Note 1 Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited, consolidated financial statements for HCI Group, Inc. and its subsidiaries (collectively, the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information, and the Securities and Exchange Commission (SEC) rules for interim financial reporting. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been omitted pursuant to such rules and regulations. However, in the opinion of management, the accompanying financial statements reflect all normal recurring adjustments necessary to present fairly the Company's financial position as of June 30, 2013 and the results of operations and cash flows for the periods presented. The results of operations for the interim periods presented are not necessarily indicative of the results of operations to be expected for any subsequent interim period or for the fiscal year ending December 31, 2013. The accompanying unaudited consolidated financial statements and notes thereto should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2012 included in the Company's Form 10-K, which was filed with the SEC on March 14, 2013.

In preparing the interim unaudited consolidated financial statements, management was required to make certain estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures at the financial reporting date and throughout the periods being reported upon. Certain of the estimates result from judgments that can be subjective and complex and consequently actual results may differ from these estimates.

Material estimates that are particularly susceptible to significant change in the near term relate to the determination of losses and loss adjustment expenses, assumed reinsurance balances, the recoverability of deferred policy acquisition costs, and the determination of deferred income taxes. Although considerable variability is inherent in these estimates, management believes that the amounts provided are reasonable. These estimates are continually reviewed and adjusted as necessary. Such adjustments are reflected in current operations.

All significant intercompany balances and transactions have been eliminated.

Reclassifications. Certain reclassifications of prior period amounts have been made to conform to the current period presentation.

Reinsurance Contracts

The Company enters into excess of loss reinsurance contracts to minimize its net loss exposure to catastrophic loss events. Certain of the Company's current contracts contain retrospective provisions including terms and conditions that adjust premiums, increase the amount of future coverage, or result in profit commissions based on the loss experience under the contracts. In such cases, a with-and-without method is used to estimate the asset or liability amount to be recognized at each reporting date. The amount of the estimate is the difference between the net contract costs before and after the loss experience under the contract. Estimates related to premium

Table of Contents

adjustments, profit commissions and coverage changes are recognized in ceded premiums earned. These estimates are reviewed monthly based on the loss experience to date and as adjustments become necessary. Such adjustments are reflected in the Company's current operations.

Note 2 Recent Accounting Pronouncements

There have been no recent accounting pronouncements or changes in recent accounting pronouncements during the six months ended June 30, 2013, as compared to those described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012, that are of significance, or potential significance, to the Company.

Table of Contents**Note 3 Investments**

The Company holds investments in fixed-maturity securities and equity securities that are classified as available-for-sale. At June 30, 2013 and December 31, 2012, the amortized cost, gross unrealized gains and losses, and estimated fair value of the Company's available-for-sale securities by security type were as follows:

Other-than-temporary Impairment

The Company regularly reviews its individual investment securities for other-than-temporary impairment. The Company considers various factors in determining whether each individual security is other-than-temporarily impaired, including:

the financial condition and near-term prospects of the issuer, including any specific events that may affect its operations or earnings;

the length of time and the extent to which the market value of the security has been below its cost or amortized cost;

general market conditions and industry or sector specific factors;

nonpayment by the issuer of its contractually obligated interest and principal payments; and

the Company's intent and ability to hold the investment for a period of time sufficient to allow for the recovery of costs.

Table of Contents

Securities with gross unrealized loss positions at June 30, 2013, aggregated by investment category and length of time the individual securities have been in a continuous loss position, are as follows:

As of June 30, 2013	Less Than Twelve Months		Twelve Months or Greater		Total	
	Gross Unrealized Loss	Estimated Fair Value	Gross Unrealized Loss	Estimated Fair Value	Gross Unrealized Loss	Estimated Fair Value

<i>Equity securities</i>	(328)	6,266	(59)	181	(387)	6,447
Total available-for-sale securities	\$ (557)	14,149	(59)	181	(616)	14,330

The Company believes there are no fundamental issues such as credit losses or other factors with respect to any of its available-for-sale securities. The unrealized losses on investments in fixed-maturity securities were caused primarily by interest-rate changes. It is expected that the securities will not be settled at a price less than the par value of the investments. In determining whether equity securities are other-than-temporarily impaired, the Company considers its intent and ability to hold a security for a period of time sufficient to allow for the recovery of cost. Because the declines in fair value are attributable to changes in interest rates or market conditions and not credit quality, and because the Company has the ability and intent to hold its available-for-sale investments until a market price recovery or maturity, the Company does not consider any of its investments to be other-than-temporarily impaired at June 30, 2013.

Other Investments

Other investments consist of the following as of June 30, 2013 and December 31, 2012:

	June 30, 2013	December 31, 2012

Depreciation and amortization expense related to other investments was \$96 and \$66, respectively, for the three months ended June 30, 2013 and 2012 and \$191 and \$95, respectively, for the six months ended June 30, 2013 and 2012.

Note 4 Property and Equipment, net

On February 28, 2013, the Company purchased real estate in Ocala, Florida for a total purchase price of \$2,002. The real estate consists of 1.6 acres of land and a vacant office building with rentable area of approximately 16,000 square feet. The facility will be used by the Company's insurance operations and, also, as an alternative location in the event a catastrophic event impacts the Company's home office and other support operations.

Note 5 Long-Term Debt

On January 17, 2013, the Company completed the sale of unsecured senior notes in a public offering for an aggregate principal amount of \$35,000. In addition, effective January 25, 2013, the Company received an aggregate principal amount of \$5,250 pursuant to the underwriters exercise of the over-allotment option. The offering was made pursuant to the Company's effective registration statement on Form S-3, as amended (Registration Statement No. 333-185228) and the prospectus supplement dated January 10, 2013. The combined net proceeds were \$38,690 after underwriting and issuance costs of approximately \$1,560 of which \$1,525 was paid during the six months ended June 30, 2013. The notes will mature on January 30, 2020 and bear interest at a fixed annual rate of 8% payable quarterly on January 30, April 30, July 30 and October 30, commencing on April 30, 2013. The notes may be redeemed, in whole or in part, at any time on and after January 30, 2016 upon not less than 30 or more than 60 days' notice. The redemption price will be equal to 100% of the principal amount redeemed plus accrued and unpaid interest. Additionally, the Company may, at any time, repurchase the senior notes at any price in the open market and may hold, resell or surrender the notes for cancellation.

The senior notes rank on parity with all of the Company's other existing and future senior unsecured obligations. In addition, to the extent the senior notes are unsecured, they also rank junior in right of payment to any secured debt that the Company may have outstanding to the extent of the value of the assets securing such debt.

The senior notes contain customary restrictive covenants relating to merger, modification of the indenture, subordination, issuance of debt securities and sale of assets, the most significant of which include limitations with respect to certain designated subsidiaries on the incurrence of additional indebtedness or guarantees secured by any security interest on any shares of their capital stock. The senior note covenants also limit the Company's ability to sell or otherwise dispose of any shares of capital stock of such designated subsidiaries. The senior note covenants do not contain any restrictions on the Company's payment or declaration of dividends nor require a sinking fund to be established for the purpose of redemption.

Interest expense with respect to the senior notes was approximately \$846 and \$1,532, respectively, for the three and six months ended June 30, 2013 and included amortization of debt issuance costs of approximately \$41 and \$74, respectively. The effective interest rate, taking into account the stated interest expense and amortization of debt issuance costs, approximates 8.7%.

Table of Contents**Note 6 Fair Value Measurements**

The Company records and discloses certain financial assets at their estimated fair value. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels as follows:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 Other inputs that are observable for the asset and liability, either directly or indirectly.

Level 3 Inputs that are unobservable.

The following table presents information about the Company's financial assets and liabilities measured at estimated fair value on a recurring basis as of June 30, 2013 and December 31, 2012, and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value:

	Fair Value Measurements Using			Total

During the second quarter of 2013, the Company analyzed its investment portfolio and determined the municipal bonds, which were previously classified as Level 1, should be classified as Level 2 based on the inputs used to measure fair value and the level of market activity in those instruments. As such, transfers into Level 2 from Level 1 were \$10,684 during the three months ended June 30, 2013. In addition, \$11,066 related to municipal bonds included in the table related to December 31, 2012 was transferred from Level 1 to Level 2. There were no transfers between Level 1, 2 or 3 during the three months ended March 31, 2013 or during the year ended December 31, 2012.

Note 7 Reinsurance

The Company cedes a portion of its homeowners insurance exposure to other entities under catastrophe excess of loss reinsurance treaties. The Company remains liable with respect to claims payments in the event that any of the reinsurers is unable to meet its obligations under the reinsurance agreements. The Company evaluates the financial condition of its reinsurers and monitors concentrations of credit risk arising from similar geographic regions, activities or economic characteristics of the reinsurers to minimize its exposure to significant losses from reinsurer insolvencies. The Company contracts with a number of established and rated or fully collateralized reinsurers to secure its annual reinsurance coverage, which becomes effective June 1st each year. The Company purchases reinsurance each year taking into consideration projected losses and reinsurance market conditions.

Table of Contents

The impact of the catastrophe excess of loss reinsurance treaties on premiums written and earned is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012

Net premiums earned	\$ 57,335	37,070	117,886	77,501

During the three and six months ended June 30, 2013 and 2012, there were no recoveries pertaining to reinsurance contracts that were deducted from losses incurred. At June 30, 2013 and December 31, 2012, prepaid reinsurance premiums related to 27 and 31 reinsurers, respectively, and there were no amounts receivable with respect to reinsurers. Thus, there were no concentrations of credit risk associated with reinsurance receivables and prepaid reinsurance premiums as of June 30, 2013 and December 31, 2012.

Certain of the reinsurance contracts include retrospective provisions that adjust premiums, increase the amount of future coverage, or result in profit commissions in the event losses are minimal or zero. As of June 30, 2013, the Company has recognized a benefit of \$1,301 in connection with these provisions. See Reinsurance Contracts under Note 1 Summary of Significant Accounting Policies.

Note 8 Losses and Loss Adjustment Expenses

The liability for losses and loss adjustment expenses is determined on an individual case basis for all claims reported. The liability also includes amounts for unallocated expenses, anticipated future claim development and losses incurred, but not reported.

Table of Contents

Activity in the liability for unpaid losses and loss adjustment expenses is summarized as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Balance, beginning of period	\$ 41,751	33,476	41,168	27,424

The establishment of loss reserves is an inherently uncertain process and changes in loss reserve estimates are expected as such estimates are subject to the outcome of future events. Changes in estimates, or differences between estimates and amounts ultimately paid, are reflected in the operating results of the period during which such adjustments are made. During the three and six months ended June 30, 2013, the Company experienced favorable development of \$1,017 and \$2,076, respectively, with respect to its net unpaid losses and loss adjustment expenses established as of March 31, 2013 and December 31, 2012. Factors attributable to this favorable development include a lower severity of claims, reduced frequency of claims, and actual case development being more favorable than originally anticipated.

The Company writes insurance in the state of Florida, which could be exposed to hurricanes or other natural catastrophes. The occurrence of a major catastrophe could have a significant effect on the Company's monthly or quarterly results and cause a temporary disruption of the normal operations of the Company. However, the Company is unable to predict the frequency or severity of any such events that may occur in the near term or thereafter.

Note 9 Income Taxes

During the three months ended June 30, 2013 and 2012, the Company recorded approximately \$10,172 and \$4,747, respectively, of income taxes, which resulted in estimated annual effective tax rates of 38.5% and 39.5%, respectively. During the six months ended June 30, 2013 and 2012, the Company recorded approximately \$22,955 and \$9,160, respectively, of income taxes, which resulted in estimated annual effective tax rates of 38.5% and 39.2%, respectively. The Company's estimated annual effective tax rate differs from the statutory federal income tax rate due to state and foreign income taxes and stock-based compensation as well as certain nondeductible items.

Note 10 Earnings Per Share

U.S. GAAP requires the Company to use the two-class method in computing basic earnings per share since holders of the Company's restricted stock have the right to share in dividends, if declared, equally with common stockholders. These participating securities effect the computation of both basic and diluted earnings per share during periods of net income.

Table of Contents

A summary of the numerator and denominator of the basic and diluted earnings per common share is presented below:

Note 11 Stockholders Equity

Common Stock

On April 8, 2013, the Company's Board of Directors declared a quarterly dividend of \$0.225 per common share. The dividends were paid on June 21, 2013 to stockholders of record on May 17, 2013.

Common Stock Warrants

All common stock warrants were either exercised or cancelled during the year ended December 31, 2012.

Preferred Stock

As of June 30, 2013, 191,750 shares of Series A cumulative convertible preferred stock (Series A Preferred) remain outstanding. During the three and six months ended June 30, 2013, holders of 18,805 and 49,432 shares of Series A Preferred converted their Series A Preferred shares to 18,805 and 49,432 shares of common stock, respectively.

On May 22, 2013, the Company's Board of Directors declared a cash dividend on its Series A Preferred shares in the amount of \$0.05833 per share for each of the months of June, July, and August 2013. The June dividend was paid on July 29, 2013 to shareholders of record at the close of business on July 1, 2013. The July dividend is payable on August 27, 2013 to shareholders of record at the close of business on August 1, 2013. The August dividend is payable on September 27, 2013 to shareholders of record at the close of business on September 3, 2013.

Note 12 Stock-Based Compensation

Incentive Plans

The Company has outstanding stock options and restricted stock granted under the 2007 Stock Option and Incentive Plan (2007 Plan) and its 2012 Omnibus Incentive Plan (the 2012 Plan). The 2007 Plan was terminated in 2012. Thus, there are no longer available shares for future grants under the 2007 Plan. Under the 2012 Plan, the aggregate number of shares of the Company's common stock reserved and available for issuance is 5,000,000. With respect to the 2012 Plan at June 30, 2013, no incentive stock options had been granted, 588,240 shares of restricted stock were outstanding, and 4,411,760 shares were available for future grant.

Stock Options

Outstanding stock options granted under the 2007 Plan vest over periods ranging from immediately vested to five years and are exercisable over the contractual term of ten years.

Table of Contents

A summary of the activity in the Company's 2007 Plan for the three and six months ended June 30, 2013 and 2012 is as follows (option amounts not in thousands):

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value

Total intrinsic value of exercised options				\$ 1,470
Fair value of vested stock options	\$ 17	\$ 22	\$ 17	\$ 22
Tax benefits realized				\$ 437

During the six months ended June 30, 2012, a total of 217,003 options were exercised and net settled by surrender of 71,409 shares. The Company recognized compensation expense of approximately \$5 and \$6, respectively, for the three months ended June 30, 2013 and 2012 and \$9 and \$59, respectively, for the six months ended June 30, 2013 and 2012. At June 30, 2013, there was approximately \$15 of unrecognized compensation expense related to nonvested stock options granted under the plan. The Company expects to recognize the remaining compensation expense over a weighted-average period of 10 months. Deferred tax benefits related to stock options for the three and six months ended June 30, 2013 and 2012 were immaterial.

Restricted Stock Awards

From time to time, the Company has granted and may grant restricted stock awards to certain executive officers, other employees and nonemployee directors in connection with their service to the Company. The terms of the Company's outstanding restricted stock grants include both service and market-based conditions. The fair value of the awards with market-based conditions is determined using a Monte Carlo simulation method which calculates many potential outcomes for an award and then establishes fair value based on the most likely outcome. The determination of fair value with respect to the awards with only service-based conditions is based on the value of the Company's common stock on the grant date.

Table of Contents

Information with respect to the activity of unvested restricted stock awards during the three and six months ended June 30, 2013 and 2012 is as follows (share amounts not in thousands):

	Number of Restricted Stock Awards	Weighted Average Grant Date Fair Value
Nonvested at January 1, 2013	246,320	\$ 14.54

The Company recognized compensation expense of \$1,080 and \$153, respectively, for the three months ended June 30, 2013 and 2012 and \$1,465 and \$153, respectively, for the six months ended June 30, 2013 and 2012. At June 30, 2013, there was approximately \$15,364 of total unrecognized compensation expense related to nonvested restricted stock arrangements granted under the Company's 2007 Plan and 2012 Plan. The Company expects to recognize the remaining compensation expense over a weighted-average period of 30 months. The following table summarizes information about deferred tax benefits recognized related to restricted stock awards and the fair value of vested restricted stock for the three and six months ended June 30, 2013 and 2012:

	Three Months Ended June 30,		Six Months Ended June 30,

Note 13 Commitments and Contingencies

Environmental Matters

In connection with the acquisition in April 2011 of one of the Company's properties located in Pinellas County, Florida, the Company assumed the liability to complete a site assessment and remediation of environmental contamination that resulted from a petroleum release at the marina site in late 2009. At acquisition, the Company recorded a liability of \$150 with respect to the planned remedial action. Such liability was determined based on reasonably estimable costs of completing the actions defined in the work plan. As of June 30, 2013, a total of \$111 has been expended with respect to the site assessment and remediation and the remaining \$39 accrued at acquisition is included in other liabilities in the accompanying consolidated balance sheets. Even with the Company's best effort in estimating the costs, it is possible that additional testing and additional environmental monitoring and remediation will be required as part of the Company's ongoing discussions with the Florida Department of Health, the agency contracted by the Florida Department of Environmental Protection to administer cases of petroleum contamination in Pinellas County, in which case additional expenses could exceed the current estimated liability. However, based on information known at June 30, 2013, the Company does not expect that such additional expenses would have a material adverse effect on the liquidity or financial condition of the Company.

Note 14 Related Party Transactions

Claddaugh Casualty Insurance Company, Ltd. (Claddaugh), the Company's Bermuda-based captive reinsurer, has one reinsurance treaty with Moksha Re SPC Ltd. and multiple capital partners (Moksha) whereby a portion of the business assumed from the Company's insurance subsidiary, Homeowners Choice Property & Casualty Insurance Company, Inc. (HCPCI), is ceded by Claddaugh to Moksha. With respect to the period from June 1, 2013 through May 31, 2014, Moksha assumed approximately \$15,400 of the total covered exposure for approximately \$4,300 in premiums, a rate which management believes to be competitive with market rates available to Claddaugh. The \$4,300 premium was fully paid by Claddaugh on June 27, 2013. Moksha has deposited funds into a trust account to fully collateralize Moksha's exposure. Trust assets may be withdrawn by HCPCI, the trust beneficiary, in the event amounts are due under the 2013-2014 Moksha reinsurance agreement. Among the Moksha capital partner participants are the Company's chief executive officer, Paresh Patel, and certain of his immediate family members and Sanjay Madhu, one of the Company's non-employee directors.

Claddaugh also has reinsurance treaties with Oxbridge Reinsurance Limited (Oxbridge) whereby a portion of the business assumed from HCPCI is ceded by Claddaugh to Oxbridge. With respect to the period from June 1, 2013 through May 31, 2014, Oxbridge assumed \$10,100 of the total covered exposure for approximately \$4,900 in premiums, a rate which management believes to be competitive with market rates available to Claddaugh. The \$4,900 premium was fully paid by Claddaugh on July 9, 2013. Oxbridge has deposited funds into a trust account to fully collateralize Oxbridge's exposure. Trust assets may be withdrawn by HCPCI, the trust beneficiary, in the event amounts are due under the 2013-2014 Oxbridge reinsurance agreement. Among the Oxbridge capital partner participants are Paresh Patel, the Company's chief executive officer, who is also chairman of the board of directors for Oxbridge, and members of his immediate family and three of the Company's non-employee directors including Sanjay Madhu who serves as Oxbridge's president and chief executive officer.

Note 15 Subsequent Events

On July 16, 2013, the Company's Board of Directors declared a quarterly dividend of \$0.225 per common share. The dividends are payable on September 20, 2013 to stockholders of record on August 16, 2013.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion in conjunction with our consolidated financial statements and related notes and information included under this Item 2 and elsewhere in this quarterly report on Form 10-Q and in our Form 10-K filed with the Securities and Exchange Commission (SEC) on March 14, 2013. Unless the context requires otherwise, as used in this Form 10-Q, the terms HCI, we, us, our, the Company, our company, and similar references refer to HCI Group, Inc. and its subsidiaries. All dollar amounts, except per share amounts stated in this Management's Discussion and Analysis of Financial Condition and Results of Operations are in thousands unless specified otherwise.

Forward-Looking Statements

In addition to historical information, this quarterly report contains forward-looking statements as defined under federal securities laws. Such statements involve risks and uncertainties, such as statements about our plans, objectives, expectations, assumptions or future events. These statements involve estimates, assumptions, known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from any future results, performances or achievements expressed or implied by the forward-looking statements. Typically, forward-looking statements can be identified by terminology such as anticipate, estimate, plan, project, continuing, ongoing, expect, believe, intend, may, will, should, could, and similar expressions. The important factors that could cause actual results to differ materially from those indicated by such forward-looking statements include but are not limited to the effect of governmental regulation; changes in insurance regulations; the frequency and extent of claims; uncertainties inherent in reserve estimates; catastrophic events; a change in the demand for, pricing of, availability of or collectability of reinsurance; restrictions on our ability to change premium rates; increased rate pressure on premiums; and other risks and uncertainties detailed herein and from time to time in our SEC reports.

OVERVIEW

General

HCI Group, Inc. is a Florida-based company established in 2006. We changed our name in May 2013 from Homeowners Choice, Inc. to HCI Group, Inc. Our property and casualty insurance operations began in 2007. Over the past few years, we have broadened and diversified our business portfolio through acquisitions to include information technologies and, also, real estate operations under which we operate one restaurant and two marina facilities. Based on the organizational structure, revenue sources, and evaluation of financial and operating performances by management, we have the following operating segments:

- a) Insurance Operations

- Property and casualty insurance*

- Reinsurance*

- b) Other Operations

- Real estate*

- Information technology*

Table of Contents

For the three months ended June 30, 2013 and 2012, revenues from property and casualty insurance operations represented 94.9% and 88.1%, respectively, of total revenues of all operating segments. For the six months ended June 30, 2013 and 2012, revenues from property and casualty insurance operations represented 94.8% and 94.2%, respectively, of total revenues of all operating segments. As a result, we have determined the property and casualty insurance operations to be our only reportable operating segment.

Insurance Operations

Property and Casualty Insurance

Through certain subsidiaries, primarily Homeowners Choice Property & Casualty Insurance Company, Inc. (HCPCI), we provide property and casualty insurance to homeowners, condominium owners, and tenants in the state of Florida. Under our *Homeowners Choice* brand, HCPCI offers insurance products at competitive rates, while pursuing profitability using selective underwriting criteria.

HCPCI began operations in 2007 by participating in a take-out program, which is a legislatively mandated program designed to encourage private insurance companies to assume policies from Citizens Property Insurance Corporation (Citizens), a Florida state-supported insurer. Our growth since inception has resulted primarily from a series of policy assumptions from Citizens and one from HomeWise Insurance Company (HomeWise). This growth track has been beneficial to us in terms of reduced policy acquisition costs and periods of lower reinsurance costs. Even though expanding our policyholder base through opportunistic assumptions continues to be important to our growth plan, we plan to seek other opportunities to expand and to provide new or additional product offerings.

As part of our plan to increase overall geographic diversification, our subsidiary, Homeowners Choice Assurance Company, Inc., has applied for licensure and is awaiting approval from the Alabama Department of Insurance to write property and casualty insurance policies in Alabama.

Reinsurance

We have a Bermuda-based reinsurance subsidiary, Claddaugh Casualty Insurance Company Ltd., which participates in HCPCI s reinsurance program under our *Claddaugh* brand.

Other Operations

Real Estate

Operating under our *Greenleaf Capital* brand, real estate operations consist of several properties we own including our headquarters building in Tampa, Florida and a secondary site in Ocala, Florida, which will be used by our insurance operations. In addition, the Ocala location will be used by our home office operations in the event we experience any disruption from a catastrophic event. We also own properties in Treasure Island, Florida and Tierra Verde, Florida with a combined 20 acres of waterfront property.

Table of Contents

With the exception of the Ocala location, we lease office or retail space at each location to non-affiliates on various terms. In addition, we own and operate one full-service restaurant and two marinas that we acquired in connection with our purchase of the waterfront properties. The combined marina facilities provide services to include: a) one dry stack boat storage building with capacity for approximately 180 boats; b) approximately 70 wet slips; c) two fuel facilities; and d) open areas for parking and storage. Dry stack boat storage space is generally rented on a monthly or annual basis while the wet slips are rented on a daily or monthly basis.

Information Technology

Our information technology segment includes a team of experienced programmers with extensive experience in developing web-based products and applications for mobile devices. The operations, which are primarily in India, are focused on developing innovative products or services that can be marketed to the public and also on providing affiliates with back-office technology support services that can facilitate and improve ongoing operations.

The technologies originally developed in-house for our own insurance operations were recently launched for use by third parties under our *Exzeo* brand. *Exzeo* is a free, web-based application available at Exzeo.com that enables seamless integration between organizations, co-workers and business partners. *Exzeo* allows users to manage projects through communication and collaboration with other participants in a real-time work environment.

Recent Developments

On July 16, 2013, our Board of Directors declared a quarterly dividend of \$0.225 per common share. The dividends are payable on September 20, 2013 to stockholders of record on August 16, 2013.

Table of Contents***Comparison of the Three Months ended June 30, 2013 to the Three Months ended June 30, 2012***

Our results of operations for the three months ended June 30, 2013 reflect income available to common stockholders of \$16,203, or \$1.40 earnings per diluted common share, compared to income available to common stockholders of \$7,199, or \$0.74 earnings per diluted common share, for the three months ended June 30, 2012.

Revenue

Gross Premiums Earned for the three months ended June 30, 2013 and 2012 were \$81,952 and \$53,772, respectively, and primarily reflect the revenue from policies acquired from HomeWise and Citizens and subsequent renewals. The \$28,180 increase over the corresponding period in 2012 was primarily attributable to \$32,599 of revenue from the Citizens assumption we completed in November 2012 offset by a reduction in premium earned due to policy attrition.

Premiums Ceded for the three months ended June 30, 2013 and 2012 were approximately \$24,617 and \$16,702, respectively. Our premiums ceded represent amounts paid to reinsurers to cover losses from catastrophes that exceed the thresholds defined by our catastrophe excess of loss reinsurance treaties. For the three months ended June 30, 2013, premiums ceded include a benefit of \$1,301 related to the provisions under certain reinsurance contracts. See Economic Impact of Reinsurance Contracts with Retrospective Provisions under Critical Accounting Policies and Estimates below. Our reinsurance rates are based primarily on policy exposures reflected in gross premiums earned. Premiums ceded were 30.0% and 31.1% of gross premiums earned during the three months ended June 30, 2013 and 2012, respectively.

Net Premiums Earned for the three months ended June 30, 2013 and 2012 were \$57,335 and \$37,070, respectively, and reflect the gross premiums earned less the appropriate reinsurance costs as described above.

Net Premiums Written during the three months ended June 30, 2013 and 2012 totaled \$107,830 and \$66,625, respectively. Net premiums written represent the premiums charged on policies issued during a fiscal period less any applicable reinsurance costs.

The following is a reconciliation of our total Net Premiums Written to Net Premiums Earned for the three months ended June 30, 2013 and 2012 (dollars in thousands):

	Three Months Ended	
	June 30,	
	2013	2012
Net Premiums Written	\$ 107,830	66,625
Increase in Unearned Premiums	(50,495)	(29,555)
Net Premiums Earned	\$ 57,335	37,070

Policy Fee Income for the three months ended June 30, 2013 and 2012 was \$1,426 and \$1,028, respectively. The increase in 2013 from the corresponding period is primarily attributable to an increase in policy renewals.

Table of Contents

Expenses

Our *Losses and Loss Adjustment Expenses* amounted to \$17,414 and \$16,197, respectively, during the three months ended June 30, 2013 and 2012. The increase in 2013 is primarily due to the increase in policy count and exposures. In addition, our losses for the six months ended June 30, 2012 included approximately \$2,000 related to claims from Tropical Storm Debby, which occurred in June 2012. See *Reserves for Losses and Loss Adjustment Expenses* under *Critical Accounting Policies and Estimates* below.

Policy Acquisition and Other Underwriting Expenses for the three months ended June 30, 2013 and 2012 of \$7,308 and \$6,243, respectively, primarily reflect the amortization of deferred acquisition costs, commissions payable to agents for production and renewal of policies, premium taxes, marketing costs, and policy fees. The \$1,065 increase from the corresponding period in 2012 is primarily attributable to an increase in commissions and premium taxes related to the increase in policy renewals in 2013.

Other Operating Expenses for the three months ended June 30, 2013 and 2012 were \$7,358 and \$4,406, respectively. The \$2,952 increase is primarily attributable to a \$2,301 increase in compensation and related expenses and a \$651 increase in our other administrative costs, which include a variety of professional service fees, license fees, corporate insurance, lease expense, information system expense, and other general expenses. As of June 30, 2013, we had 161 employees located at our headquarters in Tampa, Florida compared to 121 employees as of June 30, 2012. We also have 64 employees located in Noida, India at June 30, 2013 versus 63 at June 30, 2012.

Income Taxes for the three months ended June 30, 2013 and 2012 were \$10,172 and \$4,747, respectively, for state, federal, and foreign income taxes resulting in an effective tax rate of 38.5% for 2013 and 39.5% for 2012.

Ratios:

The loss ratio applicable to the three months ended June 30, 2013 (losses and loss adjustment expenses incurred related to net premiums earned) was 30.4% compared to 43.7% for the three months ended June 30, 2012. Our loss ratio was positively impacted by a significant increase in our gross premiums earned during 2013 (See *Gross Premiums Earned* above) and, also, by continued favorable trends in 2013 related to our losses and loss adjustment expenses.

The expense ratio applicable to the three months ended June 30, 2013 (defined as underwriting expenses, interest and other operating expenses related to net premiums earned) was 27.0% compared to 28.7% for the three months ended June 30, 2012. The decrease in our expense ratio is primarily attributable to the significant increase in 2013 in our gross premiums earned.

The combined loss and expense ratio (total of all expenses related to net premiums earned) is the key measure of underwriting performance traditionally used in the property and casualty industry. A combined ratio that is less than 100% generally reflects favorable underwriting results. A combined ratio over 100% generally reflects unprofitable underwriting results. Our combined ratio for the three months ended June 30, 2013 was 57.4% compared to 72.4% for the three months ended June 30, 2012. Our combined ratio was positively impacted by a significant increase in our gross premiums earned during 2013 (see *Gross Premiums Earned* above) and, also, by continued favorable trends in 2013 related to our losses and loss adjustment expenses.

Table of Contents

Due to the impact our reinsurance costs have on net premiums earned from period to period, our management believes the combined loss and expense ratio measured to gross premiums earned is more relevant in assessing overall performance. The combined loss and expense ratio to gross premiums earned for the three months ended June 30, 2013 was 40.2% compared to 49.9% for the three months ended June 30, 2012.

Comparison of the Six Months ended June 30, 2013 to the Six Months ended June 30, 2012

Our results of operations for the six months ended June 30, 2013 reflect income available to common stockholders of \$36,556, or \$3.20 earnings per diluted common share, compared to income available to common stockholders of \$13,986, or \$1.60 earnings per diluted common share, for the six months ended June 30, 2012.

Revenue

Gross Premiums Earned for the six months ended June 30, 2013 and 2012 were \$164,499 and \$108,470, respectively, and primarily reflect the revenue from policies acquired from HomeWise and Citizens and subsequent renewals. The \$56,029 increase over the corresponding period in 2012 was primarily attributable to \$65,432 of revenue from the Citizens assumption we completed in November 2012 offset by a reduction in premium earned due to policy attrition.

Premiums Ceded for the six months ended June 30, 2013 and 2012 were approximately \$46,613 and \$30,969, respectively. Our premiums ceded represent amounts paid to reinsurers to cover losses from catastrophes that exceed the thresholds defined by our catastrophe excess of loss reinsurance treaties. For the six months ended June 30, 2013, premiums ceded include a benefit of \$1,301 related to the provisions under certain reinsurance contracts. See *Economic Impact of Reinsurance Contracts with Retrospective Provisions* under *Critical Accounting Policies and Estimates* below. Our reinsurance rates are based primarily on policy exposures reflected in gross premiums earned. Premiums ceded were 28.3% and 28.6% of gross premiums earned during the six months ended June 30, 2013 and 2012, respectively.

Net Premiums Earned for the six months ended June 30, 2013 and 2012 were \$117,886 and \$77,501, respectively, and reflect the gross premiums earned less the appropriate reinsurance costs as described above.

Net Premiums Written during the six months ended June 30, 2013 and 2012 totaled \$155,083 and \$89,253, respectively. Net premiums written represent the premiums charged on policies issued during a fiscal period less any applicable reinsurance costs.

Table of Contents

The following is a reconciliation of our total Net Premiums Written to Net Premiums Earned for the six months ended June 30, 2013 and 2012 (dollars in thousands):

	Six Months Ended June 30,	
	2013	2012
Net Premiums Written	\$ 155,083	89,253
Increase in Unearned Premiums	(37,197)	(11,752)
Net Premiums Earned	\$ 117,886	77,501

Net Investment Income for the six months ended June 30, 2013 and 2012 was \$434 and \$824, respectively. The decline in 2013 is primarily due to operating losses of the business activities associated with the real estate we acquired in April 2012. There were no other-than-temporary impairments recorded during the six months ended June 30, 2013 and 2012.

Policy Fee Income for the six months ended June 30, 2013 and 2012 was \$2,198 and \$1,543, respectively. The increase in 2013 from the corresponding period is primarily due to an increase in policy renewals.

Expenses

Our *Losses and Loss Adjustment Expenses* amounted to \$33,286 and \$35,365, respectively, during the six months ended June 30, 2013 and 2012. During the six months ended June 30, 2013, we experienced favorable development of \$2,076 with respect to our net unpaid losses and loss adjustment expenses established as of December 31, 2012, which contributed to the overall favorable variance of \$2,079 with respect to the total losses and loss adjustment expenses incurred during the six months ended June 30, 2013 as compared to the corresponding period in 2012. In addition, our losses for the six months ended June 30, 2012 included approximately \$2,000 related to claims from Tropical Storm Debby, which occurred in June 2012. See *Reserves for Losses and Loss Adjustment Expenses* under *Critical Accounting Policies and Estimates* below.

Policy Acquisition and Other Underwriting Expenses for the six months ended June 30, 2013 and 2012 of \$13,276 and \$13,079, respectively, primarily reflect the amortization of deferred acquisition costs, commissions payable to agents for production and renewal of policies, premium taxes, marketing costs, and policy fees. The \$197 increase from the corresponding period in 2012 is primarily attributable to an increase in commissions and premium taxes related to the increase in policy renewals in 2013, the effect of which is offset by a one-time charge of \$1,200 in 2012 resulting from a U.S. GAAP change in accounting for deferred acquisition costs.

Other Operating Expenses for the six months ended June 30, 2013 and 2012 were \$13,473 and \$8,673, respectively. The \$4,800 increase is primarily attributable to a \$3,629 increase in compensation and related expenses and a \$1,171 increase in our other administrative costs, which include a variety of professional service fees, license fees, corporate insurance, lease expense, information system expense, and other general expenses. As of June 30, 2013, we had 161 employees located at our headquarters in Tampa, Florida compared to 121 employees as of June 30, 2012. We also have 64 employees located in Noida, India at June 30, 2013 versus 63 at June 30, 2012.

Income Taxes for the six months ended June 30, 2013 and 2012 were \$22,512 and \$9,160, respectively, for state, federal, and foreign income taxes resulting in an effective tax rate of 38.5% for 2013 and 39.2% for 2012.

Ratios:

The loss ratio applicable to the six months ended June 30, 2013 (losses and loss adjustment expenses incurred related to net premiums earned) was 28.2% compared to 45.6% for the six months ended June 30, 2012. Our loss ratio was positively impacted by a significant increase in our gross premiums earned during 2013 (See *Gross Premiums Earned* and *Losses and Loss Adjustment Expenses* above) and, also, by continued favorable trends in 2013 related to our losses and loss adjustment expenses.

The expense ratio applicable to the six months ended June 30, 2013 (defined as underwriting expenses, interest and other operating expenses related to net premiums earned) was 24.0% compared to 28.1% for the six months ended June 30, 2012. The decrease in our expense ratio is primarily attributable to the significant increase in 2013 in our gross premiums earned.

The combined loss and expense ratio (total of all expenses related to net premiums earned) is the key measure of underwriting performance traditionally used in the property and casualty industry. A combined ratio that is less than 100% generally reflects favorable underwriting results. A combined ratio over 100% generally reflects unprofitable underwriting results. Our combined ratio for the six months ended June 30, 2013 was 52.2% compared to 73.7% for the six months ended June 30, 2012. Our combined ratio was positively impacted by a significant increase in our gross premiums earned during 2013 (see *Gross Premiums Earned* above) and, also, by continued favorable trends in 2013 related to our losses and loss adjustment expenses.

Due to the impact our reinsurance costs have on net premiums earned from period to period, our management believes the combined loss and expense ratio measured to gross premiums earned is more relevant in assessing overall performance. The combined loss and expense ratio to gross premiums earned for the six months ended June 30, 2013 was 37.4% compared to 52.7% for the six months ended June 30, 2012.

Seasonality of Our Business

Our insurance business is seasonal as hurricanes and tropical storms typically occur during the period from June 1 through November 30 each year. With our reinsurance treaty year effective June 1 each year, any variation in the cost of our reinsurance, whether due to changes in reinsurance rates or changes in the total insured value of our policy base, will occur and be reflected in our financial results beginning June 1 each year.

LIQUIDITY AND CAPITAL RESOURCES

Since inception, our liquidity requirements have been met through issuance of our common and preferred stock, our recent debt offering and funds from operations. We expect our future liquidity requirements will be met by funds from operations, primarily the cash received by HCPCI from premiums written and investment income. In addition, we may consider raising capital through future debt and equity offerings.

Table of Contents

HCPCI requires liquidity and adequate capital to meet ongoing obligations to policyholders and claimants and to fund operating expenses. In addition, we attempt to maintain adequate levels of liquidity and surplus to manage any differences between the duration of our liabilities and invested assets. In the insurance industry, cash collected for premiums from policies written is invested, interest and dividends are earned thereon, and loss and loss adjustment expenses are paid out over a period of years. This period of time varies by the circumstances surrounding each claim. A substantial portion of our losses and loss adjustment expenses are fully settled and paid within 90 days of the claim receipt date. Additional cash outflow occurs through payments of underwriting costs such as commissions, taxes, payroll, and general overhead expenses.

We believe that we maintain sufficient liquidity to pay HCPCI's claims and expenses, as well as to satisfy commitments in the event of unforeseen events such as reinsurer insolvencies, inadequate premium rates, or reserve deficiencies. We maintain a comprehensive reinsurance program at levels management considers adequate to diversify risk and safeguard our financial position.

In the future, we anticipate our primary use of funds will be to pay claims and reinsurance premiums, and fund operating expenses.

Preferred Stock

Our cumulative convertible preferred stock (Series A Preferred) is not redeemable prior to March 31, 2014. If we issue a conversion cancellation notice, the Series A Preferred will be redeemable on or after March 31, 2014 for cash, at our option, in whole or in part, at \$10.00 per share, plus accrued and unpaid dividends to the redemption date. Otherwise, the Series A Preferred will be redeemable for cash, at our option, in whole or in part, at a redemption price equal to \$10.40 per share for redemptions on or after March 31, 2014; \$10.20 per share for redemptions on or after March 31, 2015; and \$10.00 per share for redemptions on or after March 31, 2016, in each case, plus accrued and unpaid dividends to the redemption date.

The Series A Preferred shares have no stated maturity and are not subject to any sinking fund or mandatory redemption requirements. Holders of the Series A Preferred shares generally have no voting rights, except under limited circumstances, and holders are entitled to receive cumulative preferential dividends when and as declared by our Board of Directors.

Senior Notes Due 2020

In January 2013, we completed the sale of an aggregate of approximately \$40,250 of our 8.00% senior notes (Senior Notes) due 2020. The Senior Notes were issued under an Indenture, dated January 17, 2013, between us and The Bank of New York Mellon Trust Company, N.A., as Trustee. The Senior Notes bear interest at a rate of 8.00% per year, payable quarterly on January 30, April 30, July 30 and October 30 of each year, beginning on April 30, 2013. Interest on the Senior Notes began accruing from January 17, 2013, and the Senior Notes will mature on January 30, 2020. We may redeem the Senior Notes, in whole or in part, at any time on and after January 30, 2016, at a redemption price equal to 100% of the principal amount redeemed plus accrued and unpaid interest to the redemption date. Additionally, we may at any time repurchase Senior Notes at any price in the open market and may hold, resell or surrender such Senior Notes to the Trustee for cancellation. The Senior Notes are our senior unsecured obligations, and rank on a parity with all of our other existing and future senior unsecured obligations. The Indenture relating to the Senior Notes, as supplemented, contains customary events of default. If an event of default occurs and is continuing with respect to any series of the Senior Notes, then the Trustee or the holders of at least 25% of the principal amount of the outstanding Senior Notes may declare the Senior Notes to be due and payable immediately. In addition, in the case of an event of default arising from certain events of bankruptcy, insolvency or reorganization, all outstanding Senior Notes will become due and payable immediately. See Note 5 Long-Term Debt to our unaudited consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q for additional information.

Our Senior Notes are listed on the New York Stock Exchange and trade under the symbol HCI.

Cash Flows

Cash Flows for the Six months ended June 30, 2013

Net cash provided by operating activities for the six months ended June 30, 2013 was approximately \$42,541, which consisted primarily of cash received from net written premiums less cash disbursed for operating expenses, reinsurance premiums and losses and loss adjustment expenses. Net cash used in investing activities of \$9,582 was primarily due to the purchases of available-for-sale securities of \$11,183, the purchase of \$2,692 in property and equipment and the purchase of \$115 in other investments offset by redemptions and repayments of fixed-maturity securities of \$1,736, and the proceeds from sales of available-for-sale securities of \$2,672. Net cash provided by financing activities totaled \$33,676, which was primarily due to \$40,250 from the sale of Senior Notes offset by \$1,525 in related underwriting and issuance costs paid during the period and, also, \$5,094 in cash dividends paid.

Cash Flows for the Six months ended June 30, 2012

Net cash provided by operating activities for the six months ended June 30, 2012 was \$23,974, which consisted primarily of cash received from net written premiums less cash disbursed for operating expenses, reinsurance premiums and losses and loss adjustment expenses. Net cash used in investing activities of \$11,984 was primarily due to our business acquisition completed in April 2012 of \$8,157, the purchases of available-for-sale securities of \$11,554, purchases of other investments of approximately \$967, and the purchase of \$480 in property and equipment offset by redemptions of time deposits of \$5,243, the proceeds from sales of available-for-sale securities of \$3,931. Net cash provided by financing activities totaled \$18,743, which was primarily due to \$20,082 from the issuance of common stock and \$1,375 from the exercise of common stock warrants offset by \$3,151 in cash dividends paid.

Investments

The main objective of our investment policy is to maximize our after-tax investment income with a minimum of risk given the current financial market. Our excess cash is invested primarily in money market accounts and available-for-sale investments.

At June 30, 2013, we have \$50,454 of available-for-sale investments, which are carried at fair value. Changes in the general interest rate environment affect the returns available on new fixed-maturity investments. While a rising interest rate environment enhances the returns available on new investments, it reduces the market value of existing fixed-maturity investments and thus the availability of gains on disposition. A decline in interest rates reduces the returns available on new fixed-maturity investments but increases the market value of existing fixed-maturity investments, creating the opportunity for realized investment gains on disposition.

Table of Contents

With the exception of large national banks, it is our current policy not to maintain cash deposits of more than an aggregate of \$5,500 in any one bank at any time. From time to time, we may have in excess of \$5,500 of cash designated for investment and on deposit at a single national brokerage firm. In the future, we may alter our investment policy to include or increase investments in federal, state and municipal obligations, preferred and common equity securities and real estate mortgages, as permitted by applicable law, including insurance regulations.

OFF-BALANCE SHEET ARRANGEMENTS

As of June 30, 2013 and December 31, 2012, we had no off-balance sheet arrangements as defined in Item 303(a)(4) of SEC Regulation S-K.

CONTRACTUAL OBLIGATIONS

The following table summarizes our contractual obligations as of June 30, 2013:

	Payment Due by Period (in thousands)				
	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
Operating lease (1)	\$ 1,194	116	250	276	552
Service agreement (1)	215	21	45	50	99
Long-term debt obligations (2)	61,985	3,220	6,440	6,440	45,885
Total	\$ 63,394	3,357	6,735	6,766	46,536

(1) Represents the lease and maintenance service agreement for office space in Noida, India. Liabilities were converted from India Rupee to U.S. dollars using the July 1, 2013 exchange rate, the first available rate subsequent to June 30, 2013, which was a non-business day.

(2) Amounts represent principal and interest payments over the life of the Senior Notes due January 30, 2020.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We have prepared our consolidated financial statements in accordance with U.S. GAAP. The preparation of these consolidated financial statements requires us to make estimates and judgments to develop amounts reflected and disclosed in our financial statements. Material estimates that are particularly susceptible to significant change in the near term are related to our Reserves, which include amounts estimated for claims incurred but not yet reported, income taxes and reinsurance contracts with retrospective provisions.

Reserves for Losses and Loss Adjustment Expenses

Our liability for losses and loss adjustment expense (Reserves) are specific to property insurance, which is HCPCI s only line of business. The Reserves include both case reserves on reported claims and our reserves for incurred but not reported (IBNR) losses. At each period end date, the balance of our Reserves is based on our best estimate of the ultimate cost of each claim for those known cases and the IBNR loss reserves are estimated based primarily on our historical experience. Changes in the estimated liability are charged or credited to operations as the losses and loss adjustment expenses are adjusted.

Table of Contents

The IBNR represents our estimate of the ultimate cost of all claims that have occurred but have not been reported to us, and in some cases may not yet be known to the insured, and future development of reported claims. Estimating the IBNR component of our Reserves involves considerable judgment on the part of management. At June 30, 2013, \$25,068 of the total \$44,749 we have reserved for losses and loss adjustment expenses is specific to our estimate of IBNR. The remaining \$19,681 relates to known cases which have been reported but not yet fully settled in which case we have booked a reserve based on our best estimate of the ultimate cost of each claim. At June 30, 2013, \$9,239 of the \$19,681 in reserves for known cases relates to claims incurred during prior years.

Our Reserves increased from \$41,168 at December 31, 2012 to \$44,749 at June 30, 2013. The \$3,581 increase in our Reserves is comprised of \$22,110 in new reserves specific to the 2013 loss year offset by reductions in our Reserves of \$15,846 for 2012 and \$2,683 for 2011 and prior loss years. The \$22,110 in Reserves established for 2013 claims is primarily due to the increase in our policy count and exposures. The decrease of \$18,529 specific to our 2012 and prior loss-year reserves is due both to settlement of claims and favorable development related to those loss years. Factors that are attributable to this favorable development may include a lower severity of claims than the severity of claims considered in establishing our Reserves, a lower number of new claims reported than anticipated, and actual case development may be more favorable than originally anticipated.

Based on all information known to us, we believe our Reserves at June 30, 2013 are adequate to cover our claims for losses that had occurred as of that date including losses yet to be reported to us. However, these estimates are subject to trends in claim severity and frequency and must continually be reviewed by management. As part of the process, we review historical data and consider various factors, including known and anticipated regulatory and legal developments, changes in social attitudes, inflation and economic conditions. As experience develops and other data becomes available, these estimates are revised, as required, resulting in increases or decreases to the existing unpaid losses and loss adjustment expenses. Adjustments are reflected in the results of operations in the period in which they are made and the liabilities may deviate substantially from prior estimates.

Economic Impact of Reinsurance Contracts with Retrospective Provisions

The total premium cost of the program to HCI Group is approximately \$134,000 before broker fees. Certain of the reinsurance agreements include retrospective provisions that adjust premiums, increase the amount of future coverage, or result in profit commissions in the event losses are minimal or zero. As a result, we expect to recognize net reinsurance premiums ceded of approximately \$113,000 from June 1, 2013 through May 31, 2014 assuming no losses occur during that period. In accordance with generally accepted accounting principles, we will recognize an asset in the period in which the absence of loss experience gives rise to an increase in future coverage or obligates the reinsurer to pay cash or other consideration under the contract. On the contrary, we derecognize such asset in the period in which a loss experience arises. Such adjustments to the asset, which accrue throughout the contract term, will negatively impact our operating results when a catastrophic loss event occurs.

As of June 30, 2013, we have recognized a benefit of \$1,301 in connection with these agreements, an amount that would be charged to earnings in the event we experience a catastrophic loss that exceeds the coverage limits provided under such agreements.

Table of Contents

In addition to Reserves and reinsurance contracts, we believe our accounting policies specific to premium revenue recognition, deferred policy acquisition costs, income taxes, and stock-based compensation expense involve our most significant judgments and estimates material to our consolidated financial statements. These accounting estimates and related risks that we consider to be our critical accounting estimates are more fully described in our Annual Report on Form 10-K, which we filed with the SEC on March 14, 2013. For the six months ended June 30, 2013, there have been no material changes with respect to any of our critical accounting policies.

RECENT ACCOUNTING PRONOUNCEMENTS

For information with respect to recent accounting pronouncements and the impact of these pronouncements on our consolidated financial statements, see Note 2 to our Notes to Consolidated Financial Statements.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our investment portfolio at June 30, 2013 included fixed-maturity and equity securities, the purposes of which are not for trading or speculation. Our main objective is to maximize after-tax investment income and maintain sufficient liquidity to meet policyholder obligations while minimizing market risk which is the potential economic loss from adverse fluctuations in securities prices. We consider many factors including credit ratings, investment concentrations, regulatory requirements, anticipated fluctuation of interest rates, durations and market conditions in developing investment strategies. Investment securities are managed by investment companies and are overseen by the investment committee appointed by our board of directors. Our investment portfolios are primarily exposed to interest rate risk, credit risk and equity price risk. We classify our fixed-maturity and equity securities as available-for-sale and report any unrealized gains or losses, net of deferred income taxes, as a component of other comprehensive income within our stockholders' equity. As such, any material temporary changes in their fair value can adversely impact the carrying value of our stockholders' equity.

Interest Rate Risk

Our fixed-maturity securities are sensitive to potential losses resulting from unfavorable changes in interest rates. We manage the risk by analyzing anticipated movement in interest rates and considering our future capital needs.

The following table illustrates the impact of hypothetical changes in interest rates to the fair value of our fixed-maturity securities at June 30, 2013 (in thousands):

Hypothetical Change in Interest Rates	Estimated Fair Value	Change in Estimated Fair Value	Percentage Increase (Decrease) in Estimated Fair Value
300 basis point increase	\$ 35,145	\$ (4,974)	(12.40)%
200 basis point increase	36,802	(3,317)	(8.27)%
100 basis point increase	38,460	(1,659)	(4.13)%
100 basis point decrease	41,745	1,626	4.05%
200 basis point decrease	43,268	3,149	7.85%
300 basis point decrease	44,422	4,303	10.72%

Table of Contents*Credit Risk*

Credit risk can expose us to potential losses arising principally from adverse changes in the financial condition of the issuers of our fixed-maturity securities. We mitigate the risk by investing in fixed-maturity securities that are generally investment grade and by diversifying our investment portfolio to avoid concentrations in any single issuer or business sector.

The following table presents the composition of our fixed-maturity securities, by rating, at June 30, 2013 (in thousands):

Comparable Rating	Amortized Cost	% of Total Amortized Cost	Estimated Fair Value	% of Total Estimated Fair Value
AAA	\$ 11,019	28	\$ 11,527	29
AA+, AA, AA-	4,685	12	4,938	12
A+, A, A-	12,263	32	12,394	31
BBB+, BBB, BBB-	9,631	25	9,970	25
BB+, BB	1,240	3	1,290	3
Total	\$ 38,838	100	\$ 40,119	100

Equity Price Risk

Our equity investment portfolio at June 30, 2013 included common stocks, perpetual preferred stocks, mutual funds and exchange traded funds. We may incur potential losses due to adverse changes in equity security prices. We manage the risk primarily through industry and issuer diversification and asset allocation techniques.

The following table illustrates the composition of our equity securities at June 30, 2013 (in thousands):

	Estimated Fair Value	% of Total Estimated Fair Value
Stocks by sector:		
Financial	\$ 2,483	24
Energy	988	10
Consumer	556	5
Other (1)	423	4
	4,450	43
Mutual funds and Exchange traded funds by type:		
Debt	5,626	54
Equity	259	3
	5,885	57
Total	\$ 10,335	100

(1) Represents an aggregate of less than 5% sectors.

Foreign Currency Exchange Risk

At June 30, 2013, we did not have any material exposure to foreign currency related risk.

ITEM 4 CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our Chief Executive Officer (our principal executive officer) and our Chief Financial Officer (our principal financial officer), we have evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report, and, based on this evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that these disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal controls over financial reporting during the quarter ended June 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on Effectiveness of Controls and Procedures

In designing and evaluating the disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, implementation of possible controls and procedures depends on management's judgment in evaluating their benefits relative to costs.

PART II OTHER INFORMATION

ITEM 1 LEGAL PROCEEDINGS

The Company is a party to claims and legal actions arising routinely in the ordinary course of our business. Although we cannot predict with certainty the ultimate resolution of the claims and lawsuits asserted against us, we do not believe that any currently pending legal proceedings to which we are a party will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

ITEM 1a RISK FACTORS

With the exception of the item described below, there have been no material changes from the risk factors previously disclosed in the section entitled "Risk Factors" in our Form 10-K, which was filed with the SEC on March 14, 2013.

HCI Group, Inc. depends on the ability of its subsidiaries to generate and transfer funds to meet its Senior Notes obligation.

HCI Group, Inc. does not have significant revenue generating operations of its own. Our ability to make scheduled payments on our Senior Notes obligation depends on the financial condition and operating performance of our subsidiaries. If the funds we receive from our subsidiaries are insufficient to meet our Senior Notes obligation, we may be required to raise funds through the issuance of additional debt or equity securities or a reduction in or suspension of dividend payments, or the sale of assets.

June 30, 2013	7,673	\$ 30.58	n/a	n/a

(a) As of June 30, 2013, there was no established share repurchase plan.

Working Capital Restrictions and Other Limitations on Payment of Dividends

We are not subject to working capital restrictions or other limitations on the payment of dividends. Our insurance subsidiary, however, is subject to restrictions on the dividends it may pay. Those restrictions could impact HCI's ability to pay future dividends.

Under Florida law, a domestic insurer such as our insurance subsidiary, HCPCI, may not pay any dividend or distribute cash or other property to its stockholder except out of that part of its available and accumulated capital and surplus funds which is derived from realized net operating profits on its business and net realized capital gains. Additionally, Florida statutes preclude our insurance subsidiary from making dividend payments or distributions to its stockholder, HCI, without prior approval of the Florida Office of Insurance Regulation if the dividend or distribution would exceed the larger of (1) the lesser of (a) 10.0% of its capital surplus or (b) net income, not including realized capital gains, plus a two year carry forward, (2) 10.0% of capital surplus with dividends payable constrained to unassigned funds minus 25% of unrealized capital gains or (3) the lesser of (a) 10.0% of capital surplus or (b) net investment income plus a three year carry forward with dividends payable constrained to unassigned funds minus 25% of unrealized capital gains.
