It is important to note that Actavis's goals and expectations are not predictions of actual performance. Actual results may differ materially from Actavis's current expectations depending upon a number of factors, risks and uncertainties affecting Actavis's business. These factors include, among others, the inherent uncertainty associated with financial projections; restructuring in connection with, and successful close of, Actavis's acquisition of Warner Chilcott (the Acquisition); subsequent integration of the Acquisition and the ability to recognize the anticipated synergies and benefits of the Acquisition; the receipt of required regulatory approvals for the Acquisition (including the approval of antitrust authorities necessary to complete the Acquisition); the anticipated size of the markets and continued demand for Actavis's and Warner Chilcott's products; the impact of competitive products and pricing; access to available financing (including financing for the Acquisition or refinancing of Actavis or Warner Chilcott debt) on a timely basis and on reasonable terms; maintaining a position in the Standard & Poor's 500; the risks of fluctuations in foreign currency exchange rates; the risks and uncertainties normally incident to the pharmaceutical industry, including product liability claims and the availability of product liability insurance on reasonable terms; the difficulty of predicting the timing or outcome of pending or future litigation or government investigations; periodic dependence on a small number of products for a material source of net revenue or income; variability of trade buying patterns; changes in generally accepted accounting principles; risks that the carrying values of assets may be negatively impacted by future events and circumstances; the timing and success of product launches; the difficulty of predicting the timing or outcome of product development efforts and regulatory agency approvals or actions, if any; costs and efforts to defend or enforce intellectual property rights; difficulties or delays in manufacturing; the availability and pricing of third party sourced products and materials; successful compliance with governmental regulations applicable to Actavis's and Warner Chilcott's manufacturers, facilities, products and/or businesses; changes in the laws and regulations affecting, among other things, pricing and reimbursement of pharmaceutical products; changes in tax laws or interpretations that could increase Actavis's consolidated tax liabilities; the loss of key senior management or scientific staff; and such other risks and uncertainties detailed in Actavis's periodic public filings with the SEC including but not limited to Actavis's Quarterly Report on Form 10-Q for the quarter ended March 31, 2013 and Actavis's Annual Report on Form 10-K for the year ended December 31, 2012, as well as the Form S-4.
