CALCULATION OF REGISTRATION FEE

Title of securities to be registered	Amount to Be Registered (1)	Proposed maximum offering price per share (2)	Proposed maximum aggregate offering price (2)	Amount of Registration Fee
Common Stock, par value \$0.0001 per share; shares issued or issuable pursuant to employee benefit plans.	1,000,000 (3)	\$8.99	\$8,990,000	\$1,157.91
Total	1,000,000		\$8,990,000	\$1,157.91

- (1) Pursuant to Rule 416 under the Securities Act of 1933, as amended, this Registration Statement also covers an indeterminate number of additional shares as may be issued under the inContact 2008 Equity Incentive Plan, as amended (the 2008 Equity Plan), as a result of adjustments to the number of outstanding shares of common stock by reason of any recapitalization, stock split, stock dividend or similar transaction, and any other securities with respect to which the outstanding shares of common stock are converted or exchanged.
- (2) Estimated solely for the purpose of calculating the amount of the registration fee pursuant to Rule 457(c) and Rule 457(h) under the Securities Act. The offering price per share and aggregate offering price are based upon the average of the high and low prices of our common stock on July 7, 2014, as reported on The NASDAQ Capital Market.
- (3) The registrant is registering 1,000,000 common shares approved by the stockholders on June 11, 2014, as additional shares available for awards under the 2008 Equity Plan. The Registrant previously registered 6,772,500 shares of common stock under the 2008 Equity Plan pursuant to Form S-8 registration statements filed August 14, 2008, as amended March 19, 2009 (File No. 333-153017), filed August 9, 2010 (File No. 333-168666), filed August 10, 2012 (File No. 333-183201), and filed August 9, 2013 (File No. 333-190519).

EXPLANATORY NOTES

inContact, Inc., (inContact, the Company, we, us or our) prepared this Registration Statement in accordance with the requirements of Form S-8 under the Securities Act of 1933, as amended (the Securities Act) to register 1,000,000 common shares pursuant to the inContact 2008 Equity Incentive Plan, effective as of July 1, 2008, and as amended through June 11, 2014 (the 2008 Equity Plan), not previously registered, including awards that may be issued after the date of this registration statement. The Company is registering the additional 1,000,000 common shares on this Form S-8 because the amendment to the 2008 Equity Plan approved by the Company's stockholders in June 2014 authorizes the issuance of awards pertaining to an additional 1,000,000 common shares (the Additional Shares), plus, as provided by the 2008 Equity Plan, shares available to be issued under the 2008 Equity Plan upon the cancellation, expiration or forfeiture of awards of the Additional Shares, currently estimated to be up to 190,000 shares. Pursuant to General Instruction E of Form S-8, the contents of (a) the Registration Statement on Form S-8, File No. 333-153017, which was filed with the Securities and Exchange Commission (the SEC) on August 14, 2008, as amended by Post-effective Amendment No. 1 thereto filed with the SEC on March 19, 2009, (b) the Registration Statement on Form S-8, File No. 333-168666, which was filed with the SEC on August 9, 2010, (c) the Registration Statement on Form S-8, File No. 333-183201, which was filed with the SEC on August 10, 2012, and (d) the Registration Statement on Form S-8, File No. 333-190519, which was filed with the SEC on August 9, 2013, (the foregoing registrations are collectively referred to as the Initial Registration Statements) are hereby incorporated by reference, including each of the documents filed by inContact with the SEC and incorporated or deemed incorporated by reference in each of the Initial Registration Statements.

Pursuant to Rule 429(a) of the Securities Act, the prospectus is a combined prospectus that is being filed as part of this Registration Statement, the Initial Registration Statements, and the registration statement (as amended) on Form S-8, File No. 333-116055 (the 116055 Registration Statement) filed to register common stock underlying inContact's 1999 Long Term Stock Incentive Plan and additional employee options (the Prior Plans). All filing fees for the registration statements listed above were paid previously, except for the filing fee paid with this Registration Statement covering the Additional Shares.

Pursuant to General Instruction E of Form S-8, included in this filing is a revision of the reoffer prospectus included with the registration statement on Form S-8 filed August 9, 2013, File No. 333-190519. The prospectus has been prepared in accordance with the requirements of Part I of Form S-3. It may be used for reoffers of common stock defined as control securities under Instruction C to Form S-8 acquired by affiliates (as the term is defined in Rule 405 of the Securities Act) pursuant to the exercise of stock options, restricted stock unit awards, restricted stock awards, or other awards under the 2008 Equity Plan registered under Initial Registration Statements and this Registration Statement and the exercise of stock options, restricted stock unit awards, or other awards under the Prior Plans registered under the 116055 Registration Statement.

PART I

INFORMATION REQUIRED IN THE SECTION 10(a) PROSPECTUS

ITEM 1. PLAN INFORMATION

The documents containing the information specified in Item 1 will be sent or given to participants 2008 Equity Plan as specified by Rule 428(b)(1) of the Securities Act. Such documents are not required to be filed, and are not being filed, with the SEC either as part of this Registration Statement or as prospectuses or prospectus supplements pursuant to Rule 424 of the Securities Act. These documents and the documents incorporated by reference in this Registration Statement pursuant to Item 3 of Part II of this Form S-8, taken together, constitute a prospectus that meets the requirements of Section 10(a) of the Securities Act.

ITEM 2. REGISTRANT INFORMATION AND EMPLOYEE PLAN ANNUAL INFORMATION

Upon written or oral request, any of the documents incorporated by reference in Item 3 of Part II of this Registration Statement (which documents are incorporated by reference in this Section 10(a) Prospectus), and other documents required to be delivered to eligible employees, non-employee directors and consultants, pursuant to Rule 428(b) are available without charge by contacting:

inContact, Inc.

Reoffer Prospectus

inContact, Inc.

5,428,186 Shares of Common Stock

This reoffer prospectus relates to the 5,283,421 shares of common stock, par value \$0.0001 per share, of inContact, Inc., which may be offered and resold from time to time by persons who acquire the shares under different compensatory arrangements that inContact has established.

The first are (i) offers and resales by eligible participants of up to 5,036,821 shares issuable pursuant to awards that may be granted under our 2008 Equity Incentive Plan, referred to in this prospectus as our 2008 Equity Plan. Eligible participants in our 2008 Equity Plan consist of employees, directors, officers and consultants. We have issued awards under the 2008 Equity Plan to a number of eligible participants, including officers and directors who are affiliates of inContact (as defined in rule 405 adopted under the Securities Act) listed under the section of this prospectus entitled Selling Security Holders. Subsequent to the date of this reoffer prospectus, we may grant awards under the 2008 Equity Plan to eligible participants who are affiliates. Instruction C of Form S-8 requires that we supplement this reoffer prospectus with the names of such affiliates and the amounts of securities to be reoffered by them as selling security holders.

The second are offers and resales of up to 365,000 shares issuable under an outstanding compensatory stock option agreement referred to in this prospectus as the Stock Option Agreement. inContact followed a practice from 1999 to early 2008 of establishing annually separate employment and compensation arrangements with employees, including officers. The Board of Directors of inContact adopted director compensation plans periodically that included regular grants of stock options for service as directors and on board committees. In 2012 inContact issued options as an inducement to an executive officer to accept an offer of employment. As a result, there are now outstanding individual compensatory Stock Option Agreements with our officers and directors who are affiliates of inContact. These persons are listed under the section of this prospectus entitled Selling Security Holders.

It is anticipated that the selling security holders will offer common shares for sale at prevailing prices on any stock exchange, market or trading facility on which the shares are traded or in private transactions. See Plan of Distribution. We will receive no part of the proceeds from sales made under this reoffer prospectus. The selling security holders will bear all sales commissions and similar expenses. Any other expenses incurred by us in connection with the registration and offering and not borne by the selling security holders will be borne by us.

Our common stock is listed on The NASDAQ Capital Market under the symbol SAAS. On July 7, 2014, the last reported sale price of our common stock was \$9.10 per share.

Our principal executive offices are located at 7730 S. Union Park Avenue, Suite 500, Salt Lake City, Utah 84047.

Investing in our securities involves a high degree of risk. See the section entitled Risk Factors on page 7.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR PASSED UPON THE ADEQUACY OR ACCURACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this prospectus is July 11, 2014

WHERE YOU CAN FIND ADDITIONAL INFORMATION

inContact files annual, quarterly and special reports, proxy statements and other information with the SEC. You may read and copy any document filed by inContact at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. inContact's filings with the SEC are also available to the public at the SEC's Internet web site at <http://www.sec.gov>. Statements contained in this prospectus as to the contents of any contract or other document are not necessarily complete, and in each instance we refer you to the copy of the contract or document filed as an exhibit to the registration statement, each such statement being qualified in all respects by such reference.

This prospectus constitutes part of a Registration Statement on Form S-8 filed on the date hereof (herein, together with all amendments and exhibits, referred to as the "Registration Statement") by inContact with the SEC under the Securities Act. This prospectus does not contain all of the information set forth in the Registration Statement, certain parts of which are omitted in accordance with the rules and regulations of the SEC. For further information with respect to inContact and the common stock, reference is hereby made to the Registration Statement. Statements contained herein concerning the provisions of any contract, agreement or other document are not necessarily complete, and in each instance reference is made to the copy of such contract, agreement or other document filed as an exhibit to the Registration Statement or otherwise filed with the SEC. Each such statement is qualified in its entirety by the foregoing reference. Copies of the Registration Statement together with exhibits may be inspected at the offices of the SEC as indicated above without charge and copies thereof may be obtained from the SEC upon payment of a prescribed fee.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements within the meaning of the federal securities laws. You can identify forward-looking statements by the use of the words believe, expect, anticipate, intend, estimate, project, will, should, may, plan, intend, as expressions that predict or indicate future events and trends and that do not relate to historical matters. You should not rely on forward-looking statements, because they involve known and unknown risks, uncertainties and other factors, some of which are beyond the Company's control. These risks, uncertainties, and other factors may cause the actual results, performance, or achievements of the Company to be materially different from the anticipated future results, performance or achievements expressed or implied by the forward-looking statements.

Factors that might cause these differences include the following:

The highly competitive and evolving nature of the industry in which we compete;

Rapid technological changes;

The high incidence of intellectual property infringement claims involving technology companies.

Failure by us to implement our strategies;

Our ability to keep pace with changing customer needs;

Financial difficulties experienced by any of our top customers;

Our debt and debt service requirements that restrict our operating and financial flexibility, and impose interest and financing costs;

Our ability to attract and retain key personnel;

General economic and market conditions; and

Possible terrorist attacks and ongoing military action throughout the world.

In addition, the factors described under the section captioned "Risk Factors" in this prospectus, as may be updated from time to time by our future filings under the Securities Exchange Act of 1934, and elsewhere in the documents incorporated by reference in this prospectus, may result in these differences. You should carefully review all of these factors. These forward-looking statements were based on information, plans and estimates at the date of this prospectus, and we assume no obligation to update any forward-looking statements to reflect changes in underlying assumptions or factors, new information, future events or other changes.

ABOUT THE COMPANY

Unless the context requires otherwise, in this Prospectus, the Company, inContact, we, us and our refer to inContact, Inc.

What We Do

We began in 1997 as a reseller of network connectivity (formerly telecommunications) services and have evolved to become a leading provider of cloud contact center software solutions. We help contact centers around the world create effective customer experiences through our powerful portfolio of cloud contact center call routing, self-service and agent optimization solutions. Our cloud software solutions and services enable contact centers to operate more efficiently, optimize the cost and quality of every customer interaction, and ensure ongoing customer-centric business improvement and growth.

We began offering cloud software solutions to the contact center market in 2005. Our dynamic technology platform provides our customers a pay-as-you-go solution without the costs and complexities of premise-based systems. Our proven cloud delivery model provides compelling total cost of ownership savings over premise-based technology by reducing upfront capital expenditures, eliminating the expense of system management and maintenance fees, while providing agility that enables businesses to scale their technology as they grow.

We operate two business segments: Software and Network connectivity. The Software segment includes all services related to the delivery of our cloud contact center software solutions. The Network connectivity segment includes all voice and data long distance services provided to customers. Software segment revenue was 53% of total revenue in 2013, 50% in 2012, and 45% in 2011.

Recent Acquisition

On May 6, 2014, we acquired CallCopy, Inc., a Delaware corporation doing business as Uptivity ("Uptivity"). Uptivity provides a complete mid-market workforce optimization suite of services to call centers comprised of speech and desktop analytics, agent coaching, call and desktop recording, as well as quality, performance, workforce management and satisfaction surveys. The consideration for the acquisition was paid with cash in the amount of \$12.1 million, estimated fair value of vested stock options converted to cash of \$1.9 million, and the issuance of 4,256,244 shares of the Company's common stock. An additional \$3.1 million in cash likely will be paid based on the final calculation of net closing current assets.

As a negotiated element of the transaction, four of the former stockholders of Uptivity granted to inContact repurchase options on a total of 434,311 common shares issued in the acquisition, which lapse in equal annual portions over a term of three years.

Products and Services

The inContact portfolio consists of the following integrated software solutions:

inContact ACD : The goal of an Automatic Call Distributor (ACD) is to get a caller to the right agent as quickly as possible. inContact provides advanced contact handling and routing functionality along with the management services required for our customers to monitor and manage the process. The inContact ACD includes skills-based routing, universal contact queues, automatic call back, and inbound/outbound call blending. Dynamic connections with the database enhance the call routing even further by leveraging real-time data for routing decisions to improve the caller experience. inContact ACD is also capable of aggregating multiple contact center sites into a single entity for improved management and reporting of large, complex contact center operations.

inContact CTI : Computer Telephony Integration (CTI) leverages a customer database to deliver a caller experience based on data relevant to the caller. inContact CTI integrates with customer data servers to provide agents with pre-populated customer data that reduce contact handling times. The inContact CTI can also link Interactive Voice Response applications with transaction databases, enabling caller self-service and reducing the need for agents where appropriate.

inContact IVR : inContact Interactive Voice Response (IVR) is a robust IVR that delivers a typical initial caller experience. IVR is the key to good self-service and assists the caller to get to the appropriate live-agent service. inContact IVR is unique because of the robust drag-and-drop utility that is used to create specialized call flows that are unique to each customer. Customers can retain control and develop the call flows for themselves or engage our professional services team to create a tailor made solution to create unique workflows.

InContact Dialer: The inContact Dialer combines state-of-the art inbound contact handling with full-featured campaign-based outbound dialing to maximize agent productivity. At the heart of the inContact Dialer is a highly sophisticated simulation-based dialing engine that determines the optimal balance between wait times and abandoned calls.

inContact Personal Connection Outbound: inContact Personal Connection software is a patented technology which eliminates legacy dialers awkward delays in greeting the caller. Since the agent is connected before the customer answers, the telltale pause and delayed hello are avoided. Agents can have more productive conversations with customers which translate into higher contact center revenues.

inContact Integrations: inContact's software platform was designed from the ground up to be open and integrate with various hardware and software solutions already in place at our customers' sites. inContact can overlay an existing private branch exchange (PBX), while communicating hand-in-hand with the customer relationship management (CRM) solutions used by our customers.

inContact ECHO®: inContact ECHO gathers the opinion of the user and presents the analysis of the feedback directly to supervisors and agents to identify gaps in service and processes. Most companies try to gather user feedback, but many find it difficult to translate user opinion into meaningful data that promotes better service delivery. inContact ECHO is an essential component of the portfolio to close the loop between offering service and evaluating the results of the service for continuous improvement.

inContact Workforce Management : inContact Workforce Management (WFM) helps our customers forecast demand, schedule workforce, analyze and optimize staffing and report real-time adherence in their contact centers. inContact WFM includes analysis to predict service levels, abandon rates and queue times as well as a break/lunch optimization wizard to improve staffing efficiency. In addition, agents can review their schedule, set up schedule preferences, request time off, and swap shifts with other agents on their own.

inContact Quality Monitoring : inContact's Quality Management Software provides insights into agent performance and customer satisfaction. It works by scoring agent performance against objectives that a customer can define and monitor. The Quality Management scorecard then provides specific details about each agent's performance that can be used to guide training and coaching programs.

inContact Analytics-Drive Quality (ADO): inContact Analytics-Drive Quality Software helps customers capture, evaluate, and learn from customer interactions using audio files. This speech analytics solution examines unstructured audio files and automatically surfaces customer behavior indicators. This helps our customers increase revenue, manage performance, processes, and costs, and enhance their customers' satisfaction.

inContact inView: inContact inView is an optimization solution that aggregates performance data from disparate systems and acts on the data with proven business improvement processes.

InContact Screen Recording : inContact Screen Recording provides compliance level screen recording functionality for all voice channel interactions. It captures and stores recordings for quick playback to meet legal and regulatory requirements. The inContact ACD communicates directly with the screen recording gateway server to initiate the start and stop of screen recording activity of the agent desktop.

inContact Reports 2.0: inContact Reports 2.0 is an interactive reporting tool that provides insight into contact center operations by providing our customers with the business intelligence needed to make informed decisions. Reports 2.0 allows customers to access, filter, and report on over 100 metrics applicable to our customer contact centers and enables them to drill down into the data and discover the root cause of a problem and act on it immediately.

Professional Services and Support: inContact offers professional support services from contact center experts who help customers establish, set up and optimize their contact centers for user satisfaction and revenue optimization. Our contact center experts assist customers in maximizing the benefits of the inContact portfolio of services for their unique contact center needs. We maintain a contact center in Salt Lake City, Utah for receiving customer service and billing inquiries. Our customer service personnel are available during extended business hours and also provide emergency service 24 hours a day, seven days a week. We place a high priority on customer service since we believe it is a primary factor in acquiring and retaining customers.

InContact Network Connectivity Products and Services

inContact runs a national carrier-class connectivity network providing both time-division multiplexing (TDM) and voice over internet protocol (VoIP) connectivity as well as toll-free and local-number services. Incoming calls are routed through a portfolio of partners specially selected for call-quality as well as low-cost services to benefit our customers. All outgoing calls are handled on the inContact network that was designed from the ground up to support a broad range of software applications.

Our connectivity network is the backbone of the inContact platform as our customers' calls are routed across our carrier-grade network. Our ability to provide network connectivity as well as cloud software services creates a strong competitive advantage for those customers who are looking for a single source supplier of both these services.

As a domestic and international network connectivity reseller and aggregator, we contract with a number of third party network connectivity service providers for the right to resell those connectivity services to our customers. Our primary providers are Level 3, Verizon, AT&T and CenturyLink. The variety of traditional connectivity services we offer enables our customers to:

buy most of the connectivity services they need from one source;

combine those services into a customized package including our all-in-one, contact center solution;

receive one bill for those services;

contact us at a single point of contact if service problems or billing issues arise; and

Edgar Filing: inContact, Inc. - Form S-8

depend on our professional team of employees to manage their network and contact center solution, end-to-end, so our customers can focus on their business operations.

The contracts with our third party network connectivity service providers are customary in the industry and designate inContact as the point of contact for all customer service calls. These agreements have initial terms of one to three years and are generally renewable at the end of each contract term, when rates are often renegotiated on the basis of prevailing rates in the industry.

We also acquire from our third party network connectivity service providers dedicated long distance service, toll-free 800/888/877/866 services, and dedicated data transmission service. These services and fees are billed to us as stated in our contracts with our providers and are payable on the same terms as switched long distance service.

The Power of the Cloud Model

The cloud model enables subscribers to access a wide variety of software solutions that are developed specifically for delivery over the Internet on a pay-as-you-go basis. Purchasing cloud software solutions offers advantages to businesses over traditional software licensing and delivery models, including the following:

Operational expense rather than a capital expense;

Overlay existing infrastructure without additional investment;

Low up-front expenditure reduces risk and is especially appealing in a challenging economic climate;

Remove complexity of day-to-day management;

Ability to use at-home agents or multi-site workforces because the service is delivered over the Internet and can be accessed from any location;

Continued access to state-of-the-art technology with no need to install and manage third-party hardware and software in-house and avoidance of technology lock-in;

Ability to scale as business needs change; and

Instant built-in scalability, redundancy, security, service delivery and IT expertise.

This type of lower cost subscription service is particularly attractive for start-up companies and medium-sized businesses. However, the model also is becoming increasingly appealing to larger organizations. While the total cost of ownership benefits of the cloud are important, these large enterprise customers are moving to the cloud to improve their business agility. This business agility enables enterprises to react to changing market conditions quickly, change service processes or offerings on the fly, scale up and down as seasonality or volumes indicate, and use their technology as a growth driver for their business.

For companies selling software solutions under the cloud model, such as inContact, sales generally result in lower initial revenues than traditional software licensing and delivery models. However, because customers generally subscribe to this kind of product for multiple years, future revenues are more predictable than traditional software sales models where license revenue may be recognized in the quarter when signed. As a result of our use of the cloud subscription model, we receive monthly recurring revenues from our customers, which provide us with a much more predictable and stable revenue stream than if we sold our inContact contact center software solution as a premise-based product.

Market Opportunity

We believe that customers have more choice and voice than ever before and goods and products are rapidly becoming commoditized. Service has become a key competitive differentiator, but today's contact centers are often missing the mark in providing a consistent, high quality experience across the customer's channel of choice. Voice continues to dominate, but new channels like social and mobile are rapidly coming into the mix. We believe the world of the contact center is changing rapidly and is becoming an important way for companies to differentiate their businesses. We believe that the next five years will bring significant changes to the contact center market, as the following four macro trends converge:

Self Service - where customers are willing to perform all possible customer service functions themselves;

Social Media - listening and responding to service issues in the blogosphere where customers have more voice and choice than ever before;

Smart Phone - with more smart phones than computers accessing the net, multi-channel contact options - including SMS, chat, web and social - are in increasing demand by customers; and

Big Data Analytics - using the huge store of contact center data to drive intelligent action, better enterprise alignment and more successful customer service outcomes.

We feel that as these trends continue to emerge, the cloud delivery model will continue to grow in acceptance. According to DMG Consulting's 2013 Cloud-Based Contact Center Infrastructure Market Report, 80% of contact centers will turn to the cloud as they adopt the new channels of communication listed above, creating strong opportunity for inContact.

We believe inContact continues to be the only cloud provider of solutions and services to the contact center market that offers both connectivity services with contact handling and workforce optimization solutions. We believe the trend in the mid-size and enterprise contact center market is for companies to prefer purchasing all-in-one solutions over purchasing multiple point solutions. These companies are looking for software available in a portfolio that they believe will save money, reduce implementation and integration complexity, and allow them to focus on dealing with one vendor.

Our principal business office is located at 7730 S. Union Park Avenue, Suite 500, Salt Lake City, UT 84047, and our telephone number is (801) 320-3200. Our website address is www.incontact.com. Information contained in our website or any other website does not constitute part of this prospectus.

RISK FACTORS

Investors should carefully consider the risk factors described below. Furthermore, investors should carefully consider the risks and uncertainties and all other information contained or incorporated by reference in this prospectus, including the risks and uncertainties discussed under "Risk Factors" in our most recent Annual Report on Form 10-K, and in subsequent filings that are incorporated herein by reference. All of these "Risk Factors" are incorporated by reference herein in their entirety. These risks and uncertainties are not the only ones facing us. Our business, financial condition, or results of operations could be materially adversely affected by any of these risks or others. The trading price of our Common Stock could decline due to any of these risks, and you may lose all or part of your investment. This prospectus and the incorporated documents also contain forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks mentioned in this prospectus.

The market price for shares of our common stock may be highly volatile and could be subject to wide fluctuations.

The market price for shares of our common stock may be highly volatile and could be subject to wide fluctuations. Some of the factors that could negatively affect our share price include:

Edgar Filing: inContact, Inc. - Form S-8

actual or anticipated variations in our quarterly operating results;

changes in our cash flows from operations or earnings estimates;

publication of research reports about us, or the contact center services or cloud-based software services industries, generally;

claims our intellectual property violates the intellectual property rights of others;

significant security breaches of our databases holding customer information;

significant system failures;

changes in applicable laws or regulations, court rulings and enforcement and legal actions;

changes in the market valuations of similar companies;

adverse market reaction to any increased indebtedness we incur in the future;

additions or departures of key management personnel;

actions, including sales of common stock, by our stockholders;

speculation in the press or investment community regarding our business;

general market and economic conditions; and

domestic and international economic, legal and regulatory factors unrelated to our performance.

Future sales of shares of our common stock could adversely affect the market price of our common stock.

Future sales of substantial amounts of our common stock in the public market following this offering, whether by us or our existing stockholders, or the perception that such sales could occur, may adversely affect the market price of our common stock, which could decline significantly. Sales by our existing stockholders might also make it more difficult for us to raise equity capital by selling new common stock at a time and price that we deem appropriate.

Additional issuances of equity securities by us would dilute the ownership of our existing stockholders.

We have on file with the Securities and Exchange Commission (the "SEC") a shelf registration statement on Form S-3 process, which allows us to offer shares of our common stock and preferred stock, various series of debt securities, and warrants to purchase any of such securities with a total value of up to \$125,000,000 from time to time under a prospectus supplement at prices and on terms to be determined by market conditions at the time of offering. We may issue securities under that registration statement, or in other private or registered sales transactions in the future, in connection with acquisitions or strategic transactions, to adjust our ratio of debt to equity, to fund expansion of our operations or for other purposes. We may issue shares of our common stock or its equivalent at prices or for consideration that is greater or less than the price at which the shares of common stock are offered and sold under this prospectus. To the extent we issue additional common stock or preferred stock, or their equivalent, your percentage ownership of our common stock would be reduced.

Edgar Filing: inContact, Inc. - Form S-8

We are able to issue shares of preferred stock with greater rights than our common stock.

Our certificate of incorporation authorizes our Board of Directors to issue one or more series of preferred stock and set the terms of the preferred stock without seeking any further approval from our stockholders. Any preferred stock that is issued may rank ahead of our common stock in terms of dividends, liquidation rights or voting rights. If we issue preferred stock, it may adversely affect the market price of our common stock.

USE OF PROCEEDS

We will receive funds if any of the purchase rights under the Stock Option Agreements are exercised and if options issued under the 2008 Equity Plan are exercised. inContact will not receive any of the proceeds from the offer and resale of shares by the selling security holders.

SELLING SECURITY HOLDERS

This prospectus relates to our common shares that are being registered for reoffers and resales by the selling security holders who have acquired (or, in some cases, may acquire) common shares pursuant to the 2008 Equity Plan and the Stock Option Agreements. We may amend or supplement this prospectus to reflect future issuances under the 2008 Equity Plan to the selling security holders.

Beneficial ownership is determined in accordance with the rules of the SEC, is based upon 60,772,883 shares outstanding as of July 10, 2014, and generally includes voting or investment power with respect to securities. Shares underlying options to purchase shares of common stock that are currently exercisable or become exercisable within 60 days of July 11, 2014, and shares underlying restricted stock units or awards that vest within 60 days after July 11, 2014 are deemed to be outstanding and to be beneficially owned by the person holding such options and restricted stock units or awards for the purpose of computing the percentage ownership of such person, but are not treated as outstanding for the purpose of computing the percentage ownership of any other person. The 2,917,491 shares listed below covered by this Prospectus are shares to be issued upon exercise of outstanding options issued pursuant to the 2008 Equity Plan, and the Stock Option Agreements. The selling security holders may resell all, a portion, or none of the shares from time to time.

The address of the stockholder listed below is care of inContact, Inc., 7730 S. Union Park Avenue, Suite 500, Salt Lake City, Utah 84047. The following table sets forth the name and relationship to inContact of the selling security holder and: (1) the number of shares of common stock that the selling security holder beneficially owned as of July 11, 2014; (2) the number of shares of common stock that the selling security holder may offer pursuant to this prospectus; and (3) the amount (and if one percent or more, the percentage) of the class to be beneficially owned by such stockholder assuming the sale of all shares offered pursuant to this prospectus.

Selling Security Holder	Position	Amount		Shares Beneficially Owned after Resales (1)	
		Beneficially Owned (1)	Amount Covered by this Prospectus (2)	Amount	Percent
Paul Jarman	Chief Executive Officer and Director	259,432	1,007,868	117,765	0.2%

- (1) Does not include shares underlying stock options that are not exercisable within 60 days after July 11, 2014. Also does not include shares underlying restricted stock units or awards that do not vest within 60 days of July 11, 2014.
- (2) Includes shares underlying stock options granted under the 2008 Equity Plan that are not exercisable within 60 days after July 11, 2014, and shares underlying restricted stock units or awards that do not vest within 60 days of July 11, 2014.

PLAN OF DISTRIBUTION

Subject to the restrictions described below, the selling security holders and any of their pledgees, donees, transferees, assignees and successors-in-interest may, from time to time, offer and sell all or a portion of the shares covered by this prospectus in one or more or any combination of the following transactions:

on The NASDAQ Stock Market, in the over-the-counter market or on any other national securities exchange on which our shares are listed or traded;

in privately negotiated transactions;

in underwritten transactions;

in a block trade in which a broker-dealer will attempt to sell the offered shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

through purchases by a broker-dealer as principal and resale by the broker-dealer for its account pursuant to this prospectus;

in ordinary brokerage transactions and transactions in which the broker solicits purchasers; and

through the writing of options (including put or call options), whether the options are listed on an options exchange or otherwise. The selling security holders may sell the shares at prices then prevailing or related to the then current market price or at negotiated prices. The offering price of the shares from time to time will be determined by the selling security holders a
