ITC Forward-Looking Information

This document and the exhibits hereto contain certain statements that describe ITC Holdings Corp. ( ITC ) management s be future business conditions and prospects, growth opportunities and the outlook for ITC s business, including ITC s business a transmission industry based upon information currently available. Such statements are forward-looking statements within the Private Securities Litigation Reform Act of 1995. Wherever possible, ITC has identified these forward-looking statements by very statements.

anticipates , believes , intends , estimates , expects , projects and similar phrases. These forward-looking statements assumptions ITC management believes are reasonable. Such forward-looking statements are subject to risks and uncertainties of cause ITC s actual results, performance and achievements to differ materially from those expressed in, or implied by, these states including, among other things, (a) the risks and uncertainties disclosed in ITC s most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q filed with the Securities and Exchange Commission (the SEC) from time to time and (b) the transactional factors (in addition to others described elsewhere in this document, in the prospectus included in the registration of Form S-4 that was filed by ITC with the SEC in connection with the proposed transactions): (i) risks inherent in the contemplational including: (A) failure to obtain regulatory approvals necessary to consummate the transaction or to obtain regulatory approval terms; (B) the ability to obtain the required financings; (C) delays in consummating the transaction or the failure to consummation transactions; and (D) exceeding the expected costs of the transactions; (ii) legislative and regulatory actions, and (iii) condition markets during the periods covered by the forward-looking statements.

Because ITC s forward-looking statements are based on estimates and assumptions that are subject to significant business, eccompetitive uncertainties, many of which are beyond ITC s control or are subject to change, actual results could be materially or all of ITC s forward-looking statements may turn out to be wrong. They speak only as of the date made and can be affected ITC might make or by known or unknown risks and uncertainties. Many factors mentioned in this document and the exhibits h annual and quarterly reports will be important in determining future results. Consequently, ITC cannot assure you that ITC s forecasts expressed in such forward-looking statements will be achieved. Actual future results may vary materially. Except as ITC undertakes no obligation to publicly update any of ITC s forward-looking or other statements, whether as a result of new future events, or otherwise.

The transaction is subject to certain conditions precedent, including regulatory approvals and the availability of financing. ITC any assurance that the proposed transactions related thereto will be completed, nor can it give assurances as to the terms on wh transactions will be consummated.

Actual

WACC

Effects

means

the

Fundamental shift in rate mitigation construct to ensure customer protection

ITC and Entergy bear risk until benefits of ITC ownership are calculated and demonstrated

Must deliver tangible and quantifiable benefits

Rate Mitigation Plan

Annual rate mitigation funds for first 5 years is based on estimated retail WACC effects

ETI: \$77 million (combination of wholesale rebates, retail bill credits and net avoided costs associated with Entergy System Agreement Transmission Equalization Payments)

Additional rate mitigation over first 3 years to offset the timing effects of moving

from a historical test year to a forward looking test year

ETI: \$13.1 million

Benefit test will be conducted in year 5

If the annual benefits under ITC ownership exceeds the annual Actual WACC Effects, rate mitigation ceases

If annual benefits under ITC ownership are less than annual Actual WACC Effects, rate mitigation continues until such time as annual benefits exceed the annual Actual WACC effects

Future rate mitigation will reflect the portion of the WACC effects not offset by the benefits achieved under ITC ownership

Entergy s responsibility for sharing in rate

mitigation

Test
in
year
5

ITC will submit results of Benefits Test to each jurisdiction

If annual benefit calculation exceeds annual Actual WACC Effects, rate mitigation ends

If annual benefit calculation is less than annual Actual WACC Effects, rate mitigation of the WACC effects continues (net of the percentage of annual Actual WACC Effects offset in the benefit calculation)

ITC may conduct additional Benefits Test(s) for any future annual period in order to demonstrate that annual benefits exceed annual WACC effects

If met, rate mitigation would cease

If not met, rate mitigation of the WACC effects continues (net of the percentage of annual Actual WACC Effects offset in the last benefit calculation)

ITC/Entergy Amended Proposed Commitments

Benefits Test

10

ITC/Entergy Amended Proposed Commitments Other

Commitment to securitize storm costs above \$100 million

Joint ITC and Entergy storm plans, vegetation management plans, and storm drills

Most Favored Nations Clause

ITC will operate in full compliance with all applicable legal and regulatory requirements

Access to ITC books and records

Designated ITC representative

Commitment to review any future rate filings in advance with PUCT

Funding of necessary PUCT litigation expenses to participate in ITC related matters

Abide by all applicable MISO conditions, subject to certain restrictions

Open, transparent, information sharing on capital investment program and rate posting

Solicit input and collaborate with PUCT on future transmission needs

Abide by state certification and siting authority

Submit report on transmission system needs, including congestion study

Commitment to local presence, use of local workforce, and civic and charitable support

No recovery of Goodwill

No recovery of ITC transaction costs, unless approved by FERC

No recovery of Entergy incremental costs associated with transaction

PUCT will determine ratemaking mechanism for ETI s recovery of ITC costs

ITC/Entergy Amended Proposed Commitments Addresses Key Stakeholder Concerns

The settlement proposal protects customers through ongoing rate mitigation and true-up until such time there is a demonstration of benefits under ITC ownership, validated by an independent 3 rd party

Customers will achieve and realize system performance improvements, improved system economics and other not easily quantifiable benefits

ITC and Entergy committed to ensuring joint coordination and response to catastrophic events

Jurisdiction continues to have extensive participation, review and authority, including participation in ITC s and MISO s planning processes, siting authority, service quality requirements

ITC commitments demonstrate its dedication to work with all stakeholders 12
