(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2014

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 0-23837

SurModics, Inc.

(Exact name of registrant as specified in its charter)

MINNESOTA
(State of

incorporation)

41-1356149
(I.R.S. Employer

Identification No.)

9924 West 74th Street

Eden Prairie, Minnesota 55344

(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: (952) 500-7000

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The number of shares of the registrant's Common Stock, \$.05 par value per share, outstanding as of April 30, 2014 was 13,594,564.

Table of Contents

SurModics, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

Period Ended March 31, 2014

(Unaudited)

1. Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S.) (GAAP) and, in the opinion of management, reflect all adjustments, consisting solely of normal recurring adjustments, needed to fairly present the financial results of SurModics, Inc. and subsidiaries (SurModics or the Company) for the periods presented. These financial statements include some amounts that are based on management s best estimates and judgments. These estimates may be adjusted as more information becomes available, and any adjustment could be significant. The impact of any change in estimates is included in the determination of earnings in the period in which the change in estimate is identified. The results of operations for the three and six months ended March 31, 2014 are not necessarily indicative of the results that may be expected for the entire 2014 fiscal year.

In accordance with the rules and regulations of the U.S. Securities and Exchange Commission (SEC), the Company has omitted footnote disclosures that would substantially duplicate the disclosures contained in the audited financial statements of the Company. These unaudited condensed consolidated financial statements should be read together with the audited consolidated financial statements for the fiscal year ended September 30, 2013, and footnotes thereto included in the Company s Form 10-K as filed with the SEC on December 11, 2013.

2. Key Accounting Policies

Revenue recognition

The Company recognizes revenue when all of the following criteria are met: (1) persuasive evidence of an arrangement exists; (2) shipment has occurred or delivery has occurred if the terms specify destination; (3) the sales price is fixed or determinable; and (4) collectability is reasonably assured. When there are additional performance requirements, revenue is recognized when all such requirements have been satisfied. Under revenue arrangements with multiple deliverables, the Company recognizes each separable deliverable as it is earned.

The Company derives its revenue from three primary sources: (1) royalties and license fees from licensing its proprietary drug delivery and surface modification technologies and *in vitro* diagnostic formats to customers; (2) the sale of reagent chemicals to licensees and the sale of stabilization products, antigens, substrates and surface coatings to the diagnostic and biomedical research markets; and (3) research and commercial development fees generated on customer projects.

Royalties and license fees. The Company licenses technology to third parties and collects royalties. Royalty revenue is generated when a customer sells products incorporating the Company s licensed technologies. Royalty revenue is recognized as licensees report it to the Company, and payment is typically submitted concurrently with the report. For stand-alone license agreements, up-front license fees are recognized over the term of the related licensing agreement. Minimum royalty fees are recognized in the period earned.

Revenue related to a performance milestone is recognized upon the achievement of the milestone, as defined in the respective agreements and provided the following conditions have been met:

The milestone payment is non-refundable;

The milestone involved a significant degree of risk, and was not reasonably assured at the inception of the arrangement;

Accomplishment of the milestone involved substantial effort;

The amount of the milestone payment is commensurate with the related effort and risk; and

A reasonable amount of time passed between the initial license payment and the first and subsequent milestone payments.

If these conditions have not been met, the milestone payment is deferred and recognized over the term of the agreement.

Product sales. Product sales to third parties consist of direct and distributor sales and are recognized at the time of shipment. The Company's sales terms provide no right of return outside of the standard warranty policy. Payment terms are generally set at 30-45 days.

Research and development. The Company performs third-party research and development activities, which are typically provided on a time and materials basis. Generally, revenue for research and development is recorded as performance progresses under the applicable contract.

Table of Contents

Arrangements with multiple deliverables. Revenue arrangements with multiple deliverables require the Company to:

- (i) disclose whether multiple deliverables exist, how the deliverables in an arrangement should be separated, and how the consideration should be allocated;
- (ii) allocate revenue in an arrangement using estimated selling prices (ESP) of deliverables if a vendor does not have vendor-specific objective evidence of selling price (VSOE) or third-party evidence of selling price (TPE); and
- (iii) allocate revenue using the relative selling price method.

The Company accounts for revenue using a multiple attribution model in which consideration allocated to research and development activities is recognized as performed, and milestone payments are recognized when the milestone events are achieved, when such activities and milestones are deemed substantive. Accordingly, in situations where a unit of accounting includes both a license and research and development activities, and when a license does not have stand-alone value, the Company applies a multiple attribution model in which consideration allocated to the license is recognized ratably, consideration allocated to research and development activities is recognized as performed and milestone payments are recognized when the milestone events are achieved, when such activities and milestones are deemed substantive.

The Company enters into license and development arrangements that may consist of multiple deliverables which could include a license(s) to SurModics technology, research and development activities, manufacturing services, and product sales based on the needs of its customers. For example, a customer may enter into an arrangement to obtain a license to SurModics intellectual property which may also include research and development activities, and supply of products manufactured by SurModics. For these services provided, SurModics could receive upfront license fees upon signing of an agreement and granting the license, fees for research and development activities as such activities are performed, milestone payments contingent upon advancement of the product through development and clinical stages to successful commercialization, fees for manufacturing services and supply of product, and royalty payments based on customer sales of product incorporating SurModics technology. The Company's license and development arrangements generally do not have refund provisions if the customer cancels or terminates the agreement. Typically all payments made are non-refundable.

The Company is required to evaluate each deliverable in a multiple element arrangement for separability. The Company is then required to allocate revenue to each separate deliverable using a hierarchy of VSOE, TPE, or ESP. In many instances, the Company is not able to establish VSOE for all deliverables in an arrangement with multiple elements. This may be a result of the Company infrequently selling each element separately or having a limited history with multiple element arrangements. When VSOE cannot be established, the Company attempts to establish a selling price of each element based on TPE. TPE is determined based on competitor prices for similar deliverables when sold separately.

When the Company is unable to establish a selling price using VSOE or TPE, the Company uses ESP in its allocation of arrangement consideration. The objective of ESP is to determine the price at which the Company would transact a sale if the product or service were sold on a stand-alone basis. ESP is generally used for highly customized offerings.

The Company determines ESP for undelivered elements by considering multiple factors including, but not limited to, market conditions, competitive landscape and past pricing arrangements with similar features. The determination of ESP is made through consultation with the Company's management, taking into consideration the marketing strategies for each business unit.

New Accounting Pronouncements

Accounting Standards to be Adopted

In July 2013, the Financial Accounting Standards Board issued amended guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, similar to a tax loss, or tax credit carryforward exists. The guidance requires an unrecognized tax benefit, or a portion of an unrecognized tax benefit, be presented as a reduction of a deferred tax asset when a net operating loss carryforward, or similar tax loss, or tax credit carryforward exists, with certain exceptions. This accounting guidance is effective prospectively for the Company beginning in the first quarter of fiscal 2015, with early adoption permitted. While the Company is currently evaluating the impact, its adoption is not expected to have a material impact on the Company's financial position, results of operation or cash flows.

No other new accounting pronouncement issued or effective has had, or is expected to have, a material impact on the Company's consolidated financial statements.

Table of Contents**3. Discontinued Operations**

Beginning with the first quarter of fiscal 2012, the results of operations, cash flows, assets and liabilities of SurModics SMP, LLC (SurModics Pharmaceuticals), which were previously reported in the Pharmaceuticals segment as a separate operating segment, are classified as discontinued operations.

On November 1, 2011, the Company entered into a definitive agreement (the Purchase Agreement) to sell substantially all of the assets of its wholly-owned subsidiary, SurModics Pharmaceuticals, to Evonik Degussa Corporation (Evonik). Under the terms of the Purchase Agreement, the entire portfolio of products and services of SurModics Pharmaceuticals, including the Company's Current Good Manufacturing Practices (cGMP) development and manufacturing facility located in Birmingham, Alabama, were sold. The Company retained all accounts receivable and the majority of liabilities associated with SurModics Pharmaceuticals incurred prior to closing. The sale (the Pharma Sale) closed on November 17, 2011. The total consideration received from the Pharma Sale was \$30.0 million in cash. As part of the Pharma Sale, SurModics agreed not to compete in the restricted business (as defined in the Purchase Agreement) for a period of five years and to indemnify Evonik against specified losses in connection with SurModics Pharmaceuticals, including certain contingent consideration obligations related to the acquisition by SurModics Pharmaceuticals of the portfolio of intellectual property and drug delivery projects from PR Pharmaceuticals, Inc. (PR Pharma) SurModics retained responsibility for repayment obligations related to an agreement with various governmental authorities associated with creation of jobs in Alabama. These obligations were settled or terminated in the second and third quarters of fiscal 2013 with payments totaling \$325,000 repaid to the governmental authorities and a gain of \$1.3 million recognized in the fiscal year ended September 30, 2013.

The following is a summary of the operating results of SurModics Pharmaceuticals discontinued operations for the three and six months ended March 31, 2014 and 2013:

<i>(Dollars in thousands)</i>	Three months ended		Six months ended	
	March 31,		March 31,	
	2014	2013	2014	2013
Income (loss) from discontinued operations	\$	\$ 1,015	\$	\$ 1,015
Income tax provision		(333)		(333)
Income (loss) from discontinued operations, net of income taxes	\$	\$ 682	\$	\$ 682

The major classes of assets and liabilities of discontinued operations as of March 31, 2014 and September 30, 2013 were as follows:

<i>(Dollars in thousands)</i>	March 31,	September 30,
	2014	2013
Other current assets	\$ 46	\$ 46
Current assets of discontinued operations	46	46
Total assets of discontinued operations	\$ 46	\$ 46

Other current liabilities payable	\$	126	\$	139
Current liabilities of discontinued operations		126		139
Total liabilities of discontinued operations	\$	126	\$	139

The assets and liabilities of discontinued operations as of March 31, 2014 are based on accruals associated with the Southern Research Institute (SRI) litigation matter and a related deferred tax asset balance. See Note 17 for further discussion of the SRI litigation matter.

4. Fair Value Measurements

The accounting guidance on fair value measurements defines fair value, establishes a framework for measuring fair value under GAAP, and expands disclosures about fair value measurements. The guidance is applicable for all financial assets and financial liabilities and for all nonfinancial assets and nonfinancial liabilities recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). Fair value is defined as the exchange price that would be received from selling an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Company considers the principal or most advantageous market in which it would transact and also considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions and risk of nonperformance.

Table of Contents*Fair Value Hierarchy*

Accounting guidance on fair value measurements requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1 Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.

The Company's Level 2 assets consist of money market funds, U.S. Treasury securities, corporate bonds, municipal bonds, U.S. government agency securities, government agency and municipal securities and certain asset-backed and mortgage-backed securities. Fair market values for these assets are based on quoted vendor prices and broker pricing where all significant inputs are observable. The Company performs limited tests of the quoted vendor prices based on available U.S. Treasury security pricing on government websites as a means of validating the third party pricing. To ensure the accuracy of quoted vendor prices and broker pricing, the Company performs regular reviews of investment returns to industry benchmarks and sample tests of individual securities to validate quoted vendor prices with other available market data.

Level 3 Unobservable inputs to the valuation methodology that are supported by little or no market activity and that are significant to the measurement of the fair value of the assets or liabilities. Level 3 assets and liabilities include those whose fair value measurements are determined using pricing models, discounted cash flow methodologies or similar valuation techniques, as well as significant management judgment or estimation.

There were no Level 3 assets at March 31, 2014, December 31, 2013, September 30, 2013 or March 31, 2013 and there was no Level 3 activity during the first six months of fiscal 2014 or fiscal 2013.

In valuing assets and liabilities, the Company is required to maximize the use of quoted market prices and minimize the use of unobservable inputs. The Company did not significantly change its valuation techniques from prior periods.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

In instances where the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability. The following table presents information about the Company's assets and liabilities measured at fair value on a recurring basis as of March 31, 2014:

<i>(Dollars in thousands)</i>	Quoted Prices in Active Markets for Identical	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value as of March 31, 2014
-------------------------------	--	--	--	--

**Instruments
(Level 1)**

Assets:			
Cash equivalents	\$	\$ 7,602	\$ 7,602
Available-for-sale debt securities:			
U.S. government and government agency obligations		25,066	25,066
Mortgage-backed securities		5,223	5,223
Municipal bonds		1,834	1,834
Asset-backed securities		6,380	6,380
Corporate bonds		4,316	4,316
Total assets measured at fair value	\$	\$ 50,421	\$ 50,421

Table of Contents

The following table presents information about the Company's assets and liabilities measured at fair value on a recurring basis as of September 30, 2013:

<i>(Dollars in thousands)</i>	Quoted Prices in			Total Fair
	Active	Significant	Significant	Value as of
	Markets	Other	Unobservable	September 30,
	for	Observable	Inputs	2013
	Identical	Inputs	(Level	
	Instruments	(Level 2)	3)	
	(Level 1)	(Level 2)	(Level 3)	
Assets:				
Cash equivalents	\$	\$ 4,402	\$	\$ 4,402
Available-for-sale debt securities:				
U.S. government and government agency obligations		22,890		22,890
Mortgage-backed securities		8,216		8,216
Municipal bonds		3,059		3,059
Asset-backed securities		3,537		3,537
Corporate bonds		4,907		4,907
Total assets measured at fair value	\$	\$ 47,011	\$	\$ 47,011

Valuation Techniques

The valuation techniques used to measure the fair value of assets are as follows:

Cash equivalents – These assets are classified as Level 2 and are carried at historical cost which is a reasonable estimate of fair value because of the relatively short time between origination of the instrument and its expected realization.

Available-for-sale debt securities – These securities are classified as Level 2 and include various types of debt securities. These securities are valued based on quoted vendor prices in active markets underlying the securities.

5. Investments

Investments consist principally of U.S. government and government agency obligations, mortgage-backed securities and corporate and municipal debt securities and are classified as available-for-sale at March 31, 2014 and September 30, 2013. Available-for-sale securities are reported at fair value with unrealized gains and losses, net of tax, excluded from the condensed consolidated statements of income and reported in the condensed consolidated statements of comprehensive income as well as a separate component of stockholders' equity in the condensed consolidated balance sheets, except for other-than-temporary impairments, which are reported as a charge to current earnings. A loss would be recognized when there is an other-than-temporary impairment in the fair value of any individual security classified as available-for-sale, with the associated net unrealized loss reclassified out of accumulated other comprehensive income with a corresponding adjustment to other income (loss). This adjustment results in a new cost basis for the investment. Interest earned on debt securities, including amortization of premiums and accretion of discounts, is included in other income (loss). Realized gains and losses from the sales of debt securities, which are included in other income (loss), are determined using the specific identification method.

Edgar Filing: SURMODICS INC - Form 10-Q

The amortized cost, unrealized holding gains and losses, and fair value of available-for-sale securities as of March 31, 2014 and September 30, 2013 were as follows:

<i>(Dollars in thousands)</i>	March 31, 2014			Fair Value
	Amortized Cost	Unrealized Gains	Unrealized Losses	
U.S. government and government agency obligations	\$ 25,084	\$ 10	\$ (28)	\$ 25,066
Mortgage-backed securities	5,226	43	(46)	5,223
Municipal bonds	1,827	10	(3)	1,834
Asset-backed securities	6,375	13	(8)	6,380
Corporate bonds	4,321	6	(11)	4,316
Total	\$ 42,833	\$ 82	\$ (96)	\$ 42,819

Table of Contents

<i>(Dollars in thousands)</i>	September 30, 2013			Fair Value
	Amortized Cost	Unrealized Gains	Unrealized Losses	
U.S. government and government agency obligations	\$ 22,889	\$ 28	\$ (27)	\$ 22,890
Mortgage-backed securities	8,149	118	(51)	8,216
Municipal bonds	3,049	15	(5)	3,059
Asset-backed securities	3,539	6	(8)	3,537
Corporate bonds	4,896	17	(6)	4,907
Total	\$ 42,522	\$ 184	\$ (97)	\$ 42,609

As of March 31, 2014 and September 30, 2013, the Company concluded that the unrealized losses related to the available-for-sale securities shown above were not other-than-temporary as the Company does not have the intent to sell, nor is it more likely than not that the Company will be required to sell, before recovery of their amortized cost.

The amortized cost and fair value of investments by contractual maturity at March 31, 2014 were as follows:

<i>(Dollars in thousands)</i>	Amortized Cost	Fair Value
Debt securities due within:		
One year	\$ 25,394	\$ 25,399
One to five years	11,207	11,194
Five years or more	6,232	6,226
Total	\$ 42,833	\$ 42,819

The following table summarizes sales of available-for-sale securities:

<i>(Dollars in thousands)</i>	Three months ended		Six months ended	
	March 31, 2014	March 31, 2013	March 31, 2014	March 31, 2013
Proceeds from sales	\$ 89,647	\$ 25,175	\$ 92,514	\$ 25,980
Gross realized gains	\$ 125	\$ 161	\$ 126	\$ 165
Gross realized losses	\$	\$	\$ (1)	\$

6. Inventories

Inventories are principally stated at the lower of cost or market using the specific identification method and include direct labor, materials and overhead. Inventories consisted of the following components:

<i>(Dollars in thousands)</i>	March 31, 2014	September 30, 2013
-------------------------------	----------------	--------------------

Edgar Filing: SURMODICS INC - Form 10-Q

Raw materials	\$ 1,037	\$ 1,378
Finished products	1,721	1,950
Total	\$ 2,758	\$ 3,328

7. Other Assets

Other assets consist principally of strategic investments as follows:

<i>(Dollars in thousands)</i>	March 31, 2014	September 30, 2013
CeloNova BioSciences, Inc.	\$ 1,500	\$ 1,500
ThermopeutiX, Inc.	1,185	1,185
ViaCyte, Inc.	479	479
Other	2	2
Other assets, net	\$ 3,166	\$ 3,166

Table of Contents

In February 2011, the stent technology of Nexeon MedSystems, Inc. (Nexeon) was acquired by CeloNova BioSciences, Inc. (CeloNova). Prior to the acquisition by CeloNova, Nexeon created a wholly-owned subsidiary, Nexeon Stent, to hold the company's stent-related assets. Nexeon distributed to its stockholders the Nexeon Stent stock which was exchanged for Series B-1 preferred shares of CeloNova. CeloNova is a privately-held Texas-based medical technology company that is marketing a variety of medical products. The Company's investment in CeloNova, which is accounted for under the cost method, represents less than a 2% ownership interest. The Company does not exert significant influence over CeloNova's operating or financial activities.

The Company has invested a total of \$1.2 million in TherموpeutiX, Inc. (TherموpeutiX), a California-based early stage company developing novel medical devices for the treatment of vascular and neurovascular diseases. In addition to the investment, SurModics has licensed its hydrophilic and hemocompatible coating technologies to TherموpeutiX for use with its devices. The Company's investment in TherموpeutiX, which is accounted for under the cost method, represents an ownership interest of less than 20%. The Company does not exert significant influence over TherموpeutiX's operating or financial activities.

The Company has invested a total of \$5.3 million in ViaCyte, Inc. (ViaCyte), a privately-held California-based biotechnology firm that is developing a unique treatment for diabetes using coated islet cells, the cells that produce insulin in the human body. In fiscal 2006, the Company determined that its investment in ViaCyte was impaired and that the impairment was other than temporary. Accordingly, the Company recorded an impairment loss of \$4.7 million. In the second quarter of fiscal 2013, the Company recorded an additional other-than-temporary impairment loss on this investment totaling \$0.1 million based on a current financing round and market valuations. The balance of the investment of \$0.5 million, which is accounted for under the cost method, represents less than a 1% ownership interest. The Company does not exert significant influence over ViaCyte's operating or financial activities.

The Company had invested a total of \$2.5 million in Vessix Vascular, Inc. (Vessix) and recognized an other-than-temporary impairment loss on this investment totaling \$2.4 million in fiscal 2010, based on market valuations and a pending financing round for Vessix. Vessix was purchased by Boston Scientific Corporation in November 2012. The Company recorded a gain of approximately \$1.2 million in the condensed consolidated statements of income gains on sale of strategic investments line, on the sale of this investment in the first quarter of fiscal 2013. In the first six months of fiscal 2014, the Company recorded a \$0.7 million gain upon achievement by Vessix of a clinical milestone. In addition, a sales milestone amount totaling less than \$0.1 million has been received in the third quarter of fiscal 2014. Total remaining potential maximum additional proceeds of \$3.4 million may be received in fiscal 2015 through fiscal 2017 depending on Vessix's achievement of future sales milestones. No amounts have been recorded associated with these future milestones given the level of uncertainty that exists. Any potential additional income will be recognized once the milestones are achieved.

The total carrying value of cost method investments is reviewed quarterly for changes in circumstances or the occurrence of events that suggest the Company's investment may not be recoverable. The fair value of cost method investments is not adjusted if there are no identified events or changes in circumstances that may have a material adverse effect on the fair value of the investment.

The Company recognized revenue of less than \$0.1 million for the three months ended March 31, 2014 and 2013, respectively, from activity with companies in which it had a strategic investment. The Company recognized revenue of less than \$0.1 million and approximately \$0.1 million for the six months ended March 31, 2014 and 2013, respectively, from activity with companies in which it had a strategic investment.

Table of Contents**8. Intangible Assets**

Intangible assets consist principally of acquired patents and technology, customer relationships, licenses and trademarks. For the three months ended March 31, 2014 and 2013, the Company recorded amortization expense of \$0.2 million for each period. For the six months ended March 31, 2014 and 2013, the Company recorded amortization expense of \$0.4 million for each period.

Intangible assets consisted of the following:

<i>(Dollars in thousands)</i>	March 31, 2014			
	Weighted Average Original Life (Years)	Gross Carrying Amount	Accumulated Amortization	Net
Definite-lived intangible assets:				
Customer lists	9.0	\$ 4,857	\$ (3,543)	\$ 1,314
Core technology	8.0	530	(442)	88
Patents and other	16.8	2,256	(921)	1,335
Subtotal		7,643	(4,906)	2,737
Unamortized intangible assets:				
Trademarks		580		580
Total		\$ 8,223	\$ (4,906)	\$ 3,317

<i>(Dollars in thousands)</i>	September 30, 2013			
	Weighted Average Original Life (Years)	Gross Carrying Amount	Accumulated Amortization	Net
Definite-lived intangible assets:				
Customer lists	9.0	\$ 4,857	\$ (3,274)	\$ 1,583
Core technology	8.0	530	(409)	121
Patents and other	16.8	2,256	(852)	1,404
Subtotal		7,643	(4,535)	3,108
Unamortized intangible assets:				
Trademarks		580		580
Total		\$ 8,223	\$ (4,535)	\$ 3,688

Based on the intangible assets in service as of March 31, 2014, estimated amortization expense for the remainder of fiscal 2014 and each of the next five fiscal years is as follows *(Dollars in thousands)*:

Remainder of 2014	\$ 371
2015	731

2016	594
2017	183
2018	137
2019	137

Future amortization amounts presented above are estimates. Actual future amortization expense may be different, as a result of future acquisitions, impairments, changes in amortization periods, or other factors.

9. Goodwill

Goodwill represents the excess of the cost of an acquired entity over the fair value assigned to the assets purchased and liabilities assumed in connection with a company's acquisition. Goodwill is not amortized but is subject, at a minimum, to annual tests for impairment in accordance with accounting guidance for goodwill. The carrying amount of goodwill is evaluated annually, and between annual evaluations if events occur or circumstances change indicating that the carrying amount of goodwill may be impaired.

The \$8.0 million of goodwill at March 31, 2014 and September 30, 2013 is related to the In Vitro Diagnostics reporting unit and represents the gross value from the acquisition of BioFX Laboratories, Inc. (BioFX) in 2007. The goodwill was not impaired based on the outcome of the fiscal 2013 annual impairment test, and there have been no events or circumstances that have occurred in the first six months of fiscal 2014 associated with the In Vitro Diagnostics reporting unit to indicate that the goodwill may be impaired.

Table of Contents**10. Stock-based Compensation**

The Company has stock-based compensation plans under which it grants stock options, restricted stock awards, performance share awards and restricted stock units. Accounting guidance requires all share-based payments to be recognized as an operating expense, based on their fair values, over the requisite service period.

The Company's stock-based compensation expenses were allocated to the following expense categories:

<i>(Dollars in thousands)</i>	Three months ended		Six months ended	
	March 31,		March 31,	
	2014	2013	2014	2013
Product costs	\$ 4	\$ 7	\$ 8	\$ 10
Research and development	46	64	98	87
Selling, general and administrative	1,599	775	2,356	1,141
Total	\$ 1,649	\$ 846	\$ 2,462	\$ 1,238

As of March 31, 2014, approximately \$3.9 million of total unrecognized compensation costs related to non-vested awards is expected to be recognized over a weighted average period of approximately 2.1 years. The unrecognized compensation costs of \$3.9 million above include \$1.4 million based on payout levels associated with performance share awards that are currently anticipated to be fully expensed because the performance conditions are expected to be met at or near target levels.

Stock Option Awards

The Company uses the Black-Scholes option pricing model to determine the weighted average grant date fair value of stock options granted. The weighted average per share fair values of stock options granted during the three months ended March 31, 2014 and 2013 were \$7.61 and \$9.99, respectively. The weighted average per share fair values of stock options granted during the six months ended March 31, 2014 and 2013 were \$8.72 and \$8.69, respectively. The assumptions used as inputs in the model were as follows:

	Three months ended		Six months ended	
	March 31,		March 31,	
	2014	2013	2014	2013
Risk-free interest rates	1.2%	0.7%	1.2%	0.6%
Expected life (years)	4.1	4.8	4.6	4.8
Expected volatility	37.1%	49.1%	44.5%	49.2%
Dividend yield	0.0%	0.0%	0.0%	0.0%

The risk-free interest rate assumption was based on the U.S. Treasury's rates for U.S. Treasury zero-coupon bonds with maturities similar to those of the expected term of the award. The expected life of options granted is determined based on the Company's experience. Expected volatility is based on the Company's stock price movement over a period approximating the expected term. Based on management's judgment, dividend rates are expected to be zero for the expected life of the options. The Company also estimates forfeitures of options granted, which are based on historical

experience.

Non-qualified stock options are granted at fair market value on the date of grant. Non-qualified stock options expire in seven to ten years or upon termination of employment or service as a Board member. Non-qualified stock options generally become exercisable with respect to 25% of the shares on each of the first four anniversaries following the grant date with Board member options vesting on a prorated basis within the one-year period following the grant date.

The total pre-tax intrinsic value of options exercised during the three months and six months ended March 31, 2014 was \$0.9 million and \$1.3 million, respectively. The total pre-tax intrinsic value of options exercised during the three months and six months ended March 31, 2013 was less than \$0.1 million in each period. The intrinsic value represents the difference between the exercise price and the fair market value of the Company's common stock on the last day of the respective fiscal period end.

The Company modified stock option awards granted to Board members in the three months ended March 31, 2014, which resulted in acceleration of the stock option vesting period. The modification changed the vesting period to pro-rata over a 12-month service period and resulted in an increase to stock option related expense of \$0.6 million in the three and six months ended March 31, 2014.

Table of Contents*Restricted Stock Awards*

The Company has entered into restricted stock agreements with certain key employees, covering the issuance of common stock (Restricted Stock). Under accounting guidance these shares are considered to be non-vested shares. The Restricted Stock is released to the key employees if they are employed by the Company at the end of the vesting period. Compensation has been recognized for the estimated fair value of the common shares and is being charged to income over the vesting term. The stock-based compensation table above includes Restricted Stock expenses recognized related to these awards, which totaled \$0.2 million during the three and six months ended March 31, 2014, respectively, and less than \$0.1 million during the three and six months ended March 31, 2013, respectively. During the three months ended on March 31, 2014, the Company granted an award of \$0.2 million to the former Chairman of its Board of Directors in connection with his retirement from the Board and in recognition of his contributions to the Company during his years of service.

Performance Share Awards

The Company has entered into performance share agreements with certain key employees, covering the issuance of common stock (Performance Shares). The Performance Shares vest upon the achievement of all or a portion of certain performance objectives, which must be achieved during the performance period. Performance objectives selected by the Organization and Compensation Committee of the Board of Directors (the Committee) were cumulative earnings per share and cumulative revenue for the three-year performance periods for fiscal 2011 (2011 – 2013), fiscal 2012 (2012 – 2014), fiscal 2013 (2013 – 2015) and fiscal 2014 (2014 – 2016). Assuming that the minimum performance level is attained, the number of shares that may actually vest will vary based on performance from 20% (minimum) to 200% (maximum). Shares will be issued to participants as soon as practicable following the end of the performance periods subject to Committee approval and verification of results. The fiscal 2011 awards were finalized in the three months ended December 31, 2013 and resulted in issuance of 122,053 shares (maximum was 137,066 shares) based on the performance objective results. The compensation cost related to the number of shares to be granted under each performance period is fixed on the grant date, which is the date the performance period begins. Compensation is recognized in each period based on management’s best estimate of the achievement level of the specified performance objectives for Performance Shares. For the three and six months ended March 31, 2014, the Company recognized expenses of \$0.3 million and \$0.5 million, respectively, in each period. For the three and six months ended March 31, 2013, the Company recognized expenses of \$0.4 million and \$0.6 million, respectively. The stock-based compensation table above includes the Performance Shares expenses.

The fair values of the Performance Shares, at target, were \$0.9 million, \$0.9 million and \$0.8 million for grants awarded in fiscal 2014, 2013 and 2012, respectively.

The aggregate number of shares that could be awarded to key employees if the minimum, target and maximum performance goals are met, based upon the fair value at the date of grant is as follows:

Performance Period	Minimum Shares	Target Shares	Maximum Shares
Fiscal 2012 - 2014	12,499	62,497	124,994
Fiscal 2013 - 2015	8,551	42,753	85,506
Fiscal 2014 - 2016	7,861	39,303	78,606

1999 Employee Stock Purchase Plan

Under the 1999 Employee Stock Purchase Plan (*Stock Purchase Plan*), the Company is authorized to issue up to 400,000 shares of common stock. All full-time and part-time employees can choose to have up to 10% of their annual compensation withheld, with a limit of \$25,000, to purchase the Company's common stock at purchase prices defined within the provisions of the *Stock Purchase Plan*. As of March 31, 2014 and 2013, there were less than \$0.1 million of employee contributions in each period included in accrued liabilities in the condensed consolidated balance sheets. Stock compensation expense recognized related to the *Stock Purchase Plan* for the three and six months ended March 31, 2014 and 2013 totaled less than \$0.1 million in each period. The stock-based compensation table above includes the *Stock Purchase Plan* expenses.

Restricted Stock Units

The Company has awarded 24,834 restricted stock units (*RSU*) in fiscal 2014 and 2013 under the 2009 Equity Incentive Plan to non-employee directors with forfeiture of 3,417 *RSU* s in the three months ended March 31, 2014. The *RSU* awards were modified in the second quarter of fiscal 2014 to vest pro-rata over a 12-month service period. This modification resulted in a total expense of \$0.2 million in the three and six months ended March 31, 2014. *RSU* awards are not considered issued or outstanding common stock of the Company until they vest. The estimated fair value of the *RSU* awards was calculated based on the closing market price of SurModics' common stock on the date of grant. Compensation has been recognized for the estimated fair value of the common shares and is being charged to income over the vesting term. Directors can also elect to receive their cash retainers for services to the Board of Directors and its committees in the form of deferred stock units (*DSU*). Certain directors elected this option beginning on January 1, 2013 which has resulted in 9,349 *DSU*s issued with a total value of \$219,000. The *DSU*s are fully vested. The stock-based compensation table above includes *RSU* and *DSU* expenses recognized related to these awards, which totaled \$0.3 million and \$0.4 million during the three months and six months ended March 31, 2014, respectively, and less than \$0.1 million in each period during the three and six months ended March 31, 2013.

Table of Contents**11. Restructuring Charges**

The Company did not incur any restructuring charges during the three and six months ended March 31, 2014 and 2013.

In September 2013 (fiscal 2013), the Company announced a realignment of its business to enhance focus on key growth initiatives. As a result of the organizational change, the Company eliminated approximately 6% of its workforce. These employee terminations occurred across various functions, and the reorganization plan was completed by the end of fiscal 2013. The Company recorded total pre-tax restructuring charges of \$0.5 million in the fourth quarter of fiscal 2013, which consisted of severance pay and benefits expenses.

The following table summarizes the restructuring accrual activity:

<i>(Dollars in thousands)</i>	Employee Severance and Benefits	Facility- Related Costs	Total
Balance at September 30, 2013	\$ 399	\$ 17	\$ 416
Cash payments	(399)	(15)	(414)
Balance at March 31, 2014	\$	\$ 2	\$ 2

The remaining restructuring accrual balance is expected to be paid within the next 12 months and is recorded as a current liability within other current liabilities on the consolidated balance sheet as of March 31, 2014.

12. Revolving Credit Facility

On November 4, 2013, the Company entered into a three-year \$20.0 million secured revolving credit facility. The Company's obligations under the credit facility are secured by substantially all of its and its subsidiaries' assets, other than intellectual property and real estate. Borrowings under the credit facility, if any, will bear interest at a benchmark rate plus a margin ranging from 1.375% to 2.00% based on the Company's leverage ratio. A facility fee is payable on unused commitments at a rate of 0.20% per annum. In connection with the credit facility, the Company is required to maintain financial covenants related to a maximum leverage ratio and a minimum EBITDA amount and nonfinancial covenants. As of March 31, 2014, the Company has no debt outstanding and was in compliance with all financial covenants.

13. Income Per Share Data

Basic income per common share is calculated based on the weighted average number of common shares outstanding during the period. Diluted income per common share is computed by dividing income by the weighted average number of common and common equivalent shares outstanding during the period. The Company's only potentially dilutive common shares are those that result from dilutive common stock options, non-vested stock relating to restricted stock awards, restricted stock units and performance shares.

The following table sets forth the denominator for the computation of basic and diluted income per share (in thousands):

	Three months ended		Six months ended	
	March 31,		March 31,	
	2014	2013	2014	2013
Net income from continuing operations available to common shareholders	\$ 2,459	\$ 3,420	\$ 6,089	\$ 7,668
Basic weighted average shares outstanding	13,538	14,622	13,658	14,639
Dilutive effect of outstanding stock options, non-vested restricted stock, restricted stock units and performance shares	286	292	267	232
Diluted weighted average shares outstanding	13,824	14,914	13,925	14,871

The calculation of weighted average diluted shares outstanding excludes outstanding stock options associated with the right to purchase 0.2 million and 0.3 million shares of common stock for the three months ended March 31, 2014 and 2013, respectively, and 0.4 million and 0.5 million for the six months ended March 31, 2014 and 2013, respectively, as their inclusion would have had an antidilutive effect on diluted income per share.

Table of Contents

During the first six months of fiscal 2014, the Company repurchased 485,577 shares of common stock for a total of \$11.5 million under the then-existing share repurchase authorization of the Board. The entire authorized amount has been used as of March 31, 2014.

14. Income Taxes

The Company recorded income tax provisions associated with income from continuing operations of \$1.2 million and \$0.9 million for the three months ended March 31, 2014 and 2013, respectively, representing effective tax rates of 33.0% and 21.2%, respectively. The Company recorded income tax provisions associated with income from continuing operations of \$2.7 million and \$2.8 million for the six months ended March 31, 2014 and 2013, respectively, representing effective tax rates of 30.5% and 26.7%, respectively. The difference between the U.S. federal statutory tax rate of 35.0% and the Company's effective tax rate for the three and six months ended March 31, 2014 and 2013 reflects the impact of state income taxes, permanent tax items and discrete tax benefits. Discrete tax benefits aggregated less than \$0.1 million and \$0.2 million for the three and six months ended March 31, 2014, respectively, and \$0.4 million and \$0.6 million for the three and six months ended March 31, 2013, respectively. The discrete tax items in the fiscal 2013 periods include a one-time capital gain carryback benefit and retroactive federal R&D tax credits that aggregated \$0.4 million. The three months ended March 31, 2014 reflects the impact of gains from certain debt securities in our available-for-sale investment portfolio and the three months ended March 31, 2013 reflects the impact of gains on the sale of OctoPlus N.V. (OctoPlus) and certain debt securities in our available-for-sale investment portfolio. The six months ended March 31, 2014 reflects the impact of a gain related to a Vessix contingent consideration payment and certain debt securities in our available-for-sale investment portfolio. The six months ended March 31, 2013 reflects the impact of gains on the sale of Vessix, OctoPlus and certain debt securities in our available-for-sale investment portfolio. Each of these gains has had a tax expense recognized which has been offset by the reversal of capital loss valuation allowances.

The Company did not have any discontinued operations activity in the three and six months ended March 31, 2014. The Company recorded an income tax expense from discontinued operations of \$0.3 million for the three and six months ended March 31, 2013 with the effective tax rate applied to discontinued operations of 32.8%.

The total amount of unrecognized tax benefits including interest and penalties that, if recognized, would affect the effective tax rate as of March 31, 2014 and September 30, 2013, respectively, are \$0.9 million and \$1.0 million. Currently, the Company does not expect the liability for unrecognized tax benefits to change significantly in the next 12 months with the above balances classified on the condensed consolidated balance sheets in other long-term liabilities. Interest and penalties related to unrecognized tax benefits are recorded in income tax expense.

The Company files income tax returns, including returns for its subsidiaries, in the U.S. federal jurisdiction and in various state jurisdictions. Uncertain tax positions are related to tax years that remain subject to examination. In the first quarter of fiscal 2014 the Internal Revenue Service commenced an examination of the Company's U.S. income tax return for fiscal 2012. U.S. income tax returns for years prior to fiscal 2010 are no longer subject to examination by federal tax authorities. For tax returns for state and local jurisdictions, the Company is no longer subject to examination for tax years generally before fiscal 2003.

15. Amounts Reclassified Out of Accumulated Other Comprehensive Income

Amounts reclassified out of accumulated other comprehensive income (AOCI) totaled \$0.1 million and \$0.3 million, respectively, on a pre-tax basis for each of the three and six months ended March 31, 2014 and 2013. The amounts reclassified out of AOCI are associated with unrealized gains on available-for-sale securities that were realized on the sale of the securities and are presented in other income, net in the condensed consolidated statements of income.

16. Operating Segments

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, who is the Company's Chief Executive Officer, in deciding how to allocate resources and in assessing performance. For financial accounting and reporting purposes, the Company reports its results for the two reportable segments as follows: (1) the Medical Device unit, which is comprised of surface modification coating technologies to improve access, deliverability, and predictable deployment of medical devices, as well as drug delivery coating technologies to provide site-specific drug delivery from the surface of a medical device, with end markets that include coronary, peripheral, and neuro-vascular, and urology, among others, and (2) the In Vitro Diagnostics unit, which consists of component products and technologies for diagnostic test kits and biomedical research applications, with products that include protein stabilization reagents, substrates, antigens and surface coatings.

Table of Contents

The tables below present segment revenue, operating income and depreciation and amortization, as follows:

<i>(Dollars in thousands)</i>	Three months ended		Six months ended	
	March 31,	March 31,	March 31,	March 31,
	2014	2013	2014	2013
Revenue:				
Medical Device	\$ 10,482	\$ 9,735	\$ 21,031	\$ 20,266
In Vitro Diagnostics	3,122	3,960	6,456	7,280
Total revenue	\$ 13,604	\$ 13,695	\$ 27,487	\$ 27,546
Operating income:				
Medical Device	\$ 5,282	\$ 4,785	\$ 10,610	\$ 10,625
In Vitro Diagnostics	633	1,267	1,303	2,018
Total segment operating income	5,915	6,052	11,913	12,643
Corporate	(2,435)	(1,923)	(4,104)	(3,637)
Total operating income	\$ 3,480	\$ 4,129	\$ 7,809	\$ 9,006
Depreciation and amortization:				
Medical Device	\$ 287	\$ 311	\$ 581	\$ 628
In Vitro Diagnostics	213	218	427	433
Corporate	184	195	372	385
Total depreciation and amortization	\$ 684	\$ 724	\$ 1,380	\$ 1,446

The Corporate category includes expenses for administrative corporate functions, such as executive, corporate accounting, legal, human resources and Board of Directors related, that have not been fully allocated to the Medical Device and In Vitro Diagnostics segments. Corporate also includes expenses, such as litigation, which are not specific to a segment and thus not allocated to the operating segments.

Asset information by segment is not presented because the Company does not provide its chief operating decision maker assets by segment, as the data is not readily available.

17. Commitments and Contingencies

Litigation. From time to time, the Company has been, and may become, involved in various legal actions involving its operations, products and technologies, including intellectual property and employment disputes. The outcomes of these legal actions are not within the Company's complete control and may not be known for prolonged periods of time. In some actions, the claimants seek damages, as well as other relief, including injunctions barring the sale of products that are the subject of the lawsuit, which, if granted, could require significant expenditures or result in lost revenue. The Company records a liability in the consolidated financial statements for these actions when a loss is known or considered probable and the amount can be reasonably estimated. If the reasonable estimate of a known or probable loss is a range, and no amount within the range is a better estimate, the minimum amount of the range is

accrued. If a loss is possible but not known or probable, and can be reasonably estimated, the estimated loss or range of loss is disclosed. In most cases, significant judgment is required to estimate the amount and timing of a loss to be recorded.

Southern Research Institute (SRI) Litigation. On July 31, 2009, the Company's SurModics Pharmaceuticals subsidiary was named as a defendant in litigation pending in the circuit court of Jefferson County, Alabama, between SRI and two of SRI's former employees (the Plaintiffs). In the litigation, the Plaintiffs allege that they contributed to or invented certain intellectual property while they were employed at SRI, and pursuant to SRI's policies then in effect, they are entitled to, among other things, a portion of the purchase price consideration paid by the Company to SRI as part of the Company's acquisition of SurModics Pharmaceuticals (the purchase price claim) pursuant to a stock purchase agreement made effective on July 31, 2007 (the Stock Purchase Agreement). The Plaintiffs have also alleged that they are entitled to a portion of the intellectual property income derived from license agreements with certain customers of SurModics Pharmaceuticals that make use of patents to which the Plaintiffs invented or contributed (the royalty claim). In April 2014, the Alabama Court granted summary judgment in favor of the Company and SRI dismissing (a) all of the claims of one of the Plaintiffs, and (b) the claims of the remaining Plaintiff relating to the purchase price claim. In connection with the royalty claim, the Alabama Court concluded that two license agreements that were entered into with certain customers of SurModics Pharmaceuticals resulted in intellectual property income and that the remaining Plaintiff is entitled to a portion of such income. The Company and the remaining Plaintiff continue to disagree about the exact amount, if any, owed by the Company in connection with the royalty claim. Based on the facts known to date, the Company has recorded a \$100,000 expense in connection with the royalty claim in discontinued operations for the year ended September 30, 2013. There are two named inventors on the patent

Table of Contents

on which the royalty claim is based, one of which is the remaining Plaintiff and the other is not a party to the litigation. Once the amount, if any, of the royalty claim is finally adjudicated, the Company will pay the remaining Plaintiff and the other inventor the amount attributable to such claim. The Company has not recorded additional accruals as the probability of the outcome is currently not determinable and any potential loss is not estimable. Unless this matter is resolved, the parties are expected to proceed to trial in June 2014. The Company plans to vigorously defend its position in this case. Following the Pharma Sale, the Company remains responsible for this litigation and has agreed to indemnify Evonik against certain losses, including those that may be incurred in connection with this litigation.

Pursuant to the Stock Purchase Agreement, the Company has certain rights of indemnification against losses (including without limitation, damages, expenses and costs) incurred as a result of the litigation described above. The Company had recorded cumulative unreimbursed legal expenses totaling \$1.3 million as of June 30, 2013, related to this litigation, within selling, general and administrative expenses from continuing operations in the condensed consolidated statements of income. In June 2011, the Company sued SRI in United States District Court for the District of Minnesota seeking a judicial declaration regarding the scope of the Company's indemnification rights under the Stock Purchase Agreement. In April 2013, the District Court entered a judgment in the Company's favor requiring SRI to indemnify the Company for prior and future legal expenditures related to this matter. On July 30, 2013, the Company and SRI entered into a settlement and release agreement resolving the litigation relating to indemnification rights. The settlement and release agreement does not relate to claims for indemnification under the Stock Purchase Agreement for any substantive liability, judgment, or settlement in or related to the ongoing litigation in Alabama discussed above. The Company received payment of \$1.0 million associated with the historical cumulative unreimbursed legal expenses and recognized the receipt as an expense offset in the fourth quarter ended September 30, 2013. This settlement included \$0.6 million of legal expenses incurred prior to fiscal 2013. Additionally, under the settlement and release agreement, the Company will be reimbursed for 75% of the legal fees, costs and expenses that the Company may incur in the future in connection with the Alabama litigation that are not considered excessive.

InnoRx, Inc. In January 2005, the Company entered into a merger agreement whereby SurModics acquired all of the assets of InnoRx, Inc. (InnoRx), an early stage company developing drug delivery devices and therapies for the ophthalmology market. SurModics will be required to issue up to approximately 480,059 additional shares of its common stock to the stockholders of InnoRx upon the successful completion of the remaining development and commercial milestones involving InnoRx technology acquired in the transaction. The Company has not recorded any accrual for this contingency as of March 31, 2014 as the milestones have not been achieved and the probability of achievement is low.

InnoCore Technologies BV. In March 2006, the Company entered into a license agreement whereby SurModics obtained an exclusive license to a drug delivery coating for licensed products within the vascular field which included peripheral, coronary and neurovascular biodurable stent product. The license requires an annual minimum payment of 200,000 euros (equivalent to \$275,000 using a euro to US \$ exchange rate of 1.3752 as of March 31, 2014) until the last patent expires which is currently estimated to be September 2027. The total minimum future payments associated with this license are approximately \$3.7 million. The license is currently utilized with one of SurModics' drug delivery customers.

PR Pharmaceuticals, Inc. In November 2008, SurModics Pharmaceuticals acquired certain contracts and assets of PR Pharma to enhance its portfolio of drug delivery technologies for the pharmaceutical and biotechnology industries. The Company agreed to indemnify Evonik, for a period of five years, for up to \$2.5 million of contingent consideration obligations to the sellers of PR Pharma related to a future patent issuance milestone when it sold substantially all of the SurModics Pharmaceuticals assets to Evonik on November 17, 2011. The Company has not recorded any accrual for this contingency as of March 31, 2014 as the milestone has not been achieved and the

probability of achievement is low.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion and analysis provides information that we believe is useful in understanding our operating results, cash flows and financial condition. The discussion should be read in conjunction with both the unaudited condensed consolidated financial statements and related notes included in this Form 10-Q, and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2013. This discussion contains various Forward-Looking Statements within the meaning of the Private Securities Litigation Reform Act of 1995. We refer readers to the statement entitled Forward-Looking Statements located at the end of this Item 2.

Overview

SurModics is a leading provider of surface modification and *in vitro* diagnostic technologies to the healthcare industry. In fiscal 2014, our business performance continued to be driven by growth from our Medical Device hydrophilic coatings royalty revenue and product sales. Our In Vitro Diagnostics segment realized decreased demand in the second quarter of fiscal 2014 driven primarily by a shift in order patterns by a few key customers who initiated inventory rebalancing programs and a slowdown in European sales.

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision making group, in deciding how to allocate resources and in assessing performance. For financial accounting and reporting purposes, we report our results for the two reportable segments as follows: (1) the Medical Device unit, which is comprised of surface modification coating technologies to improve access, deliverability, and predictable deployment of medical devices, as well as drug delivery coating technologies to provide site-specific drug delivery from the surface of a medical device, with end markets that include coronary, peripheral, and neurovascular, and urology, among others, and (2) the In Vitro Diagnostics unit, which consists of component products and technologies for diagnostic immunoassay and molecular tests and biomedical research applications, with products that include protein stabilization reagents, substrates, antigens and surface coatings. We made this determination based on how we manage our operations and the information provided to our chief operating decision maker who is our Chief Executive Officer.

We derive our revenue from three primary sources: (1) royalties and license fees from licensing our proprietary surface modification and device drug delivery technologies and *in vitro* diagnostic formats to customers; the vast majority (typically in excess of 90%) of revenue in the royalties and license fees category is in the form of royalties; (2) the sale of reagent chemicals to licensees and the sale of stabilization products, antigens, substrates and surface coatings to the diagnostic and biomedical research markets; and (3) research and commercial development fees generated on customer projects. Revenue fluctuates from quarter to quarter depending on, among other factors: our customers' success in selling products incorporating our technologies; the timing of introductions of licensed products by customers; the timing of introductions of products that compete with our customers' products; the number and activity level associated with customer development projects; the number and terms of new license agreements that are finalized; and the value of reagent chemicals and other products sold to customers.

In our Medical Device business unit, we have licensed our Photolink® hydrophilic technology to a number of our customers for use in a variety of medical device surface applications. We have several U.S. and international issued patents and pending international patent applications protecting various aspects of these technologies, including compositions, methods of manufacture and methods of coating devices. The expiration dates for these patents and the anticipated expiration dates of the patent applications range from 2015 to 2033. These patents and patent applications represent distinct families, with each family generally covering a successive generation of the technology, including improvements that enhance coating performance, manufacturability, or other important features desired by our

customers. Among these, an early generation of our Photolink® hydrophilic technology is protected by a family of patents that is expected to expire in November 2015 (in the U.S.) and October 2016 (in certain other countries).

We estimate the royalty revenue associated with this early generation technology that has not yet converted to one of our advanced generation technologies will comprise approximately 18% of our anticipated fiscal 2014 revenue. A majority of the customer products utilizing this early generation technology (representing approximately 11% of our anticipated fiscal 2014 revenue) will continue to generate royalty revenue at a reduced royalty rate beyond the expiration of these patents. The royalty obligation for these customer products extends beyond the expiration of these patents because the license also includes rights to our know-how or other proprietary rights. Under these circumstances, the royalty obligation will continue at a reduced royalty rate for a specified number of years, as determined based on a number of factors, including, the specific terms and conditions of the applicable customer agreement, the date on which the customer's product was first sold, and other factors.

In recent years, we have successfully converted a number of our customer's products utilizing this early generation technology to one of our advanced generation technologies. While we are actively seeking to convert our customers to one of our advanced generations of our hydrophilic coating technology, there can be no assurance that we will be successful in doing so, or that those of our customers that have converted, or will convert, will sell products utilizing our technology which will generate royalty revenue for us.

Table of Contents**Overview of Research and Development Activities**

We manage our customer-sponsored research and development (R&D) programs based largely on the requirements of our customers. In this regard, our customers typically establish the various measures and metrics that are used to monitor a program s progress, including key deliverables, milestones, timelines, and an overall program budget. The customer is ultimately responsible for deciding whether to continue or terminate a program, and does so based on research results (relative to the above measures and metrics) and other factors, including their own strategic and/or business priorities. Customer R&D programs are mainly in our Medical Device segment.

Our internal R&D activities are engaged in the exploration, discovery and application of technologies that solve meaningful problems in the diagnosis and treatment of disease. Our key R&D activities include efforts that support and expand our core offerings. These efforts include activities that support the development of our coating technologies that enhance drug-coated balloons. In the second quarter of fiscal 2013, we completed development activities and launched our next generation hydrophilic coating platform which is now commercially available under the tradename Serene™ (formerly referred to as Gen 5). We also launched in July 2013 a new *in vitro* diagnostic product, StabliZyme® Protein-Free Stabilizer, which focuses on stabilizing biomolecule activity in assay tests. Additional planned activities include initiation of surface modification experiments that improve medical device performance and developing chemistries to support molecular diagnostic applications.

For our internal R&D programs in our segments, we prioritize these programs based on a number of factors, including a program s strategic fit, commercial impact, potential competitive advantage, technical feasibility, and the amount of investment required. The measures and metrics used to monitor a program s progress vary based on the program, and typically include many of the same factors discussed above with respect to our customer R&D programs. We typically make decisions to continue or terminate a program based on research results (relative to the above measures and metrics) and other factors, including our own strategic and/or business priorities, and the amount of additional investment required.

With respect to cost components, R&D expenses consist of labor, materials and overhead costs (for example, utilities, depreciation, and indirect labor) for both customer R&D and internal R&D programs. We manage our R&D organization in a flexible manner, balancing workloads/resources between customer R&D and internal R&D programs primarily based on the level of customer program activity. Therefore, costs incurred for customer R&D and internal R&D can shift as customer activity increases or decreases.

Critical Accounting Policies

Critical accounting policies are those policies that require the application of management s most challenging subjective or complex judgment, often as a result of the need to make estimates about the effect of matters that are inherently uncertain and may change in subsequent periods. Critical accounting policies involve judgments and uncertainties that are sufficiently likely to result in materially different results under different assumptions and conditions. For a detailed description of our critical accounting policies, see the notes to the consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2013.

Results of Operations Three and Six Months Ended March 31

Revenue. Revenue during the second quarter of fiscal 2014 was \$13.6 million, a decrease of \$0.1 million, or 1%, compared with the second quarter of fiscal 2013. Revenue during the first six months of fiscal 2014 was \$27.5 million, a decrease of \$0.1 million, compared with the same period of fiscal 2013. The decrease in revenue, as detailed in the table below, is further explained in the narrative below.

<i>(Dollars in thousands)</i>	Three Months Ended March 31, %			Six Months Ended March 31, %		
	2014	2013	Change	2014	2013	Change
Revenue						
Medical Device	\$ 10,482	\$ 9,735	8%	\$ 21,031	\$ 20,266	4%
In Vitro Diagnostics	3,122	3,960	(21)%	6,456	7,280	(11)%
Total Revenue	\$ 13,604	\$ 13,695	(1)%	\$ 27,487	\$ 27,546	%

Medical Device. Medical Device revenue was \$10.5 million in the quarter ended March 31, 2014, an increase of 8% compared with \$9.7 million for the same prior-year quarter. Medical Device revenue was \$21.0 million in the first six months of fiscal 2014, an increase of 4% compared with \$20.3 million for the same prior-year period. The increase in the total revenue for both the three and six months ended March 31, 2014 was attributable to higher royalty revenue (\$0.4 million and \$0.2 million, respectively), product sales (\$0.2 million in each comparative period) and R&D revenue (\$0.2 million and \$0.3 million, respectively). The increase in royalty revenue and product sales revenue resulted from continued growth in our hydrophilic coatings offerings. R&D revenue increased from increased hydrophilic contract coating services and customer development activities. Fiscal year 2013 included a \$0.6 million royalty revenue catch-up payment.

Table of Contents

In Vitro Diagnostics. In Vitro Diagnostics revenue was \$3.1 million in the quarter ended March 31, 2014, a decrease of 21% compared with \$4.0 million for the same prior-year quarter. In Vitro Diagnostics revenue was \$6.5 million in the first six months of fiscal 2014, a decrease of 11% compared with \$7.3 million for the prior-year period. The \$0.8 million decrease for the second quarter and six-month periods was attributable to lower sales of antigens (\$0.3 million and \$0.5 million, respectively), stabilization (\$0.2 million in each period) and BioFX branded products (\$0.3 million and \$0.2 million, respectively). The decline in the current year revenue was primarily driven by a shift in order patterns by a few key customers who initiated inventory rebalancing programs related to our stabilization and antigen product lines combined with a slowdown in sales in Europe and increased competition related to our BioFx product offerings.

The following is a summary of major costs and expenses as a percent of total revenue:

	Three Months Ended March 31,				Six Months Ended March 31,			
	2014		2013		2014		2013	
	%		%		%		%	
	Total		Total		Total		Total	
<i>(Dollars in thousands)</i>	Amount	Revenue	Amount	Revenue	Amount	Revenue	Amount	Revenue
Product costs	\$ 1,696	12%	\$ 1,945	14%	\$ 3,700	13%	\$ 3,904	14%
Research and development	4,134	30	3,774	28	7,833	28	7,136	26
Selling, general and administrative	4,294	32	3,847	28	8,145	30	7,500	27

Product costs. Product costs were \$1.7 million and \$3.7 million or 12% and 13%, respectively, of total revenue in both the three and six months ended March 31, 2014 compared with \$1.9 million and \$3.9 million or 14% in each of the respective prior-year periods. Product gross margins were 67% and 65% in the three and six months ended March 31, 2014, respectively, compared with 66% and 65% in the prior-year periods. The increase in product gross margins in the current year three-month period reflected the product mix of higher margin products sold in the second quarter of fiscal 2014.

Research and development expenses. R&D expenses were \$4.1 million and \$7.8 million in the second quarter and six months of fiscal 2014, respectively, or 30% and 28% of total revenue, respectively, compared with \$3.8 million and \$7.1 million or 28% and 26% in the respective prior-year periods. The fiscal 2014 increase from fiscal 2013 was primarily a result of \$0.6 million and \$1.5 million higher spending for our drug-coated balloon development project in the second quarter and six months ended March 31, 2014, respectively, offset partially by \$0.1 million of lower compensation costs and \$0.2 million of lower patent-related legal expenses in the second quarter of fiscal 2014 and \$0.2 million lower compensation costs and \$0.3 million lower patent-related legal expenses in the six months of fiscal 2014. We expect R&D expenses to increase 7% to 9% in fiscal 2014 compared with fiscal 2013 as we continue to invest in our drug-coated balloon development program.

Selling, general and administrative (SG&A) expenses. SG&A expenses were \$4.3 million and \$8.1 million in the second quarter and six months of fiscal 2014, respectively, or 32% and 30% of total revenue, compared with \$3.8 million and \$7.5 million or 28% and 27% of total revenue in the respective prior-year periods. The SG&A expense increase of \$0.5 million and \$0.6 million in the three months and six months ended March 31, 2014, was primarily attributable to \$0.9 million related to increased stock compensation expense as a result of accelerated vesting of Board of Director stock awards and the granting of an award to the former Chairman of the Company's Board in recognition of his contributions to the Company during his years of service on the Board. Partially offsetting the stock compensation cost increase in the second quarter of fiscal 2014 were decreases of \$0.2 million of general legal expenses as a result of a July 2013 settlement with SRI related to reimbursement of legal fees and \$0.1 million of

lower consulting expenses related to strategic initiatives in our Medical Device and In Vitro Diagnostics business units. The six months of fiscal 2014 included decreases in legal expenses and consulting expenses of \$0.3 million each and \$0.1 million lower professional service expenses as well as lower recruiting costs. Legal expenses are anticipated to increase by approximately \$0.8 million in fiscal 2014 compared with fiscal 2013 because of the \$1.0 million SRI legal settlement we received in fiscal 2013.

Other income, net. Major classifications of other income are as follows:

<i>(Dollars in thousands)</i>	Three Months Ended		Six Months Ended	
	March 31,		March 31,	
	2014	2013	2014	2013
Investment income	\$ 66	\$ 56	\$ 152	\$ 127
Gain on sale of strategic investments		119	681	1,293
Other-than-temporary impairment of strategic investments		(129)		(129)
Other investment capital gains	125	163	125	165
Total other income	\$ 191	\$ 209	\$ 958	\$ 1,456

Other income was \$0.2 million and \$1.0 million in the three and six months ended March 31, 2014, respectively, compared with \$0.2 million and \$1.5 million for the respective prior-year periods.

Table of Contents

Income from investments in fiscal 2014 remained relatively unchanged at approximately \$0.1 million and \$0.2 million, respectively, compared with the prior-year periods primarily from higher yields on our investments which were offset by lower investment balances as the result of our share repurchase activities in fiscal 2013 and 2014.

We recorded a gain of \$0.7 million in the six months ended March 31, 2014 associated with a contingent clinical milestone payment resulting from the fiscal 2013 sale of our ownership interest in Vessix Vascular, Inc. (Vessix).

We recorded a gain of \$0.1 million in the quarter ended March 31, 2013 associated with the sale of our investment position in OctoPlus N.V. (OctoPlus). The six months ended March 31, 2013 also included a gain of \$1.2 million from the sale of our ownership interest in Vessix.

In the quarter ended March 31, 2013, we recorded a \$0.1 million other-than-temporary impairment loss related to our investment in ViaCyte, Inc.

In addition, in the three and six months ended March 31, 2014, we recognized \$0.1 million in each period compared with \$0.2 million in each period for the three and six months ended March 31, 2013 in realized investment gains associated with our investment portfolio.

Income tax provision. The reconciliation of the statutory U.S. federal tax rate of 35.0% and the Company's effective tax rate from continuing operations for the three and six months ended March 31, 2014 and 2013 is as follows:

	Three Months Ended March 31,		Six Months Ended March 31,	
	2014	2013	2014	2013
Statutory U.S. federal income tax rate	35.0%	35.0%	35.0%	35.0%
State income taxes, net of federal benefit	0.8	1.3	0.8	1.3
Gain on strategic investments		(2.1)	(1.3)	(2.1)
Discrete item capital loss carryback		(6.0)		(2.5)
Discrete item 2012 retroactive R&D federal tax credit		(3.5)		(1.4)
Discrete item state tax reserve release			(2.7)	(1.7)
Discrete items other		0.2		(1.6)
Other	(2.8)	(3.7)	(1.3)	(0.3)
Effective tax rate from continuing operations	33.0%	21.2%	30.5%	26.7%

The difference between the U.S. federal statutory tax rate of 35.0% and the Company's effective tax rate reflects the impact of state income taxes, permanent tax items, valuation allowance changes for utilization of capital losses and discrete tax items. The income tax provision associated with continuing operations was \$1.2 million and \$2.7 million, respectively, for the three and six months ended March 31, 2014 resulting in respective effective tax rates of 33.0% and 30.5%. The income tax provision associated with continuing operations was \$0.9 million and \$2.8 million for the three and six months ended March 31, 2013, respectively, resulting in respective effective tax rates of 21.2% and 26.7%.

The most significant variability in our effective tax rate is the result of changes in capital loss valuation allowances resulting from both gains on the sales of strategic investments or contingent milestone consideration payment and other-than-temporary impairment losses associated with certain strategic investments. We have historically recorded

other-than-temporary impairment losses with no income tax effect as it has not been more likely than not that we would generate sufficient capital gains to realize these benefits. Consequently, the OctoPlus, Vessix and available-for-sale securities gains realized during fiscal 2014 or 2013 resulted in a reduction in capital loss carryforward valuation allowances resulting in no financial statement income tax effects associated with these capital gains.

During the three and six months ended March 31, 2013, we realized a 6.0% and 2.5%, respectively, reduction in our effective tax rate as we recognized capital loss carrybacks as a result of the tax capital losses generated by the sale of certain of our strategic investments. During the six months ended March 31, 2014 and 2013, the effective tax rate was reduced by 1.3% and 2.1% for net capital gains including the impact of a gain related to a Vessix milestone contingent consideration payment and gain on sale of our ownership interest in Vessix stock, respectively, for which there is tax expense recognized which has been offset by the reversal of a capital loss valuation allowance. We may receive an additional maximum of \$3.4 million of future contingent payments through fiscal 2017 based on sales of Vessix products. These proceeds, if any, will generate capital gains which will result in reduction of the existing capital loss carryforward valuation allowance.

Table of Contents

Discontinued operations. The following is a summary of the operating results of SurModics Pharmaceuticals discontinued operations for the three and six months ended March 31, 2014 and 2013:

<i>(Dollars in thousands)</i>	Three Months Ended		Six Months Ended	
	March 31,		March 31,	
	2014	2013	2014	2013
Income from discontinued operations	\$	\$ 1,015	\$	\$ 1,015
Income tax provision		(333)		(333)
Income from discontinued operations, net of income taxes	\$	\$ 682	\$	\$ 682

Income from discontinued operations. The Company's discontinued operations gains and losses are recorded net of the income tax impact of these transactions. The Company recorded discontinued operations income of \$0.7 million for the three and six months ended March 31, 2013. The income in the fiscal 2013 periods reflects a \$1.2 million pre-tax gain from the settlement of recapturable job creation financial incentives provided by the City of Birmingham, Alabama. In this settlement, the Company paid \$325,000 of \$1.5 million of the recapturable financial incentives which were previously fully accrued by the Company as a discontinued operations liability. This settlement gain was partially offset by a \$0.1 million expense related to the SRI litigation matter based on facts known to date.

Segment Operating Results

Operating income for each of our reportable segments was as follows:

<i>(Dollars in thousands)</i>	Three Months Ended			Six Months Ended		
	March 31,			March 31,		
	2014	2013	% Change	2014	2013	% Change
Operating income:						
Medical Device	\$ 5,282	\$ 4,785	10%	\$ 10,610	\$ 10,625	%
In Vitro Diagnostics	633	1,267	(50)%	1,303	2,018	(35)%
Total segment operating income	5,915	6,052		11,913	12,643	
Corporate	(2,435)	(1,923)	27%	(4,104)	(3,637)	13%
Total operating income from continuing operations	\$ 3,480	\$ 4,129	(16)%	\$ 7,809	\$ 9,006	(13)%

Medical Device. Operating income was \$5.3 million in the second quarter of fiscal 2014, compared with \$4.8 million in the second quarter of fiscal 2013. Operating income was unchanged at \$10.6 million in the first six months of fiscal 2014 compared with the same period of fiscal 2013. The increased operating income in the three months ended March 31, 2014, compared with the prior-year period, resulted from \$0.4 million of higher royalty and license fee revenue and \$0.2 million of higher R&D revenue as well as the gross margin impact from \$0.2 million of higher reagent product sales. Significantly offsetting the increased operating income from higher revenue were increased direct operating expenses of \$0.6 million associated with the drug-coated balloon development program. Allocated

corporate costs decreased \$0.1 million in the three months ended March 31, 2014 when compared with the prior-year period.

Operating income was unchanged for the six months ended March 31, 2014, compared with the prior-year period, as there was \$0.3 million of higher royalty and license fee revenue and \$0.3 million of higher R&D revenue, as well as the gross margin impact from \$0.2 million in higher reagent product sales. Offsetting the increased revenue was higher direct operating expenses of \$0.7 million principally from \$1.5 million associated with the drug-coated balloon development program. Allocated corporate costs were unchanged at \$2.7 million in the six months ended March 31, 2014 and 2013.

In Vitro Diagnostics. Operating income was \$0.6 million in the second quarter of fiscal 2014, compared with \$1.3 million in the first quarter of fiscal 2013.

Operating income was \$1.3 million in the first six months of fiscal 2014, compared with \$2.0 million in the same period of fiscal 2013. The gross margin impact from the revenue decrease of \$0.8 million in each period compared with the respective prior-year period combined with increased direct operating expenses of \$0.1 million and \$0.2 million in the three and six months ended March 31, 2014, respectively, compared with prior-year periods, were the main contributors to the operating income decreases. In Vitro Diagnostic direct operating expenses increased from \$0.1 million and \$0.2 million of higher compensation expenses in the three and six month periods ended March 31, 2014, respectively, compared with the comparable prior-year periods. Product gross margins were 63.2% and 63.9% for the three months ended March 31, 2014 and 2013, respectively, and were 61.8% in each of the six-month periods ended March 31, 2014 and 2013. Allocated corporate costs increased \$0.1 million and less than \$0.1 million, respectively, in the three- and six-month periods ended March 31, 2014, compared with the comparable prior-year periods.

Table of Contents

Corporate. The Corporate category includes expenses for administrative corporate functions, such as executive, corporate accounting, legal, human resources and Board of Directors related fees and expenses, which have not been fully allocated to the Medical Device and In Vitro Diagnostics segments. Corporate also includes expenses, such as litigation, which are not specific to a segment and thus not allocated to our operating segments. The unallocated Corporate expense operating loss was \$2.4 million and \$1.9 million in the three months ended March 31, 2014 and 2013, respectively, and \$4.1 million and \$3.6 million in the six months ended March 31, 2014 and 2013, respectively. Share-based compensation expenses increased \$0.8 million and \$1.1 million in the three and six months ended March 31, 2014, compared with the comparable prior-year periods primarily from \$0.9 million additional expense from accelerated vesting of Board of Director stock awards and granting of an award to the former Chairman of the Company's Board in recognition of his contributions to the Company during his years of service on the Board. Other compensation costs increased \$0.3 million in the six months ended March 31, 2014 as we increased headcount and annual salary increases took effect. Partially offsetting the above noted increases was a decrease in outside service costs of \$0.5 million and \$0.9 million in the three and six months ended March 31, 2014 compared with the same prior-year periods primarily from lower consulting, professional services and legal expenses.

Liquidity and Capital Resources

As of March 31, 2014, we had working capital of \$41.4 million, an increase of \$11.6 million from September 30, 2013. Our cash, cash equivalents and available-for-sale securities totaled \$51.3 million at March 31, 2014, a decrease of \$6.8 million from \$58.1 million at September 30, 2013, principally resulting from share repurchases of \$12.5 million in the first six months of fiscal 2014.

Our investments consist principally of U.S. government and government agency obligations, asset-backed securities, mortgage-backed securities and investment grade, interest-bearing corporate and municipal debt securities with varying maturity dates, the majority of which are five years or less. The Company's investment policy excludes ownership of collateralized mortgage obligations, mortgage-backed derivatives and other derivative securities without prior written approval of the Board of Directors. The Company's investment policy requires that no more than 5% of investments be held in any one credit or issue, excluding U.S. government and government agency obligations. The primary investment objective of the portfolio is to provide for the safety of principal and appropriate liquidity while generating an above benchmark (Merrill Lynch 1-3 Year Government-Corporate Index) total rate of return on a pre-tax basis. Management plans to continue to direct its investment advisors to manage the Company's securities investments primarily for the safety of principal for the foreseeable future as it continues to assess other investment opportunities and uses of its cash and securities investments, including those described below.

On November 4, 2013, we entered into a three-year \$20.0 million secured revolving credit facility. Borrowings under the credit facility, if any, will bear interest at a benchmark rate plus an applicable margin based on the Company's leverage ratio. No borrowings have been made on the credit facility and the Company is in compliance with the financial covenants related to a maximum leverage ratio and a minimum EBITDA amount and nonfinancial covenants.

We generated cash flows from operating activities from continuing operations of approximately \$5.9 million and \$6.8 million in the six months ended March 31, 2014 and 2013, respectively. The following table depicts our cash flows provided by operating activities from continuing operations:

**Six Months Ended
March 31,**

<i>(Dollars in thousands)</i>	2014	2013
Net income	\$ 6,089	\$ 8,350
Income from discontinued operations		(682)
Depreciation and amortization	1,380	1,446
Stock-based compensation	2,462	1,238
Deferred tax	(164)	172
Net other operating activities	(1,464)	(1,138)
Net change in other operating assets and liabilities	(2,367)	(2,561)
 Net cash provided by operating activities from continuing operations	 \$ 5,936	 \$ 6,825

Operating Activities. We generated cash flows from operating activities from continuing operations of \$5.9 million and \$6.8 million for the first six months ended March 31, 2014 and 2013, respectively. The fiscal 2014 six-month period decrease compared with fiscal year 2013 reflected lower cash generated from operations of \$1.1 million, partially offset by changes in operating assets and liabilities including a net cash increase of \$0.4 million from accounts payable, accrued liabilities and accrued income taxes, and \$0.4 million from a decrease in inventory, net of a reduction in cash generated from accounts receivable of \$0.4 million and \$0.1 million from prepaids and other assets.

Table of Contents

Investing Activities. We invested \$0.8 million in property and equipment in the first six months of fiscal 2014, compared with \$1.2 million in the prior-year period, primarily as a result of higher spending on building improvements in the 2013 period. We have invested \$0.4 million in building improvements and \$0.3 million in laboratory and production equipment thus far in fiscal 2014. We anticipate spending an additional \$1.4 million to \$1.7 million for the remainder of fiscal 2014 which will result in a full year increase when compared with our fiscal 2013 investment in a range of \$0.3 million to \$0.6 million. We received cash of \$0.7 million (contingent milestone payment associated with the sale of our ownership interest in Vessix Vascular) and \$2.3 million (sale of shares of Vessix Vascular and OctoPlus) in the first six months of fiscal 2014 and 2013, respectively. In both the first six months of fiscal 2014 and 2013 we invested cash associated with our discontinued operations of less than \$0.1 million.

Financing Activities. We used cash related to our financing activities of \$12.7 million and \$2.7 million in the first six months of fiscal 2014 and 2013, respectively. In July 2013, our Board of Directors authorized the repurchase of up to \$20.0 million of the Company's outstanding common stock through open-market purchases, private transactions, block trades, accelerated share repurchase transactions, tender offers, or by any combination of such methods. During the first six months of fiscal 2014, we repurchased 485,577 shares of common stock for \$11.5 million at an average price of \$23.77 per share. As of March 31, 2014 there was no remaining amount available for future share repurchases under the July 2013 repurchase authorization. We also used cash of \$1.1 million in the first six months of fiscal 2014 to purchase common stock to pay employee taxes resulting principally from issuance of common shares associated with our fiscal year 2011-2013 performance share program. In fiscal 2013, we used cash totaling \$2.7 million to repurchase 105,907 shares at an average price of \$25.32 under the January 2013 repurchase authorization.

We believe that our existing cash, cash equivalents and available-for-sale securities, which totaled \$51.3 million as of March 31, 2014, together with cash flow from operations and our credit facility, will provide liquidity sufficient to meet the below-stated needs and fund our operations for the remainder of fiscal 2014. There can be no assurance, however, that SurModics' business will continue to generate cash flows at current levels, and disruptions in financial markets may negatively impact our ability to access capital in a timely manner and on attractive terms. Our anticipated liquidity needs for the remainder of fiscal 2014 may include, but are not limited to, the following: general capital expenditures in the range of \$1.4 million to \$1.7 million and obligations remaining after the Pharma Sale, including indemnification obligations of \$2.5 million to Evonik related to contingent consideration payments from the acquisition of assets from PR Pharmaceuticals in November 2008.

Discontinued Operations. Our Pharmaceuticals discontinued operation used cash in operating activities of less than \$0.1 million in both of the first six months of fiscal 2014 and 2013. Cash used in discontinued operations in the prior year related to payments to settle the City of Birmingham job incentive obligation and other accrued liability payments partially offset by cash received from remaining accounts receivable balances. Cash generated by financing activities of less than \$0.1 million in both of the first six months of fiscal 2014 and 2013, related to transfers of cash from the continuing operations of SurModics and consisted of cash used for accounts payable balances in fiscal 2014 and cash generated from payments related to retained accounts receivable balances in fiscal 2013.

Customer Concentrations. Our licensed technologies provide royalty revenue, which represents the largest revenue stream to the Company. We have licenses with a diverse base of customers and certain customers have multiple products using our technology. Medtronic, Inc. (Medtronic) was our largest customer comprising 19% of total revenue for fiscal 2013 and remains at this level for the first six months of fiscal 2014. Medtronic has several separately licensed products that generate royalty revenue for SurModics, none of which represented more than 7% of SurModics' total revenue. No other individual customer using licensed technology constitutes more than 10% of SurModics' total revenue.

Off-Balance Sheet Arrangements

As of March 31, 2014, the Company did not have any off-balance sheet arrangements with any unconsolidated entities.

Forward-Looking Statements

This Quarterly Report on Form 10-Q, including Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 2, contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include expectations concerning our growth strategy, including our ability to sign new license agreements and broaden our hydrophilic coatings royalty revenue, product development programs, various milestone achievements, research and development expenses, increased legal expenses within selling, general and administrative expenses, future cash flow and sources of funding, short-term liquidity requirements, future property and equipment investment levels, the impact of potential lawsuits or claims, and the impact of Medtronic, as well as other significant customers, including new diagnostic kit customers. Without limiting the foregoing, words or phrases such as anticipate, believe, could, estimate, expect, forecast, intend, may, possible, project, will and similar terminology, generally identify forward-looking statements. Forward-looking statements may also represent challenging goals for us. These statements, which represent the Company's expectations or beliefs concerning various future events, are based on current expectations that involve a number of risks and uncertainties that could cause actual results to differ materially from those of such forward-looking statements.

Table of Contents

We caution that undue reliance should not be placed on such forward-looking statements, which speak only as of the date made. Some of the factors which could cause results to differ from those expressed in any forward-looking statement are set forth under **Risk Factors** in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2013. We disclaim any intent or obligation to update publicly these forward-looking statements, whether because of new information, future events or otherwise.

Although it is not possible to create a comprehensive list of all factors that may cause actual results to differ from our forward-looking statements, such factors include, among others:

our reliance on a small number of significant customers, which causes our financial results and stock price to be subject to factors affecting those significant customers and their products, the timing of market introduction of their or competing products, product safety or efficacy concerns and intellectual property litigation could adversely affect our growth strategy and the royalty revenue we derive;

general economic conditions which are beyond our control, such as the impact of recession, business investment and changes in consumer confidence;

a decrease in our available cash or the value of our investment holdings could impact short-term liquidity requirements and expected capital and other expenditures;

the difficulties and uncertainties associated with the lengthy and costly new product development and foreign and domestic regulatory approval processes, such as delays, difficulties or failures in achieving acceptable clinical results or obtaining foreign or U.S. Food and Drug Administration marketing clearances or approvals, which may result in lost market opportunities or postpone or preclude product commercialization by licensees;

the development of new products or technologies by competitors, technological obsolescence and other changes in competitive factors;

our ability to perform successfully certain product development activities, the related R&D expense impact and governmental and regulatory compliance activities which we have not previously undertaken in any significant manner; and

other factors described in **Risk Factors** and other sections of SurModics Annual Report on Form 10-K for the fiscal year ended September 30, 2013, which you are encouraged to read carefully.

Many of these factors are outside the control and knowledge of us, and could result in increased volatility in period-to-period results. Investors are advised not to place undue reliance upon our forward-looking statements and to consult any further disclosures by us on this subject in its filings with the SEC.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our investment policy requires investments with high credit quality issuers and limits the amount of credit exposure to any one issuer. Our investments consist principally of U.S. government and government agency obligations, agency and commercial mortgage-backed securities and investment-grade, interest-bearing corporate and municipal debt securities with varying maturity dates, the majority of which are five years or less. Because of the credit criteria of our investment policies, the primary market risk associated with these investments is interest rate risk. SurModics does not use derivative financial instruments to manage interest rate risk or to speculate on future changes in interest rates. A one percentage point increase in interest rates would result in an approximate \$0.4 million decrease in the fair value of our available-for-sale securities as of March 31, 2014, but would have no material impact on the results of operations or cash flows.

Management believes that a reasonable change in raw material prices would not have a material impact on future earnings or cash flows because the Company's inventory exposure is not material.

Although we conduct business in foreign countries, our international operations consist primarily of sales of reagent and stabilization chemicals. Additionally, all sales transactions are denominated in U.S. dollars. We generate royalty revenue from the sale of customer products in foreign jurisdictions. Royalties generated in foreign jurisdictions by customers are converted and paid in U.S. dollars per contractual terms. Given the diverse nature of our customers products and international operations, changes in foreign currencies are not expected to materially impact our operating results. A limited number of our purchasing transactions are denominated in foreign currencies and they are converted to U.S. dollars. These purchasing transactions are not material to our operating results. Accordingly, we do not expect to be subject to material foreign currency risk with respect to future costs or cash flows from our foreign sales. To date, we have not entered into any foreign currency forward exchange contracts or other derivative financial instruments to hedge the effects of adverse fluctuations in foreign currency exchange.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer, referred to collectively herein as the Certifying Officers, are responsible for establishing and maintaining our disclosure controls and procedures. The Certifying Officers have reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934 (the Exchange Act)) as of March 31, 2014. Based on that review and evaluation, which included inquiries made to certain other employees of the Company, the Certifying Officers have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures, as designed and implemented, are effective to ensure that information required to be disclosed by the Company in reports that it files under the Exchange Act is recorded, processed, summarized and reported within the time period specified in the Securities Exchange Commission rules and forms, and to ensure that information required to be disclosed by the Company in the reports the Company files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its Certifying Officers, as appropriate, to allow timely decisions regarding required disclosures.

Changes in Internal Controls over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) during the three months ended March 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings**

Except as described in Footnote 17, there were no material developments in the legal proceedings previously disclosed in the Company's Form 10-K for the fiscal year ended September 30, 2013.

Item 1A. Risk Factors

In our report on Form 10-K for the fiscal year ended September 30, 2013, filed with the SEC on December 11, 2013, we identify under Part 1, Item 1A. Risk Factors, important factors which could affect our financial performance and could cause our actual results for future periods to differ materially from our anticipated results or other expectations, including those expressed in any forward-looking statements made in this Form 10-Q.

There have been no material changes in our risk factors subsequent to the filing of our Form 10-K for the fiscal year ended September 30, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**(c) Issuer Purchases of Equity Securities**

The following table presents information with respect to purchases of common stock of the Company made during the three months ended March 31, 2014, by the Company or on behalf of the Company or any affiliated purchaser of the Company, as defined in Rule 10b-18(a)(3) under the Exchange Act.

Period	Total Number of Shares Purchased(1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs(2)
1/1/14 - 1/31/14	105,566	\$ 24.66	105,566	\$ 8
2/1/14 - 2/28/14	25,057	\$ 24.96	0	\$ 8
3/1/14 - 3/31/14	45,277	\$ 24.37	0	\$ 8
Total	175,900	\$ 24.63	105,566	\$ 8

(1) The purchases in this column included shares repurchased as part of our publicly announced program and in addition include 70,334 shares that were repurchased by the Company to pay the exercise price and/or to satisfy tax withholding obligations in connection with so-called stock swap exercises related to the exercise of employee stock options or vesting of restricted stock awards.

(2)

On July 29, 2013, our Board of Directors authorized the repurchase of up to \$20.0 million of our outstanding common stock. Through March 31, 2014, we have repurchased 875,930 shares at an average price of \$22.83 under the July 2013 authorization and as of March 31, 2014 we had used the entire amount authorized.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

None.
