ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On August 6, 2015, Becton, Dickinson and Company (BD) issued a press release announcing its financial results for its third fiscal quarter ending June 30, 2015. A copy of the press release is furnished as Exhibit 99.1 to this report.

The press release furnished as Exhibit 99.1 contains certain financial measures that differ from those presented in accordance with U.S. generally accepted accounting principles (non-GAAP measures), as follows:

Revenues. We present U.S and total revenues for the third quarter and first nine months of fiscal 2015 after adjusting for a write down of deferred revenue made in connection with our acquisition of CareFusion Corporation (CareFusion) in March 2015, which served to lower reported revenues for the periods. We also present international and total revenue growth rates for the periods covered by the press release, and our estimated revenue growth rate for the full 2015 fiscal year, after eliminating the effect of foreign currency translation. We believe that these measures of revenues and revenue growth allow investors to better understand the underlying operating results of BD and facilitate comparisons to prior periods, as well as better understand our fiscal year 2015 guidance in relation to our fiscal year 2014 performance.

We also present revenues and revenue growth rates for these periods, and our estimated revenue growth for fiscal year 2015, on a comparable basis, which means assuming the acquisition of CareFusion occurred at the start of BD 's 2015 fiscal year. We provide these measures after eliminating the effect of foreign currency translation for the reasons discussed above. We believe these comparable measures allow investors to better understand our revenue performance (and anticipated revenue performance) for the combined company on an annualized basis.

Earnings Per Share. We present diluted earnings per share (EPS) adjusted for financing, transaction, integration and restructuring costs associated with the Carefusion acquisition, non-cash expense associated with the amortization of acquisition related intangible assets (amortization charges), litigation charges and the dilutive impact of shares issued in connection with the CareFusion acquisition. We also present EPS for the prior year periods after adjusting for amortization charges, research and development charges and other items. We believe that adjusting for these items, which are not considered by management to be part of our ordinary operations, allows investors to better understand the operating results of BD for the periods presented and facilitates comparisons between the periods shown. We also show the growth in adjusted EPS for the third quarter and first nine months of fiscal year 2015 compared to the prior year periods after eliminating the impact of foreign currency translation to better enable investors to understand BD 's underlying earnings performance for these periods compared to the prior year periods.

We also present estimated EPS guidance for fiscal year 2015 compared to fiscal year 2014, both for the BD business as it existed at the time of the CareFusion acquisition and BD as a whole, after eliminating the aforementioned items and the anticipated impact of foreign currency translation. Management believes that these adjustments allow investors to better understand BD 's anticipated underlying performance for fiscal year 2015 in relation to fiscal year 2014.

BD 's management uses each of these non-GAAP measures in its own evaluation of BD 's performance, particularly when comparing performance to past periods and to the performance of peer companies. Management also uses the non-GAAP results for budget planning purposes on a quarterly and annual basis.

BD provides non-GAAP measures to investors on a supplemental basis, as they provide additional insight into BD 's financial results. Management believes the non-GAAP results provide a reasonable measure of BD 's underlying performance before the effects of items that are considered by management to be outside of BD 's underlying operational results or that affect period to period comparability.

Non-GAAP results should not be considered in isolation and are not in accordance with, or a substitute for, GAAP results. Our non-GAAP results may differ from similar measures used by other companies, even if similar terms are used to identify such measures. Although BD's management believes non-GAAP results are useful in evaluating the performance of its business, its reliance on these measures is limited since items excluded from such measures may have a material impact on BD's net income, earnings per share or cash flows calculated in accordance with GAAP. Therefore, management typically uses non-GAAP results in conjunction with GAAP results to address these limitations. Investors should also consider these limitations when evaluating BD's results.
