RAND CAPITAL CORPORATION AND SUBSIDIARY
CONSOLIDATED SCHEDULE OF PORTFOLIO INVESTMENTS

March 31, 2015 (Continued)

(Unaudited)

Notes to the Consolidated Schedule of Portfolio Investments

- (a) At March 31, 2015, restricted securities represented approximately 99% of the fair value of the investment portfolio. Restricted securities are subject to one or more restrictions on resale and are not freely marketable. Freed Maxick CPAs, P.C. has not audited the business descriptions of the portfolio companies.
- (b) The Date Acquired column indicates the year in which the Corporation acquired its first investment in the company or a predecessor company. Freed Maxick CPAs, P.C. has not audited the date acquired of the portfolio companies.
- (c) Each equity percentage estimates the Corporation's ownership interest in the applicable portfolio investment. The estimated ownership is calculated based on the percent of outstanding voting securities held by the Corporation or the potential percentage of voting securities held by the Corporation upon exercise of warrants or conversion of debentures, or other available data. Freed Maxick CPAs, P.C. has not audited the equity percentages of the portfolio companies. If applicable, the symbol <1% indicates that the Corporation holds an equity interest of less than one percent.
- (d) The Corporation's investments are carried at fair value in accordance with Accounting Standards Codification (ASC) 820 Fair Value Measurements and Disclosures which defines fair value and establishes guidelines for measuring fair value. At March 31, 2015, ASC 820 designates 1% of the Corporation's investments as Level 1 and 99% as Level 3 assets. Under the valuation policy of the Corporation, unrestricted publicly held securities are valued at the average closing bid price for these securities for the last three trading days of the month. Restricted securities are subject to restrictions on resale, and are valued at fair value as determined by the management of the Corporation and submitted to the Board of Directors for approval. Fair value is considered to be the amount which the Corporation may reasonably expect to receive for portfolio securities when sold on the valuation date. Valuations as of any particular date, however, are not necessarily indicative of amounts which may ultimately be realized as a result of future sales or other dispositions of securities and these favorable or unfavorable differences could be material. Among the factors considered in determining the fair value of restricted securities are the financial condition and operating results, projected operations, and other analytical data relating to the investment. Also considered are the market prices for unrestricted securities of the same class (if applicable) and other matters which may have an impact on the value of the portfolio company (see Note 3 Investments to the Consolidated Financial Statements).
- (e) These investments are non-income producing. All other investments are income producing. Non-income producing investments have not generated cash payments of interest or dividends including LLC tax-related distributions within the last twelve months, or are not expected to do so going forward.
- (f) As of March 31, 2015, the total cost of investment securities approximated \$24.7 million. Net unrealized appreciation was approximately \$8.0 million, which was comprised of \$9.8 million of unrealized appreciation of investment securities and (\$1.8) million related to unrealized depreciation of investment securities. At March 31, 2015, the aggregate gross unrealized gain for federal income tax purposes was \$5.9 million and the aggregate gross unrealized loss for federal income tax purposes was (\$1.6) million. The net unrealized gain was \$4.3 million based on a tax cost of \$28.2 million.

- (g) Rand Capital SBIC, Inc. investment.
- (h) Reduction in cost and value from previously reported balances reflects current principal repayment.
- (i) Represents interest due (amounts over \$50,000 net of reserves) from investment included as interest receivable on the Corporation's Statement of Financial Position.
- (j) Non-Control/Non-Affiliate investments are investments that are neither Control Investments nor Affiliate Investments.
- (k) Affiliate investments are defined by the Investment Company Act of 1940, as amended (1940 Act), as those Non-Control investments in companies in which between 5% and 25% of the voting securities are owned.
- (l) Control investments are defined by the 1940 Act as investments in companies in which more than 25% of the voting securities are owned or where greater than 50% of the board representation is maintained.
- (m) Gemcor II, LLC is an unconsolidated significant subsidiary as defined in SEC's Regulation S-X.
- (n) Publicly owned company.
- (o) On March 31, 2015, the Corporation's shares of Synacor were valued at \$2.34 per share in accordance with the Corporation's valuation policy for unrestricted publicly held securities (Level 1). See Synacor's publicly disclosed financial reports at sec.gov for additional information on Synacor's industry, financial results and business operations.
- (p) Payment in kind represents earned interest that is added to the cost basis of the investment.

This schedule should be read in conjunction with the Corporation's Consolidated Financial Statements, including the Consolidated Schedule of Portfolio Investments and Notes to the Consolidated Financial Statements.

- (1) Gross additions include increases in the cost basis of investments resulting from new portfolio investment, follow on investments, capitalized interest and the accretion of discounts. Gross Additions also include net increases in unrealized appreciation or net decreases in unrealized depreciation.
- (2) Gross reductions include decreases in the cost basis of investments resulting from principal repayments, sales, and net increases in unrealized depreciation and net decreases in unrealized appreciation.
- (3) Represents the total amount of interest, fees or dividends credited to income for the portion of the period an investment was included in Control or Affiliate categories, respectively.

RAND CAPITAL CORPORATION AND SUBSIDIARY
CONSOLIDATED SCHEDULE OF PORTFOLIO INVESTMENTS

December 31, 2014 (Continued)

Notes to the Consolidated Schedule of Portfolio Investments

- (a) At December 31, 2014, restricted securities represented approximately 98% of the fair value of the investment portfolio. Restricted securities are subject to one or more restrictions on resale and are not freely marketable. Freed Maxick CPAs, P.C. has not audited the business descriptions of the portfolio companies.
- (b) The Date Acquired column indicates the year in which the Corporation acquired its first investment in the company or a predecessor company. Freed Maxick CPAs, P.C. has not audited the date acquired of the portfolio companies.
- (c) Each equity percentage estimates the Corporation's ownership interest in the applicable portfolio investment. The estimated ownership is calculated based on the percent of outstanding voting securities held by the Corporation or the potential percentage of voting securities held by the Corporation upon exercise of warrants or conversion of debentures, or other available data. Freed Maxick CPAs, P.C. has not audited the equity percentages of the portfolio companies. If applicable, the symbol <1% indicates that the Corporation holds an equity interest of less than one percent.
- (d) The Corporation's investments are carried at fair value in accordance with Accounting Standards Codification (ASC) 820 Fair Value Measurements which defines fair value and establishes guidelines for measuring fair value. At December 31, 2014, ASC 820 designates 2% of the Corporation's investments as Level 1 and 98% as Level 3 assets. Under the valuation policy of the Corporation, unrestricted publicly held securities are valued at the average closing bid price for these securities for the last three trading days of the month. Restricted securities are subject to restrictions on resale, and are valued at fair value as determined by the management of the Corporation and submitted to the Board of Directors for approval. Fair value is considered to be the amount which the Corporation may reasonably expect to receive for portfolio securities when sold on the valuation date. Valuations as of any particular date, however, are not necessarily indicative of amounts which may ultimately be realized as a result of future sales or other dispositions of securities and these favorable or unfavorable differences could be material. Among the factors considered in determining the fair value of restricted securities are the financial condition and operating results, projected operations, and other analytical data relating to the investment. Also considered are the market prices for unrestricted securities of the same class (if applicable) and other matters which may have an impact on the value of the portfolio company (see Note 3 Investments to the Consolidated Financial Statements).
- (e) These investments are non-income producing. All other investments are income producing. Non-income producing investments have not generated cash payments of interest or dividends including LLC tax-related distributions within the last twelve months, or are not expected to do so going forward.
- (f) As of December 31, 2014, the total cost of investment securities approximated \$22.2 million. Net unrealized appreciation was approximately \$8.1 million, which was comprised of \$9.9 million of unrealized appreciation of investment securities and (\$1.8) million related to unrealized depreciation of investment securities. At December 31, 2014, the aggregate gross unrealized gain for federal income tax purposes was \$6.1 million and the aggregate gross unrealized loss for federal income tax purposes was (\$1.5) million. The net unrealized gain was \$4.6 million based on a tax cost of \$25.8 million.

- (g) Rand Capital SBIC, Inc. investment.
- (h) Reduction in cost and value from previously reported balances reflects current principal repayment.
- (i) Represents interest due (amounts over \$50,000 net of reserves) from investment included as interest receivable on the Corporation's Statement of Financial Position.
- (j) Non-Control/Non-Affiliate investments are investments that are neither Control Investments nor Affiliate Investments.
- (k) Affiliate investments are defined by the Investment Company Act of 1940, as amended (1940 Act), as those Non-Control investments in companies in which between 5% and 25% of the voting securities are owned.
- (l) Control investments are defined by the 1940 Act as investments in companies in which more than 25% of the voting securities are owned or where greater than 50% of the board representation is maintained.
- (m) Gemcor II, LLC is an unconsolidated significant subsidiary as defined in SEC's Regulation S-X.
- (n) Publicly owned company.
- (o) On December 31, 2014, the Corporation's shares of Synacor were valued at \$2.01 per share in accordance with the Corporation's valuation policy for unrestricted publicly held securities (Level 1). See Synacor's publicly disclosed financial reports at sec.gov for additional information on Synacor's industry, financial results and business operations.
- (p) Payment in kind represents earned interest that is added to the cost basis of the investment.

This schedule should be read in conjunction with the Corporation's Consolidated Financial Statements, including the Consolidated Schedule of Portfolio Investments and Notes to the Consolidated Financial Statements.

- (1) Gross additions include increases in the cost basis of investments resulting from new portfolio investment, follow on investments, capitalized interest and the accretion of discounts. Gross Additions also include net increases in unrealized appreciation or net decreases in unrealized depreciation.
- (2) Gross reductions include decreases in the cost basis of investments resulting from principal repayments, sales, and net increases in unrealized depreciation and net decreases in unrealized appreciation.
- (3) Represents the total amount of interest, fees or dividends credited to income for the portion of the period an investment was included in Control or Affiliate categories, respectively.

Rand Capital Corporation and Subsidiary

Notes to the Consolidated Financial Statements

For the Three Months Ended March 31, 2015 and 2014

(Unaudited)

Note 1. ORGANIZATION

Rand Capital Corporation (Rand , we , us and our) was incorporated under the laws of New York in February 1969. completed our initial public offering in 1971 as an internally managed, closed-end, diversified, management investment company. We have elected to be treated as a business development company (BDC) under the Investment Company Act of 1940, as amended (the 1940 Act). As a BDC we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in qualifying assets and provide managerial assistance to the portfolio companies in which we invest. See Item 1. Business Regulation, Regulation as a Business Development Company in our Annual Report on Form 10-K for the year ended December 31, 2014.

We make the majority of our investments through our wholly-owned subsidiary, Rand Capital SBIC, Inc. (Rand SBIC), which operates as a small business investment company (SBIC) and has been licensed by the U.S. Small Business Administration (SBA) since 2002. Rand SBIC s predecessor was organized as a Delaware limited partnership and was converted into a New York corporation on December 31, 2008, at which time our operations as a licensed SBIC were continued. Although Rand SBIC was operated as if it were a BDC, it was registered as an investment company under the 1940 Act. On February 28, 2012, the SEC granted an Order of Exemption for Rand with respect to the operations of Rand SBIC and in March 2012, Rand SBIC filed an election to be regulated as a BDC under the 1940 Act. Rand SBIC s board of directors is comprised of the directors of Rand, a majority of whom are not interested persons of Rand or Rand SBIC.

We operate as an internally managed investment company whereby our officers and employees conduct their business under the general supervision of the Board of Directors. We have not elected to qualify to be taxed as a regulated investment company as defined under Subchapter M of the Internal Revenue Code.

In this Quarterly Report on Form 10-Q, unless the context otherwise requires, we , the Corporation , us , and our refer to Rand Corporation and Rand Capital SBIC, Inc.

Our corporate office is located in Buffalo, NY and our website address is www.randcapital.com. We make available free of charge on our website our annual and periodic reports, proxy statements and other information as soon as reasonably practicable after such material is filed with the Securities and Exchange Commission (SEC). Our shares are traded on the NASDAQ Capital Market under the ticker symbol RAND .

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation It is our opinion, that the accompanying consolidated financial statements include all adjustments of a normal recurring nature necessary for a fair presentation in accordance with United States generally accepted accounting principles (GAAP) of the consolidated financial position, results of operations, and cash flows for the interim periods presented. Certain information and note disclosures normally included in audited annual consolidated financial statements prepared in accordance with GAAP have been omitted; however, we believe that the disclosures made are adequate to make the information presented not misleading. The interim results for the three

months ended March 31, 2015 are not necessarily indicative of the results for the full year.

Table of Contents

These statements should be read in conjunction with the consolidated financial statements and the notes included in our Annual Report on Form 10-K for the year ended December 31, 2014. Information contained in this filing should also be reviewed in conjunction with our related filings with the SEC prior to the date of this report. Those filings include, but are not limited to, the following:

N-54A	Election to Adopt Business Development Company status
DEF-14A	Definitive Proxy Statement submitted to shareholders
Form 10-K	Annual Report on Form 10-K for the year ended December 31, 2014
Form 10-Q	Quarterly Report on Form 10-Q for the quarters ended September 30, 2014, June 30, 2014 and March 31, 2014

Principles of Consolidation The consolidated financial statements include the accounts of Rand and its wholly-owned subsidiary Rand SBIC. All intercompany accounts and transactions have been eliminated in consolidation.

Fair Value of Financial Instruments The carrying amounts reported in the consolidated statement of financial position of cash, interest receivable, accounts payable and accrued expenses approximate fair value because of the immediate or short-term maturity of these financial instruments.

Investment Classification In accordance with the provisions of the 1940 Act, the Corporation classifies its investments by level of control. Under the 1940 Act, **Control Investments** are investments in companies that the Corporation is deemed to **Control** if it owns more than 25% of the voting securities of the company or has greater than 50% representation on the company's board. **Affiliate Investments** are companies in which the Corporation owns between 5% and 25% of the voting securities. **Non-Control/Non-Affiliate Investments** are those companies that are neither **Control Investments** nor **Affiliate Investments**.

Investments - Investments are valued at fair value as determined in good faith by the management of the Corporation and approved by the Board of Directors. The Corporation invests in loan instruments, debt instruments, and equity instruments. There is no single standard for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistent valuation process. The Corporation analyzes and values each investment quarterly, and records unrealized depreciation for an investment that it believes has become impaired, including where collection of a loan or realization of the recorded value of an equity security is doubtful. Conversely, the Corporation will record unrealized appreciation if it believes that an underlying portfolio company has appreciated in value and, therefore, its equity security has also appreciated in value. These estimated fair values may differ from the values that would have been used had a ready market for the investments existed and these differences could be material if the Corporation's assumptions and judgments differ from results of actual liquidation events.

Qualifying Assets - All of the Corporation's investments were made to privately held small business enterprises, that were not investment companies, were principally based in the United States, and represent qualifying assets as defined by Section 55(a) of the 1940 Act.

Revenue Recognition - Interest Income - Interest income is recognized on the accrual basis except where the investment is in default or otherwise presumed to be in doubt. In such cases, interest is recognized at the time of receipt. A reserve for possible losses on interest receivable is maintained when appropriate.

The Rand SBIC interest accrual is also regulated by the SBA's Accounting Standards and Financial Reporting Requirements for Small Business Investment Companies. Under these rules interest income cannot be recognized if collection is doubtful, and a 100% reserve must be established. The collection of interest is presumed to be in doubt when there is substantial doubt about a portfolio company's ability to continue as a going concern or a loan is in default more than 120 days. Management also uses other qualitative and quantitative measures to determine the value of a portfolio investment and the collectability of any accrued interest.

Table of Contents

After reviewing the portfolio companies' performance and the circumstances surrounding the investment, the Corporation ceased accruing interest income on G-Tec Natural Gas Systems in 2004 and Mezmeriz, Inc. in 2014.

The Corporation holds debt securities in its investment portfolio that contain payment-in-kind (PIK) interest provisions. The PIK interest, computed at the contractual rate specified in each debt agreement, is periodically added to the principal balance of the debt and is recorded as interest income. Thus, the actual collection of this interest may be deferred until the time of debt principal repayment.

Revenue Recognition - Dividend Income The Corporation may receive distributions from portfolio companies that are limited liability companies or corporations and these distributions are classified as dividend income on the consolidated statement of operations. Dividend income is recognized on an accrual basis when it can be reasonably estimated.

The Corporation holds preferred equity securities that contain cumulative dividend provisions. Cumulative dividends are recorded as dividend income, and any dividends in arrears are added to the balance of the preferred equity investment. The actual collection of these dividends in arrears may be deferred until such time as the preferred equity is redeemed.

Revenue Recognition - Fee Income - Consists of the revenue associated with the amortization of financing fees charged to the portfolio companies upon successful closing of Rand SBIC financings and income associated with portfolio company board attendance fees. The income associated with the amortization of financing fees was \$4,333 and \$2,183 for the three months ended March 31, 2015 and 2014, respectively. The board fees were \$3,000 and \$3,500 for the three months ended March 31, 2015 and 2014, respectively.

Original Issue Discount Investments may include original issue discount or OID income. This occurs when the Corporation purchases a warrant and a note or debt instrument from a portfolio company simultaneously, which requires an allocation of a portion of the purchase price to the warrant and reduces the note or debt instrument by an equal amount in the form of a note discount or OID. The note is reported net of the OID and the OID is accreted into interest income over the life of the loan. The Corporation recognized \$3,873 in OID income for each of the three months ended March 31, 2015 and 2014. OID income is estimated to be approximately \$12,000 for the remainder of 2015, \$12,000 for 2016 and \$8,000 for 2017.

Deferred Debenture Costs - SBA debenture origination and commitment costs, which are included in other assets, are amortized ratably over the terms of the SBA debentures and are expensed when the debt is repaid. Amortization expense for the three months ended March 31, 2015 and 2014 was \$6,850 and \$5,718, respectively. Amortization over the next five years is estimated to be approximately \$27,000 per year.

SBA Leverage - The Corporation had \$8,000,000 in outstanding SBA leverage at March 31, 2015 and December 31, 2014 with a weighted average interest rate of 3.54% as of March 31, 2015. The \$8,000,000 in outstanding leverage matures from 2022 through 2025.

The Corporation has consented to the exercise by the SBA of all rights of the SBA under 13 C.F.R. 107.1810(i) SBA remedies for automatic events of default and has agreed to take all actions that the SBA may so require, which may include our automatic consent to the appointment of SBA or its designee as receiver under section 311(c) of the Small Business Investment Act of 1958.

Fair Value of SBA Leverage - In March 2015, the SBA pooled its debenture borrowings and they were put to market and competitively priced. The market rate for these debentures was set at 2.517% excluding a mandatory SBA annual

charge estimated to be 0.804%, resulting in a total estimated fixed rate for ten years of 3.321%. The carrying value of SBA debentures is a reasonable estimate of fair value because stated interest rates approximate current interest rates that are available for debt with similar terms.

Table of Contents

Net Assets per Share - Net assets per share are based on the number of shares of common stock outstanding. There are no common stock equivalents.

Supplemental Cash Flow Information - Income taxes paid, net of refunds, during the three months ended March 31, 2015 and 2014 was \$2,244,600 and \$1,348,753, respectively. Interest paid during the three months ended March 31, 2015 and 2014 was \$128,650 and \$98,913, respectively. The Corporation converted \$25,454 and \$19,882 of interest receivable into investments during the three months ended March 31, 2015 and 2014, respectively.

Accounting Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Stockholders Equity (Net Assets) - At March 31, 2015 and December 31, 2014, there were 500,000 shares of \$10.00 par value preferred stock authorized and unissued.

On October 23, 2014, the Board of Directors extended the repurchase authorization for up to 1,000,000 shares of the Corporation's outstanding common stock on the open market through October 23, 2015 at prices that are no greater than the then current net asset value. No shares were repurchased during the three months ended March 31, 2015 and the total treasury shares held was 534,496 shares with a total cost of \$1,447,491 at March 31, 2015. Therefore, at March 31, 2015, the Corporation had authorization to purchase an additional 465,504 shares of common stock.

Profit Sharing and Stock Option Plan - In 2001, the stockholders of the Corporation authorized the establishment of an Employee Stock Option Plan (the Option Plan), that provides for the award of stock options to purchase up to 200,000 common shares to eligible employees. In 2002, the Corporation placed the Option Plan on inactive status as it developed a new profit sharing plan for the Corporation's employees in connection with the formation of its SBIC subsidiary. As of March 31, 2015, no stock options had been awarded under the Option Plan. Because Section 57(n) of the 1940 Act prohibits maintenance of a profit sharing plan for the officers and employees of a BDC where any option, warrant or right is outstanding under an executive compensation plan, no stock options will be granted under the Option Plan while any profit sharing plan is in effect with respect to the Corporation.

In 2002, the Corporation established a Profit Sharing Plan (the Plan) for its executive officers in accordance with Section 57(n) of the 1940 Act. Under the Plan, the Corporation will pay its executive officers aggregate profit sharing payments equal to 12% of the net realized capital gains of its SBIC subsidiary, net of all realized capital losses and unrealized depreciation of the SBIC subsidiary, for the fiscal year, computed in accordance with the Plan and the Corporation's interpretation of the Plan. Any profit sharing paid or accrued cannot exceed 20% of the Corporation's net income, as defined. For purposes of the 20% profit sharing test, the Corporation interprets net income to be the total of the Corporation's net investment gain (loss) and its net realized gain (loss) on investments, prior to inclusion of the estimated profit sharing obligation. The profit sharing payments are split equally between the Corporation's two executive officers, each of whom is fully vested in the Plan.

There were no amounts earned pursuant to the Plan for the three months ended March 31, 2015 and March 31, 2014, respectively. During the year ended December 31, 2014, the Corporation approved and accrued \$899,500 under the Plan, of which \$717,500 was paid during the three months ended March 31, 2015. During the year ended December 31, 2013, the Corporation approved and accrued \$887,244 under the Plan, of which \$784,560 was paid during the three months ended March 31, 2014.

Table of Contents

Income Taxes - The Corporation reviews the tax positions it has taken to determine if they meet a more likely than not threshold for the benefit of the tax position to be recognized in the consolidated financial statements. A tax position that fails to meet the more likely than not recognition threshold will result in either a reduction of a current or deferred tax asset or receivable, or the recording of a current or deferred tax liability.

It is the Corporation's policy to include interest and penalties related to income tax liabilities in income tax expense. There were no amounts recognized for interest or penalties related to tax expense for the three months ended March 31, 2015 or 2014, respectively.

The Corporation is currently open to audit under the statute of limitations by the Internal Revenue Service for the years ended December 31, 2011 through 2014. In general, the Corporation's state income tax returns are open to audit under the statute of limitations for the years ended December 31, 2011 through 2014. The Corporation's uncertain tax positions are not material and are not expected to change significantly within the next 12 months.

Concentration of Credit and Market Risk - The Corporation's financial instruments potentially subject it to concentrations of credit risk. Cash is invested with banks in amounts which, at times, exceed insurable limits. Management does not anticipate non-performance by such banks.

At March 31, 2015, Gemcor II, LLC (Gemcor), Rheonix, Inc. (Rheonix), Microcision, LLC (Microcision), Carolina Skiff LLC (Carolina Skiff) and SciAps, Inc. (Sciaps) represented 30%, 8%, 6%, 5% and 5%, respectively, of the fair value of the Corporation's investment portfolio.

Note 3. INVESTMENTS

The Corporation's investments are carried at fair value in accordance with Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements.

Loan investments are defined as traditional loan financings with no equity features. Debt investments are defined as debt financings that include one or more equity features such as conversion rights, stock purchase warrants, and/or stock purchase options. A financing may also be categorized as a debt financing if it is accompanied by the direct purchase of an equity interest in the company.

The Corporation uses several approaches to determine the fair value of an investment. The main approaches are:

Loan and debt securities are valued at cost when it is representative of the fair value of an investment or sufficient assets or liquidation proceeds are expected to exist from a sale of a portfolio company at its estimated fair value.

The loan and debt securities may also be valued at an amount other than the price the security would command in order to provide a yield to maturity equivalent to the current yield of similar debt securities. A loan or debt instrument may be reduced in value if it is judged to be of poor quality, collection is in doubt or insufficient liquidation proceeds exist.

Equity securities may be valued using the market approach or income approach. The market approach uses observable prices and other relevant information generated by similar market transactions. It may include the use of market multiples derived from a set of comparables to assist in

Table of Contents

pricing the investment. Additionally, the Corporation adjusts valuations if a subsequent significant equity financing has occurred that includes a meaningful portion of the financing by a sophisticated, unrelated new investor. The income approach employs a cash flow and discounting methodology to value an investment. ASC 820 classifies the inputs used to measure fair value into the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities, used in the Corporation's valuation at the measurement date.

Level 2: Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

Level 3: Unobservable and significant inputs to determining the fair value.

Financial assets are categorized based upon the level of judgment associated with the inputs used to measure their fair value.

Any changes in estimated fair value are recorded in the statement of operations as Net (decrease) increase in unrealized appreciation on investments.

Under the valuation policy, the Corporation values unrestricted publicly traded companies, categorized as Level 1 investments, at the average closing bid price for the last three trading days of the reporting period.

In the valuation process, the Corporation values private securities, categorized as Level 3 investments, using financial information from these portfolio companies, which may include:

Financial information obtained from each portfolio company, including unaudited statements of operations, balance sheets and operating budgets;

Current and projected financial, operational and technological developments of the portfolio company;

Current and projected ability of the portfolio company to service its debt obligations;

The current capital structure of the business and the seniority of the various classes of equity if a deemed liquidation event were to occur;

Pending debt or capital restructuring of the portfolio company;

Current information regarding any offers to purchase the investment; or past sales transactions;

Current ability of the portfolio company to raise additional financing if needed;

Changes in the economic environment which may have a material impact on the operating results of the portfolio company;

Internal occurrences that may have an impact (both positive and negative) on the operating performance of the portfolio company;

Qualitative assessment of key management;

Contractual rights, obligations or restrictions associated with the investment; and

Other factors deemed relevant by the Corporation's management to assess valuation.

This information is used to determine financial condition, performance, and valuation of the portfolio companies. The valuation may be reduced if a portfolio company's performance and potential have deteriorated significantly. If the factors that led to a reduction in valuation are overcome, the valuation may be readjusted.

Equity Securities

Equity Securities may include Preferred Stock, Common Stock, Warrants and Limited Liability Company Membership Interests.

Table of Contents

The significant unobservable inputs used in the fair value measurement of the Corporation's equity investments are EBITDA and revenue multiples, where applicable, the financial and operational performance of the business, and the senior equity preferences which may exist in a deemed liquidation event. Standard industry multiples may be used when available; however, the Corporation's portfolio companies are typically small and in early stages of development and these industry standards may be adjusted to more closely match the specific financial and operational performance of the portfolio company. Due to the nature of certain investments, fair value measurements may be based on other criteria, which may include third party appraisals. Significant changes to the unobservable inputs, such as variances in financial performance from expectations, may result in a significantly higher or lower fair value measurement.

Another key factor used in valuing equity investments is recent arms-length equity transactions with unrelated new investors entered into by the portfolio company. The terms of these equity transactions may not be identical to the equity transactions between the portfolio company and the Corporation, and the impact of the difference in transaction terms on the market value of the portfolio company may be difficult or impossible to quantify.

When appropriate the Black-Scholes pricing model is used to estimate the fair value of warrants for accounting purposes. This model requires the use of highly subjective inputs including expected volatility and expected life, in addition to variables for the valuation of minority equity positions in small private and early stage companies. Significant changes in any of these unobservable inputs may result in a significantly higher or lower fair value measurement.

For recent investments, the Corporation generally relies on the cost basis, which is deemed to represent the fair value, unless other fair market value inputs are identified causing the Corporation to depart from this basis.

Loan and Debt Securities

The significant unobservable inputs used in the fair value measurement of the Corporation's loan and debt securities are the financial and operational performance of the portfolio company, similar debt with similar terms with other portfolio companies, as well as the market acceptance for the portfolio company's products or services. These inputs will likely provide an indicator as to the probability of principal recovery of the investment. The Corporation's loan and debt investments are often junior secured or unsecured debt securities. Fair value may also be determined based on other criteria where appropriate. Significant changes to the unobservable inputs may result in a change in fair value. For recent investments, the Corporation generally relies on the cost basis, which is deemed to represent the fair value, unless other fair market value inputs are identified causing the Corporation to depart from this basis.

The following table provides a summary of the significant unobservable inputs used to fair value the Corporation's Level 3 portfolio investments as of March 31, 2015:

Investment Type	Market Approach EBITDA Multiple	Market Approach Liquidation Seniority	Market Approach Revenue Multiple	Market Approach Transaction Pricing	Black Scholes Pricing Model		Totals
					Stock Pricing & Volatility	Face Value Liquidation Seniority

Income tax expense	0.01	0.01
Net investment income	0.02	0.00
Purchase of treasury stock (2)	0.00	0.02
Net realized and unrealized gain on investments	0.01	0.71
Increase in net asset value	0.03	0.73
Net asset value, beginning of period	5.11	4.38
Net asset value, end of period	\$ 5.14	\$ 5.11
Per share market price, end of period	\$ 3.95	\$ 4.09
Total return based on market value	(3.42%)	33.2%
Total return based on net asset value	0.55%	15.26%
Supplemental data:		
Ratio of operating expenses before income taxes to average net assets	1.36%	8.27%
Ratio of operating expenses including taxes to average net assets	1.66%	16.28%
Ratio of net increase in net assets from operations to average net assets	0.55%	0.07%
Portfolio turnover	8.55%	21.5%
Net assets, end of period	\$ 32,532,989	\$ 32,353,441
Weighted shares outstanding, end of period	6,328,538	6,391,175

(1) *Per share data are based on weighted average shares outstanding and the results are rounded to the nearest cent.*

(2) *Net increase is due to purchase of common stock at prices less than beginning of period net asset value per share.*

The Corporation's interim period results could fluctuate as a result of a number of factors; therefore results for any interim period should not be relied upon as being indicative of performance for the full year or in future periods.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with the consolidated financial statements and related notes included elsewhere in this report. Historical results and percentage relationships among any amounts in the consolidated financial statements are not necessarily indicative of trends in operating results for any future periods.

FORWARD LOOKING STATEMENTS

Statements included in this Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report that do not relate to present or historical conditions are forward-looking statements within the meaning of that term in Section 27A of the Securities Act of 1933, as amended, and in Section 21E of the Securities Exchange Act of 1934, as amended. Additional oral or written forward-looking statements may be made by us from time to time, and forward-looking statements may be included in documents that are filed with the Securities and Exchange Commission. Forward-looking statements involve risks and uncertainties that could cause results or outcomes to differ materially from those expressed in the forward-looking statements. Forward-looking statements may include, without limitation, statements relating to our plans, strategies, objectives, expectations and intentions and are intended to be made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words such as believes, forecasts, intends, possible, expects, estimates, anticipates, or plans and similar are intended to identify forward-looking statements. Among the important factors on which such statements are based are assumptions concerning the state of the United States economy and the local markets in which our portfolio companies operate, the state of the securities markets in which the securities of the our portfolio companies trade or could be traded, liquidity within the United States financial markets, and inflation. Forward-looking statements are also subject to the risks and uncertainties described under the caption Risk Factors contained in Part II, Item 1A of this report and in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014.

There may be other factors not identified that affect the accuracy of our forward-looking statements. Further, any forward-looking statement speaks only as of the date it is made and, except as required by law, we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which it is made or to reflect the occurrence of anticipated or unanticipated events or circumstances. New factors emerge from time to time that may cause our business not to develop as we expect, and we cannot predict all of them.

Overview

We are an internally managed investment company that lends to and invests in small and medium-sized companies primarily in connection with loans or investments made concurrently by other investors. We have elected to be treated as a business development company (BDC) under the Investment Company Act of 1940, as amended (the 1940 Act). As a BDC we are required to comply with certain regulatory requirements. We make the majority of our investments through our wholly-owned subsidiary, Rand Capital SBIC, Inc. (Rand SBIC), which operates as a small business investment company (SBIC) and has been licensed by the U.S. Small Business Administration (SBA) since 2002. We anticipate that most, if not all, of our investments in the next year will be originated through Rand SBIC.

Outlook

At the end of the first quarter of 2015, we had approximately \$7.9 million in cash on hand available for future investments. We believe the combination of cash on hand and prospective investment income provides sufficient capital for us to continue to add new investments to our portfolio while still reinvesting in existing

Table of Contents

portfolio companies that continue to demonstrate growth potential. The following short and long-term trends provide us with confidence in our ability to grow Rand:

We believe that economic conditions in the United States are improving, and we expect that well run businesses should be able to compete effectively given the low cost of capital, strengthening business and consumer spending, and eager reception of new technologies and service concepts.

Given our increased scale we are able to invest larger amounts in companies, which will provide us with an opportunity to accelerate our rate of growth.

We continue to manage risk by investing alongside other investors, when possible.

We seek to be actively involved with the management and governance of our portfolio companies, which enables us to support their operating and marketing efforts and to facilitate their growth.

As our portfolio continues to expand, our costs will decline as a percentage of net asset value.

Critical Accounting Policies

We prepare our consolidated financial statements in accordance with United States generally accepted accounting principles (GAAP), which require the use of estimates and assumptions that affect the reported amounts of assets and liabilities. A summary of our critical accounting policies can be found in our Annual Report on Form 10-K for the year ended December 31, 2014 under Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations.

Table of Contents**Financial Condition**

Overview:	3/31/15	12/31/14	(Decrease) Increase	% (Decrease) Increase
Total assets	\$ 42,793,331	\$ 45,525,987	(\$ 2,732,656)	(6.0%)
Total liabilities	10,260,342	13,172,546	(2,912,204)	(22.1%)
Net assets	\$ 32,532,989	\$ 32,353,441	\$ 179,548	0.6%

Net asset value per share (NAV) was \$5.14 at March 31, 2015 and \$5.11 at December 31, 2014.

The outstanding SBA leverage at March 31, 2015 is \$8,000,000 and will mature from 2022 to 2025. Cash approximated 24% of net assets at March 31, 2015 and 41% at December 31, 2014.

Composition of the Our Investment Portfolio

Our financial condition is dependent on the success of our portfolio holdings. We have invested substantially all of our assets in small to medium-sized companies. The following summarizes our investment portfolio at the dates indicated.

	3/31/15	12/31/14	Increase (Decrease)	% Increase (Decrease)
Investments, at cost	\$ 24,653,556	\$ 22,213,476	\$ 2,440,080	11.0%
Unrealized appreciation, net	8,037,390	8,091,900	(54,510)	(0.7%)
Investments at fair value	\$ 32,690,946	\$ 30,305,376	\$ 2,385,570	7.9%

Our total investments at fair value, as estimated by management and approved by the Board of Directors, approximated 101% of net assets at March 31, 2015 and 94% of net assets at December 31, 2014.

The change in investments during the three months ended March 31, 2015, at cost, is comprised of the following:

	Cost Increase (Decrease)
New investments:	
HealthTeacher, Inc. (Health Teacher)	\$ 1,000,025
Tilson Technology Management, Inc. (Tilson)	600,000
Rheonix, Inc. (Rheonix)	300,000
GiveGab, Inc. (Give Gab)	212,833
Knowledge Vision Systems Inc. (Knowledge Vision)	200,001
SciAps, Inc. (Sciaps)	200,000
OnCore Golf Technology, Inc. (Oncore Golf)	150,000

Total of new investments	2,662,859
Other changes to investments:	
First Wave Products Group, LLC (First Wave) interest conversion and OID amortization	25,384
Mercantile Adjustment Bureau, LLC (Mercantile) OID amortization	2,499
Health Teacher interest conversion	1,444
Total of other changes to investments	29,327
Investments repaid, sold or liquidated	
Gemcor II, LLC (Gemcor) repayment	(48,617)
Synacor, Inc. (Synacor) shares sold	(203,490)
Total investments repaid, sold or liquidated	(252,107)
Net change in investments, at cost	\$ 2,440,079

Table of Contents**Results of Operations****Investment Income**

Our investment objective is to achieve long-term capital appreciation on our equity investments while investing in a mixture of debenture and equity instruments, which may provide a current return on a portion of the investment portfolio. The equity features contained in our investment portfolio are structured to realize capital appreciation over the long-term.

Comparison of the three months ended March 31, 2015 to the three months ended March 31, 2014

	March 31, 2015	March 31, 2014	(Decrease) Increase	% (Decrease) Increase
Interest from portfolio companies	\$ 186,074	\$ 193,179	(\$ 7,105)	(3.7%)
Interest from other investments	6,821	5,166	1,655	32.0%
Dividend and other investment income	441,519	313,919	127,600	40.6%
Fee income	7,333	5,683	1,650	29.0%
Total investment income	\$ 641,747	\$ 517,947	\$ 123,800	23.9%

Interest from portfolio companies - Our portfolio interest income decreased slightly during the three months ended March 31, 2015 versus the three months ended March 31, 2014 due to the decrease in principal balances on loan and debt investments with Gemcor, II, LLC and Carolina Skiff, LLC, respectively.

After reviewing the portfolio company's performance and the circumstances surrounding our investment, we ceased accruing interest income on Mezmeriz in 2014.

Interest from other investments - The increase in interest from other investments is primarily due to higher average cash balances during the three months ended March 31, 2015 versus the same three month period in 2014.

Dividend and other investment income - Dividend income is comprised of distributions from limited liability companies (LLCs) and corporations in which we have invested. Our investment agreements with certain LLCs require those LLCs to distribute funds to us for payment of income taxes on our allocable share of the LLC's profits. These portfolio companies may also elect to distribute additional discretionary distributions. Dividend income will fluctuate based upon the profitability of these LLCs and corporations and the timing of the distributions, if any.

Dividend income for the three months ended March 31, 2015 consisted of distributions from Gemcor II, LLC (Gemcor) for \$412,151, Carolina Skiff LLC (Carolina Skiff) for \$26,201, and Tilson Technology Management, Inc. (Tilson) for \$3,167. Dividend income for the three months ended March 31, 2014 consisted of a distribution from Gemcor for \$283,086 and Carolina Skiff for \$30,833.

Fee income - Fee income consists of the revenue associated with the amortization of financing fees charged to the portfolio companies upon successful closing of Rand SBIC financings and income associated with portfolio company board attendance fees. The financing fees are amortized ratably over the life of the instrument associated with the fees. The unamortized fees are carried on the balance sheet under the line item Deferred revenue.

The income associated with the amortization of financing fees was \$4,333 and \$2,183 for the three months ended March 31, 2015 and 2014, respectively. The income from board fees was \$3,000 and \$3,500 for the three months ended March 31, 2015 and 2014, respectively.

Table of Contents**Operating Expenses*****Comparison of the three months ended March 31, 2015 to the three months ended March 31, 2014***

	March 31, 2015	March 31, 2014	Increase	% Increase
Total Operating expenses	\$ 440,385	\$ 380,668	\$ 59,717	15.7%

Operating expenses predominately consist of interest expense on outstanding SBA borrowings, compensation expense, and general and administrative expenses including stockholder and office operating expenses and professional fees.

The 15.7% or \$59,717 increase in total operating expenses for the three months ended March 31, 2015 as compared to the same three month period in 2014 is due to an increase in professional fees resulting from the increasing regulatory environment in which we operate and an increase in SBA interest expense due to the higher outstanding average balance during the three months ended March 31, 2015 as compared to the three months ended March 31, 2014.

Realized Gains and Losses on Investments***Comparison of the three months ended March 31, 2015 to the three months ended March 31, 2014***

	March 31, 2015	March 31, 2014	Increase
Realized gain (loss) on investments before income taxes	\$ 131,744	(\$ 781,020)	\$ 912,764

During the three months ended March 31, 2015, we recognized a net realized gain of \$131,744 on the sale of 153,000 shares of Synacor, Inc. (Synacor). Synacor trades on the NASDAQ Global Market under the symbol SYNC . As of March 31, 2015, we owned 148,582 shares of Synacor.

During the three months ended March 31, 2014, we recognized a realized loss of \$778,253 on our investment in Emerging Med.com when it was sold during January 2014. We did not receive any proceeds from the sale. We also recognized a loss of \$2,767 on an adjustment to the Liazon Corporation escrow receivable during the three months ended March 31, 2014.

Change in Unrealized Appreciation of Investments***Comparison of the three months ended March 31, 2015 to the three months ended March 31, 2014***

	March 31, 2015	March 31, 2014	Decrease
Change in unrealized appreciation before income taxes	(\$ 54,509)	\$ 386,880	(\$ 441,389)

The decrease in unrealized appreciation before income taxes for the three months ended March 31, 2015 was comprised of the following:

	March 31, 2015
Synacor, Inc. (Synacor)	(\$ 54,509)
Total change in net unrealized appreciation of investments before income taxes during the three months ended March 31, 2015	(\$ 54,509)

Synacor, as a publicly traded stock, is marked to market at the end of each quarter. We valued our 148,582 shares of Synacor at a three day average bid price of \$2.34 at March 31, 2015.

Table of Contents

The increase in unrealized appreciation for the three months ended March 31, 2014 was comprised of the following:

	March 31, 2014
EmergingMed.com, Inc. (Emerging Med) to a realized loss	\$ 778,253
Mezmeriz	(391,373)
Total change in net unrealized appreciation before income taxes during the three months ended March 31, 2014	\$ 386,880

The Emerging Med investment was written off during the three months ended March 31, 2014, after the company was sold and we did not receive any proceeds from the sale.

The Mezmeriz investment was revalued during the three months ended March 31, 2014 after we reviewed the portfolio company and its financials and determined that the business of this portfolio company had deteriorated since the time of the original funding. The portfolio company still remains in operation and is developing new business strategies.

All of these value adjustments resulted from a review by management using the guidance set forth by ASC 820 and our established valuation policy.

Net Increase in Net Assets from Operations

We account for our operations under GAAP for investment companies. The principal measure of our financial performance is net increase (decrease) in net assets from operations on our consolidated statements of operations. For the three months ended March 31, 2015 and 2014, the net increase (decrease) in net assets from operations was \$179,548 and (\$169,613), respectively.

Liquidity and Capital Resources

Our principal objective is to achieve growth in net asset value per share through capital appreciation. Therefore, a significant portion of our investment portfolio is structured to maximize the potential for capital appreciation and certain portfolio investments may be structured to provide little or no current yield in the form of dividends or interest payments.

As of March 31, 2015, our total liquidity was \$7,948,799 in cash.

Management expects that the cash on hand at March 31, 2015, coupled with the scheduled interest payments from our portfolio investments, will be sufficient to meet our liquidity needs throughout 2015. Future exits from portfolio companies may increase the amount of liquidity available for new investments, operating activities and future SBA debenture obligations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Our investment activities contain elements of risk. The portion of our investment portfolio consisting of equity and debt securities in private companies is subject to valuation risk. Because there is typically no public market for the equity and debt securities in which we invest, the valuation of the equity interests in the portfolio is stated at fair value as determined in good faith by our management and approved by our Board of Directors. This is in accordance with our investment valuation policy (see the discussion of valuation policy contained in Note 3.-Investments in the consolidated financial statements contained in Item 1 of this report, which is hereby incorporated herein by reference.) In the absence of readily ascertainable market values, the estimated value of the portfolio may differ significantly from the values that would be placed on the portfolio if a ready market for the investments existed. Any changes in valuation are recorded on the consolidated statement of operations as Net (decrease) increase in unrealized appreciation on investments.

Table of Contents

At times a portion of our portfolio may include marketable securities traded in the over-the-counter market. In addition, there may be a portion of the portfolio for which no regular trading market exists. In order to realize the full value of a security, the market must trade in an orderly fashion or a willing purchaser must be available when a sale is to be made. Should an economic or other event occur that would not allow markets to trade in an orderly fashion, we may not be able to realize the fair value of our marketable investments or other investments in a timely manner.

As of March 31, 2015, we did not have any off-balance sheet arrangements or hedging or similar derivative financial instrument investments.

Item 4. Controls and Procedures

Disclosure Controls and Procedures. The Corporation maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that this information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. The Chief Executive Officer and the Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures as of March 31, 2015. Based on the evaluation of these disclosure controls and procedures, the Chief Executive Officer and Chief Financial Officer concluded that the Corporation's controls and procedures were effective as of March 31, 2015.

Changes in Internal Control over Financial Reporting. There have been no changes in our internal control over financial reporting during the Corporation's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

Table of Contents**PART II.****OTHER INFORMATION****Item 1. Legal Proceedings**

None.

Item 1A. Risk Factors

See Part I, Item 1A, Risk Factors, of the Annual Report on Form 10-K for the year ended December 31, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Issuer Purchases of Equity Securities**

Period	Total number of shares purchased (1)	Average price paid per share (2)	Total number of shares purchased as part of publicly announced plan (3)	Maximum number of shares that may yet be purchased under the share repurchase program
1/1/2015 - 1/31/2015				465,504
2/1/2015 - 2/28/2015				465,504
3/1/2015 - 3/31/2015				465,504

(1) There were no shares repurchased during the first quarter of 2015.

(2) The average price paid per share is calculated on a settlement basis and includes commission.

(3) On October 23, 2014, the Board of Directors extended the repurchase authorization of up to 1,000,000 shares of the Corporation's common stock on the open market at prices no greater than the then current net asset value through October 23, 2015.

Item 3. Defaults upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

None.
