Item 8.01 Other Events.

On June 9, 2015, the Competition Commission of South Africa approved Globe Specialty Metals, Inc. (Globe or the Company) pending business combination with Grupo FerroAtlántica, S.A.U. (Grupo FerroAtlántica) under a new holding company, VeloNewco Limited (VeloNewco). The authorities applied certain conditions to which the parties have agreed that are intended to reasonably continue Globe's investment in its Siltech facility in South Africa and the business relationships with local South African customers and suppliers following completion of the business combination. The parties believe these conditions will not be material to VeloNewco's business, financial condition or results of operation.

Completion of the transaction remains subject to Globe shareholder approval and other customary closing conditions. The transaction is expected to close in the fourth quarter of 2015 as previously announced.

FORWARD-LOOKING STATEMENTS

Certain statements in this communication regarding the proposed transaction, the expected timetable for completing the transaction, benefits and synergies of the transaction, future opportunities for the combined company and products and any other statements regarding future expectations, beliefs, plans, objectives, financial conditions, assumptions or future events or performance that are not historical facts are forward-looking statements made within the meaning of Section 21E of the Securities Exchange Act of 1934. These statements are often, but not always, made through the use of words or phrases such as believe, anticipate, could, may, would, should, intend, plan, potential, expect(s), estimate(s), project(s), positioned, strategy, outlook and similar expressions. All such forward-looking statements involve estimates and assumptions that are subject to risks, uncertainties and other factors that could cause actual results to differ materially from the results expressed in the statements. Among the key factors that could cause actual results to differ materially from those projected in the forward-looking statements are the following: the timing to complete the proposed transaction, including the receipt of shareholder approval and satisfaction of the other conditions to completion of the transaction; that regulatory approvals required for the proposed transaction may not be obtained on the terms expected or on the anticipated schedule; the possibility that the parties may be unable to successfully integrate Globe's and Grupo FerroAtlántica's operations and that such integration may be more difficult, time-consuming or costly than expected; operating costs, customer loss and business disruption (including, without limitation, difficulties in maintaining relationships with employees, customers, clients or suppliers) may be greater than expected following the transaction; the retention of certain key employees may be difficult; regional, national or global political, economic, business, competitive, market and regulatory conditions including, among others, changes in metals prices; increases in the cost of raw materials or energy; competition in the metals and foundry industries; environmental and regulatory risks; ability to identify liabilities associated with acquired properties prior to their acquisition; ability to manage price and operational risks including industrial accidents and natural disasters; ability to manage foreign operations; changes in technology; ability to acquire or renew permits and approvals; and other factors identified in the Company's periodic reports filed with the SEC. Additional information concerning these and other factors can be found in Globe's filings with the Securities and Exchange Commission (SEC), including Globe's most recent Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Readers are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof and the parties undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise.
