or mental incapacity for 90 days, whether consecutive or not, during any consecutive 12 month period.

Mr. Staab

Pursuant to the terms of his employment letter agreement, in the event of termination by the Company without Cause, or if he resigns as a result of a material and adverse change in the Company's business within six months after the four year term of the agreement expires, Mr. Staab is entitled to (i) continuation of his base salary for one year beyond the effective termination date, payable in accordance with the regular payroll practices of the Company and (ii) payment of his target bonus in effect for the fiscal year of termination, payable in equal installments over the regularly scheduled payroll periods of the Company for the one year following the effective date of termination.
