PROSPECTUS SUPPLEMENT

(To prospectus dated May 11, 2012)

500,000,000

0.625% Senior Notes due 2020

We are offering 500,000,000 aggregate principal amount of our 0.625% senior notes due 2020 (the "notes"). The notes will mature on March 12, 2020. We will pay interest on the notes annually on March 12 of each year, commencing on March 12, 2016. We may redeem some or all of the notes from time to time at the "make-whole" redemption price described under the heading "Description of the Notes Optional Redemption." In addition, we may redeem the notes in whole, but not in part, at our option, in the event of certain developments affecting United States taxation as described under the heading "Description of the Notes Redemption for Tax Reasons." If we experience a "change of control" repurchase event, unless we have exercised our right to redeem the notes, we will be required to offer to repurchase the notes from holders.

The notes will be our senior unsecured obligations, and will rank equally in right of payment with all of our other senior unsecured indebtedness from time to time outstanding. The notes will be issued only in minimum denominations of 100,000 and integral multiples of 1,000 in excess thereof.

Investing in the notes involves risks. See Risk Factors beginning on page S-5 of this prospectus supplement and the risks discussed elsewhere in this prospectus supplement, the accompanying prospectus and the documents we file with the U.S. Securities and Exchange Commission.

Neither the U.S. Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

Currently there is no public market for the notes. We intend to apply to list the notes on the New York Stock Exchange. The listing application will be subject to approval by the New York Stock Exchange. If such listing is obtained, we have no obligation to maintain such listing and may delist the notes at any time.

CAUTIONARY STATEMENT ABOUT FORWARD-LOOKING STATEMENTS

The U.S. Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements made by us or on our behalf. Certain statements contained in this prospectus supplement, the accompanying prospectus, the information incorporated herein by reference, and other written and oral statements made from time to time by us or on our behalf are based on current projections about operations, industry conditions, financial condition, and liquidity, may not relate strictly to historical or current facts and may contain forward-looking statements that reflect our current views with respect to future events and financial performance. As such, they are considered

forward-looking statements which provide current expectations or forecasts of future events. Such statements can be identified by the use of terminology such as may, could, will, should, possible, plan, predict, forecast, anticipate, estimate, expect, project, intend, believe, may impact, on track, and similar words or expressions. Forward-looking statements generally relate to our growth strategies, financial results, product development, and sales efforts. These forward-looking statements should be considered with the understanding that such statements involve a variety of risks and uncertainties, known and unknown, and may be affected by inaccurate assumptions. Consequently, no forward-looking statement can be guaranteed and actual results may vary materially.

Forward-looking statements in this document or in the information incorporated herein by reference may include, but are not limited to, statements regarding expected earnings per share, cash flow, productivity and raw material prices. Many risks, contingencies and uncertainties could cause actual results to differ materially from our forward-looking statements. Among these factors are: (1) intense competition in the home appliance industry reflecting the impact of both new and established global competitors, including Asian and European manufacturers; (2) acquisition and investment-related risk, including risk associated with our acquisitions of Hefei Sanyo and Indesit, and risk associated with our increased presence in emerging markets; (3) our ability to continue our relationships with significant trade customers and the ability of these trade customers to maintain or increase market share; (4) risks related to our international operations, including changes in foreign regulations, regulatory compliance and disruptions arising from natural disasters or terrorist attacks; (5) fluctuations in the cost of key materials (including steel, plastic, resins, copper and aluminum) and components and our ability to offset cost increases; (6) our ability to manage foreign currency fluctuations; (7) litigation, tax, and legal compliance risk and costs, especially costs which may be materially different from the amount we expect to incur or have accrued for; (8) the effects and costs of governmental investigations or related actions by third parties; (9) changes in the legal and regulatory environment including environmental and health and safety regulations; (10) our ability to maintain our reputation and brand image; (11) our ability to achieve our business plans, productivity improvements, cost control, price increases, leveraging of its global operating platform, and acceleration of the rate of innovation; (12) information technology system failures and data security breaches; (13) product liability and product recall costs; (14) inventory and other asset risk; (15) changes in economic conditions which affect demand for our products, including the strength of the building industry and the level of interest rates; (16) the ability of suppliers of critical parts, components and manufacturing equipment to deliver sufficient quantities to us in a timely and cost-effective manner; (17) the uncertain global economy; (18) our ability to attract, develop and retain executives and other qualified employees; (19) the impact of labor relations; (20) our ability to obtain and protect intellectual property rights; and (21) health care cost trends, regulatory changes and variations between results and estimates that could increase future funding obligations for pension and postretirement benefit plans.

Except as required by law, we undertake no obligation to update any forward-looking statement, and investors are advised to review disclosures in our filings with the U.S. Securities and Exchange Commission (the SEC). It is not possible to foresee or identify all factors that could cause actual results to differ from expected or historic results. Therefore, investors should not consider the foregoing factors to be an exhaustive statement of all risks, uncertainties, or factors that could potentially cause actual results to differ from forward-looking statements. Additional information concerning these factors can be found in our periodic filings with the SEC, including our most recent Annual Report on Form 10-K, as updated by our quarterly reports on Form 10-Q, current reports on Form 8-K and other filings we make with the SEC.

For a more complete understanding of the notes, please refer to the section entitled **Description of Notes** in this prospectus supplement and the section entitled **Description of Debt Securities** in the accompanying prospectus.*

Issuer	Whirlpool Corporation.
Notes Offered	500,000,000 aggregate principal amount of 0.625% senior notes due 2020.
Maturity	The notes will mature on March 12, 2020.
Interest	The notes will bear interest from March 12, 2015 at the rate of 0.625% per year, payable annually in arrears.
Interest Payment Date	March 12 of each year, commencing on March 12, 2016.
Ranking	The notes will be our senior unsecured obligations, will rank equally in right of payment with all of our existing and future senior unsecured debt and will rank senior in right of payment to all of our existing and future subordinated debt. The notes will be effectively subordinated to all liabilities of our subsidiaries, including trade payables. As of December 31, 2014, our subsidiaries had \$621 million of indebtedness. See Description of Notes in this prospectus supplement.
Currency of Payment	All payments of interest and principal, including payments made upon any redemption of the notes, will be made in euro. If the euro is unavailable to us due to the imposition of exchange controls or other circumstances beyond our control or if the euro is no longer being used by the then member states of the European Monetary Union that have adopted the euro as their currency or for the settlement of transactions by public institutions of or within the international banking community, then all payments in respect of the notes will be made in dollars until the euro is again available to us or so used.
Additional Amounts	We will, subject to certain exceptions and limitations set forth herein, pay additional amounts on the notes as are necessary in order that the net payment by us of the principal of, and premium, if any, and interest on the notes to a holder who is not a United States person, after withholding

or deduction for any future tax, assessment or other governmental charge imposed by the United States or a taxing authority in the United States will not be less than the amount provided in the notes to be then due and payable. See Description of the Notes Payment of Additional Amounts.

S-2

Optional Redemption

We may redeem the notes at our option, at any time in whole or from time to time in part, at a redemption price equal to the greater of:

100% of the principal amount of the notes being redeemed; and

the sum of the present values of the remaining scheduled payments of principal and interest on the notes being redeemed on that redemption date (not including any portion of any payments of interest accrued to the redemption date) discounted to the redemption date on an annual basis (ACTUAL/ACTUAL (ICMA)) at the applicable Comparable Government Bond Rate (as defined herein), plus 12 basis points;

plus accrued and unpaid interest on the notes being redeemed to, but excluding, the redemption date.

Redemption for Tax Reasons

We may redeem the notes at our option in whole but not part if the tax laws of the United States (or any taxing authority in the United States) change and we become obligated to pay additional amounts on the notes as described under *Description of the Notes Payments of Additional Amounts*. This redemption would be at 100% of the principal amount, together with accrued and unpaid interest on the notes to the date fixed for redemption. See *Description of the Notes Redemption for Tax Reasons*.

Offer to Repurchase Upon a Change of Control Repurchase Event

If a Change of Control Repurchase Event (as defined under *Description of Notes Certain Definitions*) occurs, we will be required, unless we have exercised our right to redeem the notes, to make an offer to each holder of notes to repurchase the notes at a purchase price equal to 101% of the principal amount of the notes, plus accrued and unpaid interest to, but not including, the date of repurchase.

Certain Covenants

The indenture governing the notes contains certain covenants that will, among other things, limit our ability and the ability of our restricted subsidiaries to:

create liens; and

enter into sale and leaseback transactions.

These covenants are subject to a number of important qualifications and limitations. See Description of Notes Certain Covenants.

Use of Proceeds

We intend to use the net proceeds from the sale of the notes for the repayment of a portion of our commercial paper borrowings. See Use of Proceeds.

Additional Notes

We may, from time to time, without giving notice to or seeking the consent of the holders or beneficial owners of the notes, issue additional debt securities having the same terms (except for the issue

date and, in some cases, the public offering price and the first interest payment date and the initial interest accrual date) as, and ranking equally and ratably with, the notes. Any additional debt securities having such similar terms, together with the notes, will constitute a single series of securities under the indenture.

Denomination and Form

We will issue the notes in the form of one or more global notes fully registered in the name of a nominee of, and deposited with, a common depositary for Clearstream and Euroclear. Except in the limited circumstances described in this prospectus supplement, owners of beneficial interests in the notes will not be entitled to have notes registered in their names, will not receive or be entitled to receive notes in definitive form and will not be considered holders of notes under the indenture. The notes will be issued only in minimum denominations of 100,000 and integral multiples of 1,000 in excess thereof.

Listing

We intend to apply to list the notes on the New York Stock Exchange. The listing application will be subject to approval by the New York Stock Exchange. If such a listing is obtained, we have no obligation to maintain such listing, and we may delist the notes at any time.

Material U.S. Federal Income Tax Considerations

If you are a holder subject to U.S. income tax, you will generally be taxed on stated interest on the notes as ordinary income at the time the interest is received or when it accrues, depending on your method of accounting for tax purposes. Any gain or loss you recognize on the sale, exchange, redemption or other disposition of a note generally will be capital gain or loss, subject to the special rules that apply to foreign currency transactions. The purchase of the notes in euro and payment of interest and proceeds upon disposition of the notes in euro may have significant tax consequences. You should consult your tax advisor regarding the United States federal, state, local or other tax consequences of acquiring, owning and disposing of the notes. See Material U.S. Federal Income Tax Considerations.

Risk Factors

You should carefully read and consider the information set forth in Risk Factors, the risks discussed elsewhere in this prospectus supplement and the accompanying prospectus, including those set forth under the heading Forward-Looking Statements in the accompanying prospectus, and the risk factors set forth in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014 before investing in the notes.

RISK FACTORS

*You should carefully consider the following risk factors and the information under the heading **Risk Factors** in the documents incorporated by reference into the accompanying prospectus, as well as the other information included or incorporated by reference into this prospectus supplement and the accompanying prospectus, before making an investment decision with respect to the notes. You should also note that these risks are not the only risks that we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may have a negative impact on our business operations. The risks described could affect our business, financial condition or results of operations. In such a case, you may lose all or part of your investment in the notes.*

Ratings of the notes may not reflect all of the risks of an investment in the notes.

The notes will be rated by at least one nationally recognized statistical rating organization. The ratings of our notes will primarily reflect our financial strength and will change in accordance with the rating of our financial strength. Any rating is not a recommendation to purchase, sell or hold any particular security, including the notes. These ratings do not comment as to market price or suitability for a particular investor. In addition, ratings at any time may be lowered or withdrawn in their entirety. The ratings of our notes may not reflect the potential impact of all risks related to structure and other factors on any trading market for, or trading value of, your notes. Actual or anticipated changes or downgrades in our credit ratings, including any announcement that our ratings are under further review for a potential downgrade, could affect the market value of the notes and increase our corporate borrowing costs.

There may be no public trading market for the notes.

There is no existing market for the notes. Although we intend to apply for listing of the notes on the New York Stock Exchange, no assurance can be given that the notes will become or will remain listed or that an active public trading market for the notes will develop or, if developed, will continue. The listing application will be subject to approval by the New York Stock Exchange. If such a listing is obtained, we have no obligation to maintain such listing, and we may delist the notes at any time. As a result, a market for the notes may not develop or, if one does develop, it may not be maintained. If an active market for the notes fails to develop or be sustained, the trading price and liquidity of the notes could be adversely affected.

If you are able to resell your notes, many factors may affect the price you receive, which may be lower than you believe to be appropriate.

If you are able to resell your notes, the price you receive will depend on many factors that may vary over time, including:

the market for similar securities;

the level, direction and volatility of market interest rates;

the outstanding amount of the notes;

the redemption and repayment features of the notes to be sold; and

the time remaining to maturity of your notes.

As a result of these factors, you may only be able to sell your notes at prices below those you believe to be appropriate, including prices below the price you paid for them.

Effective subordination of the notes may reduce amounts available for payment of the notes.

While we are not a holding company, we conduct some of our operations through our subsidiaries. As of December 31, 2014, our subsidiaries had indebtedness of \$621 million. Holders of the notes will be effectively subordinated to the indebtedness and other liabilities of our subsidiaries, including trade creditors. In the event of

S-5

a default by a subsidiary under any credit arrangement or other indebtedness, its creditors could accelerate such debt, prior to such subsidiary distributing amounts to us that we could have used to make payments on the notes.

In addition, the notes will be unsecured. As of December 31, 2014, we had no significant secured debt outstanding. If in the future, we default on any then-existing secured debt, the holders thereof may foreclose on the assets securing our secured debt, reducing the cash flow from the foreclosed property available for payment of unsecured debt. The holders of any of our secured debt outstanding at the time of an event of default also would have priority over unsecured creditors in the event of our liquidation, bankruptcy or similar proceeding. In the event of such a proceeding, the holders of our secured debt, if any, would be entitled to proceed against our pledged collateral, and that collateral will not be available for payment of unsecured debt, including the notes. As a result, the notes will be effectively subordinated to any secured debt that we may have now or in the future.

The notes do not restrict our ability to incur additional debt or prohibit us from taking other action that could have a negative impact on holders of the notes.

We are not restricted under the terms of the indenture or the notes from incurring additional indebtedness. The terms of the indenture limit our ability to secure additional debt without also securing the notes and to enter into sale and leaseback transactions. However, these limitations are subject to certain exceptions. See Description of Notes Certain Covenants Limitations on Liens and Description of Notes Certain Covenants Restriction on Sales and Leasebacks. In addition, the notes do not require us to achieve or maintain any minimum financial results relating to our financial position or results of operations. Our ability to recapitalize, secure existing or future debt or take a number of other actions that are not limited by the terms of the indenture and the notes, including repurchasing subordinated indebtedness or common stock or transferring assets to our parent if we were to form a holding company, could have the effect of diminishing our ability to make payments on the notes when due.

Our financial performance and other factors could adversely impact our ability to make payments on the notes.

Our ability to make scheduled payments with respect to our indebtedness, including the notes, will depend on our financial and operating performance, which, in turn, is subject to prevailing economic conditions and to financial, business and other factors beyond our control.

If we redeem notes when prevailing interest rates are lower than the rate borne by the notes, you likely would not be able to reinvest the redemption proceeds in a comparable security at as high an effective interest rate.

We may choose to redeem your notes from time to time. If prevailing rates are lower at the time of redemption, you likely would not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as the then-current interest rate on the notes being redeemed.

An increase in market interest rates could result in a decrease in the value of the notes.

In general, as market interest rates rise, notes bearing interest at a fixed rate generally decline in value because the premium, if any, over market interest rates will decline. Consequently, if you purchase notes and market interest rates increase, the market value of your notes may decline. We cannot predict the future level of market interest rates.

We may not have the funds to repurchase the notes upon a Change of Control Repurchase Event as may be required by the notes.

Upon the occurrence of a Change of Control Repurchase Event (as defined below under Description of Notes Certain Definitions), unless we have exercised our right to redeem the notes, subject to certain

S-6

conditions, we will be required to make an offer to each holder of notes to repurchase the notes at a purchase price equal to 101% of the principal amount of the notes, plus any accrued and unpaid interest thereon to the date of repurchase. The source of funds for that repurchase of notes will be our available cash or cash generated from our subsidiaries' operations or other potential sources, including borrowings, sales of assets or sales of equity. We cannot assure you that sufficient funds from those sources will be available at the time a Change of Control Repurchase Event occurs, requiring us to repurchase the notes tendered.

Accordingly, it is possible that we will not have sufficient funds at the time of the Change of Control Repurchase Event to make the required repurchase of the notes or our other debt securities. It is also possible that restrictions in our credit agreement will not allow such repurchases. See *Description of Notes Repurchase Upon a Change of Control* for additional information.

An investment in the notes by a holder whose home currency is not euro entails significant risks.

All payments of interest on and the principal of the notes and any redemption price for the notes will be made in euro. An investment in the notes by a holder whose home currency is not euro entails significant risks. These risks include the possibility of significant changes in rates of exchange between the holder's home currency and euro and the possibility of the imposition or subsequent modification of foreign exchange controls. These risks generally depend on factors over which we have no control, such as economic, financial and political events and the supply of and demand for the relevant currencies. In the past, rates of exchange between euro and certain currencies have been highly volatile, and each holder should be aware that volatility may occur in the future. Fluctuations in any particular exchange rate that have occurred in the past, however, are not necessarily indicative of fluctuations in the rate that may occur during the term of the notes. Depreciation of euro against the holder's home currency would result in a decrease in the effective yield of the notes below its coupon rate and, in certain circumstances, could result in a loss to the holder. If you are a holder subject to United States income tax, see *Material United States Federal Income Tax Considerations Foreign Currency Considerations* for the material United States federal income tax consequences of the acquisition, ownership and disposition of the notes related to the notes being denominated in euro.

The notes permit us to make payments in dollars if we are unable to obtain euro.

If the euro is unavailable to us due to the imposition of exchange controls or other circumstances beyond our control or if the euro is no longer being used by the then member states of the European Monetary Union that have adopted the euro as their currency or for the settlement of transactions by public institutions of or within the international banking community, then all payments in respect of the notes will be made in dollars until the euro is again available to us or so used. The amount payable on any date in euro will be converted into U.S. dollars at the rate mandated by the U.S. Federal Reserve Board as of the close of business on the second business day prior to the relevant payment date or, in the event the U.S. Federal Reserve Board has not mandated a rate of conversion, on the basis of the then most recent U.S. dollar/euro exchange rate published in *The Wall Street Journal* on or most recently prior to the second business day prior to the relevant payment date. Any payment in respect of the notes so made in dollars will not constitute an event of default under the notes or the indenture governing the notes.

In a lawsuit for payment on the notes, an investor may bear currency exchange risk.

The indenture is, and the notes will be, governed by the laws of the State of New York. Under New York law, a New York state court rendering a judgment on the notes would be required to render the judgment in euro. However, the judgment would be converted into dollars at the exchange rate prevailing on the date of entry of the judgment. Consequently, in a lawsuit for payment on the notes, investors would bear currency exchange risk until a New York state court judgment is entered, which could be a significant amount of time. A federal court sitting in New York with diversity jurisdiction over a dispute arising in connection with the notes would apply New York law.

S-7

In courts outside of New York, investors may not be able to obtain a judgment in a currency other than dollars. For example, a judgment for money in an action based on the notes in many other United States federal or state courts ordinarily would be enforced in the United States only in dollars. The date used to determine the rate of conversion of euro into dollars would depend upon various factors, including which court renders the judgment and when the judgment is rendered.

Trading in the clearing systems is subject to minimum denomination requirements.

The terms of the notes provide that notes will be issued with a minimum denomination of 100,000 and multiples of 1,000 in excess thereof. It is possible that the clearing systems may process trades that could result in amounts being held in denominations smaller than the minimum denominations. If definitive notes are required to be issued in relation to such notes in accordance with the provisions of the relevant global notes, a holder who does not have the minimum denomination or a multiple of 1,000 in excess thereof in its account with the relevant clearing system at the relevant time may not receive all of its entitlement in the form of definitive notes unless and until such time as its holding satisfies the minimum denomination requirement.

EU Savings Directive A paying agent may be obligated to withhold taxes under the EU Savings Directive.

Under EC Council Directive 2003/48/EC of June 3, 2003 on taxation of savings income in the form of interest payments (the EU Savings Directive), the competent authority of a member state of the European Union (each a Member State) is required to provide to the competent authority of another Member State details of payments of interest and other similar income paid by a person within its jurisdiction to, or for the benefit of, an individual, or certain other persons, resident in that other Member State. However, for a transitional period, Austria is instead required (unless during such period it elects otherwise) to levy withholding tax at a rate of 35% in relation to such payments. The ending of such transitional period is dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries. A number of non-EU countries and territories have adopted similar measures. Luxembourg operated a withholding system until December 31, 2014, but the Luxembourg Government has elected out of the withholding system in favor of automatic exchange of information with effect from January 1, 2015.

On March 24, 2014, the European Council adopted an EU Council Directive amending and broadening the scope of the requirements described above. In particular, the changes expand the range of payments covered by the EU Savings Directive to include certain additional types of income, and widen the range of recipients payments to whom are covered by the EU Savings Directive, to include certain other types of entity and legal arrangement. Member States are required to implement national legislation giving effect to these changes by January 1, 2016 (which national legislation must apply from January 1, 2017).

If a payment were to be made or collected through a Member State that has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, then neither we, nor any paying agent nor any other person would be obliged to pay additional amounts with respect to any note as a result of the imposition of such withholding tax.

USE OF PROCEEDS

We expect the net proceeds from the sale of the notes to be approximately 495.9 million (or \$555.3 million using the noon buying rate in New York City on February 27, 2015 for cable transfers of 1.00=\$1.1197 as announced by the United States Federal Reserve Board for euro), after deducting our offering expenses and underwriting discounts. We intend to use the net proceeds from the sale of the notes for the repayment of a portion of our commercial paper borrowings. As of March 3, 2015, the commercial paper to be repaid using the proceeds of this offering carried a weighted-average interest rate of 0.19% and has various maturity dates, with the last being March 31, 2015.

CURRENCY CONVERSION

Principal and interest payments in respect of the notes will be payable in euro. If the euro is unavailable to us due to the imposition of exchange controls or other circumstances beyond our control or if the euro is no longer being used by the then member states of the European Monetary Union that have adopted the euro as their currency or for the settlement of transactions by public institutions of or within the international banking community, then all payments in respect of the notes will be made in dollars until the euro is again available to us or so used. The amount payable on any date in euro will be converted into U.S. dollars at the rate mandated by the U.S. Federal Reserve Board as of the close of business on the second business day prior to the relevant payment date or, in the event the U.S. Federal Reserve Board has not mandated a rate of conversion, on the basis of the then most recent U.S. dollar/euro exchange rate published in *The Wall Street Journal* on or most recently prior to the second business day prior to the relevant payment date. Any payment in respect of the notes so made in dollars will not constitute an event of default under the notes or the indenture governing the notes.

Investors will be subject to foreign exchange risks as to payments of principal and interest that may have important economic and tax consequences to them. See Risk Factors. You should consult your own financial and legal advisors as to the risks involved in an investment in the notes.

On February 27, 2015, the noon buying rate in New York City for cable transfers as announced by the United States Federal Reserve Board was 1.00=\$1.1197.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of earnings to fixed charges for each of the periods presented. For purposes of determining the ratio of earnings to fixed charges, earnings consist of income (loss) before income taxes before adjustment for fixed charges. Fixed charges consist of the portion of rents representative of the interest factor, interest on indebtedness and amortization of debt financing fees.

	Year Ended December 31,				
	2014	2013	2012	2011	2010
Ratio of Earnings to Fixed Charges	5.0x	5.0x	3.2x	(1)	3.1x

(1) Earnings for the year ended December 31, 2011 were inadequate to cover fixed charges. The coverage deficiency was approximately \$28 million.

DESCRIPTION OF NOTES

The following description is a summary of the material provisions of the notes and the indenture. It does not restate those instruments and agreements in their entirety. We urge you to read those instruments and agreements because they, and not this description, define your rights as holders of notes. You may obtain a copy of the indenture from us by writing to us at Whirlpool Corporation, 2000 North M-63, Benton Harbor Michigan 49022, Attn: Investor Relations. The notes will have the terms described below. Capitalized terms used but not defined below or under Certain Definitions have the meanings given to them in the indenture relating to the notes.

General Terms of the Notes

The notes being offered by this prospectus supplement and the accompanying prospectus will be issued under an indenture between us and U.S. Bank National Association (as successor to Citibank, N.A.), as trustee, dated March 20, 2000 (as may be amended, supplemented or amended and restated from time to time). This prospectus supplement refers to U.S. Bank National Association as the trustee. The indenture is subject to and governed by the U.S. Trust Indenture Act of 1939, as amended.

The indenture and the notes do not limit the amount of indebtedness which may be incurred or the amount of securities which may be issued by us, and contain no financial or similar restrictions on us subject to certain limited exceptions. See Limitations on Liens and Restrictions on Sales and Leasebacks.

The original principal amount of the notes will be 500,000,000.

We may, from time to time, without giving notice to or seeking the consent of the holders or beneficial owners of the notes, issue additional debt securities having the same terms (except for the issue date and, in some cases, the public offering price and the first interest payment date and the initial interest accrual date) as, and ranking equally and ratably with, the notes. Any additional debt securities having such similar terms, together with the notes, will constitute a single series of securities under the indenture.

The notes will be our senior unsecured obligations, will rank equally in right of payment with all of our existing and future senior unsecured debt and will rank senior in right of payment to all of our existing and future subordinated debt. The notes will be effectively subordinated to all secured obligations to the extent of the assets that serve as security for those obligations. As of December 31, 2014, we had no significant secured debt. The notes will be effectively subordinated to all liabilities of our subsidiaries, including trade payables. As of December 31, 2014, our subsidiaries had \$621 million of indebtedness.

The notes will be issued only in fully registered form without coupons, in minimum denominations of 100,000 with integral multiples of 1,000 thereof.

The notes will mature on March 12, 2020.

The notes will bear interest at the rate of 0.625% per year. Interest on the notes will accrue from March 12, 2015 and be payable annually in arrears on March 12 of each year, commencing March 12, 2016 to the persons in whose names the notes were registered at the close of business on the business day (for this purpose a day on which Clearstream and Euroclear are open for business) immediately preceding the interest payment date.

Any payment otherwise required to be made in respect of the notes on a date that is not a Business Day may be made on the next succeeding Business Day with the same force and effect as if made on that date. No additional interest shall accrue as a result of a delayed payment.

If the notes are issued in definitive form, principal and interest will be payable, and the notes will be transferable or exchangeable, at the office or offices or agency maintained by us for this purpose. Payment of interest on notes issued in definitive form may be made at our option by check mailed to the registered holders.

S-10

Interest on the notes will be computed on the basis of the actual number of days in the period for which interest is being calculated and the actual number of days from and including the last date on which interest was paid or duly provided for on the notes (or March 12, 2015 if no interest has been paid on the notes), to but excluding the next scheduled interest payment date. This payment convention is referred to as ACTUAL/ACTUAL (ICMA) as defined in the rulebook of the International Capital Market Association.

The notes will be represented by one or more global securities registered in the name of a nominee of the common depositary for Clearstream and Euroclear. The notes will be available only in book-entry form. Refer to Book-Entry Delivery and Form.

We will initially appoint the trustee at its corporate trust office as a paying agent, transfer agent and registrar for the notes. Elavon Financial Services Limited, UK Branch, will initially act as London paying agent and transfer agent for the notes and Elavon Financial Services Limited will act as registrar. We may vary or terminate the appointment of any paying agent or transfer agent, or appoint additional or other such agents or approve any change in the office through which any such agent acts; provided, however, that, to the extent permitted by law, we will undertake to maintain a paying agent in a member state of the European Union that is not obliged to withhold or deduct tax pursuant to the European Union Directive 2003/48/EC, or any law implementing, or complying with or introduced in order to conform to, such Directive. We will provide you with notice of any resignation, termination or appointment of the trustee or any paying agent or transfer agent, and of any change in the office through which any such agent will act. We will cause each transfer agent to act as a co-registrar and will cause to be kept at the office of the registrar outside of the United Kingdom a register in which, subject to such reasonable regulations as we may prescribe, we will provide for the registration of the notes and registration of transfers of the notes.

Notices to holders of the notes will be mailed to the registered holders, subject to the provisions herein. Any notice shall be deemed to have been given on the date of mailing. So long as the notes are represented by a global security deposited with Elavon Financial Services Limited, as the common depositary for Clearstream and Euroclear, notices to holders may be given by delivery to Clearstream and Euroclear, and such notices shall be deemed to be given on the date of delivery to Clearstream and Euroclear. The trustee will only mail notices to the registered holder of the notes. The trustee will mail notices as directed by us in writing by first-class mail, postage prepaid, to each registered holder's last known address as it appears in the security register that the trustee maintains. You will not receive notices regarding the notes directly from us unless we reissue the notes to you in fully certificated form.

Issuance in Euro

Initial holders will be required to pay for the notes in euro, and all payments of interest and principal, including payments made upon any redemption of the notes, will be payable in euro. If, on or after the date of this prospectus supplement, the euro is unavailable to us due to the imposition of exchange controls or other circumstances beyond our control or if the euro is no longer being used by the then member states of the European Monetary Union that have adopted the euro as their currency or for the settlement of transactions by public institutions of or within the international banking community, then all payments in respect of the notes will be made in dollars until the euro is again available to us or so used. The amount payable on any date in euro will be converted into U.S. dollars at the rate mandated by the U.S. Federal Reserve Board as of the close of business on the second business day prior to the relevant payment date or, in the event the U.S. Federal Reserve Board has not mandated a rate of conversion, on the basis of the then most recent U.S. dollar/euro exchange rate published in *The Wall Street Journal* on or most recently prior to the second business day prior to the relevant payment date. Any payment in respect of the notes so made in dollars will not constitute an event of default under the notes or the indenture governing the notes. Neither the trustee nor the paying agent shall have any responsibility for any calculation or conversion in connection with the foregoing.

Investors will be subject to foreign exchange risks as to payments of principal and interest that may have important economic and tax consequences to them. See Risk Factors.

S-11

Optional Redemption

The notes may be redeemed at our option, at any time in whole or from time to time in part. The redemption price for the notes to be redeemed on any redemption date will be equal to the greater of the following amounts:

100% of the principal amount of the notes being redeemed on the redemption date; or

the sum of the present values of the remaining scheduled payments of principal and interest on the notes being redeemed on that redemption date (not including any portion of any payments of interest accrued to the redemption date) discounted to the redemption date on an annual basis (ACTUAL/ACTUAL (ICMA)) at the applicable Comparable Government Bond Rate (as defined below), plus 12 basis points; plus accrued and unpaid interest on the notes being redeemed to, but not including, the redemption date. Notwithstanding the foregoing, installments of interest on the notes that are due and payable on interest payment dates falling on or prior to a redemption date will be payable on the interest payment date to the registered holders as of the close of business on the relevant record date according to the notes and the indenture.

We will mail or provide notice of any redemption at least 30 days but not more than 60 days before the redemption date to each registered holder of the notes to be redeemed. Once notice of redemption is mailed or provided, the notes called for redemption will become due and payable on the redemption date and at the applicable redemption price, plus accrued and unpaid interest to the redemption date.

On and after the redemption date, interest will cease to accrue on the notes or any portion of the notes called for redemption (unless we default in the payment of the redemption price and accrued interest). On or before the redemption date, we will deposit with a paying agent or the trustee money sufficient to pay the redemption price of and accrued interest on the notes to be redeemed on that date. If less than all of the securities of any series are to be redeemed, the securities to be redeemed shall be selected by the trustee by a method the trustee deems to be fair and appropriate or in case the notes are represented by one or more global notes, beneficial interests therein shall be selected for redemption by Clearstream and Euroclear in accordance with their respective applicable procedures therefor. The notes will not be entitled to the benefit of any mandatory redemption or sinking fund.

Payment of Additional Amounts

We will, subject to the exceptions and limitations set forth below, pay as additional interest on the notes such additional amounts as are necessary in order that the net payment by us or a paying agent of the principal of, and premium, if any, and interest on the notes to a holder who is not a United States person (as defined below), after withholding or deduction for any future tax, assessment or other governmental charge imposed by the United States or a taxing authority in the United States, will not be less than the amount provided in the notes to be then due and payable; provided, however, that the foregoing obligation to pay additional amounts shall not apply:

- (1) to any tax, assessment or other governmental charge that would not have been imposed but for the holder (or the beneficial owner for whose benefit such holder holds such note), or a fiduciary, settlor, beneficiary, member or shareholder of the holder if the holder is an estate, trust, partnership or corporation, or a person holding a power over an estate or trust administered by a fiduciary holder, being considered as:
 - (a) being or having been engaged in a trade or business in the United States or having or having had a permanent establishment in the United States;

(b) having a current or former connection with the United States (other than a connection arising solely as a result of the ownership of the notes or the receipt of any payment or the enforcement of any rights thereunder), including being or having been a citizen or resident of the United States;

(c) being or having been a personal holding company, a passive foreign investment company or a controlled foreign corporation for United States income tax purposes or a corporation that has accumulated earnings to avoid United States federal income tax;

S-12

(d) being or having been a 10-percent shareholder of the Company as defined in section 871(h)(3) of the United States Internal Revenue Code of 1986, as amended (the Code), or any successor provision; or

(e) being a bank receiving payments on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business;

- (2) to any holder that is not the sole beneficial owner of the notes, or a portion of the notes, or that is a fiduciary, partnership or limited liability company, but only to the extent that a beneficial owner with respect to the holder, a beneficiary or settlor with respect to the fiduciary, or a beneficial owner or member of the partnership or limited liability company would not have been entitled to the payment of an additional amount had the beneficiary, settlor, beneficial owner or member received directly its beneficial or distributive share of the payment;
- (3) to any tax, assessment or other governmental charge that would not have been imposed but for the failure of the holder or any other person to comply with certification, identification or information reporting requirements concerning the nationality, residence, identity or connection with the United States of the holder or beneficial owner of the notes, if compliance is required by statute, by regulation of the United States or any taxing authority therein or by an applicable income tax treaty to which the United States is a party as a precondition to exemption from such tax, assessment or other governmental charge;
- (4) to any tax, assessment or other governmental charge that is imposed otherwise than by withholding by us or a paying agent from the payment;
- (5) to any tax, assessment or other governmental charge that would not have been imposed but for a change in law, regulation, or administrative or judicial interpretation that becomes effective more than 15 days after the payment becomes due or is duly provided for, whichever occurs later;
- (6) to any estate, inheritance, gift, sales, excise, transfer, wealth, capital gains or personal property tax or similar tax, assessment or other governmental charge;
- (7) to any withholding or deduction that is imposed on a payment to an individual and that is required to be made pursuant to European Council Directive 2003/48/EC or the taxation of the savings income or any law implementing or complying with, or introduced in order to conform to such Directive;
- (8) to any tax, assessment or other governmental charge required to be withheld by any paying agent from any payment of principal of or interest on any note, if such payment can be made without such withholding by at least one other paying agent;
- (9) to any tax, assessment or other governmental charge that would not have been imposed but for the presentation by the holder of any note, where presentation is required, for payment on a date more than 30 days after the date on which payment became due and payable or the date on which payment thereof is duly provided for, whichever occurs later;

- (10) to any tax, assessment or other governmental charge that would not have been imposed or withheld but for the beneficial owner being a bank (i) purchasing the notes in the ordinary course of its lending business or (ii) that is neither (A) buying the notes for investment purposes only nor (B) buying the notes for resale to a third-party that either is not a bank or holding the notes for investment purposes only;
- (11) to any tax, assessment or other governmental charge imposed under Sections 1471 through 1474 of the Code (or any amended or successor provisions), any current or future regulations or official interpretations thereof, any agreement entered into pursuant to Section 1471(b) of the Code, any intergovernmental agreement entered into in connection with the implementation of such sections of the Code or any fiscal or regulatory legislation, rules or practices adopted pursuant to any such intergovernmental agreement; or
- (12) in the case of any combination of items (1), (2), (3), (4), (5), (6), (7), (8), (9), (10) and (11).
The notes are subject in all cases to any tax, fiscal or other law or regulation or administrative or judicial interpretation applicable to the notes. Except as specifically provided under this heading Payment of

Additional Amounts, we will not be required to make any payment for any tax, assessment or other governmental charge imposed by any government or a political subdivision or taxing authority of or in any government or political subdivision.

As used under this heading **Payment of Additional Amounts** and under the heading **Redemption for Tax Reasons**, the term **United States** means the United States of America, the states of the United States, and the District of Columbia, and the term **United States person** means any individual who is a citizen or resident of the United States for United States federal income tax purposes, a corporation, partnership or other entity created or organized in or under the laws of the United States, any state of the United States or the District of Columbia, or any estate or trust the income of which is subject to United States federal income taxation regardless of its source.

Redemption for Tax Reasons

If, as a result of any change in, or amendment to, the laws (or any regulations or rulings promulgated under the laws) of the United States (or any taxing authority in the United States), or any change in, or amendment to, an official position or judicial precedent regarding the application or interpretation of such laws, regulations or rulings, which change or amendment is announced or becomes effective on or after the date of this prospectus supplement, we become or, based upon a written opinion of independent counsel selected by us, will become obligated to pay additional amounts as described under the heading **Payment of Additional Amounts** with respect to the notes, then we may at any time at our option redeem, in whole, but not in part, the notes on not less than 30 nor more than 60 days prior notice, at a redemption price equal to 100% of their principal amount plus accrued and unpaid interest to the redemption date.

Offer to Repurchase Upon a Change of Control Repurchase Event

If a Change of Control Repurchase Event occurs, unless we have exercised our right to redeem the notes as described above, holders of notes will have the right to require us to repurchase all or any part (in integral multiples of 1,000) of their notes pursuant to the offer described below (the **Change of Control Offer**). In the Change of Control Offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of notes repurchased plus accrued and unpaid interest, if any, on the notes repurchased, to the date of repurchase (the **Change of Control Payment**). Within 30 days following any Change of Control Repurchase Event, or, at our option, prior to any Change of Control, but after the public announcement of the Change of Control, we will be required to mail or provide a notice to holders of notes describing the transaction or transactions that constitute or may constitute the Change of Control Repurchase Event and offering to repurchase the notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed or provided (the **Change of Control Payment Date**), pursuant to the procedures required by the notes and described in such notice. The notice shall, if mailed or provided prior to the date of consummation of the Change of Control, state that the offer to purchase is conditioned on the Change of Control Repurchase Event occurring on or prior to the payment date specified in the notice. We will comply with the requirements of Rule 14e-1 under the U.S. Securities Exchange Act of 1934, as amended (the **Exchange Act**), and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Repurchase Event. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the notes, we will be required to comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control provisions of the notes by virtue of such conflicts.

On the Change of Control Payment Date, we will be required, to the extent lawful, to:

accept for payment all notes or portions of notes properly tendered pursuant to the Change of Control Offer;

S-14

deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes properly tendered; and

deliver or cause to be delivered to the trustee the notes properly accepted together with an officers' certificate stating the aggregate principal amount of notes or portions of notes being purchased.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of the properties or assets of Whirlpool and its subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require Whirlpool to repurchase its notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of Whirlpool and its subsidiaries taken as a whole to another Person or group may be uncertain.

Certain Covenants

Limitations on Liens

We have agreed that, so long as any of the notes remain outstanding, we will not, nor will we permit any Restricted Subsidiary to, secure indebtedness for money borrowed (hereinafter referred to as Debt) by placing a Lien on any Principal Property now or hereafter owned or leased by us or any Restricted Subsidiary or on any shares of stock or Debt of any Restricted Subsidiary without equally and ratably securing all of the notes, unless after giving effect thereto (1) the aggregate principal amount of all such secured Debt then outstanding plus (2) all Attributable Debt of Whirlpool and its Restricted Subsidiaries in respect of sale and leaseback transactions described below under

Restrictions on Sales and Leasebacks covering Principal Properties, other than sale and leaseback transactions permitted under clause (b) of Restrictions on Sales and Leasebacks, would not exceed an amount equal to 10% of Consolidated Net Tangible Assets.

This restriction will not apply to, and there shall be excluded in computing secured Debt for purposes of this restriction, certain permitted Liens, including:

Liens existing as of the date of the indenture on property or assets of Whirlpool or any of its Restricted Subsidiaries;

Liens on property or assets of, or on any shares of stock or Debt of, any corporation existing at the time such corporation becomes a Restricted Subsidiary;

Liens on property or assets or shares of stock or Debt existing at the time of acquisition and certain purchase money or similar Liens;

Liens to secure certain development, operation, construction, alteration, repair or improvement costs;

Liens in favor of, or which secure Debt owing to, Whirlpool or a Restricted Subsidiary;

Liens in connection with government contracts, including the assignment of moneys due or to come due thereon;

certain Liens in connection with legal proceedings or arising in the ordinary course of business and not in connection with the borrowing of money;

Liens on property securing tax-exempt obligations issued by a domestic governmental issuer to finance the cost of acquisition or construction of such property; and

extensions, substitutions, replacements or renewals of the foregoing.

Restrictions on Sales and Leasebacks

We have agreed that, so long as any of the notes remain outstanding, we will not, nor will we permit any Restricted Subsidiary to, enter into any sale and leaseback transaction, except a lease for a period not exceeding three years, after the date of the indenture covering any Principal Property which was or is owned or leased by us

or a Restricted Subsidiary and which has been or is to be sold or transferred more than 120 days after such property has been owned by us or such Restricted Subsidiary and completion of construction and commencement of full operation thereof, unless (a) the Attributable Debt in respect thereto and all other sale and leaseback transactions entered into after the date of the indenture (other than those the proceeds of which are applied to reduce indebtedness under clause (b) below), plus the aggregate principal amount of then outstanding secured Debt not otherwise permitted or excepted without equally and ratably securing the debt securities, does not exceed 10% of Consolidated Net Tangible Assets, or (b) an amount equal to the greater of the net proceeds of the sale or the fair market value of the Principal Property leased is applied within 120 days after the sale or transfer to the voluntary retirement of Funded Debt of the Company (including debt securities constituting Funded Debt).

Events of Default

The following are Events of Default under the indenture with respect to the notes:

a failure to pay any interest on any note when due and payable, and continuance of such failure for a period of 30 days;

failure to pay the principal on any note as and when the same shall become due and payable either at maturity, upon redemption, other than with respect to a sinking fund payment, by declaration or otherwise;

failure to deposit any sinking fund payment when due in respect of the notes, and continuance of such failure for a period of 30 days;

default in the performance, or breach, of any other covenant or warranty of Whirlpool relating to the notes and continuance of such default or breach for a period of 90 days after due notice by the trustee or by the Holders of at least 25% in principal amount of the Outstanding Securities of that series;

failure to pay any portion of the principal of any indebtedness for money borrowed by Whirlpool which indebtedness is in excess of \$50,000,000 outstanding principal amount, when due and payable after the expiration of any applicable grace period with respect thereto or the acceleration of such indebtedness, if such acceleration is not annulled within 10 days after written notice as provided in the indenture; and

certain events of bankruptcy, insolvency or reorganization of Whirlpool.

The indenture provides that the trustee shall notify the holders of notes of all defaults actually known to a responsible officer of the trustee and affecting those notes within 90 days after the occurrence of a default unless the defaults shall have been cured before the giving of the notice. The term default or defaults means any event or condition which is, or with notice or lapse of time or both would become, an Event of Default. The indenture provides that notwithstanding the foregoing, except in the case of a default in the payment of the principal of or interest on any of the notes, the trustee shall be protected in withholding such notice if the trustee determines in good faith that the withholding of such notice is in the interest of the holders of the notes.

The indenture provides that if an Event of Default with respect to any series of notes shall have occurred and be continuing, either the trustee or the holders of not less than 25% in aggregate principal amount of notes of that series

then outstanding may declare the principal amount of all the notes of that series to be due and payable immediately. However, upon certain conditions such declaration may be annulled. Any past defaults and the consequences of the defaults may be waived by the holders of a majority in principal amount of the notes of that series then outstanding, except for a default in the payment of principal of or interest on notes of that series, which default cannot be waived. The indenture also permits Whirlpool to omit compliance with certain covenants in the indenture with respect to notes of any series upon waiver by the holders of a majority in principal amount of the notes of such series then outstanding.

Subject to the provisions of the indenture relating to the duties of the trustee in case an Event of Default with respect to any series of notes shall occur and be continuing, the trustee shall be under no obligation to exercise any of the trusts or powers vested in it by the indenture at the request or direction of any of the holders

S-16

of that series, unless such holders shall have offered to the trustee reasonable security or indemnity. Subject to such provisions for security or indemnification and certain limitations contained in the indenture, the holders of a majority in aggregate principal amount of the notes of each series affected by an Event of Default and then outstanding shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee under the indenture or exercising any trust or power conferred on the trustee with respect to the notes of that series.

No holder of any note of any series will have any right by virtue or by availing of any provision of the indenture to institute any proceeding at law or in equity or in bankruptcy or otherwise upon or under or with respect to the indenture or for any remedy thereunder, unless such holder shall have previously given the trustee written notice of an Event of Default with respect to notes of that series and unless also the holders of at least 25% in aggregate principal amount of the outstanding notes of that series shall have made written request, and offered reasonable indemnity, to the trustee to institute such proceeding as trustee and the trustee shall have failed to institute such proceeding within 60 days after its receipt of such request, and the trustee shall not have received from the holders of a majority in aggregate principal amount of the outstanding notes of that series a direction inconsistent with such request. However, the right of a holder of any note to receive payment of the principal of and any interest on such note on or after the due dates expressed in such note, or to institute suit for the enforcement of any such payment on or after such dates, shall not be impaired or affected without the consent of such holder.

Modification of the Indenture

The indenture contains provisions permitting Whirlpool and the trustee, with the consent of the holders of not less than a majority in aggregate principal amount of the notes of each series at the time outstanding, to execute supplemental indentures adding any provisions to, or changing in any manner or eliminating any of the provisions of, the indenture or any supplemental indenture with respect to the notes of such series or modifying in any manner the rights of the holders of the notes of such series; provided that no such supplemental indenture may (1) extend the final maturity of any note, or reduce the principal amount thereof or any premium thereon, or reduce the rate or extend the time of payment of any interest thereon, or reduce any amount payable on redemption thereof, or impair or affect the right of any holder of notes to institute suit for payment thereof or, if the notes provide therefor, any right of repayment at the option of the holders of the notes, without the consent of the holder of each note so affected, or (2) reduce the percentage of notes of such series, the consent of the holders of which is required for any such supplemental indenture, without the consent of the holders of all notes of such series so affected. Additionally, in certain prescribed instances, Whirlpool and the trustee may execute supplemental indentures without the consent of the holders of notes.

Satisfaction and Discharge of Indenture

With respect to the notes of a series, the indenture will be discharged and canceled upon the satisfaction of certain conditions, including the payment of all the notes of such series or the deposit with the trustee of cash or appropriate Government Obligations or a combination thereof sufficient for such payment or redemption in accordance with the indenture and the terms of the notes of such series, provided that certain specified obligations shall survive, such as, among other things, Whirlpool's obligation to pay the principal of and interest on the notes of such series.

Defeasance and Covenant Defeasance

The indenture provides that, if the defeasance provisions of the indenture are made applicable to the notes of a certain series pursuant to certain provisions of the indenture, then Whirlpool may elect either (1) to terminate, and be deemed to have satisfied, all its obligations with respect to such notes, except for the obligations to register the transfer or exchange of such notes, to replace temporary or mutilated, destroyed, lost or stolen notes, to maintain an office or agency in respect of the notes, to compensate and indemnify the trustee and to

S-17

punctually, pay or cause to be paid the principal of, and interest on, all notes of such series when due (defeasance), or (2) to be released from its obligations with respect to such notes under certain covenants of the indenture, including the Limitations on Liens and Restrictions on Sales and Leasebacks and certain requirements as to maintenance of Principal Properties and payment of taxes and other claims (covenant defeasance), upon the deposit with the trustee, in trust for such purpose, of money and/or Government Obligations which through the payment of principal and interest in accordance with their terms, without consideration of any reinvestment, will provide money, in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants to pay the principal of and interest, if any, on the outstanding notes of such series, and any mandatory sinking fund or analogous payments thereon, on the scheduled due dates therefor. Such a trust may be established only if, among other things, Whirlpool has delivered to the trustee an opinion of counsel with regard to certain matters, including an opinion to the effect that the Holders of such notes will not recognize income, gain or loss for federal income tax purposes as a result of such deposit and discharge and will be subject to federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance or covenant defeasance, as the case may be, had not occurred.

Governing Law

The indenture provides that it and the notes will be governed by, and construed in accordance with, the laws of the State of New York.

Certain Definitions

Set forth below are certain defined terms used in the indenture. Reference is made to the indenture for full disclosure of all such terms, as well as any other capitalized terms used herein for which no definition is provided.

Attributable Debt means the amount determined by multiplying the greater, at the time such transaction is entered into, of (i) the fair value of the real property subject to such arrangement (as determined by Whirlpool) or (ii) the net proceeds of the sale of such real property to the lender or investor, by a fraction of which the numerator is the unexpired initial term of the lease of such real property as of the date of determination and of which the denominator is the full initial term of such lease. Sales and Leasebacks with respect to facilities financed with certain tax exempt securities are excepted from the definition.

Below Investment Grade Rating Event means the rating on the notes are lowered and the notes are rated below an Investment Grade Rating by any two of the three Rating Agencies on any date from the date of the public notice of an arrangement that could result in a Change of Control until the end of the 60-day period following public notice of the occurrence of the Change of Control (which 60-day period shall be extended so long as the rating of the notes is under publicly announced consideration for possible downgrade below investment grade by any of the Rating Agencies); provided that a Below Investment Grade Rating Event otherwise arising by virtue of a particular reduction in rating shall not be deemed to have occurred in respect of a particular Change of Control (and thus shall not be deemed a Below Investment Grade Rating Event for purposes of the definition of Change of Control Repurchase Event) if the Rating Agencies making the reduction in rating to which this definition would otherwise apply do not announce or publicly confirm or inform the trustee in writing at our request that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the applicable Change of Control (whether or not the applicable Change of Control shall have occurred at the time of the Below Investment Grade Rating Event).

Business Day means any day, other than a Saturday or a Sunday, (1) which is not a day on which banking institutions are authorized or obligated by law or executive order to close in New York City or London and (2) on which the Trans-European Automated Real-time Gross Settlement Express Transfer system (the TARGET2 system), or any successor thereto, is open.

S-18

Comparable Government Bond means, in relation to any Comparable Government Bond Rate calculation, at the discretion of an Independent Investment Banker, a German government bond whose maturity is closest to the maturity of the notes to be redeemed, or if such Independent Investment Banker in its discretion determines that such similar bond is not in issue, such other German government bond as such Independent Investment Banker may, with the advice of the Reference Bond Dealers, determine to be appropriate for determining the Comparable Government Bond Rate.

Comparable Government Bond Rate means the price, expressed as a percentage (rounded to three decimal places, with 0.0005 being rounded upwards), at which the gross redemption yield on the notes to be redeemed, if they were to be purchased at such price on the third business day prior to the date fixed for redemption, would be equal to the gross redemption yield on such business day of the Comparable Government Bond (as defined below) on the basis of the middle market price of the Comparable Government Bond prevailing at 11:00 a.m. (London time) on such business day as determined by the Independent Investment Banker.

Change of Control means the occurrence of any of the following:

the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the properties or assets of Whirlpool and its subsidiaries taken as a whole to any person (as that term is used in Section 13(d)(3) of the Exchange Act) other than Whirlpool or one of its subsidiaries;

the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any person (as that term is used in Section 13(d)(3) of the Exchange Act) becomes the beneficial owner, (as that term is defined in Rules 13d-3 and 13d-5 under the Exchange Act) directly or indirectly, of more than 50% of the then outstanding number of shares of Whirlpool's voting stock; or

the first day on which a majority of the members of Whirlpool's Board of Directors are not Continuing Directors.

Notwithstanding the foregoing, a transaction will not be deemed to involve a Change of Control if (i) Whirlpool becomes a wholly owned subsidiary of a holding company that has agreed to be bound by the terms of the notes and (ii) the holders of the voting stock of such holding company immediately following that transaction are substantially the same as the holders of our voting stock immediately prior to that transaction.

Change of Control Repurchase Event means the occurrence of both a Change of Control and a Below Investment Grade Rating Event.

Consolidated Net Tangible Assets means the aggregate amount of assets, less applicable reserves and other properly deductible items, after deducting (i) all current liabilities, excluding any current liabilities constituting Funded Debt by reason of being extendible or renewable, and (ii) all goodwill, trade names, trademarks, patents, unamortized debt discount and expense and other like intangibles, all as set forth on the most recent balance sheet of Whirlpool and its consolidated subsidiaries and computed in accordance with generally accepted accounting principles.

Continuing Directors means, as of any date of determination, members of the Board of Directors of Whirlpool who (i) were members of such Board of Directors on the date of the issuance of the notes; or (ii) were nominated for election or elected to such Board of Directors with the approval of a majority of the continuing directors under clause (i) or (ii) of this definition who were members of such Board of Directors at the time of such nomination or election

(either by a specific vote or by approval of Whirlpool's proxy statement in which such member was named as a nominee for election as a director, without objection to such nomination).

Fitch means Fitch, Inc.

S-19

Funded Debt means all indebtedness for money borrowed, or evidenced by a bond, debenture, note or similar instrument or agreement whether or not for money borrowed, having a maturity of more than twelve (12) months from the date as of which the amount thereof is to be determined or having a maturity of less than twelve (12) months but by its terms being renewable or extendible beyond twelve (12) months from such date at the option of the borrower.

Government Obligations means, unless otherwise specified pursuant to the provisions of the indenture, securities which are (i) direct obligations of the government which issued the currency in which the securities of any series are payable or (ii) obligations of a Person controlled or supervised by, or acting as an agency or instrumentality of, the government which issued the currency in which the securities of such series are payable, the payment of which obligations is unconditionally guaranteed by such government, and which, in either case, are full faith and credit obligations of such government, are payable in the currency in which the securities of such series are payable and which are not callable or redeemable at the option of the issuer thereof.

S&P means Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc.

Subsidiary means a corporation more than 50% of the outstanding voting stock of which is owned, directly or indirectly, by Whirlpool or by one or more other Subsidiaries, or by Whirlpool and one or more other Subsidiaries. For the purposes of this definition, *voting stock* means stock which ordinarily has voting power for the election of directors, whether at all times or only so long as no senior class of stock has such voting power by reason of any contingency.

Book-Entry Delivery and Form; Global Note

We have obtained the information in this section concerning Clearstream and Euroclear and their book-entry systems and procedures from sources that we believe to be reliable. We take no responsibility for an accurate portrayal of this information. In addition, the description of the clearing systems in this section reflects our understanding of the rules and procedures of Clearstream and Euroclear as they are currently in effect. Those clearing systems could change their rules and procedures at any time.

The notes will initially be represented by one or more fully registered global notes. Each such global note will be deposited with, or on behalf of, a common depositary, and registered in the name of such nominee of the common depositary for the accounts of Clearstream and Euroclear. Except as set forth below, the global notes may be transferred, in whole and not in part, only to Euroclear or Clearstream or their respective nominees. You may hold your interests in the global notes in Europe through Clearstream or Euroclear, either as an accountholder in such systems or indirectly through organizations that are accountholders in such systems. Clearstream and Euroclear will hold interests in the global notes on behalf of their respective participating organizations or customers through customers' securities accounts in Clearstream's or Euroclear's names on the books of their respective depositaries. Book-entry interests in the notes and all transfers relating to the notes will be reflected in the book-entry records of Clearstream and Euroclear.

The distribution of the notes will be cleared through Clearstream and Euroclear. Any secondary market trading of book-entry interests in the notes will take place through Clearstream and Euroclear accountholders and will settle in same-day funds. Owners of book-entry interests in the notes will receive payments relating to their notes in euro, except as described under the heading *Issuance in Euro*.

Clearstream and Euroclear have established electronic securities and payment transfer, processing, depositary and custodial links among themselves and others, either directly or through custodians and depositaries. These links allow

the notes to be issued, held and transferred among the clearing systems without

S-21

the physical transfer of certificates. Special procedures to facilitate clearance and settlement have been established among these clearing systems to trade securities across borders in the secondary market.

The policies of Clearstream and Euroclear will govern payments, transfers, exchanges and other matters relating to the investor's interest in the notes held by them. We have no responsibility for any aspect of the records kept by Clearstream or Euroclear or any of their direct or indirect accountholders. We also do not supervise these systems in any way.

Clearstream and Euroclear and their accountholders perform these clearance and settlement functions under agreements they have made with one another or with their customers. You should be aware that they are not obligated to perform or continue to perform these procedures and may modify them or discontinue them at any time.

Except as provided below, owners of beneficial interests in the notes will not be entitled to have the notes registered in their names, will not receive or be entitled to receive physical delivery of the notes in definitive form and will not be considered the owners or holders of the notes under the indenture, including for purposes of receiving any reports delivered by us or the trustee pursuant to the indenture. Accordingly, each person owning a beneficial interest in a note must rely on the procedures of the depository and, if such person is not an accountholder, on the procedures of the accountholder through which such person owns its interest, in order to exercise any rights of a holder of notes.

We have been advised by Clearstream and Euroclear, respectively, as follows:

Clearstream

Clearstream advises that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations (Clearstream Participants) and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream provides to Clearstream Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (Commission de Surveillance du Secteur Financier). Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant, either directly or indirectly.

Distributions with respect to interests in the notes held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures.

Euroclear

Euroclear advises that it was created in 1968 to hold securities for participants of Euroclear (Euroclear Participants) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V. (the Euroclear Operator). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator. Euroclear Participants include banks (including central banks), securities brokers

S-22

and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, or the Euroclear Terms and Conditions, and applicable Belgian law govern securities clearance accounts and cash accounts with the Euroclear Operator. Specifically, these terms and conditions govern:

transfers of securities and cash within Euroclear;

withdrawal of securities and cash from Euroclear; and

receipt of payments with respect to securities in Euroclear.

All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants and has no record of or relationship with persons holding securities through Euroclear Participants.

Distributions with respect to interests in the notes held beneficially through Euroclear will be credited to the cash accounts of Euroclear Participants in accordance with the Euroclear Terms and Conditions.

Global Clearance and Settlement Procedures

We understand that investors that hold their notes through Clearstream or Euroclear accounts will follow the settlement procedures that are applicable to conventional eurobonds in registered form. Notes will be credited to the securities custody accounts of Clearstream and Euroclear accountholders on the business day following the settlement date, for value on the settlement date. They will be credited either free of payment or against payment for value on the settlement date.

We understand that secondary market trading between Clearstream and/or Euroclear accountholders will occur in the ordinary way following the applicable rules and operating procedures of Clearstream and Euroclear. Secondary market trading will be settled using procedures applicable to conventional eurobonds in registered form.

You should be aware that investors will only be able to make and receive deliveries, payments and other communications involving the notes through Clearstream and Euroclear on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States.

In addition, because of time-zone differences, there may be problems with completing transactions involving Clearstream and Euroclear on the same business day as in the United States. United States investors who wish to transfer their interests in the notes, or to make or receive a payment or delivery of the notes, on a particular day, may find that the transactions will not be performed until the next business day in Luxembourg or Brussels, depending on whether Clearstream or Euroclear is used.

Clearstream or Euroclear will credit payments to the cash accounts of Clearstream customers or Euroclear accountholders, as applicable, in accordance with the relevant system's rules and procedures, to the extent received by its depository. Clearstream or the Euroclear Operator, as the case may be, will take any other action permitted to be

taken by a holder under the indenture on behalf of a Clearstream customer or Euroclear participant only in accordance with its relevant rules and procedures.

Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of the notes among accountholders of Clearstream and Euroclear. However, they are under no obligation to perform or continue to perform those procedures, and they may discontinue those procedures at any time.

S-23

Certificated Notes

If the depositary for any of the notes represented by a registered global note is at any time unwilling or unable to continue as depositary and a successor depositary is not appointed by us within 90 days, we will issue notes in definitive form in exchange for the registered global note that had been held by or on behalf of the depositary. Any notes issued in definitive form in exchange for a registered global note will be registered in the name or names that the depositary gives to the trustee or other relevant agent of the trustee. It is expected that the depositary's instructions will be based upon directions received by the depositary from accountholders with respect to ownership of beneficial interests in the registered global note that had been held by the depositary. In addition, we may at any time determine that the notes shall no longer be represented by a global note and will issue notes in definitive form in exchange for such global note pursuant to the procedure described above.

Governing Law

The indenture provides that it and the notes will be governed by, and construed in accordance with, the laws of the State of New York.

Trustee and Paying Agent

We maintain customary banking relationships with U.S. Bank National Association, the trustee under the indenture, and Elavon Financial Services Limited, UK Branch, the London paying agent for the notes and their affiliates.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a general discussion of certain United States federal income tax consequences of the acquisition, ownership and disposition of the notes by initial holders of notes, but does not purport to be a complete analysis of all the potential tax considerations. This discussion is based upon the Code, the Treasury Regulations thereunder and administrative rulings and court decisions, all as of the date hereof, and all of which are subject to change, possibly retroactively. Unless otherwise stated, this discussion is limited to the tax consequences to those persons who are original beneficial owners of the notes (Holders) who purchase notes at their original issue price (generally the first price at which a substantial amount of the notes are sold for money to the public, not including purchases by bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers) for cash and who hold such notes as capital assets within the meaning of Section 1221 of the Code and assumes that such issue price is the price stated on the cover of this offering memorandum. This discussion assumes that the notes are not issued with original issue discount as that term is defined in the Code and Treasury Regulations. This discussion does not consider any specific facts or circumstances or special tax rules that may apply to a particular Holder based on its status (including, for example, a bank, a financial institution, a broker-dealer, an insurance company, a passive foreign investment company, a controlled foreign corporation, an individual retirement or other tax-deferred account, an S corporation, a broker-dealer or dealer or trader in securities or currencies, a tax-exempt organization, a partnership or other pass-through entity, an expatriate, a real estate investment trust, a regulated investment company, or a person that holds securities as part of a straddle, hedge, conversion transaction, or other integrated investment). This discussion also does not address the tax consequences to persons that have a functional currency other than the U.S. dollar. In addition, this discussion does not address U.S. federal alternative minimum tax or estate and gift tax consequences or any aspect of state, local or foreign taxation. We have not sought any ruling from the Internal Revenue Service (the IRS) with respect to the statements made and the conclusions reached in this discussion, and we cannot assure that the IRS will agree with such statements and conclusions.

For purposes of this discussion, a U.S. Holder means a Holder that is, for U.S. federal income tax purposes (1) a citizen or resident of the United States, (2) a corporation or other entity taxable as a corporation created or organized in the United States or under the laws of the United States, any state thereof, or the District of Columbia, (3) an estate whose income is includible in gross income for United States federal income tax purposes regardless of its source, or (4) a trust whose administration is subject to the primary supervision of a United States court and which has one or more United States persons who have the authority to control all substantial decisions of the trust or if a valid election to be treated as a U.S. person is in effect with respect to such trust. A Non-U.S. Holder is a Holder that is neither a U.S. Holder nor a partnership or other entity or arrangement treated as a partnership for U.S. federal income tax purposes.

If a partnership or other entity or arrangement treated as a partnership for United States federal income tax purposes holds the notes, the tax treatment of a partner thereof will generally depend upon the status of the partner and the activities of the partnership. Partners in a partnership holding the notes should consult their tax advisors as to the tax consequences to them of the purchase, ownership and disposition of the notes by the partnership.

THE FOLLOWING DISCUSSION IS FOR INFORMATIONAL PURPOSES ONLY AND IS NOT A SUBSTITUTE FOR CAREFUL TAX PLANNING AND ADVICE. PROSPECTIVE INVESTORS ARE URGED TO CONSULT THEIR INDEPENDENT TAX ADVISORS REGARDING THE UNITED STATES FEDERAL TAX CONSEQUENCES OF ACQUIRING, HOLDING, AND DISPOSING OF THE NOTES, AS WELL AS ANY TAX CONSEQUENCES THAT MAY ARISE UNDER THE LAWS OF ANY FOREIGN, STATE, LOCAL, OR OTHER TAXING JURISDICTION.

Certain Contingent Payments

In certain circumstances, we may choose or be obligated to pay amounts in excess of the stated interest or principal on the notes or redeem the notes prior to their stated maturity (see *Description of the Notes Payment of Additional Amounts*, *Description of the Notes Repurchase at Option of Holders Upon Change of Control Repurchase Event*, *Description of the Notes Redemption for Tax Reasons*). The obligation to make such payments may implicate the provisions of Treasury regulations relating to contingent payment debt instruments. Under applicable Treasury regulations, the possibility that such an amount will be paid will not affect the amount, timing or character of income recognized by a holder with respect to the notes if, as of the date the notes were issued, there is only a remote chance that such an amount will be paid, the amount is incidental or certain other exceptions apply. We intend to take the position that the contingencies associated with such payments on the notes should not cause the notes to be subject to the contingent payment debt instrument rules. Our determination is binding on a holder unless such holder discloses its contrary position in the manner required by applicable Treasury regulations. Our determination is not, however, binding on the IRS, and if the IRS were to successfully challenge this determination, a holder might be required to accrue interest income at a higher rate than the stated interest rate on the notes, and to treat as ordinary income any gain realized on the taxable disposition of a note. The remainder of this discussion assumes that the notes will not be treated as contingent payment debt instruments. Holders are urged to consult their own tax advisors regarding the potential application to the notes of the contingent payment debt instrument rules and the consequences thereof.

U.S. Federal Income Taxation of U.S. Holders

Payments of interest

Interest on a note will be qualified stated interest, as that term is defined in the Code and the Treasury Regulations, and generally will be taxable to a U.S. Holder as ordinary interest income at the time it is accrued or is received in accordance with the U.S. Holder's method of accounting for tax purposes. See the discussion below under *Information Reporting and Backup Withholding* regarding certain information we may be required to provide to the IRS with respect to payments to U.S. Holders and circumstances under which we may be required to withhold U.S. federal income tax on payments to U.S. Holders.

See *Foreign Currency Considerations* below for additional tax consequences related to the notes being denominated in euro.

Disposition

In general, a U.S. Holder will recognize gain or loss upon the sale, exchange, redemption or other taxable disposition of the notes measured by the difference between (1) the amount (determined in dollars) of cash and fair market value of property received (except to the extent such cash or property is attributable to accrued but unpaid interest, which is treated as interest as described above) and (2) the U.S. Holder's adjusted tax basis in the notes. A U.S. Holder's adjusted tax basis in the notes generally will equal the cost of the notes to the U.S. Holder, less any principal payments received by such U.S. Holder (in each case, determined in dollars). Any gain or loss will generally be long-term capital gain or loss, provided the notes had been held by such U.S. Holder for more than one year at the time of disposition. In the case of individual U.S. Holders, long-term capital gain is currently subject to a maximum U.S. federal income tax rate of 20%. The deductibility of capital losses by U.S. Holders is subject to limitations.

A U.S. Holder that sells a note between interest payment dates will be required to treat as ordinary interest income an amount equal to interest that has accrued through the date of sale that has not been previously included in income.

See *Foreign Currency Considerations* below for additional tax consequences related to the notes being denominated in euro.

S-26

Medicare Net Investment Income Tax

A tax of 3.8% is imposed on the net investment income of certain individuals, trusts and estates on the lesser of (1) the taxpayer's net investment income (or undistributed net investment income in the case of an estate or trust) for the relevant taxable year and (2) the excess of the taxpayer's modified adjusted gross income (or adjusted gross income in the case of an estate or trust) for the taxable year over a certain threshold. A U.S. Holder's net investment income will generally include gross income from interest on the notes and net gain attributable to the disposition of certain property, such as the notes, less certain deductions, unless such interest income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). Prospective investors should consult their own tax advisors regarding the applicability of this tax in their particular circumstances in respect of their investment in the notes.

See Foreign Currency Considerations below for additional tax consequences related to the notes being denominated in euro.

Foreign Currency Considerations***Payments of Interest in Euro***

If a Holder uses the cash method of accounting for United States federal income tax purposes, such Holder will be required to include in such Holder's gross income the dollar value of the euro interest payment on the date received (based on the dollar spot rate for euro on that date), regardless of whether the Holder in fact converts the payment to dollars at that time. A Holder will not recognize foreign currency gain or loss with respect to receipt of such payments, but may have foreign currency gain or loss when such Holder actually sells or otherwise disposes of euro, as described below.

If a Holder uses the accrual method of accounting for United States federal income tax purposes, such Holder will be required to include in such Holder's gross income the dollar value of the euro amount of interest income that accrues during an accrual period. The dollar value of the euro amount of accrued interest income is determined by translating that income at the average dollar exchange rate for euro in effect during the accrual period or, if the accrual period spans two taxable years, the partial period within the taxable year. A Holder may elect, however, to translate accrued interest income using: (i) the dollar spot rate for euro on the last day of the accrual period, (ii) in the case of a partial accrual period, the spot rate on the last day of the taxable year or (iii) if the date of receipt is within five business days of the last day of the interest accrual period, the spot rate on the date of receipt. That election must be applied consistently to all debt instruments a Holder holds from year to year and may not be changed without the consent of the IRS. Prior to making that election, Holders should consult their own tax advisor.

If a Holder uses the accrual method of accounting for United States federal income tax purposes, such Holder may recognize foreign currency gain or loss, which generally will be taxable as ordinary income or loss, with respect to accrued interest income on the date the payment of that income was received. The amount of foreign currency gain or loss recognized will be the difference, if any, between the dollar value of the payment in euro that is received by the Holder in respect of the accrued interest (based on the dollar spot rate for euro on the date you receive the payment) and the dollar value of interest income that has accrued during the accrual period (determined as described in the preceding paragraph).

If a Holder receives a payment of interest in dollars as a result of a currency conversion, then the dollar amount so received might not be the same as the dollar amount required to be recognized as interest income under the rules described above.

Exchange or Purchase of Euro

Euro received as interest on a note or on a sale, exchange, redemption or other disposition of a note generally will have a tax basis equal to the dollar value of the euro at the spot rate on the date of receipt. If a

S-27

Holder purchases euro, the tax basis of the euro will generally be the dollar value of the euro at the spot rate on the date of purchase. Any gain or loss recognized on a sale, exchange or other disposition of euro (including the use of euro to purchase notes or upon the exchange of euro for dollars) generally will be treated as ordinary income or loss.

Foreign Currency Gain or Loss on Sale or Other Disposition of Notes

If a Holder receives euro on the sale, exchange, redemption or other disposition of your note, the dollar amount realized generally will be based on the dollar spot rate for euro on the date of the disposition. However, if the notes are traded on an established securities market and such Holder is a cash method U.S. Holder or an electing accrual method U.S. Holder, the dollar amount realized will be determined by translating the euro received at the dollar spot rate for euro on the settlement date of the disposition. If such Holder is an accrual method U.S. Holder and makes this election, the election must be applied consistently to all debt instruments from year to year and cannot be changed without the consent of the IRS. If such Holder is an accrual method U.S. Holder and does not make this election, the dollar equivalent of the amount realized will be determined by translating that amount at the dollar spot rate for euro on the date of the sale, exchange, redemption or other disposition and generally will recognize foreign currency gain or loss (generally treated as ordinary income or loss) equal to the difference, if any, between the dollar equivalent of the amount realized based on the spot rates in effect on the date of disposition and the settlement date.

The initial tax basis in a note generally will be the cost of the note, which, in the case of a U.S. Holder that purchases a note with euro, will be the dollar value of the amount of euro paid for such note at the dollar spot rate for euro on the date of purchase. However, if the notes are traded on an established securities market, and a Holder is a cash basis U.S. Holder or an electing accrual method U.S. Holder, the dollar amount of the euro purchase price will be determined by translating the euro paid at the dollar spot rate for euro on the settlement date of the purchase. As described above, if a Holder is an accrual method U.S. Holder and makes this election, the election must be applied consistently to all debt instruments from year to year and cannot be changed without the consent of the IRS. If a Holder is an accrual method U.S. Holder and does not make this election, the dollar equivalent of the purchase price will be determined by translating that amount at the spot rate on the date of the purchase and foreign currency gain or loss (generally treated as ordinary income or loss) equal to the difference, if any, between the dollar equivalent of the purchase price based on the spot rates in effect on the date of purchase and the settlement date will be generally recognized.

A Holder will recognize foreign currency gain or loss attributable to the movement in exchange rates between the time of purchase of the note and the time of disposition, including the sale, exchange, redemption or other disposition, of the note. Gain or loss attributable to the movement of exchange rates will equal the difference between (1) the dollar value of the euro principal amount of the note, determined as of the date the note is disposed of based on the dollar spot rate for euro in effect on that date, and (2) the dollar value of the euro principal amount of such note, determined on the date the note was acquired based on the dollar spot rate for euro in effect on that date. For this purpose, the principal amount of the note is the purchase price for the note in euro. Any such gain or loss generally will be treated as ordinary income or loss, and generally will be United States source gain or loss, and generally will not be treated as interest income or expense. A Holder will recognize such foreign currency gain or loss to the extent such Holder has gain or loss, respectively, on the overall sale or taxable disposition of the note.

Reportable Transaction Reporting

Under applicable Treasury Regulations, if a Holder is a U.S. Holder who participates in reportable transactions (as defined in the Treasury Regulations), such Holder must attach to such Holder's United States federal income tax return a disclosure statement on IRS Form 8886. Under the relevant rules, a Holder may be required to treat a foreign currency exchange loss from the notes as a reportable transaction if this loss exceeds

the relevant threshold in the regulations. Holders should consult their tax advisor regarding the possible obligation to file IRS Form 8886 with respect to the ownership or disposition of the notes, or any related transaction, including, without limitation, the disposition of any euro received.

U.S. Federal Income Taxation of Non-U.S. Holders

Payments of Interest

Subject to the discussions of FATCA and backup withholding below, payments of interest on the notes to a Non-U.S. Holder will not be subject to withholding of U.S. federal income tax or U.S. withholding tax, unless such payments are effectively connected with the conduct of a U.S. trade or business, and in the case of a treaty resident, attributable to a U.S. permanent establishment (or, in the case of an individual, a fixed base) maintained in the United States by the Non-U.S. Holder, provided that:

the Non-U.S. Holder does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote;

the Non-U.S. Holder is not a bank receiving interest pursuant to a loan agreement entered into in the ordinary course of its trade or business;

the Non-U.S. Holder is not a controlled foreign corporation that is actually or constructively related to us through stock ownership; and

either (a) the beneficial owner of the notes certifies to us or our agent on IRS Form W-8BEN or W-8BEN-E, depending on the Non-U.S. Holder's status (or applicable successor form), under penalties of perjury, that it is not a U.S. person (as defined in the Code) and provides its name and address, or (b) a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business (a Financial Institution) holds the notes on behalf of the beneficial owner and certifies to us or our agent, under penalties of perjury, that a properly executed IRS Form W-8BEN or W-8BEN-E, depending on the Non-U.S. Holder's status (or applicable successor form) has been received by it from the Non-U.S. Holder or a qualifying intermediary and furnishes a copy to our agent; provided that a non-United States Financial Institution may fulfill the certification requirement by providing a Form W-8IMY to us certifying that it has entered into an agreement with the IRS to be treated as a qualifying intermediary.

The requirements set forth in the bulleted clauses above are known as the Portfolio Interest Exception.

If a Non-U.S. Holder cannot satisfy the requirements of the Portfolio Interest Exception, payments of interest made to such Non-U.S. Holder will be subject to U.S. federal withholding tax at a 30% rate unless the beneficial owner of the note provides us or our agent, as the case may be, with a properly executed:

IRS Form W-8BEN or W-8BEN-E, depending on the Non-U.S. Holder's status (or applicable successor form) claiming, under penalties of perjury, an exemption from, or reduction in, the U.S. federal withholding tax rate under a tax treaty (a Treaty Rate), or

IRS Form W-8ECI (or successor form) stating that interest paid on the note is not subject to the U.S. federal withholding tax because it is effectively connected with a U.S. trade or business of the beneficial owner (in which case such interest will be subject to U.S. federal income tax rates on a net income basis as described below).

The certification requirement described above also may require a Non-U.S. Holder that provides an IRS form or that claims a Treaty Rate to provide its U.S. taxpayer identification number.

Each Non-U.S. Holder is urged to consult its own independent tax advisor about the specific methods for satisfying these requirements. A claim for exemption will not serve to avoid withholding if an applicable withholding agent has actual knowledge or reason to know that statements on the form are false.

If interest on the notes is effectively connected, as that term is defined in the Code and the Treasury Regulations, with a U.S. trade or business of the Non-U.S. Holder (and if required by an applicable treaty, attributable to a U.S. permanent establishment or fixed base of the Non-U.S. Holder), the Non-U.S. Holder, although exempt from the U.S. federal withholding tax described above (provided that the certification requirements described above are satisfied), will be subject to U.S. federal income tax on such interest on a net income basis in the same manner as if it were a U.S. Holder. In addition, if such Non-U.S. Holder is a foreign corporation and interest on the note is effectively connected with its U.S. trade or business (and if required by applicable treaty, attributable to a U.S. permanent establishment), such Holder may be subject to an additional branch profits tax at a rate of 30% (unless reduced by treaty) in respect of such interest. A Non-U.S. Holder that is engaged in the conduct of a trade or business in the United States is urged to consult its tax advisors regarding the U.S. tax consequences of the ownership and disposition of the notes.

Disposition

Subject to the discussions of FATCA and backup withholding below, except with respect to accrued and unpaid interest (which is subject to the rules discussed above under **Payment of Interest**), a Non-U.S. Holder will not be subject to United States federal income tax or withholding tax on gain realized on the sale, exchange or other disposition of the notes, unless (a) that Holder is an individual who is present in the United States for 183 days or more during the taxable year and certain other requirements are met or (b) the gain is effectively connected with the conduct of a United States trade or business of the Holder (and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment or fixed base maintained in the United States by the Holder). If the exception under (a) applies, the Non-U.S. Holder will be subject to tax equal to 30% on the gain realized except as provided under an applicable treaty. If the exception under (b) applies, the Non-U.S. Holder will be subject to U.S. federal income tax as described under **U.S. Federal Income Taxation of U.S. Holders Disposition** unless an applicable treaty provides otherwise, and if such holder is a corporation, it may be subject to an additional 30% branch profits tax. Accrued and unpaid interest realized on a sale, exchange or other disposition of a note will be subject to U.S. federal income tax to the extent interest would have been subject to U.S. federal income tax as described under **U.S. Federal Income Taxation of Non-U.S. Holders Payments of Interest**.

Information Reporting and Backup Withholding

We will, where required, report to Holders and the IRS the amount of any interest paid on the notes in each calendar year and the amounts of federal tax withheld, if any, with respect to payments. A U.S. Holder may be subject to information reporting and to backup withholding at a current rate of 28% with respect to payments of principal and interest made on the notes, or on proceeds of the disposition of the notes before maturity, unless that U.S. Holder provides a correct taxpayer identification number or proof of an applicable exemption, and otherwise complies with applicable requirements of the information reporting and backup withholding rules.

Under the Treasury Regulations, backup withholding and information reporting will not apply to payments made by us or any agent thereof (in its capacity as such) to a Non-U.S. Holder if such Non-U.S. Holder has provided the required certification that it is not a U.S. person on IRS Form W-8BEN or W-8BEN-E, depending on the Non-U.S. Holder's status (or applicable successor form) or has otherwise established an exemption (provided that neither Whirlpool nor its agent has actual knowledge that such holder is a U.S. person or that the conditions of any exemption are not in fact satisfied).

Payments of the proceeds from the sale of the notes to or through a foreign office of a broker will not be subject to information reporting or backup withholding, unless the broker is (1) a U.S. person, (2) a controlled foreign corporation, (3) a foreign person 50% or more of whose gross income for certain periods is effectively connected with a United States trade or business or (4) a foreign partnership, if, at any time during its taxable year, one or more of its partners are United States persons who in the aggregate hold more than 50% of the

S-30

income or capital interest in the partnership or if, at any time during its taxable year, the foreign partnership is engaged in a United States trade or business, and the Non-U.S. Holder does not establish an exception as specified in the Treasury Regulations regarding backup withholding and information reporting, as applicable.

Backup withholding is not an additional tax. Any amount withheld under the backup withholding rules may be refunded or credited against the Holder's United States federal income tax liability, provided that the required information is timely furnished to the IRS. Holders should consult their own tax advisors regarding the effect, if any, of these rules on their particular situation.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the Code and the Treasury Regulations promulgated thereunder (commonly referred to as the Foreign Account Tax Compliance Act or FATCA) generally impose a withholding tax of 30% on payments of interest and, beginning January 1, 2017, on gross proceeds from the disposition of a debt instrument to (i) a foreign financial institution (as defined in the Code) (as the beneficial owner or as an intermediary for the beneficial owner), unless such institution is deemed compliant, complies with an applicable intergovernmental agreement and/or enters into an agreement with the United States government to collect and provide to the United States tax authorities substantial information regarding United States account holders of such institution (which would include certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with United States owners) or (ii) a foreign entity that is not a financial institution in certain cases (as the beneficial owner or as an intermediary for the beneficial owner), unless such entity provides the withholding agent with a certification identifying the substantial United States owners of the entity, which generally includes any United States person who directly or indirectly owns more than 10% of the entity. A payment that would otherwise be subject to withholding tax under FATCA may also be exempt from withholding under various intergovernmental agreements entered into by the United States and foreign governments. Prospective purchasers of the notes should consult their own tax advisors regarding the implications of FATCA on their investment in the notes.

EU Savings Directive

Under the EU Savings Directive, the competent authority of a Member State is required to provide to the competent authority of another Member State details of payments of interest and other similar income paid by a person within its jurisdiction to, or for the benefit of, an individual, or certain other persons, resident in that other Member State. However, for a transitional period, Austria is instead required (unless during such period it elects otherwise) to levy withholding tax at a rate of 35% in relation to such payments. The ending of such transitional period is dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries. A number of non-EU countries and territories have adopted similar measures. Luxembourg operated a withholding system until December 31, 2014, but the Luxembourg Government has elected out of the withholding system in favor of automatic exchange of information with effect from January 1, 2015.

On March 24, 2014, the European Council adopted an EU Council Directive amending and broadening the scope of the requirements described above. In particular, the changes expand the range of payments covered by the EU Savings Directive to include certain additional types of income, and widen the range of recipients payments to whom are covered by the EU Savings Directive, to include certain other types of entity and legal arrangement. Member States are required to implement national legislation giving effect to these changes by January 1, 2016 (which national legislation must apply from January 1, 2017).

If a payment were to be made or collected through a Member State that has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, then neither we, nor any paying agent nor any other person would be obliged to pay additional amounts with respect to any note as a result of the imposition of such withholding tax. To the extent permitted by law, we will be required to maintain a paying

S-31

agent that is not located in a Member State of the European Union that will oblige such paying agent to withhold or deduct tax pursuant to the EU Savings Directive or any law implementing or complying with, or introduced in order to conform to, the EU Savings Directive.

The Proposed Financial Transactions Tax (FTT)

On February 14, 2013, the European Commission published a proposal (the Commission's Proposal) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the participating Member States).

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the notes (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, established in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

Joint statements issued by participating Member States indicate an intention to implement the FTT by 1 January 2016.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be materially altered prior to any implementation, and the extent to which it may ultimately apply (if at all) to dealings in the notes is uncertain. Additional Member States may decide to participate.

Prospective holders of the notes are advised to seek their own professional advice in relation to the FTT.

UNDERWRITING

We and BNP Paribas, HSBC Bank plc, ING Bank N.V. and The Royal Bank of Scotland plc, the representatives for the underwriters for the offering, have entered into an underwriting agreement with respect to the notes. Subject to the terms and conditions of the underwriting agreement, we have agreed to sell to the underwriters, and each underwriter has severally agreed to purchase, the aggregate principal amount of notes listed next to its name in the following table:

Underwriters	Principal Amount of Notes
BNP Paribas	125,000,000
HSBC Bank plc	125,000,000
ING Bank N.V.	125,000,000
The Royal Bank of Scotland plc	125,000,000
Total	500,000,000

The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the notes offered by this prospectus supplement are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the notes offered by this prospectus supplement if any such notes are taken.

The underwriters initially propose to offer part of the notes directly to the public at the offering prices set forth on the cover page of this prospectus supplement. After the initial offering of the notes, the underwriters may from time to time vary the offering price and other selling terms.

The following table shows the underwriting discounts that we will pay to the underwriters in connection with this offering (expressed as a percentage of the principal amount of notes):

	Paid by Whirlpool
Per Note	0.350%
Total	1,750,000

We estimate that the total expenses of the offering (including our application to have the notes listed on the New York Stock Exchange) payable by us, excluding underwriting discounts, will be approximately \$0.2 million.

We have also agreed to indemnify the underwriters against certain liabilities, including liabilities under the U.S. Securities Act of 1933, as amended, or to contribute to payments which the underwriters may be required to make in respect of any such liabilities.

The notes are a new issue of securities with no established trading market. We intend to apply for listing of the notes for trading on the New York Stock Exchange. The listing application will be subject to approval by the New York Stock Exchange. If such a listing is obtained, we have no obligation to maintain such listing, and we may delist the notes at any time. The underwriters may make a market in the notes after completion of the offering but will not be obligated to do so and may discontinue any market-making activities at any time without notice.

In connection with the issue of the notes, HSBC Bank plc (in this capacity, the Stabilizing Manager) may over-allot notes or effect transactions with a view to supporting the market price of the notes at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilizing Manager (or persons acting on behalf of the Stabilizing Manager) will undertake any stabilization action. Any stabilization action may begin on or after the date on which adequate public disclosure of the terms of the offer of the notes is made, and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue of the notes and 60 days after the date of the allotment of the notes. The underwriters have advised us that any stabilization action commenced will be carried out in accordance with applicable laws and regulations.

S-33

Any stabilization action may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than the price that would otherwise exist in the open market in the absence of stabilization actions. The Stabilizing Manager may conduct these transactions in the over-the-counter market or otherwise. If the Stabilizing Manager commences any stabilization action, it may discontinue them at any time.

We expect that delivery of the notes will be made against payment therefor on the date specified on the cover of this prospectus supplement, which will be the fifth business day following the trade date of the notes. Under Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Purchasers who wish to trade any notes on any date prior to three business days before delivery will be required by virtue of the fact that the notes initially will settle in five business days (T+5), to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement and should consult with their own advisor.

Other Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. If any of the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge and certain of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Under our Short-Term Credit Agreement (the "364-Day Facility" and, together with the Long-Term Facility, the "Facilities") dated September 26, 2014, The Royal Bank of Scotland plc and BNP Paribas serve as co-syndication agents. BNP Paribas Securities Corp., an affiliate of BNP Paribas, and RBS Securities Inc., an affiliate of The Royal Bank of Scotland plc, acted as joint lead arrangers and joint bookrunners for the Facilities. ING Bank N.V. Dublin Branch and HSBC Bank USA, National Association, an affiliate of HSBC Bank plc, are lenders under the 364-Day Facility. BNP Paribas, HSBC Bank plc, ING Bank N.V. and The Royal Bank of Scotland plc are joint bookrunners of this offering.

Certain of the underwriters or their affiliates may receive a portion of the net proceeds of this offering to the extent that they hold any of the securities being repaid and the net proceeds are used to repay such securities.

For the purpose of the above provisions, the expression an offer to the public in relation to any notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe for the notes, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State, the expression Prospectus Directive means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.
