Direct Share Buyback from ING Group

On November 11, 2014, we entered into a Share Repurchase Agreement with ING Group (the Share Repurchase Agreement), pursuant to which we will acquire from ING Group, subject to certain terms and conditions, shares of our common stock having an aggregate purchase price of \$175 million (the Direct Share Buyback). Pursuant to the Share Repurchase Agreement, the purchase price per share of common stock will be equal to the per share purchase price to be paid by the underwriters in this offering.

The Direct Share Buyback and the entry into the Share Repurchase Agreement were each authorized by a special committee of our Board of Directors consisting solely of independent and disinterested directors (the Special Committee), which was formed for the sole purpose of considering the Direct Share Buyback. The Special Committee retained independent financial and legal advisors for purposes of its deliberations.

Pursuant to the Share Repurchase Agreement, the Direct Share Buyback will be subject to a number of conditions (unless waived by the Company with the approval of the Special Committee), including:

The successful completion of this offering; and

The receipt by the Special Committee of a fairness opinion, in form satisfactory to the Special Committee, from Greenhill & Co., LLC, the Special Committee's financial advisor.

The Direct Share Buyback will be funded from our existing cash on hand.

The Direct Share Buyback is being made pursuant to the Company's existing authorization to repurchase shares of its common stock. Following the completion of the Direct Share Buyback, the Company expects that the remaining authorization under the Share Repurchase Program would permit future repurchases by the Company of shares of common stock having an aggregate purchase price of up to approximately \$11 million.

Although, as described above, the closing of the Direct Share Buyback is conditioned on the closing of this offering (among other conditions), the closing of this offering is not conditioned upon the closing of the Direct Share Buyback, and there can be no assurance that the Direct Share Buyback will be completed even if this offering is completed.

The Share Repurchase Agreement has been filed as an exhibit to the registration statement of which the accompanying prospectus is a part.

RISK FACTORS

You should carefully consider each of the risk factors described below and in Part II, Item 1A. Risk Factors of our Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2014 and September 30, 2014 and Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2013, as well as other information included in this prospectus supplement and the accompanying prospectus, or incorporated by reference into this prospectus supplement and the accompanying prospectus, before you decide to purchase our common stock. Additional risks and uncertainties of which we are not presently aware or that we currently deem immaterial could also affect our business operations and financial condition. If any of these risks actually occur, our business, financial condition and results of operations could be materially affected. As a result, the trading price of our common stock could decline and you could lose part or all of your investment.

The price of our common stock may be volatile and may be affected by market conditions beyond our control.

Some factors that may cause the market price of our common stock to fluctuate, in addition to the other risks below or those incorporated by reference into this prospectus supplement:

our operating and financial performance and prospects;

our announcements or our competitors' announcements regarding new products or services, enhancements, significant contracts, acquisitions or strategic investments;

changes in earnings estimates or recommendations by securities analysts who cover our common stock;

fluctuations in our quarterly financial results or the quarterly financial results of companies perceived to be similar to us;

changes in our capital structure, such as future issuances of securities, sales of large blocks of common stock by our stockholders, including ING Group, or the incurrence of additional debt;

departure of key personnel;

reputational issues;

changes in general economic and market conditions;

changes in industry conditions or perceptions or changes in the market outlook for the insurance industry;
and

changes in applicable laws, rules or regulations, regulatory actions affecting us and other dynamics. The stock market has experienced extreme price and volume fluctuations in recent years. The market prices of securities of insurance and financial services companies have experienced fluctuations that often have been unrelated or disproportionate to the operating results of these companies. These market fluctuations could result in extreme volatility in the price of shares of our common stock, which could cause a decline in the value of your investment.

Future sales of a substantial number of shares of our common stock may depress the price of our shares.

If our stockholders sell a large number of shares of our common stock, or if we issue a large number of shares of our common stock in connection with future acquisitions, financings, or other circumstances, the market price of shares of our common stock could decline significantly. Moreover, the perception in the public market that our stockholders might sell shares of our common stock could depress the market price of those shares. In addition, following this offering, ING Group will continue to hold a substantial number of shares of our common stock, and sales of a substantial number of shares of our common stock by ING Group could adversely affect the market price of our common stock. ING Group has agreed with the European Commission

Table of Contents

that it will fully divest itself of Voya Financial, Inc. common stock by no later than December 31, 2016. See Item 1. Business Regulation Dutch State Transactions and Restructuring Plan in our Annual Report on Form 10-K for the year ended December 31, 2013, which is incorporated by reference into this prospectus supplement.

All the shares sold in this offering will be freely tradable without restriction, except for shares acquired by any of our affiliates, including ING Group. Immediately after this offering, the public market for our common stock will include the shares of common stock that are being sold in this offering; the 74,971,003 shares of common stock sold in our initial public offering; the 37,950,000 shares of common stock sold in a registered offering on October 29, 2013; the 30,475,000 shares of common stock sold in a registered offering on March 25, 2014; and the 22,277,993 shares of common stock sold in a registered offering on September 8, 2014. In addition, we have registered shares of common stock that are reserved for issuance under our employee benefit plans. The shares under our employee benefit plans can be sold in the public market upon issuance, subject to restrictions under the securities laws applicable to resales by affiliates. In addition, we have entered into a registration rights agreement with ING Group pursuant to which we are obligated to register ING Group's shares of our common stock for public resale upon request by ING Group. See Description of Our Capital Stock Registration Rights Agreement in the accompanying prospectus.

We, ING Group and our directors and executive officers have entered into lock-up arrangements under which we and they have agreed that we and they will not sell, directly or indirectly, any common stock for a period of 45 days from the date of this prospectus supplement (subject to certain exceptions) without the prior written consent of the underwriters. See Underwriting .

Provisions in our amended and restated certificate of incorporation and amended and restated by-laws, of Delaware corporate and of state insurance laws, may prevent or delay an acquisition of us, which could decrease the trading price of our common stock.

State laws, provisions of Voya Financial's amended and restated certificate of incorporation and amended and restated by-laws may delay, deter, prevent or render more difficult a takeover attempt that our stockholders might consider in their best interests. For example, such laws or provisions may prevent our stockholders from receiving the benefit from any premium to the market price of our common stock offered by a bidder in a takeover context. Even in the absence of a takeover attempt, the existence of these provisions may adversely affect the prevailing market price of our common stock if they are viewed as discouraging takeover attempts in the future.

The insurance laws and regulations of the various states in which our insurance subsidiaries are organized may delay or impede a business combination involving the Company. State insurance laws prohibit an entity from acquiring control of an insurance company without the prior approval of the domestic insurance regulator. Under most states statutes, an entity is presumed to have control of an insurance company if it owns, directly or indirectly, 10% or more of the voting stock of that insurance company or its parent company. These regulatory restrictions may delay, deter or prevent a potential merger or sale of our company, even if our Board of Directors decides that it is in the best interests of stockholders for us to merge or be sold. These restrictions also may delay sales by us or acquisitions by third parties of our insurance subsidiaries. In addition, the Investment Company Act would require approval by the contract owners of our variable contracts in order to effectuate a change of control of any affiliated investment adviser to a mutual fund underlying our variable contracts. Further, FINRA approval would be necessary for a change of control of any FINRA registered broker-dealer that is a direct or indirect subsidiary of the Company.

Section 203 of the DGCL may affect the ability of an interested stockholder to engage in certain business combinations, including mergers, consolidations or acquisitions of additional shares, for a period of three years following the time that the stockholder becomes an interested stockholder . An interested stockholder is defined to include persons owning directly or indirectly 15% or more of the outstanding voting stock of a corporation.

Table of Contents

Our amended and restated certificate of incorporation and our amended and restated by-laws include provisions that may have anti-takeover effects and may delay, deter or prevent a takeover attempt that our stockholders might consider in their best interests. For example, our amended and restated certificate of incorporation and by-laws prohibit stockholders from calling special meetings of our stockholders and from taking action by written consent. See

Description of Our Capital Stock Certain Anti-Takeover Provisions of our Amended and Restated Certificate of Incorporation, our Amended and Restated By-laws and Applicable Law in the accompanying prospectus.

The completion of the Direct Share Buyback is subject to conditions and there can be no assurance that the Direct Share Buyback will occur.

The completion of this offering is not conditioned upon the closing of the Direct Share Buyback. Accordingly, the possibility exists that this offering will be completed and the Direct Share Buyback will not have been completed, for example due to the failure to satisfy or waive one or more closing conditions to the Direct Share Buyback. In such circumstances, the shares of common stock that would otherwise have been repurchased by us in the Direct Share Buyback would remain owned by ING Group, which would increase ING Group's proportionate share of our outstanding common stock above what it would have been had the Direct Share Buyback been completed. In addition, in such a circumstance the number of shares of our common stock outstanding immediately following this offering would be higher than it would be if the Direct Share Buyback were to have been completed. Finally, to the extent we sought to repurchase our common stock through other means, we might face higher repurchase costs.

Table of Contents**USE OF PROCEEDS**

We will not receive any of the proceeds from the sale of shares in this offering.

DIVIDEND POLICY

We currently intend to continue to pay quarterly cash dividends on our common stock at the current amount of \$0.01 per share, although any declaration of dividends will be at the discretion of the Board of Directors and will depend on our financial condition, earnings, cash needs, regulatory constraints, capital requirements (including requirements of our subsidiaries) and any other factors that the Board of Directors deems relevant in making such a determination. In addition, we have issued junior subordinated debt securities that limit our ability to pay dividends on or repurchase our common stock in certain circumstances. Therefore, there can be no assurance that we will pay any dividends in the future to holders of our common stock, or as to the amount of any such dividends.

Delaware law requires that dividends be paid only out of surplus, which is defined as the fair market value of our net assets, minus our stated capital; or out of the current or the immediately preceding year's earnings. Voya Financial, Inc. is a holding company and has no direct operations. All of its business operations are conducted through its subsidiaries. The states in which our insurance subsidiaries are domiciled impose certain restrictions on our insurance subsidiaries' ability to pay dividends to Voya Financial, Inc. These restrictions are based in part on the prior year's statutory income and surplus. Such restrictions, or any future restrictions adopted by the states in which our insurance subsidiaries are domiciled, could have the effect, under certain circumstances, of significantly reducing dividends or other amounts payable to Voya Financial, Inc. by our subsidiaries without affirmative approval of state regulatory authorities. For more details, see Risk Factors Risks Related to our Holding Company Structure in Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2013, which is incorporated by reference into this prospectus supplement.

The following sets forth the dividends that our Board of Directors has declared on our common stock since our initial public offering in May 2013:

MATERIAL U.S. FEDERAL TAX CONSIDERATIONS FOR NON-U.S. HOLDERS OF OUR COMMON STOCK

This section summarizes material U.S. federal income and estate tax consequences of the acquisition, ownership and disposition of our common stock by a non-U.S. holder. You are a non-U.S. holder if you are, for U.S. federal income tax purposes, a beneficial owner of our common stock that is:

a nonresident alien individual,

a foreign corporation, or

an estate or trust that in either case is not subject to U.S. federal income tax on a net income basis on income or gain from common stock.

This section applies to you only if you acquire our common stock in this offering and you hold our common stock as a capital asset for U.S. federal income tax purposes.

This section does not consider the specific facts and circumstances that may be relevant to a particular non-U.S. holder and does not address the treatment of a non-U.S. holder under the laws of any state, local or foreign taxing jurisdiction and does not address the potential application of the Medicare contribution tax. This section is based on the tax laws of the United States, including the Internal Revenue Code of 1986, as amended, existing and proposed regulations, and administrative and judicial interpretations, all as of the date hereof. These laws are subject to change, possibly on a retroactive basis.

If a partnership holds our common stock, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in a partnership holding our common stock should consult its tax advisor with regard to the U.S. federal income tax treatment of an investment in our common stock.

You should consult a tax advisor regarding the U.S. federal tax consequences of acquiring, owning and disposing of our common stock in your particular circumstances, as well as any tax consequences that may arise under the laws of any state, local or foreign taxing jurisdiction.

Dividends

Distributions on our common stock will generally be treated as dividends to the extent paid out of our current or accumulated earnings and profits (as determined by U.S. federal income tax principles). Distributions in excess of current and accumulated earnings and profits will be treated first as a tax-free return of capital to the extent of your tax basis in our common stock and then as gain on the disposition of our common stock. Except as described below, if you are a non-U.S. holder of our common stock, dividends paid to you are subject to withholding of U.S. federal income tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate. Even if you are eligible for a lower treaty rate, we and other payors will generally be required to withhold at a 30% rate (rather than the lower treaty rate) on dividend payments to you, unless you have furnished to us or another payor:

an applicable and valid IRS Form W-8 or an acceptable substitute form upon which you certify, under penalties of perjury, your status as a non-U.S. person and your entitlement to the lower treaty rate with respect to such payments, or

in the case of payments made outside the United States to an offshore account (generally, an account maintained by you at an office or branch of a bank or other financial institution at any location outside the United States), other documentary evidence establishing your entitlement to the lower treaty rate in accordance with U.S. Treasury Regulations.

S-9

Table of Contents

If you are eligible for a reduced rate of U.S. federal withholding tax under a tax treaty, you may obtain a refund of any amounts withheld in excess of that rate by filing a refund claim with the IRS.

If dividends paid to you are effectively connected with your conduct of a trade or business within the United States and, if required by a tax treaty, the dividends are attributable to a permanent establishment that you maintain in the United States, we and other payors generally are not required to withhold tax from the dividends, provided that you have furnished to us or another payor a valid IRS Form W-8ECI or an acceptable substitute form upon which you represent, under penalties of perjury, that:

you are a non-U.S. person, and

the dividends are effectively connected with your conduct of a trade or business within the United States and are includible in your gross income.

Effectively connected dividends are taxed at rates applicable to U.S. citizens, resident aliens and domestic U.S. corporations.

If you are a corporate non-U.S. holder, effectively connected dividends that you receive may, under certain circumstances, be subject to an additional branch profits tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

Gain on Disposition of Common Stock

If you are a non-U.S. holder, you generally will not be subject to U.S. federal income tax on gain that you recognize on a disposition of our common stock unless:

the gain is effectively connected with your conduct of a trade or business in the United States and, if required by a tax treaty, the gain is attributable to a permanent establishment that you maintain in the United States,

you are an individual, you hold the common stock as a capital asset, you are present in the United States for 183 or more days in the taxable year of the sale and certain other conditions exist, or

we are or have been a United States real property holding corporation for U.S. federal income tax purposes at any time within the five-year period preceding the disposition or your holding period, whichever period is shorter, you are not eligible for a treaty exemption, and, either (i) our common stock has ceased to be traded on an established securities market prior to the beginning of the calendar year in which the sale or disposition occurs, or (ii) you held (directly or indirectly) more than 5% of our common stock at any time during the five-year period preceding the disposition.

We have not been, are not and do not anticipate becoming a United States real property holding corporation for U.S. federal income tax purposes.

If you are a corporate non-U.S. holder, effectively connected gains that you recognize may, under certain circumstances, be subject to an additional branch profits tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

Withholdable Payments to Foreign Financial Entities and Other Foreign Entities

A 30% withholding tax will be imposed on certain payments to you or certain foreign financial institutions, investment funds and other non-U.S. persons receiving payments on your behalf if you or such institutions fail to comply with information reporting and due diligence requirements. Such payments will include U.S.-source dividends and the gross proceeds from the sale or other disposition of stock that can produce U.S.-source dividends. You could be affected by this withholding if you are subject to the information reporting and due

diligence requirements and fail to comply with them or if you hold common stock through another person (e.g., a

Table of Contents

foreign bank or broker) that is subject to withholding because it fails to comply with these requirements (even if you would not otherwise have been subject to withholding). However, this withholding tax will not apply to payments of gross proceeds from a sale or other disposition of common stock before January 1, 2017.

Federal Estate Taxes

Common stock held by a non-U.S. holder at the time of death will be included in the holder's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

Backup Withholding and Information Reporting

If you are a non-U.S. holder, we and other payors are required to report payments of dividends on IRS Form 1042-S even if the payments are exempt from withholding. You are generally exempt from backup withholding and information reporting on IRS Form 1099 with respect to:

payment of dividends on our common stock and

payment of proceeds from the sale of our common stock effected at a U.S. office of a broker, in each case, as long as the income associated with such payments is otherwise exempt from U.S. federal income tax, and:

the payor or broker does not have actual knowledge or reason to know that you are a U.S. person and you have furnished to the payor or broker:

an applicable and valid IRS Form W-8 or an acceptable substitute form upon which you certify, under penalties of perjury, that you are a non-U.S. person, or

other documentation upon which it may rely to treat the payments as made to a non-United States person in accordance with U.S. Treasury Regulations, or

you otherwise establish an exemption.

Payment of proceeds from the sale of our common stock effected at a foreign office of a broker generally will not be subject to backup withholding or information reporting. However, a sale of our common stock that is effected at a foreign office of a broker will be subject to backup withholding and information reporting if:

the proceeds are transferred to an account maintained by you in the United States,

the payment of proceeds or the confirmation of the sale is mailed to you at a U.S. address, or

UNDERWRITING

Under the terms and subject to the conditions set forth in an underwriting agreement dated the date of this prospectus supplement, the underwriters named below have severally agreed to purchase, and the Selling Stockholder has agreed to sell to them, severally, the number of shares indicated below:

Underwriters	Number of Shares
Merrill Lynch, Pierce, Fenner & Smith Incorporated	
Citigroup Global Markets Inc.	
Total	

The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the shares of common stock offered by this prospectus supplement are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the shares of common stock offered by this prospectus supplement if any such shares are taken.

The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

The underwriters are purchasing the shares of common stock from the Selling Stockholder at a price of \$ _____ per share, which will result in approximately \$ _____ aggregate proceeds to the Selling Stockholder, before deducting expenses. The underwriters propose to offer the shares of common stock for sale from time to time in one or more transactions on the NYSE, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt of acceptance by it and subject to their right to reject any order in whole or in part. The underwriters may effect such transactions by selling the shares of common stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or purchasers of shares of common stock for whom they may act as agents or to whom they may sell as principal. The difference between the price at which the underwriters purchase shares of common stock and the price at which the underwriters resell such shares of common stock may be deemed underwriting compensation.

The estimated offering expenses payable by us are approximately \$ _____.

Our common stock is listed on the New York Stock Exchange under the symbol **VOYA**.

We and all of our directors and officers and the Selling Stockholder have agreed, subject to certain exceptions, that, without the prior written consent of the underwriters, we and they will not, during the period ending 45 days after the date of this prospectus supplement (the "restricted period"):

offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend or otherwise transfer or dispose of, directly or indirectly, any shares of common stock or any securities convertible into or exercisable or exchangeable for

shares of common stock;

file any registration statement with the SEC relating to the offering of any shares of common stock or any securities convertible into or exercisable or exchangeable for common stock; or

enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the common stock,

whether any such transaction described above is to be settled by delivery of common stock or such other securities, in cash or otherwise. In addition, we and each such person have agreed that, without the prior written

consent of the underwriters, we or such other person will not, during the restricted period, make any demand for, or exercise any right with respect to, the registration of any shares of common stock or any security convertible into or exercisable or exchangeable for common stock.

The underwriters, in their sole discretion, may release the common stock and other securities subject to the lock-up agreements described above in whole or in part at any time with or without notice. When determining whether or not to release common stock and other securities from lock-up agreements, the underwriters will consider, among other factors, the holder's reasons for requesting the release, the number of shares of common stock and other securities for which the release is being requested and market conditions at the time.

In order to facilitate the offering of the common stock, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the common stock. Specifically, the underwriters may sell more shares than they are obligated to purchase under the underwriting agreement, creating a short position. The underwriters must close out any short position by purchasing shares in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in this offering. As an additional means of facilitating this offering, the underwriters may bid for, and purchase, shares of common stock in the open market to stabilize the price of the common stock. The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because an underwriter has repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions. These activities may raise or maintain the market price of the common stock above independent market levels or prevent or retard a decline in the market price of the common stock. The underwriters are not required to engage in these activities and may end any of these activities at any time.

We, the Selling Stockholder and the underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act.

A prospectus supplement in electronic format may be made available on websites maintained by one or more underwriters, or selling group members, if any, participating in this offering. The underwriters may allocate a number of shares of common stock for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters on the same basis as other allocations.

Other Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or persons or entities with a relationship with us. They have received, or may in the future receive, customary fees and commissions for these transactions. In particular, certain of the underwriters or their affiliates have a lending relationship with us under our Amended and Restated Revolving Credit Agreement and act as agents thereunder.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect

of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
