Our Company

We are a diversified global branded consumer products company. Spectrum Brands is a wholly owned direct subsidiary of SB/RH Holdings, which is a direct subsidiary of SB Holdings. SB Holdings common stock trades on the New York Stock Exchange (the NYSE) under the symbol SPB.

We manufacture and market alkaline, zinc carbon and hearing aid batteries, herbicides, insecticides and repellants and specialty pet supplies. We design and market rechargeable batteries, battery-powered lighting products, electric shavers and accessories, grooming products and hair care appliances. Our operations also include the manufacturing and marketing of specialty pet supplies, and of herbicides, insecticides and insect repellents in North America. We also design, market and distribute a broad range of branded small appliances and personal care products. Our manufacturing and product development facilities are located in the U.S., Europe, Latin America and Asia. Substantially all of our rechargeable batteries, chargers and portable lighting products, shaving and grooming products, small household appliances and personal care products are manufactured by third-party suppliers, primarily located in Asia.

On May 21, 2015, we acquired Armored AutoGroup Parent, Inc. (AAG). AAG is a consumer products company consisting primarily of Armor All and STP products, two of the most recognizable brands in the automotive aftermarket appearance products and performance chemicals categories, respectively, and the AC/PRO brand of do-it-yourself automotive air conditioner recharge products. For information pertaining to the AAG Acquisition, see Note 13, Acquisitions to our Condensed Consolidated Financial Statements (Unaudited), included elsewhere in this prospectus.

Our diversified global branded consumer products have positions in seven major product categories: consumer batteries, small appliances, personal care, hardware and home improvement, pet supplies, auto care and home and garden controls.

Table of Contents

Our chief operating decision-maker manages the businesses in five vertically integrated, product-focused reporting segments: (i) Global Batteries & Appliances, which consists of the Company's worldwide battery, personal care and small appliances primarily in the kitchen and home product categories (Global Batteries & Appliances); (ii) Hardware & Home Improvement, which consists of the Company's worldwide hardware, home improvement and plumbing business (Hardware & Home Improvement); (iii) Global Pet Supplies, which consists of the Company's worldwide pet supplies business (Global Pet Supplies); (iv) Home and Garden, which consists of the Company's home and garden and insect control business (Home and Garden); and (v) Global Auto Care, which consists of the Company's automotive aftermarket appearance products, performance chemicals/additives and do-it-yourself automotive air conditioner recharge (Global Auto Care). Management reviews our performance based on these segments. For information pertaining to our business segments, see Note 11, Segment Information, to our audited Consolidated Financial Statements and Note 11, Segment Results, to our Condensed Consolidated Financial Statements (Unaudited), each included elsewhere in this prospectus.

Global and geographic strategic initiatives and financial objectives are determined at the corporate level. Each business segment is responsible for implementing defined strategic initiatives and achieving certain financial objectives and has a general manager responsible for sales and marketing initiatives and the financial results for all product lines within that business segment.

Our operating performance is influenced by a number of factors including: general economic conditions; foreign exchange fluctuations; trends in consumer markets; consumer confidence and preferences; our overall product line mix, including pricing and gross margin, which vary by product line and geographic market; pricing of certain raw materials and commodities; energy and fuel prices; and our general competitive position, especially as impacted by our competitors' advertising and promotional activities and pricing strategies.

Recent Developments

AAG Acquisition

On May 21, 2015, we completed our acquisition (the AAG Acquisition) of AAG pursuant to the Agreement and Plan of Merger by and among AAG, SB Holdings, Ignite Merger Sub, Inc. and, solely in its capacity as representative, Avista Capital Partners II GP, LLC, dated as of April 28, 2015, for \$1.4 billion in cash.

We funded the AAG Acquisition with the proceeds of our offering of the 2025 initial notes and gross proceeds from SB Holdings' registered offering of its common stock. SB Holdings also contributed to us the additional proceeds received by it in connection with the underwriters' exercise of their option to purchase additional shares in the registered offering. We expect to use such additional proceeds for general corporate purposes.

Refinancing Transactions

On June 23, 2015, we entered into a Credit Agreement (the Credit Agreement), by and among Spectrum Brands, SB/RH Holdings, Deutsche Bank AG New York Branch, as administrative agent, and the lenders party thereto from time to time. See Description of Other Indebtedness Credit Agreement.

Pursuant to the Credit Agreement, on June 23, 2015, we closed senior secured credit facilities consisting of (a) a \$1,450 million U.S. Dollar-denominated term loan facility (the USD Term Loan Facility), (b) a 300 million Euro-denominated term loan facility (the Euro Term Loan Facility), (c) a CAD\$75 million Canadian Dollar-denominated term loan facility (the CAD Term Loan Facility) and, collectively with the USD

Term Loan Facility and the Euro Term Loan Facility, the Term Credit Facilities) and (d) a \$500 million cash flow revolving credit facility (the Revolving Credit Facility and, together with the Term Credit Facilities, the Secured Credit Facilities).

The net proceeds of the Term Credit Facilities were used, among other things, to (i) refinance our Credit Agreement dated as of December 17, 2012 (as amended, modified, supplemented or restated from time to time, the Prior Term Loan Credit Agreement) and repay in full all obligations in respect of the Prior Term Loan Credit Agreement and related loan documents, (ii) repay in full all obligations in respect of our Loan and Security Agreement, dated as of June 16, 2010 (as amended, modified, supplemented or restated from time to time, the Prior ABL Facility Agreement) and (iii) to pay fees and expenses in connection with the transactions referenced in clause (i) and for general corporate purposes. A portion of the net proceeds, together with borrowings under the Revolving Credit Facility, was also used to fund the satisfaction and discharge of the indenture governing Spectrum Brands 6.750% Senior Notes due 2020 (the 6.75% Notes).

The Revolving Credit Facility includes a letter of credit subfacility. Letters of credit issued thereunder were used by Spectrum to replace then-existing letters of credit under the Prior ABL Facility Agreement on the closing date of the Credit Agreement. Letters of credit and proceeds of the loans under the Revolving Credit Facility may be used by Spectrum, the other borrowers and their respective subsidiaries for, among other things, working capital and other general corporate purposes, including the financing of permitted acquisitions and other permitted investments and dividends and other distributions on account of the capital stock of the borrowers, restricted payments and any other use not prohibited by the terms of the loan documents.

RISK FACTORS

*An investment in the notes involves risks. Before deciding whether to invest in the notes, in addition to the other information included in this prospectus, you should consider the matters addressed in the section entitled **Cautionary Statement Regarding Forward-Looking Statements** and the risks discussed below. While we believe that these risks are the most important for you to consider, you should read this prospectus carefully, including our financial statements, the notes to our financial statements and management's discussion and analysis of our financial condition and results of operations, which are included elsewhere in this prospectus. These risk factors are not the only risks that we or our subsidiaries may face. Additional risks and uncertainties not presently known to us or not currently believed to be important also may adversely affect our business.*

Risks Related to the Notes

The notes will be Spectrum Brands' senior unsecured obligations and the guarantees will be unsecured obligations of the guarantors. As such, the notes and the guarantees will be effectively subordinated to any of Spectrum Brands' or the guarantors' secured debt, including our existing and any future debt under our Secured Credit Facilities.

Spectrum Brands' obligations under the notes and the guarantors' obligations under the guarantees will not be secured. The notes will be effectively subordinated to Spectrum Brands' and the guarantors' existing and any future secured indebtedness, including our Secured Credit Facilities, to the extent of the value of the assets securing such indebtedness, which assets include substantially all of our assets and the assets of our domestic restricted subsidiaries. As of June 28, 2015, Spectrum Brands and the guarantors had \$2,013.0 million of secured indebtedness outstanding. If we are involved in any dissolution, liquidation or reorganization, or if we default under the indentures governing the notes, holders of our secured debt would be paid before holders of the notes receive any amounts due under the notes to the extent of the value of the collateral securing such indebtedness. In that event, holders of the notes may not be able to recover any or all of the principal or interest due under the notes.

The notes will be effectively subordinated to all liabilities of, and claims of creditors of, all of our foreign subsidiaries.

The notes will not be guaranteed by any of our non-U.S. subsidiaries. Any right that we or the guarantors have to receive any assets of any of the foreign subsidiaries upon the liquidation or reorganization of those subsidiaries, and the consequent rights of holders of notes to realize proceeds from the sale of any of those subsidiaries' assets, will be effectively subordinated to the claims of those subsidiaries' creditors, including trade creditors, and holders of preferred equity interests of those subsidiaries. The indentures permit these subsidiaries to incur additional debt, subject to certain limits, and will not limit their ability to incur liabilities other than debt. As of June 28, 2015, these non-guarantor subsidiaries had 20% of our total liabilities and generated 55% of our revenue in the nine month period ended June 28, 2015.

If we are unable to comply with the restrictions and covenants in the agreements governing the notes and our other debt, there could be a default under the terms of these agreements, which could result in an acceleration of payment of funds that we have borrowed and would impact our ability to make principal and interest payments on the notes.

If we are unable to comply with the restrictions and covenants in our Secured Credit Facilities, in the indentures governing the notes offered hereby or governing our 2020/2022 Notes (collectively, the **Indentures**) or in current or future debt financing agreements, there could be a default under the terms of these agreements. Our ability to comply

with these restrictions and covenants, including meeting financial ratios and tests, may be affected by events beyond our control. As a result, we cannot assure you that we will be able to comply with these restrictions and covenants or meet these tests. Any default under the agreements governing our

Table of Contents

indebtedness, including a default under the aforementioned debt instruments, that is not waived by the required lenders, and the remedies sought by the holders of such indebtedness, could prevent us from paying principal, premium, if any, and interest on the notes and substantially decrease the market value of the notes. If we are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, and interest on our indebtedness, or if we otherwise fail to comply with the various covenants, including financial and operating covenants in the instruments governing our indebtedness (including covenants in the aforementioned debt instruments), we could be in default under the terms of the agreements governing such indebtedness. In the event of such default:

the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest;

the lenders under the Secured Credit Facilities could elect to terminate their commitments thereunder, cease making further loans and institute foreclosure proceedings against our assets; and

we could be forced into bankruptcy or liquidation.

Moreover, the Secured Credit Facilities, the indentures governing the notes offered hereby and the Indentures each contain cross-default or cross-acceleration provisions that would be triggered by the occurrence of a default or acceleration under other instruments governing our indebtedness. If the payment of our indebtedness is accelerated, there can be no assurance that our assets would be sufficient to repay in full that indebtedness and our other indebtedness that would become due as a result of any acceleration.

If our operating performance declines, we may in the future need to obtain waivers from the required lenders under our Secured Credit Facilities to avoid being in default. If we breach our covenants under our Secured Credit Facilities and seek a waiver, we may not be able to obtain a waiver from the required lenders. If this occurs, we would be in default under our Secured Credit Facilities, the lenders could exercise their rights, as described above, and we could be forced into bankruptcy or liquidation.

Despite our current levels of debt, we may still incur substantially more debt ranking equal or effectively senior to the notes and increase the risks associated with our proposed leverage.

Subject to certain restriction and limitation, we or our subsidiaries could incur significant additional indebtedness in the future. The provisions contained in the indentures and in our other debt agreements limit but do not prohibit our ability to incur additional indebtedness on an equal and ratable basis with the notes. In addition, any of our debt could be secured and therefore would be effectively senior to the notes to the extent of the value of the collateral securing that debt. This may have the effect of reducing the amount of proceeds available for the notes in the event of any bankruptcy, liquidation, reorganization or similar proceeding. If new debt is added to our current debt levels, the related risks that we now face as a result of our indebtedness could intensify.

Fraudulent transfer statutes may limit your rights as a holder of the notes.

Federal and state fraudulent transfer laws as previously interpreted by various courts permit a court, if it makes certain findings, to:

avoid all or a portion of our obligations to holders of the notes;

subordinate our obligations to holders of the notes to our other existing and future creditors, entitling such creditors to be paid in full before any payment is made on the notes; and

take other action detrimental to holders of the notes, including invalidating the notes.

In that event, we cannot assure you that you would ever be repaid. There is also no assurance that amounts previously paid to you pursuant to the notes or guarantees would not be subject to return.

Table of Contents

Under federal and state fraudulent transfer laws, in order to take any of those actions, courts will typically need to find that we or the guarantors received less than fair consideration or reasonably equivalent value for incurring the indebtedness represented by the notes, and at the time the notes were issued:

were insolvent or were rendered insolvent by reason of the issuance of the notes;

were engaged, or were about to engage, in a business or transaction for which our capital was unreasonably small;

intended to incur, or believed or should have believed we would incur, indebtedness beyond our ability to pay as such indebtedness matures; or

were a defendant in an action for money damages, or had a judgment for money damages docketed against us or such guarantor if, in either case, after final judgment, the judgment was unsatisfied.

A court may also void an issuance of notes, a guarantee or grant of security, without regard to the above factors, if the court found that we issued the notes or the guarantors entered into their respective guaranty with actual intent to hinder, delay or defraud current or future creditors.

Many of the foregoing terms are defined in or interpreted under those fraudulent transfer statutes and as judicially interpreted. A court could find that we did not receive fair consideration or reasonably equivalent value for the incurrence of the indebtedness represented by the notes.

The measure of insolvency for purposes of the foregoing considerations will vary depending on the law of the jurisdiction that is being applied in any such proceeding. Generally, a company would be considered insolvent if, at the time it incurred the indebtedness:

the sum of its indebtedness (including contingent liabilities) is greater than its assets, at fair valuation;

the present fair saleable value of its assets is less than the amount required to pay the probable liability on its total existing indebtedness and liabilities (including contingent liabilities) as they become absolute and matured; or

it could not pay its debts as they became due.

We cannot assure you what standard a court would apply in determining our solvency and whether it would conclude that we were solvent when we incurred our obligations under the notes.

In addition, the guarantees of the notes may also be subject to review under various laws for the protection of creditors. A court would likely find that we or a guarantor did not receive reasonably equivalent value or fair consideration for the notes or the guarantees, respectively, if we or a guarantor did not substantially benefit directly

from the issuance of the notes. If a court were to void an issuance of the notes or the guarantees, you would no longer have a claim against us or the guarantors. Sufficient funds to repay the notes (or the related exchange notes) may not be available from other sources, including the remaining guarantors, if any. In addition, the court might direct you to repay any amounts that you already received from us or the guarantors. In addition, any payment by us pursuant to the notes made at a time we were found to be insolvent could be voided and required to be returned to us or to a fund for the benefit of our creditors if such payment is made to an insider within a one-year period prior to a bankruptcy filing or within 90 days for any outside party and such payment would give the creditors more than such creditors would have received in a distribution under the bankruptcy code.

We may not be able to make the change of control offer required by the indentures.

Upon a change of control, subject to certain conditions, we are required to offer to repurchase all outstanding notes in cash equal to 101% of the principal amount thereof, plus accrued and unpaid interest to the

Table of Contents

date of repurchase. We cannot assure you that we will have sufficient funds at the time of any change of control to make required repurchases of notes tendered. In addition, our other indebtedness agreements provide that certain change of control events will constitute an event of default thereunder. If the holders of the notes exercise their right to require us to repurchase all of the notes upon a change of control, the financial effect of this repurchase could cause a default under our other indebtedness, even if the change of control itself would not cause a default. Accordingly, it is possible that we will not have sufficient funds at the time of any such change of control to make the required repurchase of our other indebtedness and the notes or that restrictions in the indentures will not allow such repurchases. In addition, holders may not be entitled to require us to repurchase their notes upon a change of control in certain circumstances involving a significant change in the composition of our board of directors, including in connection with a proxy contest where our board of directors does not endorse a dissident slate of directors but approves them for purposes of the Continuing Directors definition. Lastly, certain other corporate events, such as leveraged recapitalizations that would increase the level of our indebtedness, would not constitute a Change of Control under the indentures. See Description of 2024 Notes Repurchase at the Option of Holders Change of Control and Description of 2025 Notes Repurchase at the Option of Holders Change of Control, as applicable, for additional information.

The market price of the notes may decline if we enter into a transaction that is not a change of control under the indentures.

We may enter into a highly leveraged transaction, reorganization, merger or similar transaction that is not a change of control under the indentures. Nevertheless, such transactions could result in a downgrade of our credit ratings, thereby negatively affecting the value of the notes.

Changes in credit ratings issued by nationally recognized statistical ratings organizations could adversely affect our cost of financing and the market price of our securities, including the notes.

Credit rating agencies rate our debt securities on factors that include our operating results, actions that we take, their view of the general outlook for our industry and their view of the general outlook for the economy. Actions taken by the rating agencies can include maintaining, upgrading, or downgrading the current rating or placing us on a watch list for possible future downgrading. Downgrading the credit rating of our debt securities or placing us on a watch list for possible future downgrading would likely increase our cost of financing, limit our access to the capital markets and have an adverse effect on the market price of our securities, including the notes offered hereby.

If the notes are rated investment grade at any time by both Moody's Investor Service and Standard & Poor's Ratings Services, most of the restrictive covenants and corresponding events of default contained in the indentures governing the notes will be suspended, resulting in a reduction of credit protection.

If, at any time, the credit rating on the applicable series of notes, as determined by both Moody's Investors Service and Standard & Poor's Ratings Services, equals or exceeds Baa3 and BBB-, respectively, or any equivalent replacement ratings, we will no longer be subject to most of the restrictive covenants and corresponding events of default contained in the applicable indenture. Any restrictive covenants or corresponding events of default that cease to apply to us as a result of achieving these ratings will be restored if one or both of the credit ratings on the notes later falls below these thresholds. However, during any period in which these restrictive covenants are suspended, we may incur other indebtedness, make restricted payments and take other actions that would have been prohibited if these covenants had been in effect. If the restrictive covenants are later restored, the actions taken while the covenants were suspended will not result in an event of default under the applicable indenture even if they would constitute an event of default at the time the covenants are restored. Accordingly, if these covenants and corresponding events of default are suspended, you will have less credit protection than you will at the time the notes are issued. See Description of 2024

Notes Suspension of Certain Covenants and Description of 2025 Notes Suspension of Certain Covenants, as applicable.

The sale or other disposition by HRG Group, Inc., the holder of a majority of the outstanding shares of our common stock, to non-affiliates of a sufficient amount of the common stock of SB Holdings would constitute a change of control under the agreements governing our debt.

HRG Group, Inc. (f/k/a Harbinger Group Inc.) (HRG) owns a majority of the outstanding shares of the common stock of SB Holdings. The sale or other disposition by HRG to non-affiliates of a sufficient amount of the common stock of SB Holdings would constitute a change of control under certain of the agreements governing our debt, including any foreclosure on or sale of SB Holdings common stock pledged as collateral by HRG pursuant to the indenture governing HRG s outstanding secured notes. Under the Secured Credit Facilities, a change of control is an event of default and, if a change of control were to occur, we would be required to get an amendment to these agreements to avoid a default. If we were unable to get such an amendment, the lenders could accelerate the maturity of our Secured Credit Facilities. In addition, under the Indentures, upon a change of control, we are required to offer to repurchase such notes from the holders at a price equal to 101% of principal amount of such notes plus accrued interest or obtain a waiver of default from the holders of such notes. If we were unable to make the change of control offer, or to obtain a waiver of default, it would be an event of default under the applicable Indenture that could allow holders of such notes to accelerate the maturity of the notes.

Risks Related to the Exchange Offer

If you do not properly tender your initial notes, you will continue to hold unregistered initial notes and be subject to the same limitations on your ability to transfer initial notes.

We will only issue exchange notes for initial notes that are timely received by the exchange agent together with all required documents, including a properly completed and signed letter of transmittal. Therefore, you should allow sufficient time to ensure timely delivery of the initial notes and you should carefully follow the instructions on how to tender your initial notes. Neither we nor the exchange agent are required to tell you of any defects or irregularities with respect to your tender of the initial notes. If you are eligible to participate in the exchange offer and do not tender your initial notes or if we do not accept your initial notes because you did not tender your initial notes properly, then, after we consummate the exchange offer, you will continue to hold initial notes that are subject to the existing transfer restrictions and will no longer have any registration rights or be entitled to any additional interest with respect to the initial notes. In general, you may only offer or sell the initial notes if such transaction is registered under the Securities Act and applicable state securities laws, or offered and sold under an exemption from these requirements. Except as required by the Registration Rights Agreements, we do not currently anticipate that we will register under the Securities Act, any initial notes that remain outstanding after the Exchange Offer. In addition:

if you tender your initial notes for the purpose of participating in a distribution of the exchange notes, you will be required to comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale of the exchange notes; and

if you are a broker-dealer that receives exchange notes for your own account in exchange for initial notes that you acquired as a result of market-making activities or any other trading activities, you will be required to acknowledge that you will deliver a prospectus in connection with any resale of those exchange notes.

We have agreed that, for a period of 180 days after the exchange offer is consummated, we will make additional copies of this prospectus and any amendment or supplement to this prospectus available to any broker-dealer for use in connection with any resales of the exchange notes. After the exchange offer is consummated, if you continue to

hold any initial notes, you may have difficulty selling them because there will be fewer initial notes outstanding.

There is no active trading market for the exchange notes.

The exchange notes are a new issue of securities for which there is no existing trading market. Accordingly, we cannot assure you that a liquid market for the exchange notes will develop or, if developed, that it will continue or that you will be able to sell your exchange notes at a particular time or at favorable prices. We have not applied, and do not intend to apply for listing or quotation of the notes on any securities exchange or automated quotation system.

The liquidity of any market for the exchange notes is subject to a number of factors, including:

the number of holders of exchange notes;

our operating performance and financial condition;

our ability to complete the exchange offer;

the market for similar securities;

the interest of securities dealers in making a market in the exchange notes; and

prevailing interest rates.

We understand that one or more of the initial purchasers with respect to the initial notes presently intend to make a market in the exchange notes. However, they are not obligated to do so, and any market-making activity with respect to the exchange notes may be discontinued at any time without notice. In addition, any market-making activity will be subject to the limits imposed by the Securities Act and the Exchange Act and may be limited during the exchange offer or the pendency of an applicable shelf registration statement.

The issuance of the exchange notes may adversely affect the market for the initial notes.

To the extent the initial notes are tendered and accepted in the exchange offer, the trading market for the untendered and tendered but unaccepted initial notes could be adversely affected. Because we anticipate that most holders of the initial notes will elect to exchange their initial notes for exchange notes due to the absence of restrictions on the resale of exchange notes under the Securities Act, we anticipate that the liquidity of the market for any initial notes remaining after the completion of this exchange offer may be substantially limited. Please refer to the section in this prospectus entitled *The Exchange Offer Your Failure to Participate in the Exchange Offer May Have Adverse Consequences*.

Some persons who participate in the exchange offer must deliver a prospectus in connection with resales of the exchange notes.

Based on interpretations of the staff of the SEC contained in Exxon Capital Holdings Corp., SEC no-action letter (April 13, 1988), Morgan Stanley & Co. Inc., SEC no-action letter (June 5, 1991) and Shearman & Sterling, SEC

no-action letter (July 2, 1983), we believe that you may offer for resale the exchange notes without compliance with the registration and prospectus delivery requirements of the Securities Act. However, in some instances described in this prospectus under Plan of Distribution, you will remain obligated to comply with the registration and prospectus delivery requirements of the Securities Act to transfer your exchange notes. In these cases, if you transfer any exchange note without delivering a prospectus meeting the requirements of the Securities Act or without an exemption from registration of your exchange notes under the Securities Act, you may incur liability under the Securities Act. We do not and will not assume, or indemnify you against, this liability.

Risks Related To Our Business

Our substantial indebtedness may limit our financial and operating flexibility, and we may incur additional debt, which could increase the risks associated with our substantial indebtedness.

We have, and we expect to continue to have, a significant amount of indebtedness. As of June 28, 2015, we had total indebtedness under the Secured Credit Facilities, the 2020/2022 Notes, the notes and other debt instruments of approximately \$4,402.3 billion. Our substantial indebtedness has had, and could continue to have, material adverse consequences for our business, and may:

require us to dedicate a large portion of our cash flow to pay principal and interest on our indebtedness, which will reduce the availability of our cash flow to fund working capital, capital expenditures, research and development expenditures and other business activities;

increase our vulnerability to general adverse economic and industry conditions;

limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;

restrict our ability to make strategic acquisitions, dispositions or to exploit business opportunities;

place us at a competitive disadvantage compared to our competitors that have less debt; and

limit our ability to borrow additional funds (even when necessary to maintain adequate liquidity) or dispose of assets.

Under the Secured Credit Facilities and the Indentures, we may incur additional indebtedness. If new debt is added to our existing debt levels, the related risks that we now face would increase.

Furthermore, a substantial portion of our debt bears interest at variable rates. If market interest rates increase, the interest rate on our variable rate debt will increase and will create higher debt service requirements, which would adversely affect our cash flow and could adversely impact our results of operations. While we may enter into agreements limiting our exposure to higher debt service requirements, any such agreements may not offer complete protection from this risk.

Restrictive covenants in the Secured Credit Facilities and the Indentures may restrict our ability to pursue our business strategies.

The Secured Credit Facilities and the Indentures restrict, among other things, asset dispositions, mergers and acquisitions, dividends, stock repurchases and redemptions, other restricted payments and indebtedness, loans and investments, liens and affiliate transactions. The Secured Credit Facilities and the Indentures also contain customary events of default. These covenants could among other things, limit our ability to fund future working capital and

capital expenditures, engage in future acquisitions or development activities, or otherwise realize the value of our assets and opportunities fully. In addition, the Secured Credit Facilities and the Indentures require us to dedicate a portion of cash flow from operations to payments on debt and the Revolving Credit Facility contains financial covenants relating to maximum leverage. Such requirements and covenants could limit the flexibility of our restricted entities in planning for, or reacting to, changes in the industries in which they operate. Our ability to comply with these covenants is subject to certain events outside of our control. If we are unable to comply with these covenants, the lenders under our Secured Credit Facilities could terminate their commitments and the lenders under our Secured Credit Facilities or the holders of the 2020/2022 Notes or the notes could accelerate repayment of our outstanding borrowings and, in either case, we may be unable to obtain adequate refinancing of outstanding borrowings on favorable terms or at all. If we are unable to repay outstanding borrowings when due, the lenders under the Secured Credit Facilities will also have the right to proceed against the collateral granted to them to secure the indebtedness owed to them. If our obligations under the Secured Credit Facilities are accelerated, we cannot assure you that our assets would be sufficient to repay in full such indebtedness.

We face risks related to the current economic environment.

The economic environment and related turmoil in the global financial system between 2008 and 2012 had an impact on our business and financial condition, and we may face additional challenges if economic and financial market conditions deteriorate in the future.

Global economic conditions have significantly impacted economic markets within certain sectors, with financial services and retail businesses being particularly impacted. Our ability to generate revenue depends significantly on discretionary consumer spending. It is difficult to predict new general economic conditions that could impact consumer and customer demand for our products or our ability to manage normal commercial relationships with our customers, suppliers and creditors. A number of negative economic factors, including constraints on the supply of credit to households, uncertainty and weakness in the labor market and general consumer fears of a new economic downturn could have a negative impact on discretionary consumer spending. If the economy deteriorates or fails to further improve, our business could be negatively impacted, including as a result of reduced demand for our products or supplier or customer disruptions. Any weakness in discretionary consumer spending could have a material adverse effect on our revenues, results of operations and financial condition. In addition, our ability to access the capital markets may be restricted at a time when it could be necessary or beneficial to do so, which could have an impact on our flexibility to react to changing economic and business conditions.

In the last few years, concern over continuing high unemployment, stagnant economic performance and government debt levels in many European Union countries caused significant fluctuations of the Euro relative to other currencies, such as the U.S. dollar. Continued weakness of the European economy could lead to a decrease in consumer confidence, which could cause reductions in discretionary spending and demand for our products. Furthermore, sovereign debt issues could also lead to further significant, and potentially longer-term, economic issues such as reduced economic growth and devaluation of the Euro against the U.S. dollar, any of which could adversely affect our business, financial conditions and operating results.

We depend on key personnel and may not be able to retain those employees or recruit additional qualified personnel.

We are highly dependent on the continuing efforts of our senior management team and other key personnel. Our business, financial condition and results of operations could be materially adversely affected if we lose any of these persons and are unable to attract and retain qualified replacements.

We participate in very competitive markets and we may not be able to compete successfully, causing us to lose market share and sales.

The markets in which we participate are very competitive. In the consumer battery market, our primary competitors are Duracell (a brand of Procter & Gamble), Energizer and Panasonic (a brand of Matsushita). In the electric shaving and grooming and electric personal care product markets, our primary competitors are Braun (a brand of Procter & Gamble), Norelco (a brand of Philips), and Vidal Sassoon and Revlon (brands of Helen of Troy). In the pet supplies market, our primary competitors are Mars, Hartz and Central Garden & Pet. In the Home and Garden Business, our principal national competitors are Scotts, Central Garden & Pet and S.C. Johnson. Our principal national competitors within our small appliances product category include Jarden Corporation, DeLonghi America, Euro-Pro Operating LLC, Metro Thebe, Inc., (d/b/a HWI Breville) NACCO Industries, Inc. (Hamilton Beach) and SEB S.A. In the hardware and home improvement industry, our principal competitors are Schlage, a division of Ingersoll-Rand, Masco, Fortune Brands, Kohler and American Standard. In each of these markets, we also face competition from numerous other companies. In addition, in a number of our product lines, we compete with our retail customers, who

use their own private label brands, and with distributors and foreign manufacturers of unbranded products. Significant new competitors or increased competition from existing competitors may adversely affect our business, financial condition and results of our operations.

Table of Contents

We compete with our competitors for consumer acceptance and limited shelf space based upon brand name recognition, perceived product quality, price, performance, product features and enhancements, product packaging and design innovation, as well as creative marketing, promotion and distribution strategies, and new product introductions. Our ability to compete in these consumer product markets may be adversely affected by a number of factors, including, but not limited to, the following:

We compete against many well-established companies that may have substantially greater financial and other resources, including personnel and research and development, and greater overall market share than us.

In some key product lines, our competitors may have lower production costs and higher profit margins than us, which may enable them to compete more aggressively in offering retail discounts, rebates and other promotional incentives.

Technological advancements, product improvements or effective advertising campaigns by competitors may weaken consumer demand for our products.

Consumer purchasing behavior may shift to distribution channels, including to online retailers, where we and our customers do not have a strong presence.

Consumer preferences may change to lower margin products or products other than those we market.

We may not be successful in the introduction, marketing and manufacture of any new products or product innovations or be able to develop and introduce, in a timely manner, innovations to our existing products that satisfy customer needs or achieve market acceptance.

Some competitors may be willing to reduce prices and accept lower profit margins to compete with us. As a result of this competition, we could lose market share and sales, or be forced to reduce our prices to meet competition. If our product offerings are unable to compete successfully, our sales, results of operations and financial condition could be materially and adversely affected. In addition, we may be unable to implement changes to our products or otherwise adapt to changing consumer trends. If we are unable to respond to changing consumer trends, our operating results and financial condition could be adversely affected.

Sales of certain of our products are seasonal and may cause our operating results and working capital requirements to fluctuate.

On a consolidated basis our financial results are approximately equally weighted between quarters, however, sales of certain product categories tend to be seasonal. Sales in the consumer battery, electric shaving and grooming and electric personal care product categories, particularly in North America, tend to be concentrated in the December holiday season (our first fiscal quarter). Demand for hardware and home improvement products increases during the spring and summer construction period (our third and fourth fiscal quarters) and demand for pet supplies products remains fairly constant throughout the year. Demand for home and garden control products typically peaks during the first six months of the calendar year (our second and third fiscal quarters). Small Appliances peaks from

July through December primarily due to the increased demand by customers in the late summer for back-to-school sales and in the fall for the holiday season. As a result of this seasonality, our inventory and working capital needs fluctuate significantly throughout the year. In addition, orders from retailers are often made late in the period preceding the applicable peak season, making forecasting of production schedules and inventory purchases difficult. If we are unable to accurately forecast and prepare for customer orders or our working capital needs, or there is a general downturn in business or economic conditions during these periods, our business, financial condition and results of operations could be materially and adversely affected.

Adverse weather conditions during our peak selling season for our home and garden control products could have a material adverse effect on our Home and Garden Business.

Weather conditions have a significant impact on the timing and volume of sales of certain of our lawn and garden and household insecticide and repellent products. For example, periods of dry, hot weather can decrease

Table of Contents

insecticide sales, while periods of cold and wet weather can slow sales of herbicides. Adverse weather conditions during the first six months of the calendar year (our second and third fiscal quarters), when demand for home and garden control products typically peaks, could have a material adverse effect on our home and garden business and our financial results during such period.

We are subject to significant international business risks that could hurt our business and cause our results of operations to fluctuate.

Approximately 40% of our net sales for the fiscal year ended September 30, 2014 were to customers outside of the U.S. Our pursuit of international growth opportunities may require significant investments for an extended period before returns on these investments, if any, are realized. Our international operations are subject to risks including, among others:

currency fluctuations, including, without limitation, fluctuations in the foreign exchange rate of the Euro, British Pound, Brazilian Real, Canadian Dollar, Australian Dollar, Japanese Yen and the Mexican Peso;

changes in the economic conditions or consumer preferences or demand for our products in these markets;

the risk that because our brand names may not be locally recognized, we must spend significant amounts of time and money to build brand recognition without certainty that we will be successful;

labor unrest;

political and economic instability, as a result of war, terrorist attacks, pandemics, natural disasters or otherwise;

lack of developed infrastructure;

longer payment cycles and greater difficulty in collecting accounts;

restrictions on transfers of funds;

import and export duties and quotas, as well as general transportation costs;

changes in domestic and international customs and tariffs;

changes in foreign labor laws and regulations affecting our ability to hire and retain employees;

inadequate protection of intellectual property in foreign countries;

unexpected changes in regulatory environments;

difficulty in complying with foreign law; and

adverse tax consequences.

The foregoing factors may have a material adverse effect on our ability to increase or maintain our supply of products, financial condition or results of operations.

Our products utilize certain key raw materials; any significant increase in the price of, or change in supply and demand for, these raw materials could have a material and adverse effect on our business, financial condition and profits.

The principal raw materials used to produce our products including zinc powder, brass, electrolytic manganese dioxide powder, petroleum-based plastic materials, steel, aluminum, copper and corrugated materials (for packaging) are sourced either on a global or regional basis by us or our suppliers, and the prices of those raw materials are susceptible to price fluctuations due to supply and demand trends, energy costs, transportation

Table of Contents

costs, government regulations, duties and tariffs, changes in currency exchange rates, price controls, general economic conditions and other unforeseen circumstances. In particular, during the years 2012 and 2013, we experienced extraordinary price increases for raw materials, particularly as a result of strong demand from China. Although we may increase the prices of certain of our goods to our customers, we may not be able to pass all of these cost increases on to our customers. As a result, our margins may be adversely impacted by such cost increases. We cannot provide any assurance that our sources of supply will not be interrupted due to changes in worldwide supply of or demand for raw materials or other events that interrupt material flow, which may have an adverse effect on our profitability and results of operations.

We regularly engage in forward purchase and hedging derivative transactions in an attempt to effectively manage and stabilize some of the raw material costs we expect to incur over the next 12 to 24 months. However, our hedging positions may not be effective, or may not anticipate beneficial trends, in a particular raw material market or may, as a result of changes in our business, no longer be useful for us. In addition, for certain of the principal raw materials we use to produce our products, such as electrolytic manganese dioxide powder, there are no available effective hedging markets. If these efforts are not effective or expose us to above average costs for an extended period of time, and we are unable to pass our raw materials costs on to our customers, our future profitability may be materially and adversely affected. Furthermore, with respect to transportation costs, certain modes of delivery are subject to fuel surcharges which are determined based upon the current cost of diesel fuel in relation to pre-established agreed upon costs. We may be unable to pass these fuel surcharges on to our customers, which may have an adverse effect on our profitability and results of operations.

In addition, we have exclusivity arrangements and minimum purchase requirements with certain of our suppliers for the Home and Garden Business, which increase our dependence upon and exposure to those suppliers. Some of those agreements include caps on the price we pay for our supplies and in certain instances, these caps have allowed us to purchase materials at below market prices. When we attempt to renew those contracts, the other parties to the contracts may not be willing to include or may limit the effect of those caps and could even attempt to impose above market prices in an effort to make up for any below market prices paid by us prior to the renewal of the agreement. Any failure to timely obtain suitable supplies at competitive prices could materially adversely affect our business, financial condition and results of operations.

We may not be able to fully utilize our U.S. net operating loss carryforwards.

As of September 30, 2014, we had U.S. federal net operating loss carryforwards (NOLs) of approximately \$1,084 million and tax benefits related to state NOLs of \$70 million. These net operating loss carryforwards expire through years ending in 2034. As of September 30, 2014, we determined that it continues to be more likely than not that the U.S. federal and most of the U.S. state net deferred tax asset, will not be realized in the future and as such recorded a full valuation allowance to offset the net U.S. federal and most of the U.S. state deferred tax asset, including Spectrum Brands' NOLs. In addition, Spectrum Brands has had changes of ownership, as defined under Section 382 of the Internal Revenue Code (the IRC) of 1986, as amended, that continue to subject a significant amount of Spectrum Brands' U.S. NOLs and other tax attributes to certain limitations.

As a consequence of the merger of Salton, Inc. and Applica Incorporated in December 2007 (which created Russell Hobbs, Inc.), as well as earlier business combinations and issuances of common stock consummated by both companies, use of the tax benefits of Russell Hobbs, Inc.'s U.S. NOLs is also subject to limitations imposed by Section 382 of the IRC. We expect that a significant portion of these carryforwards, if any, will not be available to offset future taxable income. In addition, use of Russell Hobbs, Inc.'s NOLs and tax credit carryforwards is dependent upon both Russell Hobbs, Inc. and us achieving profitable results in the future. Russell Hobbs Inc.'s U.S. NOLs were subject to a full valuation allowance at September 30, 2014.

Edgar Filing: National Openings, LLC - Form S-4

As of September 30, 2014, we estimate that approximately \$302 million of the Spectrum Brands and Russell Hobbs, Inc. U.S. federal NOLs and tax benefits of \$17 million from Spectrum Brands and Russell Hobbs, Inc.

Table of Contents

state NOLs would expire unused even if the Company generates sufficient income to otherwise use all its NOLs, due to the limitation in Section 382 of the IRC.

If we are unable to fully utilize our NOLs, other than those restricted under Section 382 of the IRC, as discussed above, to offset taxable income generated in the future, our results of operations could be materially and negatively impacted.

Consolidation of retailers and our dependence on a small number of key customers for a significant percentage of our sales may negatively affect our business, financial condition and results of operations.

As a result of consolidation of retailers and consumer trends toward national mass merchandisers, a significant percentage of our sales are attributable to a very limited group of customers. Our largest customer accounted for approximately 16% of our consolidated net sales for the fiscal year ended September 30, 2014. As these mass merchandisers and retailers grow larger and become more sophisticated, they may demand lower pricing, special packaging or impose other requirements on product suppliers. These business demands may relate to inventory practices, logistics or other aspects of the customer-supplier relationship. Because of the importance of these key customers, demands for price reductions or promotions, reductions in their purchases, changes in their financial condition or loss of their accounts could have a material adverse effect on our business, financial condition and results of operations. See **Risks Related to the AAG Acquisition** We and AAG have similar major customers and the loss of any significant customer may adversely affect our results of operations.

Although we have long-established relationships with many of our customers, we do not have long-term agreements with them and purchases are generally made through the use of individual purchase orders. Any significant reduction in purchases, failure to obtain anticipated orders or delays or cancellations of orders by any of these major customers, or significant pressure to reduce prices from any of these major customers, could have a material adverse effect on our business, financial condition and results of operations. Additionally, a significant deterioration in the financial condition of the retail industry in general, the bankruptcy of any of our customers or if any of our customers were to leave the business, could have a material adverse effect on our sales and profitability.

In addition, as a result of the desire of retailers to more closely manage inventory levels, there is a growing trend among them to purchase products on a just-in-time basis. Due to a number of factors, including (i) manufacturing lead-times, (ii) seasonal purchasing patterns and (iii) the potential for material price increases, we may be required to shorten our lead-time for production and more closely anticipate our retailers and customers demands, which could in the future require us to carry additional inventories and increase our working capital and related financing requirements. This may increase the cost of warehousing inventory or result in excess inventory becoming difficult to manage, unusable or obsolete. In addition, if our retailers significantly change their inventory management strategies, we may encounter difficulties in filling customer orders or in liquidating excess inventories, or may find that customers are cancelling orders or returning products, which may have a material adverse effect on our business.

Furthermore, we primarily sell branded products and a move by one or more of our large customers to sell significant quantities of private label products, which we do not produce on their behalf and which directly compete with our products, could have a material adverse effect on our business, financial condition and results of operations.

As a result of our international operations, we face a number of risks related to exchange rates and foreign currencies.

Our international sales and certain of our expenses are transacted in foreign currencies. During the fiscal year ended September 30, 2014, approximately 40% of our net sales and operating expenses were denominated in foreign

currencies. We expect that the amount of our revenues and expenses transacted in foreign currencies

Table of Contents

will increase as our Latin American, European and Asian operations grow and as a result of acquisitions in these markets and, as a result, our exposure to risks associated with foreign currencies could increase accordingly. Significant changes in the value of the U.S. dollar in relation to foreign currencies will affect our cost of goods sold and our operating margins and could result in exchange losses or otherwise have a material effect on our business, financial condition and results of operations. Changes in currency exchange rates may also affect our sales to, purchases from and loans to our subsidiaries as well as sales to, purchases from and bank lines of credit with our customers, suppliers and creditors that are denominated in foreign currencies.

We source many products from China and other Asian countries. To the extent the Chinese Renminbi (RMB) or other currencies appreciate with respect to the U.S. dollar, we may experience fluctuations in our results of operations. Since 2005, the RMB has no longer been pegged to the U.S. dollar at a constant exchange rate and instead fluctuates versus a basket of currencies. Although the People's Bank of China regularly intervenes in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate, the RMB may appreciate or depreciate within a flexible peg range against the U.S. dollar in the medium to long term. Moreover, it is possible that in the future Chinese authorities may lift restrictions on fluctuations in the RMB exchange rate and lessen intervention in the foreign exchange market.

While we may enter into hedging transactions in the future, the availability and effectiveness of these transactions may be limited, and we may not be able to successfully hedge our exposure to currency fluctuations. Further, we may not be successful in implementing customer pricing or other actions in an effort to mitigate the impact of currency fluctuations and, thus, our results of operations may be adversely impacted.

Our international operations may expose us to risks related to compliance with the laws and regulations of foreign countries.

We are subject to three EU Directives that may have a material impact on our business: Restriction of the Use of Hazardous Substances in Electrical and Electronic Equipment, Waste of Electrical and Electronic Equipment and the Directive on Batteries and Accumulators and Waste Batteries, discussed below. Restriction of the Use of Hazardous Substances in Electrical and Electronic Equipment requires us to eliminate specified hazardous materials from products we sell in EU member states. Waste of Electrical and Electronic Equipment requires us to collect and treat, dispose of or recycle certain products we manufacture or import into the EU at our own expense. The EU Directive on Batteries and Accumulators and Waste Batteries bans heavy metals in batteries by establishing maximum quantities of heavy metals in batteries and mandates waste management of these batteries, including collection, recycling and disposal systems, with the costs imposed upon producers and importers such as us. The costs associated with maintaining compliance or failing to comply with the EU Directives may harm our business. For example:

Although contracts with our suppliers address related compliance issues, we may be unable to procure appropriate Restriction of the Use of Hazardous Substances in Electrical and Electronic Equipment compliant material in sufficient quantity and quality and/or be able to incorporate it into our product procurement processes without compromising quality and/or harming our cost structure.

We may face excess and obsolete inventory risk related to non-compliant inventory that we may hold for which there is reduced demand, and we may need to write down the carrying value of such inventories.

We may be unable to sell certain existing inventories of our batteries in Europe and other countries that have adopted similar regulations.

Many of the developing countries in which we operate do not have significant governmental regulation relating to environmental safety, occupational safety, employment practices or other business matters routinely regulated in the U.S. and EU or may not rigorously enforce such regulation. As these countries and their economies develop, it is possible that new regulations or increased enforcement of existing regulations may

Table of Contents

increase the expense of doing business in these countries. In addition, social legislation in many countries in which we operate may result in significantly higher expenses associated with labor costs, terminating employees or distributors and closing manufacturing facilities. Increases in our costs as a result of increased regulation, legislation or enforcement could materially and adversely affect our business, results of operations and financial condition.

We may not be able to adequately establish and protect our intellectual property rights, and the infringement or loss of our intellectual property rights could harm our business.

To establish and protect our intellectual property rights, we rely upon a combination of national, foreign and multi-national patent, trademark and trade secret laws, together with licenses, confidentiality agreements and other contractual arrangements. The measures that we take to protect our intellectual property rights may prove inadequate to prevent third parties from infringing or misappropriating our intellectual property. We may need to resort to litigation to enforce or defend our intellectual property rights. If a competitor or collaborator files a patent application claiming technology also claimed by us, or a trademark application claiming a trademark, service mark or trade dress also used by us, in order to protect our rights, we may have to participate in expensive and time consuming opposition or interference proceedings before the U.S. Patent and Trademark Office or a similar foreign agency. Similarly, our intellectual property rights may be challenged by third parties or invalidated through administrative process or litigation. The costs associated with protecting intellectual property rights, including litigation costs, may be material. Furthermore, even if our intellectual property rights are not directly challenged, disputes among third parties could lead to the weakening or invalidation of our intellectual property rights, or our competitors may independently develop technologies that are substantially equivalent or superior to our technology. Obtaining, protecting and defending intellectual property rights can be time consuming and expensive, and may require us to incur substantial costs, including the diversion of the time and resources of management and technical personnel.

Moreover, the laws of certain foreign countries in which we operate or may operate in the future do not protect, and the governments of certain foreign countries do not enforce, intellectual property rights to the same extent as do the laws and government of the U.S., which may negate our competitive or technological advantages in such markets. Also, some of the technology underlying our products is the subject of nonexclusive licenses from third parties. As a result, this technology could be made available to our competitors at any time. If we are unable to establish and then adequately protect our intellectual property rights, our business, financial condition and results of operations could be materially and adversely affected.

We license various trademarks, trade names and patents from third parties for certain of our products. These licenses generally place marketing obligations on us and require us to pay fees and royalties based on net sales or profits. Typically, these licenses may be terminated if we fail to satisfy certain minimum sales obligations or if we breach the terms of the license. The termination of these licensing arrangements could adversely affect our business, financial condition and results of operations.

In our Global Batteries & Appliances segment, we license the use of the Black & Decker brand for marketing in certain small household appliances in North America, South America (excluding Brazil) and the Caribbean. In July 2014, The Black & Decker Corporation (BDC) extended the license agreement through December 2018. The failure to renew the license agreement with BDC or to enter into a new agreement on acceptable terms could have a material adverse effect on our financial condition, liquidity and results of operations. Additionally, in connection with our acquisition of the HHI Business, we received a limited right to use certain Stanley Black & Decker trademarks, brand names and logos in marketing our products and services for only five years. Pursuant to a transitional trademark license agreement, Stanley Black & Decker granted us the right to use the Stanley and Black & Decker marks and logos, and certain other marks and logos, for up to five years after the completion of the HHI Business acquisition in connection with certain products and services. When our right to use these Stanley Black & Decker trademarks, brand

names and logos expires, we may not be able to maintain or enjoy comparable name recognition or status under our new brand. If we are

Table of Contents

unable to successfully manage the transition of our business to our new brand, our reputation among our customers could be adversely affected, and our revenue and profitability could decline.

Claims by third parties that we are infringing their intellectual property and other litigation could adversely affect our business.

From time to time in the past we have been subject to claims that we are infringing the intellectual property of others. We currently are the subject of such claims and it is possible that third parties will assert infringement claims against us in the future. An adverse finding against us in these or similar trademark or other intellectual property litigations may have a material adverse effect on our business, financial condition and results of operations. Any such claims, with or without merit, could be time consuming and expensive, and may require us to incur substantial costs, including the diversion of the resources of management and technical personnel, cause product delays or require us to enter into licensing or other agreements in order to secure continued access to necessary or desirable intellectual property. If we are deemed to be infringing a third party's intellectual property and are unable to continue using that intellectual property as we had been, our business and results of operations could be harmed if we are unable to successfully develop non-infringing alternative intellectual property on a timely basis or license non-infringing alternatives or substitutes, if any exist, on commercially reasonable terms. In addition, an unfavorable ruling in intellectual property litigation could subject us to significant liability, as well as require us to cease developing, manufacturing or selling the affected products or using the affected processes or trademarks. Any significant restriction on our proprietary or licensed intellectual property that impedes our ability to develop and commercialize our products could have a material adverse effect on our business, financial condition and results of operations.

Our dependence on a few suppliers and one of our U.S. facilities for certain of our products makes us vulnerable to a disruption in the supply of our products.

Although we have long-standing relationships with many of our suppliers, we generally do not have long-term contracts with them. An adverse change in any of the following could have a material adverse effect on our business, financial condition and results of operations:

our ability to identify and develop relationships with qualified suppliers;

the terms and conditions upon which we purchase products from our suppliers, including applicable exchange rates, transport and other costs, our suppliers' willingness to extend credit to us to finance our inventory purchases and other factors beyond our control;

the financial condition of our suppliers;

political and economic instability in the countries in which our suppliers are located, as a result of war, terrorist attacks, pandemics, natural disasters or otherwise;

our ability to import outsourced products;

our suppliers noncompliance with applicable laws, trade restrictions and tariffs; or

our suppliers ability to manufacture and deliver outsourced products according to our standards of quality on a timely and efficient basis.

If our relationship with one of our key suppliers is adversely affected, we may not be able to quickly or effectively replace such supplier and may not be able to retrieve tooling, molds or other specialized production equipment or processes used by such supplier in the manufacture of our products. The loss of one or more of our suppliers, a material reduction in their supply of products or provision of services to us or extended disruptions or interruptions in their operations could have a material adverse effect on our business, financial condition and results of operations.

Table of Contents

We manufacture the majority of our foil cutting systems for our shaving product lines, using specially designed machines and proprietary cutting technology, at our Portage, Wisconsin facility. In addition, we also manufacture the majority of our residential door locks at our Subic Bay, Philippines facility. Our home and garden products are mainly manufactured from our St. Louis, Missouri, facility. Damage to these facilities, or prolonged interruption in the operations of these facilities whether for repairs, as a result of labor difficulties or for other reasons, could have a material adverse effect on our ability to manufacture and sell our foil shaving, residential door locks and home and garden products which could in turn harm our business, financial condition and results of operations.

We face risks related to our sales of products obtained from third-party suppliers.

We sell a significant number of products that are manufactured by third party suppliers over which we have no direct control. While we have implemented processes and procedures to try to ensure that the suppliers we use are complying with all applicable regulations, there can be no assurances that such suppliers in all instances will comply with such processes and procedures or otherwise with applicable regulations. Noncompliance could result in our marketing and distribution of contaminated, defective or dangerous products which could subject us to liabilities and could result in the imposition by governmental authorities of procedures or penalties that could restrict or eliminate our ability to purchase products from non-compliant suppliers. Any or all of these effects could adversely affect our business, financial condition and results of operations.

In addition, the Dodd-Frank Wall Street Reform and Consumer Protection Act includes provisions regarding certain minerals and metals, known as conflict minerals, mined from the Democratic Republic of Congo and adjoining countries. These provisions require companies to undertake due diligence procedures and report on the use of conflict minerals in its products, including products manufactured by third parties. Compliance with these provisions will cause us to incur costs to certify that our supply chain is conflict free and we may face difficulties if our suppliers are unwilling or unable to verify the source of their materials. Our ability to source these minerals and metals may also be adversely impacted. In addition, our customers may require that we provide them with a certification and our inability to do so may disqualify us as a supplier.

Class action and derivative action lawsuits and other investigations, regardless of their merits, could have an adverse effect on our business, financial condition and results of operations.

We and certain of our officers and directors have been named in the past, and, may be named in the future, as defendants of class action and derivative action lawsuits. In the past, we have also received requests for information from government authorities. Regardless of their subject matter or merits, class action lawsuits and other government investigations may result in significant cost to us, which may not be covered by insurance, may divert the attention of management or may otherwise have an adverse effect on our business, financial condition and results of operations.

We may be exposed to significant product liability claims which our insurance may not cover and which could harm our reputation.

In the ordinary course of our business, we may be named as a defendant in lawsuits involving product liability claims. In any such proceeding, plaintiffs may seek to recover large and sometimes unspecified amounts of damages and the matters may remain unresolved for several years. Any such matters could have a material adverse effect on our business, results of operations and financial condition if we are unable to successfully defend against or settle these matters or if our insurance coverage is insufficient to satisfy any judgments against us or settlements relating to these matters. Although we have product liability insurance coverage and an excess umbrella policy, our insurance policies may not provide coverage for certain, or any, claims against us or may not be sufficient to cover all possible liabilities. Additionally, we do not maintain product recall insurance. We may not be able to maintain such insurance on

acceptable terms, if at all, in the future. Moreover, any adverse publicity arising from claims made against us, even if the claims were not successful, could adversely affect the

Table of Contents

reputation and sales of our products. In particular, product recalls or product liability claims challenging the safety of our products may result in a decline in sales for a particular product and could damage the reputation or the value of the related brand. This could be true even if the claims themselves are ultimately settled for immaterial amounts. This type of adverse publicity could occur and product liability claims could be made in the future.

We may incur material capital and other costs due to environmental liabilities.

We are subject to a broad range of federal, state, local, foreign and multi-national laws and regulations relating to the environment. These include laws and regulations that govern:

discharges to the air, water and land;

the handling and disposal of solid and hazardous substances and wastes; and

remediation of contamination associated with release of hazardous substances at our facilities and at off-site disposal locations.

Risk of environmental liability is inherent in our business. As a result, material environmental costs may arise in the future. In particular, we may incur capital and other costs to comply with increasingly stringent environmental laws and enforcement policies, such as the EU Directives: Restriction of the Use of Hazardous Substances in Electrical and Electronic Equipment, Waste of Electrical and Electronic Equipment and the Directive on Batteries and Accumulators and Waste Batteries, discussed above. Our international operations may expose us to risks related to compliance with the laws and regulations of foreign countries. See Our international operations may expose us to risks related to compliance with the laws and regulations of foreign countries.

Moreover, there are proposed international accords and treaties, as well as federal, state and local laws and regulations, that would attempt to control or limit the causes of climate change, including the effect of greenhouse gas emissions on the environment. In the event that the U.S. government or foreign governments enact new climate change laws or regulations or make changes to existing laws or regulations, compliance with applicable laws or regulations may result in increased manufacturing costs for our products, such as by requiring investment in new pollution control equipment or changing the ways in which certain of our products are made. We may incur some of these costs directly and others may be passed on to us from our third-party suppliers. Although we believe that we are substantially in compliance with applicable environmental laws and regulations at our facilities, we may not always be in compliance with such laws and regulations or any new laws and regulations in the future, which could have a material adverse effect on our business, financial condition and results of operations.

From time to time, we have been required to address the effect of historic activities on the environmental condition of our properties or former properties. We have not conducted invasive testing at all of our facilities to identify all potential environmental liability risks. Given the age of our facilities and the nature of our operations, material liabilities may arise in the future in connection with our current or former facilities. If previously unknown contamination of property underlying or in the vicinity of our manufacturing facilities is discovered, we could be required to incur material unforeseen expenses. If this occurs, it may have a material adverse effect on our business, financial condition and results of operations. We are currently engaged in investigative or remedial projects at a few of our facilities and any liabilities arising from such investigative or remedial projects at such facilities may have a material effect on our business, financial condition and results of operations.

In addition, in connection with business acquisitions, we have assumed, and in connection with future acquisitions may assume in the future, certain potential environmental liabilities. To the extent we have not identified such environmental liabilities or to the extent the indemnifications obtained from our counterparties are insufficient to cover such environmental liabilities, these environmental liabilities could have a material adverse effect on our business.

Table of Contents

We are also subject to proceedings related to our disposal of industrial and hazardous material at off-site disposal locations or similar disposals made by other parties for which we are responsible as a result of our relationship with such other parties. These proceedings are under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) or similar state or foreign jurisdiction laws that hold persons who arranged for the disposal or treatment of such substances strictly liable for costs incurred in responding to the release or threatened release of hazardous substances from such sites, regardless of fault or the lawfulness of the original disposal. Liability under CERCLA is typically joint and several, meaning that a liable party may be responsible for all of the costs incurred in investigating and remediating contamination at a site. We occasionally are identified by federal or state governmental agencies as being a potentially responsible party for response actions contemplated at an off-site facility. At the existing sites where we have been notified of our status as a potentially responsible party, it is either premature to determine if our potential liability, if any, will be material or we do not believe that our liability, if any, will be material. We may be named as a potentially responsible party under CERCLA or similar state or foreign jurisdiction laws in the future for other sites not currently known to us, and the costs and liabilities associated with these sites may have a material adverse effect on our business, financial condition and results of operations.

Compliance with various public health, consumer protection and other regulations applicable to our products and facilities could increase our cost of doing business and expose us to additional requirements with which we may be unable to comply.

Certain of our products sold through, and facilities operated under, each of our business segments are regulated by the Environmental Protection Agency (EPA), the Food and Drug Administration (FDA) or other federal consumer protection and product safety agencies and are subject to the regulations such agencies enforce, as well as by similar state, foreign and multinational agencies and regulations. For example, in the U.S., all products containing pesticides must be registered with the EPA and, in many cases, similar state and foreign agencies before they can be manufactured or sold. Our inability to obtain, or the cancellation of, any registration could have an adverse effect on our business, financial condition and results of operations. The severity of the effect would depend on which products were involved, whether another product could be substituted and whether our competitors were similarly affected. We attempt to anticipate regulatory developments and maintain registrations of, and access to, substitute chemicals and other ingredients, but we may not always be able to avoid or minimize these risks.

As a distributor of consumer products in the U.S., certain of our products are also subject to the Consumer Product Safety Act, which empowers the U.S. Consumer Product Safety Commission (the Consumer Commission) to exclude from the market products that are found to be unsafe or hazardous. Under certain circumstances, the Consumer Commission could require us to repair, replace or refund the purchase price of one or more of our products, or we may voluntarily do so. Any additional repurchases or recalls of our products could be costly to us and could damage the reputation or the value of our brands. If we are required to remove, or we voluntarily remove our products from the market, our reputation or brands could be tarnished and we may have large quantities of finished products that could not be sold. Furthermore, failure to timely notify the Consumer Commission of a potential safety hazard can result in significant fines being assessed against us. Additionally, laws regulating certain consumer products exist in some states, as well as in other countries in which we sell our products, and more restrictive laws and regulations may be adopted in the future.

The Food Quality Protection Act (FQPA) established a standard for food-use pesticides, which is that a reasonable certainty of no harm will result from the cumulative effect of pesticide exposures. Under the FQPA, the EPA is evaluating the cumulative effects from dietary and non-dietary exposures to pesticides. The pesticides in certain of our products that are sold through the Home and Garden Business continue to be evaluated by the EPA as part of this program. It is possible that the EPA or a third party active ingredient registrant may decide that a pesticide we use in our products will be limited or made unavailable to us. We cannot predict the outcome or the severity of the effect of

the EPA's continuing evaluations of active ingredients used in our products.

Table of Contents

In addition, the use of certain pesticide products that are sold through our Home and Garden Business may, among other things, be regulated by various local, state, federal and foreign environmental and public health agencies. These regulations may require that only certified or professional users apply the product, that users post notices on properties where products have been or will be applied or that certain ingredients may not be used. Compliance with such public health regulations could increase our cost of doing business and expose us to additional requirements with which we may be unable to comply.

Any failure to comply with these laws or regulations, or the terms of applicable environmental permits, could result in us incurring substantial costs, including fines, penalties and other civil and criminal sanctions or the prohibition of sales of our pest control products. Environmental law requirements, and the enforcement thereof, change frequently, have tended to become more stringent over time and could require us to incur significant expenses.

Most federal, state and local authorities require certification by Underwriters Laboratory, Inc. (UL), an independent, not-for-profit corporation engaged in the testing of products for compliance with certain public safety standards, or other safety regulation certification prior to marketing electrical appliances. Foreign jurisdictions also have regulatory authorities overseeing the safety of consumer products. Our products may not meet the specifications required by these authorities. A determination that any of our products are not in compliance with these rules and regulations could result in the imposition of fines or an award of damages to private litigants.

Public perceptions that some of the products we produce and market are not safe could adversely affect us.

On occasion, customers and some current or former employees have alleged that some products failed to perform up to expectations or have caused damage or injury to individuals or property. Public perception that any of our products are not safe, whether justified or not, could impair our reputation, damage our brand names and have a material adverse effect on our business, financial condition and results of operations. In addition, we rely on certain third party trademarks, brand names and logos which we do not have exclusive use of. Public perception that any such third party trademarks, brand names and logos used by us are not safe, whether justified or not, could have a material adverse effect on our business, financial condition and results of operations.

If we are unable to negotiate satisfactory terms to continue existing or enter into additional collective bargaining agreements, we may experience an increased risk of labor disruptions and our results of operations and financial condition may suffer.

As of June 28, 2015, approximately 13% of our total labor force is covered by collective bargaining agreements. There are three collective bargaining agreements that will expire through the end of our fiscal year ending September 30, 2016, which cover approximately 50% of the labor force under collective bargaining agreements, or approximately 6% of our total labor force. While we currently expect to negotiate continuations to the terms of these agreements, there can be no assurances that we will be able to obtain terms that are satisfactory to us or otherwise to reach agreement at all with the applicable parties. In addition, in the course of our business, we may also become subject to additional collective bargaining agreements. These agreements may be on terms that are less favorable than those under our current collective bargaining agreements. Increased exposure to collective bargaining agreements, whether on terms more or less favorable than our existing collective bargaining agreements, could adversely affect the operation of our business, including through increased labor expenses. While we intend to comply with all collective bargaining agreements to which we are subject, there can be no assurances that we will be able to do so and any noncompliance could subject us to disruptions in our operations and materially and adversely affect our results of operations and financial condition.

Significant changes in actual investment return on pension assets, discount rates and other factors could affect our results of operations, equity and pension contributions in future periods.

Our results of operations may be positively or negatively affected by the amount of income or expense we record for our defined benefit pension plans. U.S. Generally Accepted Accounting Principles (GAAP) requires

Table of Contents

that we calculate income or expense for the plans using actuarial valuations. These valuations reflect assumptions about financial markets and other economic conditions, which may change based on changes in key economic indicators. The most significant assumptions we use to estimate pension income or expense are the discount rate and the expected long-term rate of return on plan assets. In addition, we are required to make an annual measurement of plan assets and liabilities, which may result in a significant change to equity. Although pension expense and pension funding contributions are not directly related, key economic factors that affect pension expense would also likely affect the amount of cash we would contribute to pension plans as required under the Employee Retirement Income Security Act of 1974, as amended.

If our goodwill, indefinite-lived intangible assets or other long-term assets become impaired, we will be required to record additional impairment charges, which may be significant.

A significant portion of our long-term assets consist of goodwill, other indefinite-lived intangible assets and finite-lived intangible assets recorded as a result of past acquisitions as well as through fresh start reporting. We do not amortize goodwill and indefinite-lived intangible assets, but rather review them for impairment on a periodic basis or whenever events or changes in circumstances indicate that their carrying value may not be recoverable. We consider whether circumstances or conditions exist which suggest that the carrying value of our goodwill and other long-lived intangible assets might be impaired. If such circumstances or conditions exist, further steps are required in order to determine whether the carrying value of each of the individual assets exceeds its fair value. If analysis indicates that an individual asset's carrying value does exceed its fair value, the next step is to record a loss equal to the excess of the individual asset's carrying value over its fair value.

The steps required by GAAP entail significant amounts of judgment and subjectivity. Events and changes in circumstances that may indicate that there may be an impairment and which may indicate that interim impairment testing is necessary include, but are not limited to: strategic decisions to exit a business or dispose of an asset made in response to changes in economic, political and competitive conditions; the impact of the economic environment on the customer base and on broad market conditions that drive valuation considerations by market participants; our internal expectations with regard to future revenue growth and the assumptions we make when performing impairment reviews; a significant decrease in the market price of our assets; a significant adverse change in the extent or manner in which our assets are used; a significant adverse change in legal factors or the business climate that could affect our assets; an accumulation of costs significantly in excess of the amount originally expected for the acquisition of an asset; and significant changes in the cash flows associated with an asset. As a result of such circumstances, we may be required to record a significant charge to earnings in our financial statements during the period in which any impairment of our goodwill, indefinite-lived intangible assets or other long-term assets is determined. Any such impairment charges could have a material adverse effect on our business, financial condition and operating results.

If we are unable to protect the confidentiality of our proprietary information and know-how, the value of our technology, products and services could be harmed significantly.

We rely on trade secrets, know-how and other proprietary information in operating our business. If this information is not adequately protected, then it may be disclosed or used in an unauthorized manner. To the extent that consultants, key employees or other third parties apply technological information independently developed by them or by others to our proposed products, disputes may arise as to the proprietary rights to such information, which may not be resolved in our favor. The risk that other parties may breach confidentiality agreements or that our trade secrets become known or independently discovered by competitors, could harm us by enabling our competitors, who may have greater experience and financial resources, to copy or use our trade secrets and other proprietary information in the advancement of their products, methods or technologies. The disclosure of our trade secrets would impair our competitive position, thereby weakening demand for our products or services and harming our ability to maintain or

increase our customer base.

Table of Contents

Disruption or failures of our information technology systems could have a material adverse effect on our business.

Our information technology systems are susceptible to security breaches, operational data loss, general disruptions in functionality, and may not be compatible with new technology. We depend on our information technology systems for the effectiveness of our operations and to interface with our customers, as well as to maintain financial records and accuracy. Disruption or failures of our information technology systems could impair our ability to effectively and timely provide our services and products and maintain our financial records, which could damage our reputation and have a material adverse effect on our business.

Our acquisition and expansion strategy may not be successful.

Our growth strategy is based in part on growth through acquisitions, which poses a number of risks. We may not be successful in identifying appropriate acquisition candidates, consummating acquisitions on satisfactory terms or integrating any newly acquired or expanded business with our current operations. We may issue additional equity, incur long-term or short-term indebtedness, spend cash or use a combination of these for all or part of the consideration paid in future acquisitions or expansion of our operations. The execution of our acquisition and expansion strategy could entail repositioning or similar actions that in turn require us to record impairments, restructuring and other charges. Any such charges would reduce our earnings. We cannot guarantee that any future business acquisitions will be pursued or that any acquisitions that are pursued will be consummated.

Significant costs have been incurred and are expected to be incurred in connection with the consummation of recent and future business acquisitions and the integration of such acquired businesses with the Company into a combined company, including legal, accounting, financial advisory and other costs.

We expect to incur one-time costs in connection with integrating the operations, products and personnel of the Company and acquired businesses into a combined company, in addition to costs related directly to completing such acquisitions described below. We would expect similar costs to be incurred with any future acquisition. These costs may include expenditures for:

employee redeployment, relocation or severance;

integration of operations and information systems;

combination of research and development teams and processes; and

reorganization or closures of facilities.

In addition, we expect to incur a number of non-recurring costs associated with combining our operations with those of acquired businesses. Additional unanticipated costs may yet be incurred as we integrate our business with acquired businesses. Although we expect that the elimination of duplicative costs, as well as the realization of other efficiencies related to the integration of our operations with those of acquired businesses, may offset incremental transaction and transaction-related costs over time, this net benefit may not be achieved in the near term. Additionally, while we expect to benefit from leveraging distribution channels and brand names among us and our acquired businesses, we cannot assure you that we will achieve such benefits.

We may not realize the anticipated benefits of, and synergies from, our business acquisitions and may become responsible for certain liabilities and integration costs as a result.

Business acquisitions involve the integration of new businesses that have previously operated independently from us. The integration of our operations with those of acquired businesses is frequently expected to result in financial and operational benefits, including increased top line growth, margins, revenues and cost savings and be accretive to earnings per share, earnings before interest, taxes, depreciation and amortization and free cash flow

Table of Contents

before synergies. There can be no assurance, however, regarding when or the extent to which we will be able to realize these increased top line growth, margins, revenues, cost savings or accretions to earnings per share, earnings before interest, taxes, depreciation and amortization or free cash flow or other benefits. Integration may also be difficult, unpredictable, and subject to delay because of possible company culture conflicts and different opinions on technical decisions and product roadmaps. We will often be required to integrate or, in some cases, replace, numerous systems, including those involving management information, purchasing, accounting and finance, sales, billing, employee benefits, payroll and regulatory compliance, many of which may be dissimilar. In some instances, we and certain acquired businesses have served the same customers, and some customers may decide that it is desirable to have additional or different suppliers. Difficulties associated with the integration of acquired businesses could have a material adverse effect on our business.

We may also acquire partial or full ownership in businesses or may acquire rights to market and distribute particular products or lines of products. The acquisition of a business or the rights to market specific products or use specific product names may involve a financial commitment by us, either in the form of cash or equity consideration. In the case of a new license, such commitments are usually in the form of prepaid royalties and future minimum royalty payments. There is no guarantee that we will acquire businesses or product distribution rights that will contribute positively to our earnings. Anticipated synergies may not materialize, cost savings may be less than expected, sales of products may not meet expectations and acquired businesses may carry unexpected liabilities.

In addition, in connection with business acquisitions, we have assumed, and may assume in connection with future acquisitions, certain potential liabilities. To the extent such liabilities are not identified by us or to the extent the indemnifications obtained from third parties are insufficient to cover such liabilities, these liabilities could have a material adverse effect on our business.

Integrating our business with acquired businesses may divert our management's attention away from operations.

Successful integration of acquired businesses' operations, products and personnel with us may place a significant burden on our management and other internal resources. The diversion of management's attention, and any difficulties encountered in the transition and integration process, could harm our business, financial condition and operating results.

As a result of business acquisitions, we may not be able to retain key personnel or recruit additional qualified personnel, which could materially affect our business and require us to incur substantial additional costs to recruit replacement personnel.

We are highly dependent on the continuing efforts of our senior management team and other key personnel. As a result of business acquisitions, our current and prospective employees could experience uncertainty about their future roles. This uncertainty may adversely affect our ability to attract and retain key management, sales, marketing and technical personnel. Any failure to attract and retain key personnel could have a material adverse effect on our business. In addition, we currently do not maintain key person insurance covering any member of our management team.

If any of our key personnel or those of our acquired businesses were to join a competitor or form a competing company, existing and potential customers or suppliers could choose to form business relationships with that competitor instead of us. There can be no assurance that confidentiality, non-solicitation, non-competition or similar agreements signed by former directors, officers, employees or stockholders of us, our acquired businesses or our transactional counterparties will be effective in preventing a loss of business.

General customer uncertainty related to our business acquisitions could harm us.

Our customers may, in response to the announcement or consummation of a business acquisition, delay or defer purchasing decisions. If our customers delay or defer purchasing decisions, our revenues could materially decline or any anticipated increases in revenue could be lower than expected.

We are required to supply certain products and services to Stanley Black & Decker and its subsidiaries pursuant to the terms of certain supply agreements for a period of time after the completion of the HHI Business acquisition. Our provision of products and services under these agreements require us to dedicate resources of the HHI Business and may result in unfavorable results to us.

Certain products and services currently used by Stanley Black & Decker are produced and provided using equipment of the HHI Business which includes the acquired Tong Lung Metal Industry Co. Ltd. (the "TLM Business") that we acquired or certain equipment belonging to Stanley Black & Decker and its subsidiaries that will continue to be located for a period of time after the completion of the HHI Business acquisition at facilities operated by the HHI Business and the TLM Business and maintained by us pursuant to certain specifications. We and Stanley Black & Decker entered into supply agreements (each, a "Supply Agreement") whereby we provide Stanley Black & Decker and its subsidiaries with certain of these products and services for a period of time. This requires us to dedicate resources of the HHI Business and the TLM Business towards the provision of these products and services and may result in unfavorable results to us. These Supply Agreements are an accommodation to Stanley Black & Decker and its subsidiaries as part of the HHI Business acquisition, and the pricing of the products and services is on terms more favorable to Stanley Black & Decker and its subsidiaries than it would be in the ordinary course of business.

Risks Related to the AAG Acquisition

We face significant risks from the AAG Acquisition similar to risks generally associated with our acquisition and expansion strategy.

The AAG Acquisition subjects us to significant risks generally associated with our acquisition and expansion strategy. Significant costs have been incurred and are expected to be incurred in connection with the AAG Acquisition and our integration of AAG with our business, including legal, accounting, financial advisory and other costs. We may also not realize the anticipated benefits of, and synergies from, the AAG Acquisition and will be responsible for certain liabilities and integration costs as a result of the AAG Acquisition. As a result of the AAG Acquisition and other acquisitions, we may also not be able to retain key personnel or recruit additional qualified personnel, which could require us to incur substantial additional costs to recruit replacement personnel. General customer uncertainty, including our and AAG's customers, related to the AAG Acquisition could also harm us. Each of these general risks for acquisition and expansion activities, which are described in more detail under "Risks Related To Our Business," could result in the AAG Acquisition having a material adverse effect on our business.

We and AAG have similar major customers and the loss of any significant customer may adversely affect our results of operations.

A limited number of the same customers represents a large percentage of our and AAG's respective net sales. One of our largest customers accounted for approximately 23% of AAG's net sales for the twelve months ended December 31, 2014. AAG's next largest customer accounted for approximately 12% of net sales for the same period and no other customer accounted for more than 10% of AAG's net sales for the same period. The success of our and AAG's businesses depend, in part, on our ability to maintain our level of sales and product distribution through high-volume distributors, retailers, super centers and mass merchandisers.

Currently, neither we nor AAG have long-term supply agreements with a substantial number of our retail customers, including our largest customers. These high-volume stores and mass merchandisers frequently

reevaluate the products they carry. A decision by our major customers to discontinue or decrease the amount of products purchased from us, sell a national brand on an exclusive basis or change the manner of doing business with us, could reduce our revenues and materially adversely affect our results of operations. See Risks Related to our Business Consolidation of retailers and our dependence on a small number of key customers for a significant percentage of our sales may negatively affect our business, financial condition and results of operations.

A change in governmental regulations regarding the use of refrigerant gas R-134a or its potential future substitutes could have a material adverse effect on IDQ Sub's ability to sell its aftermarket A/C products.

The refrigerant R-134a is a critical component of IDQ Sub's aftermarket A/C products and is used in products which comprised approximately 90% of its gross sales in its fiscal year ended December 31, 2014. Older generation refrigerants such as R-12 (Freon) have been regulated for some time in the United States and elsewhere, due to concerns about their potential to contribute to ozone depletion. In recent years, refrigerants such as R-134a, which is an approved substitute for R-12, have also become the subject of regulatory focus due to their potential to contribute to global warming.

The European Union has passed regulations that require the phase out of R-134a in automotive cooling systems in new vehicles by 2017. In the United States, IDQ Sub has reported that it cannot predict what future action, if any, the EPA will take on the regulation of R-134a. But based on currently available information, it believes that it would take some time for suitable alternatives to R-134a to come into full-scale commercial production and therefore such alternatives would not be readily available for wide spread use in new car models. If the future use of R-134a is phased out or is limited or prohibited in jurisdictions in which we do business, the future market for IDQ Sub's products containing R-134a may be limited, which could have a material adverse impact on its results of operations, financial condition, and cash flows.

In addition, regulations may be enacted governing the packaging, use and disposal of IDQ Sub's products containing refrigerants. For example, regulations are currently in effect in California that govern the sale and distribution of products containing R-134a. While IDQ Sub has reported that it is not aware of any noncompliance with such regulations, its failure to comply with these or possible future regulations in California, or elsewhere, could result in material fines or costs or its inability to sell its products in those markets, which could have a material adverse impact on its results of operations, financial condition and cash flows. If substitutes for R-134a become widely used in A/C systems and their use for DIY and retrofit purposes are not approved by the EPA, it could have a material adverse effect on IDQ Sub's results of operations, financial condition and cash flows. In addition, the cost of HFO-1234yf, the leading long-term alternative to R-134a being proposed in the United States and the European Union for use in the A/C systems of new vehicles, will likely be higher than that of R-134a. If HFO-1234yf becomes widely used and IDQ Sub is able to develop products using HFO-1234yf, but is unable to price its products to reflect the increased cost of HFO-1234yf, it could have a material adverse effect on its results of operations, financial condition and cash flow.

All of IDQ Sub's products are produced at one facility, and a significant disruption or disaster at such a facility could have a material adverse effect on its results of operations.

IDQ Sub's manufacturing facility consists of one site which is located in Garland, Texas and thus it is dependent upon the continued safe operation of this facility. Its facility is subject to various hazards associated with the manufacturing, handling, storage, and transportation of chemical materials and products, including human error, leaks and ruptures, explosions, floods, fires, inclement weather and natural disasters, power loss or other infrastructure failures, mechanical failure, unscheduled downtime, regulatory requirements, the loss of certifications, technical difficulties, labor disputes, inability to obtain material, equipment or transportation, environmental hazards such as remediation, chemical spills, discharges or releases of toxic or hazardous substances or gases, and other risks. Many of these

hazards could cause personal injury and loss of life, severe damage to, or destruction of, property and equipment and environmental contamination. In addition, the

Table of Contents

occurrence of material operating problems at IDQ Sub's facility due to any of these hazards could cause a disruption in the production of its products. IDQ Sub may also encounter difficulties or interruption as a result of the application of enhanced manufacturing technologies or changes to production lines to improve IDQ Sub's throughput or to upgrade or repair its production lines. IDQ Sub's insurance policies have coverage in case of significant damage to its manufacturing facility but may not fully compensate IDQ Sub for the cost of replacement for any such damage and any loss from business interruption. As a result, IDQ Sub may not be adequately insured to cover losses resulting from significant damage to its manufacturing facility. Any damage to its facility or interruption in manufacturing could result in production delays and delays in meeting contractual obligations, which could have a material adverse effect on IDQ Sub's relationships with its customers and on its results of operations, financial condition or cash flows in any given period.

On May 21, 2015, Spectrum Brands Holdings, Inc. (SBH), the direct parent of SB/RH Holdings, LLC (the Company and, together with its consolidated subsidiaries, including Spectrum Brands, Inc., Spectrum Brands) completed the acquisition (the AAG Acquisition) of Armored AutoGroup Parent Inc. (AAG) pursuant to the Agreement and Plan of Merger by and among AAG, the Company, Ignite Merger Sub, Inc. and, solely in its capacity as representative, Avista Capital Partners II GP, LLC, dated as of April 28, 2015 for \$1.4 billion in cash. Spectrum Brands funded the AAG Acquisition with the proceeds of its initial offering of an aggregate principal amount of \$1,000 million of Spectrum Brands, Inc. s 5.750% Senior Notes due 2025 (the SBI 5.75% Notes) and the registered offering of \$575 million of shares of SBH s common stock (the SBH Equity Offering).

The following unaudited pro forma condensed combined financial statements for the year ended September 30, 2014, the date of the latest publicly available annual financial information for the Company, and the nine month period ended June 28, 2015, the date of the latest publicly available interim financial information for the Company, gives effect to the AAG Acquisition for such periods. The unaudited pro forma condensed combined financial statements shown below reflect historical financial information and have been prepared on the basis that the transaction will be accounted for using the acquisition method of accounting under Accounting Standards Codification Topic 805: *Business Combinations* (ASC 805). Accordingly, the assets acquired and liabilities assumed in the AAG Acquisition will be measured at their respective fair values with any excess consideration reflected as goodwill. The unaudited pro forma condensed combined financial statements presented assume that AAG is a wholly owned subsidiary of Spectrum Brands. Because the financial position data of AAG is reflected in Spectrum Brands Condensed Consolidated Statements of Financial Position as of June 28, 2015 (Unaudited), included elsewhere in this prospectus, no pro forma financial position data is presented below.

The following unaudited pro forma condensed combined statements of income for the year ended September 30, 2014 and the nine month period ended June 28, 2015 are presented on a basis to reflect the AAG Acquisition and related transactions as if they had occurred on October 1, 2013. Because of different fiscal period ends, and in order to present results for comparable periods, the unaudited pro forma condensed combined statement of income for the year ended September 30, 2014 combines Spectrum Brands audited historical consolidated statement of income for the year then ended with the AAG audited historical consolidated statement of income information for the twelve month period ended December 31, 2014. The unaudited pro forma condensed combined statement of income for the year ended September 30, 2014 also includes the statement of income for IDQ Holdings, Inc. (IDQ) for the period from January 1 through March 16, 2014 as AAG acquired IDQ on March 17, 2014. The unaudited pro forma condensed combined statement of income for the nine months ended June 28, 2015 combines Spectrum Brands unaudited consolidated statement of income for the nine months ended June 28, 2015 with the AAG historical consolidated statement of income information for the period of October 1, 2014 through May 20, 2015, the date prior to the close of the AAG Acquisition. The AAG results from October 1, 2014 through May 20, 2015 have been derived by combining the historical unaudited consolidated statement of income for the three month period ended March 31, 2015, the historical unaudited consolidated statement of income for the three month period ended December 31, 2014 and the unaudited historical financial information for the period from April 1, 2015 through May 20, 2015. As a result of the foregoing, the AAG historical unaudited consolidated statement of income for the three month period ended December 31, 2014 is included in the unaudited pro forma condensed combined financial statements for both the year ended September 30, 2014 and the nine month period ended June 28, 2015. See Note 1 to the Unaudited Pro Forma Condensed Combined Financial Statements for additional information. Pro forma adjustments are made in order to reflect the potential effect of the AAG Acquisition and related transactions on the income statement.

The unaudited pro forma condensed combined financial statements should be read in conjunction with the notes to unaudited pro forma condensed combined financial statements. The unaudited pro forma condensed combined

financial statements and the notes to unaudited pro forma condensed combined financial statements are based on, and should be read in conjunction with Spectrum Brands' historical audited and unaudited consolidated

financial statements, and the notes thereto, and the AAG historical audited and unaudited consolidated financial statements, and the notes thereto, each included elsewhere in this prospectus.

The process of valuing the AAG tangible and intangible assets acquired and liabilities assumed, as well as evaluating accounting policies for conformity, is still in the preliminary stages. Accordingly, the purchase accounting adjustments included in the unaudited pro forma condensed combined financial statements are preliminary and have been presented solely for the purpose of providing these unaudited pro forma condensed combined financial statements. For purposes of preparing the unaudited pro forma condensed combined financial statements, Spectrum Brands has made preliminary adjustments, where sufficient information is available to make a fair value estimate, to reflect those tangible and intangible assets acquired and liabilities assumed based on preliminary estimates of their fair value as of May 21, 2015. For those assets and liabilities where insufficient information is available to make a reasonable estimate of fair value, the unaudited pro forma condensed combined financial statements reflect the historical carrying value of those assets and liabilities at May 21, 2015. A final determination of the fair values of the assets acquired and liabilities assumed will include management's consideration of a final valuation. Spectrum Brands currently expects that the process of determining the fair values of the tangible and intangible assets acquired and liabilities assumed will be completed within one year of the acquisition date. Material revisions to Spectrum Brands preliminary estimates could be necessary as more information becomes available through the completion of this final determination. The final amounts may be materially different from the information presented in these unaudited pro forma condensed combined financial statements due to a number of factors, including changes in market conditions and financial results which may impact cash flow projections used in the valuation, and the identification of additional conditions that existed as of the date of the AAG Acquisition which may impact the fair value of the AAG net assets.

Spectrum Brands and AAG's historical consolidated financial information has been adjusted in the unaudited pro forma condensed combined financial statements to give effect to pro forma events that are (1) directly attributable to the AAG Acquisition; (2) factually supportable; and (3) with respect to the unaudited pro forma statements of income, expected to have a continuing impact on the combined results. The unaudited pro forma condensed combined financial statements do not reflect any revenue enhancements, cost savings from operating efficiencies, synergies or other restructurings, or the costs and related liabilities that would be incurred to achieve such revenue enhancements and cost savings, which could result from the AAG Acquisition.

The pro forma adjustments are based upon available information and assumptions that the managements of Spectrum Brands and AAG believe reasonably reflect the AAG Acquisition. The unaudited pro forma condensed combined financial statements are provided for illustrative purposes only and do not purport to represent what the actual consolidated results of operations of Spectrum Brands would have been had the AAG Acquisition occurred on the dates assumed, nor are they necessarily indicative of the future consolidated results of operations of Spectrum Brands.

(A) The reclassification of the AAG Selling, general and administrative expenses were made to conform to Spectrum Brands presentation.

(2) Basis of Presentation

The AAG Acquisition will be accounted for under the acquisition method of accounting in accordance with ASC 805. In accounting for the transaction, Spectrum Brands will apply its historical accounting policies and recognize the assets and liabilities of AAG at their respective fair values as of May 21, 2015, the closing date of the AAG Acquisition. In preparing the unaudited pro forma condensed combined financial statements, the assets

Table of Contents**SB/RH HOLDINGS, LLC****NOTES TO THE UNAUDITED PRO FORMA CONDENSED****COMBINED FINANCIAL STATEMENTS (Unaudited) (Continued)****(Amounts in millions of dollars, except for share or as otherwise specified)**

and liabilities of AAG have been measured at their estimated fair values on a preliminary basis using estimates and assumptions that Spectrum Brands management believes are reasonable based on information currently available. Use of different estimates and judgments could yield materially different results.

For purposes of measuring the estimated fair value of the assets acquired and liabilities assumed for purposes of preparing the unaudited pro forma condensed combined financial statements, Spectrum Brands used the guidance in ASC Topic 820, *Fair Value Measurement and Disclosure* (ASC 820), which established a framework for measuring fair values. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Market participants are assumed to be buyers and sellers in the principal (most advantageous) market for the asset or liability. Additionally, under ASC 820, fair value measurements for an asset assume the highest and best use of that asset by market participants. As a result, Spectrum Brands may be required to value assets of AAG at fair value measures that do not reflect Spectrum Brands' intended use of those assets. Use of different estimates and judgments could yield different results.

(3) Significant Accounting Policies

The unaudited pro forma condensed combined financial statements do not assume any differences in accounting policies between Spectrum Brands and AAG. Spectrum Brands is in the process of reviewing the accounting policies of AAG to ensure their conformity with those of Spectrum Brands and, as a result of that review, Spectrum Brands may identify differences between the accounting policies of the two companies, that when conformed, could have a material impact on the unaudited pro forma condensed combined financial statements. At this time, Spectrum Brands is not aware of any differences in accounting policies that would have a material impact on the unaudited pro forma condensed combined financial statements.

(4) Preliminary Consideration Transferred

The acquisition method of accounting requires that the consideration transferred in a business combination be measured at fair value as of the closing date of the AAG Acquisition. The following summarizes the preliminary consideration paid for AAG:

Cash paid to AAG shareholders and option holders	\$ 613.7
Cash paid to repay in full the AAG senior credit facilities	282.2
Assumption of AAG and IDQ Notes ^(a)	540.0

Edgar Filing: National Openings, LLC - Form S-4

Cash paid to settle pre-acquisition costs incurred by AAG	25.5
Cash paid to escrow account for post close working capital and other adjustments	10.0
Preliminary purchase price of AAG ^(b)	\$ 1,471.4

- (a) Consists of \$275.0 aggregate principal amount of Armored AutoGroup Inc. s 9¼% Senior Notes due 2018, \$220.0 aggregate principal amount of IDQ Holdings, Inc. s 11.500% Senior Secured Notes due 2017 and \$45.0 aggregate principal amount of IDQ Acquisition Corp. s 14.00%/14.75% Senior Secured PIK Notes due 2017 (collectively, the AAG and IDQ Notes) assumed (cash was subsequently paid to redeem such notes on June 15, 2015, June 22, 2015 and June 22, 2015, respectively).
- (b) Excludes preliminary working capital adjustments that are not finalized.

For the purposes of preparing the unaudited pro forma condensed combined financial statements, Spectrum Brands made preliminary estimates of the fair values of the assets acquired and liabilities assumed in the AAG Acquisition. These estimates have been recognized in preparing the unaudited pro forma condensed combined financial statements and the excess of the preliminary consideration transferred (see Note 4) on an assumed acquisition date of May 21, 2015 has been reflected as goodwill. On this basis, Spectrum Brands has estimated that the amounts recorded in accounting for the AAG Acquisition would be as follows:

Preliminary purchase price of AAG	\$ 1,471.4
Less: Carrying value of net assets acquired	56.7
Less: Fair value of indefinite lived tradenames	299.0
Less: Fair value of customer relationships	66.0
Less: Fair value of developed technology	45.0
Less: Fair value of licensing arrangement	19.0
Less: Increase in net fair value of tangible assets acquired less liabilities assumed	20.0
 Residual goodwill	 \$ 965.7
 Carrying value of AAG net assets as of May 21, 2015	 \$ 471.4
Plus: Settled acquired pre-acquisition debt	567.7
Less: Historical intangible assets	(461.1)
Less: Historical goodwill	(521.3)
 Total carrying value of net assets acquired	 \$ 56.7

(6) Pro Forma Reclassifications and Adjustments for the AAG Acquisition

- (A) Spectrum Brands estimates cost of sales will increase by approximately \$15.0 during the first inventory turn subsequent to the acquisition date as a result of the sale of inventory that was written-up to fair value in purchase accounting. This cost has been excluded from the pro forma adjustments as this amount is considered non-recurring.

Edgar Filing: National Openings, LLC - Form S-4

- (B) Adjustment reflects increased depreciation expense of \$2.0 and \$1.3, respectively, associated with the adjustment to record the AAG property, plant and equipment at fair value for the fiscal year ended September 30, 2014 and the period from October 1, 2014 through May 20, 2015.

- (C) Adjustment reflects decreased intangible asset amortization expense of \$36.3 and \$24.0, respectively, associated with the adjustment to record the AAG intangible assets at fair value for the fiscal year ended September 30, 2014 and the period from October 1, 2014 through May 20, 2015.

- (D) Adjustment reflects the reversal of the AAG intangible asset impairment charge recorded during the three months ended December 31, 2014, as the acquired AAG intangible assets have been reflected at fair value as of an assumed acquisition date of October 1, 2013 in preparing the unaudited pro forma condensed consolidated statements of income for the fiscal year ended September 30, 2014 and the period from October 1, 2014 through May 20, 2015.

- (E) In connection with the AAG Acquisition, Spectrum Brands issued \$1,000.0 in 5.75% Notes and incurred related issuance costs. In addition, a substantial portion of the historical AAG debt was repaid in connection with the AAG Acquisition. These changes in the combined debt structure gave rise to interest expense adjustments that resulted in a net decrease to interest expense of \$15.0 for the fiscal year ended September 30, 2014, and a net decrease of \$46.6 for the period from October 1, 2014 through May 20, 2015. The adjustments consist of the following:

	Assumed Interest Rate	Fiscal Year Ended September 30, 2014	October 1, 2014 May 20, 2015
New SBI 5.75% Notes USD (\$1,000.0)	5.75%	\$ 58.1	\$ 36.9
Amortization of debt issuance costs of SBI 5.75% Notes		2.0	1.3
Total pro forma interest expense on SBI acquisition-related debt		\$ 60.1	\$ 38.2
Less: elimination of interest expense related to prior AAG debt facilities that were repaid		(75.1)	(84.8)
Total pro forma adjustment to interest expense		\$ (15.0)	\$ (46.6)

- (F) As a result of Spectrum Brands' valuation allowance, the pro forma income adjustments do not have income tax consequences, except for the impact of the indefinite lived intangible adjustments, which resulted in the reversal of a \$2.5 income tax benefit assuming a 35% effective tax rate for each of the fiscal years ended September 30, 2014 and the period from October 1, 2014 through May 20, 2015. The impact of all other pro forma adjustments is solely a change in deferred income taxes offset by the change in the valuation allowance.
- (G) Adjustment reflects the reversal of \$25.5 of pre-acquisition costs incurred by AAG.
- (H) Adjustment reflects the reversal of \$8.4 of pre-acquisition accelerated stock based amortization incurred by AAG in conjunction with the AAG Acquisition.

- (I) Adjustment reflects the reversal of \$17.8 of acquisition and integration charges incurred by Spectrum Brands in conjunction with the AAG Acquisition.

(7) Transaction Costs

Spectrum Brands estimates that expenses related to the AAG Acquisition will be approximately \$31.1. These costs include fees for investment banking services, advisory, legal, accounting, due diligence, tax, valuation, printing and various other services necessary to complete this transaction. In accordance with ASC 805, these fees and expenses will be charged to expense as incurred. Spectrum Brands incurred and recorded \$17.8 of transaction costs related to the AAG Acquisition, primarily professional fees through June 28, 2015.

Each business segment is responsible for implementing defined strategic initiatives and achieving certain financial objectives and has a general manager responsible for sales and marketing initiatives and the financial results for all product lines within that business segment.

Cost Reduction Initiatives

We continually seek to improve our operational efficiency, match our manufacturing capacity and product costs to market demand and better utilize our manufacturing resources. We have undertaken various initiatives to reduce manufacturing and operating costs.

Fiscal 2014. To reduce operating costs we implemented a series of initiatives to rationalize the international operations within our residential hardware and home improvement business, which was acquired in Fiscal 2013 (the HHI Business). These initiatives will include headcount reductions and the exit of certain unprofitable international business within the Hardware and Home Improvement segment (the HHI Business Rationalization Initiatives).

Fiscal 2013. To reduce operating costs we implemented a series of initiatives throughout the Company comprised principally of headcount reductions in the Global Batteries & Appliances and Global Pet Supplies segments and within Corporate (the Global Expense Rationalization Initiatives). On November 3, 2014, we announced an expansion of our Global Expense Rationalization Initiatives, which consist of headcount reductions. Costs associated with the expanded initiatives, which are expected to be incurred through September 30, 2015, are currently projected to total approximately \$46,500, which include costs associated with the Global Expense Rationalization Initiatives announced in Fiscal 2013.

Fiscal 2009. In connection with our announcement of a plan to reduce headcount within each of our segments and to exit certain facilities in the U.S. related to the Global Pet Supplies segment, we implemented a number of cost reduction initiatives (the Global Cost Reduction Initiatives). These initiatives also included consultation, legal and accounting fees related to the evaluation of our capital structure.

Meeting Consumer Needs through Technology and Development

We continue to focus our efforts on meeting consumer needs for our products through new product development and technology innovations. Research and development efforts associated with our electric shaving and grooming products allow us to deliver to the market unique cutting systems. Competitive Landscape

We compete in seven major product categories: consumer batteries, small appliances, personal care, hardware and home improvement, pet supplies, home and garden controls and auto care, which consists of the recently acquired AAG business.

The consumer battery product category consists of non-rechargeable alkaline or zinc carbon batteries in cell sizes of AA, AAA, C, D and 9-volt, specialty batteries, which include rechargeable batteries, hearing aid batteries, photo batteries and watch/calculator batteries; and portable lighting products. Most consumer batteries are marketed under one of the following brands: Rayovac/VARTA, Duracell, Energizer or Panasonic. In addition, some retailers market private label batteries, particularly in Europe. The majority of consumers in North America and Europe purchase alkaline batteries. The Latin America market consists primarily of zinc carbon batteries but is gradually converting to higher-priced alkaline batteries as household disposable income grows. Our major competitors in the consumer batteries product category are Energizer Holdings, Inc., The Procter & Gamble Company and Matsushita.

We believe that we are the largest worldwide marketer of hearing aid batteries and that we continue to maintain a leading global market position. We believe that our close relationship with hearing aid manufacturers and other customers, as well as our product performance improvements and packaging innovations, position us for continued success in this category.

Our global pet supplies business comprises aquatics equipment (aquariums, filters, pumps, etc.), aquatics consumables (fish food, water treatments and conditioners, etc.) and specialty pet products for dogs, cats, birds and other small domestic animals. The pet supply market is extremely fragmented, with no competitor holding a market share greater than twenty percent. We believe that our brand positioning, including the leading global aquatics brand in Tetra, our

diverse array of innovative and attractive products and our strong retail relationships and global infrastructure will allow us to remain competitive in this fast growing industry. Our largest competitors in the pet supplies product category are Mars Corporation, The Hartz Mountain Corporation and Central Garden & Pet Company.

Table of Contents

Products in our home and garden category are sold through the Home and Garden Business, which operates in the U.S. market under the major brand names Spectracide, Hot Shot, Cutter, Repel, Black Flag and Garden Safe. The Home and Garden Business manufactures and markets outdoor and indoor insect control products, rodenticides, herbicides, insect repellents and lawn maintenance products. In addition, we produce and market several private-label brands for many major retailers.

The Home and Garden Business marketing position is primarily that of a branded value, enhanced and supported by innovative products of outstanding quality and appealing packaging that is designed to drive sales at the point of purchase. Our commitment to quality and value has earned the trust of consumers and the confidence of retailers, who count on us to deliver the fast-selling products, merchandising solutions and quality service they require. The Home and Garden Business primary competitors include The Scotts Miracle-Gro Company, Central Garden & Pet Company and S.C. Johnson & Son, Inc.

We also operate in the shaving and grooming and personal care product category, consisting of electric shavers and accessories, electric grooming products and hair care appliances. Electric shavers include men's and women's shavers (both rotary and foil design) and electric shaver accessories consisting of shaver replacement parts (primarily foils and cutters), pre-shave products and cleaning agents. Electric shavers are marketed primarily under our Remington brand. Our primary competitors in the electric shaving and grooming category are Procter & Gamble, makers of Braun, and Koninklijke Philips Electronics N.V., makers of Norelco. Electric grooming products include beard and mustache trimmers, nose and ear trimmers, body groomers and haircut kits and related accessories. Hair care appliances include hair dryers, straightening irons, styling irons and hair-setters. Europe and North America account for the majority of our worldwide electric personal care product category sales. Our major competitors in the electric personal care product category are Conair Corporation, Wahl Clipper Corporation and Helen of Troy Limited.

The Hardware & Home Improvement segment has developed a market-leading franchise with leading brands, making it the most desired manufacturer among top home builders and major retailers. Hardware & Home Improvement is acclaimed as a market leader in the U.S. and Canadian lockset business. Competition within the industry varies based on location as well as product segment. The main source of competition for locks includes other third party manufacturers such as Schlage, a division of Ingersoll-Rand, and private label import brands such as Defiant and Gatehouse. The major U.S. competitors of Pfister, the plumbing brand sold by our Hardware & Home Improvement segment, are Masco, Fortune Brands, Kohler and American Standard. Hardware & Home Improvement also competes with The Home Depot and Lowe's private label brands.

Products in our small appliances category consist of small electrical appliances primarily in the kitchen and home product categories. Primary competitor brands in the small appliance category include Hamilton Beach, Procter Silex, Sunbeam, Mr. Coffee, Oster, General Electric, Rowenta, DeLonghi, Kitchen Aid, Cuisinart, Krups, Braun, Rival, Europro, Kenwood, Philips, Morphy Richards, Breville and Tefal.

Our auto care category consists of the recently-acquired AAG business, consisting primarily of the Armor All and STP products, two of the most recognizable brands in the automotive aftermarket appearance products and performance chemicals categories, respectively, and the AC/PRO brand of do-it-yourself automotive air conditioner recharge products.

The following factors contribute to our ability to succeed in these highly competitive product categories:

Strong Diversified Global Brand Portfolio. We have a global portfolio of well-recognized consumer product brands. We believe that the strength of our brands positions us to extend our product lines and provide our retail customers with strong sell-through to consumers.

Strong Global Retail Relationships. We have well-established business relationships with many of the top global retailers, distributors and wholesalers, which have assisted us in our efforts to expand our overall market penetration and promote sales.

Table of Contents

Expansive Distribution Network. We distribute our products in approximately 160 countries through a variety of trade channels, including retailers, wholesalers and distributors, hearing aid professionals, industrial distributors and Original Equipment Manufacturers.

Innovative New Products, Packaging and Technologies. We have a long history of product and packaging innovations in each of our seven product categories and continually seek to introduce new products both as extensions of existing product lines and as new product categories.

Experienced Management Team. Our management team has substantial consumer products experience. On average, each senior management team member has more than 20 years of experience at Spectrum, VARTA, Remington, Russell Hobbs or other branded consumer product companies such as Newell Rubbermaid and Schering-Plough.

Seasonal Product Sales

On a consolidated basis our financial results are approximately equally weighted between quarters, however, sales of certain product categories tend to be seasonal. Sales in the consumer battery, electric shaving and grooming and electric personal care product categories, particularly in North America, tend to be concentrated in the December holiday season (Spectrum's first fiscal quarter). Demand for hardware and home improvement products increases during the spring and summer construction period (Spectrum's third and fourth fiscal quarters). Demand for pet supplies products remains fairly constant throughout the year. Demand for home and garden control products sold through the Home and Garden Business typically peaks during the first six months of the calendar year (Spectrum's second and third fiscal quarters). Small Appliances peaks from July through December primarily due to the increased demand by customers in the late summer for back-to-school sales and in the fall for the holiday season.

The seasonality of our sales during the last three fiscal years is as follows:

Percentage of Annual Sales

Table of Contents

Global consumer battery sales decreased \$35.0 million, or 16%, during the Fiscal 2015 Quarter versus the Fiscal 2014 Quarter. Excluding the impact of negative foreign exchange of \$23.8 million, global consumer battery sales decreased \$11.2 million. The constant currency decrease in global consumer battery sales was primarily attributable to a decrease in North American sales of \$20.6 million, which was partially offset by an increase in European and Asia Pacific (EURAPAC) consumer battery sales of \$9.8 million. The North American battery decrease was due to the following: (i) \$13.5 million in alkaline batteries; (ii) \$4.1 million in specialty batteries; and (iii) \$3.0 million in lights. The decrease in North American alkaline battery sales was primarily attributable to continued competitor discounting coupled with a retail customer bankruptcy. The decrease in North American specialty batteries and lights was primarily attributable to distribution loss to a competitor at a major retailer. On a constant currency basis, the EURAPAC sales increase was primarily due to gains of \$6.3 million and \$2.3 million in alkaline and specialty batteries, respectively. The increase in EURAPAC alkaline battery sales was driven by customer gains and increased volume at existing retailers. The increase in EURAPAC specialty batteries was attributed to customer gains and higher sales volume of hearing aid batteries. EURAPAC light sales also increased \$1.2 million on a constant currency basis as a result of increased promotional activity and customer gains. Global consumer battery sales decreased \$88.9 million, or 13%, during the Fiscal 2015 Nine Months compared to the Fiscal 2014 Nine Months. Excluding the impact of negative foreign exchange of \$57.4 million, global consumer battery sales decreased \$31.5 million. The constant currency decrease in global consumer battery sales was primarily attributable to the factors discussed above for the Fiscal 2015 Quarter across all geographic regions.

Small appliance sales decreased \$2.6 million, or 2%, during the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter, which included \$13.1 million of negative foreign exchange impact. Excluding foreign exchange, EURAPAC and North American sales increased \$6.2 million, and \$5.0 million, respectively, which were slightly tempered by modest declines in Latin America of \$0.7 million. The EURAPAC sales increase was attributable to promotions at current customers coupled with customer gains, which were partially offset by exits of unprofitable product categories. The North American sales increase was attributed to the continued success of new product launches. Small appliance sales increased \$3.5 million, or 1%, during the Fiscal 2015 Nine Months versus the Fiscal 2014 Nine Months, which included a negative foreign currency exchange impact of \$31.6 million. Excluding foreign exchange, EURAPAC and North American sales increased \$21.3 million and \$12.7 million, respectively, based on factors discussed above for the Fiscal 2015 Quarter. Latin American sales increased \$1.1 million compared to the Fiscal 2014 Nine Months resulting from new product introductions and volume gains in certain product lines.

Personal care sales increased \$1.8 million, or 2%, during the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter, which included \$13.5 million of negative foreign exchange impact. Excluding foreign exchange, North American, EURAPAC, and Latin American sales increased \$7.0 million, \$6.3 million and \$2.0 million, respectively. The North American sales increase was primarily a result of product display location changes at a major customer and promotional activity. The increase is also attributed to the growth in the ecommerce channel. The Latin American sales increase was primarily attributable to growth in Mexico and customer gains throughout the region. The EURAPAC sales increase was due to a combination of sales attributed to new products and continued expansion into Eastern European markets. Personal care sales decreased \$10.3 million, or 2%, during the Fiscal 2015 Nine Months compared to the Fiscal 2014 Nine Months. Excluding the negative foreign currency exchange impact of \$35.5 million, personal care sales increased \$25.2 million in the Fiscal 2015 Nine Months. Excluding foreign exchange, EURAPAC, North American, and Latin American sales increased \$13.3 million, \$6.6 million, and \$5.3 million, respectively. The constant currency increases were due to factors discussed above for the Fiscal 2015 Quarter.

Hardware and home improvement sales increased \$6.6 million, or 2%, during the Fiscal 2015 Quarter, which included negative foreign exchange impact of \$4.9 million. On a constant currency basis, sales increased domestically due to gains at existing customers in security and plumbing of \$6.5 million coupled with the Tell acquisition contributing \$9.9 million during the Fiscal 2015 Quarter. The increase was partially offset by a \$1.2 million decrease in Mexico

driven by lower volume and the exit of low margin categories. The gains were also

Table of Contents

offset by \$4.1 million resulting from exits of unprofitable categories in Canada and China, and \$2.7 million resulting from the expiration of a customer tolling arrangement. Hardware and home improvement sales increased \$21.9 million, or 3%, during the Fiscal 2015 Nine Months compared to the Fiscal 2014 Nine Months, which included negative foreign exchange impacts of \$12.7 million. The change in net sales was primarily attributed to the Tell acquisition which contributed \$29.0 million during the Fiscal 2015 Nine Months, in addition to gains in other domestic security and plumbing sales of \$19.4 million, offset by decreases in Mexico, Canada, and China of \$3.4 million, \$3.2 million, and \$5.5 million, respectively, for the reasons noted above.

Global pet supplies sales increased \$56.1 million, or 37%, during the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter, which included negative foreign exchange impact of \$8.3 million. On a constant currency basis and including acquisitions, companion animal sales increased \$66.2 million while aquatic sales decreased \$1.8 million. The constant currency sales increase in companion animal was primarily driven by the acquisitions of Proctor & Gamble's European pet food business (European IAMS and Eukanuba) and Salix Animal Health LLC (Salix), which accounted for \$66.2 million of sales during the Fiscal 2015 Quarter. The aquatics sales decline was primarily due to a reduction in promotional activity related to low margin products. Global pet supplies sales increased \$98.1 million, or 22%, during the Fiscal 2015 Nine Months versus the Fiscal 2014 Nine Months, which included a negative foreign exchange impact of \$18.9 million. On a constant currency basis and including acquisitions, companion animal sales increased \$127.3 million while aquatic sales decreased \$10.3 million, primarily due to the factors discussed above.

Home and garden sales increased \$27.7 million, or 16%, during the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter. The sales gain was attributable to increases in repellent product sales, lawn and garden control product sales and household insect control sales of \$10.6 million, \$8.6 million and \$8.5 million, respectively. The sales increase in all three product categories was a result of distribution gains and strong point of sale activity driving replenishment orders at existing customers. The increase was also attributed to the timing of the peak season. Home and garden sales increased \$42.8 million, or 13%, during the Fiscal 2015 Nine Months compared to the Fiscal 2014 Nine Months, primarily attributable to the factors discussed above coupled with the full period impact of the acquisition of The Liquid Fence Company (Liquid Fence), which occurred during the second quarter of our fiscal year ended September 30, 2014 (Fiscal 2014).

Global auto care, which consists of the AAG business that was acquired on May 21, 2015, accounted for \$64.4 million of sales for both the Fiscal 2015 Quarter and Fiscal 2015 Nine Months.

Gross Profit. Gross profit and gross profit margin for the Fiscal 2015 Quarter was \$458.0 million and 36.7%, respectively, versus \$417.0 million and 37.0%, respectively, for the Fiscal 2014 Quarter. Gross profit was up primarily due to the previously discussed acquisitions during Fiscal 2015, which contributed \$54.6 million in gross profit in the Fiscal 2015 Quarter. The slight decrease in gross margin as a percentage of sales is attributable to a \$4.7 million one-time non-cash increase to cost of goods sold due to the sale of inventory which was revalued in connection with the acquisition of AAG.

Gross profit for the Fiscal 2015 Nine Months was \$1,202.9 million versus \$1,157.9 million for the Fiscal 2014 Nine Months. Our gross profit margin for both the Fiscal 2015 Nine Months and the Fiscal 2014 Nine Months was flat at 35.6%. Acquisition activity during the Fiscal 2015 Nine Months resulted in a \$7.7 million one-time non-cash increase to cost of goods sold due to the sale of inventory which was revalued in connection with the acquisitions of AAG, Salix and European IAMS and Eukanuba. Furthermore, foreign currency exchange negatively impacted gross profit margin by 10 basis points during the Fiscal 2015 Nine Months.

Operating Expenses. Operating expenses for the Fiscal 2015 Quarter totaled \$320.6 million compared to \$267.8 million for the Fiscal 2014 Quarter. Activity from AAG accounted for a \$17.6 million increase in operating

expenses. Also contributing to this increase in operating expenses was a \$21.5 million increase in Acquisition and related charges, a \$7.4 million increase in Restructuring and related charges and a \$6.0 million increase in stock based compensation expense. The \$21.5 million increase in Acquisition and integration related

Table of Contents

charges was primarily attributable to costs related to the continued integration of European IAMS and Eukanuba and Salix and the acquisition of AAG during the Fiscal 2015 Quarter. The increase in Restructuring and related charges was primarily due to an increase in activity related to the HHI Business Rationalization Initiatives.

Operating expenses for the Fiscal 2015 Nine Months totaled \$858.8 million compared to \$789.5 million for the Fiscal 2014 Nine Months. Activity from AAG accounted for a \$17.6 million increase in operating expenses. Also contributing to this increase in operating expenses was a \$29.7 million increase in Acquisition and related charges, a \$9.2 million increase in Restructuring and related charges and a \$6.2 million increase in stock based compensation expense. The drivers of the operating expense increases during the Fiscal 2015 Nine Months were primarily attributable to the factors discussed above for the Fiscal 2015 Quarter.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA) is a metric used by management and frequently used by the financial community which provides insight into an organization's operating trends and facilitates comparisons between peer companies, since interest, taxes, depreciation and amortization can differ greatly between organizations as a result of differing capital structures and tax strategies. Adjusted EBITDA can also be a useful measure of a company's ability to service debt and is one of the measures used for determining our debt covenant compliance. Adjusted EBITDA excludes certain items that are unusual in nature or not comparable from period to period. While we believe that Adjusted EBITDA is useful supplemental information, such adjusted results are not intended to replace our Generally Accepted Accounting Principles (GAAP) financial results and should be read in conjunction with those GAAP results.

Table of Contents

Segment profit in the Fiscal 2015 Quarter decreased to \$42.1 million from \$49.1 million in the Fiscal 2014 Quarter, driven by the previously discussed net sales decrease which was partially tempered by product cost improvement initiatives. Segment profitability as a percentage of net sales decreased to 9.2% in the Fiscal 2015 Quarter compared to 9.9% in the Fiscal 2014 Quarter as a result of unfavorable manufacturing variances and foreign currency translation, which was partially tempered by previously discussed cost improvement initiatives.

Segment profit in the Fiscal 2015 Nine Months decreased to \$180.4 million from \$190.6 million in the Fiscal 2014 Nine Months, driven by decreased net sales offset by operating cost improvements as discussed for the Fiscal 2015 Quarter. Segment profitability as a percentage of net sales remained flat at 11.7% in the Fiscal 2015 Nine Months versus Fiscal 2014 Nine Months.

Segment Adjusted EBITDA in the Fiscal 2015 Quarter decreased to \$60.1 million from \$67.0 million in the Fiscal 2014 Quarter. Segment Adjusted EBITDA in the Fiscal 2015 Nine Months decreased to \$229.2 million from \$242.3 million in the Fiscal 2014 Nine Months. The decrease in segment Adjusted EBITDA for both periods was driven by the factors that drove the decrease in segment profit discussed above for each respective period.

Segment assets at June 28, 2015 decreased to \$2,093.7 million from \$2,152.0 million at September 30, 2014. The decrease was primarily due to the decrease of \$56.7 million in intangible assets as a result of amortization of definite lived intangible assets and foreign currency impact.

Segment Adjusted EBITDA was \$62.6 million in the Fiscal 2015 Quarter versus \$59.8 million in the Fiscal 2014 Quarter. The increase in Segment Adjusted EBITDA was due to the previously discussed increase in net sales. Segment Adjusted EBITDA was \$160.2 million in the Fiscal 2015 Nine Months versus \$154.8 million in the Fiscal 2014 Nine Months. The increase in Segment Adjusted EBITDA for this period was driven by the increased sales and cost savings discussed above.

Table of Contents

Segment assets at June 28, 2015 and September 30, 2014 were \$1,708.9 million and \$1,629.0 million, respectively. The increase in segment assets was primarily driven by a seasonal increase in accounts receivable and inventory of \$89.4 million and the Tell acquisition, offset by depreciation and amortization.

Global pet supply net sales to external customers are discussed within the Product line net sales by segment discussion above.

Segment profit increased to \$28.0 million in the Fiscal 2015 Quarter compared to \$22.9 million in the Fiscal 2014 Quarter and segment profitability as a percentage of net sales in the Fiscal 2015 Quarter decreased to 13.4% from 15.0% in the Fiscal 2014 Quarter. The increase in segment profit was driven by the previously discussed net sales increase, while the decrease in segment profit as a percentage of net sales is attributed to the lower profit margins of an acquired business.

Segment profit decreased to \$52.3 million in the Fiscal 2015 Nine Months compared to \$56.5 million in the Fiscal 2014 Nine Months. Segment profitability as a percentage of net sales in the Fiscal 2015 Nine Months decreased to 9.7% from 12.8% in the Fiscal 2014 Nine Months. The decreases in segment profit and segment profitability as a percent of net sales were driven by the factors discussed above for the Fiscal 2015 Quarter.

Segment Adjusted EBITDA in the Fiscal 2015 Quarter increased to \$38.4 million from \$30.7 million in the Fiscal 2014 Quarter. The increase in Segment Adjusted EBITDA was primarily due a combined increase of \$7.5 million from the Salix and European IAMS and Eukanuba acquisitions tempered by the factors discussed above for the decrease in segment profit for the Fiscal 2015 Quarter. Segment Adjusted EBITDA in the Fiscal 2015 Nine Months increased to \$82.4 million from \$79.6 million in the Fiscal 2014 Nine Months. The increase in segment Adjusted EBITDA was driven by the combined increase in Adjusted EBITDA of \$15.2 million from the Salix and European IAMS and Eukanuba acquisitions, which was more than offset by the factors that drove the decrease in segment profit discussed above.

Segment assets at June 28, 2015 increased to \$1,156.4 million from \$890.4 million at September 30, 2014. The increase in segment assets was primarily attributable to the acquisitions of Salix and European IAMS and Eukanuba during the Fiscal 2015 Nine Months. Goodwill and intangible assets increased to \$797.2 million at June 28, 2015 from \$668.7 million at September 30, 2014.

Home and Garden net sales to external customers are discussed within the Product line net sales by segment discussion above.

Segment profitability in the Fiscal 2015 Quarter increased to \$59.3 million from \$48.4 million in the Fiscal 2014 Quarter. Segment profitability as a percentage of net sales in the Fiscal 2015 Quarter increased to 29.3% from 27.7% last year. The increase in segment profit and segment profitability as a percentage of net sales is attributable to the increase in net sales to external customers as discussed within Product line net sales by segment above, coupled with product cost improvements initiatives.

Segment profitability in the Fiscal 2015 Nine Months increased to \$90.4 million from \$70.2 million in the Fiscal 2014 Nine Months, driven by increased sales in the Fiscal 2015 Nine Months from Liquid Fence acquisition that closed in the second quarter of Fiscal 2014, and product cost improvements. Segment profitability as a percentage of net sales in the Fiscal 2015 Nine Months increased to 24.7%, from 21.7% in the Fiscal 2014 Nine Months due to factors discussed for the increase in segment profit.

Segment Adjusted EBITDA in the Fiscal 2015 Quarter increased to \$62.4 million from \$51.6 million in the Fiscal 2014 Quarter. Segment Adjusted EBITDA in the Fiscal 2015 Nine Months increased to \$100.0 million from \$79.6 million in the Fiscal 2014 Nine Months. The increases in segment Adjusted EBITDA for both periods were driven by the factors discussed above for the increase in segment profit and segment profitability.

Segment assets at June 28, 2015 increased to \$594.8 million from \$526.6 million at September 30, 2014. The increase in segment assets was driven by normal seasonal increases in inventory in preparation of our major selling season. Goodwill and intangible assets decreased to \$441.2 million at June 28, 2015 from \$449.2 million at September 30, 2014, due to amortization of definite lived intangible assets.

Corporate Expense. Our corporate expense was \$23.7 million in the Fiscal 2015 Quarter compared to \$15.4 million in the Fiscal 2014 Quarter. The \$8.3 million increase in corporate expense is primarily attributable to an increase of \$6.0 million in stock compensation expense coupled with a \$2.1 million expense related to a transition and retention agreement entered into with a key executive. Corporate expense as a percentage of consolidated net sales increased to 1.9% in the Fiscal 2015 Quarter compared to 1.4% in the Fiscal 2014 Quarter based on the factors discussed above.

Our corporate expense was \$55.2 million in the Fiscal 2015 Nine Months compared to \$44.0 million in the Fiscal 2014 Nine Months, and corporate expense as a percentage of consolidated net sales increased to 1.6% in the Fiscal 2015 Nine Months compared to 1.4% in the Fiscal 2014 Nine Months. The increase in corporate expense and corporate expense as a percentage of net sales is primarily attributable to the factors discussed above for the Fiscal 2015 Quarter.

Acquisition and Integration Related Charges. Acquisition and integration related charges include, but are not limited to, transaction costs such as banking, legal and accounting professional fees directly related to acquisitions, termination and related costs for transitional and certain other employees, integration related professional fees and other post business combination related expenses associated with our acquisitions. See Note 2, Significant Accounting Policies Acquisition and Integration Related Charges to our Condensed Consolidated Financial Statements (Unaudited) included elsewhere in this prospectus for further detail regarding our Acquisition and integration related charges.

Restructuring and Related Charges. See Note 12, Restructuring and Related Charges to our Condensed Consolidated Financial Statements (Unaudited) included elsewhere in this prospectus for information regarding our restructuring and related charges.

Interest Expense. On May 20, 2015, in connection with the acquisition of AAG, we issued \$1,000.0 million aggregate principal amount of 5.75% unsecured notes due 2025 (the 5.75% Notes). On June 23, 2015, we (i) entered into Term Loan facilities pursuant to a senior credit agreement (the Senior Credit Agreement) which consist of a \$1,450.0 million U.S. dollar denominated term loan facility due June 23, 2022 (the U.S. USD Term Loan), a CAD\$75.0 million Canadian dollar denominated term loan facility due June 23, 2022 (the CAD Term Loan) and a 300.0 million Euro denominated term loan facility due June 23, 2022 (the Euro Term Loan) (together, the Term Loan) and (ii) entered into a \$500.0 million cash flow revolving credit facility due June 23, 2022 pursuant to the Senior Credit Agreement (the Revolver Facility). The proceeds from the Term Loan facilities and draws on the Revolver Facility were used to repay our then-existing senior term credit facility (the Prior Term Loan), repay our outstanding 6.75% senior unsecured notes due 2020 (the 6.75% Notes), repay and replace our then-existing asset based revolving loan facility (the Prior Revolver Facility), and to pay fees and expenses in connection with the refinancing and for general corporate purposes.

Interest expense in the Fiscal 2015 Quarter was \$112.9 million compared to \$47.3 million in the Fiscal 2014 Quarter. The \$65.6 million increase in interest expense in the Fiscal 2015 Quarter was driven primarily by \$58.8 million of one-time costs incurred related to the financing of the acquisition of AAG and the refinancing of our debt structure discussed above and additional interest expense on debt issued in conjunction with the acquisitions of Tell, European IAMS and Eukanuba and Salix in the first half of Fiscal 2015. Interest expense incurred in conjunction with the AAG Acquisition included \$14.1 million of costs related to bridge financing commitments and \$4.5 million of costs related to interest on the acquired AAG senior notes from the date of the acquisition through the time of payoff in June 2015.

Expenses related to the refinancing of the Term Loan, Revolver Facility and redemption of the 6.75% Notes included: (i) \$16.9 million of cash costs related to the call premium and pre-paid interest on the 6.75% Notes; (ii) \$4.1 million of non-cash costs for the write off of unamortized deferred financing fees on the 6.75% Notes; (iii) \$10.4 million of cash costs related to fees associated with the refinancing of the Term Loan; and (iv) \$8.8 million of

non-cash costs for the write off of unamortized deferred financing fees and original issue

discount on the Prior Term Loan and Prior Revolver Facility. See Note 6, Debt, to our Condensed Consolidated Financial Statements (Unaudited) included elsewhere in this prospectus for additional information regarding our outstanding debt.

Interest expense in the Fiscal 2015 Nine Months was \$206.5 million compared to \$151.7 million in the Fiscal 2014 Nine Months. The \$54.8 million increase in interest expense in the Fiscal 2015 Nine Months is primarily driven by the \$58.8 million of one-time costs incurred in the Fiscal 2015 Quarter described above and the previously discussed debt incurred to finance acquisitions during the first half of Fiscal 2015. See Note 6, Debt, to our Condensed Consolidated Financial Statements (Unaudited) included elsewhere in this prospectus for additional information regarding our outstanding debt.

Income Taxes. Our effective tax rates for the Fiscal 2015 Quarter and the Fiscal 2015 Nine Months were (104%) and 4%, respectively. Our effective tax rate for both the Fiscal 2014 Quarter and the Fiscal 2014 Nine Months was 21%. Our effective tax rates differ from the U.S. federal statutory rate of 35% principally due to (i) income earned outside the U.S. that is subject to statutory rates lower than 35%, (ii) the release of valuation allowance on U.S. net operating loss deferred tax assets offsetting tax expense on both U.S. pretax income and foreign income not permanently reinvested, and (iii) deferred income tax expense related to the change in book versus tax basis of indefinite-lived intangibles, which are amortized for tax purposes but not for book purposes. Additionally, we recorded a tax benefit of \$31.4 million for both the Fiscal 2015 Quarter and the Fiscal 2015 Nine Months from the reversal of a portion of the U.S. valuation allowance on deferred tax assets as a result of the AAG Acquisition. For the Fiscal 2015 Nine Months, we recorded a tax charge of \$3.6 million to establish a valuation allowance against certain deferred tax assets related to our Brazil operations, since it is more likely than not that we will not obtain tax benefits from these assets. For the Fiscal 2014 Quarter and the Fiscal 2014 Nine Months, the tax rate was reduced due to a favorable Mexican tax law change.

We are not treating current and certain prior year earnings as permanently reinvested, except for jurisdictions where repatriation is either precluded or restricted by law. Due to the valuation allowance recorded against U.S. net deferred tax assets, including net operating loss carryforwards, we do not recognize any incremental U.S. tax expense on the expected future repatriation of foreign earnings. Should the U.S. valuation allowance be released at some future date, the recording of U.S. tax on foreign earnings not considered permanently reinvested might have a material effect on our effective tax rate. By the end of our fiscal year ending September 30, 2015, we expect to record approximately \$2.6 million of additional tax liability from non-U.S. withholding and other taxes expected to be incurred on repatriation of foreign earnings, and also expect to record \$16.7 million of U.S. tax on future repatriation that would be offset by operating losses.

During our fiscal year ending September 30, 2014, we earned domestic pretax book income after having generated significant domestic book and tax losses since our fiscal year ended September 30, 1997. We generated a domestic tax loss during the Fiscal 2015 Quarter and the Fiscal 2015 Nine Months. Should we generate domestic pretax profits in the near-term, there is a reasonable possibility that some or most of the domestic valuation allowance could be released, which could result in a material tax benefit. We estimate that \$123.4 million of valuation allowance related to domestic deferred tax assets cannot be released regardless of the amount of domestic income generated due to prior period ownership changes that limit the amount of NOLs we can use. Additionally, we expect that \$5.1 million of valuation allowance corresponding to capital losses created by the sale of the Fanal business in the Fiscal 2015 Quarter cannot be released because we do not expect to generate sufficient capital gains in the carryforward period.

Net Sales. Net sales for Fiscal 2014 increased \$343 million to \$4,429 million from \$4,086 million in Fiscal 2013, an 8% increase. The following table details the principal components of the change in net sales from Fiscal 2013 to Fiscal 2014 (in millions):

	Net Sales
Fiscal 2013 Net Sales	\$ 4,086
Increase in hardware and home improvement products	296
Increase in home and garden products	42

 Fiscal 2014 Net Sales	 \$ 4,429

Consolidated product line net sales by segment for Fiscal 2014 and Fiscal 2013 were as follows (in millions):

	Fiscal Year	
	2014	2013
<i>Product line net sales by segment</i>		
Global batteries and appliances		
Consumer batteries	\$ 958	\$ 932
Small appliances	731	740
Electric shaving and grooming products	278	277
Electric personal care products	264	255
 Total Global batteries and appliances	 \$ 2,231	 \$ 2,204
Hardware and home improvement	1,166	870
Global pet supplies	600	622
Home and garden	432	390
 Total net sales to external customers	 \$ 4,429	 \$ 4,086

Global consumer battery sales increased \$26 million, or 3%, during Fiscal 2014 compared to Fiscal 2013. Excluding the impact of negative foreign exchange of \$2 million, global consumer battery sales increased \$28 million. The constant currency increase in global consumer battery sales was attributable to increases in European and Latin American consumer battery sales of \$24 million and \$10 million, respectively, partially offset by a decrease in North American consumer battery sales of \$6 million. The increase in European and Latin American sales were a result of

retailer distribution gains, new customers and products, successful promotion activities and geographic expansion. The decrease in North America was primarily driven by the non-recurrence of approximately \$10 million of flashlight sales in North America related to storm activity in the first quarter of Fiscal 2013.

Small appliance sales decreased \$9 million, or 1%, during Fiscal 2014 versus Fiscal 2013. Excluding the negative foreign exchange impact of \$5 million, small appliances decreased \$4 million. Excluding foreign exchange impacts, North American sales declined \$20 million, which was tempered by gains in Europe and Latin America of \$13 million and \$2 million, respectively. The North American sales declines were due to our exit of low-margin promotions in Fiscal 2014. The European and Latin American sales gains were attributable to promotions with existing retailers during Fiscal 2014, coupled with innovative new product launches.

Table of Contents

Electric shaving and grooming product sales increased \$1 million, or 1%, during Fiscal 2014 compared to Fiscal 2013. Excluding the impact of negative foreign exchange of \$1 million, electric shaving and grooming product sales increased \$2 million. The constant currency increase was attributable to European and Latin American sales gains of \$5 million and \$1 million, respectively, offset by a \$4 million decline in North American sales. The gains in Europe and Latin America were due to innovative new product launches, promotional activities and expansion into new channels. The decrease in North America was due to the non-recurrence of promotions during the first quarter of Fiscal 2013 and customer inventory management.

Electric personal care sales increased \$9 million, or 4%, in Fiscal 2014 versus Fiscal 2013. Geographically, excluding the impact of negative foreign exchange of \$1 million, sales increased \$5 million in Latin America, \$3 million in Europe and \$2 million in North America. Latin American sales gains were attributable to volume expansion in Colombia, successful hair care accessories product launches throughout Central America, distribution gains in Brazil and increased promotional activities. The increase in both European and North American sales was driven by innovative new products and successful promotions.

Hardware and home improvement sales increased \$296 million, or 34%, during Fiscal 2014 compared to Fiscal 2013. On a proforma basis, as if the acquisition of the HHI Business had occurred at the beginning of the Fiscal 2013, hardware and home improvement sales increased \$104 million, or 10%, to \$1,166 million in Fiscal 2014 versus \$1,062 million in Fiscal 2013. This increase was attributable to the residential security category which accounted for \$91 million of the increase due to strong retail positioning in North America coupled with the continued recovery of the U.S. housing market. The plumbing category increased \$17 million while the hardware product category decreased \$2 million. The plumbing product category increased due to growth in the U.S. from both retail and non-retail channels. Also contributing to the Fiscal 2014 sales increase were sales related to the Tong Lung Metal Industry Co. Ltd., a Taiwan Corporation (the TLM Business), as prior year results did not include the TLM Business until April 8, 2013.

Global pet supplies sales decreased \$22 million, or 4%, during Fiscal 2014 versus Fiscal 2013, which included a positive foreign currency exchange impact of \$1 million. Excluding foreign exchange impacts, aquatic sales and companion animal sales decreased \$19 million and \$4 million, respectively. The decline in aquatic sales was driven by lower kit and equipment sales in North America and lower aquatic food sales internationally coupled with a one-time negative impact from product registration issues in Russia during the third and fourth quarter of Fiscal 2014. The decline in companion animal sales was driven by adverse weather in North America, which negatively affected retail store traffic during the second quarter of Fiscal 2014, and the non-recurrence of companion animal promotions that took place during the first quarter of Fiscal 2013.

Home and garden product sales increased \$42 million, or 11%, in Fiscal 2014 versus Fiscal 2013. The sales gains were attributable to increases in repellent product sales and lawn and garden control sales of \$23 million and \$20 million, respectively. The repellent product sales increase was driven by market share gains, the extended selling season due to favorable weather and a \$13 million increase due to the acquisition of The Liquid Fence Company, Inc. (Liquid Fence) on January 2, 2014. The increase in lawn and garden control sales was primarily driven by distribution gains at key retailers and the extended selling season discussed above. These gains were partially offset by a slight decline in household insect control sales of \$1 million.

Gross Profit. Gross profit and gross profit margin for Fiscal 2014 was \$1,569 million and 35.4% versus \$1,390 million and 34.0%, respectively, for Fiscal 2013. The increase in gross profit and improvement in gross profit margin was primarily attributable to an increase in sales, particularly the shift towards higher margin sales, and continuing cost improvements. In addition, the increase in gross profit margin was driven by the non-recurrence of a \$31 million increase to cost of goods sold due to the sale of inventory during Fiscal 2013 that was revalued in connection with the

acquisition of the HHI Business.

Operating Expenses. Operating expenses for Fiscal 2014 totaled \$1,084 million compared to \$1,037 million for Fiscal 2013. The \$47 million increase in operating expenses during Fiscal 2014 is primarily attributable to an

Table of Contents

increase of \$76 million in Selling and General and administrative expenses as a result of increased sales partially offset by a \$28 million decrease in Acquisition and integration related charges as a result of the HHI Business acquisition in Fiscal 2013.

See Note 2(u), Significant Accounting Policies and Practices Acquisition and Integration Related Charges, to our audited Consolidated Financial Statements included elsewhere in this prospectus for additional information regarding our Acquisition and integration charges.

Segment Results. As discussed above, we manage our business in four reportable segments: (i) Global Batteries & Appliances; (ii) Global Pet Supplies; (iii) Home and Garden Business; and (iv) Hardware & Home Improvement.

The operating segment profits do not include restructuring and related charges, acquisition and integration related charges, interest expense, interest income and income tax expense. Corporate expenses primarily include general and administrative expenses and global long-term incentive compensation plans which are evaluated on a consolidated basis and not allocated to our operating segments. All depreciation and amortization included in income from operations is related to operating segments or corporate expense. Costs are allocated to operating segments or corporate expense according to the function of each cost center.

Financial information pertaining to our reportable segments is contained in Note 11, Segment Information, to our audited Consolidated Financial Statements included elsewhere in this prospectus.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA) is a metric used by management and frequently used by the financial community which provides insight into an organization's operating trends and facilitates comparisons between peer companies, since interest, taxes, depreciation and amortization can differ greatly between organizations as a result of differing capital structures and tax strategies. Adjusted EBITDA can also be a useful measure of a company's ability to service debt and is one of the measures used for determining our debt covenant compliance. Adjusted EBITDA excludes certain items that are unusual in nature or not comparable from period to period. While we believe that Adjusted EBITDA is useful supplemental information, such adjusted results are not intended to replace our U.S. Generally Accepted Accounting Principles (GAAP) financial results and should be read in conjunction with those GAAP results.

Global Batteries and Appliances net sales to external customers are discussed in the Product line net sales by segment discussion above.

Segment profit in Fiscal 2014 increased to \$257 million from \$238 million in Fiscal 2013. Segment profitability as a percentage of net sales increased slightly to 11.5% in Fiscal 2014 versus 10.8% in Fiscal 2013. The increase in segment profit and segment profitability as a percentage of net sales were primarily attributable to increased sales and

cost improvements, which were partially offset by unfavorable product mix and pricing pressures in the U.S. and Europe.

Segment Adjusted EBITDA in Fiscal 2014 increased to \$327 million from \$304 million in Fiscal 2013. The increase in segment Adjusted EBITDA was driven by the factors discussed above.

Segment assets at September 30, 2014 decreased to \$2,152 million from \$2,361 million at September 30, 2013. The decrease in segment assets of \$209 million is primarily due to the transfer of \$147 million in cash and cash equivalents from our Global Batteries and Appliances segment to Corporate, coupled with a decrease of \$49

million in intangible assets. Goodwill and intangible assets, which are substantially the result of the revaluation impacts of fresh-start reporting during Fiscal 2009 and acquisitions, decreased to \$1,272 million at September 30, 2014 from \$1,322 million at September 30, 2013 due to amortization of intangible assets, coupled with negative foreign exchange impacts.

Segment profit increased \$83 million to \$172 million in Fiscal 2014 compared to \$89 million Fiscal 2013. Segment profitability as a percentage of net sales was 14.8% in Fiscal 2014 and 10.2% in Fiscal 2013. The increase in segment profit was primarily driven by the inclusion of the HHI Business for the entire Fiscal 2014. Furthermore, the increase in segment profit and segment profit as a percentage of net sales was driven by the increase in sales and cost improvements, coupled with the non-recurrence of a \$31 million increase to cost of goods sold in Fiscal 2013 which related to the sale of inventory revalued in connection with the acquisition.

Segment Adjusted EBITDA was \$209 million in Fiscal 2014 compared to \$181 million in Fiscal 2013. The increase in Segment Adjusted EBITDA were driven by the increased sales, cost improvements and other factors discussed above.

Segment assets at September 30, 2014 decreased to \$1,629 million from \$1,736 million at September 30, 2013. The decrease of \$107 million is primarily due to the transfer of \$35 million in cash and cash equivalents from our Hardware and Home Improvement segment to Corporate, coupled with a decrease in intangible assets and property, plant and equipment of \$21 million and \$14 million, respectively, principally due to depreciation and amortization recognized in Fiscal 2014.

Segment profit decreased \$9 million to \$82 million in Fiscal 2014 compared to \$91 million in Fiscal 2013 and segment profitability as a percentage of net sales in Fiscal 2014 decreased to 13.7%, compared to 14.6% in Fiscal 2013. The decrease in segment profit and profitability as a percentage of net sales were primarily driven by decreased sales and unfavorable product mix in Fiscal 2014 as compared to Fiscal 2013, which was partially offset by cost improvements in manufacturing and sourcing.

Segment Adjusted EBITDA in Fiscal 2014 decreased \$7 million to \$113 million from \$120 million in Fiscal 2013. The decrease in Adjusted EBITDA was driven by the factors discussed above for segment profit.

Segment assets at September 30, 2014 decreased to \$890 million from \$949 million at September 30, 2013. The decrease in segment assets was primarily driven by a \$13 million transfer of cash and cash equivalents from our Global Pet Supplies segment to Corporate, coupled with a \$32 million decrease in goodwill and intangible assets. Goodwill and intangible assets, which are substantially the result of the revaluation impacts of fresh-start reporting during Fiscal 2009 and acquisitions, decreased to \$669 million at September 30, 2014 from \$701 million at September 30, 2013 due to amortization of intangible assets coupled with negative foreign exchange impacts.

Segment profit	\$ 89	\$ 78
Segment profit as a % of net sales	20.6%	20.1%
Segment Adjusted EBITDA	\$ 102	\$ 90
Assets as of September 30	\$ 527	\$ 501

Home and Garden net sales to external customers are discussed in the Product line net sales by segment discussion above.

Segment profitability in Fiscal 2014 increased \$11 million to \$89 million from \$78 million in Fiscal 2013, driven by increased sales in Fiscal 2014 and the acquisition of Liquid Fence. Segment profitability as a percentage of net sales in Fiscal 2014 increased to 20.6% from 20.1% in Fiscal 2013.

Segment Adjusted EBITDA increased \$12 million to \$102 million in Fiscal 2014 compared to segment Adjusted EBITDA of \$90 million in Fiscal 2013 driven by the increase in net sales coupled with cost and operating expense improvements.

Segment assets at September 30, 2014 increased to \$527 million from \$501 million at September 30, 2013. The increased in segment assets was primarily driven by a \$23 million increase in goodwill and intangible assets due to the acquisition of Liquid Fence. Goodwill and intangible assets, which are substantially a result of the revaluation impacts of fresh-start reporting during Fiscal 2009 and acquisitions, increased to \$449 million at September 30, 2014, from \$426 million at September 30, 2013.

See Note 15, *Acquisitions* to our audited Consolidated Financial Statements included elsewhere in this prospectus for additional information regarding the Liquid Fence acquisition.

Corporate Expense. Our corporate expense was \$73 million in Fiscal 2014 compared to \$60 million in Fiscal 2013. The increase in corporate expense is primarily attributable to an increase of \$5 million related to corporate support of the HHI business and other initiatives coupled with an increase in stock based compensation of \$2 million and onboarding costs for a key executive. Corporate expense as a percentage of consolidated net sales for Fiscal 2014 increased slightly to 1.6% versus 1.5% for Fiscal 2013 due to the factors discussed above.

Acquisition and Integration Related Charges. Acquisition and integration related charges include, but are not limited to, transaction costs such as banking, legal and accounting professional fees directly related to acquisitions, termination and related costs for transitional and certain other employees, integration related professional fees and other post business combination related expenses associated with our acquisitions. See Note 2(u), Significant Accounting Policies and Practices Acquisition and Integration Related Charges, to our audited Consolidated Financial Statements included elsewhere in this prospectus for additional information regarding our Acquisition and integration related charges.

Restructuring and Related Charges. See Note 14, Restructuring and Related Charges, to our audited Consolidated Financial Statements included elsewhere in this prospectus for information regarding our Restructuring and related charges.

Interest Expense. Interest expense in Fiscal 2014 was \$202 million compared to \$370 million in Fiscal 2013. The decrease in interest expense in Fiscal 2014 of \$174 million is primarily due to a non-recurrence of \$122 million of costs related to extinguishment of our 9.5% Notes in Fiscal 2013 coupled with ongoing interest cost savings of \$56 million from the refinancing of those notes. The decrease in interest expense is also due to a non-recurrence of \$29 million in costs and expenses related to the acquisition financing for the HHI Business in Fiscal 2013. These savings were partially offset by \$11 million in costs related to the refinancing of our Term Loan Facility in Fiscal 2014, consisting of the write off of unamortized deferred financing fees and original issue discount, and the inclusion of a full year of interest related to the HHI Business financing in Fiscal 2014 versus a partial period in Fiscal 2013. See Note 6, Debt, to our audited Consolidated Financial Statements included elsewhere in this prospectus.

Income Taxes. In Fiscal 2014, we recorded income tax expense of \$59 million on pretax income from continuing operations of \$276 million, and in Fiscal 2013, we recorded income tax expense of \$27 million on a pretax loss from continuing operations of \$20 million. Our effective tax rate on income from continuing operations was approximately 21% for Fiscal 2014. Our effective tax rate on our loss from continuing operations was approximately (136)% for Fiscal 2013. During Fiscal 2014, our effective tax rate differs from the U.S. federal statutory rate of 35% principally due to income earned outside the U.S. that is subject to statutory rates lower than 35%. During Fiscal 2013, our effective tax rate differed from the U.S. federal statutory rate of 35% principally due to: (i) losses in the U.S. and certain foreign jurisdictions for which no tax benefit can be recognized due to full valuation allowances that have been provided on our net operating loss carryforward tax benefits and other deferred tax assets; (ii) deferred income tax expense related to the change in book versus tax basis of indefinite lived intangibles, which are amortized for tax purposes but not for book purposes and (iii) the reversal of U.S. valuation allowances of \$50 million on deferred tax assets as a result of the acquisition of the HHI Business. Additionally, in Fiscal 2013, the consolidated pretax income was close to break even, resulting in a higher effective tax rate as this rate is calculated by dividing tax expense into pretax income (loss) from continuing operations.

As of September 30, 2014, we have provided residual taxes on approximately \$3 million of earnings not yet taxed in the U.S. Due to the valuation allowance recorded against U.S. net deferred tax assets, including net operating loss carryforwards (NOLs), we do not recognize any incremental U.S. tax expense on the expected future repatriation of foreign earnings. Should the U.S. valuation allowance be released at some future date, the U.S. tax on future foreign earnings not considered to be permanently reinvested might have a material effect on our effective tax rate. As of September 30, 2014, we project approximately \$2 million of additional tax expense from non-U.S. withholding and other taxes expected to be incurred on repatriation of foreign earnings.

As of September 30, 2014, we have U.S. federal NOLs of approximately \$1,084 million, with a federal tax benefit of \$380 million and future tax benefits related to state NOLs of \$70 million. We also have foreign NOLs of approximately \$106 million. During Fiscal 2014, we used approximately \$302 million of U.S. NOLs, including \$179

million from one-time internal restructuring and external debt refinancing activities.

Table of Contents

The realization of our deferred tax assets depends on our ability to generate sufficient taxable income of the appropriate character in future periods and in the appropriate taxing jurisdictions. We establish valuation allowances for deferred tax assets when we estimate it is more likely than not that the tax assets will not be realized. We base these estimates on projections of future income, including tax planning strategies, in certain jurisdictions. Changes in industry conditions and other economic conditions may impact our ability to project future income. Accounting Standards Codification (ASC) Topic 740: Income Taxes (ASC 740) requires the establishment of a valuation allowance when it is more likely than not that some portion or all of the deferred tax assets will not be realized. In accordance with ASC 740, we periodically assess the likelihood that our deferred tax assets will be realized and determine if adjustments to the valuation allowance are required.

Our total valuation allowance for the tax benefit of deferred tax assets that may not be realized is approximately \$327 million at September 30, 2014. Of this amount, approximately \$293 million relates to U.S. net deferred tax assets and approximately \$34 million relates to foreign net deferred tax assets.

For Fiscal 2014, we generated domestic pretax profits of \$83 million. Should we continue to generate domestic pretax profits in subsequent periods, there is a reasonable possibility that some or most of the domestic valuation allowance of \$293 million could be released at some future date, which could result in a material tax benefit. We estimate that \$122 million of valuation allowance related to domestic deferred tax assets cannot be released regardless of the amount of domestic income generated due to prior period ownership changes that limit the amount of NOLs we can use.

ASC 740, which clarifies the accounting for uncertainty in tax positions, requires that we recognize the impact of a tax position if that position is more likely than not to be sustained on audit based on the technical merits of the position. As of September 30, 2014 and September 30, 2013, the total amount of unrecognized tax benefits that, if recognized, would affect the effective income tax rate in future periods was \$12 million and \$14 million, respectively.

See Note 9, Income Taxes, to our audited Consolidated Financial Statements included elsewhere in this prospectus for additional information regarding income taxes.

Consolidated net sales by product line for Fiscal 2013 and Fiscal 2012 are as follows (in millions):

	Fiscal Year	
	2013	2012
<i>Product line net sales by segment</i>		
Global batteries and appliances		
Consumer batteries	\$ 932	\$ 949
Small appliances	740	772
Electric shaving and grooming products	277	279
Electric personal care products	255	250
Total Global batteries and appliances	\$ 2,204	\$ 2,250
Hardware and home improvement products	870	
Global pet supplies	622	615
Home and garden	390	387
Total net sales to external customers	\$ 4,086	\$ 3,252

Global consumer battery sales decreased \$17 million, or 2%, during Fiscal 2013 compared to Fiscal 2012. Excluding the impact of negative foreign exchange of \$8 million, global consumer battery sales decreased \$9 million. The constant currency decrease in global consumer battery sales was primarily attributable to the non-recurrence of promotions, timing of holiday shipments and inventory management at key customers, tempered by new customer listings and expansion into new channels.

Small appliance sales decreased \$32 million, or 4%, during Fiscal 2013 versus Fiscal 2012, primarily attributable to declines in North American sales of \$45 million and negative foreign exchange impacts of \$4 million, partially offset by a \$17 million increase in European small appliance sales. The North American sales declines resulted from the planned exit of certain low margin products. Strong small appliances sales in Europe were driven by market share gains in the United Kingdom, regional expansion in both Eastern and Western Europe and successful new product introductions.

Electric shaving and grooming product sales decreased \$2 million, or 1%, during Fiscal 2013 compared to Fiscal 2012, attributable to an \$11 million decline in North American sales and \$1 million of negative foreign currency impacts, partially offset by an increase of \$10 million in European sales and a slight increase in Latin American sales. North American sales declined as a result of labor disruptions at U.S. ports of entry during the peak holiday period in Fiscal 2013, coupled with decreased retail space available for the product category at a major retailer and customer inventory management. European sales gains were driven by successful new product launches and promotions, market growth, increased distribution and customer gains. The gain in Latin American sales was driven by expansion in Brazil due to successful new product launches and distribution gains, tempered by lower sales to customers who export to Venezuela and import restrictions in Argentina.

Electric personal care sales increased \$5 million, or 2%, in Fiscal 2013 versus Fiscal 2012, resulting from a sales increase of \$8 million in Europe, driven by new innovative products, coupled with additional distribution channels and customer gains. The gains were tempered by a \$3 million decline in Latin American sales, resulting from decreased promotions and lower sales to customers who export to Venezuela, partially offset by distribution gains in Brazil and Central America.

Edgar Filing: National Openings, LLC - Form S-4

Hardware and home improvement sales were \$870 million for Fiscal 2013, reflecting the results of the HHI Business subsequent to the acquisition on December 17, 2012. Pro forma net sales for Fiscal 2013 and Fiscal 2012 as if the acquisition had occurred at the beginning of both periods were \$1,062 million and \$974 million, respectively. The Fiscal 2013 sales growth was driven by double-digit improvements in the HHI Business U.S. residential security and plumbing categories due to the housing market recovery. The results of TLM Taiwan are included in the results of hardware and home improvement sales subsequent to its acquisition on April 8, 2013.

Table of Contents

Global pet supplies sales increased \$7 million, or 1%, during Fiscal 2013 versus Fiscal 2012, driven by increased companion animal sales of \$16 million, tempered by a \$4 million decline in aquatics sales and \$5 million of negative foreign currency impacts. Gains in companion animal sales resulted from strong growth in the Dingo and FURminator brands, expansion in Europe, new product launches and the inclusion of FURminator sales during all of Fiscal 2013 as the acquisition was completed on December 22, 2011. The decline in aquatic sales was primarily due to a decline in tropical food and outdoor pond product sales in Europe as a result of a later arrival of the spring season due to cooler temperatures.

Home and garden product sales increased \$3 million, or 1%, in Fiscal 2013 versus Fiscal 2012, driven by a \$4 million increase in lawn and garden control sales resulting from an extension to the season due to favorable fall weather, combined with reduced returns and more efficient trade spending. The negative impact on household insect control sales due to a late spring season was offset by increased year over year fourth quarter sales driven by the extension of the season due to favorable fall weather and gains in the first quarter of Fiscal 2013 from new retail distribution. Also contributing to the sales gains was the inclusion of Black Flag sales during all of Fiscal 2013, as the acquisition was completed on October 31, 2011, and retail replenishment following strong retail sales in the fourth quarter of Fiscal 2012.

Gross Profit. Gross profit for Fiscal 2013 was \$1,390 million versus \$1,116 million for Fiscal 2012. The increase in gross profit was driven by the acquisition of the HHI Business which contributed \$273 million in Gross profit in Fiscal 2013. Our gross profit margin for Fiscal 2013 decreased slightly to 34.0% from 34.3% in Fiscal 2012. The slight decline in gross profit margin was driven by a \$31 million increase to cost of goods sold due to the sale of inventory which was revalued in connection with the acquisition of the HHI Business, which offset improvements to gross profit resulting from the exit of low margin products in our small appliances category.

Operating Expenses. Operating expenses for Fiscal 2013 totaled \$1,037 million compared to \$810 million for Fiscal 2012. The \$227 million increase in operating expenses during Fiscal 2013 is primarily attributable to the acquisition of the HHI Business which accounted for \$190 million in operating expenses and led to a \$17 million increase in Acquisition and integration related charges. Furthermore, we incurred a \$14 million increase in Restructuring and related charges primarily related to the Global Expense Rationalization initiatives announced in Fiscal 2013 and an \$18 million increase in stock compensation expense. These increases were tempered by \$8 million in savings across all segments from our cost reduction initiatives and positive foreign exchange impacts of \$4 million.

See Note 2(u), Significant Accounting Policies and Practices Acquisition and Integration Related Charges, to our audited Consolidated Financial Statements included elsewhere in this prospectus for additional information regarding our Acquisition and integration charges.

See Note 14, Restructuring and Related Charges, to our audited Consolidated Financial Statements included elsewhere in this prospectus for additional information regarding our Restructuring and related charges.

Segment Results. As discussed above, we manage our business in four reportable segments: (i) Global Batteries & Appliances; (ii) Global Pet Supplies; (iii) Home and Garden Business; and (iv) Hardware & Home Improvement.

The operating segment profits do not include restructuring and related charges, acquisition and integration related charges, interest expense, interest income and income tax expense. Corporate expenses primarily include general and administrative expenses and global long-term incentive compensation plans which are evaluated on a consolidated basis and not allocated to our operating segments. All depreciation and amortization included in income from operations is related to operating segments or corporate expense. Costs are allocated to operating segments or corporate expense according to the function of each cost center.

Financial information pertaining to our reportable segments is contained in Note 11, Segment Information, to our audited Consolidated Financial Statements included elsewhere in this prospectus.

Adjusted EBITDA is a metric used by management and frequently used by the financial community which provides insight into an organization's operating trends and facilitates comparisons between peer companies, since interest, taxes, depreciation and amortization can differ greatly between organizations as a result of differing capital structures and tax strategies. Adjusted EBITDA can also be a useful measure of a company's ability to service debt and is one of the measures used for determining our debt covenant compliance. Adjusted EBITDA excludes certain items that are unusual in nature or not comparable from period to period. While we believe that Adjusted EBITDA is useful supplemental information, such adjusted results are not intended to replace our Generally Accepted Accounting Principles (GAAP) financial results and should be read in conjunction with those GAAP results.

Global Batteries and Appliances net sales to external customers are discussed in the Product line net sales by segment discussion above.

Segment profit in Fiscal 2013 decreased to \$238 million from \$244 million in Fiscal 2012, primarily attributable to unfavorable product mix and pricing pressures in the U.S, coupled with the decrease in sales discussed above.

Segment profitability as a percentage of net sales decreased slightly to 10.8% in Fiscal 2013 versus 10.9% in Fiscal 2012, driven by unfavorable mix and pricing pressures in the U.S., which offset gains from the exit of low margin products in the small appliances category.

Segment Adjusted EBITDA in Fiscal 2013 decreased to \$304 million from \$307 million in Fiscal 2012. The decrease in segment Adjusted EBITDA was driven by the factors discussed above for the decline in segment profit.

Segment assets at September 30, 2013 increased to \$2,361 million from \$2,243 million at September 30, 2012. The increase is primarily due to the acquisition of Shaser. Goodwill and intangible assets, which are a direct result of the revaluation impacts of fresh-start reporting which occurred during the year ended September 30, 2009 (Fiscal 2009) and acquisitions, increased to \$1,322 million at September 30, 2013 from \$1,261 million at September 30, 2012, primarily due to the acquisition of Shaser.

Hardware and Home Improvement net sales to external customers are discussed in the Product line net sales by segment discussion above.

Edgar Filing: National Openings, LLC - Form S-4

Segment profit in Fiscal 2013 was \$89 million. Segment profitability as a percentage of net sales in Fiscal 2013 was 10.2%. Segment profitability was negatively impacted by a \$31 million increase to cost of goods sold due to the sale of inventory which was revalued in connection with the acquisition.

Including pre-acquisition earnings of the HHI Business, segment Adjusted EBITDA was \$181 million in Fiscal 2013.

Table of Contents

Segment assets at September 30, 2013 were \$1,736 million. Goodwill and intangible assets were \$1,192 million at September 30, 2013.

Segment profitability as a percentage of net sales in Fiscal 2013 increased to 14.6%, compared to 14.0% in the same period last year. The increase in segment profit and profitability as a percentage of net sales was driven by cost improvements and operating expense reductions, which offset increased cost of goods sold and unfavorable product mix in Fiscal 2013 versus Fiscal 2012.

Segment Adjusted EBITDA in Fiscal 2013 increased \$7 million to \$120 million from \$113 million in Fiscal 2012. The increase in Adjusted EBITDA was driven by the factors discussed above for segment profit.

Segment assets at September 30, 2013 decreased slightly to \$949 million from \$956 million at September 30, 2012. Goodwill and intangible assets, which are substantially the result of the revaluation impacts of fresh-start reporting during Fiscal 2009 and acquisitions, decreased to \$701 million at September 30, 2013 from \$715 million at September 30, 2012 due to amortization of intangible assets, tempered by positive foreign exchange impacts.

Segment profitability as a percentage of net sales in Fiscal 2013 improved to 20.1% from 19.0% in Fiscal 2012, as a result of strong expense management.

Table of Contents

Segment Adjusted EBITDA improved \$3 million to \$90 million in Fiscal 2013 compared to segment Adjusted EBITDA of \$87 million in Fiscal 2012, driven by the increase in net sales coupled with cost and operating expense improvements.

Segment assets at September 30, 2013 decreased to \$501 million from \$508 million at September 30, 2012. Goodwill and intangible assets, which are substantially a result of the revaluation impacts of fresh-start reporting during Fiscal 2009 and acquisitions, decreased to \$426 million at September 30, 2013, from \$433 million at September 30, 2012, driven by amortization of intangible assets.

Corporate Expense. Our corporate expense was \$60 million in Fiscal 2013 compared to \$52 million in Fiscal 2012. This increase is primarily attributable to an \$18 million increase in stock based compensation expense, tempered by operating expense improvements. Corporate expense as a percentage of consolidated net sales for Fiscal 2013 remained constant with Fiscal 2012 at 1.5%.

Acquisition and Integration Related Charges. Acquisition and integration related charges include, but are not limited to, transaction costs such as banking, legal and accounting professional fees directly related to acquisitions, termination and related costs for transitional and certain other employees, integration related professional fees and other post business combination related expenses associated with our acquisitions. Interest Expense. Interest expense in Fiscal 2013 was \$370 million compared to \$192 million in Fiscal 2012. The increase in interest expense in Fiscal 2013 of \$178 million is primarily due to costs and expenses related to the extinguishment of our 9.5% Notes and the financing of the acquisition of the HHI Business coupled with higher ongoing interest expense related to the debt issued in connection with that acquisition, partially offset by the non-recurrence of costs and expenses related to the extinguishment of our 12% Notes in Fiscal 2012. We incurred \$122 million of costs related to the extinguishment of our 9.5% Notes including cash tender, consent and redemption premium costs totaling \$111 million and non-cash costs for the write off of unamortized deferred financing fees less unamortized original issue premium totaling \$11 million. We incurred \$23 million in costs and expenses related to the acquisition financing for the HHI Business including cash costs of \$24 million for bridge financing fees and transaction costs, along with non-cash costs of \$5 million related to the write-off of debt issuance costs and original issue discount on the former term loan facility. In addition, we incurred \$69 million of ongoing cash interest expense related to the debt incurred for the acquisition of the HHI Business. The higher expense incurred in Fiscal 2013 was partially offset by the non-recurrence of \$25 million of cash and \$2 million of non-cash costs incurred in connection with the extinguishment of our 12% Notes, savings related to the extinguishments of the 12% Notes and the 9.5% Notes coupled with other items netting to reduced interest of \$9 million. See Note 6, Debt, to our audited Consolidated Financial Statements included elsewhere in this prospectus for additional information regarding our outstanding debt.

Income Taxes. In Fiscal 2013, we recorded income tax expense of \$27 million on a pretax loss from continuing operations of \$20 million, and in Fiscal 2012, we recorded income tax expense of \$60 million on pretax income from continuing operations of \$113 million. Our effective tax rate on our loss from continuing operations was approximately 136% for Fiscal 2013. Our effective tax rate on income from continuing operations was approximately

53% for Fiscal 2012. Our effective tax rates differ from the U.S. federal statutory rate of 35% principally due to:

- (i) losses in the U.S. and certain foreign jurisdictions for which no tax benefit can be recognized due to full valuation allowances that have been provided on our net operating loss carryforward tax benefits and other deferred tax assets;
- (ii) deferred income tax expense related to the change in book versus tax

Table of Contents

basis of indefinite lived intangibles, which are amortized for tax purposes but not for book purposes; and (iii) the reversal in Fiscal 2013 of U.S. valuation allowances of \$50 million on deferred tax assets as a result of the acquisition of the HHI Business and the reversal in Fiscal 2012 of U.S. valuation allowances of \$15 million on deferred tax assets as a result of the FURminator acquisition. Additionally, in Fiscal 2013, the consolidated pretax income was close to break even, resulting in a higher effective tax rate as this rate is calculated by dividing tax expense into pretax income (loss).

In light of our plans to voluntarily pay down our U.S. debt, fund distributions to shareholders, fund U.S. acquisitions, and our ongoing U.S. operational cash flow requirements, in Fiscal 2012 we began recording residual U.S. and foreign taxes on current foreign earnings, which we do not consider to be permanently reinvested, except for locations precluded by local legal restrictions from repatriating earnings. We evaluate annually the available earnings, permanent reinvestment classification and availability of and management's intent to use alternative mechanisms for repatriation for each jurisdiction in which we do business. As of September 30, 2013, we have provided residual taxes on approximately \$46 million of earnings not yet taxed in the U.S. Due to the valuation allowance recorded against U.S. net deferred tax assets, including net operating loss carryforwards, we do not recognize any incremental U.S. tax expense on the expected future repatriation of these foreign earnings. Should the U.S. valuation allowance be released at some future date, the U.S. tax on foreign earnings not considered to be permanently reinvested might have a material effect on our effective tax rate. For Fiscal 2013, we expect approximately \$3 million of additional tax expense from non-U.S. withholding and other taxes to be incurred on repatriation of current earnings.

As of September 30, 2013, we have U.S. federal and state net operating loss carryforwards of approximately \$1,502 million and \$1,538 million, respectively. These net operating loss carryforwards expire through years ending in 2033. We also have foreign loss carryforwards of approximately \$111 million, which will expire beginning in 2014. Certain of the foreign net operating losses have indefinite carryforward periods. We have had multiple changes of ownership, as defined under Internal Revenue Code (IRC) Section 382, that subject our U.S. federal and state net operating losses and other tax attributes to certain limitations. The annual limitation on our use of these carryforwards is based on a number of factors including the value of our stock (as defined for tax purposes) on the date of the ownership change, our net unrealized built in gain position on that date, the occurrence of realized built in gains in years subsequent to the ownership change, and the effects of subsequent ownership changes (as defined for tax purposes), if any. In addition, separate return year limitations apply to limit our utilization of the acquired Russell Hobbs U.S. federal and state net operating losses to future income of the Russell Hobbs subgroup. Based on these factors, we estimate that \$301 million of the total U.S. federal and \$358 million of the state net operating loss would expire unused even if the Company generates sufficient income to otherwise use all its NOLs. In addition, we project that \$103 million of the total foreign net operating loss carryforwards will expire unused. We have provided a full valuation allowance against these deferred tax assets as well.

The ultimate realization of our deferred tax assets depends on our ability to generate sufficient taxable income of the appropriate character in the future and in the appropriate taxing jurisdictions. We establish valuation allowances for deferred tax assets when we estimate it is more likely than not that the tax assets will not be realized. We base these estimates on projections of future income, including tax planning strategies, in certain jurisdictions. Changes in industry conditions and other economic conditions may impact our ability to project future income. Accounting Standards Codification (ASC) Topic 740: Income Taxes (ASC 740) requires the establishment of a valuation allowance when it is more likely than not that some portion or all of the deferred tax assets will not be realized. In accordance with ASC 740, we periodically assess the likelihood that our deferred tax assets will be realized and determine if adjustments to the valuation allowance are required.

Our total valuation allowance for the tax benefit of deferred tax assets that may not be realized is approximately \$449 million at September 30, 2013. Of this amount, approximately \$416 million relates to U.S. net deferred tax assets and

approximately \$33 million relates to foreign net deferred tax assets. Our total valuation allowance was approximately \$382 million at September 30, 2012. Of this amount, approximately \$347

Table of Contents

million related to U.S. net deferred tax assets and approximately \$35 million related to foreign net deferred tax assets. As a result of the purchase of the HHI Business, we reversed \$50 million of U.S. valuation allowance during Fiscal 2013. As a result of the purchase of FURminator, we released \$15 million of U.S. valuation allowance during Fiscal 2012. These releases were attributable to the net deferred tax liabilities recorded on the opening balance sheets of the acquired companies in purchase accounting, which offset other U.S. net deferred tax assets.

ASC 740, which clarifies the accounting for uncertainty in tax positions, requires that we recognize in our financial statements the impact of a tax position if that position is more likely than not to be sustained on audit based on the technical merits of the position. As of September 30, 2013 and September 30, 2012, the total amount of unrecognized tax benefits that, if recognized, would affect the effective income tax rate in future periods was \$14 million and \$6 million, respectively. See Note 9, *Income Taxes*, to our audited Consolidated Financial Statements included elsewhere in this prospectus for additional information.

Liquidity and Capital Resources

Operating Activities

Fiscal 2015 Nine Months

For the Fiscal 2015 Nine Months, cash used by operating activities totaled \$163.6 million compared to cash used of \$49.2 million during the Fiscal 2014 Nine Months. The \$114.4 million increase in cash used by operating activities was primarily due to:

Cash used for working capital and other items of \$63.0 million driven by increases in inventory and other working capital accounts, and a decrease in accounts payable; partially offset by decreases in accounts receivable;

Higher cash payments for acquisition and integration and restructuring related costs of \$19.4 million;

Higher cash payments for interest totaling \$89.4 million;

Offset by,

Cash generated by higher Adjusted EBITDA of \$33.4 million; and

Lower cash payments for income taxes of \$24.0 million.

We expect to fund our cash requirements, including capital expenditures, interest and principal payments due in Fiscal 2015, through a combination of cash on hand, cash flow from operations and funds available for borrowings under our Revolver Facility. Going forward, our ability to satisfy financial and other covenants in our senior credit agreements and senior unsecured indentures and to make scheduled payments or prepayments on our debt and other financial obligations will depend on our future financial and operating performance. There can be no assurances that our business will generate sufficient cash flows from operations or that future borrowings under our Revolver Facility will

be available in an amount sufficient to satisfy our debt maturities or to fund our other liquidity needs. While our cash flow from operations for the Fiscal 2015 Nine Months is negative, primarily driven by the seasonal increase of working capital related to certain segments, we expect cash flow from operations for the full year Fiscal 2015 to be positive from normal operating performance and seasonal reductions in working capital during the last quarter of the fiscal year, which is consistent with the previous full fiscal years.

At June 28, 2015, there are no significant foreign cash balances available for repatriation. During Fiscal 2015, we expect to generate between \$75 million and \$125 million of foreign cash that may be repatriated for general corporate purposes.

See Risk Factors for further discussion of the risks associated with our ability to service all of our existing indebtedness and our ability to maintain compliance with financial and other covenants related to our indebtedness.

Table of Contents

Fiscal 2014

Cash provided by operating activities totaled \$435 million during Fiscal 2014 compared to \$258 million during Fiscal 2013. The \$177 million increase in cash provided by operating activities was primarily due to:

Cash generated from higher adjusted EBITDA of \$79 million, excluding pre-acquisition earnings of the HHI Business;

A \$68 million generation of cash from working capital and other items driven by lower accounts receivable and inventory, partially offset by lower accounts payable and other working capital items;

Lower cash payments for interest of \$46 million; and

Lower cash acquisition, integration and restructuring related costs of \$14 million.

Offset by,

Higher cash payments for income taxes of \$31 million.

We expect to fund our cash requirements, including capital expenditures, interest and principal payments due in Fiscal 2015, through a combination of cash on hand, cash flow from operations and funds available for borrowings under our ABL Facility. Going forward, our ability to satisfy financial and other covenants in our senior credit agreements and in the Indentures and to make scheduled payments or prepayments on our debt and other financial obligations will depend on our financial and operating performance. There can be no assurances that our business will generate sufficient cash flows from operations or that future borrowings under our ABL Facility will be available in an amount sufficient to satisfy our debt maturities or to fund our other liquidity needs.

At September 30, 2014, there are no significant foreign cash balances available for repatriation. For Fiscal 2015, we expect to generate between \$75 million and \$125 million of foreign cash that may be repatriated for general corporate purposes.

See Risk Factors, for further discussion of the risks associated with our ability to service all of our existing indebtedness, our ability to maintain compliance with financial and other covenants related to our indebtedness and the impact of the current economic crisis.

Investing Activities

Fiscal 2015 Nine Months

Net cash used by investing activities was \$1,242.3 million for the Fiscal 2015 Nine Months compared to \$67.3 million for the Fiscal 2014 Nine Months. The \$1,175.0 million increase in cash used by investing activities in the Fiscal 2015 Nine Months is driven by an increase in cash used for acquisitions of \$1,167.9 million, which included: (i) \$900.5 million purchase, net of cash acquired, of AAG; (ii) \$147.8 million purchase, net of cash acquired, of Salix;

(iii) \$115.7 million purchase, net of cash acquired, of European IAMS and Eukanuba; and (iv) \$29.2 million purchase, net of cash acquired, of Tell. Further contributing to the increase of cash used was the decrease in proceeds from sales of property, plant and equipment of \$7.8 million. These items were partially offset by the \$25.3 million cash paid for the Liquid Fence acquisition in the Fiscal 2014 Nine Months coupled with a decrease in purchases of property, plant and equipment of \$1.4 million.

Fiscal 2014

Net cash used by investing activities was \$94 million for Fiscal 2014 compared to \$1,477 million for Fiscal 2013. The \$1,383 million decrease in cash used by investing activities in Fiscal 2014 was primarily driven by a decrease in cash used for acquisitions of \$1,366 million, which related to the \$1,351 million purchase, net of cash acquired, of the HHI Business, and the \$43 million purchase, net of cash acquired, of Shaser in Fiscal 2013, compared to a \$28 million purchase, net of cash acquired, of Liquid Fence in Fiscal 2014.

Table of Contents

We expect to make investments in capital projects similar to historical levels, as well as incremental investments in high return cost reduction projects slightly above historical levels.

During the Fiscal 2015 Nine Months, we granted 0.43 million restricted stock units to our employees. All vesting dates are subject to the recipient's continued employment with us, except as otherwise permitted by our Board of Directors or in certain cases where the employee is terminated without cause. The total market value of the restricted stock units on the date of grant was approximately \$39.3 million, which represented unearned restricted stock compensation. Unearned compensation is amortized to expense over the appropriate vesting period.

Fiscal 2014

During Fiscal 2014, we granted approximately 641 thousand shares of SB Holdings' restricted stock units to our employees and our directors. All vesting dates are subject to the recipient's continued employment with us, except as otherwise permitted by our Board of Directors or in certain cases if the employee is terminated without cause. The total market value of the restricted shares on the date of grant was approximately \$49 million, which represented unearned restricted stock compensation. Such unearned compensation is amortized to expense over the appropriate vesting period.

From time to time we may repurchase our outstanding shares of Common Stock in the open market or otherwise.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Contractual Obligations & Other Commercial Commitments***Contractual Obligations***

The following table summarizes our contractual obligations as of September 30, 2014 and the effect such obligations are expected to have on our liquidity and cash flow in future periods (in millions). Due to our debt financing activities discussed above, our contractual obligations and commercial commitments have materially changed since September 30, 2014. Debt obligations, excluding capital lease obligations, for the fiscal years ending September 2015, 2016, 2017, 2018, 2019 and thereafter are: \$4.6 million; \$97.6 million; \$18.5 million; \$18.5 million; \$18.5 million; and \$4,156.0 million, respectively.

For additional information about our employee benefit obligations, see Note 10, Employee Benefit Plans, to our audited Consolidated Financial Statements and Note 9, Employee Benefit Plans, to our Condensed Consolidated Financial Statements (Unaudited), each included elsewhere in this prospectus.

Critical Accounting Policies

Our audited Consolidated Financial Statements and our Condensed Consolidated Financial Statements (Unaudited) included elsewhere in this prospectus have been prepared in accordance with U.S. GAAP and fairly present our financial position and results of operations. We believe the following accounting policies are critical to an understanding of our financial statements. The application of these policies requires management's judgment and estimates in areas that are inherently uncertain.

Valuation of Assets and Asset Impairment

We evaluate certain long-lived assets to be held and used, such as property, plant and equipment and definite-lived intangible assets for impairment based on the expected future cash flows or earnings projections associated with such assets. Impairment reviews are conducted at the judgment of management when it believes that a change in circumstances in the business or external factors warrants a review. Circumstances such as the discontinuation of a product or product line, a sudden or consistent decline in the sales forecast for a product, changes in technology or in the way an asset is being used, a history of operating or cash flow losses or an adverse change in legal factors or in the business climate, among others, may trigger an impairment review. An asset's value is deemed impaired if the discounted cash flows or earnings projections generated do not support the carrying value of the asset. The estimation of such amounts requires management's judgment with respect to revenue and expense growth rates, changes in working capital and selection of an appropriate discount rate, as applicable. The use of different assumptions would increase or decrease discounted future operating cash flows or earnings projections and could, therefore, change

impairment determinations.

ASC 350 requires companies to test goodwill and indefinite-lived intangible assets for impairment annually, or more often if an event or circumstance indicates that an impairment loss may have been incurred. In Fiscal 2014, Fiscal 2013 and Fiscal 2012, we tested our goodwill and indefinite-lived intangible assets as required. As a result of this testing, there were no impairment charges in Fiscal 2014, Fiscal 2013 and Fiscal 2012.

Table of Contents

We used a discounted estimated future cash flows methodology to determine the fair value of our reporting units (goodwill). Fair value of indefinite-lived intangible assets, which represent trade names, was determined using a relief from royalty methodology. Assumptions critical to our fair value estimates were: (i) the present value factors used in determining the fair value of the reporting units and trade names; (ii) royalty rates used in our trade name valuations; (iii) projected average revenue growth rates used in the reporting unit and trade name models; and (iv) projected long-term growth rates used in the derivation of terminal year values. We also tested the aggregate estimated fair value of our reporting units for reasonableness by comparison to our total market capitalization, which includes both our equity and debt securities. These and other assumptions are impacted by economic conditions and expectations of management and will change in the future based on period specific facts and circumstances.

The fair values of our Global Batteries & Appliances, Hardware & Home Improvement, Global Pet Supplies and Home and Garden Business reporting units, which are also our segments, exceeded their carry values by 87%, 47%, 80% and 146%, respectively, as of the date of our latest annual impairment testing.

See Note 2(h), Significant Accounting Policies and Practices Property, Plant and Equipment, Note 2(i), Significant Accounting Policies and Practices Intangible Assets, Note 4, Property, Plant and Equipment, and Note 5, Goodwill and Intangible Assets, to our audited Consolidated Financial Statements and Note 2, Significant Accounting Policies Intangible Assets, and Note 5, Goodwill and Intangible Assets, to our Condensed Consolidated Financial Statements (Unaudited), each included elsewhere in this prospectus for more information about these assets.

Revenue Recognition and Concentration of Credit Risk

We recognize revenue from product sales generally upon delivery to the customer or the shipping point in situations where the customer picks up the product or where delivery terms so stipulate. This represents the point at which title and all risks and rewards of ownership of the product are passed, provided that: there are no uncertainties regarding customer acceptance, there is persuasive evidence that an arrangement exists; the price to the buyer is fixed or determinable and ability to collect is deemed to be reasonably assured. We are generally not obligated to allow for, and our general policy is not to accept, product returns for battery sales. We do accept returns in specific instances related to our hardware and home improvement, electric shaving and grooming, electric personal care, home and garden, small appliances and pet supply products. The provision for customer returns is based on historical sales and returns and other relevant information. We estimate and accrue the cost of returns, which are treated as a reduction of net sales.

We enter into various promotional arrangements, primarily with retail customers, including arrangements entitling such retailers to cash rebates from us based on the level of their purchases, which require us to estimate and accrue the costs of the promotional programs. These costs are generally treated as a reduction of net sales.

We also enter into promotional arrangements that target the ultimate consumer. Such arrangements are treated as either a reduction in net sales or an increase in cost of sales, based on the type of promotional program. The income statement presentation of our promotional arrangements complies with ASC Topic 605: Revenue Recognition. Cash consideration, or an equivalent thereto, given to a customer is generally classified as a reduction of net sales. If we provide a customer anything other than cash, the cost of the consideration is classified as an expense and included in cost of sales.

For all types of promotional arrangements and programs, we monitor our commitments and use statistical measures and past experience to determine the amounts to be recorded for the estimate of the earned, but unpaid, promotional costs. The terms of our customer-related promotional arrangements and programs are tailored to each customer and are generally documented through written contracts, correspondence or other communications with the individual

customers.

Table of Contents

We also enter into various arrangements, primarily with retail customers, which require us to make an upfront cash or slotting payment to secure the right to distribute through such customer. We capitalize slotting payments provided the payments are supported by a time or volume based arrangement with the retailer, and amortize the associated payment over the appropriate time or volume based term of the arrangement. The amortization of slotting payments is treated as a reduction in net sales and a corresponding asset is reported in Deferred charges and other in our audited Consolidated Statements of Financial Position included elsewhere in this prospectus.

Our trade receivables subject us to credit risk which is evaluated based on changing economic, political and specific customer conditions. We assess these risks and make provisions for the ability to collect based on our best estimate of the risks presented and information available at the date of the financial statements. The use of different assumptions may change our estimate of the ability to collect. We extend credit to our customers based upon an evaluation of the customer's financial condition and credit history and generally do not require collateral. Our credit terms generally range between 30 and 90 days from invoice date, depending upon the evaluation of the customer's financial condition and history. We monitor our customers' credit and financial condition in order to assess whether the economic conditions have changed and adjust our credit policies with respect to any individual customer as we determine appropriate. These adjustments may include, but are not limited to, restricting shipments to customers, reducing credit limits, shortening credit terms, requiring cash payments in advance of shipment or securing credit insurance.

See Note 2(b), Significant Accounting Policies and Practices Revenue Recognition, Note 2(c), Significant Accounting Policies and Practices Use of Estimates and Note 2(e), Significant Accounting Policies and Practices Concentrations of Credit Risk and Major Customers, to our audited Consolidated Financial Statements and Note 2, Significant Accounting Policies Use of Estimates and Note 2, Significant Accounting Policies Concentrations of Credit Risk to our Condensed Consolidated Financial Statements (Unaudited), each included elsewhere in this prospectus, for more information about our revenue recognition and credit policies.

Pensions

Our accounting for pension benefits is primarily based on a discount rate, expected and actual return on plan assets and other assumptions made by management, and is impacted by outside factors such as equity and fixed income market performance. Our pension liability is principally the estimated present value of future benefits, net of plan assets. In calculating the estimated present value of future benefits, net of plan assets, we used discount rates of 2.0% to 13.5% in Fiscal 2014 and of 1.8% to 13.0% in Fiscal 2013. In adjusting the discount rates from Fiscal 2013 to Fiscal 2014, we considered the change in the general market interest rates of debt and solicited the advice of our actuary. We believe the discount rates used are reflective of the rates at which the pension benefits could be effectively settled.

Pension expense is principally the sum of interest and service cost of the plan, less the expected return on plan assets and the amortization of the difference between our assumptions and actual experience. The expected return on plan assets is calculated by applying an assumed rate of return to the fair value of plan assets. We used expected returns on plan assets of 2.0% to 7.5% in Fiscal 2014 and 3.6% to 7.8% in Fiscal 2013. Based on the advice of our independent actuary, we believe the expected rates of return are reflective of the long-term average rate of earnings expected on the funds invested. If such expected returns were overstated, it would ultimately increase future pension expense and required funding contributions. Similarly, an understatement of the expected return would ultimately decrease future pension expense and required funding contributions. If plan assets decline due to poor performance by the markets and/or interest rates decline resulting in a lower discount rate, our pension liability will increase, ultimately increasing future pension expense and required funding contributions.

See Note 10, Employee Benefit Plans, to our audited Consolidated Financial Statements and Note 9, Employee Benefit Plans, to our Condensed Consolidated Financial Statements (Unaudited), each included elsewhere in this prospectus, for a more complete discussion of our employee benefit plans.

Table of Contents***Restructuring and Related Charges***

Restructuring charges are recognized and measured in accordance with the provisions of ASC Topic 420: Exit or Disposal Cost Obligations, (ASC 420) and ASC Topic 712: Compensation Nonretirement Post-Employment Benefits, (ASC 712). Under ASC 420 and ASC 712, restructuring charges include, but are not limited to, termination and related costs consisting primarily of one-time termination benefits such as severance costs and retention bonuses, and contract termination costs consisting primarily of lease termination costs. Related charges, as defined by us, include, but are not limited to, other costs directly associated with exit and integration activities, including impairment of property and other assets, departmental costs of full-time incremental integration employees, and any other items related to the exit or integration activities. Costs for such activities are estimated by us after evaluating detailed analyses of the costs to be incurred. We present restructuring and related charges on a combined basis.

Liabilities from restructuring and related charges are recorded for estimated costs of facility closures, significant organizational adjustments and measures undertaken by us to exit certain activities. Costs for such activities are estimated by us after evaluating detailed analyses of the costs to be incurred. Such liabilities could include amounts for items such as severance costs and related benefits (including settlements of pension plans), impairment of property and equipment and other current or long term assets, lease termination payments and any other items directly related to the exit activities. While the actions are carried out as expeditiously as possible, restructuring and related charges are estimates. Changes in estimates resulting in an increase to or a reversal of a previously recorded liability may be required as we execute a restructuring plan.

We report restructuring and related charges associated with manufacturing and related initiatives in cost of goods sold. Restructuring and related charges reflected in cost of goods sold include, but are not limited to, termination and related costs associated with manufacturing employees, asset impairments relating to manufacturing initiatives and other costs directly related to the restructuring initiatives implemented.

We report restructuring and related charges associated with administrative functions in operating expenses, such as initiatives impacting sales, marketing, distribution or other non-manufacturing related functions. Restructuring and related charges reflected in operating expenses include, but are not limited to, termination and related costs, any asset impairments relating to the administrative functions and other costs directly related to the initiatives implemented.

See Note 14, Restructuring and Related Charges, to our audited Consolidated Financial Statements and Note 12, Restructuring and Related Charges, to our Condensed Consolidated Financial Statements (Unaudited), each included elsewhere in this prospectus, for a more complete discussion of our restructuring initiatives and related costs.

Accounting for Acquisitions

Accounting for acquisitions requires us to recognize and measure identifiable assets acquired, liabilities assumed and any non-controlling interest in the acquired entity. Our accounting for acquisitions involves significant judgments and estimates, including the fair value of certain forms of consideration; the fair value of acquired intangible assets, which involve projections of future revenues, cash flows and terminal value, that are then either discounted at an estimated discount rate or measured at an estimated royalty rate; the fair value of other acquired assets and assumed liabilities, including potential contingencies; and the useful lives of the assets. The projections are developed using internal forecasts, available industry and market data and estimates of long-term rates of growth for our business. The impact of prior or future acquisitions on our financial position or results of operations may be materially impacted by the change in or initial selection of assumptions and estimates.

See Note 15, Acquisitions, to our audited Consolidated Financial Statements and Note 13, Acquisitions, to our Condensed Consolidated Financial Statements (Unaudited), each included elsewhere in this prospectus, for further discussion of ASC 805 purchase accounting valuation assumptions.

Table of Contents

Deferred Income Tax Asset and Other Tax Reserves

We assess our deferred tax asset and record a valuation allowance, when necessary, to reduce our deferred tax asset to the amount that is more likely than not to be realized. We have considered future taxable income, taxable temporary differences and ongoing prudent and feasible tax planning strategies in assessing the need for the valuation allowance. Should we determine that we would not be able to realize all or part of our net deferred tax asset in the future, an adjustment to the deferred tax asset would be charged to income in the period we made that determination.

We establish reserves when, despite our belief that our tax returns are fully supportable, we believe that certain positions may be challenged and ultimately modified. We adjust the reserves in light of changing facts and circumstances. Our effective tax rate includes the impact of income tax related reserve positions and changes to income tax reserves that we consider appropriate. A number of years may elapse before a particular matter for which we have established a reserve is finally resolved. Unfavorable settlement of any particular issue may require the use of cash or a reduction in our net operating loss carryforwards. Favorable resolution would be recognized as a reduction to the effective rate in the year of resolution. Tax reserves are presented on the balance sheet in other liabilities.

See Note 9, *Income Taxes*, to our audited Consolidated Financial Statements and Note 10, *Income Taxes*, to our Condensed Consolidated Financial Statements (Unaudited), each included elsewhere in this prospectus.

Loss Contingencies

Loss contingencies are recorded as liabilities when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated. The outcome of existing litigation, the impact of environmental matters and pending or potential examinations by various taxing authorities are examples of situations evaluated as loss contingencies. Estimating the probability and magnitude of losses is often dependent upon management's judgment of potential actions by third parties and regulators. It is possible that changes in estimates or an increased probability of an unfavorable outcome could materially affect our business, financial condition or results of operations.

See further discussion in *Business Legal Proceedings* and Note 12, *Commitments and Contingencies*, to our audited Consolidated Financial Statements included elsewhere in this prospectus.

Other Significant Accounting Policies

Other significant accounting policies, primarily those with lower levels of uncertainty than those discussed above, are also critical to understanding the audited Consolidated Financial Statements included elsewhere in this prospectus. The Notes to the audited Consolidated Financial Statements included elsewhere in this prospectus contain additional information related to our accounting policies and should be read in conjunction with this discussion.

New Accounting Pronouncements

Presentation of debt issuance costs

In April 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-03, *Interest Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. This ASU requires debt issuance costs related to a recognized debt liability to be presented on the balance sheet as a direct deduction from the debt liability, similar to the presentation of debt discounts. This ASU will become effective for us beginning in the first quarter of our fiscal year ending September 30, 2017. We do not expect the adoption of this standard to have a significant impact on our operational results.

Table of Contents***Revenue recognition***

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which supersedes the revenue recognition requirements in ASC 605, *Revenue Recognition*. This ASU requires revenue recognition to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new revenue recognition model requires identifying the contract, identifying the performance obligations, determining the transaction price, allocating the transaction price to performance obligations and recognizing the revenue upon satisfaction of the performance obligations. This ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments, and assets recognized from costs incurred to obtain or fulfill a contract. This ASU can be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the update recognized at the date of the initial application along with additional disclosures. In July 2015, the FASB voted to issue a final ASU that will defer the effective date by one year to annual reporting periods beginning after December 15, 2017 and the interim periods within that year, with early adoption permitted for annual reporting periods beginning after December 15, 2016, and the interim periods within that year. This ASU will become effective for us beginning in the first quarter of our fiscal year ending September 30, 2019, if we do not early adopt. We have not selected a method for adoption nor determined the potential effects on our consolidated financial statements.

Inventory measurement

In July 2015, the FASB issued ASU 2015-11, *Inventory (Topic 330), Simplifying the Measurement of Inventory*, which changes the measurement principle for inventory from the lower of cost or market to lower of cost and net realizable value. Net realizable value is defined as the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. This ASU eliminates the guidance that entities consider replacement cost or net realizable value less an approximately normal profit margin in the subsequent measurement of inventory when cost is determined on a first-in, first-out or average cost basis. The provisions of this ASU are effective for public entities with fiscal years beginning after December 15, 2016, and interim periods within those fiscal years, with early adoption permitted. We are currently evaluating the impact of this new accounting guidance on our consolidated financial statements.

Presentation of Unrecognized Tax Benefit

In July 2013, the FASB issued new accounting guidance which requires entities to present unrecognized tax benefits as a reduction of a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except to the extent the net operating loss carryforwards or tax credit carryforwards are not available to be used at the reporting date to settle additional income taxes, and the entity does not intend to use them for this purpose. The new accounting guidance is consistent with how we historically accounted for unrecognized tax benefits in our audited Consolidated Statements of Financial Position, and therefore, we do not expect the adoption of this guidance to have a significant impact on our consolidated financial statements.

Quantitative and Qualitative Disclosures About Market Risk***Market Risk Factors***

We have market risk exposure from changes in interest rates, foreign currency exchange rates and commodity prices. We, when appropriate, use derivative financial instruments to mitigate the risk from such exposures.

A discussion of our accounting policies for derivative financial instruments is included in Note 7, Derivative Financial Instruments, to our audited Consolidated Financial Statements and in Note 7, Derivative Financial Instruments, to our Condensed Consolidated Financial Statements (Unaudited), each included elsewhere in this prospectus.

Table of Contents***Interest Rate Risk***

A substantial portion of our debt bears interest at variable rates. If market interest rates increase, the interest rate on our variable rate debt will increase and will create higher debt service requirements, which would adversely affect our cash flow and could adversely impact our results of operations. We also have bank lines of credit at variable interest rates. The general level of U.S. and Canadian interest rates, LIBOR, CDOR and Euro LIBOR affect interest expense. We periodically use interest rate swaps to manage such risk. The net amounts to be paid or received under interest rate swap agreements are accrued as interest rates change, and are recognized over the life of the swap agreements as an adjustment to interest expense from the underlying debt to which the swap is designated. The related amounts payable to, or receivable from, the contract counter-parties are included in accrued liabilities or accounts receivable.

Foreign Exchange Risk

We are subject to risk from sales and loans to and from our subsidiaries as well as sales to, purchases from and bank lines of credit with third-party customers, suppliers and creditors denominated in foreign currencies. Foreign currency sales and purchases are made primarily in Euro, Pounds Sterling, Mexican Pesos, Canadian Dollars, Australian Dollars and Brazilian Reals. We manage our foreign exchange exposure from anticipated sales, accounts receivable, intercompany loans, firm purchase commitments, accounts payable and credit obligations through the use of naturally occurring offsetting positions (borrowing in local currency), forward foreign exchange contracts, foreign exchange rate swaps and foreign exchange options. The related amounts payable to, or receivable from, the contract counter-parties are included in accounts payable or accounts receivable.

Commodity Price Risk

We are exposed to fluctuations in market prices primarily for purchases of zinc and brass used in our manufacturing processes. We use commodity swaps and calls to manage such risk. The maturity of, and the quantities covered by, the contracts are closely correlated to our anticipated purchases of the commodity. The cost of calls is amortized over the life of the contracts and recorded in cost of goods sold, along with the effects of the swap and call contracts. The related amounts payable to, or receivable from, the counter-parties are included in accounts payable or accounts receivable.

Sensitivity Analysis

The analysis below is hypothetical and should not be considered a projection of future risks. Earnings projections are before tax.

At June 28, 2015, the potential change in fair value of our outstanding interest rate derivative instruments assuming a 1 percent unfavorable shift in interest rates would be a loss of \$1.5 million. The net impact on reported earnings, after also including the effect of the change on one year's underlying interest rate exposure on our variable rate Term Loan, would be a net loss of \$1.5 million.

At June 28, 2015, the potential change in fair value of outstanding foreign exchange derivative instruments, assuming a 10% unfavorable change in the underlying exchange rates, would be a loss of \$39.1 million. The net impact on reported earnings, after also including the effect of the change on one year's underlying foreign currency-denominated exposures, would be a net gain of \$14.5 million.

At June 28, 2015, the potential change in fair value of outstanding commodity price derivative instruments, assuming a 10% unfavorable change in the underlying commodity prices, would be a loss of \$2.4 million. The net impact on

reported earnings, after also including the effect of the reduction in cost of one year's purchases of the related commodities due to the same change in commodity prices, would be a net gain of \$1.7 million.

Sales and Distribution

We sell our products through a variety of trade channels, including retailers, wholesalers and distributors, hearing aid professionals, industrial distributors and OEMs. Our sales generally are made through the use of individual purchase orders, consistent with industry practice. Retail sales of the consumer products we market have been increasingly consolidated into a small number of regional and national mass merchandisers. This trend towards consolidation is occurring on a worldwide basis. As a result of this consolidation, a significant percentage of our sales are attributable to a very limited group of retailer customers, including Wal-Mart, The Home Depot, Lowe's, Carrefour, Target, PetSmart, Canadian Tire, PetCo and Gigante. Our sales to Wal-Mart represented approximately 16% of our consolidated net sales for the fiscal year ended September 30, 2014. No other customer accounted for more than 10% of our consolidated net sales in the fiscal year ended September 30, 2014.

Segment information as to revenues, profit and total assets as well as information concerning our revenues and long-lived assets by geographic location for the last three fiscal years is set forth in Management's Discussion and Analysis of Financial Condition and Results of Operations, Note 11, Segment Information, to our audited Consolidated Financial Statements included elsewhere in this prospectus and Note 11, Segment Results, to our Condensed Consolidated Financial Statements (Unaudited), each included elsewhere in this prospectus.

Sales and distribution practices in each of our reportable segments are as set forth below.

Global Batteries & Appliances

We manage our Global Batteries & Appliances sales force by geographic region and product group. Our sales team is divided into four major geographic territories: North America, Latin America, Europe and Asia/Pacific. Within each major geographic territory, we have additional subdivisions designed to meet our customers' needs.

We manage our sales force in North America by distribution channel. We maintain separate sales groups to service (i) our retail sales and distribution channel, (ii) our hearing aid professionals channel and (iii) our industrial distributors and OEM sales and distribution channel. In addition, we utilize a network of independent brokers to service participants in selected distribution channels.

We manage our sales force in Latin America by distribution channel and geographic territory. We sell primarily to large retailers, wholesalers, distributors, food and drug chains and retail outlets. In countries where

we do not maintain a sales force, we sell to distributors who market our products through all channels in the market.

The sales force serving our customers in Europe and Asia/Pacific is supplemented by an international network of distributors to promote the sale of our products. Our sales operations throughout Europe and Asia/Pacific are organized by geographic territory and the following sales channels: (i) food/retail, which includes mass merchandisers, discounters and drug and food stores; (ii) specialty trade, which includes clubs, consumer electronics stores, department stores, photography stores and wholesalers/distributors; and (iii) industrial, government, hearing aid professionals and OEMs.

Hardware & Home Improvement

The sales force of the Hardware & Home Improvement is aligned by customer and geographic region. We sell primarily to large retailers, non-retail distributors, home improvement centers, hardware stores, home builders and other retailers.

Global Auto Care

The Global Auto Care sales force is geographically aligned with our key customers. We sell primarily to automotive supply retailers, mass merchandisers, convenience stores, discount and dollar stores, home improvement centers, hardware stores and distributors.

Manufacturing, Raw Materials and Suppliers

The principal raw materials used in manufacturing our products—zinc, electrolytic manganese dioxide, brass and steel—are sourced either on a global or regional basis. The prices of these raw materials are susceptible to price fluctuations due to supply and demand trends, energy costs, transportation costs, government regulations and tariffs, changes in currency exchange rates, price controls, general economic conditions and other unforeseen circumstances. We have regularly engaged in forward purchase and hedging derivative transactions in an attempt to effectively manage the raw material costs we expect to incur over the next 12 to 24 months.

Substantially all of our rechargeable batteries and chargers, portable lighting products, hair care and other personal care products and our electric shaving and grooming products and small appliances are manufactured by third party suppliers that are primarily located in the Asia/Pacific region. We maintain ownership of most of the tooling and molds used by our suppliers.

We continually evaluate our manufacturing facilities' capacity and related utilization. As a result of such analyses, we have closed a number of manufacturing facilities during the past five years. In general, we believe our existing

facilities are adequate for our present and foreseeable needs.

Research and Development

Our research and development strategy is focused on new product development and performance enhancements of our existing products. We plan to continue to use our strong brand names, established customer relationships and significant research and development efforts to introduce innovative products that offer enhanced value to consumers through new designs and improved functionality.

In our fiscal years ended September 30, 2014, 2013 and 2012, we invested \$47.9 million, \$43.3 million and \$33.1 million, respectively, in product research and development.

Patents and Trademarks

We own or license from third parties a significant number of patents and patent applications throughout the world relating to products we sell and manufacturing equipment we use. We hold a license that expires in March 2022 for certain alkaline battery designs, technology and manufacturing equipment from Matsushita Electrical Industrial Co., Ltd. (Matsushita), to whom we pay a royalty.

We also use and maintain a number of trademarks in our business, including Rayovac, Remington, VARTA, Tetra, 8-in-1, Dingo, Nature's Miracle, IAMS, Eukanuba, Digest-eeze, Liquid Fence, Black Flag, Wild Harvest, Marineland, FURminator, Spectracide, Cutter, Hot Shot, Garden Safe, Repel, George Foreman, Russell Hobbs, Farberware, Toastmaster, Black & Decker, Kwikset, Weiser, Baldwin, National Hardware, Pfister, Armor All, STP, A/C PRO, Arctic Freeze, Sub Zero, and Super Seal Stop Leak. We seek trademark protection in the U.S. and in foreign countries.

As a result of the October 2002 sale by VARTA AG of substantially all of its consumer battery business to us and VARTA AG's subsequent sale of its automotive battery business to Johnson Controls, Inc. (Johnson Controls), we acquired rights to the VARTA trademark in the consumer battery category and Johnson Controls acquired rights to the trademark in the automotive battery category. VARTA AG continues to have rights to use the trademark with travel guides and industrial batteries and VARTA Microbattery GmbH has the right to use the trade mark with micro batteries. We are party to a Trademark and Domain Names Protection and Delimitation Agreement that governs ownership and usage rights and obligations of the parties relative to the VARTA trademark.

As a result of the common origins of the Remington Products, L.L.C. (Remington Products) business we acquired in September 2003 and the Remington Arms Company, Inc. (Remington Arms), the REMINGTON trademark is owned by us and by Remington Arms each with respect to its principal products as well as associated products. Accordingly, we own the rights to use the REMINGTON trademark for electric shavers, shaver accessories, grooming products and personal care products, while Remington Arms owns the rights to use the trademark for firearms, sporting goods and products for industrial use, including industrial hand tools. In addition, the terms of a 1986 agreement between Remington Products and Remington Arms provides for the shared rights to use the REMINGTON trademark on products which are not considered principal products of interest for either company. We retain the REMINGTON trademark for nearly all products which we believe can benefit from the use of the brand name in our distribution channels.

We license the Black & Decker brand in North America, Latin America (excluding Brazil) and the Caribbean for four core categories of household appliances: beverage products, food preparation products, garment care products and cooking products. Russell Hobbs has licensed the Black & Decker brand since 1998 for use in marketing various household small appliances. In July 2014, Spectrum Brands and The Black & Decker Corporation (BDC) extended the trademark license agreement through December 2018. Under the agreement as extended, Spectrum Brands agreed to pay BDC royalties based on a percentage of sales, with minimum annual royalty payments of \$15.0 million through

calendar year 2018. The agreement also requires us to comply with maximum annual return rates for products.

Table of Contents

If BDC does not agree to renew the license agreement, we have 18 months to transition out of the brand name. No minimum royalty payments will be due during such transition period. BDC has agreed not to compete in the four core product categories for a period of five years after the end of the transition period following termination of the license agreement. Upon request, BDC may elect to extend the license to use the Black & Decker brand to certain additional product categories. BDC has approved several extensions of the license to additional categories and geographies.

Through the acquisition of the residential hardware and home improvement business (the HHI Business), we own the patented SmartKey technology, which enables customers to easily rekey their locks without hiring a locksmith.

On November 8, 2012, we acquired a 56% interest in Shaser Biosciences, Inc. Through this acquisition we acquired patented technology that is used in our i-Light product line.

Competition

In our retail markets, we compete for limited shelf space and consumer acceptance. Factors influencing product sales include brand name recognition, perceived quality, price, performance, product packaging, design innovation, and consumer confidence and preferences as well as creative marketing, promotion and distribution strategies.

The battery product category is highly competitive. Most consumer batteries manufactured throughout the world are sold by one of four global companies: Spectrum Brands (manufacturer/seller of Rayovac and VARTA brands); Energizer Holdings, Inc. (Energizer) (manufacturer/seller of the Energizer brand); The Procter & Gamble Company (Procter & Gamble) (manufacturer/seller of the Duracell brand); and Matsushita (manufacturer/seller of the Panasonic brand). We also face competition from the private label brands of major retailers, particularly in Europe. The offering of private-label batteries by retailers may create pricing pressure in the consumer battery market. Typically, private-label brands are not supported by advertising or promotion, and retailers sell these private label offerings at prices below competing name-brands. The main barriers to entry for new competitors are investment in technology research, cost of building manufacturing capacity and the expense of building retail distribution channels and consumer brands.

In the U.S. alkaline battery category, the Rayovac brand is positioned as a value brand, which is typically defined as a product that offers comparable performance at a lower price. In Europe, the VARTA brand is competitively priced with other premium brands. In Latin America, where zinc carbon batteries outsell alkaline batteries, the Rayovac brand is competitively priced. Our primary competitors in the portable lighting product category are Energizer and Mag Instrument, Inc.

Competition within the hardware and home improvement industry varies based on location and product segment. The main source of competition for residential locksets includes other third party manufacturers such as Schlage, a division of Ingersoll-Rand, and private label import brands such as Defiant and Gatehouse. Major competitors for hardware include The Hillman Group, Hampton Hardware, Crown Bolt and private label competitors. In plumbing, Pfister's major U.S. competitors are Masco, Fortune Brands, Kohler, and American Standard, as well as Glacier Bay and AquaSource, and the private label brands of The Home Depot and Lowe's.

The pet supplies product category is highly fragmented with over 500 manufacturers in the U.S. alone, consisting primarily of small companies with limited product lines. Our largest competitors in this product category are Mars Corporation (Mars), The Hartz Mountain Corporation (Hartz) and Central Garden & Pet Company (Central Garden & Pet). Both Hartz and Central Garden & Pet sell a comprehensive line of pet supplies and compete with a majority of the products we offer. Mars sells primarily aquatics products.

Edgar Filing: National Openings, LLC - Form S-4

Products we sell in the home and garden product category face competition from The Scotts Miracle-Gro Company (Scotts Company), which markets lawn and garden products under the Scotts, Ortho, Roundup,

Table of Contents

Miracle-Gro, and Tomcat brand names; Central Garden & Pet, which markets garden products under the AMDRO and Sevin brand names; and Bayer A.G., which markets home and garden products under the Bayer Advanced brand name.

Products we sell in the household insect control product category face competition from S.C. Johnson & Son, Inc. (S.C. Johnson), which markets insecticide and repellent products under the Raid and OFF! brands; Scotts Company, which markets household insect control products under the Ortho brand; and Henkel KGaA, which markets insect control products under the Combat brand.

Our primary competitors in the electric shaving and grooming product category are Norelco, a division of Koninklijke Philips Electronics NV (Philips), which sells and markets rotary shavers, and Braun, a division of Procter & Gamble, which sells and markets foil shavers. Through our Remington brand, we sell both foil and rotary shavers.

Primary competitive brands in the small appliance category include Hamilton Beach, Proctor Silex, Sunbeam, Mr. Coffee, Oster, General Electric, Rowenta, DeLonghi, Kitchen Aid, Cuisinart, Krups, Braun, Rival, Europro, Kenwood, Philips, Morphy Richards, Breville and Tefal. The key competitors of Russell Hobbs in this market in the U.S. and Canada include Jarden Corporation, DeLonghi America, Euro-Pro Operating LLC, Metro Thebe, Inc., d/b/a HWI Breville, NACCO Industries, Inc. (Hamilton Beach) and SEB S.A. In addition, Russell Hobbs competes with retailers who use their own private label brands for household appliances (for example, Wal-Mart).

Our major competitors in the electric personal care product category are Conair Corporation, Wahl Clipper Corporation and Helen of Troy Limited (Helen of Troy).

Some of our major competitors have greater resources and greater overall market share than we do. They have committed significant resources to protect their market shares or to capture market share from us and may continue to do so in the future. In some key product lines, our competitors may have lower production costs and higher profit margins than we do, which may enable them to compete more aggressively in advertising and in offering retail discounts and other promotional incentives to retailers, distributors, wholesalers and, ultimately, consumers.

Seasonality

On a consolidated basis our financial results are approximately equally weighted between quarters, however, sales of certain product categories tend to be seasonal. Sales in the consumer battery, electric shaving and grooming and electric personal care product categories, particularly in North America, tend to be concentrated in the December holiday season (Spectrum's first fiscal quarter). Demand for hardware and home improvement products increases during the spring and summer construction period (Spectrum's third and fourth fiscal quarters). Demand for pet supplies products remains fairly constant throughout the year. Demand for home and garden control products typically peaks during the first six months of the calendar year (Spectrum's second and third fiscal quarters). Small Appliances peaks from July through December primarily due to the increased demand by customers in the late summer for back-to-school sales and in the fall for the holiday season. For a more detailed discussion of the seasonality of our product sales, see Management's Discussion and Analysis of Financial Condition and Results of Operations Seasonal Product Sales.

Governmental Regulations and Environmental Matters

Due to the nature of our operations, our facilities are subject to a broad range of federal, state, local and foreign legal and regulatory provisions relating to the environment, including those regulating the discharge of materials into the environment, the handling and disposal of solid and hazardous substances and wastes and the remediation of

contamination associated with the releases of hazardous substances at our facilities. We believe

Table of Contents

that compliance with the federal, state, local and foreign laws and regulations to which we are subject will not have a material effect upon our capital expenditures, financial condition, earnings or competitive position.

From time to time, we have been required to address the effect of historic activities on the environmental condition of our properties. We have not conducted invasive testing at all facilities to identify all potential environmental liability risks. Given the age of our facilities and the nature of our operations, it is possible that material liabilities may arise in the future in connection with our current or former facilities. If previously unknown contamination of property underlying or in the vicinity of our manufacturing facilities is discovered, we could incur material unforeseen expenses, which could have a material adverse effect on our financial condition, capital expenditures, earnings and competitive position. Although we are currently engaged in investigative or remedial projects at some of our facilities, we do not expect that such projects, taking into account established accruals, will cause us to incur expenditures that are material to our business, financial condition or results of operations; however, it is possible that our future liability could be material.

We have been, and in the future may be, subject to proceedings related to our disposal of industrial and hazardous material at off-site disposal locations or similar disposals made by other parties for which we are held responsible as a result of our relationships with such other parties. In the U.S., these proceedings are under the Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) or similar state laws that hold persons who arranged for the disposal or treatment of such substances strictly liable for costs incurred in responding to the release or threatened release of hazardous substances from such sites, regardless of fault or the lawfulness of the original disposal. Liability under CERCLA is typically joint and several, meaning that a liable party may be responsible for all costs incurred in investigating and remediating contamination at a site. As a practical matter, liability at CERCLA sites is shared by all of the viable responsible parties. We occasionally are identified by federal or state governmental agencies as being a potentially responsible party for response actions contemplated at an off-site facility. At the existing sites where we have been notified of our status as a potentially responsible party, it is either premature to determine whether our potential liability, if any, will be material or we do not believe that our liability, if any, will be material. We may be named as a potentially responsible party under CERCLA or similar state laws for other sites not currently known to us, and the costs and liabilities associated with these sites may be material.

It is difficult to quantify with certainty the potential financial impact of actions regarding expenditures for environmental matters, particularly remediation, and future capital expenditures for environmental control equipment. Nevertheless, based upon the information currently available, we believe that our ultimate liability arising from such environmental matters, taking into account established accruals of \$4.6 million for estimated liabilities at September 30, 2014 should not be material to our business or financial condition.

Electronic and electrical products that we sell in Europe, particularly products sold under the Remington brand name, VARTA battery chargers, certain portable lighting and all of our batteries, are subject to regulation in European Union (EU) markets under three key EU directives. The first directive is the Restriction of the Use of Hazardous Substances in Electrical and Electronic Equipment (RoHS) which took effect in EU member states beginning July 1, 2006. RoHS prohibits companies from selling products which contain certain specified hazardous materials in EU member states. We believe that compliance with RoHS will not have a material effect on our capital expenditures, financial condition, earnings or competitive position. The second directive is entitled the Waste of Electrical and Electronic Equipment (WEEE). WEEE makes producers or importers of particular classes of electrical goods financially responsible for specified collection, recycling, treatment and disposal of past and future covered products. WEEE assigns levels of responsibility to companies doing business in EU markets based on their relative market share. WEEE calls on each EU member state to enact enabling legislation to implement the directive. To comply with WEEE requirements, we have partnered with other companies to create a comprehensive collection, treatment, disposal and recycling program. As EU member states pass enabling legislation we currently expect our compliance system to be sufficient to meet

such requirements. Our current estimated costs associated with compliance with WEEE are not significant based on our current market share. However, we continue to evaluate the impact of the WEEE legislation as EU member states implement

Table of Contents

guidance and as our market share changes and, as a result, actual costs to our company could differ from our current estimates and may be material to our business, financial condition or results of operations. The third directive is the Directive on Batteries and Accumulators and Waste Batteries, which was adopted in September 2006 and went into effect in September 2008 (the Battery Directive). The Battery Directive bans heavy metals in batteries by establishing maximum quantities of those heavy metals in batteries and mandates waste management of batteries, including collection, recycling and disposal systems. The Battery Directive places the costs of such waste management systems on producers and importers of batteries. The Battery Directive calls on each EU member state to enact enabling legislation to implement the directive. We currently believe that compliance with the Battery Directive will not have a material effect on our capital expenditures, financial condition, earnings or competitive position. However, until such time as the EU member states adopt enabling legislation, a full evaluation of these costs cannot be completed. We will continue to evaluate the impact of the Battery Directive and its enabling legislation as EU member states implement guidance.

Certain of our products and facilities in each of our business segments are regulated by the United States Environmental Protection Agency (the EPA) and the United States Food and Drug Administration (the FDA) or other federal consumer protection and product safety agencies and are subject to the regulations such agencies enforce, as well as by similar state, foreign and multinational agencies and regulations. For example, in the U.S., all products containing pesticides must be registered with the EPA and, in many cases, similar state and foreign agencies before they can be manufactured or sold. Our inability to obtain or the cancellation of any registration could have an adverse effect on our business, financial condition and results of operations. The severity of the effect would depend on which products were involved, whether another product could be substituted and whether our competitors were similarly affected. We attempt to anticipate regulatory developments and maintain registrations of, and access to, substitute chemicals and other ingredients. We may not always be able to avoid or minimize these risks.

The Food Quality Protection Act (FQPA) established a standard for food-use pesticides, which is that a reasonable certainty of no harm will result from the cumulative effect of pesticide exposures. Under the FQPA, the EPA is evaluating the cumulative effects from dietary and non-dietary exposures to pesticides. The pesticides in certain of our products continue to be evaluated by the EPA as part of this program. It is possible that the EPA or a third party active ingredient registrant may decide that a pesticide we use in our products will be limited or made unavailable to us. We cannot predict the outcome or the severity of the effect of the EPA 's continuing evaluations of active ingredients used in our products.

Certain of our products and packaging materials are subject to regulations administered by the FDA. Among other things, the FDA enforces statutory prohibitions against misbranded and adulterated products, establishes ingredients and manufacturing procedures for certain products, establishes standards of identity for certain products, determines the safety of products and establishes labeling standards and requirements. In addition, various states regulate these products by enforcing federal and state standards of identity for selected products, grading products, inspecting production facilities and imposing their own labeling requirements.

Employees

We had approximately 15,400 full-time employees worldwide as of June 28, 2015. Approximately 15% of our total labor force is covered by collective bargaining agreements. There are three collective bargaining agreements that will expire through the end of our fiscal year ending September 30, 2016, which cover approximately 50% of the labor force under collective bargaining agreements, or approximately 6% of our total labor force. We believe that our overall relationship with our employees is good.

Legal Proceedings***Litigation***

We are a defendant in various matters of litigation generally arising out of the ordinary course of business.

We do not believe that any matters or proceedings presently pending will have a material adverse effect on our results of operations, financial condition, liquidity or cash flows.

Environmental

We have provided for the estimated costs associated with environmental remediation activities at some of our current and former manufacturing sites. We believe that any additional liability that may result from the resolution of these matters in excess of the amounts provided of approximately \$4.5 million as of June 28, 2015, will not have a material adverse effect on our financial condition, results of operations or cash flows.

We are subject to various federal, state and local environmental laws and regulations. We believe we are in substantial compliance with all such environmental laws that are applicable to our operations. See also the discussion captioned Governmental Regulations and Environmental Matters.

EXECUTIVE COMPENSATION

General

Our compensation programs are administered by the compensation committee of SB Holdings. Solely for the purposes of this section, unless otherwise indicated, references to the Compensation Committee refer to such committee and references to the Company refer to SB Holdings and we and us and our refer to SB Holdings and its consolidated subsidiaries.

Our compensation programs are designed to attract and retain highly qualified executives, to align the compensation paid to executives with the business strategies of our Company, and to align the interests of our executives with the interests of our stockholders. These programs are based on our pay-for-performance philosophy in which variable compensation represents a majority of an executive's potential compensation.

In terms of our Fiscal 2014 performance, we reported results that met or exceeded our financial targets, including adjusted EBITDA and consolidated free cash flow. Management continued to execute the Spectrum Value Model in a challenging economic environment, and maintained a disciplined focus on cost controls.

Compensation decisions for the named executive officers (NEOs) in Fiscal 2014 were consistent with our pay-for-performance philosophy and our corporate goals of increased growth and free cash flow generation. These decisions included the following:

Our fiscal results produced annual cash incentive compensation that exceeded target by approximately 10 percent;

We maintained our performance-based equity incentive grants at approximately the same dollar value levels as the prior year, but decreased the number of shares in some cases to reflect the appreciation of our stock as compared to the prior year;

The Spectrum 750 Plan, an equity incentive program, which had a two-year performance period ending September 30, 2014, provided incentives to the NEOs and other key members of management to achieve increased adjusted EBITDA growth, earnings per share growth, and accelerated free cash flow generation, in each case above our forecasted plans for Fiscal 2013 and 2014; and

The Compensation Committee has approved a new multi-year superior achievement program entitled Spectrum \$2B, as the successor program to the Spectrum 750 Plan, which would promote the attainment of stretch goals for key financial performance metrics in a two-year performance period consisting of Fiscal 2015 and Fiscal 2016.

In establishing our compensation programs, our Compensation Committee obtains the advice of an independent outside compensation consultant and evaluates the Company's programs with reference to a peer group of 15 companies, as specified in the section titled Role of Committee-Retained Consultants. In Fiscal 2014, the Compensation Committee engaged Towers Watson as its compensation consultant. In October 2014, the Compensation Committee engaged a new compensation consultant, Lyons, Benenson & Company Inc. (LB & Co.),

replacing Towers Watson, to assist in evaluating and advising on the Company's executive compensation programs.

At our 2014 Annual Meeting of Stockholders (the 2014 Annual Meeting), our stockholders approved, on an advisory basis, the compensation of the Company's named executive officers as disclosed in the Compensation Discussion and Analysis, compensation tables, and related narrative disclosure in the proxy statement for the 2014 Annual Meeting. Our compensation practices as discussed herein are materially consistent with those discussed in the proxy statement for the 2014 Annual Meeting. Additionally, at our 2011 Annual Meeting of Stockholders, our stockholders held a separate vote, on an advisory basis, relating to the frequency of the advisory vote on the compensation of the Company's named executive officers, pursuant to which our

Table of Contents

stockholders indicated their preference that such vote be held every three years, which was the frequency recommended by the Board of Directors. The next stockholder advisory vote on executive compensation, as well as the next advisory vote relating to the frequency of the advisory vote on executive compensation, will be held at the Company's 2017 Annual Meeting of Stockholders.

Our Named Executive Officers

The Company's named executive officers for Fiscal 2014 consisted of the following persons:

Named Executive Officer	Position
David R. Lumley	Chief Executive Officer and President
Douglas L. Martin	Executive Vice President and Chief Financial Officer
Anthony L. Genito	Executive Vice President and Chief Accounting Officer; former Chief Financial Officer
Andreas Rouve	Chief Operating Officer
Nathan E. Fagre	Senior Vice President, General Counsel and Secretary

Our Compensation Committee

The Compensation Committee of our Board of Directors (the Compensation Committee) is responsible for developing, adopting, reviewing, and maintaining the Company's executive compensation programs in order to ensure that they continue to benefit the Company.

Background on Compensation Considerations

The Company pursues several objectives in determining its executive compensation programs. It seeks to attract and retain highly qualified executives and ensure continuity of senior management for the Company as a whole and for each of the Company's business segments, to the extent consistent with the overall objectives and circumstances of the Company. It seeks to align the compensation paid to our executives with the overall business strategies of the Company while leaving the flexibility necessary to respond to changing business priorities and circumstances. It also seeks to align the interests of our executives with those of our stockholders and seeks to reward our executives when they perform in a manner that creates value for our stockholders. In order to carry out this function, the Compensation Committee:

- Considers the advice of independent compensation consultants engaged to advise on executive compensation issues and program design, including advising on the Company's compensation program as it compares to similar companies;

- Reviews compensation summaries for each named executive officer at least once a year, including the compensation and benefit values offered to each executive, accumulated value of equity and other past compensation awards, and other contributors to compensation;

Consults with our Chief Executive Officer and other management personnel and Company consultants, including our Senior Vice President of Global Human Resources, in regards to compensation matters and periodically meets in executive session without management to evaluate management's input; and

Solicits comments and concurrence from other board members regarding its recommendations and actions at the Company's regularly scheduled board meetings.

Philosophy on Performance Based Compensation

The Compensation Committee has designed the Company's executive compensation programs so that, at target levels of performance, a significant portion of the value of each executive's annual compensation (consisting of salary and incentive awards) is based on the Company's achievement of performance objectives set by the Compensation Committee. We believe that a combination of annual fixed base pay and incentive

Table of Contents

performance-based pay provides our named executive officers with an appropriate mix of current cash compensation and performance compensation. However, in applying these compensation programs to both individual and Company circumstances, the percentage of annual compensation based on the Company's achievement of performance objectives set by the Compensation Committee varies by individual, and the Compensation Committee is free to design compensation programs that provide for target-level performance-based compensation to be an amount greater than, equal to, or less than 50% of total annual compensation. For example, for Fiscal 2015, the percentage of annual compensation based on the Company's achievement of performance objectives (set by the Compensation Committee) for the named executive officers is expected to range from 78% to 90%. In addition, to highlight the alignment of the incentive plans with stockholder interests, all of the Company's equity-based incentive programs are performance-based plans.

The remainder of each executive's compensation is made up of amounts that do not vary based on performance. For all named executive officers, these non-performance based amounts are set forth in such executive's employment agreement or written terms of employment, as described below, subject to annual review and potential increase by the Compensation Committee. These amounts are determined by the Compensation Committee taking into account current market conditions, the Company's financial condition at the time such compensation levels are determined, compensation levels for similarly situated executives with other companies, experience level, and the duties and responsibilities of such executive's position.

A component of compensation (whether performance-based or time-based) also consists of multi-year incentive programs. We believe that awards that have multi-year performance periods and that vest over time enhance the stability of our senior management team and provide greater incentives for our named executive officers to remain at the Company.

Role of Committee-Retained Consultants

In Fiscal 2014, our Compensation Committee retained an outside consultant, Towers Watson, to assist us in formulating and evaluating executive and director compensation programs.

During Fiscal 2014, the Compensation Committee, directly or through our Senior Vice President of Global Human Resources, periodically requested Towers Watson to:

Provide comparative market data for our peer group, and other groups on request, with respect to compensation matters;

Analyze our compensation and benefit programs relative to our peer group;

Advise the Compensation Committee on compensation matters and management proposals with respect to compensation matters;

Assist in the preparation of this report and the compensation tables provided herewith; and

On request, participate in meetings of the Compensation Committee.

In order to encourage an independent view point, the Compensation Committee and its members had access to Towers Watson at any time without management present and have consulted from time to time with Towers Watson without management present.

Towers Watson, with input from management and the Compensation Committee, developed a peer group of companies based on a variety of criteria, including type of business, revenue, assets and market capitalization. The composition of this peer group is reviewed annually by the Compensation Committee and the compensation consultant and, if appropriate, revised, based on changes in business orientation of peer group companies, changes in financial size or performance of the Company and the peer group companies, and merger, acquisition, or bankruptcy of companies in the peer group. At the end of Fiscal 2014, the peer group utilized consisted of 14 companies, comprised of Central Garden & Pet Company, Church & Dwight Co., Inc., The Clorox Company,

Energizer Holdings, Inc., Fortune Brands Home & Security, Inc., Hanesbrands Inc., Hasbro, Inc., Jarden Corporation, Mattel, Inc., Newell Rubbermaid Inc., Nu Skin Enterprises, Inc., The Scotts Miracle-Gro Company, Stanley Black & Decker, Inc., and Tupperware Brands Corporation. The peer group for Fiscal 2014 was updated from that of Fiscal 2013 to delete Exide Technologies, which filed for bankruptcy during the fiscal year. While the Compensation Committee does not target a particular range for total compensation as compared to our peer group, it does take this information into account when establishing compensation programs.

No fees were paid to Towers Watson for services other than executive and director compensation consulting during Fiscal 2014. In accordance with SEC rules, our Compensation Committee considered the independence of Towers Watson, including an assessment of the following factors: (i) other services provided to the Company by the consultant; (ii) fees paid as a percentage of the consulting firm's total revenue; (iii) policies or procedures maintained by the consulting firm that are designed to prevent a conflict of interest; (iv) any business or personal relationships between the individual consultants involved in the engagement and any member of our Compensation Committee; (v) any Company stock owned by individual consultants involved in the engagement; and (vi) any business or personal relationships between our executive officers and the consulting firm or the individual consultants involved in the engagement. Our Compensation Committee has concluded that no conflict of interest exists that prevented Towers Watson from independently representing our Compensation Committee during Fiscal 2014.

In October 2014, the Compensation Committee engaged LB & Co. as its new compensation consultant to replace Towers Watson. LB & Co. was retained to review and help guide the Company's compensation philosophy, strategy, and program. LB & Co. is also expected to guide the Compensation Committee on best practices in compensation and governance, as well as apprise the Compensation Committee of trends, developments, legislation, and regulations affecting executive and director compensation.

Use of Employment Agreements***Current Employment and Severance Agreements***

The Compensation Committee periodically evaluates the appropriateness of entering into employment agreements or other written agreements with members of the Company's senior management to govern compensation and other aspects of the employment relationship. The Company limits the use of employment agreements and instead uses severance agreements for most executives. With respect to the named executive officers, at the direction of the Compensation Committee (or its predecessor), the Company has entered into the following written employment agreements with the following executive officers: (i) an Amended and Restated Employment Agreement with Mr. Lumley dated as of August 11, 2010, as amended by the First Amendment to the Employment Agreement dated as of November 16, 2010, (collectively, the Lumley Employment Agreement); (ii) an Employment Agreement with Mr. Genito dated as of June 9, 2008, as amended by the Amendment to Employment Agreement dated as of February 24, 2009, the description of the Second Amendment to the Employment Agreement dated as of August 28, 2009 and the Third Amendment to the Employment Agreement dated November 16, 2010 (collectively, the Genito Employment Agreement); and (iii) an Employment Agreement with Mr. Martin dated as of September 1, 2014 (the Martin Employment Agreement). The Lumley Employment Agreement and Martin Employment Agreement are with both Spectrum Brands and the Company, and the Genito Employment Agreement is only with Spectrum Brands. In addition, Spectrum Brands has entered into a Retention Agreement with Mr. Genito dated as of April 29, 2014, in connection with Mr. Genito's termination of employment with the Company (the Genito Retention Agreement). Mr. Rouve is subject to the Registered Director's Agreement with Rayovac Europe GmbH (Rayovac Europe), an indirect subsidiary of the Company, entered into under German law on August 27, 2007, as amended October 1, 2007, which governs duties, compensation, confidentiality, non-competition, holiday entitlement, non-solicitation, severance and certain other post-employment matters in connection with a potential termination of Mr. Rouve's employment (the

Rouve Employment Agreement). For more information about the Rouve Employment Agreement, see Company Significant Events after Fiscal 2014 . Finally, Spectrum Brands

and Mr. Fagre are parties to a Severance Agreement dated as of November 19, 2012, which governs severance, confidentially, non-competition, and certain other post-employment matters in connection with a potential termination of Mr. Fagre's employment (the "Fagre Severance Agreement").

Term and Renewal

The current term of the Lumley Employment Agreement expires on April 14, 2015, and the term of the Martin Employment Agreement expires on March 1, 2016. The Lumley Employment Agreement provides that upon each anniversary of the commencement date, the term will automatically be extended for an additional one year, unless either party provides the other with notice of non-renewal at least 90 days prior to the next occurring anniversary of the commencement date. The Martin Employment Agreement provides that upon expiration of the current term (and any subsequent renewal term), unless earlier terminated in accordance with such agreement, the agreement will automatically renew for an additional one-year period on September 1st of each year. The Rouve Employment Agreement continues until either party provides six months' written notice indicating termination. Under the Genito Retention Agreement, Mr. Genito and Spectrum Brands have mutually agreed that his employment will terminate effective December 31, 2014 (or on such other date that is mutually agreed to) and Mr. Genito ceased serving as Chief Financial Officer on September 1, 2014. Mr. Genito departed from the Company on January 2, 2015.

Early Termination of Agreements

The Lumley, Martin, Rouve, and Genito Employment Agreements each permit the Company to terminate the executive's employment upon written notice in the event of "cause" (as defined below under the heading "Termination and Change in Control Provisions"). In the case of Mr. Lumley, if the behavior giving rise to "cause" is his willful failure or refusal to perform his duties, or follow the direction of the Board of Directors, then Mr. Lumley will have 15 days to cure such behavior; however, if the behavior giving rise to "cause" is a breach of the Lumley Employment Agreement or other material agreement with the Company, he will have 30 days to remedy such behavior. For Mr. Martin, if the behavior giving rise to "cause" is his willful failure or refusal to perform his duties or follow the direction of the Chief Executive Officer or the Board of Directors, or his material breach of his employment agreement or any other agreement with the Company, then Mr. Martin will have 30 days to cure such behavior following notice. For Mr. Genito, if the behavior giving rise to "cause" is his willful failure or refusal to perform his duties or follow the direction of the Chief Executive Officer, or his material breach of his employment agreement or any other agreement with the Company, then he will have 30 days to cure such behavior following notice. For Mr. Rouve, "cause" will be as defined under German law at the time of the occurrence.

The Lumley Employment Agreement permits the Company to terminate Mr. Lumley's employment without "cause" for any reason upon 60 days' prior written notice or payment in lieu thereof. The Martin Employment Agreement permits the Company to terminate Mr. Martin's employment without "cause" for any reason upon 90 days' prior written notice or payment in lieu thereof. The Genito Employment Agreement permits the Company to terminate Mr. Genito's employment without "cause" for any reason upon 30 days' prior written notice. The Rouve Employment Agreement permits termination by the employer for any reason upon six months' notice or payment in lieu thereof.

The Lumley, Martin, Rouve, and Genito Employment Agreements each permit the Company to terminate the executive's employment upon 30 days' written notice, in the cases of Messrs. Lumley, Martin, and Genito, and three months' written notice in the case of Mr. Rouve, in the event that the executive is unable to perform his duties for a period of at least six months by reason of any mental, physical, or other disability. Each agreement also terminates immediately upon the death of the executive.

The Lumley Employment Agreement allows Mr. Lumley to voluntarily terminate his employment for any reason upon 60 days prior written notice. The Martin Employment Agreement allows Mr. Martin to voluntarily

Table of Contents

terminate his employment for any reason upon 90 days' prior written notice. The Genito Employment Agreement allows Mr. Genito to voluntarily terminate his employment for any reason upon 30 days' prior written notice. The Rouve Employment Agreement allows Mr. Rouve to terminate for any reason upon six months' notice.

The Lumley, Martin, Genito, and Rouve Employment Agreements also provide that if the executive resigns upon the occurrence of specified circumstances that would constitute "good reason" (as defined below under the heading "Termination and Change in Control Provisions"), the executive's resignation will be treated as a termination by the Company without "cause" and entitle the executive to the payments and benefits due with respect to a termination without "cause" under his respective employment agreement. In order to constitute "good reason" under the respective employment agreements, certain specific notice requirements and cure periods must be satisfied. In the case of Mr. Lumley, he would have to provide the Company with 30 days' advance written notice of his intent to resign for "good reason" within 60 days following the occurrence of the facts or circumstances giving rise to "good reason," and the Company will have 30 days thereafter to cure such facts or circumstances. If not cured, Mr. Lumley must terminate his employment within six months of the initial occurrence of the facts or circumstances giving rise to "good reason" in order to constitute "good reason." In the case of Messrs. Genito and Martin, he would have 90 days following the occurrence of the facts or circumstances giving rise to "good reason" to give written notice to the Company of his intent to terminate for "good reason," and the Company will have 30 days thereafter to cure such facts or circumstances. In the case of Mr. Rouve, he would have three months following the occurrence of the facts or circumstances giving rise to "good reason" to give written notice of his intent to terminate for "good reason." For more information regarding employment agreements, see "Company Significant Events after Fiscal 2014."

The Fagre Severance Agreement permits the Company to terminate Mr. Fagre's employment at any time upon written notice for any reason. However, in order for such termination by the Company to be treated as a termination for "cause" (as defined below under the heading "Termination and Change in Control Provisions") as a result of Mr. Fagre's (i) willful failure or refusal to perform his duties and responsibilities to the Company or any of its affiliates, or (ii) breach of any of the terms of his severance agreement or any other agreement between Mr. Fagre and the Company, Mr. Fagre must not have remedied or cured such failure, refusal, or breach within a 30-day cure period. Mr. Fagre may also terminate his employment with the Company at any time upon written notice.

The amounts and benefits payable to each such executive upon the termination of such executive's employment in accordance with their employment agreements are further described under the heading "Termination and Change in Control Provisions."

Compensation Components

For Fiscal 2014, the basic elements of our executive compensation program, as designed by the Compensation Committee, were:

Base salary;

A performance-based annual cash incentive program tied to achievement of performance goals in Fiscal 2014, referred to as our Management Incentive Plan (MIP);

A two-year performance and time-based equity incentive program tied to achievement of superior results by the end of Fiscal 2014 and, with respect to 50% of any award earned, continued employment through the end of Fiscal 2015, referred to as the Spectrum 750 Plan; and

A performance and time-based equity incentive program tied to achievement of performance goals in Fiscal 2014 and, with respect to 50% of any award earned, continued employment through Fiscal 2015, referred to as the Equity Incentive Plan (EIP).

In addition, based on individual circumstances, title, position, and responsibilities, each named executive officer received certain other compensation components and perquisites as described herein.

For Fiscal 2015, the basic elements of our executive compensation program, as designed by our Compensation Committee, remain consistent with those outlined above for Fiscal 2014. The Compensation Committee has established an annual MIP and EIP for Fiscal 2015, with the performance targets and potential award amounts for the named executive officers as described below. The Spectrum 750 Plan was a two-year superior achievement plan which covered Fiscal 2013 and 2014 and has now concluded. The Compensation Committee has established a successor, two-year superior achievement program, Spectrum \$2B, as the successor program to the Spectrum 750 Plan.

Base Salary

The annual base salary for each of Messrs. Lumley, Martin, Genito, and Rouve was initially set forth in each executive's employment agreement, subject to subsequent increases by the Compensation Committee. Mr. Fagre's base salary was initially set by the Chief Executive Officer at the time he joined the Company in January 2011. In determining the annual base salary reflected in each named executive officer's employment agreement or in making any subsequent increases, the Compensation Committee considered current market conditions, the Company's financial condition at the time such compensation levels were determined, compensation levels for similarly situated executives at other companies, experience level, the duties and responsibilities of such executive's position, and the relative sizes of the business segments they manage. Base salary level is subject to evaluation from time to time by the Compensation Committee to determine whether any increase is appropriate. As of the end of Fiscal 2014, the annual base salaries for the named executive officers were as follows:

Named Executive	Annual Base Salary at FYE
	\$
David R. Lumley	945,000
Douglas L. Martin	550,000
Anthony L. Genito	480,000
Andreas Rouve	459,965*
Nathan E. Fagre	375,000

* The amount in the table above for Mr. Rouve was denominated in Euros and converted to U.S. dollars at the rate of \$1.26852 per Euro, which was the published rate from the OANDA Corporation currency database as of September 30, 2014.

Table of Contents

In October 2013, the Compensation Committee, with the assistance of Towers Watson, conducted a review of the compensation of the named executive officers and determined to increase Mr. Fagre's annual base salary to \$375,000 from \$350,000 effective November 1, 2013, and to increase Mr. Lumley's base salary to \$945,000 from \$900,000, effective December 1, 2013. In February 2014, upon Mr. Rouve's promotion to Chief Operating Officer, the Compensation Committee increased his base salary from \$325,000 to \$362,600 (or from \$412,269 to \$459,965 when converted to U.S. dollars based on the September 30, 2014 exchange rate disclosed above).

Management Incentive Plan***General Description***

Our management personnel, including our named executive officers, participate in the Company's annual performance-based cash bonus program referred to as the Management Incentive Plan (or the "MIP"), which is designed to compensate executives and other managers based on achievement of annual corporate, business segment, and/or divisional goals. Under the MIP, each participant has the opportunity to earn a threshold, target, or maximum bonus amount that is contingent upon achieving the performance goals set by the Compensation Committee and reviewed by the Board of Directors. Particular performance objectives (such as increasing EBITDA) are established prior to or during the first quarter of the relevant fiscal year and reflect the Compensation Committee's views at that time of the critical indicators of Company success in light of the Company's primary business priorities.

The specific financial targets with respect to performance goals are then set by the Compensation Committee based on the Company's annual operating plan, as approved by our Board of Directors. The annual operating plan includes performance targets for the Company as a whole as well as for each business segment. In the case of divisional managers within those business segments, divisional level performance targets have also been established.

Fiscal 2014 MIP Program

The Fiscal 2014 MIP program supported the corporate goals of increased EBITDA growth and free cash flow generation described above under the heading "Philosophy on Performance Based Compensation." The performance goals for Fiscal 2014 were adjusted EBITDA and Free Cash Flow (as defined below), each weighted at 50%.

For Fiscal 2014, adjusted EBITDA was defined as earnings (defined as operating income (loss) of the Company plus other income less other expenses) before interest, taxes, depreciation, and amortization and excluding restructuring, acquisition, and integration charges, and other one-time charges. The result of the formula in the preceding sentence was then adjusted so as to negate the effects of acquisitions or dispositions; however, the Compensation Committee had the discretion to determine to include EBITDA from Board-approved acquisitions during the performance period on a case-by-case basis. Free Cash Flow meant adjusted EBITDA plus or minus changes in current and long term assets and liabilities, less cash payments for taxes, restructuring and interest, but excluding proceeds from acquisitions or dispositions. Any reductions in Free Cash Flow resulting from transaction costs or financing fees incurred in connection with any acquisition or refinancing approved by the Board of Directors (in each case during the performance period) was added back to Free Cash Flow.

For Messrs. Lumley, Genito, and Fagre, the Fiscal 2014 performance targets were the same as for the Company as a whole. For Mr. Rouve, with respect to adjusted EBITDA, 80% of that target was based on performance of the International operations, and 20% was based on the Company as a whole.

Table of Contents

The target Fiscal 2014 MIP award levels achievable for each participating named executive officer (as set forth in their respective employment agreements) were as follows (Mr. Martin joined the Company on September 1, 2014, and therefore did not participate in the Fiscal 2014 MIP):

Named Executive	MIP Target as % of Annual Base
David R. Lumley	115%
Anthony L. Genito	100%
Andreas Rouve	75%
Nathan E. Fagre	60%

The 2014 MIP plan design had a minimum financial threshold for each of adjusted EBITDA and Free Cash Flow, below which there was no payout with respect to that objective. The achievement of the goals of adjusted EBITDA and Free Cash Flow were determined and earned independently of one another. The table below reflects for each named executive officer the percentage of his target award achievable pursuant to the performance goals applicable to his award, the performance required to achieve the threshold, target, and maximum payouts based on those performance goals, and the actual 2014 payout factors achieved.

Fiscal 2015 MIP Program

The Fiscal 2015 MIP program continues to follow the plan design from previous years, with the same corporate goals of increasing EBITDA growth and Free Cash Flow generation (each as defined above). For the Fiscal 2015 MIP the performance goals and weights, as well as the definitions of adjusted EBITDA and Free Cash Flow, are the same as

described above for the Fiscal 2014 MIP, provided that the performance targets for each of Messrs. Lumley, Martin, Rouve, and Fagre are equal to those established for the Company as a whole and are not subdivided with regard to the performance of specific business segments or units.

Table of Contents

The Fiscal 2015 MIP award levels achievable at target for the continuing named executive officers are as follows (Mr. Genito is not participating in the Fiscal 2015 MIP due to his departure from the Company):

Named Executive	MIP Target as % of Annual Base
David R. Lumley	115%
Douglas L. Martin	90%
Andreas Rouve ⁽¹⁾	75%
Nathan E. Fagre	60%

(1) Mr. Rouve's Fiscal 2015 MIP target was increased in connection with his promotion to Chief Executive Officer.

See Company Significant Events after Fiscal 2014.

The Fiscal 2015 MIP plan design has a minimum financial threshold for each of adjusted EBITDA and Free Cash Flow, below which there will be no payout with respect to that objective. The achievement of the goals of adjusted EBITDA and Free Cash Flow are determined and earned independently of one another. The named executive officer must be an active employee of the Company on the payout date in order to receive any earned awards. In addition, in the discretion of the Chief Executive Officer, the Company may issue up to a total of \$10 million in equity awards to designated participants in lieu of any cash bonuses earned under the Fiscal 2015 MIP. The table below reflects for each named executive officer the percentage of his target award achievable pursuant to the performance goals applicable to his award, and the performance required to achieve the threshold, target, and maximum payouts based on those performance goals.

Spectrum 750 Plan

During Fiscal 2012, the Compensation Committee, in consultation with members of management, its independent compensation consultant, and outside counsel for the Compensation Committee, adopted a multi-year superior achievement program to promote the attainment of stretch goals for key financial performance metrics for a two-year performance period consisting of Fiscal 2013 and Fiscal 2014 (the 750 Performance Period). Because the program included a goal of achieving adjusted EBITDA of \$750 million in Fiscal 2014, the program is referred to as the Spectrum 750 Plan or Spectrum 750.

The Spectrum 750 Plan was a two-year superior achievement program, with three key performance targets: (1) achieving adjusted EBITDA of at least \$750 million in Fiscal 2014; (2) achieving cumulative Free Cash Flow over Fiscal 2013 and Fiscal 2014 of at least \$550 million; and (3) achieving an earnings per share (EPS) metric in Fiscal 2014 of at least \$5.00 per share. In terms of potential award payouts, 40% of the award was based on adjusted EBITDA, 40% on cumulative Free Cash Flow, and 20% on the EPS metric. Earning awards for these metrics were independent of one another. In addition, there would be no payout with respect to a metric if the target financial goal for that metric was not achieved as of September 30, 2014.

Participants in the Spectrum 750 Plan had the opportunity to earn additional award amounts based on achievement in excess of the performance targets. The overachievement performance targets and weighting were

Table of Contents

as follows: (1) 40% of the overachievement award was based on adjusted EBITDA of \$800 million as of September 30, 2014; (2) 40% of the overachievement award was based on cumulative Free Cash Flow of \$600 million for Fiscal 2013 and 2014 combined; and (3) 20% of the overachievement award was based on EPS of \$6.00 per share for Fiscal 2014. Awards were subject to adjustment based on linear interpolation for performance in excess of target.

For purposes of determining achievement of the targets under the Spectrum 750 Plan, the Compensation Committee established the following definitions:

Adjusted Diluted EPS means GAAP diluted income per share adjusted for the following items as they relate to the calculation of net income: acquisition and integration related charges, restructuring and related charges, one-time debt refinancing costs, inventory fair-value adjustments related to acquisitions, discontinued operations, stock-based compensation amortization related to the Spectrum 750 Plan, the 2013 EIP, and the 2014 EIP, and normalizing the consolidated tax rate at 35 percent. **Adjusted EBITDA** means earnings (defined as operating income (loss) of the Company plus other income less other expenses) before interest, taxes, depreciation, and amortization and excluding restructuring, acquisition, and integration charges, discontinued operations, and other one-time charges. The result of the formula in the preceding sentence was then adjusted so as to negate the effects of acquisitions or dispositions; provided, however that Adjusted EBITDA resulting from businesses or products lines acquired (in Board-approved transactions) during the 750 Performance Period were subject to inclusion in the calculation from the date of acquisition subject to Compensation Committee approval. EBITDA as a result of the Company's acquisition of HHI (including TLM), and a majority interest in Shaser, Inc. were included in the calculation of Adjusted EBITDA.

Cumulative Free Cash Flow means the cumulative amount during the 750 Performance Period of Adjusted EBITDA plus or minus changes in current and long term assets and liabilities, less cash payments for taxes, restructuring, and interest, but excluding proceeds from acquisitions or dispositions. Any reductions in Cumulative Free Cash Flow resulting from transaction costs or financing fees incurred in connection with any Board-approved acquisition, disposition, or refinancing (in each case during the 750 Performance Period) could be added back to Cumulative Free Cash Flow. Cumulative Free Cash Flow as a result of the acquisition of a majority of Shaser, Inc. and as a result of the acquisitions of HHI and TLM, following the dates of their respective acquisitions, were included in the calculation of Cumulative Free Cash Flow.

Payment and Vesting; Eligibility

Under the Spectrum 750 Plan, awards were denominated in dollars but paid out in RSUs or shares of restricted stock based upon fair market value as of September 30, 2014. Each participant was granted a target dollar value. The RSUs or restricted stock earned will be issued under the 2011 Plan. If the applicable performance criteria were met as of September 30, 2014, 50% of the award was required to be paid in fully vested RSUs or restricted stock within 74 days of the close of Fiscal 2014, and 50% was required to be paid in RSUs or restricted stock which vest one year from the prior vesting date, subject to continued employment and any other applicable terms in the underlying award agreement. There were approximately 150 participants in the Spectrum 750 Plan.

The Spectrum 750 Plan also required that the named executive officers, presidents of major business units, and seven other senior executives who receive RSUs or restricted stock pursuant to the plan adhere to certain share retention requirements. In this regard, these participants are required to hold at least 25% of the shares they receive (net of shares sold or withheld by the Company for tax purposes) for a one-year period after the date the shares vest.

Table of Contents*Awards Under the Spectrum 750 Plan*

In early Fiscal 2013, the Company's Board of Directors, upon the recommendation of the Compensation Committee, approved the following award opportunities under the Spectrum 750 Plan for the Company's named executive officers (Mr. Martin is not included in this table because he was not a participant in the 750 Plan):

Name	Value of RSUs or Restricted Stock Granted (in \$)

Andreas Rouve	\$ 775,000	\$ 271,250	\$ 1,046,250
Nathan E. Fagre	\$ 350,000	\$ 122,500	\$ 472,500

Based on performance results for the Spectrum 750 Performance Period, Mr. Lumley earned \$6,000,000, which was converted into 66,276 RSUs; Mr. Genito earned \$1,988,000, which was converted into 21,959 RSUs; Mr. Rouve earned \$418,500, which was converted into 4,622 RSUs; and Mr. Fagre earned \$189,000, which was converted into 2,087 RSUs, in each case, 50% of which were vested on December 1, 2014 and 50% of which shall vest on December 1, 2015.

Spectrum \$2B Plan

During Fiscal 2014 and 2015, the Compensation Committee, in consultation with members of management, its independent compensation consultant, and outside counsel for the Compensation Committee, reviewed and evaluated the success of the Spectrum 750 Plan in light of its original objectives of incentivizing senior management to drive the Company's performance in excess of forecasted levels during Fiscal 2013 and 2014. The Compensation Committee determined Spectrum 750 had succeeded in driving accelerated growth of stockholder value during the 2-year performance period, even though of the three metrics, one was achieved. In designing a successor multi-year plan, the Compensation Committee selected financial performance metrics and targets that similarly would promote significant stockholder value creation. The metrics and targets provide strong incentives to management throughout the 2-year performance cycle as they are challenging, but attainable. Because the successor program includes a goal of achieving \$2 billion of value creation by the end of Fiscal 2016, the program is referred to as the Spectrum \$2B Plan or Spectrum \$2B.

The Compensation Committee is retaining the same performance metrics for the Spectrum \$2B Plan that were used for Spectrum 750 (i.e., Adjusted EBITDA, Cumulative Free Cash flow, and Adjusted Diluted EPS). Similarly, Spectrum \$2B is a two-year superior achievement program with the following key performance targets: (1) achieving Adjusted EBITDA of at least \$800 million in Fiscal 2016; (2) achieving Cumulative Free Cash Flow over Fiscal 2015 and 2016 of at least \$800 million; and (3) achieving Adjusted Diluted EPS in Fiscal 2016 of at least \$5.00 per share. In terms of potential award payouts, 40% of the award is based on Adjusted EBITDA, 40% on Cumulative Free Cash Flow, and 20% on Adjusted Diluted EPS. In addition, there would be no payout with respect to a metric if the performance target is not fully achieved as of September 30, 2016.

Participants in Spectrum \$2B have the opportunity to earn additional award amounts based on achievement in excess of the performance targets. The overachievement performance targets and weighting are as follows: (1) 40% of the overachievement award is based on Adjusted EBITDA of \$835 million as of September 30, 2016, with linear

interpolation of the award if Adjusted EBITDA is between \$800 million and \$835 million for Fiscal 2016; (2) 40% is based on Cumulative Free Cash flow of \$875 million for Fiscal 2015 and 2016 combined, with linear interpolation of the award if such metric is between \$800 million and \$875 million for Fiscal 2015 and 2016 combined; and (3) 20% is based on Adjusted Diluted EPS of \$5.25 per share for Fiscal 2016, with linear interpolation of the award if such metric is between \$5.00 and \$5.25 per share for Fiscal 2016. Under the Spectrum \$2B Plan, maximum payout under each of the performance measures will be reduced by half if the performance on the remaining measures is less than 90 percent of target on each.

Table of Contents

Under the plan design, awards are denominated in dollars and will be payable in RSUs based on the fair market of the Company's shares as of September 30, 2016. Accordingly, there is a target dollar value for the awards to be earned by the named executive officers and other plan participants. If the above performance measures are satisfied as of September 30, 2016, then 50% of the award will be paid in fully vested RSUs within 74 days after the end of Fiscal 2016, and 50% will be paid in RSUs which vest on the first anniversary of the initial vesting date. The named executive officers are required to retain at least 50% of the shares they receive upon vesting (net of any shares withheld by the Company upon vesting for tax purposes) for two years after vesting. There are approximately between 150 and 200 participants in the plan.

In early Fiscal 2015, the Company's Board of Directors, upon the recommendation of the Compensation Committee, approved the following award opportunities under the Spectrum \$2B Plan for the Company's continuing named executive officers (Mr. Lumley is not a participant in the \$2B Plan):

Name	Value of RSUs or Restricted Stock Granted (in \$)		
	Award at Target	Award at Maximum Overachievement	Total
Douglas L. Martin	\$ 2,000,000	\$ 500,000	\$ 2,500,000
Andreas Rouve	\$ 2,000,000	\$ 500,000	\$ 2,500,000
Nathan E. Fagre	\$ 750,000	\$ 187,500	\$ 937,500

Equity Incentive Plans Background**2014 EIP**

The 2014 EIP program is consistent with our prior years' EIP programs. In this regard, awards under the 2014 EIP for all participants were made in the form of performance-based RSUs, and the award agreements provide that the RSUs will vest based on the achievement of the performance goals set for the Company for Fiscal 2014 and on the continued employment of the participant through the fiscal year performance cycle. The Company performance goals are adjusted EBITDA and Free Cash Flow, and the targets are as set forth in the Company's Annual Operating Plan approved by the Board of Directors. The weighting of these goals is 50% for adjusted EBITDA and 50% for Free Cash Flow.

The two performance goals are earned independently of one another. For the Free Cash Flow goal, achievement is measured on a consolidated Company-wide basis for all the named executive officers (for 50% of their target awards). For the adjusted EBITDA goal, with respect to Messrs. Lumley, Genito, and Fagre, achievement is also measured on a Company-wide basis (for the remaining 50% of their target awards). For Mr. Rouve, achievement of the adjusted EBITDA goal is measured both on a Company-wide basis (for 10% of his total target award) and on adjusted EBITDA for the consolidated international operations (for 40% of his total target award).

The potential 2014 RSUs that could be earned by each participating named executive officer in respect of the 50% of the award based on adjusted EBITDA (expressed as a percentage of that portion of the award amount), ranged from 50% for achievement of the threshold adjusted EBITDA performance level established by the Compensation Committee, 100% for achieving the goal in full at the target performance level, and up to a maximum of 150% of the target award if actual performance reached or exceeded the specified upper achievement threshold. For the 50% of the award based on Free Cash Flow, the named executive officers could earn 50% of this portion of the award for achievement of the threshold Free Cash Flow performance level, 100% for achieving the goal in full at the target

performance level, and up to a maximum of 135% of the target award if actual performance reached or exceeded the specified upper achievement threshold. The award agreements for the 2014 EIP provided that if an award is earned for Fiscal 2014, then 50% of the RSUs awarded would vest as soon as practicable after certification of the results by the Compensation Committee, but no later than 74 days following the end of Fiscal 2014, and 50% would vest on the first anniversary of the initial vesting date, subject to continued employment on such anniversary. Performance between threshold and target levels, and between

Table of Contents

target and maximum levels, would be earned based on a linear curve between the various levels. If both applicable threshold performances were not achieved, then no RSUs would be earned under the 2014 EIP.

The plan design for the 2014 EIP was such that the minimum thresholds for earning any award under either goal were set at the level of the prior year's actual performance. The Compensation Committee also provided in the award agreements for the named executive officers in the 2014 EIP program that such officers were required to hold at least 25% of the net shares they receive (after any shares withheld by the Company for tax purposes) for at least one year. In addition, the named executive officers, and all other officers at the Vice President level or higher, were subject to the share ownership guidelines discussed below.

The table below reflects for each participating named executive officer the RSU award amount, the performance metrics established by the Compensation Committee, the weighting of each performance metric, the percentage of his target award achievable pursuant to the performance goals applicable to his award, the performance required to achieve the threshold, target, and maximum vesting eligibility based on those performance goals, and the percentage payout factor actually achieved (Mr. Martin is not included in this table because he was not a participant in the 2014 EIP):

NEO (# of RSUs Awarded)	Performance Metric	Weight (% of Award)	Performance Required to Be Eligible To Vest Indicated % of RSUs (\$ in millions)				
			Target (50%)	Target (100%)	Maximum (150%) for Adjusted EBITDA; 135% for Free Cash Flow)	Calculated 2014 Payout Factor (% of Target Bonus)	
David R. Lumley (84,398)	Consolidated Adjusted EBITDA	50%	\$ 690.0	\$ 710.0	\$ 773.9	116.61%	
	Consolidated Free Cash Flow	50%	\$ 254.0	\$ 340.0	\$ 370.6	100.00%	
Anthony L. Genito (38,363)	Consolidated Adjusted EBITDA	50%	\$ 690.0	\$ 710.0	\$ 773.9	116.61%	
	Consolidated Free Cash Flow	50%	\$ 254.0	\$ 340.0	\$ 370.6	100.00%	
Andreas Rouve (25,523)	Consolidated Adjusted EBITDA	50%	\$ 690.0	\$ 710.0	\$ 773.9	116.61%	
	Consolidated Free Cash Flow	50%	\$ 254.0	\$ 340.0	\$ 370.6	100.00%	
Nathan E. Fagre (19,949)	Consolidated Adjusted EBITDA	50%	\$ 690.0	\$ 710.0	\$ 773.9	116.61%	
	Consolidated Free Cash Flow	50%	\$ 254.0	\$ 340.0	\$ 370.6	100.00%	

Of the RSUs granted as listed above, a portion of the granted amount constitutes an award for overachievement of the financial targets. For Mr. Lumley, this portion is 6,472 RSUs; for Mr. Genito, 2,942 RSUs; for Mr. Rouve, 1,958 RSUs; and for Mr. Fagre, 1,530 RSUs. These RSUs will vest on the first anniversary of the initial vesting date, on December 1, 2015, so long as the recipient remains employed with the Company on such date and the Fiscal 2015 levels of adjusted EBITDA and consolidated free cash flow are at least as great as the Fiscal 2014 results.

2015 EIP

The 2015 EIP program continues to be consistent with the design of our prior years' EIP programs. As with prior years, awards under the 2015 EIP for all participants are made in the form of performance-based RSUs, and the award agreements will provide that RSUs will vest based on the achievement of the performance goals set for the Company for Fiscal 2015 and on the continued employment of the participant through the fiscal year performance cycle. As with prior years, for the 2015 EIP the Company performance goals are adjusted EBITDA and Free Cash Flow, and the targets are as set forth in the Company's Annual Operating Plan approved by the Board of Directors. The weighting of these two goals is 50% for adjusted EBITDA and 50% for Free Cash Flow.

Table of Contents

As with prior years, under the 2015 EIP the two performance goals are earned independently of one another. For the 2015 EIP, the achievement of the performance goals for each of Messrs. Lumley, Martin, Rouve, and Fagre are measured on a consolidated Company-wide basis and are not subdivided with regard to the performance of specific business segments or units.

The potential 2015 RSUs that may be earned for each of our participating named executive officers, for the 50% of the award based on adjusted EBITDA, expressed as a percentage of that portion of the award amount, range from 50% for achievement of the threshold adjusted EBITDA performance level established by the Compensation Committee of \$724.2 million, 100% for achieving the performance goal in full at the target performance level of \$760.0 million, and up to a maximum of 135% of the target award if actual performance reaches or exceeds the upper achievement threshold of \$798.0 million. For the 50% of the award based on Free Cash Flow, the named executive officers could achieve 50% of this portion of the award for achievement of the threshold Free Cash Flow performance level of \$360.0 million, 100% for achieving the performance goal in full at the target performance level of \$400.0 million, and up to a maximum of 135% of the target award if actual performance reaches or exceeds the upper achievement threshold of \$424.0 million.

The 2015 EIP design has a minimum financial threshold for each of adjusted EBITDA and Free Cash Flow, set at the level of better than the prior year's actual performance, below which there will be no payout with respect to that objective. The award agreements for the 2015 EIP provide that if an award is earned for Fiscal 2015, then 50% of the RSUs awarded would vest as soon as practicable after certification of the results by the Compensation Committee, but no later than 74 days following the end of Fiscal 2015, and 50% would vest on the first anniversary of the initial vesting date, subject to continued employment on such anniversary. Performance between threshold and target levels, and between target and maximum levels, would be earned based on a linear curve between the various levels. If both applicable threshold performances are not achieved, then no RSUs will be earned. The Compensation Committee also will provide in the award agreements for the named executive officers in the 2015 EIP program that such officers are required to hold at least 25% of the net shares they receive (after any shares withheld by the Company for tax purposes) for at least one year. In addition, the named executive officers, and all other officers at the Vice President level or higher, are subject to the share ownership guidelines discussed below.

Other Compensation Matters***Stock Ownership Guidelines***

The Board of Directors believes that certain of the Company's officers should own and hold Company common stock to further align their interests with the interests of stockholders and to further promote the Company's commitment to sound corporate governance. Therefore, effective January 29, 2013, the Board of Directors, upon the recommendation of the Compensation Committee, established stock ownership guidelines applicable to the Company's named executive officers and all other officers of the Company and its subsidiaries with a level of Vice President or above.

Under the stock ownership guidelines, the applicable officers are expected to achieve the levels of stock ownership indicated below (which equal a dollar value of stock based on a multiple of the officer's base salary) in the applicable time periods:

Position	\$ Value of Stock to be Retained (Multiple of	Years to Achieve
-----------------	--	-------------------------

	Base Salary)	
Chief Executive Officer	5x Base Salary	2 years
Chief Financial Officer, Chief Operating Officer, and Presidents of business units	3x Base Salary	2 years
General Counsel and Senior Vice Presidents	2x Base Salary	3 years
Vice Presidents	1x Base Salary	3 years

Table of Contents

The stock ownership levels attained by an officer are based on shares directly owned by the officer, whether through earned and vested RSU or restricted stock grants or open market purchases. Unvested restricted shares, unvested RSUs, and stock options are not counted toward the ownership goals. The Compensation Committee reviews, on an annual basis, the progress of the officers in meeting the guidelines, and in some circumstances failure to meet the guidelines by an officer could result in additional retention requirements or other actions by the Compensation Committee.

In addition, the Chief Executive Officer, Chief Financial Officer, Chief Operating Officer, business unit Presidents, the General Counsel, and six other officers also are subject to an additional stock retention requirement that they must retain at least 25% of their net shares of Company stock (after tax withholding) received under awards granted under the Fiscal 2014 EIP, Fiscal 2015 EIP, and Spectrum 750 Plan for one year after the vesting date of such awards. Under the terms of the Spectrum \$2B Plan, all participants at the level of Vice President or higher will be subject to the 50% stock retention requirement (net of tax withholding) for two years after the date of vesting of awards under that plan.

Deferral and Post-Termination Rights

Retirement Benefits

The Company maintains a 401(k) plan for its employees, including the named executive officers.

Supplemental Executive Life Insurance Program

Each of Messrs. Lumley, Martin, and Genito participates in a program pursuant to which the Company on behalf of each participant makes an annual contribution on October 1 each year equal to 15% of such participant's base salary as of that date into a company-owned executive life insurance policy for such participant. The investment options for each such policy are selected by the participant from among a limited number of alternatives provided by the insurance provider.

Post-Termination Benefits

As described above, the Company has entered into agreements with Messrs. Lumley, Martin, Rouve, and Fagre which govern, among other things, post-termination benefits payable to each such named executive officer should his employment with the Company terminate. In addition, Spectrum Brands has entered into the Genito Retention Agreement which provides for certain benefits and compensation to Mr. Genito in connection with his termination of employment with the Company. A detailed description of the post-termination rights and benefits pursuant to each of the agreements described in this paragraph is set forth under the heading **Termination and Change in Control Provisions** below.

Perquisites and Benefits

The Company provides certain limited perquisites and other special benefits to certain executives, including the named executive officers. Among these benefits are financial planning services, tax planning services, car allowances or leased car programs, executive medical exams, and executive life and disability insurance.

Timing and Pricing of Stock-Based Grants

The Company currently does not issue stock options to any officers or employees. Traditionally, annual grants of restricted stock or RSUs to our named executive officers are made on the date or as soon as practicable following the

date on which such grants are approved by the Compensation Committee or the Board, or, if the award dictates the achievement of a particular event prior to grant, as soon as practicable after the achievement of such event. For purposes of valuing awards made under the 2011 Plan, the grant price is the closing sales price of the Company's common stock on the exchange on which the Company's shares are listed on the grant date.

Tax Treatment of Certain Compensation

Pursuant to Section 162(m) of the Internal Revenue Code, the Company may not be able to deduct certain forms of compensation paid to its Chief Executive Officer and the three other most highly compensated named executive officers (other than the Chief Financial Officer) who remain employed at the end of a fiscal year to the extent such compensation exceeds \$1,000,000. This section also includes an exception for certain performance-based compensation awards. While the Compensation Committee believes that it is generally in the Company's best interests to satisfy these deductibility requirements, it retains the right to authorize payments in excess of the deductibility limits if it believes it to be in the interests of the Company and its stockholders. The Company has had in the past, and specifically reserves the right to have in the future, instances where it pays compensation to its executives that exceeds the deductibility limits.

Tax Payments

The Company provides increases in payments to the named executive officers and other management personnel to cover personal income tax due as a result of imputed income in connection with the provision of the following perquisites: car allowance or company leased car, financial planning and tax planning and executive life and disability insurance, and Company-required relocation. Beyond these tax payments, the Company does not make any other payments to the named executive officers to cover personal income taxes.

Governing Plans

On October 21, 2010, our Board of Directors approved the 2011 Plan, subject to the approval of the stockholders at the 2011 Annual Meeting. The 2011 Plan was subsequently approved at the 2011 Annual Meeting. At the 2014 Annual Meeting, our stockholders approved an amendment to the 2011 Plan to increase by 1,000,000 the number of shares of Common Stock available for issuance under the 2011 Plan, for an aggregate total of 5,625,676 shares. As of December 8, 2014, we have issued a total of 4,657,088 restricted shares and RSUs under the 2011 Plan, and have remaining authorization under the 2011 Plan to issue up to a total of 968,588 shares of our common stock, or options or restricted stock units exercisable for shares of common stock.

Clawback/Forfeiture and Recoupment Policy

Under the 2011 Plan, any equity award agreement granted may be cancelled by the Compensation Committee in its sole discretion, except as prohibited by applicable law, if the participant, without the consent of the Company, while employed by or providing services to the Company or any affiliate or after termination of such employment or service, violates a non-competition, non-solicitation, or non-disclosure covenant or agreement or otherwise engages in activity that is in conflict with or adverse to the interests of the Company or any affiliate, including fraud or conduct contributing to any financial restatements or irregularities engaged in activity, as determined by the Compensation Committee in its sole discretion. The Compensation Committee may also provide in any award agreement that the participant will forfeit any gain realized on the vesting or exercise of such award, and must repay the gain to the Company, in each case except as prohibited by applicable law, if (a) the participant engages in any activity referred to in the preceding sentence, or (b) the amount of any such gain is in excess of what the participant should have received under the terms of the award for any reason (including without limitation by reason of a financial restatement, mistake in calculations, or other administrative error). Additionally, awards are subject to claw-back, forfeiture, or similar requirements to the extent required by applicable law (including without limitation Section 302 of the Sarbanes-Oxley Act and Section 954 of the Dodd Frank Act). All equity awards that have been granted under the 2011 Plan to date include such provisions.

(1) Titles included in this column are as of September 30, 2014.

(2) For Fiscal 2014, this column reflects grants of performance-based restricted stock units under the 2014 EIP, and, with respect to Mr. Martin only, under the 2011 Plan relating to a one-time grant of 28,868 shares of time-based restricted stock granted on September 1, 2014 in connection with his appointment as the Executive Vice President and Chief Financial Officer of the Company. For Fiscal 2013, this column reflects grants of performance-based restricted stock units under the 2013 EIP, a one-time special incentive integration bonus award in connection with the acquisition of the hardware and home improvement business from Stanley Black & Decker, Inc., and grants under the Spectrum 750 Plan. For Fiscal 2012, this column reflects grants of performance-based restricted stock units under the 2012 EIP, and, with respect to Mr. Fagre only, under the 2011 Plan relating to a one-time grant of

5,000 shares of restricted stock. This column reflects the aggregate grant date fair value of the awards computed in accordance with ASC Topic 718. For a discussion of the relevant valuation assumptions, see Note 2(s), Significant Accounting Policies and Practices Stock Compensation, to our audited Consolidated Financial Statements, included elsewhere in this prospectus. The performance-based restricted stock unit awards are subject to performance conditions and the values listed in this column with respect to such awards are based on the probable outcome of such conditions at target as of the grant date. If the conditions for the highest level of performance are achieved, the value of the awards would be as follows (with the exception of Mr. Martin, who did not receive any grants of performance-based RSUs in Fiscal 2014): Mr. Lumley (2014 \$7,810,030; 2013 \$23,561,200, which includes \$15,000,000 under Spectrum 750; and 2012 \$6,220,649); Mr. Genito (2014 \$3,550,033; 2013 \$9,519,706, which includes \$5,000,000 under Spectrum 750; and 2012 \$3,185,171); Mr. Rouve (2014 \$2,343,048; and 2013 \$2,242,890, which includes \$1,046,250 under Spectrum 750); and Mr. Fagre (2014 \$1,846,020; 2013 \$1,369,980, which includes \$472,500 under Spectrum 750; and 2012 \$376,250). At the lowest level of performance, the performance-based restricted stock unit awards are forfeited.

Lumley, Genito, Rouve, and Fagre were settled in shares of common stock in lieu of cash on December 2, 2013 and December 5, 2014, respectively, as follows: Mr. Lumley 16,049 shares for the 2013 MIP and 13,336 shares for the 2014 MIP; Mr. Genito 7,433 shares for the 2013 MIP and 5,890 shares for the 2014 MIP; Mr. Rouve 5,495 shares for the 2013 MIP and 4,117 shares for the 2014 MIP; and Mr. Fagre 3,256 shares for the 2013 MIP and 2,761 shares for the 2014 MIP. Each of these is governed by the 2011 Plan and, as such, contain provisions triggered by a change in control of the Company. For purposes of these incentive plans, change in control generally means the occurrence of any of the following events:

- (i) the acquisition, by any individual, entity or group of beneficial ownership of more than 50% of the combined voting power of the Company's then outstanding securities;
- (ii) individuals who constituted the Board of Directors at the effective time of the plan and directors who are nominated and elected as their successors from time to time cease for any reason to constitute at least a majority of the Board;
- (iii) consummation of a merger or consolidation of the Company or any direct or indirect subsidiary of the Company with any other entity, other than (A) a merger or consolidation which results in the voting securities of the Company outstanding immediately prior to such merger or consolidation continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or any parent thereof) more than 50% of the combined voting power of the voting securities of the Company or such surviving entity or any parent thereof outstanding immediately after such merger or consolidation, (B) a merger or consolidation effected to implement a recapitalization of the Company (or similar transaction) in which no individual, entity or group is or becomes the beneficial owner, directly or indirectly, of voting securities of the Company (not including in the securities beneficially owned by such individual, entity or group any securities acquired directly from the Company or any of its

direct or indirect subsidiaries) representing 50% or more of the combined voting power of the Company's then outstanding voting securities or (C) a merger or consolidation affecting the Company as a result of which a Designated Holder owns after such transaction more than 50% of the combined voting power of the voting securities of the Company or such surviving entity or any parent thereof outstanding immediately after such merger or consolidation; or

(iv) approval by the stockholders of the Company of either a complete liquidation or dissolution of the Company or the sale or other disposition of all or substantially all of the assets of the Company, other than a sale or disposition by the Company of all or substantially all of the assets of the Company to an entity, more than 50% of the combined voting power of the voting securities of which are owned by stockholders of the Company in substantially the same proportions as their ownership of the Company immediately prior to such sale.

Provided that, in each case, it shall not be a change in control if, immediately following the occurrence of the event described above (i) the record holders of the common stock of the Company immediately prior to the event continue to have substantially the same proportionate ownership in an entity which owns all or substantially all of the assets of the Company immediately following the event, or (ii) the Harbinger Master Fund, the Harbinger Special Situations Fund, HRG, and their respective affiliates and subsidiaries beneficially own, directly or indirectly, more than 50% of the combined voting power of the Company or any successor.

In general, in the event a change in control occurs, the Board of Directors may, in its sole discretion, provide that, with respect to any particular outstanding awards:

(i) all stock options and stock appreciation rights outstanding as of immediately prior to the change in control will become immediately exercisable;

(ii) the restricted period shall expire immediately prior to the change in control with respect to up to 100 percent of the then-outstanding shares of restricted stock or RSUs (including, without limitation, a waiver of any applicable performance goals);

(iii) all incomplete performance periods in effect on the date the change in control occurs shall end on that date, and the Compensation Committee may (i) determine the extent to which performance goals with respect to each such performance period have been met based on such audited or unaudited financial information or other information then available it deems relevant and (ii) cause the participant to receive partial or full payment of awards for each such performance period based upon the Compensation Committee's determination of the degree of attainment of such performance goals, or assuming that the applicable target levels of performance have been attained or on such other basis determined by the Compensation Committee; and

(iv) any awards previously deferred shall be settled as soon as practicable.

Mr. Martin of any deliberate and premeditated act taken by Mr. Martin in bad faith against the interests of the Company; (ii) Mr. Martin has been convicted of, or pleads nolo contendere with respect to any felony, or of any lesser crime or offense having as its predicate element fraud, dishonesty or misappropriation of the property of the Company; (iii) the habitual drug addiction or intoxication of Mr. Martin which negatively impacts his job performance or Mr. Martin's failure of a company-required drug test; (iv) the willful failure or refusal of Mr. Martin to perform his duties as set forth in the employment agreement or the willful failure or refusal to follow the direction of the Chief Executive Officer or the Board of Directors; or (v) Mr. Martin materially breaches any of the terms of the Martin Employment Agreement.

The above benefits will cease immediately upon the discovery by the Company of Mr. Martin's breach of the non-compete and non-solicitation provisions or the secret processes and confidentiality provisions included in his employment agreement. The Martin Employment Agreement includes non-competition and non-solicitation provisions that extend for 18 months following Mr. Martin's termination, and confidentiality provisions that extend for seven years following Mr. Martin's termination.

Anthony L. Genito

As discussed above, Mr. Genito and Spectrum Brands have entered into the Genito Retention Agreement, pursuant to which Mr. Genito and Spectrum Brands have mutually agreed that his employment will terminate effective December 31, 2014 (or on such other date that is mutually agreed to). Mr. Genito ceased being the Chief Financial Officer on September 1, 2014. The Genito Retention Agreement also provides for certain benefits and compensation to Mr. Genito in connection with his termination of employment. Mr. Genito departed from the Company on January 2, 2015. In the event Mr. Genito is terminated for cause or resigns from his employment without good reason prior to December 31, 2014, the Genito Retention Agreement will be deemed null and void and he will not be entitled to receive the benefits or compensation provided for in such agreement. See Genito Retention Agreement below for a further description of the terms and conditions of this agreement.

The Genito Retention Agreement contains the following provisions applicable upon the termination of Mr. Genito's employment with the Company or in the event of a change in control of the Company.

Termination for Cause or Voluntary Termination by the Executive (other than for Good Reason). In the event that Mr. Genito is terminated for cause or terminates his employment voluntarily, other than for good reason, Mr. Genito's salary and other benefits provided under his employment agreement cease at the time of such termination and Mr. Genito is entitled to no further compensation under his employment agreement. Notwithstanding this, Mr. Genito would be entitled to continue to participate in the Company's medical benefit plans to the extent required by law. Further, upon any such termination of employment, the Company would pay to Mr. Genito accrued pay and benefits.

Termination without Cause or for Good Reason, Death or Disability. If the employment of Mr. Genito with the Company is terminated by the Company without cause, by Mr. Genito for good reason, or due to Mr. Genito's death or disability, or by virtue of a non-renewal of the employment agreement, Mr. Genito is entitled to receive certain post-termination benefits, detailed below, contingent upon execution of a separation agreement with a release of claims agreeable to the Company. In such event the Company will:

pay Mr. Genito two times the sum of Mr. Genito's (i) base salary in effect immediately prior to his termination, and (ii) target annual bonus award for the fiscal year immediately preceding the fiscal year in which such termination occurs ratably over the 24-month period immediately following his termination;

pay Mr. Genito the pro rata portion of the annual bonus (if any) earned by him pursuant to any annual bonus or incentive plan maintained by the Company in respect of the fiscal year in which such termination occurs, to be paid at the time such bonuses are paid to continuing employees of the Company for such fiscal year, but no later than December 31 immediately following the end of the fiscal year in which such termination occurs; and

Table of Contents

for the 24-month period immediately following such termination arrange to provide Mr. Genito and his dependents with insurance and other benefits on a basis substantially similar to those provided to Mr. Genito and his dependents by the Company immediately prior to the date of termination at no greater cost to Mr. Genito or the Company than the cost to Mr. Genito and the Company immediately prior to such date.

Change in Control. Under the Genito Employment Agreement, Mr. Genito may elect to terminate his employment within 60 days following a change in control (as defined under the 2011 Plan). Such termination by Mr. Genito will be treated as a termination by the Company without cause, and Mr. Genito would be entitled to the benefits described above within Termination without Cause or for Good Reason, Death or Disability. The Company may require that Mr. Genito remain employed by the Company for up to a maximum of 6 months following the change in control.

For Mr. Genito, good reason is defined, in general, subject to notification and cure rights as described above under the heading Use of Employment Agreements, as, the occurrence of any of the following events without Mr. Genito's consent:

any material reduction in Mr. Genito's annual base salary;

the required relocation of Mr. Genito's place of principal employment to an office more than 50 miles, from Mr. Genito's current office, or the requirement by the Company that Mr. Genito be based at an office other than his current office on an extended basis;

a substantial diminution or other substantive adverse change in the nature or scope of Mr. Genito's responsibilities, authorities, powers, functions, or duties, provided that the Company may replace Mr. Genito as Chief Accounting Officer of the Company without implicating this subsection;

a breach by the Company of any of its other material obligations under the Genito Employment Agreement; or

the failure of the Company to obtain the agreement of any successor to the Company to assume and agree to perform the Genito Employment Agreement.

For Mr. Genito, cause is defined, in general, subject to notification and cure rights as described above in Use of Employment Agreements, as the occurrence of any of the following events: (i) the commission by Mr. Genito of any deliberate and premeditated act taken by Mr. Genito in bad faith against the interests of the Company; (ii) Mr. Genito has been convicted of, or pleads nolo contendere with respect to any felony, or of any lesser crime or offense having as its predicate element fraud, dishonesty or misappropriation of the property of the Company; (iii) the habitual drug addiction or intoxication of Mr. Genito which negatively impacts his job performance or Mr. Genito's failure of a company-required drug test; (iv) the willful failure or refusal of Mr. Genito to perform his duties as set forth herein or the willful failure or refusal to follow the direction of the Chief Executive Officer; or (v) Mr. Genito materially breaches any of the terms of the Genito Employment Agreement.

The above benefits will cease immediately upon the discovery by the Company of Mr. Genito's breach of the non-compete and non-solicitation provisions or the secret processes and confidentiality provisions included in his employment agreement. The Genito Employment Agreement includes non-competition and non-solicitation

provisions that extend for one year following Mr. Genito's termination and confidentiality provisions that extend for two years following Mr. Genito's termination.

Genito Retention Agreement

On April 29, 2014, Spectrum Brands and Mr. Genito mutually agreed that, effective December 31, 2014 (or such other date that is agreed to), Mr. Genito's employment will terminate and he will resign from any and all titles, positions, and appointments that he holds with the Company. In connection with his resignation, the Company and Mr. Genito entered into the Genito Retention Agreement.

Table of Contents

Under the terms of the Genito Retention Agreement, Mr. Genito will continue to remain employed by the Company through December 31, 2014 (unless earlier terminated) and was required to assist with the transition of the hiring of a new Chief Financial Officer (Mr. Martin was appointed the Company's new Chief Financial Officer on September 1, 2014). Under the Genito Retention Agreement, Mr. Genito will receive the following payments and benefits: (i) \$1,920,000, which is equal to two (2) times Mr. Genito's annual base salary and target bonus, payable in monthly installments of \$80,000 in the form of Company common stock over a period of twenty-four (24) months; (ii) an additional MIP payment for 2014 equal to the amount determined for Mr. Genito pursuant to the Company's 2014 MIP based on the Company's actual performance results for Fiscal 2014, which amount will be paid at the same time as other payments are made to 2014 MIP participants, and in any case no later than December 31, 2014; (iii) payment for accrued but unused vacation days; (iv) for a period of twenty-four (24) months, a monthly payment equal to the monthly COBRA continuation coverage cost; (v) the Executive Life Insurance benefit for Mr. Genito and his eligible dependents for twenty-four (24) months at the level and of the type provided to active employees of the Company from time to time; (vi) entitlement to purchase his Company vehicle pursuant to Company policy; and (vii) the reimbursement of any unreimbursed business expenses. In addition, if Mr. Genito performs his duties and responsibilities in a satisfactory matter (including the smooth transition of his duties to a new Chief Financial Officer and the related preparation, filing, and certification of the Company's annual filings for Fiscal 2014) as determined by the Chairman of the Compensation Committee, then Mr. Genito may receive a payment of \$500,000 (payable in the form of Company common stock). However, notwithstanding the foregoing, in the event Mr. Genito is terminated for cause or resigns from his employment without good reason prior to December 31, 2014, the Genito Retention Agreement will be deemed null and void and he will not be entitled to receive any benefits or compensation set forth above in clauses (i), (ii), (iii), (iv), (v), or (vi) of this paragraph, or the equity awards described in the immediately succeeding paragraph.

In addition, Mr. Genito will be eligible to earn and vest in restricted stock units under the Company's 2014 equity award programs and the Spectrum 750 Plan, to the extent that the applicable performance criteria are met for Fiscal 2014.

Mr. Genito has agreed to a customary release of potential claims against the Company and to customary post-employment restrictive covenants in favor of the Company, as well as being available to consult with the Company during the 24-month period after termination of his employment.

Andreas Rouve

The Rouve Employment Agreement contains the following provisions applicable upon the termination of Mr. Rouve's employment with the Company.

Termination for Cause or Voluntary Termination by the Executive (other than for Good Reason). In the event that Mr. Rouve is terminated for cause or terminates his employment voluntarily, other than for good reason, Mr. Rouve's salary and other benefits provided under his employment agreement cease at the time of such termination and Mr. Rouve is entitled to no further compensation under his employment agreement. Notwithstanding this, Mr. Rouve would be entitled to continue to participate in the Company's medical benefit plans to the extent required by law. Further, upon any such termination of employment, the Company would pay to Mr. Rouve accrued pay and benefits.

Termination without Cause or for Good Reason, Death or Disability. If the employment of Mr. Rouve with the Company is terminated by the Company without cause, by Mr. Rouve for good reason, or due to Mr. Rouve's death or disability, Mr. Rouve is entitled to receive certain post-termination benefits, detailed below. In such event the Company will:

pay Mr. Rouve two times the sum of Mr. Rouve's (i) base salary in effect immediately prior to his termination, and (ii) annual bonus (if any) awarded for the fiscal year immediately preceding the fiscal year in which such termination occurs ratably over the 12-month period immediately following his termination; and

Table of Contents

for the 24-month period immediately following such termination arrange to provide Mr. Rouve and his dependents with insurance and other benefits on a basis substantially similar to those provided to Mr. Rouve and his dependents by the Company immediately prior to the date of termination at no greater cost to Mr. Rouve or the Company than the cost to Mr. Rouve and the Company immediately prior to such date. The above benefits will cease immediately upon the discovery by the Company of Mr. Rouve's breach of the agreement not to compete, confidentiality and non-solicitation provisions included in the Rouve Employment Agreement. The Rouve Employment Agreement includes a non-competition provision that extends for one year following Mr. Rouve's termination and the confidentiality provisions and non-solicitation provisions that survive termination of the agreement. As compensation for these post-contractual non-competition obligations, in the event Mr. Rouve is terminated for cause, Mr. Rouve will receive 50% of his last received contractual salary for the non-competition period.

For Mr. Rouve, "good reason" is defined, in general, subject to notification and cure rights as described above under the heading "Use of Employment Agreements," as the occurrence of any of the following events without Mr. Rouve's consent:

any material reduction in Mr. Rouve's annual base salary;

the required relocation of Mr. Rouve's place of principal employment to an office more than 50 miles from Mr. Rouve's current office, or the requirement by the Company that Mr. Rouve be based at an office other than his current office on an extended basis;

a material diminution or other substantive adverse change in the nature or scope of Mr. Rouve's responsibilities, authorities, powers, functions, or duties; or

a material breach by the Company of any of its other material obligations under the Rouve Employment Agreement and the Company's failure to cure that breach within 30 days of written notice from Mr. Rouve. The Company's subsidiary, Rayovac Europe, also assumed the obligations of the Pension Agreement between Mr. Rouve and VARTA Geratebatterie GmbH dated May 17, 1989 as supplemented on July 1, 1999 (the "Rouve Pension Agreement"). Under the Rouve Pension Agreement, pension payments will be paid to Mr. Rouve upon permanent disablement, reaching 65 years of life or earlier retirement at the requirement of the Company. Pension pay will be \$44,398 (€ 17,895) per year. In the case of resignation or termination the acquired pension benefit is nonlapsable. The pension plan is based on accruals during the employment period of Mr. Rouve, for which Rayovac Europe makes all contributions to the accrual. As of September 30, 2014 the accrual for Mr. Rouve's pension plan equaled \$228,649 (€ 180,249). Rayovac Europe's allocation to the accrual amount for Fiscal 2014 was \$17,131 (€ 13,505). Every three years after retirement the current pay will be increased according to the Employers' Retirement Benefits Law (Betriebsrentengesetz). All amounts in this paragraph for Mr. Rouve were denominated in Euros and converted to U.S. dollars at the rate of \$1.26852 per Euro, which was the published rate from the OANDA Corporation currency database as of September 30, 2014. See "Company Significant Events after Fiscal 2014" for more information regarding Mr. Rouve's employment.

Notwithstanding this, Mr. Fagre would be entitled to continue to participate in the Company's medical benefit plans to the extent required by law. Company Significant Events after Fiscal 2014

This section will provide you with a brief review of certain significant employment events that have occurred at the Company since the end of Fiscal 2014. This section, however, is not a summary of all of the compensation decisions made with respect to our named executive officers after Fiscal 2014, which will be summarized in next year's report.

Lumley Transition Employment Agreement

Effective January 8, 2015, the Company entered into a transition employment agreement (the Lumley Transition Employment Agreement) with Mr. Lumley for his continued employment as the Chief Executive Officer of the Company through September 30, 2015 or such earlier date as determined by the Board of Directors of the Company (such period, the Transition Period). Mr. Lumley retired as the Chief Executive Officer on March 31, 2015 but he remains employed as an advisor through September 30, 2015.

At the end of the Transition Period, unless otherwise requested in writing by the Board, Mr. Lumley shall resign from all positions with the Company and any of its affiliates (whether as an officer, director, employee, consultant, or otherwise), provided that if requested by the Board, Mr. Lumley shall serve as a strategic advisor to the Chairman of the Board.

During the Transition Period, Mr. Lumley shall continue to receive his base salary and employee benefits as set forth in the Lumley Employment Agreement. For Fiscal 2015, Mr. Lumley shall be entitled to participate in the annual cash bonus program and to receive an equity award consisting of restricted stock units equal to \$5 million on the date of grant, provided that such award shall only vest and be payable if the Company achieves adjusted EBITDA of at least \$760 million for Fiscal 2015. The equity award, to the extent earned based on achievement of \$760 million of adjusted EBITDA for Fiscal 2015, shall vest 50% each year over the following two years. Mr. Lumley will not receive any

grants or participate in the Company's annual bonus plan or equity plan for Fiscal 2016 and will not participate in the Company's long term incentive plan for the Fiscal 2015-2016 performance period, known as the Spectrum \$2B plan.

Table of Contents

At the end of the Transition Period, subject to the Mr. Lumley's execution of a separation agreement and release of claims, the Company will pay pursuant to a retention bonus for Mr. Lumley's agreement to enter into the Lumley Transition Employment Agreement, an amount in cash equal to two times the sum of Mr. Lumley's base salary and prior year's annual target bonus, payable in installments over 24 months generally commencing on the six month anniversary of the end of the Transition Period. In addition, Mr. Lumley would be entitled to \$25,000 on the first anniversary of the termination date as well as the continuation of certain benefits for a period of 24 months following the termination date, plus an additional payment of \$75,000. Mr. Lumley is not entitled to any severance, whether pursuant to the Lumley Employment Agreement or the Lumley Transition Employment Agreement. During the Transition Period and for a period of two years thereafter, Mr. Lumley is subject to noncompete and nonsolicit covenants.

Appointment of Andreas Rouve as Chief Executive Officer and President

On March 16, 2015, the Company announced the appointment of Andreas Rouve as the Company's new Chief Executive Officer and President, succeeding David R. Lumley as Chief Executive Officer of the Company. Mr. Rouve's appointment as Chief Executive Officer and President became effective as of April 1, 2015.

In connection with his appointment, Mr. Rouve entered into an Employment Agreement, dated March 16, 2015, with the Company and its wholly-owned subsidiary, Spectrum Brands, Inc. (the "2015 Rouve Employment Agreement"). The 2015 Rouve Employment Agreement provides Mr. Rouve with an annual base salary of \$735,000 ("Base Salary") and he will be eligible to receive a management incentive plan ("MIP") bonus for each fiscal year, based on a target of 125% of Base Salary (the "Target Amount") paid during the applicable fiscal year during the term of the Employment Agreement, provided the Company achieves certain annual performance goals as established by the Board and/or the Compensation Committee. If such performance goals are met, the MIP bonus will be payable in cash or stock in accordance with customary Company practices within 74 days after the end of the fiscal year to which the bonus relates. If Mr. Rouve exceeds the performance targets, the bonus will be increased in accordance with the formula approved by the Compensation Committee no later than the close of the first quarter of the applicable fiscal year; provided that, the bonus will not exceed 250% of the Target Amount. Notwithstanding the foregoing, for fiscal 2015 Mr. Rouve's MIP bonus will be calculated on a pro rata basis, with the bonus amount for the period beginning on April 1, 2015 through September 30, 2015 based on his base salary and bonus calculation as set forth in the 2015 Rouve Employment Agreement, and the bonus amount for the period prior to April 1, 2015 based on his base salary and bonus calculation as set forth in his previously disclosed employment agreement.

Additionally, Mr. Rouve will be eligible to participate in the Company's ("EIP") whereby, for fiscal year 2015, Mr. Rouve will be provided a RSU award valued at \$3,000,000 at the time of the award, subject to the terms and conditions as established by the Board and/or Compensation Committee. This EIP grant for fiscal 2015 is the sum of a \$2,000,000 grant originally awarded to Mr. Rouve in December 2014, and an additional \$1,000,000 grant awarded as promptly as practicable following April 1, 2015. Mr. Rouve will also be eligible to participate in the Spectrum \$2B Plan, whereby Mr. Rouve will be eligible to receive an RSU award valued at \$3,000,000 at the time of the award, subject to the terms and conditions as established by the Board and/or Compensation Committee (the "S2B Equity Award"). This S2B Equity Award constitutes the sum of the \$2,000,000 grant made to Mr. Rouve under the Spectrum \$2B Plan in February 2015, and an additional \$1,000,000 grant to be awarded as promptly as practicable following April 1, 2015. All RSUs granted pursuant to the EIP and the Spectrum \$2B Plan are issued under the 2011 Plan. If a change in control (as defined in the 2011 Plan) occurs within 24 months following April 1, 2015, then all of Mr. Rouve's outstanding and unvested equity awards will vest in full upon the earlier of (i) the first anniversary of the change in control, or (ii) the date Mr. Rouve's employment is terminated by the Company without Cause (as defined below) or by Mr. Rouve for Good Reason (as defined below).

The 2015 Rouve Employment Agreement also provides Mr. Rouve with certain other compensation and benefits, including the following: (i) certain relocation benefits, including the use of a Company-funded

Table of Contents

executive apartment for up to 6 months; (ii) eligibility for Mr. Rouve to participate in the Company's executive auto lease program; and (iii) a stipend for income tax filings and returns preparation and advice and estate planning advice. In addition, the previously disclosed Pension Agreement between VARTA Gerätebatterie GMBH and Mr. Rouve dated May 17, 1989 including the supplement of July 1, 1999, which was assumed by the Company, will remain in effect.

Under the 2015 Rouve Employment Agreement, Mr. Rouve is entitled to receive severance benefits if his employment is terminated under certain circumstances. In this regard, if Mr. Rouve's employment is terminated by the Company without Cause (as defined below), by Mr. Rouve for Good Reason (as defined below), or by reason of death or by the Company for disability, he will be entitled to the following severance benefits: (i) a cash payment equal to 1.5x base salary, and a cash payment equal to 1x the target annual MIP bonus of 125% of Mr. Rouve's then current Base Salary, each payable ratably on a monthly basis over the 18-month period following termination; (ii) a pro rata portion, in cash, of the annual MIP bonus Mr. Rouve would have earned for the fiscal year in which termination occurs if his employment had not ceased; (iii) medical insurance coverage and certain other employee benefits for Mr. Rouve and his dependents for the 18-month period following termination; and (iv) payment of accrued vacation time pursuant to Company policy.

If Mr. Rouve's employment is terminated by the Company for Cause or if Mr. Rouve voluntarily terminates his employment, he will be entitled to continue to participate in the Company's medical benefit plans to the extent required by law, and the Company will promptly pay Mr. Rouve his accrued salary and vacation pay, reimbursement for expenses incurred through the date of termination, and accrued benefits through the Company's benefit plans and programs.

For purposes of the 2015 Rouve Employment Agreement, Cause is defined as (i) the commission by Mr. Rouve of any deliberate and premeditated act taken by him in bad faith against the interests of the Company that causes or is reasonably anticipated to cause material harm to the Company; (ii) Mr. Rouve being convicted of, or pleading nolo contendere with respect to, any felony or of any lesser crime or offense having as its predicate element fraud, dishonesty, or misappropriation of the property of the Company that causes or is reasonably anticipated to cause material harm to the Company; (iii) the habitual drug addiction or intoxication of Mr. Rouve which negatively impacts his job performance or Mr. Rouve's failure of a Company-required drug test; (iv) the willful failure or refusal of Mr. Rouve to perform his duties as set forth in the agreement or the willful failure or refusal to follow the direction of the Board, provided such failure or refusal continues after 30 calendar days of the receipt of written notice from the Board of such failure or refusal; or (v) Mr. Rouve materially breaches any of the terms of the 2015 Rouve Employment Agreement or any other agreement between himself and the Company and the breach is not cured within 30 calendar days after written notice from the Company.

In addition, for purposes of the 2015 Rouve Employment Agreement, Good Reason is defined as (i) any reduction, not consented to by Mr. Rouve, in Mr. Rouve's Base Salary or target MIP bonus opportunity, then in effect; (ii) the relocation, not consented to by Mr. Rouve, of the Company's office at which he is principally employed as of April 1, 2015 to a location more than 50 miles from such office, or the requirement by the Company that Mr. Rouve be based at an office other than the Company's office at such location on an extended basis, except for required business travel; (iii) a substantial diminution or other substantive adverse change, not consented to by Mr. Rouve, in the nature or scope of his responsibilities, authorities, powers, functions, or duties; (iv) a breach by the Company of any of its material obligations under the 2015 Rouve Employment Agreement; or (v) the failure of the Company to obtain the agreement for any successor to the Company to assume and agree to perform the 2015 Rouve Employment Agreement.

Mr. Rouve is bound by noncompetition provisions that restrict him from competing with the Company (with certain exceptions) for 18 months following the termination of his employment with the Company. Mr. Rouve also is subject to nonsolicitation restrictions with respect to Company customers and employees for the same 18-month period. In addition, Mr. Rouve is subject to confidentiality provisions protecting the Company's confidential business information from unauthorized disclosure.

Director Compensation

The Compensation Committee is responsible for approving, subject to review by the Board of Directors as a whole, compensation programs for our non-employee directors. In that function, the Compensation Committee considers market data regarding director compensation and evaluates the Company's director compensation practices in light of that data and the characteristics of the Company as a whole, with the assistance of its outside counsel.

After reviewing current director compensation benchmarking data with its independent compensation advisors, the Compensation Committee has approved a compensation program for our non-employee directors. In

this regard, each non-employee director receives an annual cash retainer of \$105,000 and an annual grant of restricted stock units equal to that number of shares of the Company's common stock with a value on the date of grant of \$105,000. The Chair of the Audit Committee receives an additional annual cash retainer of \$20,000, and the Chairs of the Nominating and Corporate Governance Committee and the Compensation Committee each receive an additional annual cash retainer of \$15,000. Directors are permitted to make an annual election to receive all of their director compensation in the form of Company stock in lieu of cash.

In April 2013, the Board of Directors determined to establish Stock Ownership Guidelines for Directors (such guidelines had been established for officers of the Company, including the named executive officers, in January 2013). Under these guidelines for Directors, each Director is expected to hold shares of the Company's common stock equal to at least one times the Director's annual compensation for service as a director.

For Fiscal 2014, the grants of restricted stock units were made in November 2013 and vested on September 30, 2014. For Fiscal 2015, the grants of restricted stock units were made on October 1, 2014 and will vest on September 30, 2015.

David R. Lumley, who was an employee of the Company during Fiscal 2014 in addition to his service as a Director, received no additional compensation for his service as a director of the Company.

The table set forth below, together with its footnotes, provides information regarding compensation paid to the Company's directors for Fiscal 2014. David R. Lumley, who received no compensation as a director during Fiscal 2014, is omitted from the table.

Merger Agreement and Registration Rights Agreement

On June 16, 2010, the Company completed its merger with Russell Hobbs, Inc. ("Russell Hobbs") (the "Russell Hobbs Merger") pursuant to the Agreement and Plan of Merger, dated as of February 9, 2010, as amended on March 1, 2010, March 26, 2010, and April 30, 2010, by and among SB Holdings, Russell Hobbs, Spectrum Brands, Battery Merger Corp., and Grill Merger Corp. In connection with the Russell Hobbs Merger, Harbinger Capital Partners Master Fund I, Ltd., Harbinger Capital Partners Special Situations Fund, L.P. and Global Opportunities Breakaway Ltd. (together the "Harbinger Parties") and SB Holdings entered into a stockholder agreement, dated February 9, 2010 (the "Stockholder Agreement"), which provides for certain protective provisions in favor of minority stockholders and provides certain rights and imposes certain obligations on the Harbinger Parties, including:

for so long as the Harbinger Parties and their affiliates beneficially own 40% or more of the outstanding voting securities of SB Holdings, the Harbinger Parties and SB Holdings will cooperate to ensure, to the greatest extent possible, the continuation of the structure of SB Holdings board of directors as described in the Stockholder Agreement;

Table of Contents

the Harbinger Parties will not effect any transfer of equity securities of SB Holdings to any person that would result in such person and its affiliates owning 40% or more of the outstanding voting securities of SB Holdings, unless specified conditions are met; and

the Harbinger Parties will be granted certain access and informational rights with respect to SB Holdings and its subsidiaries.

Pursuant to a joinder to the Stockholder Agreement entered into by the Harbinger Parties and HRG, upon consummation of the previously disclosed share exchange between the Harbinger Parties and HRG on January 7, 2011 (such transaction, the Share Exchange), HRG became a party to the Stockholder Agreement, and is subject to all of the covenants, terms and conditions of the Stockholder Agreement to the same extent as the Harbinger Parties were bound thereunder prior to giving effect to the Share Exchange.

Certain provisions of the Stockholder Agreement terminate on the date on which the Harbinger Parties or HRG no longer beneficially own, in the aggregate, 40% or more of the outstanding voting securities of SB Holdings. The Stockholder Agreement terminates when any person (including the Harbinger Parties or HRG) becomes the beneficial owner of 90% or more of the outstanding voting securities of SB Holdings.

Also in connection with the Russell Hobbs Merger, the Harbinger Parties and SB Holdings entered into a registration rights agreement, dated as of February 9, 2010 (the SB Holdings Registration Rights Agreement), pursuant to which the Harbinger Parties have, among other things and subject to the terms and conditions set forth therein, certain demand and so-called piggy back registration rights with respect to their shares of SB Holdings common stock. On September 10, 2010, the Harbinger Parties and HRG entered into a joinder to the SB Holdings Registration Rights Agreement, pursuant to which, effective upon the consummation of the Share Exchange, HRG became a party to the SB Holdings Registration Rights Agreement, entitled to the rights and subject to the obligations of a holder thereunder.

Initial 2025 Notes

Jefferies LLC, a wholly owned subsidiary of Leucadia National Corporation, which through subsidiaries beneficially owns approximately 23% of the outstanding common stock of HRG, which in turn owned 58% of SB Holdings outstanding common stock as of June 30, 2015, acted as (i) one of the initial purchasers for the issuance of the 2025 initial notes and (ii) one of the underwrites for Spectrum Brands equity offering and one of the financing institutions that committed to provide to Spectrum Brands back stop bridge facilities in an aggregate amount of \$1.5 billion in connection with the financing of the AAG Acquisition.

Table of Contents**DESCRIPTION OF OTHER INDEBTEDNESS****Credit Agreement**

On June 23, 2015, we entered into the Credit Agreement by and among Spectrum Brands, SB/RH Holdings, Deutsche Bank AG New York Branch, as administrative agent, and the lenders party thereto from time to time.

General

The terms of the Credit Agreement allows Spectrum Brands and certain of its subsidiaries, subject to certain conditions, to increase the amount of the commitment thereunder by an aggregate incremental amount not to exceed at the time of incurrence the sum of (x) \$900 million plus (y) all voluntary prepayments (unless funded by a contemporaneous refinancing or new long-term indebtedness) of the New Credit Facilities. Incremental amounts may be incurred in reliance on the basket in clause (x) or clause (y) plus (z) additional amounts so long as on the date of incurrence thereof (or, at our option, on the date of establishment of the commitments in respect thereof), the First Lien Leverage Ratio (as defined in the Credit Agreement) on a pro forma basis would not exceed 3.25:1.00. As of the date hereof, no such incremental amounts have been committed to by any lender.

Obligations under the Credit Agreement and, at our option, under certain interest rate protection or other hedging arrangements and certain cash management arrangements (collectively, the Secured Obligations) are guaranteed by SB/RH Holdings and the direct and indirect wholly-owned domestic subsidiaries of SB/RH Holdings, other than Spectrum Brands (the Subsidiary Guarantors), subject to certain exceptions, pursuant to the Loan Guaranty, dated as of June 23, 2015, by and among SB/RH Holdings, the subsidiary guarantors party thereto from time to time and Deutsche Bank AG New York Branch, as administrative agent and collateral agent (the Loan Guaranty). The Secured Obligations are secured by first-priority liens on substantially all of the assets of Spectrum Brands and the Subsidiary Guarantors and on the equity interests of Spectrum Brands directly held by SB/RH Holdings pursuant to the Security Agreement, dated as of June 23, 2015, by and among Spectrum Brands, SB/RH Holdings, the subsidiary guarantors party thereto from time to time and Deutsche Bank AG New York Branch, as collateral agent (the Security Agreement).

All outstanding amounts under the USD Term Loan Facility (if funded in U.S. dollars) will bear interest, at Spectrum's option, at a rate per annum equal to (x) the LIBO rate with a 0.75% floor, adjusted for statutory reserves, plus a margin equal to 3.00% or (y) the Alternate Base Rate (as defined in the Credit Agreement), plus a margin equal to 2.00%, which margins may be reduced by 0.25% based on achieving a certain First Lien Leverage Ratio specified in the Credit Agreement. Voluntary prepayments of borrowings under the Credit Agreement are permitted at any time, in agreed-upon minimum principal amounts. There is a prepayment fee equal to 1.00% of the principal amount of the loans under any New Term Loan Facility optionally prepaid with the proceeds of lower cost debt on or prior to the date that is six months following June 23, 2015. Prepayment made after such date will not be subject to premium or penalty (except customary LIBOR breakage costs, if applicable).

6.375% and 6.625% Senior Notes

On December 17, 2012, Spectrum Brands assumed \$520,000,000 aggregate principal amount of 6.375% Senior Notes at par value, due November 15, 2020 (the 6.375% Notes) and \$570,000,000 aggregate principal amount of 6.625% Senior Notes at par value, due November 15, 2022, previously issued by Spectrum Brands Escrow Corporation. The 6.375% Notes and the 6.625% Notes are unsecured and guaranteed by Spectrum Brands parent company, SB/RH Holdings, as well as by existing and future domestic restricted subsidiaries.

The indenture governing the 6.375% Notes and the 6.625% Notes (the 2020/22 Indenture) provides that Spectrum Brands may redeem all or part of the 6.375% Notes and the 6.625% Notes, upon not less than 30 or more than 60 days notice, at specified redemption prices. Further, the 2020/22 Indenture requires Spectrum Brands to make an offer, in cash, to repurchase all or a portion of the applicable outstanding notes for a specified redemption price, including a redemption premium, upon the occurrence of a change of control of Spectrum Brands, as defined in such indenture.

The 2020/22 Indenture contains customary covenants that limit, among other things, the incurrence of additional indebtedness, payment of dividends on or redemption or repurchase of equity interests, the making of certain investments, expansion into unrelated businesses, creation of liens on assets, merger or consolidation with another company, transfer or sale of all or substantially all assets, and transactions with affiliates.

In addition, the 2020/22 Indenture provides for customary events of default, including failure to make required payments, failure to comply with certain agreements or covenants, failure to make payments when due or on acceleration of certain other indebtedness, and certain events of bankruptcy and insolvency. Events of default under the 2020/22 Indenture arising from certain events of bankruptcy or insolvency will automatically cause the acceleration of the amounts due under the 6.375% Notes and the 6.625% Notes. If any other event of default under the 2020/22 Indenture occurs and is continuing, the trustee for the 2020/22 Indenture or the registered holders of at least 25% in the then aggregate outstanding principal amount of the 6.375% Notes, or the 6.625% Notes, may declare the acceleration of the amounts due under those notes.

THE EXCHANGE OFFER

Terms of the Exchange Offer

We are offering to exchange our exchange notes for a like and corresponding aggregate principal amount of our initial notes.

The exchange notes that we propose to issue in this exchange offer will be substantially identical to the form and terms of our initial notes except that, unlike our initial notes, the exchange notes (i) have been registered under the Securities Act and will be freely tradable by persons who are not our affiliates or subject to restrictions due to being a broker-dealer, (ii) are not entitled to the registration rights applicable to the initial notes under the applicable Registration Rights Agreement and (iii) our obligation to pay additional interest on the initial notes due to the failure to consummate the exchange offer by a prior date does not apply to the exchange notes. In addition, our obligation to pay interest on the initial notes due to the failure to consummate the exchange offer by a prior date does not apply to the exchange notes. You should read the description of the exchange notes in the sections in this prospectus entitled *Description of 2024 Notes* and *Description of 2025 Notes*, as applicable.

Initial notes may be exchanged only for a minimum principal denomination of \$2,000 and in integral multiples of \$1,000 in excess thereof.

We reserve the right in our sole discretion to purchase or make offers for any initial notes that remain outstanding following the expiration or termination of this exchange offer and, to the extent permitted by applicable law, to purchase initial notes in the open market or privately negotiated transactions, one or more additional tender or exchange offers or otherwise. The terms and prices of these purchases or offers could differ significantly from the terms of this exchange offer.

Expiration Date; Extensions; Amendments; Termination

This exchange offer will expire at 5:00 p.m., New York City time, on the expiration date unless we extend it in our reasonable discretion. The expiration date of this exchange offer will be at least 20 business days after the commencement of the exchange offer in accordance with Rule 14e-1(a) under the Securities Exchange Act of 1934, as amended (the Exchange Act).

We expressly reserve the right to delay acceptance of any initial notes (only due to an extension of this exchange offer) in accordance with Rule 14e-1(c), extend or terminate this exchange offer and not accept any initial notes that we have not previously accepted if any of the conditions described below under *Conditions to the Exchange Offer* have not been satisfied or waived by us. We will notify the exchange agent of any extension by oral notice promptly confirmed in writing or by written notice. We will also notify the holders of the initial notes by a press release or other public announcement communicated before 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date unless applicable laws require us to do otherwise.

We also expressly reserve the right to amend the terms of this exchange offer in any manner. If we make any material change, we will promptly disclose this change in a manner reasonably calculated to inform the holders of our initial notes of the change including providing public announcement or giving oral or written notice to these holders. A material change in the terms of this exchange offer could include a change in the timing of this exchange offer, a change in the exchange agent and other similar changes in the terms of this exchange offer. If we make any material change to this exchange offer, we will disclose this change by means of a post-effective amendment to the registration statement which includes this prospectus and will distribute an amended or supplemented prospectus to each

registered holder of initial notes. In addition, we will extend this exchange offer for an additional five to ten business days as required by the Exchange Act, depending on the significance of the amendment, if this exchange offer would otherwise expire during that period. We will promptly notify the exchange agent by oral notice, promptly confirmed in writing, or written notice of any delay in acceptance, extension, termination or amendment of this exchange offer.

Procedures for Tendering Initial Notes

Proper Execution and Delivery of Letters of Transmittal

To tender your initial notes in this exchange offer, you must use *one of the three* alternative procedures described below:

- (1) *Regular delivery procedure:* Complete, sign and date the letter of transmittal, or a facsimile of the letter of transmittal. Have the signatures on the letter of transmittal guaranteed if required by the letter of transmittal. Mail or otherwise deliver the letter of transmittal or the facsimile together with the certificates representing the initial notes being tendered and any other required documents to the exchange agent before 5:00 p.m., New York City time, on the expiration date.
- (2) *Book-entry delivery procedure:* Send a timely confirmation of a book-entry transfer of your initial notes, if this procedure is available, into the exchange agent's account at DTC in accordance with the procedures for book-entry transfer described under *Book-Entry Delivery Procedure* below, before 5:00 p.m., New York City time, on the expiration date.
- (3) *Guaranteed delivery procedure:* If time will not permit you to complete your tender by using the procedures described in (1) or (2) above before the expiration date and this procedure is available, comply with the guaranteed delivery procedures described under *Guaranteed Delivery Procedure* below.

The method of delivery of the initial notes, the letter of transmittal and all other required documents is at your election and risk. Instead of delivery by mail, we recommend that you use an overnight or hand-delivery service. If you choose the mail, we recommend that you use registered mail, properly insured, with return receipt requested. **In all cases, you should allow sufficient time to assure timely delivery.** You should not send any letters of transmittal or initial notes to us. You must deliver all documents to the exchange agent at its address provided below. You may also request your broker, dealer, commercial bank, trust company or nominee to tender your initial notes on your behalf.

Only a holder of initial notes may tender initial notes in this exchange offer. A holder is any person in whose name initial notes are registered on our books or any other person who has obtained a properly completed bond power from the registered holder.

If you are the beneficial owner of initial notes that are registered in the name of a broker, dealer, commercial bank, trust company or other nominee and you wish to tender your notes, you must contact that registered holder promptly and instruct that registered holder to tender your notes on your behalf. If you wish to tender your initial notes on your own behalf, you must, before completing and executing the letter of transmittal and delivering your initial notes, either make appropriate arrangements to register the ownership of these notes in your name or obtain a properly completed bond power from the registered holder. The transfer of registered ownership may take considerable time.

You must have any signatures on a letter of transmittal or a notice of withdrawal guaranteed by:

- (1)

Edgar Filing: National Openings, LLC - Form S-4

a member firm of a registered national securities exchange or of the Financial Industry Regulatory Authority, Inc. (FINRA);

- (2) a commercial bank or trust company having an office or correspondent in the United States; or
- (3) an eligible guarantor institution within the meaning of Rule 17Ad-15 under the Exchange Act, *unless* the initial notes are tendered:
 - (a) by a registered holder or by a participant in DTC whose name appears on a security position listing as the owner, who has not completed the box entitled Special Issuance Instructions or Special Delivery Instructions on the letter of transmittal and only if the exchange notes are being issued directly to this registered holder or deposited into this participant s account at DTC; or

- (b) for the account of a member firm of a registered national securities exchange or of FINRA, a commercial bank or trust company having an office or correspondent in the United States or an eligible guarantor institution within the meaning of Rule 17Ad-15 under the Exchange Act.

If the letter of transmittal or any bond powers are signed by:

- (1) the registered holder(s) of the initial notes tendered: the signature must correspond with the name(s) written on the face of the initial notes without alteration, enlargement or any change whatsoever.
- (2) a participant in DTC: the signature must correspond with the name as it appears on the security position listing as the holder of the initial notes.
- (3) a person other than the registered holder of any initial notes: these initial notes must be endorsed or accompanied by bond powers and a proxy that authorize this person to tender the initial notes on behalf of the registered holder, in satisfactory form to us as determined in our sole discretion, in each case, as the name of the registered holder or holders appears on the initial notes.
- (4) trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity: these persons should so indicate when signing. Unless waived by us, evidence satisfactory to us of their authority to so act must also be submitted with the letter of transmittal.

To tender your initial notes in this exchange offer, you must make the following representations:

- (1) you are authorized to tender, sell, assign and transfer the initial notes tendered and to acquire exchange notes issuable upon the exchange of such tendered initial notes, and that we will acquire good and unencumbered title thereto, free and clear of all liens, restrictions, charges and encumbrances and not subject to any adverse claim when the same are accepted by us;
- (2) any exchange notes acquired by you pursuant to this exchange offer are being acquired in the ordinary course of business, whether or not you are the holder;
- (3) you or any other person who receives exchange notes, whether or not such person is the holder of the exchange notes, has no arrangement or understanding with any person to participate in a distribution (within the meaning of the Securities Act) of such exchange notes and is not participating in, and does not intend to participate in, the distribution of such exchange notes;
- (4) you or such other person who receives exchange notes, whether or not such person is the holder of the exchange notes, is not an affiliate, (as defined in Rule 405 of the Securities Act), of ours, or if you or such other person is an affiliate, you or such other person will comply with the registration and prospectus delivery requirements of the Securities Act to the extent applicable;

- (5) if you are not a broker-dealer, you represent that you are not engaged in, and do not intend to engage in, a distribution of exchange notes; and

- (6) if you are a broker-dealer that will receive exchange notes for your own account in exchange for initial notes that were acquired by you as a result of market-making or other trading activities, you acknowledge that you will deliver a prospectus meeting the requirements of the Securities Act in connection with any resale of such exchange notes.

You must also warrant that the acceptance of any tendered initial notes by us and the issuance of exchange notes in exchange therefor shall constitute performance in full of our obligations under the Registration Rights Agreements relating to the initial notes.

To effectively tender notes through DTC, the financial institution that is a participant in DTC will electronically transmit its acceptance through the Automatic Tender Offer Program. DTC will then edit and verify the acceptance and send an agent's message to the exchange agent for its acceptance. An agent's message

is a message transmitted by DTC to the exchange agent stating that DTC has received an express acknowledgment from the participant in DTC tendering the notes that this participant has received and agrees to be bound by the terms of the letter of transmittal, and that we may enforce this agreement against this participant.

Book-Entry Delivery Procedure

Any financial institution that is a participant in DTC's systems may make book-entry deliveries of initial notes by causing DTC to transfer these initial notes into the exchange agent's account at DTC in accordance with DTC's procedures for transfer. To effectively tender the initial notes through DTC, the financial institution that is a participant in DTC will electronically transmit its acceptance through the Automatic Tender Offer Program. DTC will then edit and verify the acceptance and send an agent's message to the exchange agent for its acceptance. An agent's message is a message transmitted by DTC to the exchange agent stating that DTC has received an express acknowledgment from the participant in DTC tendering the initial notes that such participant has received and agrees to be bound by the terms of the letter of transmittal, and that we may enforce this agreement against such participant. The exchange agent will make a request to establish an account for the initial notes at DTC for purposes of this exchange offer within two business days after the date of this prospectus.

A delivery of initial notes through a book-entry transfer into the exchange agent's account at DTC will only be effective if an agent's message, or the letter of transmittal or a facsimile of the letter of transmittal with any required signature guarantees and any other required documents, is transmitted to and received by the exchange agent at the address indicated below under Exchange Agent before 5:00 p.m., New York City time, on the expiration date unless the guaranteed delivery procedures described below are complied with. **Delivery of documents to DTC does not constitute delivery to the exchange agent.**

Guaranteed Delivery Procedure

If you are a registered holder of initial notes and desire to tender your notes, and (1) these notes are not immediately available, (2) time will not permit your notes or other required documents to reach the exchange agent before 5:00 p.m., New York City time, on the expiration date, or (3) the procedures for book-entry transfer cannot be completed on a timely basis, you may still tender your initial notes in this exchange offer if:

- (1) you tender through a member firm of a registered national securities exchange or of FINRA, a commercial bank or trust company having an office or correspondent in the United States, or an eligible guarantor institution within the meaning of Rule 17Ad-15 under the Exchange Act;

- (3) the certificates for all your tendered initial notes in proper form for transfer or a book-entry confirmation as the case may be, and all other documents required by the letter of transmittal are received by the exchange agent within three NYSE trading days after the expiration date.

Acceptance of Initial Notes for Exchange; Delivery of Exchange Notes

Your tender of initial notes will constitute an agreement between you and us governed by the terms and conditions provided in this prospectus and in the related letter of transmittal.

Table of Contents

We will be deemed to have received your tender as of the date when your duly signed letter of transmittal accompanied by your initial notes tendered, or a timely confirmation of a book-entry transfer of these notes into the exchange agent's account at DTC with an agent's message, or a notice of guaranteed delivery from an eligible institution is received by the exchange agent.

All questions as to the validity, form, eligibility, including time of receipt, acceptance and withdrawal of tenders will be determined by us in our sole discretion. Our determination will be final and binding.

We reserve the absolute right to reject any and all initial notes not properly tendered or any initial notes which, if accepted, would, in our opinion or our counsel's opinion, be unlawful. We also reserve the absolute right to waive any conditions of this exchange offer or irregularities or defects in tender as to particular notes with the exception of conditions to this exchange offer relating to the obligations of broker dealers, which we will not waive. If we waive a condition to this exchange offer, the waiver will be applied equally to all note holders. Our interpretation of the terms and conditions of this exchange offer, including the instructions in the letter of transmittal, will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of initial notes must be cured within such time as we shall determine. None of us, the exchange agent or any other person will be under any duty to give notification of defects or irregularities with respect to tenders of initial notes. None of us, the exchange agent or any other person will incur any liability for any failure to give notification of these defects or irregularities. Tenders of initial notes will not be deemed to have been made until such irregularities have been cured or waived. The exchange agent will return without cost to their holders any initial notes that are not properly tendered and as to which the defects or irregularities have not been cured or waived promptly following the expiration date.

If all the conditions to this exchange offer are satisfied or waived on the expiration date, we will accept all initial notes properly tendered and will issue the exchange notes promptly thereafter. Please refer to the section of this prospectus entitled "Conditions to the Exchange Offer" below. For purposes of this exchange offer, initial notes will be deemed to have been accepted as validly tendered for exchange when, as and if we give oral or written notice of acceptance to the exchange agent.

We will issue the exchange notes in exchange for the initial notes tendered pursuant to a notice of guaranteed delivery by an eligible institution only against delivery to the exchange agent of the letter of transmittal, the tendered initial notes and any other required documents, or the receipt by the exchange agent of a timely confirmation of a book-entry transfer of initial notes into the exchange agent's account at DTC with an agent's message, in each case, in form satisfactory to us and the exchange agent.

If any tendered initial notes are not accepted for any reason provided by the terms and conditions of this exchange offer or if initial notes are submitted for a greater principal amount than the holder desires to exchange, the unaccepted or non-exchanged initial notes will be returned without expense to the tendering holder, or, in the case of initial notes tendered by book-entry transfer procedures described above, will be credited to an account maintained with the book-entry transfer facility, promptly after withdrawal, rejection of tender or the expiration or termination of this exchange offer.

By tendering into this exchange offer, you will irrevocably appoint our designees as your attorney-in-fact and proxy, with full power of substitution and resubstitution to the full extent of your rights on the initial notes tendered. This proxy will be considered coupled with an interest in the tendered initial notes. This appointment will be effective only when, and to the extent that, we accept your notes in this exchange offer. All prior proxies on these initial notes will then be revoked and you will not be entitled to give any subsequent proxy. Any proxy that you may give subsequently will not be deemed effective. Our designees will be empowered to exercise all voting and other rights of the holders as they may deem proper at any meeting of note holders or otherwise. The initial notes will be validly tendered only if

we are able to exercise full voting rights on the initial notes, including voting at any meeting of the note holders, and full rights to consent to any action taken by the note holders.

Withdrawal of Tenders

Except as otherwise provided in this prospectus, you may withdraw tenders of initial notes at any time before 5:00 p.m., New York City time, on the expiration date.

For a withdrawal to be effective, you must send a written or facsimile transmission notice of withdrawal to the exchange agent before 5:00 p.m., New York City time, on the expiration date at the address provided below under Exchange Agent and before acceptance of your tendered notes for exchange by us.

Any notice of withdrawal must:

- (1) specify the name of the person having tendered the initial notes to be withdrawn;
- (2) identify the notes to be withdrawn, including, if applicable, the registration number or numbers and total principal amount of these notes;
- (3) be signed by the person having tendered the initial notes to be withdrawn in the same manner as the original signature on the letter of transmittal by which these notes were tendered, including any required signature guarantees, or be accompanied by documents of transfer sufficient to permit the trustee for the initial notes to register the transfer of these notes into the name of the person having made the original tender, and withdrawing the tender;
- (4) specify the name in which any of these initial notes are to be registered, if this name is different from that of the person having tendered the initial notes to be withdrawn; and
- (5) if applicable because the initial notes have been tendered through the book-entry procedure, specify the name and number of the participant's account at DTC to be credited, if different than that of the person having tendered the initial notes to be withdrawn.

We will determine all questions as to the validity, form and eligibility, including time of receipt, of all notices of withdrawal and our determination will be final and binding on all parties. Initial notes that are withdrawn will be deemed not to have been validly tendered for exchange in this exchange offer.

The exchange agent will return without cost to their holders all initial notes that have been tendered for exchange and are not exchanged for any reason, promptly after withdrawal, rejection of tender or expiration or termination of this exchange offer.

You may retender properly withdrawn initial notes in this exchange offer by following one of the procedures described under Procedures for Tendering Initial Notes above at any time before 5:00 p.m., New York City time, on the expiration date.

- (5) we obtain all the governmental approvals we deem necessary to complete this exchange offer for such series of notes.

These conditions are for our sole benefit. We may assert any one of these conditions regardless of the circumstances giving rise to it and may also waive any one of them, in whole or in part, at any time and from time to time, if we determine in our reasonable discretion that it has not been satisfied, subject to applicable law. Notwithstanding the foregoing, all conditions to this exchange offer must be satisfied or waived before the expiration of this exchange offer. If we waive a condition to this exchange offer, the waiver will be applied equally to all note holders of such series. We will not be deemed to have waived our rights to assert or waive these conditions if we fail at any time to exercise any of them. Each of these rights will be deemed an ongoing right which we may assert at any time and from time to time.

If we determine that we may terminate this exchange offer because any of these conditions is not satisfied, we may:

- (1) refuse to accept and return to their holders any initial notes that have been tendered;
- (2) extend the exchange offer and retain all initial notes tendered before 5:00 p.m., New York City time, on the expiration date, subject to the rights of the holders of these notes to withdraw their tenders; or

Accounting Treatment

We will record the exchange notes at the same carrying value as the initial notes, as reflected in our accounting records on the date of the exchange. Accordingly, we will not recognize any gain or loss for accounting purposes. We will amortize the costs of the offering of the initial notes and the exchange offer and the unamortized expenses related to the issuance of the exchange notes over the term of the exchange notes.

If you do not submit satisfactory evidence of the payment of any of these taxes or of any exemption from this payment with the letter of transmittal, we will bill you directly the amount of these transfer taxes.

Your Failure to Participate in the Exchange Offer May Have Adverse Consequences

The initial notes were not registered under the Securities Act or under the securities laws of any state and you may not resell them, offer them for resale or otherwise transfer them unless they are subsequently registered or resold under an exemption from the registration requirements of the Securities Act and applicable state securities laws. If you do not exchange your initial notes for exchange notes in accordance with this exchange offer, or if you do not properly tender your initial notes in this exchange offer, you will not be able to resell, offer to resell, or otherwise transfer, the initial notes unless they are registered under the Securities Act or unless you resell them, offer to resell, or otherwise transfer, them under an exemption from the registration requirements of, or in a transaction not subject to, the Securities Act.

In addition, except as set forth in this paragraph, you will not be able to obligate us to register the initial notes under the Securities Act. You will not be able to require us to register your initial notes under the Securities Act unless:

- (1) because of any change in law or in applicable interpretations thereof by the SEC staff, we are not permitted to effect the exchange offer for the applicable series of notes;
- (2) (i) with respect to the 2024 notes, the exchange offer is not consummated within 440 days of December 4, 2014 and (ii) with respect to the 2025 notes, the exchange offer is not consummated within 440 days of May 20, 2015;

- (3) you so request with respect to your initial notes that are not eligible to be exchanged for exchange notes in this exchange offer; or

- (4) (i) you (so long as you are not an exchanging dealer) are not eligible to participate in this exchange offer or
(ii) you (so long as you are not an exchanging dealer) participate in the exchange offer but may not resell the exchange notes without delivering a prospectus.

In these cases, the Registration Rights Agreements require us to file a registration statement for a continuous offering in accordance with Rule 415 under the Securities Act for the benefit of the holders of the initial notes described in this paragraph. Delivery of Prospectus

Each broker-dealer that receives exchange notes for its own account in exchange for initial notes, where such initial notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. DESCRIPTION OF 2024 NOTES

In this Description of 2024 Notes, (i) **Spectrum Brands** refers only to Spectrum Brands, Inc. and any successor obligor on the Notes (as defined below), and not to any of its subsidiaries, affiliates or direct or indirect parent companies and (ii) the terms **we**, **our** and **us** refer to Spectrum Brands and the Guarantors. You can find the definitions of certain terms used in this description of notes under **Certain Definitions**.

Spectrum Brands will issue up to \$250.0 million aggregate principal amount of 6.125% Senior Notes (the **Exchange Notes**) offered hereby under the indenture dated December 4, 2014 among Spectrum Brands, the guarantors named therein and U.S. Bank National Association, as Trustee, as supplemented by the supplemental indenture dated as of February 24, 2015 and as further supplemented by the supplemental indenture dated as of June 23, 2015 (as so supplemented, the **Indenture**), in exchange for a like aggregate principal amount of 6.125% Senior Notes (the **Initial Notes** and, together with the Exchange Notes, the **Notes**). The Exchange Notes that we will issue you in exchange for your existing notes will be substantially identical to your existing notes except that, unlike your existing notes, the Exchange Notes will have no transfer restrictions or registration rights.

The terms of the Exchange Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended.

The following is a summary of the material provisions of the Indenture. Because this is a summary, it may not contain all the information that is important to you. You should read the Indenture in its entirety because it, and not this description, defines your rights as holders of the Notes. Copies of the Indenture are available at the address described under **Where You Can Find More Information**.

Basic Terms of Notes

The Notes will:

be general unsecured obligations of Spectrum Brands, ranking equally in right of payment with all existing and future unsecured senior Indebtedness of Spectrum Brands, including the Initial Notes and Existing Notes;

be guaranteed by Spectrum Brands' direct parent, SB/RH Holdings, LLC (**Holdings**), and each of Spectrum Brands' existing and future Domestic Subsidiaries, which guaranty in each case shall be a senior unsecured obligation of such Guarantor, ranking equally in right of payment with all existing and future senior Indebtedness of such Guarantor;

rank senior in right of payment to all of Spectrum Brands' and the Guarantors' existing and future Indebtedness that expressly provides for its subordination to the Notes and the Note Guarantees;

be effectively subordinated to any secured Indebtedness of Spectrum Brands, including all Indebtedness under the Term Loan Agreement and the Revolving Credit Agreement, to the extent of the value of the assets securing such Indebtedness; and

be structurally subordinated to all Indebtedness and other liabilities of Spectrum Brands subsidiaries that do not guarantee the Notes.

Principal, Maturity and Interest

The Notes will mature on December 15, 2024. Spectrum Brands will pay interest on the Notes semi-annually in arrears on June 15 and December 15 of each year to holders of record on the immediately preceding June 1 and December 1. Interest on the Notes will accrue from the most recent date to which interest has been paid (including, with respect to Exchange Notes, interest paid on the Initial Notes surrendered for such Exchange Notes) or, if no interest has been paid, from the Issue Date. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Table of Contents

Spectrum Brands will pay interest on overdue principal of the Notes at a rate equal to 1.0% per annum in excess of 6.125% per annum and will pay interest on overdue installments of interest at such higher rate, in each case to the extent lawful.

Additional Notes

Subject to the covenants described below, Spectrum Brands may issue additional Notes (Additional Notes) under the Indenture in an unlimited aggregate principal amount, having the same terms in all respects as the Notes, or in all respects except with respect to issue price and interest accrued on or prior to the issue date thereof.

To the extent required by applicable tax regulations, if Additional Notes are not fungible with other Notes for U.S. federal income tax purposes, the Additional Notes will trade under a separate CUSIP number and will be treated as a separate class for purposes of transfer and exchange. Nevertheless, the Notes offered hereby and any Additional Notes may, at our election, be treated as a single class for all purposes under the Indenture and vote together as one class on all matters with respect to the Notes.

Methods of Receiving Payments on the Notes

If a Holder has given wire transfer instructions to Spectrum Brands at least ten Business Days prior to the applicable payment or redemption date, Spectrum Brands will pay all principal, interest and premium, if any, on that Holder's Notes in accordance with those instructions. All other payments on Notes will be made at the office or agency of the Paying Agent and Registrar unless Spectrum Brands elects to make interest payments by check mailed to the Holders at their addresses set forth in the register of Holders.

Paying Agent and Registrar for the Notes

The Trustee is acting as Paying Agent and Registrar. Under the Indenture, Spectrum Brands reserves the right to change the Paying Agent or Registrar without prior notice to the Holders, and Spectrum Brands or any of its Subsidiaries may act as Paying Agent or Registrar.

Transfer and Exchange

A Holder may transfer or exchange Notes in accordance with the Indenture. The Registrar and the Trustee may require a Holder, among other things, to furnish appropriate endorsements and transfer documents and Spectrum Brands may require a Holder to pay any taxes and fees required by law or permitted by the Indenture. Spectrum Brands is not required to transfer or exchange any Note selected for redemption. Also, Spectrum Brands is not required to transfer or exchange any Note for a period of 15 days before a selection of the Notes to be redeemed.

The registered Holder of a Note will be treated as the owner of such Note for all purposes.

Note Guarantees

Spectrum Brands' obligations under the Notes and the Indenture will be guaranteed, jointly and severally, on a senior unsecured basis, by Holdings and all of the Domestic Subsidiaries of Spectrum Brands. Each Note Guarantee will:

be a general, unsecured obligation of the Guarantor;

rank equally in right of payment with all existing and future unsecured senior Indebtedness of the Guarantor, including the guaranty of the Existing Notes;

Table of Contents

rank senior in right of payment to all existing and any future subordinated Indebtedness of the Guarantor;

be effectively subordinated to any secured Indebtedness of the Guarantor, including all Indebtedness of each Guarantor under the Term Loan Agreement and the Revolving Credit Agreement, to the extent of the value of the assets securing such Indebtedness; and

be structurally subordinated to all Indebtedness and other liabilities of any of Spectrum Brands' subsidiaries that do not guarantee the Notes.

The Indenture will provide that the obligations of each Guarantor under its Note Guarantee will be limited as necessary to prevent that Note Guarantee from constituting a fraudulent conveyance under applicable law. If Spectrum Brands or any of its Restricted Subsidiaries acquires or creates another Domestic Subsidiary on or after the Issue Date, then that newly acquired or created Domestic Subsidiary must promptly become a Guarantor, execute a supplemental indenture and deliver an opinion of counsel to the Trustee.

None of Spectrum Brands' Foreign Subsidiaries will guarantee the Notes. Spectrum Brands' Subsidiaries that will not be guaranteeing the Notes had, as of June 28, 2015, approximately 20% of our total liabilities and generated 55% of Spectrum Brands' revenue for the nine-month period ended June 28, 2015. See Risk Factors Risks Related to the Notes. The notes will be effectively subordinated to all liabilities of and claims of creditors of all of our foreign subsidiaries. Under the circumstances described below under the caption Certain Covenants Designation of Restricted and Unrestricted Subsidiaries, we will be permitted to designate certain of our Subsidiaries as Unrestricted Subsidiaries. Spectrum Brands' Unrestricted Subsidiaries will not be subject to the restrictive covenants in the Indenture and will not guarantee the Notes.

Optional Redemption

At any time prior to December 15, 2019, Spectrum Brands may redeem the Notes at its option, in whole at any time or in part from time to time, at a redemption price equal to 100% of the principal amount of the Notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest, if any, to, the applicable redemption date.

At any time on or after December 15, 2019, Spectrum Brands may redeem all or a part of the Notes, from time to time, at the redemption prices (expressed as percentages of principal amount) set forth below plus accrued and unpaid interest, if any, to the applicable redemption date, in cash, if redeemed during the twelve-month period beginning on December 15 in the years indicated below:

Year	Percentage
2019	103.063%
2020	102.042%
2021	101.021%
2022 and thereafter	100.000%

At any time and from time to time prior to December 15, 2017, Spectrum Brands may redeem the Notes with an amount of cash equal to the net cash proceeds received by Spectrum Brands from one or more Equity Offerings at a redemption price equal to 106.125% of the principal amount plus accrued and unpaid interest to the redemption date, in an aggregate principal amount for all such redemptions not to exceed 35% of the aggregate principal amount of the Notes (calculated after giving effect to any issuance of Additional Notes), provided that

- (1) in each case the redemption takes place not later than 90 days after the closing of the related Equity Offering, and
- (2) not less than 65% of the aggregate principal amount of the Notes (calculated after giving effect to any issuance of Additional Notes) issued under the Indenture remains outstanding immediately thereafter.

Table of Contents

Notice of any redemption upon any Equity Offering may be given prior to the completion of the related Equity Offering, and any such redemption or notice may, at Spectrum Brands' discretion, be subject to one or more conditions precedent, including, but not limited to, completion of the related Equity Offering.

Selection and Notice

If less than all of the Notes are to be redeemed at any time, the Trustee will select Notes for redemption as follows:

- (1) if the Notes are listed, in compliance with the requirements of the principal national securities exchange on which the Notes are listed; or
- (2) if the Notes are not so listed, on a pro rata basis, by lot or by such method as the Trustee shall deem fair and appropriate.

No Notes of less than \$2,000 shall be redeemed in part. Notices of redemption shall be mailed by first class mail, or delivered electronically if held by DTC, at least 30 but not more than 60 days before the redemption date to each Holder of the Notes to be redeemed at its registered address, except that redemption notices may be delivered more than 60 days prior to the redemption date if the notice is issued in connection with the defeasance of the Notes or a satisfaction and discharge of the Indenture.

If any Note is to be redeemed in part only, the notice of redemption that relates to that Note shall state the portion of the principal amount thereof to be redeemed. A new Note in principal amount equal to the unredeemed portion of the original Note will be issued in the name of the Holder thereof upon cancellation of the original Note. The Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on the Notes or portions of them called for redemption.

Mandatory Redemption; Open Market Purchases and Other Purchases

Spectrum Brands is not required to make mandatory redemption or sinking fund payments with respect to the Notes.

From time to time, Spectrum Brands, its Restricted Subsidiaries, its direct or indirect parents or its Affiliates may acquire the Notes through open market purchases, privately negotiated transactions, tender offers, exchange offers, redemptions or otherwise, upon such terms and at such prices as Spectrum Brands, its Restricted Subsidiaries, its direct or indirect parents or its Affiliates (as applicable) may determine (or as may be provided for in the Indenture), which may be more or less than the consideration for which the Notes are being sold and may be less than the redemption price in effect and could be for cash or other consideration, in accordance with applicable securities laws, so long as such acquisition does not otherwise violate the terms of the Indenture. There can be no assurance as to which, if any, of these alternatives or combinations thereof Spectrum Brands, its Restricted Subsidiaries, its direct or indirect parents or its Affiliates may choose to pursue in the future.

Repurchase at the Option of Holders

Change of Control

If a Change of Control occurs, each Holder of Notes will have the right to require Spectrum Brands to repurchase all or any part (equal to \$2,000 or a higher multiple of \$1,000) of that Holder's Notes pursuant to a Change of Control Offer on the terms set forth in the Indenture. In the Change of Control Offer, Spectrum Brands will offer a payment (such payment, a Change of Control Payment) in cash equal to 101% of the aggregate principal amount of Notes

repurchased, plus accrued and unpaid interest thereon, to the date of purchase. Within 30 days following any Change of Control, Spectrum Brands will mail, or deliver electronically if held by DTC, a notice to each Holder describing the transaction or transactions that constitute the Change of Control and offering

Table of Contents

to repurchase Notes on the date specified in such notice (the Change of Control Payment Date), which date shall be no earlier than 30 days and no later than 60 days from the date such notice is delivered, pursuant to the procedures required by the Indenture and described in such notice. Spectrum Brands will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with the repurchase of the Notes as a result of a Change of Control. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the Indenture, Spectrum Brands will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Change of Control provisions of the Indenture by virtue of such compliance.

On or before the Change of Control Payment Date, Spectrum Brands will, to the extent lawful:

- (1) accept for payment all Notes or portions thereof properly tendered pursuant to the Change of Control Offer;
- (2) deposit with the Paying Agent an amount equal to the Change of Control Payment in respect of all Notes or portions thereof properly tendered; and
- (3) deliver or cause to be delivered to the Trustee the Notes so accepted together with an officer's certificate stating the aggregate principal amount of Notes or portions thereof being purchased by Spectrum Brands.

The Paying Agent will promptly mail or wire transfer to each Holder of Notes properly tendered the Change of Control Payment for such Notes, and the Trustee will promptly authenticate and mail (or cause to be transferred by book entry) to each Holder a new Note equal in principal amount to any unpurchased portion of the Notes surrendered, if any; provided that such new Note will be in a principal amount of \$2,000 or a higher integral multiple of \$1,000.

Spectrum Brands' senior credit facilities provide that certain change of control events with respect to Spectrum Brands would constitute a default under these agreements. Any future credit agreements or other agreements to which Spectrum Brands becomes a party may contain similar provisions. Spectrum Brands' ability to pay cash to the Noteholders following the occurrence of a Change of Control may be limited by Spectrum Brands' then existing financial resources. Moreover, the exercise by the Noteholders of their right to require Spectrum Brands to purchase the Notes could cause a default under other debt, even if the Change of Control itself does not, due to the financial effect of the purchase on Spectrum Brands. There can be no assurance that sufficient funds will be available when necessary to make the required purchase of the Notes. See Risk Factors Risks Related to the Notes We may not be able to make the change of control offer required by the indenture.

Spectrum Brands will not be required to make a Change of Control Offer upon a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by Spectrum Brands and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer or (2) notice of redemption has been given pursuant to the Indenture as described above under the caption Optional Redemption, unless and until there is a default in payment of the applicable redemption price.

If holders of not less than 90% in aggregate principal amount of the outstanding Notes validly tender and do not withdraw such notes in a Change of Control Offer and Spectrum Brands, or any third party making a Change of Control Offer in lieu of Spectrum Brands as described above, purchases all of the Notes validly tendered and not withdrawn by such holders, Spectrum Brands or such third party will have the right, upon not less than 30 nor more than 60 days' prior notice, given not more than 30 days following such purchase pursuant to the Change of Control

Offer described above, to redeem all Notes that remain outstanding following such purchase at a price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest to but excluding the date of redemption.

Table of Contents

Notes repurchased by Spectrum Brands pursuant to a Change of Control Offer will have the status of Notes issued but not outstanding or will be retired and canceled at the option of Spectrum Brands. Notes purchased by a third party pursuant to the preceding paragraphs will have the status of Notes issued and outstanding.

A Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control or other events, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

The provisions under the Indenture relative to Spectrum Brands' obligation to make a Change of Control Offer may be waived or modified with the written consent of the holders of a majority in principal amount of the Notes then outstanding.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of the properties or assets of Spectrum Brands and its Subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a Holder of the Notes to require Spectrum Brands to repurchase such Notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of Spectrum Brands and its Subsidiaries taken as a whole to another Person or group may be uncertain.

Under a Delaware Chancery Court interpretation of a change of control repurchase requirement with a continuing director provision, a board of directors may approve a slate of shareholder-nominated directors without endorsing them or while simultaneously recommending and endorsing its own slate instead. The foregoing interpretation would permit Spectrum Brands' Board of Directors to approve a slate of directors that included a majority of dissident directors nominated pursuant to a proxy contest, and the ultimate election of such directors would not constitute a Change of Control under the Indenture that would trigger the rights of a holder of Notes to require a repurchase of the Notes pursuant to this covenant.

Suspension of Certain Covenants

If at any time after the Issue Date that (i) the Notes are rated Investment Grade by each of S&P and Moody's (or, if either (or both) of S&P and Moody's have been substituted in accordance with the definition of Rating Agencies, by each of the then applicable Rating Agencies) and (ii) no Default has occurred and is continuing under the Indenture, Spectrum Brands and its Restricted Subsidiaries will not be subject to the covenants in the Indenture specifically listed under the following captions in this Description of 2024 Notes section of this prospectus (the Suspended Covenants):

- (1) Certain Covenants Incurrence of Indebtedness and Issuance of Preferred Stock ;
- (2) Certain Covenants Restricted Payments ;
- (3) Certain Covenants Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries ;
- (4) Certain Covenants Transactions with Affiliates ;
- (5) Certain Covenants Asset Sales ; and
- (6) clause (3) under Certain Covenants Merger, Consolidation or Sale of Assets.

Additionally, during such time as the above referenced covenants are suspended (a Suspension Period), Spectrum Brands will not be permitted to designate any Restricted Subsidiary as an Unrestricted Subsidiary.

Table of Contents

In the event that Spectrum Brands and its Restricted Subsidiaries are not subject to the Suspended Covenants for any period of time as a result of the foregoing, and on any subsequent date (the Reversion Date) the condition set forth in clause (i) of the first paragraph of this section is no longer satisfied, then Spectrum Brands and its Restricted Subsidiaries will thereafter again be subject to the Suspended Covenant with respect to future events.

On each Reversion Date, all Debt incurred during the Suspension Period prior to such Reversion Date will be deemed to be Debt incurred pursuant to clause (b)(2) under Incurrence of Indebtedness and Issuance of Preferred Stock. For purposes of calculating the amount available to be made as Restricted Payments under clause (3) of clause (A) of Restricted Payments, calculations under such covenant shall be made as though such covenant had been in effect since the Issue Date and prior, but not during, the Suspension Period. Accordingly, Restricted Payments made during the Suspension Period will not reduce the amount available to be made as Restricted Payments under the first paragraph of Restricted Payments. For purposes of the Asset Sales covenant, on the Reversion Date, the amount of unutilized Excess Proceeds will be reset to zero. Notwithstanding that the Suspended Covenants may be reinstated, no Default or Event of Default shall be deemed to have occurred as a result of a failure to comply with the Suspended Covenants during a Suspension Period (or on the Reversion Date after a Suspension Period based solely on events that occurred during the Suspension Period).

There can be no assurance that the Notes will ever achieve or maintain a rating of Investment Grade from the Rating Agencies.

Certain Covenants

Table of Contents

(All such payments and other actions set forth in clauses (1) through (4) above being collectively referred to as Restricted Payments), unless, at the time of and after giving effect to such Restricted Payment:

(1) no Default or Event of Default shall have occurred and be continuing or would occur as a consequence thereof; and

(2) Spectrum Brands would, at the time of such Restricted Payment and after giving pro forma effect thereto as if such Restricted Payment had been made at the beginning of the applicable four-quarter period, have been permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described below under the caption Incurrence of Indebtedness and Issuance of Preferred Stock ; and

(c) with respect to Restricted Investments made by Spectrum Brands and its Restricted Subsidiaries after the Issue Date, an amount equal to the net reduction in Investments (other than reductions in Permitted Investments) in any Person resulting from repayments of loans or advances, or other transfers of assets, in each case to Spectrum Brands or any Restricted Subsidiary or from the net cash proceeds from the sale of any such Investment (except, in each case, to the extent any such payment or proceeds are included in the calculation of Consolidated Net Income) from the release of any Guarantee (except to the extent any amounts are paid under such Guarantee) or from redesignations of Unrestricted Subsidiaries as Restricted Subsidiaries, not to exceed, in each case, the amount of Investments previously made by Spectrum Brands or any Restricted Subsidiary in such Person or Unrestricted Subsidiary; *plus*

(d) \$350.0 million.

(B) So long as, in the case of clauses (7) and (8), no Default has occurred and is continuing or would be caused thereby, the preceding provisions will not prohibit:

(1) the payment of any dividend or distribution or consummation of a redemption within 60 days after the date of declaration thereof or the giving of the redemption notice, as applicable, if at said date of declaration or notice such payment would have complied with the provisions of the Indenture;

(2) the redemption, repurchase, retirement, defeasance or other acquisition of any subordinated Indebtedness of Spectrum Brands or any Guarantor or of any Equity Interests (including Disqualified Stock) of Spectrum Brands or any Restricted Subsidiary in exchange for, or out of the net cash proceeds of a contribution to the common equity of Spectrum Brands or sale (other than to a Subsidiary of Spectrum Brands) of, Equity Interests of Spectrum Brands or any direct or indirect parent of Spectrum Brands (other than Disqualified Stock)

For purposes of determining compliance with this covenant, in the event that a proposed Restricted Payment (or portion thereof) meets the criteria of more than one of the categories of Restricted Payments described in clauses (1) through (14) above, or is entitled to be incurred pursuant to the first paragraph of this covenant, Spectrum Brands will be entitled to divide, classify or re-classify (based on circumstances existing on the date of such reclassification) such restricted payment or portion thereof in any manner that complies with this covenant and such Restricted Payment will be treated as having been made pursuant to only such clause or clauses or the first paragraph of this covenant.

Incurrence of Indebtedness and Issuance of Preferred Stock

(a) Spectrum Brands will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur any Indebtedness (including Acquired Debt), and Spectrum Brands will not permit any of its Restricted Subsidiaries to issue any preferred stock; provided, however, that Spectrum Brands or any Restricted Subsidiaries may incur Indebtedness, if the Fixed Charge Coverage Ratio for Spectrum Brands most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Indebtedness is incurred would have been at least 2.0 to 1.0, determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if the additional Indebtedness had been incurred at the beginning of such four-quarter period; provided, further, that any Restricted Subsidiary that is not a Guarantor may not incur Indebtedness or issue shares of Disqualified Stock or Preferred Stock in a principal amount (or accreted value, as applicable) that, when aggregated with the principal amount (or accreted value, as applicable) of all Indebtedness then outstanding and incurred by such non-Guarantor Restricted Subsidiaries under this clause (a), together with all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any such Indebtedness, exceeds the greater of \$300 million and 50% of the Consolidated Cash Flows of Spectrum Brands for the most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding such date on which such additional Indebtedness is incurred and after giving *pro forma* effect thereto (including a *pro forma* application of the net proceeds therefrom) as if such indebtedness had been incurred at the beginning of such four fiscal quarters.

(b) Paragraph (a) of this covenant will not prohibit the incurrence of any of the following items of Indebtedness (collectively, Permitted Debt):

(1) the incurrence by Spectrum Brands or any Restricted Subsidiaries of Indebtedness (including Indebtedness under the Revolving Credit Agreement and the Term Loan Agreement) under Credit Facilities (and the incurrence of Guarantees thereof) in an aggregate principal amount at any one time outstanding pursuant to this clause (1) (with letters of credit being deemed to have a principal amount equal to the maximum potential liability of Spectrum Brands and its Restricted Subsidiaries thereunder) not to exceed the sum of (A) the greater of \$700 million and the Borrowing Base; and (B) the greater of (x) \$2,300 million and (y) an amount such that, on a *pro forma* basis after giving effect to the incurrence of such Indebtedness (and application of the net proceeds therefrom), the Secured Leverage Ratio would be no greater than 3.25 to 1.0 (provided that all Indebtedness incurred under clause (B)(y), whether or not secured, shall be included when calculating the Secured Leverage Ratio for purposes of this clause (B)(y)); *less* the aggregate amount of all Net Proceeds of Asset Sales applied by Spectrum Brands or any Restricted Subsidiary to permanently repay any such Indebtedness (and, in the case of any revolving credit Indebtedness, to effect a corresponding commitment reduction thereunder) pursuant to the covenant Repurchase at the Option of Holders Asset Sales ;

(b) (i) any subsequent issuance or transfer of Equity Interests that results in any such Indebtedness being held by a Person other than Spectrum Brands or a Restricted Subsidiary thereof and (ii) any sale or other transfer of any such Indebtedness to a Person that is not either Spectrum Brands or a Restricted Subsidiary thereof, shall be deemed, in each case, to constitute an incurrence of such Indebtedness by Spectrum Brands or such Restricted Subsidiary, as the case may be, that was not permitted by this clause (6);

(7) the Guarantee by Spectrum Brands or any Restricted Subsidiary of Indebtedness of Spectrum Brands or a Restricted Subsidiary of Spectrum Brands that was permitted to be incurred by another provision of this covenant;

(10) Acquired Debt; provided that after giving effect to the incurrence thereof, Spectrum Brands either (x) could incur \$1.00 of indebtedness under paragraph (a) above or (y) would have had a Fixed Charge Coverage Ratio equal to or greater than the actual Fixed Charge Coverage Ratio of Spectrum Brands for the four-quarter period immediately prior to such transaction;

(11) the incurrence of Indebtedness by Foreign Subsidiaries; provided that the principal amount (or accreted value, as applicable) incurred under this clause (11), when aggregated with the principal amount (or accreted value, as applicable) of all other Indebtedness then outstanding and incurred under this clause (11), together with all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred pursuant to this clause (11), does not exceed \$500.0 million, and Guarantees thereof by any Foreign Subsidiary;

(13) Indebtedness arising in connection with endorsement of instruments for deposit in the ordinary course of business;

For purposes of determining compliance with this Incurrence of Indebtedness and Issuance of Preferred Stock covenant, in the event that any proposed Indebtedness meets the criteria of more than one of the categories of Permitted Debt described in clauses (1) through (17) above, or is entitled to be incurred pursuant to paragraph (a) of this covenant, Spectrum Brands will be permitted to divide, classify or reclassify at the time of its incurrence such item of Indebtedness in any manner that complies with this covenant. In addition, any Indebtedness originally classified as incurred pursuant to paragraph (a) or clauses (1) through (17) above may later be reclassified by Spectrum Brands such that it will be deemed as having been incurred pursuant to another of such clauses or paragraph (a) above to the extent that such reclassified Indebtedness could be incurred pursuant to such new clause or paragraph (a) at the time of such reclassification (based on circumstances existing at the time of such reclassification). If any Contribution Debt is designated as incurred under any provision other than clause (16) under paragraph (b), the related

Table of Contents

Subject to the foregoing, any Indebtedness incurred pursuant to clause (1) above shall be deemed for purposes of this covenant to have been incurred on the date such Indebtedness was first incurred until such Indebtedness is actually repaid, other than pursuant to cash sweep provisions or any similar provisions under any Credit Facility that provides that such Indebtedness is deemed to be repaid daily (or otherwise periodically).

The amount of Indebtedness incurred in any foreign currency for purposes of the Indenture shall be converted into U.S. dollars at the time of first incurrence, in the case of term debt, or first committed or first incurred (whichever yields the lower U.S. dollar equivalent), in the case of revolving credit debt, and the amount of such Indebtedness outstanding will not be deemed to change as a result of fluctuations in currency exchange rates after such date of incurrence. However, if the Indebtedness is incurred to refinance other Indebtedness denominated in a foreign currency, and the refinancing would cause the applicable U.S. dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of the refinancing, the U.S. dollar-denominated restriction will be deemed not to have been exceeded so long as the principal amount of the refinancing Indebtedness does not exceed the principal amount of the Indebtedness being refinanced.

Spectrum Brands shall not incur any Indebtedness that is subordinated or junior in right of payment to any Indebtedness of Spectrum Brands unless it is subordinated in right of payment to the Notes at least to the same extent. No Guarantor shall incur any Indebtedness that is subordinated or junior in right of payment to the Indebtedness of such Guarantor unless it is subordinated in right of payment to such Guarantor's Note Guarantee at least to the same extent. For purposes of the foregoing, no Indebtedness will be deemed to be subordinated or junior in right of payment to any other Indebtedness of Spectrum Brands or any Guarantor, as applicable, solely by reason of any Liens or Guarantees arising or created in respect thereof or by virtue of the fact that the holders of any secured Indebtedness have entered into intercreditor agreements giving one or more of such holders priority over the other holders in the collateral held by them.

Liens

Spectrum Brands will not, and will not permit any of its Restricted Subsidiaries to, create, incur, assume or otherwise cause or suffer to exist or become effective any Lien of any kind (other than Permitted Liens) upon any of their property or assets, now owned or hereafter acquired, without effectively providing that the Notes are secured equally and ratably with (or, if the obligation to be secured by the Lien is subordinated in right of payment to the Notes or any Note Guarantee, prior to) the obligations so secured for so long as such obligations are so secured.

For purposes of determining compliance with this covenant, (A) a Lien securing an item of Indebtedness need not be permitted solely by reference to one category of permitted Liens described in clauses (1) through (27) of the definition of Permitted Liens or pursuant to the first paragraph of this covenant but may be permitted in part under any combination thereof and (B) in the event that a Lien securing an item of Indebtedness, Disqualified Stock or preferred stock (or any portion thereof) meets the criteria of one or more of the categories of permitted Liens described in clauses (1) through (27) of the definition of Permitted Liens or pursuant to the first paragraph of this covenant, Spectrum Brands shall, in its sole discretion, classify or reclassify, or later divide, classify or reclassify, such Lien securing such item of Indebtedness (or any portion thereof) in any manner that complies with this covenant and will only be required to include the amount and type of such Lien or such item of Indebtedness secured by such Lien in one of the clauses of the definition of Permitted Liens and such Lien securing such item of Indebtedness will be treated as being incurred or existing pursuant to only one of such clauses or pursuant to the first paragraph hereof.

With respect to any Lien securing Indebtedness that was permitted to secure such Indebtedness at the time of the incurrence of such Indebtedness, such Lien shall also be permitted to secure any Increased Amount of such Indebtedness. The Increased Amount of any Indebtedness shall mean any increase in the amount of such Indebtedness

in connection with any accrual of interest, the accretion of accreted value, the amortization of

original issue discount, the payment of interest in the form of additional Indebtedness with the same terms, the payment of dividends on preferred stock in the form of additional shares of preferred stock of the same class, accretion of original issue discount or liquidation preference and increases in the amount of Indebtedness outstanding solely as a result of fluctuations in the exchange rate of currencies or increases in the value of property securing Indebtedness described in subclause (x) of the second paragraph of the definition of Indebtedness.

Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries

Spectrum Brands will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or permit to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to:

- (1) pay dividends or make any other distributions on its Capital Stock (or with respect to any other interest or participation in, or measured by, its profits) to Spectrum Brands or any of its Restricted Subsidiaries or pay any liabilities owed to Spectrum Brands or any of its Restricted Subsidiaries;
- (2) make loans or advances to Spectrum Brands or any of its Restricted Subsidiaries; or

- (4) in the case of clause (3) of the first paragraph of this covenant:
 - (a) provisions that restrict in a customary manner the subletting, assignment or transfer of any property or asset that is a lease, license, conveyance or contract or similar property or asset;
 - (b) restrictions existing by virtue of any transfer of, agreement to transfer, option or right with respect to, or Lien on, any property or assets of Spectrum Brands or any Restricted Subsidiary not otherwise prohibited by the Indenture; or
 - (c) restrictions arising or agreed to in the ordinary course of business, not relating to any Indebtedness, and that do not, individually or in the aggregate, detract from the value of property or assets of Spectrum Brands or any Restricted Subsidiary in any manner material to Spectrum Brands or any Restricted Subsidiary;
- (5) customary provisions with respect to the disposition or distribution of assets or property in joint venture agreements and other agreements;

(6) any agreement for the sale or other disposition of all or substantially all of the capital stock of, or property and assets of, a Restricted Subsidiary that restricts distributions by that Restricted Subsidiary pending such sale or other disposition;

(7) Indebtedness of a Foreign Subsidiary permitted to be incurred under the Indenture; provided that (a) such encumbrances or restrictions are ordinary and customary with respect to the type of Indebtedness being incurred and (b) such encumbrances or restrictions will not materially (in good faith by the Board of Directors of Spectrum Brands) impair Spectrum Brands' ability to make principal and interest payments on the Notes, as determined;

(8) the Indenture, the Notes, the Exchange Notes, any Additional Notes or the Guarantees;

(9) restrictions on cash or other deposits or net worth imposed by customers under contracts entered into in the ordinary course of business;

(11) restrictions or conditions contained in any trading, netting, operating, construction, service, supply, purchase or other agreement to which Spectrum Brands or any of its Restricted Subsidiaries is a party and entered into in the ordinary course of business; provided that such agreement prohibits the encumbrance of solely the property or assets of Spectrum Brands or such Restricted Subsidiary that are the subject of such agreement, the payment rights arising thereunder or the proceeds thereof and does not extend to any other asset or property of Spectrum Brands or such Restricted Subsidiary or the assets or property of any other Restricted Subsidiary;

(12) any instrument governing any Indebtedness or Capital Stock of a Person that is an Unrestricted Subsidiary as in effect on the date that such Person becomes a Restricted Subsidiary, which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person who became a Restricted Subsidiary, or the property or assets of the Person who became a Restricted Subsidiary and was not entered into in contemplation of the designation of such Subsidiary as a Restricted Subsidiary; provided that, in the case of Indebtedness, the incurrence of such Indebtedness as a result of such Person becoming a Restricted Subsidiary was permitted by the terms of the Indenture;

(13) purchase money obligations for property acquired and Capital Lease Obligations in the ordinary course of business that impose restrictions of the nature discussed in clause (3) of the first paragraph of this covenant on the property so acquired; and

(14) any encumbrances or restrictions of the type referred to in clauses (1), (2) and (3) of the first paragraph of this covenant imposed by any amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings of the contracts, instruments or obligations referred to in clauses (1) through (13) above; provided that such amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings are, in the good faith judgment of Spectrum Brands' Board of Directors, not materially more restrictive with respect to such encumbrance and other restrictions than those prior to such amendment, modification, restatement, renewal, increase, supplement, refunding, replacement or refinancing.

For purposes of determining compliance with this covenant, (i) the priority of any preferred stock in receiving dividends or liquidating distributions prior to dividends or liquidating distributions being paid on common stock shall not be deemed a restriction on the ability to make distributions on Capital Stock and (ii) the subordination of loans or advances made to Spectrum Brands or a Restricted Subsidiary of Spectrum Brands to other Indebtedness incurred by Spectrum Brands or any such Restricted Subsidiary shall not be deemed a restriction on the ability to make loans or advances.

(2) at least 75% of the consideration therefore received by Spectrum Brands or such Restricted Subsidiary is in the form of Cash Equivalents or Replacement Assets. For purposes of this clause, each of the following shall be deemed to be Cash Equivalents:

(a) any liabilities (as shown on Spectrum Brands or such Restricted Subsidiary's most recent balance sheet) of Spectrum Brands or any Restricted Subsidiary (other than contingent liabilities, Indebtedness that is by its terms subordinated to the Notes or any Note Guarantee and liabilities to the extent owed to Spectrum Brands or any Affiliate of Spectrum Brands) that are assumed by the transferee of any such assets and with respect to which Spectrum Brands and its Restricted Subsidiaries are unconditionally released from further liability in writing or that are otherwise cancelled or terminated in connection with the transaction with such transferee;

(b) any securities, notes or other obligations or assets received by Spectrum Brands or any such Restricted Subsidiary from such transferee that are converted by Spectrum Brands or such Restricted Subsidiary into cash (to the extent of the cash received in that conversion) within 180 days of the applicable Asset Sale; and

(c) any Designated Non-cash Consideration received by Spectrum Brands or any of its Restricted Subsidiaries in such Asset Sale having an aggregate fair market value, taken together with all other Designated Non-cash Consideration received pursuant to this clause (c) that is at that time outstanding, not to exceed the greater of \$10.0 million or 1.5% of Consolidated Cash Flow at the time of the receipt of such Designated Non-cash Consideration (with the fair market value of each item of Designated Non-cash Consideration being measured at the time received and without giving effect to subsequent changes in value).

If at any time any non-cash consideration received by Spectrum Brands or any Restricted Subsidiary, as the case may be, in connection with any Asset Sale is repaid or converted into or sold or otherwise disposed of for cash (other than interest received with respect to any such non-cash consideration), then the date of such repayment, conversion or disposition shall be deemed to constitute the date of an Asset Sale hereunder and the Net Proceeds thereof shall be applied in accordance with this covenant.

Within 365 days after the receipt of any Net Proceeds from an Asset Sale, Spectrum Brands may apply such Net Proceeds at its option:

(1) to repay secured Indebtedness or Indebtedness of a non-Guarantor Restricted Subsidiary owed to a Person that is not an Affiliate of Spectrum Brands and, except in the case of Indebtedness under the Revolving Credit Agreement, if the Indebtedness repaid is revolving credit Indebtedness, to correspondingly reduce commitments with respect thereto;

(2) to prepay, repay or repurchase any Indebtedness of Spectrum Brands or any of its Restricted Subsidiaries which is not expressly subordinated to the prior payment in full in cash of all Obligations with respect to the Notes, in the case of Spectrum Brands, or the Note Guarantee, in the case of a Guarantor; or

(3) to purchase Replacement Assets or make a capital expenditure in or that is used or useful in a Permitted Business; provided that, if during the 365 day period following the consummation of an Asset Sale, Spectrum Brands or a Restricted Subsidiary enters into a definitive binding agreement committing it to apply the Net

Table of Contents

Proceeds in accordance with the requirements of this clause (3) after such 365 day period, such 365 day period will be extended with respect to the amount of Net Proceeds so committed until such Net Proceeds are required to be applied in accordance with such agreement (but such extension will in no event be for a period longer than 180 days) or, if earlier, the date of termination of such agreement; provided, further, that in the event such binding commitment is later canceled or terminated for any reason before such Net Proceeds are so applied, then such Net Proceeds shall constitute Excess Proceeds unless Spectrum Brands or such Restricted Subsidiary enters into another binding commitment (a Second Commitment) within six months of such cancellation or termination of the prior binding commitment; provided, further, that Spectrum Brands or such Restricted Subsidiary may only enter into a Second Commitment under the foregoing provision one time with respect to each Asset Sale and to the extent such Second Commitment is later cancelled or terminated for any reason before such Net Proceeds are applied or are not applied within 180 days of such Second Commitment, then such Net Proceeds shall constitute Excess Proceeds.

Following the entering into of a binding agreement with respect to an Asset Sale and prior to the consummation thereof, Cash Equivalents (whether or not actual Net Proceeds of such Asset Sale) used for the purposes described in clause (3) that are designated as used in accordance with clause (3), and not previously or subsequently so designated in respect of any other Asset Sale, shall be deemed to be Net Proceeds applied in accordance with clause (3).

Pending the final application of any such Net Proceeds, Spectrum Brands may temporarily reduce revolving credit borrowings or otherwise invest such Net Proceeds in any manner that is not prohibited by the Indenture.

Any Net Proceeds from Asset Sales that are not applied or invested as provided in clause (1), (2) or (3) of the second preceding paragraph will constitute Excess Proceeds. Within 30 days after the aggregate amount of Excess Proceeds exceeds \$50.0 million, Spectrum Brands will make an Asset Sale Offer to all Noteholders and all holders of other Indebtedness that is *pari passu* with the Notes or any Note Guarantee containing provisions similar to those set forth in the Indenture with respect to offers to purchase with the proceeds of sales of assets, to purchase the maximum principal amount of the Notes and such other *pari passu* Indebtedness that may be purchased out of the Excess Proceeds. Spectrum Brands and its Restricted Subsidiaries may make an Asset Sale Offer under this section using Net Proceeds prior to the time any such Net Proceeds become Excess Proceeds, in which case such Net Proceeds shall be deemed to have been applied within the time frame required by this covenant. The offer price in any Asset Sale Offer will be equal to 100% of the principal amount of the Notes and such other *pari passu* Indebtedness plus accrued and unpaid interest to the date of purchase, and will be payable in cash. If any Excess Proceeds remain after consummation of an Asset Sale Offer, Spectrum Brands may use such Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of the Notes and such other *pari passu* Indebtedness tendered into such Asset Sale Offer exceeds the amount of Excess Proceeds, the Notes and such other *pari passu* Indebtedness shall be purchased on a pro rata basis based on the principal amount of the Notes and such other *pari passu* Indebtedness tendered. Upon completion of each Asset Sale Offer, the amount of Excess Proceeds shall be reset at zero.

Spectrum Brands will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with each repurchase of the Notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the Asset Sales provisions of the Indenture, Spectrum Brands will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Asset Sale provisions of the Indenture by virtue of such compliance.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors may designate any Restricted Subsidiary to be an Unrestricted Subsidiary; provided that:

(1) any Guarantee by Spectrum Brands or any Restricted Subsidiary of any Indebtedness of the Subsidiary being so designated will be deemed to be an incurrence of Indebtedness by Spectrum Brands or such Restricted Subsidiary (or both, if applicable) at the time of such designation, and such incurrence of Indebtedness would be permitted under the covenant described above under the caption Certain Covenants Incurrence of Indebtedness and Issuance of Preferred Stock ;

(2) the aggregate fair market value of all outstanding Investments owned by Spectrum Brands and its Restricted Subsidiaries in the Subsidiary being so designated (including any Guarantee by Spectrum Brands or any Restricted Subsidiary of any Indebtedness of such Subsidiary) will be deemed to be a Restricted Investment made as of the time of such designation and that such Investment would be permitted under the covenant described above under the caption Certain Covenants Restricted Payments ;

(3) such Subsidiary does not own any Equity Interests of, or hold any Liens on any Property of, Spectrum Brands or any Restricted Subsidiary;

(4) the Subsidiary being so designated:

(a) is not party to any agreement, contract, arrangement or understanding with Spectrum Brands or any Restricted Subsidiary of Spectrum Brands that would not be permitted under Transactions with Affiliates and;

(b) except as permitted under clauses (1) and (2) above is a Person with respect to which neither Spectrum Brands nor any of its Restricted Subsidiaries has any direct or indirect obligation (a) to subscribe for additional Equity Interests or (b) to maintain or preserve such Person's financial condition or to cause such Person to achieve any specified levels of operating results.

(5) no Default or Event of Default would be in existence following such designation.

If, at any time, any Unrestricted Subsidiary would fail to meet any of the preceding requirements described in clause (4) above, it shall thereafter cease to be an Unrestricted Subsidiary for purposes of the Indenture and any Indebtedness, Investments, or Liens on the property, of such Subsidiary shall be deemed to be incurred by a Restricted Subsidiary of Spectrum Brands as of such date and, if such Indebtedness, Investments or Liens are not permitted to be incurred as of such date under the Indenture, Spectrum Brands shall be in default under the Indenture.

The Board of Directors of Spectrum Brands may at any time designate any Unrestricted Subsidiary to be a Restricted Subsidiary; provided that:

(1) such designation shall be deemed to be an incurrence of Indebtedness by a Restricted Subsidiary of Spectrum Brands of any outstanding Indebtedness of such Unrestricted Subsidiary and such designation shall only be permitted if such Indebtedness is permitted under the covenant described under the caption Certain Covenants Incurrence of Indebtedness and Issuance of Preferred Stock, calculated on a pro forma basis as if such designation had occurred at the beginning of the four-quarter reference period;

(2) all outstanding Investments owned by such Unrestricted Subsidiary will be deemed to be made as of the time of such designation and such Investments shall only be permitted if such Investments would be permitted under the

covenant described above under the caption Certain Covenants Restricted Payments ;

(3) all Liens upon property or assets of such Unrestricted Subsidiary existing at the time of such designation would be permitted under the caption Certain Covenants Liens ; and

(4) no Default or Event of Default would be in existence following such designation.

Guarantees

If Spectrum Brands or any of its Restricted Subsidiaries acquires or creates another Domestic Subsidiary on or after the Issue Date, then that newly acquired or created Domestic Subsidiary must promptly become a Guarantor and execute a supplemental indenture and deliver an opinion of counsel to the Trustee.

A Guarantor may not sell or otherwise dispose of all or substantially all of its assets to, or consolidate with or merge with or into (whether or not such Guarantor is the surviving Person), another Person, other than Spectrum Brands or another Guarantor unless:

(1) immediately after giving effect to that transaction, no Default or Event of Default exists; and

(2) either:

(a) the Person acquiring the property in any such sale or disposition or the Person formed by or surviving any such consolidation or merger (if other than the Guarantor) is a Person organized or existing under the laws of the United States, any state thereof or the District of Columbia and assumes all the obligations of that Guarantor under the Indenture, Note Guarantee and the Registration Rights Agreement pursuant to a supplemental indenture satisfactory to the Trustee; or

(b) except in the case of Holdings, such sale or other disposition or consolidation or merger complies with the covenant described above under the caption **Repurchase at the Option of Holders Asset Sales**.

The Note Guarantee of a Guarantor (other than Holdings) will be released:

(1) in connection with any sale or other disposition of all of the Capital Stock of a Guarantor to a Person that is not (either before or after giving effect to such transaction) Spectrum Brands or a Restricted Subsidiary, if the sale of all such Capital Stock of that Guarantor does not violate the covenant described above under the caption **Repurchase at the Option of Holders Asset Sales** ;

(2) if Spectrum Brands designates such Guarantor as an Unrestricted Subsidiary in accordance with the provisions of the Indenture;

(3) upon legal or covenant defeasance of the Notes or satisfaction and discharge of the Indenture as provided below under the captions **Legal Defeasance and Covenant Defeasance** and **Satisfaction and Discharge** or;

(4) upon a sale of Capital Stock which causes such Guarantor to cease to be a Subsidiary if such sale does not violate any of the provisions of the Indenture; provided that such Guarantor is concurrently released from any other Guarantees of Indebtedness of Spectrum Brands or any of its Restricted Subsidiaries at such time.

Reports

So long as any Notes are outstanding, Spectrum Brands will file with the U.S. Securities and Exchange Commission (**Commission**) and furnish to the Trustee and, upon request, to the Holders:

(1) within 90 days after the end of each fiscal year, an annual report on Form 10-K;

Edgar Filing: National Openings, LLC - Form S-4

(2) within 45 days after the end of each of the first three fiscal quarters of each fiscal year, a quarterly report on Form 10-Q; and

(3) promptly from time to time after the occurrence of an event required to be therein reported pursuant to Form 8-K, a current report on Form 8-K.

Table of Contents

If Spectrum Brands is no longer subject to the periodic reporting requirements of the Exchange Act for any reason, Spectrum Brands will nevertheless continue filing the reports specified in the preceding paragraphs of this covenant with the Commission within the time periods specified above unless the Commission will not accept such a filing. If the Commission will not accept Spectrum Brands' filings for any reason, Spectrum Brands will furnish the reports referred to in the preceding paragraphs to the Trustee within the time periods that would apply if Spectrum Brands were required to file those reports with the Commission. Spectrum Brands will not take any action for the purpose of causing the Commission not to accept any such filings. Any information filed with, or furnished to, the Commission via EDGAR shall be deemed to have been made available to the Trustee and the registered holders of the Notes.

Notwithstanding the foregoing, (A) if Holdings or any other direct or indirect parent of Spectrum Brands fully and unconditionally guarantees the Notes, the filing of such reports by such parent within the time periods specified above will satisfy such obligations of Spectrum Brands; provided that such reports shall include the information required by Rule 3-10 of Regulation S-X with respect to Spectrum Brands and the Guarantors and (B) if neither Spectrum Brands nor Holdings is subject to Section 13 or 15(d) of the Exchange Act, the financial statements, information and other documents required to be provided as described above, may be those of (i) Spectrum Brands or (ii) any direct or indirect parent of Spectrum Brands, so long as in the case of (ii) such direct or indirect parent of Spectrum Brands shall not conduct, transact or otherwise engage, or commit to conduct, transact or otherwise engage, in any business or operations other than its direct or indirect ownership of all of the Equity Interests in, and its management of Spectrum Brands; provided that, if the financial information so furnished relates to such direct or indirect parent of Spectrum Brands, the same is accompanied by a reasonably detailed description of the quantitative differences between the information relating to such parent, on the one hand, and the information relating to the Spectrum Brands and its Restricted Subsidiaries on a standalone basis, on the other hand.

Spectrum Brands shall distribute such information and such reports to the Trustee, and make them available, upon request, to any Holder and to any such prospective investor or securities analyst. To the extent not satisfied by the foregoing, Spectrum Brands shall also make publicly available the information required to be available pursuant to Rule 144A(d)(4) under the Securities Act.

Activities of Holdings

Holdings shall not engage in any material activities or hold any material assets other than holding the Capital Stock of Spectrum Brands and those activities incidental thereto and will not incur any material liabilities other than liabilities relating to its Guarantee of the Notes, its Guarantee of any other Indebtedness of Spectrum Brands or any of its Subsidiaries and any other obligations or liabilities incidental to its activities as a holding company.

Events of Default and Remedies

Each of the following is an Event of Default:

- (1) default for 30 days in the payment when due of interest on the Notes;
- (2) default in payment when due (whether at maturity, upon acceleration, redemption or otherwise) of the principal of, or premium, if any, on the Notes;
- (3) failure by Spectrum Brands or any of its Restricted Subsidiaries to comply with the provisions described under the captions **Repurchase at the Option of Holders**, **Change of Control**, **Repurchase at the Option of Holders**, **Asset Sales**, **Certain Covenants**, **Merger, Consolidation or Sale of Assets** or the provisions described in the second paragraph under the caption **Certain Covenants** **Guarantees** ;

Table of Contents

(4) failure by Spectrum Brands or any of its Restricted Subsidiaries for 60 days after written notice by the Trustee or Holders representing 25% or more of the aggregate principal amount of Notes outstanding to comply with any of the other agreements in the Indenture;

(5) default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by Spectrum Brands or any of its Restricted Subsidiaries (or the payment of which is Guaranteed by Spectrum Brands or any of its Restricted Subsidiaries) whether such Indebtedness or Guarantee now exists, or is created after the Issue Date, if that default:

(a) is caused by a failure to make any payment of principal at the final maturity of such Indebtedness (a Payment Default);

(b) results in the acceleration of such Indebtedness prior to its express maturity,

and, in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a Payment Default or the maturity of which has been so accelerated, aggregates \$75.0 million or more;

(6) failure by Spectrum Brands or any of its Restricted Subsidiaries to pay final judgments (to the extent such judgments are not paid or covered by insurance provided by a carrier that has acknowledged coverage in writing and has the ability to perform) aggregating in excess of \$75.0 million, which judgments are not paid, discharged or stayed for a period of 60 days;

(7) except as permitted by the Indenture, any Note Guarantee shall be held in any judicial proceeding to be unenforceable or invalid or shall cease for any reason to be in full force and effect or any Guarantor, or any authorized Person acting on behalf of any Guarantor, shall deny or disaffirm its obligations under its Note Guarantee; and

(8) certain events of bankruptcy or insolvency with respect to Spectrum Brands, any Significant Subsidiary of Spectrum Brands (or any Restricted Subsidiaries that together would constitute a Significant Subsidiary).

In the case of an Event of Default arising from certain events of bankruptcy or insolvency, with respect to Spectrum Brands, all outstanding Notes will become due and payable immediately without further action or notice. If any other Event of Default occurs and is continuing, the Trustee or the Holders of at least 25% in principal amount of the then outstanding Notes may declare all the Notes to be due and payable immediately by notice in writing to Spectrum Brands specifying the Event of Default.

Holders of the Notes may not enforce the Indenture or the Notes except as provided in the Indenture. Subject to certain limitations, Holders of a majority in principal amount of the then outstanding Notes may direct the Trustee in its exercise of any trust or power. The Trustee may withhold from Holders of the Notes notice of any Default or Event of Default (except a Default or Event of Default relating to the payment of principal or interest) if it determines that withholding notice is in their interest.

The Holders of a majority in aggregate principal amount of the Notes then outstanding by notice to the Trustee may on behalf of the Holders of all of the Notes waive any existing Default or Event of Default and its consequences under the Indenture except a continuing Default or Event of Default in the payment of interest on, or the principal of, the Notes. The Holders of a majority in principal amount of the Notes then outstanding will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee. However, the Trustee may refuse to follow any direction that conflicts with law or the Indenture, that may involve the Trustee in

personal liability, or that the Trustee determines in good faith may be unduly prejudicial to the rights of Holders not joining in the giving of such direction and may take any other action it deems proper that is not inconsistent with any such direction received from Holders.

Table of Contents

A Holder may not institute any proceeding, judicial or otherwise, with respect to the Indenture or the Notes, or form the appointment of a recipient or a trustee, or pursue any remedy with respect to the Indenture or the Notes unless:

- (1) the Holder gives the Trustee written notice of a continuing Event of Default;
- (2) the Holders of at least 25% in aggregate principal amount of outstanding Notes make a written request to the Trustee to pursue the remedy;
- (3) such Holder or Holders offer the Trustee indemnity satisfactory to the Trustee against any costs, liability or expense;
- (4) the Trustee does not comply with the request within 60 days after receipt of the request and the offer of indemnity; and
- (5) during such 60-day period, the Holders of a majority in aggregate principal amount of the outstanding Notes do not give the Trustee a direction that is inconsistent with the request.

However, such limitations do not apply to the right of any Holder of a Note to receive payment of the principal of, premium, if any, or interest on, such Note or to bring suit for the enforcement of any such payment, on or after the due date expressed in the Notes, which right shall not be impaired or affected without the consent of the Holder.

Spectrum Brands is required to deliver to the Trustee annually within 120 days after the end of each fiscal year a statement regarding compliance with the Indenture. Upon becoming aware of any Default or Event of Default, Spectrum Brands is required to deliver to the Trustee a statement specifying such Default or Event of Default.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, incorporator, stockholder or controlling person of Spectrum Brands or any Guarantor, as such, shall have any liability for any obligations of Spectrum Brands or the Guarantors under the Notes, the Indenture, the Note Guarantees, or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder of Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes.

Satisfaction and Discharge

The Indenture will be discharged and will cease to be of further effect as to all Notes issued thereunder, when:

- (1) either:
 - (a) all Notes that have been authenticated (except lost, stolen or destroyed Notes that have been replaced or paid and Notes for whose payment money has theretofore been deposited in trust and thereafter repaid to Spectrum Brands) have been delivered to the Trustee for cancellation; or
 - (b) all Notes that have not been delivered to the Trustee for cancellation have become due and payable by reason of the making of a notice of redemption or otherwise or will become due and payable within one year and Spectrum Brands or any Guarantor has irrevocably deposited or caused to be deposited with the Trustee as trust funds in trust solely for the benefit of the Holders, cash in U.S. dollars, non-callable Government Securities, or a combination thereof, in such amounts, as determined by Spectrum Brands, as will be sufficient without consideration of any

reinvestment of interest, to pay and discharge the entire

Table of Contents

Indebtedness on the Notes not delivered to the Trustee for cancellation for principal, premium, if any, and accrued interest to the date of maturity or redemption;

(2) no Default or Event of Default shall have occurred and be continuing on the date of such deposit or shall occur as a result of such deposit (other than from the borrowing of funds to be applied to such deposit) and such deposit will not result in a breach or violation of, or constitute a default under, any other instrument (other than the Indenture) to which Spectrum Brands or any Guarantor is a party or by which Spectrum Brands or any Guarantor is bound;

(3) Spectrum Brands or any Guarantor has paid or caused to be paid all sums payable by it under the Indenture; and

(4) Spectrum Brands has delivered irrevocable instructions to the Trustee under the Indenture to apply the deposited money toward the payment of the Notes at maturity or the redemption date, as the case may be.

In the case of satisfaction and discharge, upon any redemption that requires the payment of the Applicable Premium, the amount deposited with the trustee shall be sufficient for purposes of clause (1) above and the Indenture to the extent that an amount is deposited with the trustee equal to the Applicable Premium calculated as of the date of such deposit, with any deficit as of the date of redemption (any such amount, the Applicable Premium Deficit) only required to be deposited with the trustee on or prior to the date of redemption. Any Applicable Premium Deficit shall be set forth in an officer's certificate delivered to the trustee simultaneously with the deposit of such Applicable Premium Deficit that confirms that such Applicable Premium Deficit shall be applied toward such redemption.

In addition, Spectrum Brands must deliver an officer's certificate and an opinion of counsel to the Trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

Legal Defeasance and Covenant Defeasance

Spectrum Brands may, at its option and at any time, elect to have all of its obligations discharged with respect to the outstanding Notes (Legal Defeasance) except for:

(1) the rights of Holders of outstanding Notes to receive payments in respect of the principal of, or interest or premium, if any, on such Notes when such payments are due from the trust referred to below;

(2) Spectrum Brands' obligations with respect to the Notes concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust;

(3) the rights, powers, trusts, duties and immunities of the Trustee, and Spectrum Brands' and the Guarantor's obligations in connection therewith; and

(4) the Legal Defeasance provisions of the Indenture.

In addition, Spectrum Brands may, at its option and at any time, elect to have the obligations of Spectrum Brands and the Guarantors released with respect to most covenants that are described in the Indenture (Covenant Defeasance) and thereafter any omission to comply with those covenants shall not constitute a Default or Event of Default with respect to the Notes. In the event Covenant Defeasance occurs, certain events (not including non-payment, bankruptcy, receivership, rehabilitation and insolvency events) described under Events of Default and Remedies will no longer constitute Events of Default with respect to the Notes.

In order to exercise either Legal Defeasance or Covenant Defeasance:

(1) Spectrum Brands must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders of the Notes, cash in U.S. dollars, non-callable Government Securities, or a combination thereof, in such amounts as

Table of Contents

will be sufficient, in the opinion of a nationally recognized firm of independent public accountants (or, if two or more nationally recognized firms of independent public accountants decline to issue such opinion as a matter of policy, in the opinion of Spectrum Brands' chief financial officer) to pay the principal of, or interest and premium, if any, on the outstanding Notes on the stated maturity or on the applicable redemption date, as the case may be, and Spectrum Brands must specify whether the Notes are being defeased to maturity or to a particular redemption date;

(2) in the case of Legal Defeasance, Spectrum Brands shall have delivered to the Trustee an opinion of counsel reasonably acceptable to the Trustee confirming that (a) Spectrum Brands has received from, or there has been published by, the Internal Revenue Service a ruling or (b) since the Issue Date, there has been a change in the applicable federal income tax law, in either case to the effect that, and based thereon such opinion of counsel shall confirm that, the Holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Legal Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

(3) in the case of Covenant Defeasance, Spectrum Brands shall have delivered to the Trustee an opinion of counsel reasonably acceptable to the Trustee confirming that the Holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Covenant Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) no Default or Event of Default shall have occurred and be continuing on the date of such deposit other than a Default resulting from the borrowing of funds to be applied to such deposit;

(5) such Legal Defeasance or Covenant Defeasance will not result in a breach or violation of, or constitute a default under any material agreement or instrument to which Spectrum Brands or any of its Subsidiaries is a party or by which Spectrum Brands or any of its Subsidiaries is bound;

(6) Spectrum Brands must deliver to the Trustee an officer's certificate stating that the deposit was not made by Spectrum Brands with the intent of preferring the Holders of Notes over the other creditors of Spectrum Brands with the intent of defeating, hindering, delaying or defrauding creditors of Spectrum Brands or others;

(7) if the Notes are to be redeemed prior to their stated maturity, Spectrum Brands must deliver to the Trustee irrevocable instructions to redeem all of the Notes on the specified redemption date; and

(8) Spectrum Brands must deliver to the Trustee an officer's certificate and an opinion of counsel, each stating that all conditions precedent relating to the Legal Defeasance or the Covenant Defeasance have been complied with.

In the case of defeasance, upon any redemption that requires the payment of the Applicable Premium, the amount deposited with the trustee shall be sufficient for purposes of clause (1) above and the Indenture to the extent that an amount is deposited with the trustee equal to the Applicable Premium calculated as of the date of such deposit, with the Applicable Premium Deficit only required to be deposited with the trustee on or prior to the date of redemption. Any Applicable Premium Deficit shall be set forth in an officer's certificate delivered to the trustee simultaneously with the deposit of such Applicable Premium Deficit that confirms that such Applicable Premium Deficit shall be applied toward such redemption.

In the case of legal or covenant defeasance, all Guarantees and Liens will be released.

Amendment, Supplement and Waiver

Except as provided in the next succeeding paragraphs, the Indenture, the Notes or the Guarantees may be amended or supplemented with the consent of the Holders of at least a majority in aggregate principal amount of

Table of Contents

the Notes then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes), and any existing Default or Event of Default or compliance with any provision of the Indenture, the Notes or the Guarantees may be waived with the consent of the Holders of a majority in aggregate principal amount of the then outstanding Notes (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes).

Without the consent of each Holder of Notes affected, an amendment, supplement or waiver may not (with respect to any Notes held by a non-consenting Holder):

- (1) reduce the principal amount of the Notes whose Holders must consent to an amendment, supplement or waiver;
- (2) reduce the principal of or change the fixed maturity of any Note or alter the provisions, or waive any payment, with respect to the redemption of the Notes (other than the notice period with respect to the redemption of the Notes);
- (3) reduce the rate of or change the time for payment of interest on any Note;
- (4) waive a Default or Event of Default in the payment of principal of, or interest or premium, if any, on the Notes (except a rescission of acceleration of the Notes by the Holders of at least a majority in aggregate principal amount of the then outstanding Notes and a waiver of the payment default that resulted from such acceleration);
- (5) make any Note payable in money other than U.S. dollars;
- (6) make any change in the provisions of the Indenture relating to waivers of past Defaults or the rights of Holders of Notes to receive payments of principal of, or interest or premium, if any, on the Notes;
- (7) release any Guarantor from any of its obligations under its Note Guarantee or the Indenture, except in accordance with the terms of the Indenture;
- (8) impair the right to institute suit for the enforcement of any payment on or with respect to the Notes or the Note Guarantees;
- (9) amend, change or modify the obligation of Spectrum Brands to make and consummate an Asset Sale Offer with respect to any Asset Sale in accordance with the Repurchase at the Option of Holders Asset Sales covenant after the obligation to make such Asset Sale Offer has arisen, or the obligation of Spectrum Brands to make and consummate a Change of Control Offer in the event of a Change of Control in accordance with the Repurchase at the Option of Holders Change of Control covenant after such Change of Control has occurred, including, in each case, amending, changing or modifying any definition relating thereto;
- (10) except as otherwise permitted under the Merger, Consolidation and Sale of Assets covenant, consent to the assignment or transfer by Spectrum Brands of any of its rights or obligations under the Indenture; or
- (11) make any change in the preceding amendment and waiver provisions.

Notwithstanding the preceding, without the consent of any Holder of the Notes, Spectrum Brands, the Guarantors and the Trustee may amend or supplement the Indenture, the Notes or the Guarantees:

- (1) to cure any ambiguity, defect or inconsistency;

(2) to provide for uncertificated Notes in addition or in place of certificated Notes;

Table of Contents

- (3) to provide for the assumption of Spectrum Brands or any Guarantor's obligations to Holders of Notes in the case of a merger or consolidation or sale of all or substantially all of Spectrum Brands or such Guarantor's assets;
- (4) to make any change that would provide any additional rights or benefits to the Holders of Notes or that does not adversely affect the legal rights under the Indenture of any such Holder;
- (5) to comply with requirements of the Commission in order to effect or maintain the qualification of the Indenture under the Trust Indenture Act;
- (6) to comply with the provision described under Certain Covenants Guarantees ;
- (7) to evidence and provide for the acceptance of appointment by a successor Trustee;
- (8) to provide for the issuance of Additional Notes in accordance with the Indenture; or
- (9) to conform any provision to this Description of 2024 Notes.

Concerning the Trustee

If the Trustee becomes a creditor of Spectrum Brands or any Guarantor, the Indenture limits its right to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest it must eliminate such conflict within 90 days, apply to the Commission for permission to continue or resign.

The Indenture provides that in case an Event of Default shall occur and be continuing, the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in the conduct of such person's own affairs. Subject to such provisions, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any Holder of the Notes, unless such Holder shall have offered to the Trustee security and indemnity satisfactory to it against any loss, liability or expense.

You can find the definitions of certain terms used in this description of notes under **Certain Definitions**.

Spectrum Brands will issue up to \$1,000.0 million aggregate principal amount of 5.750% Senior Notes (the **Exchange Notes**) offered hereby under the indenture dated May 20, 2015 among Spectrum Brands, the guarantors named therein and U.S. Bank National Association, as Trustee, as supplemented by the supplemental indenture dated as of June 23, 2015 (as so supplemented, the **Indenture**), in exchange for a like aggregate principal amount of 5.750% Senior Notes (the **Initial Notes** and, together with the Exchange Notes, the **Notes**). The Exchange Notes that we will issue you in exchange for your existing notes will be substantially identical to your existing notes except that, unlike your existing notes, the Exchange Notes will have no transfer restrictions or registration rights.

The terms of the Exchange Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended.

The following is a summary of the material provisions of the Indenture. Because this is a summary, it may not contain all the information that is important to you. You should read the Indenture in its entirety because it, and not this description, defines your rights as holders of the Notes. Copies of the Indenture are available at the address described under **Where You Can Find More Information**.

Basic Terms of Notes

The Notes will:

be general unsecured obligations of Spectrum Brands, ranking equally in right of payment with all existing and future unsecured senior Indebtedness of Spectrum Brands, including the Initial Notes and Existing Notes;

be guaranteed by Spectrum Brands' direct parent, SB/RH Holdings, LLC (**Holdings**), and each of Spectrum Brands' existing and future Domestic Subsidiaries, which guaranty in each case shall be a senior unsecured obligation of such Guarantor, ranking equally in right of payment with all existing and future senior Indebtedness of such Guarantor;

rank senior in right of payment to all of Spectrum Brands' and the Guarantors' existing and future Indebtedness that expressly provides for its subordination to the Notes and the Note Guarantees;

be effectively subordinated to any secured Indebtedness of Spectrum Brands, including all Indebtedness under the Term Loan Agreement and the Revolving Credit Agreement, to the extent of the value of the assets securing such Indebtedness; and

be structurally subordinated to all Indebtedness and other liabilities of Spectrum Brands subsidiaries that do not guarantee the Notes.

Principal, Maturity and Interest

The Notes will mature on July 15, 2025. Spectrum Brands will pay interest on the Notes semi-annually in arrears on July 15 and January 15 of each year to holders of record on the immediately preceding July 1 and January 1. Interest on the Notes will accrue from the most recent date to which interest has been paid (including, with respect to Exchange Notes, interest paid on the Initial Notes surrendered for such Exchange Notes) or, if no interest has been paid, from the Issue Date. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Table of Contents

Spectrum Brands will pay interest on overdue principal of the Notes at a rate equal to 1.0% per annum in excess of 5.750% per annum and will pay interest on overdue installments of interest at such higher rate, in each case to the extent lawful.

Additional Notes

Subject to the covenants described below, Spectrum Brands may issue additional Notes (Additional Notes) under the Indenture in an unlimited aggregate principal amount, having the same terms in all respects as the Notes, or in all respects except with respect to issue price and interest accrued on or prior to the issue date thereof.

To the extent required by applicable tax regulations, if Additional Notes are not fungible with other Notes for U.S. federal income tax purposes, the Additional Notes will trade under a separate CUSIP number and will be treated as a separate class for purposes of transfer and exchange. Nevertheless, the Notes offered hereby and any Additional Notes may, at our election, be treated as a single class for all purposes under the Indenture and vote together as one class on all matters with respect to the Notes.

Methods of Receiving Payments on the Notes

If a Holder has given wire transfer instructions to Spectrum Brands at least ten Business Days prior to the applicable payment or redemption date, Spectrum Brands will pay all principal, interest and premium, if any, on that Holder's Notes in accordance with those instructions. All other payments on Notes will be made at the office or agency of the Paying Agent and Registrar unless Spectrum Brands elects to make interest payments by check mailed to the Holders at their addresses set forth in the register of Holders.

Paying Agent and Registrar for the Notes

The Trustee is acting as Paying Agent and Registrar. Under the Indenture, Spectrum Brands reserves the right to change the Paying Agent or Registrar without prior notice to the Holders, and Spectrum Brands or any of its Subsidiaries may act as Paying Agent or Registrar.

Transfer and Exchange

A Holder may transfer or exchange Notes in accordance with the Indenture. The Registrar and the Trustee may require a Holder, among other things, to furnish appropriate endorsements and transfer documents and Spectrum Brands may require a Holder to pay any taxes and fees required by law or permitted by the Indenture. Spectrum Brands is not required to transfer or exchange any Note selected for redemption. Also, Spectrum Brands is not required to transfer or exchange any Note for a period of 15 days before a selection of the Notes to be redeemed.

The registered Holder of a Note will be treated as the owner of such Note for all purposes.

Note Guarantees

Spectrum Brands' obligations under the Notes and the Indenture will be guaranteed, jointly and severally, on a senior unsecured basis, by Holdings and all of the Domestic Subsidiaries of Spectrum Brands. Each Note Guarantee will:

be a general, unsecured obligation of the Guarantor;

rank equally in right of payment with all existing and future unsecured senior Indebtedness of the Guarantor, including the guaranty of the Existing Notes;

rank senior in right of payment to all existing and any future subordinated Indebtedness of the Guarantor;

Table of Contents

be effectively subordinated to any secured Indebtedness of the Guarantor, including all Indebtedness of each Guarantor under the Term Loan Agreement and the Revolving Credit Agreement, to the extent of the value of the assets securing such Indebtedness; and

be structurally subordinated to all Indebtedness and other liabilities of any of Spectrum Brands' subsidiaries that do not guarantee the Notes.

The Indenture will provide that the obligations of each Guarantor under its Note Guarantee will be limited as necessary to prevent that Note Guarantee from constituting a fraudulent conveyance under applicable law. If Spectrum Brands or any of its Restricted Subsidiaries acquires or creates another Domestic Subsidiary on or after the Issue Date, then that newly acquired or created Domestic Subsidiary must promptly become a Guarantor, execute a supplemental indenture and deliver an opinion of counsel to the Trustee.

None of Spectrum Brands' Foreign Subsidiaries will guarantee the Notes. Spectrum Brands' Subsidiaries that will not be guaranteeing the Notes had, as of June 28, 2015, approximately 20% of our total liabilities and generated 55% of Spectrum Brands' revenue for the nine-month period ended June 28, 2015. See Risk Factors Risks Related to the Notes. The notes will be effectively subordinated to all liabilities of and claims of creditors of all of our foreign subsidiaries. Under the circumstances described below under the caption Certain Covenants Designation of Restricted and Unrestricted Subsidiaries, we will be permitted to designate certain of our Subsidiaries as Unrestricted Subsidiaries. Spectrum Brands' Unrestricted Subsidiaries will not be subject to the restrictive covenants in the Indenture and will not guarantee the Notes.

Optional Redemption

At any time prior to July 15, 2020, Spectrum Brands may redeem the Notes at its option, in whole at any time or in part from time to time, at a redemption price equal to 100% of the principal amount of the Notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest, if any, to, the applicable redemption date.

At any time on or after July 15, 2020, Spectrum Brands may redeem all or a part of the Notes, from time to time, at the redemption prices (expressed as percentages of principal amount) set forth below plus accrued and unpaid interest, if any, to the applicable redemption date, in cash, if redeemed during the twelve-month period beginning on July 15 in the years indicated below:

Year	Percentage
2020	102.875%
2021	101.917%
2022	100.958%
2023 and thereafter	100.000%

At any time and from time to time prior to July 15, 2018, Spectrum Brands may redeem the Notes with an amount of cash equal to the net cash proceeds received by Spectrum Brands from one or more Equity Offerings at a redemption price equal to 105.750% of the principal amount plus accrued and unpaid interest to the redemption date, in an aggregate principal amount for all such redemptions not to exceed 35% of the aggregate principal amount of the Notes (calculated after giving effect to any issuance of Additional Notes), provided that

(1) in each case the redemption takes place not later than 90 days after the closing of the related Equity Offering, and

(2) not less than 65% of the aggregate principal amount of the Notes (calculated after giving effect to any issuance of Additional Notes) issued under the Indenture remains outstanding immediately thereafter.

Notice of any redemption upon any Equity Offering may be given prior to the completion of the related Equity Offering, and any such redemption or notice may, at Spectrum Brands' discretion, be subject to one or more conditions precedent, including, but not limited to, completion of the related Equity Offering.

Table of Contents

Selection and Notice

If less than all of the Notes are to be redeemed at any time, the Trustee will select Notes for redemption as follows:

- (1) if the Notes are listed, in compliance with the requirements of the principal national securities exchange on which the Notes are listed; or
- (2) if the Notes are not so listed, on a pro rata basis, by lot or by such method as the Trustee shall deem fair and appropriate.

No Notes of less than \$2,000 shall be redeemed in part. Notices of redemption shall be mailed by first class mail, or delivered electronically if held by DTC, at least 30 but not more than 60 days before the redemption date to each Holder of the Notes to be redeemed at its registered address, except that redemption notices may be delivered more than 60 days prior to the redemption date if the notice is issued in connection with the defeasance of the Notes or a satisfaction and discharge of the Indenture.

If any Note is to be redeemed in part only, the notice of redemption that relates to that Note shall state the portion of the principal amount thereof to be redeemed. A new Note in principal amount equal to the unredeemed portion of the original Note will be issued in the name of the Holder thereof upon cancellation of the original Note. The Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on the Notes or portions of them called for redemption.

Mandatory Redemption; Open Market Purchases and Other Purchases

Spectrum Brands is not required to make mandatory redemption or sinking fund payments with respect to the Notes.

From time to time, Spectrum Brands, its Restricted Subsidiaries, its direct or indirect parents or its Affiliates may acquire the Notes through open market purchases, privately negotiated transactions, tender offers, exchange offers, redemptions or otherwise, upon such terms and at such prices as Spectrum Brands, its Restricted Subsidiaries, its direct or indirect parents or its Affiliates (as applicable) may determine (or as may be provided for in the Indenture), which may be more or less than the consideration for which the Notes are being sold and may be less than the redemption price in effect and could be for cash or other consideration, in accordance with applicable securities laws, so long as such acquisition does not otherwise violate the terms of the Indenture. There can be no assurance as to which, if any, of these alternatives or combinations thereof Spectrum Brands, its Restricted Subsidiaries, its direct or indirect parents or its Affiliates may choose to pursue in the future.

Repurchase at the Option of Holders

Change of Control

If a Change of Control occurs, each Holder of Notes will have the right to require Spectrum Brands to repurchase all or any part (equal to \$2,000 or a higher multiple of \$1,000) of that Holder's Notes pursuant to a Change of Control Offer on the terms set forth in the Indenture. In the Change of Control Offer, Spectrum Brands will offer a payment (such payment, a Change of Control Payment) in cash equal to 101% of the aggregate principal amount of Notes repurchased, plus accrued and unpaid interest thereon, to the date of purchase. Within 30 days following any Change of Control, Spectrum Brands will mail, or deliver electronically if held by DTC, a notice to each Holder describing the transaction or transactions that constitute the Change of Control and offering to repurchase Notes on the date specified in such notice (the Change of Control Payment Date), which date shall be no earlier than 30 days and no later than

60 days from the date such notice is delivered, pursuant to the procedures required by the Indenture and described in such notice. Spectrum Brands will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to

Table of Contents

the extent such laws and regulations are applicable in connection with the repurchase of the Notes as a result of a Change of Control. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the Indenture, Spectrum Brands will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Change of Control provisions of the Indenture by virtue of such compliance.

On or before the Change of Control Payment Date, Spectrum Brands will, to the extent lawful:

- (1) accept for payment all Notes or portions thereof properly tendered pursuant to the Change of Control Offer;
- (2) deposit with the Paying Agent an amount equal to the Change of Control Payment in respect of all Notes or portions thereof properly tendered; and
- (3) deliver or cause to be delivered to the Trustee the Notes so accepted together with an officer's certificate stating the aggregate principal amount of Notes or portions thereof being purchased by Spectrum Brands.

The Paying Agent will promptly mail or wire transfer to each Holder of Notes properly tendered the Change of Control Payment for such Notes, and the Trustee will promptly authenticate and mail (or cause to be transferred by book entry) to each Holder a new Note equal in principal amount to any unpurchased portion of the Notes surrendered, if any; provided that such new Note will be in a principal amount of \$2,000 or a higher integral multiple of \$1,000.

Spectrum Brands' senior credit facilities provide that certain change of control events with respect to Spectrum Brands would constitute a default under these agreements. Any future credit agreements or other agreements to which Spectrum Brands becomes a party may contain similar provisions. Spectrum Brands' ability to pay cash to the Noteholders following the occurrence of a Change of Control may be limited by Spectrum Brands' then existing financial resources. Moreover, the exercise by the Noteholders of their right to require Spectrum Brands to purchase the Notes could cause a default under other debt, even if the Change of Control itself does not, due to the financial effect of the purchase on Spectrum Brands. There can be no assurance that sufficient funds will be available when necessary to make the required purchase of the Notes. See Risk Factors Risks Related to the Notes We may not be able to make the change of control offer required by the indenture.

Spectrum Brands will not be required to make a Change of Control Offer upon a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by Spectrum Brands and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer or (2) notice of redemption has been given pursuant to the Indenture as described above under the caption Optional Redemption, unless and until there is a default in payment of the applicable redemption price.

If holders of not less than 90% in aggregate principal amount of the outstanding Notes validly tender and do not withdraw such notes in a Change of Control Offer and Spectrum Brands, or any third party making a Change of Control Offer in lieu of Spectrum Brands as described above, purchases all of the Notes validly tendered and not withdrawn by such holders, Spectrum Brands or such third party will have the right, upon not less than 30 nor more than 60 days' prior notice, given not more than 30 days following such purchase pursuant to the Change of Control Offer described above, to redeem all Notes that remain outstanding following such purchase at a price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest to but excluding the date of redemption.

Notes repurchased by Spectrum Brands pursuant to a Change of Control Offer will have the status of Notes issued but not outstanding or will be retired and canceled at the option of Spectrum Brands. Notes purchased by a third party pursuant to the preceding paragraphs will have the status of Notes issued and outstanding.

Table of Contents

A Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control or other events, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

The provisions under the Indenture relative to Spectrum Brands' obligation to make a Change of Control Offer may be waived or modified with the written consent of the holders of a majority in principal amount of the Notes then outstanding.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of the properties or assets of Spectrum Brands and its Subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a Holder of the Notes to require Spectrum Brands to repurchase such Notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of Spectrum Brands and its Subsidiaries taken as a whole to another Person or group may be uncertain.

Under a Delaware Chancery Court interpretation of a change of control repurchase requirement with a continuing director provision, a board of directors may approve a slate of shareholder-nominated directors without endorsing them or while simultaneously recommending and endorsing its own slate instead. The foregoing interpretation would permit Spectrum Brands' board of directors to approve a slate of directors that included a majority of dissident directors nominated pursuant to a proxy contest, and the ultimate election of such directors would not constitute a Change of Control under the Indenture that would trigger the rights of a holder of Notes to require a repurchase of the Notes pursuant to this covenant.

Suspension of Certain Covenants

If at any time after the Issue Date that (i) the Notes are rated Investment Grade by each of S&P and Moody's (or, if either (or both) of S&P and Moody's have been substituted in accordance with the definition of Rating Agencies, by each of the then applicable Rating Agencies) and (ii) no Default has occurred and is continuing under the Indenture, Spectrum Brands and its Restricted Subsidiaries will not be subject to the covenants in the Indenture specifically listed under the following captions in this Description of 2025 Notes section of this prospectus (the Suspended Covenants):

- (1) Certain Covenants Incurrence of Indebtedness and Issuance of Preferred Stock ;
- (2) Certain Covenants Restricted Payments ;
- (3) Certain Covenants Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries ;
- (4) Certain Covenants Transactions with Affiliates ;
- (5) Certain Covenants Asset Sales ; and
- (6) clause (3) under Certain Covenants Merger, Consolidation or Sale of Assets.

Additionally, during such time as the above referenced covenants are suspended (a Suspension Period), Spectrum Brands will not be permitted to designate any Restricted Subsidiary as an Unrestricted Subsidiary.

In the event that Spectrum Brands and its Restricted Subsidiaries are not subject to the Suspended Covenants for any period of time as a result of the foregoing, and on any subsequent date (the Reversion Date) the condition set forth in clause (i) of the first paragraph of this section is no longer satisfied, then Spectrum Brands and its Restricted Subsidiaries will thereafter again be subject to the Suspended Covenant with respect to future events.

Table of Contents

On each Reversion Date, all Debt incurred during the Suspension Period prior to such Reversion Date will be deemed to be Debt incurred pursuant to clause (b)(2) under Incurrence of Indebtedness and Issuance of Preferred Stock. For purposes of calculating the amount available to be made as Restricted Payments under clause (3) of clause (A) of Restricted Payments, calculations under such covenant shall be made as though such covenant had been in effect since the Issue Date and prior, but not during, the Suspension Period. Accordingly, Restricted Payments made during the Suspension Period will not reduce the amount available to be made as Restricted Payments under the first paragraph of Restricted Payments. For purposes of the Asset Sales covenant, on the Reversion Date, the amount of unutilized Excess Proceeds will be reset to zero. Notwithstanding that the Suspended Covenants may be reinstated, no Default or Event of Default shall be deemed to have occurred as a result of a failure to comply with the Suspended Covenants during a Suspension Period (or on the Reversion Date after a Suspension Period based solely on events that occurred during the Suspension Period).

There can be no assurance that the Notes will ever achieve or maintain a rating of Investment Grade from the Rating Agencies.

Certain Covenants

(All such payments and other actions set forth in clauses (1) through (4) above being collectively referred to as Restricted Payments), unless, at the time of and after giving effect to such Restricted Payment:

(1) no Default or Event of Default shall have occurred and be continuing or would occur as a consequence thereof;
and

Table of Contents

(2) Spectrum Brands would, at the time of such Restricted Payment and after giving pro forma effect thereto as if such Restricted Payment had been made at the beginning of the applicable four-quarter period, have been permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described below under the caption Incurrence of Indebtedness and Issuance of Preferred Stock ; and

(3) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by Spectrum Brands and its Restricted Subsidiaries after December 4, 2014 (excluding Restricted Payments permitted by clauses (2), (3), (4) (to the extent such dividends are paid to Spectrum Brands or any of its Restricted Subsidiaries) and (5), (6), (8), (9)(i), (ii) or (iv), (10), (11), (12) and (13) of the next succeeding paragraph (B)), is less than the sum, without duplication, of:

(c) with respect to Restricted Investments made by Spectrum Brands and its Restricted Subsidiaries after December 4, 2014, an amount equal to the net reduction in Investments (other than reductions in Permitted Investments) in any Person resulting from repayments of loans or advances, or other transfers of assets, in each case to Spectrum Brands or any Restricted Subsidiary or from the net cash proceeds from the sale of any such Investment (except, in each case, to the extent any such payment or proceeds are included in the calculation of Consolidated Net Income) from the release of any Guarantee (except to the extent any amounts are paid under such Guarantee) or from redesignations of Unrestricted Subsidiaries as Restricted Subsidiaries, not to exceed, in each case, the amount of Investments previously made by Spectrum Brands or any Restricted Subsidiary in such Person or Unrestricted Subsidiary; plus

(d) \$350.0 million.

(B) So long as, in the case of clauses (7), (8) and (15), no Default has occurred and is continuing or would be caused thereby, the preceding provisions will not prohibit:

(1) the payment of any dividend or distribution or consummation of a redemption within 60 days after the date of declaration thereof or the giving of the redemption notice, as applicable, if at said date of declaration or notice such payment would have complied with the provisions of the Indenture;

(2) the redemption, repurchase, retirement, defeasance or other acquisition of any subordinated Indebtedness of Spectrum Brands or any Guarantor or of any Equity Interests (including Disqualified Stock) of Spectrum Brands or any Restricted Subsidiary in exchange for, or out of the net cash proceeds of a contribution to the common equity of Spectrum Brands or sale (other than to a Subsidiary of Spectrum Brands) of, Equity Interests of Spectrum Brands or any direct or indirect parent of Spectrum Brands (other than Disqualified Stock) contributed to the equity of Spectrum Brands, in each case, within 60 days of such redemption, repurchase, retirement, defeasance or other acquisition;

provided that the amount of any such net cash proceeds that are utilized for any such redemption, repurchase, retirement, defeasance or other acquisition shall be excluded from clause (3)(b) of the preceding paragraph (A);

(14) the payment of dividends to Holdings to fund a payment of dividends on Holdings common stock (or the common stock of any direct or indirect parent of Holdings) of up to 6% per annum of the net cash proceeds received by or contributed to Spectrum Brands as a contribution to equity in or from any public offering of common stock of Holdings (or the common stock of any direct or indirect parent of Holdings) other than public offerings registered on Form S-4 or Form S-8 (or their successor or equivalent forms); and

(15) any Restricted Payment if, at the time of making of such payment and after giving effect thereto (including the incurrence of any Indebtedness to finance such payments), the Consolidated Total Debt Ratio shall be no greater than 4.0 to 1.0.

such Subsidiary, as the case may be, pursuant to the Restricted Payment. The fair market value of any assets or securities in excess of \$10.0 million that are required to be valued by this covenant shall be determined by the Board of Directors.

For purposes of determining compliance with this covenant, in the event that a proposed Restricted Payment (or portion thereof) meets the criteria of more than one of the categories of Restricted Payments described in clauses (1) through (15) above, or is entitled to be incurred pursuant to the first paragraph of this covenant, Spectrum Brands will be entitled to divide, classify or re-classify (based on circumstances existing on the date of such reclassification) such restricted payment or portion thereof in any manner that complies with this covenant and such Restricted Payment will be treated as having been made pursuant to only such clause or clauses or the first paragraph of this covenant.

Incurrence of Indebtedness and Issuance of Preferred Stock

(a) Spectrum Brands will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur any Indebtedness (including Acquired Debt), and Spectrum Brands will not permit any of its Restricted Subsidiaries to issue any preferred stock; provided that Spectrum Brands or any Restricted Subsidiaries may incur Indebtedness, if the Fixed Charge Coverage Ratio for Spectrum Brands most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Indebtedness is incurred would have been at least 2.0 to 1.0, determined on a pro forma basis (including a pro forma application of the net proceeds therefrom), as if the additional Indebtedness had been incurred at the beginning of such four-quarter period; provided, further, that any Restricted Subsidiary that is not a Guarantor may not incur Indebtedness or issue shares of Disqualified Stock or Preferred Stock in a principal amount (or accreted value, as applicable) that, when aggregated with the principal amount (or accreted value, as applicable) of all Indebtedness then outstanding and incurred by such non-Guarantor Restricted Subsidiaries under this clause (a), together with all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any such Indebtedness, exceeds the greater of \$500 million and 50% of the Consolidated Cash Flows of Spectrum Brands for the most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding such date on which such additional Indebtedness is incurred and after giving pro forma effect thereto (including a pro forma application of the net proceeds therefrom) as if such indebtedness had been incurred at the beginning of such four fiscal quarters.

(b) Paragraph (a) of this covenant will not prohibit the incurrence of any of the following items of Indebtedness (collectively, Permitted Debt):

(1) the incurrence by Spectrum Brands or any Restricted Subsidiaries of Indebtedness (including Indebtedness under the Revolving Credit Agreement and the Term Loan Agreement) under Credit Facilities (and the incurrence of Guarantees thereof) in an aggregate principal amount at any one time outstanding pursuant to this clause (1) (with letters of credit being deemed to have a principal amount equal to the maximum potential liability of Spectrum Brands and its Restricted Subsidiaries thereunder) not to exceed the sum of (A) the greater of \$1,000 million and the Borrowing Base; and (B) the greater of (x) \$2,800 million and (y) an amount such that, on a pro forma basis after giving effect to the incurrence of such Indebtedness (and application of the net proceeds therefrom), the Secured Leverage Ratio would be no greater than 3.25 to 1.0 (provided that all Indebtedness incurred under clause (B)(y), whether or not secured, shall be included when calculating the Secured Leverage Ratio for purposes of this clause (B)(y)); less the aggregate amount of all Net Proceeds of Asset Sales applied by Spectrum Brands or any Restricted Subsidiary to permanently repay any such Indebtedness (and, in the case of any revolving credit Indebtedness, to effect a corresponding commitment reduction thereunder) pursuant to the covenant Repurchase at the Option of Holders Asset Sales ;

(2) the incurrence of Existing Indebtedness;

(3) the incurrence by Spectrum Brands and the Guarantors of Indebtedness represented by the Notes offered hereby (including Exchange Notes but excluding any Additional Notes) and the related Note Guarantees;

(4) the incurrence by Spectrum Brands or any Restricted Subsidiary of Spectrum Brands of Indebtedness (including Capital Lease Obligations, mortgage financings or purchase money obligations), incurred for the purpose of financing or reimbursing all or any part of the purchase price or cost of the acquisition, development, construction, purchase, lease, repair, addition or improvement of property (real or personal), plant, equipment or other fixed or capital assets that are used or useful in the Permitted Business, whether through the direct purchase of assets or the purchase of Equity Interests of any Person owning such assets (in each case, incurred within 365 days of such acquisition, development, construction, purchase, lease, repair, addition or improvement), in a principal amount that, when aggregated with the principal amount of all Indebtedness then outstanding under this clause (4), together with all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any such Indebtedness incurred under this clause (4), does not exceed the greater of (a) \$300.0 million and (b) 30% of Consolidated Cash Flow of Spectrum Brands for the most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding such date on which such additional Indebtedness is incurred and after giving pro forma effect thereto as if such event occurred at the beginning of such four fiscal quarters;

(5) the incurrence by Spectrum Brands or any Restricted Subsidiary of Spectrum Brands of Permitted Refinancing Indebtedness in exchange for, or the net proceeds of which are used to refund, refinance or replace Indebtedness (other than intercompany Indebtedness) that was permitted by the Indenture to be incurred under the first paragraph of this covenant or clauses (2), (3), (4), (5), (8), (10), (11) or (16) of this paragraph;

(6) the incurrence by Spectrum Brands or any of its Restricted Subsidiaries of intercompany Indebtedness owing to and held by Spectrum Brands or any of its Restricted Subsidiaries; provided that:

(a) if Spectrum Brands or any Guarantor is the obligor on such Indebtedness, such Indebtedness must be unsecured and expressly subordinated to the prior payment in full in cash of all Obligations with respect to the Notes, in the case of Spectrum Brands, or the Note Guarantee, in the case of a Guarantor; and

(b) (i) any subsequent issuance or transfer of Equity Interests that results in any such Indebtedness being held by a Person other than Spectrum Brands or a Restricted Subsidiary thereof and (ii) any sale or other transfer of any such Indebtedness to a Person that is not either Spectrum Brands or a Restricted Subsidiary thereof, shall be deemed, in each case, to constitute an incurrence of such Indebtedness by Spectrum Brands or such Restricted Subsidiary, as the case may be, that was not permitted by this clause (6);

(7) the Guarantee by Spectrum Brands or any Restricted Subsidiary of Indebtedness of Spectrum Brands or a Restricted Subsidiary of Spectrum Brands that was permitted to be incurred by another provision of this covenant;

(8) the incurrence by Spectrum Brands or any Restricted Subsidiary of Spectrum Brands of other Indebtedness in a principal amount (or accreted amount as applicable) that, when aggregated with the principal amount of all Indebtedness then outstanding under this clause (8), together with all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any such Indebtedness incurred under this clause (8), does not exceed the greater of (a) \$400.0 million and (b) 40% of Consolidated Cash Flow of Spectrum Brands for the most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding such date on which such additional Indebtedness is incurred and after giving pro forma effect thereto as if such event occurred at the beginning of such four fiscal quarters;

(10) Acquired Debt; provided that after giving effect to the incurrence thereof, Spectrum Brands either (x) could incur \$1.00 of indebtedness under paragraph (a) above or (y) would have had a Fixed Charge Coverage Ratio equal to or greater than the actual Fixed Charge Coverage Ratio of Spectrum Brands for the four-quarter period immediately prior to such transaction;

(11) the incurrence of Indebtedness by Foreign Subsidiaries; provided that the principal amount (or accreted value, as applicable) incurred under this clause (11), when aggregated with the principal amount (or accreted value, as applicable) of all other Indebtedness then outstanding and incurred under this clause (11), together with all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred pursuant to this clause (11), does not exceed \$600.0 million, and Guarantees thereof by any Foreign Subsidiary;

(12) (A) Indebtedness in respect of bid, performance or surety bonds, workers' compensation claims, self-insurance obligations or health, disability or other benefits to employees or former employees or their families, and Indebtedness incurred in connection with the maintenance of, or pursuant to the requirements of, environmental or other permits or licenses from governmental authorities, in each case incurred in the ordinary course of business, including guarantees or obligations of Spectrum Brands or any Restricted Subsidiary with respect to letters of credit supporting such obligations (in each case other than for an obligation for money borrowed); and (B) Indebtedness consisting of the financing of insurance premiums, in the ordinary course of business;

(13) Indebtedness arising in connection with endorsement of instruments for deposit in the ordinary course of business;

(14) Indebtedness of Spectrum Brands or any Restricted Subsidiary incurred in the ordinary course of business under guarantees of Indebtedness of suppliers, licensees, franchisees or customers in an aggregate amount not to exceed \$10.0 million at any time outstanding;

(15) the incurrence by Spectrum Brands or any of its Restricted Subsidiaries of Indebtedness solely in respect of premium financing or similar deferred payment obligations with respect to insurance policies purchased in the ordinary course of business;

(16) Contribution Indebtedness; and

(17) Indebtedness incurred on behalf of, or representing Guarantees of Indebtedness of, joint ventures of Spectrum Brands or any Restricted Subsidiary; provided that the aggregate principal amount of Indebtedness incurred under this clause (17), when aggregated with the principal amount of all other Indebtedness then outstanding and incurred pursuant to this clause (17) does not exceed the greater of \$100.0 million and 10.0% of Consolidated Cash Flow.

For purposes of determining compliance with this Incurrence of Indebtedness and Issuance of Preferred Stock covenant, in the event that any proposed Indebtedness meets the criteria of more than one of the categories of Permitted Debt described in clauses (1) through (17) above, or is entitled to be incurred pursuant to paragraph (a) of this covenant, Spectrum Brands will be permitted to divide, classify or reclassify at the time of its incurrence such item of Indebtedness in any manner that complies with this covenant. In addition, any Indebtedness originally classified as incurred pursuant to paragraph (a) or clauses (1) through (17) above may later be reclassified by Spectrum Brands such that it will be deemed as having been incurred pursuant to another of such clauses or paragraph (a) above to the extent that such reclassified Indebtedness could be incurred pursuant to such new clause or paragraph (a) at the time of such reclassification (based on circumstances existing at the time of such reclassification). If any Contribution Debt is designated as incurred under any provision other than clause (16) under paragraph (b), the related issuance of Equity Interests may be included in any calculation under paragraph (A)(3)(b) of Restricted Payments.

Table of Contents

Subject to the foregoing, any Indebtedness incurred pursuant to clause (1) above shall be deemed for purposes of this covenant to have been incurred on the date such Indebtedness was first incurred until such Indebtedness is actually repaid, other than pursuant to cash sweep provisions or any similar provisions under any Credit Facility that provides that such Indebtedness is deemed to be repaid daily (or otherwise periodically).

The amount of Indebtedness incurred in any foreign currency for purposes of the Indenture shall be converted into U.S. dollars at the time of first incurrence, in the case of term debt, or first committed or first incurred (whichever yields the lower U.S. dollar equivalent), in the case of revolving credit debt, and the amount of such Indebtedness outstanding will not be deemed to change as a result of fluctuations in currency exchange rates after such date of incurrence. However, if the Indebtedness is incurred to refinance other Indebtedness denominated in a foreign currency, and the refinancing would cause the applicable U.S. dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of the refinancing, the U.S. dollar-denominated restriction will be deemed not to have been exceeded so long as the principal amount of the refinancing Indebtedness does not exceed the principal amount of the Indebtedness being refinanced.

Spectrum Brands shall not incur any Indebtedness that is subordinated or junior in right of payment to any Indebtedness of Spectrum Brands unless it is subordinated in right of payment to the Notes at least to the same extent. No Guarantor shall incur any Indebtedness that is subordinated or junior in right of payment to the Indebtedness of such Guarantor unless it is subordinated in right of payment to such Guarantor's Note Guarantee at least to the same extent. For purposes of the foregoing, no Indebtedness will be deemed to be subordinated or junior in right of payment to any other Indebtedness of Spectrum Brands or any Guarantor, as applicable, solely by reason of any Liens or Guarantees arising or created in respect thereof or by virtue of the fact that the holders of any secured Indebtedness have entered into intercreditor agreements giving one or more of such holders priority over the other holders in the collateral held by them.

Liens

Spectrum Brands will not, and will not permit any of its Restricted Subsidiaries to, create, incur, assume or otherwise cause or suffer to exist or become effective any Lien of any kind (other than Permitted Liens) upon any of their property or assets, now owned or hereafter acquired, without effectively providing that the Notes are secured equally and ratably with (or, if the obligation to be secured by the Lien is subordinated in right of payment to the Notes or any Note Guarantee, prior to) the obligations so secured for so long as such obligations are so secured.

For purposes of determining compliance with this covenant, (A) a Lien securing an item of Indebtedness need not be permitted solely by reference to one category of permitted Liens described in clauses (1) through (27) of the definition of Permitted Liens or pursuant to the first paragraph of this covenant but may be permitted in part under any combination thereof and (B) in the event that a Lien securing an item of Indebtedness, Disqualified Stock or preferred stock (or any portion thereof) meets the criteria of one or more of the categories of permitted Liens described in clauses (1) through (27) of the definition of Permitted Liens or pursuant to the first paragraph of this covenant, Spectrum Brands shall, in its sole discretion, classify or reclassify, or later divide, classify or reclassify, such Lien securing such item of Indebtedness (or any portion thereof) in any manner that complies with this covenant and will only be required to include the amount and type of such Lien or such item of Indebtedness secured by such Lien in one of the clauses of the definition of Permitted Liens and such Lien securing such item of Indebtedness will be treated as being incurred or existing pursuant to only one of such clauses or pursuant to the first paragraph hereof.

With respect to any Lien securing Indebtedness that was permitted to secure such Indebtedness at the time of the incurrence of such Indebtedness, such Lien shall also be permitted to secure any Increased Amount of such Indebtedness. The Increased Amount of any Indebtedness shall mean any increase in the amount of such Indebtedness

in connection with any accrual of interest, the accretion of accreted value, the amortization of

original issue discount, the payment of interest in the form of additional Indebtedness with the same terms, the payment of dividends on preferred stock in the form of additional shares of preferred stock of the same class, accretion of original issue discount or liquidation preference and increases in the amount of Indebtedness outstanding solely as a result of fluctuations in the exchange rate of currencies or increases in the value of property securing Indebtedness described in subclause (x) of the second paragraph of the definition of Indebtedness.

Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries

Spectrum Brands will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or permit to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to:

- (1) pay dividends or make any other distributions on its Capital Stock (or with respect to any other interest or participation in, or measured by, its profits) to Spectrum Brands or any of its Restricted Subsidiaries or pay any liabilities owed to Spectrum Brands or any of its Restricted Subsidiaries;
- (2) make loans or advances to Spectrum Brands or any of its Restricted Subsidiaries; or
- (3) transfer any of its properties or assets to Spectrum Brands or any of its Restricted Subsidiaries.

- (2) applicable law, rule, regulation or order;
- (3) any Person or the property or assets of a Person acquired by Spectrum Brands or any of its Restricted Subsidiaries existing at the time of such acquisition and not incurred in connection with or in contemplation of such acquisition, which encumbrance or restriction is not applicable to any Person or the properties or assets of any Person, other than the Person, or the property or assets of the Person, so acquired;
- (4) in the case of clause (3) of the first paragraph of this covenant:
 - (a) provisions that restrict in a customary manner the subletting, assignment or transfer of any property or asset that is a lease, license, conveyance or contract or similar property or asset;
 - (b) restrictions existing by virtue of any transfer of, agreement to transfer, option or right with respect to, or Lien on, any property or assets of Spectrum Brands or any Restricted Subsidiary not otherwise prohibited by the Indenture; or
 - (c) restrictions arising or agreed to in the ordinary course of business, not relating to any Indebtedness, and that do not, individually or in the aggregate, detract from the value of property or assets of Spectrum Brands or any Restricted Subsidiary in any manner material to Spectrum Brands or any Restricted Subsidiary;
- (5) customary provisions with respect to the disposition or distribution of assets or property in joint venture agreements and other agreements;

(6) any agreement for the sale or other disposition of all or substantially all of the capital stock of, or property and assets of, a Restricted Subsidiary that restricts distributions by that Restricted Subsidiary pending such sale or other disposition;

(7) Indebtedness of a Foreign Subsidiary permitted to be incurred under the Indenture; provided that (a) such encumbrances or restrictions are ordinary and customary with respect to the type of Indebtedness being incurred and (b) such encumbrances or restrictions will not materially (in good faith by the Board of Directors of Spectrum Brands) impair Spectrum Brands' ability to make principal and interest payments on the Notes, as determined;

(8) the Indenture, the Notes, the Exchange Notes, any Additional Notes or the Guarantees;

(9) restrictions on cash or other deposits or net worth imposed by customers under contracts entered into in the ordinary course of business;

(10) other Indebtedness, Disqualified Stock or preferred stock of Restricted Subsidiaries permitted to be incurred after the Issue Date pursuant to the provisions of the covenant described under Incurrence of Indebtedness and Issuance of Preferred Stock : provided that such restrictions will not materially (in the good faith judgment of the Board of Directors of Spectrum Brands) impair Spectrum Brands' ability to make principal and interest payments on the Notes;

(11) restrictions or conditions contained in any trading, netting, operating, construction, service, supply, purchase or other agreement to which Spectrum Brands or any of its Restricted Subsidiaries is a party and entered into in the ordinary course of business; provided that such agreement prohibits the encumbrance of solely the property or assets of Spectrum Brands or such Restricted Subsidiary that are the subject of such agreement, the payment rights arising thereunder or the proceeds thereof and does not extend to any other asset or property of Spectrum Brands or such Restricted Subsidiary or the assets or property of any other Restricted Subsidiary;

(12) any instrument governing any Indebtedness or Capital Stock of a Person that is an Unrestricted Subsidiary as in effect on the date that such Person becomes a Restricted Subsidiary, which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person who became a Restricted Subsidiary, or the property or assets of the Person who became a Restricted Subsidiary and was not entered into in contemplation of the designation of such Subsidiary as a Restricted Subsidiary; provided that, in the case of Indebtedness, the incurrence of such Indebtedness as a result of such Person becoming a Restricted Subsidiary was permitted by the terms of the Indenture;

(13) purchase money obligations for property acquired and Capital Lease Obligations in the ordinary course of business that impose restrictions of the nature discussed in clause (3) of the first paragraph of this covenant on the property so acquired; and

(14) any encumbrances or restrictions of the type referred to in clauses (1), (2) and (3) of the first paragraph of this covenant imposed by any amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings of the contracts, instruments or obligations referred to in clauses (1) through (13) above; provided that such amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings are, in the good faith judgment of Spectrum Brands' Board of Directors, not materially more restrictive with respect to such encumbrance and other restrictions than those prior to such amendment, modification, restatement, renewal, increase, supplement, refunding, replacement or refinancing.

For purposes of determining compliance with this covenant, (i) the priority of any preferred stock in receiving dividends or liquidating distributions prior to dividends or liquidating distributions being paid on common stock shall not be deemed a restriction on the ability to make distributions on Capital Stock and (ii) the subordination of loans or advances made to Spectrum Brands or a Restricted Subsidiary of Spectrum Brands to other Indebtedness incurred by Spectrum Brands or any such Restricted Subsidiary shall not be deemed a restriction on the ability to make loans or advances.

(1) to repay secured Indebtedness or Indebtedness of a non-Guarantor Restricted Subsidiary owed to a Person that is not an Affiliate of Spectrum Brands and, except in the case of Indebtedness under the Revolving Credit Agreement, if the Indebtedness repaid is revolving credit Indebtedness, to correspondingly reduce commitments with respect thereto;

(2) to prepay, repay or repurchase any Indebtedness of Spectrum Brands or any of its Restricted Subsidiaries which is not expressly subordinated to the prior payment in full in cash of all Obligations with respect to the Notes, in the case of Spectrum Brands, or the Note Guarantee, in the case of a Guarantor; or

(3) to purchase Replacement Assets or make a capital expenditure in or that is used or useful in a Permitted Business; provided that, if during the 365 day period following the consummation of an Asset Sale, Spectrum Brands or a Restricted Subsidiary enters into a definitive binding agreement committing it to apply the Net Proceeds in accordance with the requirements of this clause (3) after such 365 day period, such 365 day period will be extended with respect to the amount of Net Proceeds so committed until such Net Proceeds are required to be applied in accordance with such agreement (but such extension will in no event be for a period longer than 180 days) or, if earlier, the date of termination of such agreement; provided, further, that in the event such binding commitment is later canceled or terminated for any reason before such Net Proceeds are so applied, then such Net Proceeds shall constitute Excess Proceeds unless Spectrum Brands or such Restricted Subsidiary enters into another binding commitment (a Second Commitment) within six months of such cancellation or termination of the prior binding commitment; provided, further, that Spectrum Brands or such Restricted Subsidiary may only enter into a Second Commitment under the foregoing provision one time with respect to each Asset Sale and to the extent such Second Commitment is later cancelled or terminated for any reason before such Net Proceeds are applied or are not applied within 180 days of such Second Commitment, then such Net Proceeds shall constitute Excess Proceeds.

Following the entering into of a binding agreement with respect to an Asset Sale and prior to the consummation thereof, Cash Equivalents (whether or not actual Net Proceeds of such Asset Sale) used for the purposes described in clause (3) that are designated as used in accordance with clause (3), and not previously or subsequently so designated in respect of any other Asset Sale, shall be deemed to be Net Proceeds applied in accordance with clause (3).

Pending the final application of any such Net Proceeds, Spectrum Brands may temporarily reduce revolving credit borrowings or otherwise invest such Net Proceeds in any manner that is not prohibited by the Indenture.

Any Net Proceeds from Asset Sales that are not applied or invested as provided in clause (1), (2) or (3) of the second preceding paragraph will constitute Excess Proceeds. Within 30 days after the aggregate amount of Excess Proceeds exceeds \$50.0 million, Spectrum Brands will make an Asset Sale Offer to all Noteholders and all holders of other Indebtedness that is *pari passu* with the Notes or any Note Guarantee containing provisions similar to those set forth in the Indenture with respect to offers to purchase with the proceeds of sales of assets, to purchase the maximum principal amount of the Notes and such other *pari passu* Indebtedness that may be purchased out of the Excess Proceeds. Spectrum Brands and its Restricted Subsidiaries may make an Asset Sale Offer under this section using Net Proceeds prior to the time any such Net Proceeds become Excess Proceeds, in which case such Net Proceeds shall be deemed to have been applied within the time frame required by this covenant. The offer price in any Asset Sale Offer will be equal to 100% of the principal amount of the Notes and such other *pari passu* Indebtedness plus accrued and unpaid interest to the date of purchase, and will be payable in cash. If any Excess Proceeds remain after consummation of an Asset Sale Offer, Spectrum Brands may use such Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of the Notes and such other *pari passu* Indebtedness tendered into such Asset Sale Offer exceeds the amount of Excess Proceeds, the Notes and such other *pari passu*

Indebtedness shall be purchased on a pro rata

basis based on the principal amount of the Notes and such other *pari passu* Indebtedness tendered. Upon completion of each Asset Sale Offer, the amount of Excess Proceeds shall be reset at zero.

Spectrum Brands will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with each repurchase of the Notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the Asset Sales provisions of the Indenture, Spectrum Brands will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Asset Sale provisions of the Indenture by virtue of such compliance.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors may designate any Restricted Subsidiary to be an Unrestricted Subsidiary; provided that:

(1) any Guarantee by Spectrum Brands or any Restricted Subsidiary of any Indebtedness of the Subsidiary being so designated will be deemed to be an incurrence of Indebtedness by Spectrum Brands or such Restricted Subsidiary (or both, if applicable) at the time of such designation, and such incurrence of Indebtedness would be permitted under the covenant described above under the caption Certain Covenants Incurrence of Indebtedness and Issuance of Preferred Stock ;

(2) the aggregate fair market value of all outstanding Investments owned by Spectrum Brands and its Restricted Subsidiaries in the Subsidiary being so designated (including any Guarantee by Spectrum Brands or any Restricted Subsidiary of any Indebtedness of such Subsidiary) will be deemed to be a Restricted Investment made as of the time of such designation and that such Investment would be permitted under the covenant described above under the caption Certain Covenants Restricted Payments ;

(3) such Subsidiary does not own any Equity Interests of, or hold any Liens on any Property of, Spectrum Brands or any Restricted Subsidiary;

(4) the Subsidiary being so designated:

(a) is not party to any agreement, contract, arrangement or understanding with Spectrum Brands or any Restricted Subsidiary of Spectrum Brands that would not be permitted under Transactions with Affiliates and;

(b) except as permitted under clauses (1) and (2) above is a Person with respect to which neither Spectrum Brands nor any of its Restricted Subsidiaries has any direct or indirect obligation (a) to subscribe for additional Equity Interests or (b) to maintain or preserve such Person's financial condition or to cause such Person to achieve any specified levels of operating results.

(5) no Default or Event of Default would be in existence following such designation.

If, at any time, any Unrestricted Subsidiary would fail to meet any of the preceding requirements described in clause (4) above, it shall thereafter cease to be an Unrestricted Subsidiary for purposes of the Indenture and any Indebtedness, Investments, or Liens on the property, of such Subsidiary shall be deemed to be incurred by a Restricted Subsidiary of Spectrum Brands as of such date and, if such Indebtedness, Investments or Liens are not permitted to be incurred as of such date under the Indenture, Spectrum Brands shall be in default under the Indenture.

The Board of Directors of Spectrum Brands may at any time designate any Unrestricted Subsidiary to be a Restricted Subsidiary; provided that:

(1) such designation shall be deemed to be an incurrence of Indebtedness by a Restricted Subsidiary of Spectrum Brands of any outstanding Indebtedness of such Unrestricted Subsidiary and such designation shall

Table of Contents

only be permitted if such Indebtedness is permitted under the covenant described under the caption **Certain Covenants Incurrence of Indebtedness and Issuance of Preferred Stock**, calculated on a pro forma basis as if such designation had occurred at the beginning of the four-quarter reference period;

(2) all outstanding Investments owned by such Unrestricted Subsidiary will be deemed to be made as of the time of such designation and such Investments shall only be permitted if such Investments would be permitted under the covenant described above under the caption **Certain Covenants Restricted Payments** ;

(3) all Liens upon property or assets of such Unrestricted Subsidiary existing at the time of such designation would be permitted under the caption **Certain Covenants Liens** ; and

(4) no Default or Event of Default would be in existence following such designation.

Guarantees

If Spectrum Brands or any of its Restricted Subsidiaries acquires or creates another Domestic Subsidiary on or after the Issue Date, then that newly acquired or created Domestic Subsidiary must promptly become a Guarantor and execute a supplemental indenture and deliver an opinion of counsel to the Trustee.

A Guarantor may not sell or otherwise dispose of all or substantially all of its assets to, or consolidate with or merge with or into (whether or not such Guarantor is the surviving Person), another Person, other than Spectrum Brands or another Guarantor unless:

(1) immediately after giving effect to that transaction, no Default or Event of Default exists; and

(2) either:

(a) the Person acquiring the property in any such sale or disposition or the Person formed by or surviving any such consolidation or merger (if other than the Guarantor) is a Person organized or existing under the laws of the United States, any state thereof or the District of Columbia and assumes all the obligations of that Guarantor under the Indenture, Note Guarantee and the Registration Rights Agreement pursuant to a supplemental indenture satisfactory to the Trustee; or

(b) except in the case of Holdings, such sale or other disposition or consolidation or merger complies with the covenant described above under the caption **Repurchase at the Option of Holders Asset Sales**.

The Note Guarantee of a Guarantor (other than Holdings) will be released:

(1) in connection with any sale or other disposition of all of the Capital Stock of a Guarantor to a Person that is not (either before or after giving effect to such transaction) Spectrum Brands or a Restricted Subsidiary, if the sale of all such Capital Stock of that Guarantor does not violate the covenant described above under the caption **Repurchase at the Option of Holders Asset Sales** ;

(2) if Spectrum Brands designates such Guarantor as an Unrestricted Subsidiary in accordance with the provisions of the Indenture;

(3) upon legal or covenant defeasance of the Notes or satisfaction and discharge of the Indenture as provided below under the captions **Legal Defeasance and Covenant Defeasance** and **Satisfaction and Discharge** or;

(4) upon a sale of Capital Stock which causes such Guarantor to cease to be a Subsidiary if such sale does not violate any of the provisions of the Indenture; provided that such Guarantor is concurrently released from any other Guarantees of Indebtedness of Spectrum Brands or any of its Restricted Subsidiaries at such time.

Reports

So long as any Notes are outstanding, Spectrum Brands will file with the U.S. Securities and Exchange Commission (Commission) and furnish to the Trustee and, upon request, to the Holders:

- (1) within 90 days after the end of each fiscal year, an annual report on Form 10-K;
- (2) within 45 days after the end of each of the first three fiscal quarters of each fiscal year, a quarterly report on Form 10-Q; and
- (3) promptly from time to time after the occurrence of an event required to be therein reported pursuant to Form 8-K, a current report on Form 8-K.

If Spectrum Brands is no longer subject to the periodic reporting requirements of the Exchange Act for any reason, Spectrum Brands will nevertheless continue filing the reports specified in the preceding paragraphs of this covenant with the Commission within the time periods specified above unless the Commission will not accept such a filing. If the Commission will not accept Spectrum Brands' filings for any reason, Spectrum Brands will furnish the reports referred to in the preceding paragraphs to the Trustee within the time periods that would apply if Spectrum Brands were required to file those reports with the Commission. Spectrum Brands will not take any action for the purpose of causing the Commission not to accept any such filings. Any information filed with, or furnished to, the Commission via EDGAR shall be deemed to have been made available to the Trustee and the registered holders of the Notes.

Notwithstanding the foregoing, (A) if Holdings or any other direct or indirect parent of Spectrum Brands fully and unconditionally guarantees the Notes, the filing of such reports by such parent within the time periods specified above will satisfy such obligations of Spectrum Brands; provided that such reports shall include the information required by Rule 3-10 of Regulation S-X with respect to Spectrum Brands and the Guarantors and (B) if neither Spectrum Brands nor Holdings is subject to Section 13 or 15(d) of the Exchange Act, the financial statements, information and other documents required to be provided as described above, may be those of (i) Spectrum Brands or (ii) any direct or indirect parent of Spectrum Brands, so long as in the case of (ii) such direct or indirect parent of Spectrum Brands shall not conduct, transact or otherwise engage, or commit to conduct, transact or otherwise engage, in any business or operations other than its direct or indirect ownership of all of the Equity Interests in, and its management of Spectrum Brands; provided that, if the financial information so furnished relates to such direct or indirect parent of Spectrum Brands, the same is accompanied by a reasonably detailed description of the quantitative differences between the information relating to such parent, on the one hand, and the information relating to the Spectrum Brands and its Restricted Subsidiaries on a standalone basis, on the other hand.

Spectrum Brands shall distribute such information and such reports to the Trustee, and make them available, upon request, to any Holder and to any such prospective investor or securities analyst. To the extent not satisfied by the foregoing, Spectrum Brands shall also make publicly available the information required to be available pursuant to Rule 144A(d)(4) under the Securities Act.

Activities of Holdings

Holdings shall not engage in any material activities or hold any material assets other than holding the Capital Stock of Spectrum Brands and those activities incidental thereto and will not incur any material liabilities other than liabilities relating to its Guarantee of the Notes, its Guarantee of any other Indebtedness of Spectrum Brands or any of its Subsidiaries and any other obligations or liabilities incidental to its activities as a holding company.

Events of Default and Remedies

Each of the following is an Event of Default:

- (1) default for 30 days in the payment when due of interest on the Notes;

Table of Contents

(2) default in payment when due (whether at maturity, upon acceleration, redemption or otherwise) of the principal of, or premium, if any, on the Notes;

(3) failure by Spectrum Brands or any of its Restricted Subsidiaries to comply with the provisions described under the captions Repurchase at the Option of Holders Change of Control, Repurchase at the Option of Holders Asset Sales or Certain Covenants Merger, Consolidation or Sale of Assets or the provisions described in the second paragraph under the caption Certain Covenants Guarantees ;

(4) failure by Spectrum Brands or any of its Restricted Subsidiaries for 60 days after written notice by the Trustee or Holders representing 25% or more of the aggregate principal amount of outstanding Notes to comply with any of the other agreements in the Indenture;

(5) default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by Spectrum Brands or any of its Restricted Subsidiaries (or the payment of which is Guaranteed by Spectrum Brands or any of its Restricted Subsidiaries) whether such Indebtedness or Guarantee now exists, or is created after the Issue Date, if that default:

(a) is caused by a failure to make any payment of principal at the final maturity of such Indebtedness (a Payment Default);

(b) results in the acceleration of such Indebtedness prior to its express maturity,

and, in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a Payment Default or the maturity of which has been so accelerated, aggregates \$75.0 million or more;

(6) failure by Spectrum Brands or any of its Restricted Subsidiaries to pay final judgments (to the extent such judgments are not paid or covered by insurance provided by a carrier that has acknowledged coverage in writing and has the ability to perform) aggregating in excess of \$75.0 million, which judgments are not paid, discharged or stayed for a period of 60 days;

(7) except as permitted by the Indenture, any Note Guarantee shall be held in any judicial proceeding to be unenforceable or invalid or shall cease for any reason to be in full force and effect or any Guarantor, or any authorized Person acting on behalf of any Guarantor, shall deny or disaffirm its obligations under its Note Guarantee; and

(8) certain events of bankruptcy or insolvency with respect to Spectrum Brands, any Significant Subsidiary of Spectrum Brands (or any Restricted Subsidiaries that together would constitute a Significant Subsidiary).

In the case of an Event of Default arising from certain events of bankruptcy or insolvency, with respect to Spectrum Brands, all outstanding Notes will become due and payable immediately without further action or notice. If any other Event of Default occurs and is continuing, the Trustee or the Holders of at least 25% in principal amount of the then outstanding Notes may declare all the Notes to be due and payable immediately by notice in writing to Spectrum Brands specifying the Event of Default.

Holder of the Notes may not enforce the Indenture or the Notes except as provided in the Indenture. Subject to certain limitations, Holders of a majority in principal amount of the then outstanding Notes may direct the Trustee in its exercise of any trust or power. The Trustee may withhold from Holders of the Notes notice of any Default or Event of Default (except a Default or Event of Default relating to the payment of principal or interest) if it determines that

withholding notice is in their interest.

The Holders of a majority in aggregate principal amount the Notes then outstanding by notice to the Trustee may on behalf of the Holders of all of the Notes waive any existing Default or Event of Default and its

Table of Contents

consequences under the Indenture except a continuing Default or Event of Default in the payment of interest on, or the principal of, the Notes. The Holders of a majority in principal amount of the Notes then outstanding will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee. However, the Trustee may refuse to follow any direction that conflicts with law or the Indenture, that may involve the Trustee in personal liability, or that the Trustee determines in good faith may be unduly prejudicial to the rights of Holders not joining in the giving of such direction and may take any other action it deems proper that is not inconsistent with any such direction received from Holders.

A Holder may not institute any proceeding, judicial or otherwise, with respect to the Indenture or the Notes, or form the appointment of a recipient or a trustee, or pursue any remedy with respect to the Indenture or the Notes unless:

- (1) the Holder gives the Trustee written notice of a continuing Event of Default;
- (2) the Holders of at least 25% in aggregate principal amount of outstanding Notes make a written request to the Trustee to pursue the remedy;
- (3) such Holder or Holders offer the Trustee indemnity satisfactory to the Trustee against any costs, liability or expense;
- (4) the Trustee does not comply with the request within 60 days after receipt of the request and the offer of indemnity; and
- (5) during such 60-day period, the Holders of a majority in aggregate principal amount of the outstanding Notes do not give the Trustee a direction that is inconsistent with the request.

However, such limitations do not apply to the right of any Holder of a Note to receive payment of the principal of, premium, if any, or interest on, such Note or to bring suit for the enforcement of any such payment, on or after the due date expressed in the Notes, which right shall not be impaired or affected without the consent of the Holder.

Spectrum Brands is required to deliver to the Trustee annually within 120 days after the end of each fiscal year a statement regarding compliance with the Indenture. Upon becoming aware of any Default or Event of Default, Spectrum Brands is required to deliver to the Trustee a statement specifying such Default or Event of Default.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, incorporator, stockholder or controlling person of Spectrum Brands or any Guarantor, as such, shall have any liability for any obligations of Spectrum Brands or the Guarantors under the Notes, the Indenture, the Note Guarantees, or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder of Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes.

Satisfaction and Discharge

The Indenture will be discharged and will cease to be of further effect as to all Notes issued thereunder, when:

- (1) either:

(a) all Notes that have been authenticated (except lost, stolen or destroyed Notes that have been replaced or paid and Notes for whose payment money has theretofore been deposited in trust and thereafter repaid to Spectrum Brands) have been delivered to the Trustee for cancellation; or

Table of Contents

(b) all Notes that have not been delivered to the Trustee for cancellation have become due and payable by reason of the making of a notice of redemption or otherwise or will become due and payable within one year and Spectrum Brands or any Guarantor has irrevocably deposited or caused to be deposited with the Trustee as trust funds in trust solely for the benefit of the Holders, cash in U.S. dollars, non-callable Government Securities, or a combination thereof, in such amounts, as determined by Spectrum Brands, as will be sufficient without consideration of any reinvestment of interest, to pay and discharge the entire Indebtedness on the Notes not delivered to the Trustee for cancellation for principal, premium, if any, and accrued interest to the date of maturity or redemption;

(2) no Default or Event of Default shall have occurred and be continuing on the date of such deposit or shall occur as a result of such deposit (other than from the borrowing of funds to be applied to such deposit) and such deposit will not result in a breach or violation of, or constitute a default under, any other instrument (other than the Indenture) to which Spectrum Brands or any Guarantor is a party or by which Spectrum Brands or any Guarantor is bound;

(3) Spectrum Brands or any Guarantor has paid or caused to be paid all sums payable by it under the Indenture; and

(4) Spectrum Brands has delivered irrevocable instructions to the Trustee under the Indenture to apply the deposited money toward the payment of the Notes at maturity or the redemption date, as the case may be.

In the case of satisfaction and discharge, upon any redemption that requires the payment of the Applicable Premium, the amount deposited with the trustee shall be sufficient for purposes of clause (1) above and the Indenture to the extent that an amount is deposited with the trustee equal to the Applicable Premium calculated as of the date of such deposit, with any deficit as of the date of redemption (any such amount, the Applicable Premium Deficit) only required to be deposited with the trustee on or prior to the date of redemption. Any Applicable Premium Deficit shall be set forth in an officer's certificate delivered to the trustee simultaneously with the deposit of such Applicable Premium Deficit that confirms that such Applicable Premium Deficit shall be applied toward such redemption.

In addition, Spectrum Brands must deliver an officer's certificate and an opinion of counsel to the Trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

Legal Defeasance and Covenant Defeasance

Spectrum Brands may, at its option and at any time, elect to have all of its obligations discharged with respect to the outstanding Notes (Legal Defeasance) except for:

(1) the rights of Holders of outstanding Notes to receive payments in respect of the principal of, or interest or premium, if any, on such Notes when such payments are due from the trust referred to below;

(2) Spectrum Brands' obligations with respect to the Notes concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust;

(3) the rights, powers, trusts, duties and immunities of the Trustee, and Spectrum Brands' and the Guarantor's obligations in connection therewith; and

(4) the Legal Defeasance provisions of the Indenture.

In addition, Spectrum Brands may, at its option and at any time, elect to have the obligations of Spectrum Brands and the Guarantors released with respect to most covenants that are described in the Indenture

Table of Contents

(Covenant Defeasance) and thereafter any omission to comply with those covenants shall not constitute a Default or Event of Default with respect to the Notes. In the event Covenant Defeasance occurs, certain events (not including non-payment, bankruptcy, receivership, rehabilitation and insolvency events) described under Events of Default and Remedies will no longer constitute Events of Default with respect the Notes.

In order to exercise either Legal Defeasance or Covenant Defeasance:

(1) Spectrum Brands must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders of the Notes, cash in U.S. dollars, non-callable Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants (or, if two or more nationally recognized firms of independent public accountants decline to issue such opinion as a matter of policy, in the opinion of Spectrum Brands chief financial officer) to pay the principal of, or interest and premium, if any, on the outstanding Notes on the stated maturity or on the applicable redemption date, as the case may be, and Spectrum Brands must specify whether the Notes are being defeased to maturity or to a particular redemption date;

(2) in the case of Legal Defeasance, Spectrum Brands shall have delivered to the Trustee an opinion of counsel reasonably acceptable to the Trustee confirming that (a) Spectrum Brands has received from, or there has been published by, the Internal Revenue Service a ruling or (b) since the Issue Date, there has been a change in the applicable federal income tax law, in either case to the effect that, and based thereon such opinion of counsel shall confirm that, the Holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Legal Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

(3) in the case of Covenant Defeasance, Spectrum Brands shall have delivered to the Trustee an opinion of counsel reasonably acceptable to the Trustee confirming that the Holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Covenant Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) no Default or Event of Default shall have occurred and be continuing on the date of such deposit other than a Default resulting from the borrowing of funds to be applied to such deposit;

(5) such Legal Defeasance or Covenant Defeasance will not result in a breach or violation of, or constitute a default under any material agreement or instrument to which Spectrum Brands or any of its Subsidiaries is a party or by which Spectrum Brands or any of its Subsidiaries is bound;

(6) Spectrum Brands must deliver to the Trustee an officer's certificate stating that the deposit was not made by Spectrum Brands with the intent of preferring the Holders of Notes over the other creditors of Spectrum Brands with the intent of defeating, hindering, delaying or defrauding creditors of Spectrum Brands or others;

(7) if the Notes are to be redeemed prior to their stated maturity, Spectrum Brands must deliver to the Trustee irrevocable instructions to redeem all of the Notes on the specified redemption date; and

(8) Spectrum Brands must deliver to the Trustee an officer's certificate and an opinion of counsel, each stating that all conditions precedent relating to the Legal Defeasance or the Covenant Defeasance have been complied with.

In the case of defeasance, upon any redemption that requires the payment of the Applicable Premium, the amount deposited with the trustee shall be sufficient for purposes of clause (1) above and the Indenture to the extent that an

amount is deposited with the trustee equal to the Applicable Premium calculated as of the date of

such deposit, with the Applicable Premium Deficit only required to be deposited with the trustee on or prior to the date of redemption. Any Applicable Premium Deficit shall be set forth in an officer's certificate delivered to the trustee simultaneously with the deposit of such Applicable Premium Deficit that confirms that such Applicable Premium Deficit shall be applied toward such redemption.

In the case of legal or covenant defeasance, all Guarantees and Liens will be released.

Amendment, Supplement and Waiver

Except as provided in the next succeeding paragraphs, the Indenture, the Notes or the Guarantees may be amended or supplemented with the consent of the Holders of at least a majority in aggregate principal amount of the Notes then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes), and any existing Default or Event of Default or compliance with any provision of the Indenture, the Notes or the Guarantees may be waived with the consent of the Holders of a majority in aggregate principal amount of the then outstanding Notes (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes).

Without the consent of each Holder of Notes affected, an amendment, supplement or waiver may not (with respect to any Notes held by a non-consenting Holder):

- (1) reduce the principal amount of the Notes whose Holders must consent to an amendment, supplement or waiver;
- (2) reduce the principal of or change the fixed maturity of any Note or alter the provisions, or waive any payment, with respect to the redemption of the Notes (other than the notice period with respect to the redemption of the Notes);
- (3) reduce the rate of or change the time for payment of interest on any Note;
- (4) waive a Default or Event of Default in the payment of principal of, or interest or premium, if any, on the Notes (except a rescission of acceleration of the Notes by the Holders of at least a majority in aggregate principal amount of the then outstanding Notes and a waiver of the payment default that resulted from such acceleration);
- (5) make any Note payable in money other than U.S. dollars;
- (6) make any change in the provisions of the Indenture relating to waivers of past Defaults or the rights of Holders of Notes to receive payments of principal of, or interest or premium, if any, on the Notes;
- (7) release any Guarantor from any of its obligations under its Note Guarantee or the Indenture, except in accordance with the terms of the Indenture;
- (8) impair the right to institute suit for the enforcement of any payment on or with respect to the Notes or the Note Guarantees;
- (9) amend, change or modify the obligation of Spectrum Brands to make and consummate an Asset Sale Offer with respect to any Asset Sale in accordance with the Repurchase at the Option of Holders Asset Sales covenant after the obligation to make such Asset Sale Offer has arisen, or the obligation of Spectrum Brands to make and consummate a Change of Control Offer in the event of a Change of Control in accordance with the Repurchase at the Option of Holders Change of Control covenant after such Change of Control has occurred, including, in each case, amending, changing or modifying any definition relating thereto;

(10) except as otherwise permitted under the Merger, Consolidation and Sale of Assets covenant, consent to the assignment or transfer by Spectrum Brands of any of its rights or obligations under the Indenture; or

Table of Contents

(11) make any change in the preceding amendment and waiver provisions.

Notwithstanding the preceding, without the consent of any Holder of the Notes, Spectrum Brands, the Guarantors and the Trustee may amend or supplement the Indenture, the Notes or the Guarantees:

(1) to cure any ambiguity, defect or inconsistency;

(2) to provide for uncertificated Notes in addition or in place of certificated Notes;

(3) to provide for the assumption of Spectrum Brands or any Guarantor's obligations to Holders of Notes in the case of a merger or consolidation or sale of all or substantially all of Spectrum Brands or such Guarantor's assets;

(4) to make any change that would provide any additional rights or benefits to the Holders of Notes or that does not adversely affect the legal rights under the Indenture of any such Holder;

(5) to comply with requirements of the Commission in order to effect or maintain the qualification of the Indenture under the Trust Indenture Act;

(6) to comply with the provision described under Certain Covenants Guarantees ;

(7) to evidence and provide for the acceptance of appointment by a successor Trustee;

(8) to provide for the issuance of Additional Notes in accordance with the Indenture; or

Concerning the Trustee

If the Trustee becomes a creditor of Spectrum Brands or any Guarantor, the Indenture limits its right to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest it must eliminate such conflict within 90 days, apply to the Commission for permission to continue or resign.

The Indenture provides that in case an Event of Default shall occur and be continuing, the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in the conduct of such person's own affairs. Subject to such provisions, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any Holder of the Notes, unless such Holder shall have offered to the Trustee security and indemnity satisfactory to it against any loss, liability or expense.

Depository Trust Company Procedures

For your convenience, we are providing you with a description of the operations and procedures of DTC, the Euroclear System (Euroclear) and Clearstream Banking, S.A. (Clearstream). These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. We are not responsible for these operations and procedures and urge you to contact the system or its participants directly to discuss these matters.

DTC has advised us that it is a limited-purpose trust company created to hold securities for its participating organizations and to facilitate the clearance and settlement of transactions in those securities between its participants through electronic book entry changes in the accounts of these participants. These direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. Access to DTC's system is also indirectly available to other entities that clear through, or maintain, a direct or indirect, custodial relationship with a direct participant. DTC may hold securities beneficially owned by other persons only through its participants and the ownership interests and transfers of ownership interests of these other persons will be recorded only on the records of the participants and not on the records of DTC.

DTC has also advised us that, in accordance with its procedures, upon deposit of the global notes, it will credit the accounts of the direct participants with an interest in the global notes, and it will maintain records of the ownership interests of these direct participants in the global notes, and the transfer of ownership interests by and between direct participants.

DTC will not maintain records of the ownership interests of, or the transfer of ownership interests by and between, indirect participants or other owners of beneficial interests in the global notes. Both direct and indirect participants must maintain their own records of ownership interests of, and the transfer of ownership interests by and between, indirect participants and other owners of beneficial interests in the global notes.

Investors in the global notes may hold their interests in the notes directly through DTC if they are direct participants in DTC or indirectly through organizations that are direct participants in DTC. Investors in the global notes may also hold their interests in the notes through Euroclear and Clearstream if they are direct participants in those systems, or indirectly through organizations that are participants in those systems. Euroclear and Clearstream will hold omnibus positions in the global notes on behalf of the Euroclear participants and the Clearstream participants, respectively, through customers' securities accounts in Euroclear's and Clearstream's names on the books of their respective depositories, which are Morgan Guaranty Trust Company of New York, Brussels office, as operator of Euroclear, and Citibank, N.A. and The Chase Manhattan Bank, N.A., as operators of Clearstream. These depositories, in turn, will hold these positions in their names on the books of DTC. All interests in a global note, including those held through Euroclear or Clearstream, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream may also be subject to the procedures and requirements of those systems.

The laws of some states require that some persons take physical delivery in definitive certificated form of the securities that they own. This may limit or curtail the ability to transfer beneficial interests in a global note to these

persons. Because DTC can act only on behalf of direct participants, which in turn act on behalf of indirect participants and others, the ability of a person having a beneficial interest in a global note to pledge its interest to persons or entities that are not direct participants in DTC or to otherwise take actions in respect of its interest, may be affected by the lack of physical certificates evidencing the interests.

Table of Contents

Except as described below, owners of interests in the global notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form, and will not be considered the registered owners or holders of these notes under the indentures for any purpose.

Payments with respect to the principal of, and interest on, any notes represented by a global note registered in the name of DTC or its nominee on the applicable record date will be payable by the trustee to or at the direction of DTC or its nominee in its capacity as the registered holder of the global note representing these notes under the indentures. Under the terms of the indentures, we and the trustee will treat the person in whose names the notes are registered, including notes represented by global notes, as the owners of the notes for the purpose of receiving payments, and for any and all other purposes whatsoever. Payments in respect of the principal and interest on global notes registered in the name of DTC or its nominee will be payable by the trustee to DTC or its nominee as the registered holder under the indentures. Consequently, neither we, the trustee nor any of our agents, nor the trustee's agents, has or will have any responsibility or liability for:

- (1) any aspect of DTC's records or any direct or indirect participant's records relating to, or payments made on account of, beneficial ownership interests in the global notes or for maintaining, supervising or reviewing any of DTC's records or any direct or indirect participant's records relating to the beneficial ownership interests in any global note, or

- (2) any other matter relating to the actions and practices of DTC or any of its direct or indirect participants. DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the notes, including principal and interest, is to credit the accounts of the relevant participants with the payment on the payment date, in amounts proportionate to their respective holdings in the principal amount of beneficial interest in the security as shown on its records, unless it has reasons to believe that it will not receive payment on the payment date. Payments by the direct and indirect participants to the beneficial owners of interests in the global note will be governed by standing instructions and customary practice, and will be the responsibility of the direct or indirect participants, and will not be the responsibility of DTC, the trustee or us.

Neither we nor the trustee will be liable for any delay by DTC or any direct or indirect participant in identifying the beneficial owners of the notes and we and the trustee may conclusively rely on, and will be protected in relying on, instructions from DTC or its nominee for all purposes, including with respect to the registration and delivery, and the respective principal amounts, of the notes.

Transfers between participants in DTC will be effected in accordance with DTC procedures, and will be settled in same day funds, and transfers between participants in Euroclear and Clearstream will be effected in accordance with their respective rules and operating procedures.

Cross-market transfers between the participants in DTC, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depository; however, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant global note in DTC, and making or receiving payment in accordance with normal procedures

for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream.

DTC advised us that it will take any action permitted to be taken by a holder of notes only at the direction of one or more participants to whose account DTC has credited the interests in the global notes and only in respect of the portion of the aggregate principal amount of the notes as to which the participant or participants has or

Table of Contents

have given that direction. However, if there is an event of default with respect to the notes, DTC reserves the right to exchange the global notes for legended notes in certificated form and to distribute them to its participants.

Although DTC, Euroclear and Clearstream have agreed to these procedures to facilitate transfers of interests in the global notes among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform these procedures and may discontinue them at any time. Neither we, the trustee, nor any of our or the trustee's respective agents will have any responsibility for the performance by DTC, Euroclear or Clearstream or their direct or indirect participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Book-Entry Notes for Certificated Notes

A global note will be exchangeable for definitive notes in registered certificated form if:

- (1) DTC has notified us that it is unwilling or unable to continue as Depositary for a Global Note and a successor depositary is not appointed by us within 90 days of the notice; or
- (2) an event of default under the applicable indenture for the notes has occurred and is continuing and the trustee has received a request from DTC.

In all cases, certificated notes delivered in exchange for any global note or beneficial interests in a global note will be registered in the name, and issued in any approved denominations, requested by or on behalf of DTC, in accordance with its customary procedures.

Exchange of Certificated Notes for Book-Entry Notes

Initial notes issued in certificated form may be exchanged for beneficial interests in the applicable global note.

Same Day Settlement

We expect that the interests in the global notes will be eligible to trade in DTC's Same-Day Funds Settlement System. As a result, secondary market trading activity in these interests will settle in immediately available funds, subject in all cases to the rules and procedures of DTC and its participants. We expect that secondary trading in any certificated notes will also be settled in immediately available funds.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a global note from a participant in DTC will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. DTC has advised us that cash received in Euroclear or Clearstream as a result of sales of interests in a global note by or through a Euroclear or Clearstream participant to a participant in DTC will be received with value on the settlement date of DTC, but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

Payment

The indentures require that payments in respect of the notes represented by global notes, including principal and interest, be made by wire transfer of immediately available funds to the accounts specified by the holder of the global notes. With respect to notes in certificated form, we will make all payments of principal and interest on the notes at our office or agency maintained for that purpose within the city and state of New York. This office will initially be the office of the Paying Agent maintained for that purpose. At our option however, we may make these installments of interest by:

- (1) check mailed to the holders of notes at their respective addresses provided in the register of holder of notes;
or
- (2) transfer to an account maintained by the payee.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

Subject to the limitations and qualifications set forth herein (including Exhibit 8.1 hereto), this discussion, insofar as it expresses conclusions as to the application of United States federal income tax law, is the opinion of Paul, Weiss, Rifkind, Wharton & Garrison LLP, our U.S. federal income tax counsel. The following is a discussion of certain material U.S. federal income tax considerations relevant to the exchange of initial notes for exchange notes pursuant to the exchange offer and the ownership and disposition of exchange notes acquired by United States Holders and non-United States Holders (each as defined below and collectively referred to as **Holders**) pursuant to the exchange offer. This discussion does not purport to be a complete analysis of all potential tax effects. The discussion is based on the Code, U.S. Treasury regulations issued thereunder (**Treasury Regulations**), rulings and pronouncements of the Internal Revenue Service (the **IRS**) and judicial decisions in effect or in existence as of the date of this prospectus, all of which are subject to change at any time or to different interpretations. Any such change may be applied retroactively in a manner that could adversely affect a Holder and the continued validity of this summary. This discussion does not address all of the U.S. federal income tax considerations that may be relevant to a Holder in light of such Holder's particular circumstances (for example, United States Holders subject to the alternative minimum tax provisions of the Code) or to Holders subject to special rules, such as certain financial institutions, U.S. expatriates, partnerships or other pass-through entities, insurance companies, regulated investment companies, real estate investment trusts, dealers in securities or currencies, traders in securities, Holders whose functional currency is not the U.S. dollar, tax-exempt organizations and persons holding the initial notes or exchange notes (collectively referred to as **notes**) as part of a straddle, hedge or conversion transaction within the meaning of Section 1258 of the Code or other integrated transaction within the meaning of Treasury Regulations Section 1.1275-6. Moreover, the effect of any applicable state, local or foreign tax laws, or U.S. federal gift and estate tax law is not discussed. The discussion deals only with notes held as **capital assets** within the meaning of Section 1221 of the Code.

We have not sought and will not seek any rulings from the IRS with respect to the matters discussed below. There can be no assurance that the IRS will not take a different position concerning the tax consequences of the exchange of initial notes for exchange notes pursuant to the exchange offer and ownership or disposition of the exchange notes acquired by Holders pursuant to the exchange offer or that any such position would not be sustained.

If an entity taxable as a partnership for U.S. federal income tax purposes holds the notes, the U.S. federal income tax treatment of a partner (or other owner) will depend on the status of the partner (or other owner) and the activities of the entity. Such partner (or other owner) is urged to consult its tax advisor as to the tax consequences of the entity's purchasing, owning and disposing of the notes.

Prospective investors are urged to consult their own tax advisors with regard to the application of the tax consequences discussed below to their particular situations as well as the application of any state, local, foreign or other tax laws, including gift and estate tax laws.

United States Holders

This section applies to **United States Holders**. A **United States Holder** is a beneficial owner of notes that is:

a citizen or resident alien of the United States as determined for U.S. federal income tax purposes,

Edgar Filing: National Openings, LLC - Form S-4

a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia,

an estate the income of which is subject to U.S. federal income tax regardless of its source, or

a trust (i) if a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have authority to control all substantial decisions of the trust, or (ii) that has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person for U.S. federal income tax purposes.

Table of Contents**Exchange Offer**

Exchanging an initial note for an exchange note will not be treated as a taxable exchange for U.S. federal income tax purposes. Consequently, United States Holders will not recognize gain or loss upon receipt of an exchange note. The holding period for an exchange note will include the holding period for the initial note and the initial basis in an exchange note will be the same as the adjusted basis in the initial note.

Payments upon Change of Control or Other Circumstances

In certain circumstances we may be obligated to pay amounts in excess of stated interest or principal on the exchange notes, or to pay the full principal amount of some or all of the exchange notes before their stated maturity date. These features of the exchange notes may implicate the provisions of the Treasury Regulations governing contingent payment debt instruments. A debt instrument is not subject to these provisions, however, if, at the date of its issuance, there is only a remote chance that contingencies affecting the instrument's yield to maturity will occur. We believe that the likelihood that we will be obligated to make such payments in amounts or at times that affect the exchange notes yield to maturity is remote, and we do not intend to treat the exchange notes as contingent payment debt instruments. Our determination that the contingencies giving rise to such payments are remote is binding on a United States Holder unless such United States Holder discloses its contrary position in the manner required by applicable Treasury Regulations. Our determination is not, however, binding on the IRS, and if the IRS were to challenge this determination, a United States Holder might be required to accrue income on its exchange notes in excess of stated interest and to treat as ordinary income rather than as capital gain any income realized on the taxable disposition of an exchange note before the resolution of the contingencies. The remainder of this summary assumes that the exchange notes will not be subject to the Treasury Regulations governing contingent payment debt instruments.

Interest

Qualified stated interest (QSI) on the exchange notes will be taxable to a United States Holder as ordinary income at the time it is received or accrued, in accordance with such United States Holder's method of tax accounting. We expect the regular interest payments made on the exchange notes to be treated as QSI. An interest payment on a debt instrument is QSI if it is one of a series of stated interest payments on a debt instrument that are unconditionally payable at least annually at a single fixed rate, applied to the outstanding principal amount of the debt instrument.

Market Discount and Bond Premium

Market Discount. If a United States Holder purchased an initial note (which will be exchanged for an exchange note pursuant to the exchange offer) for an amount that is less than its revised issue price, the amount of the difference should be treated as market discount for U.S. federal income tax purposes. Any market discount applicable to an initial note should carry over to the exchange note received in exchange therefor. The amount of any market discount will be treated as de minimis and disregarded if it is less than one-quarter of one percent of the revised issue price of the initial note, multiplied by the number of complete years to maturity. For this purpose, the revised issue price of an initial note equals the issue price of the initial note. Although the Code does not expressly so provide, the revised issue price of the initial note is decreased by the amount of any payments previously made on the initial note (other than payments of QSI). The rules described below do not apply to a United States Holder if such holder purchased an initial note that has de minimis market discount.

Under the market discount rules, a United States Holder is required to treat any principal payment on, or any gain on the sale, exchange, redemption or other disposition of, an exchange note as ordinary income to the extent of any accrued market discount (on the initial note or the exchange note) that has not previously been included in income. If a

United States Holder disposes of an exchange note in an otherwise nontaxable transaction (other than certain specified nonrecognition transactions), such holder will be required to include any accrued market

Table of Contents

discount as ordinary income as if such holder had sold the exchange note at its then fair market value. In addition, such holder may be required to defer, until the maturity of the exchange note or its earlier disposition in a taxable transaction, the deduction of a portion of the interest expense on any indebtedness incurred or continued to purchase or carry the initial note or the exchange note received in exchange therefor.

Market discount accrues ratably during the period from the date on which such holder acquired the initial note through the maturity date of the exchange note (for which the initial note was exchanged), unless such holder makes an irrevocable election to accrue market discount under a constant yield method. Such holder may elect to include market discount in income currently as it accrues (either ratably or under the constant yield method), in which case the rule described above regarding deferral of interest deductions will not apply. If such holder elects to include market discount in income currently, such holder's adjusted basis in an exchange note will be increased by any market discount included in income. An election to include market discount currently will apply to all market discount obligations acquired during or after the first taxable year in which the election is made, and the election may not be revoked without the consent of the IRS.

Bond Premium. If a United States Holder purchased an initial note (which will be exchanged for an exchange note pursuant to the exchange offer) for an amount in excess of the sum of all amounts payable on the initial note (other than QSI), the excess will be treated as bond premium. Any bond premium applicable to an initial note should carry over to the exchange note received in exchange therefor. A United States Holder may elect to reduce the amount required to be included in income each year with respect to interest on its note by the amount of amortizable bond premium allocable to that year, based on the exchange note's yield to maturity. However, because the exchange notes may be redeemed by us prior to maturity at a premium, special rules apply that may reduce or eliminate the amount of premium that a U.S. Holder may amortize with respect to an exchange note. United States Holders are urged to consult their tax advisors about these special rules. If a United States Holder makes the election to amortize bond premium, it will apply to all debt instruments (other than debt instruments the interest on which is excludible from gross income) that the United States Holder holds at the beginning of the first taxable year to which the election applies or thereafter acquires, and the election may not be revoked without the consent of the IRS.

Sale or Other Taxable Disposition of the Exchange Notes

A United States Holder will recognize gain or loss on the sale, exchange, redemption, retirement or other taxable disposition of an exchange note equal to the difference, if any, between the amount realized upon the disposition (less any portion allocable to any accrued and unpaid interest, which will be taxable as ordinary income to the extent not previously included in such holder's income) and the United States Holder's adjusted tax basis in the exchange note at the time of disposition. United States Holder's adjusted tax basis in an exchange note will be the price such holder paid for the initial note, (i) increased by any OID and market discount previously included in gross income and (ii) reduced (but not below zero) by the amount of any payments (other than QSI) and amortizable bond premium taken into account with respect to the exchange note.

This gain or loss will be a capital gain or loss (except to the extent of accrued interest not previously includible in income or to the extent the market discount rules require the recognition of ordinary income) and will be long-term capital gain or loss if the United States Holder has held the exchange note for more than one year. Otherwise, such gain or loss will be a short-term capital gain or loss. Long-term capital gains of non-corporate United States Holders, including individuals, are currently taxed at lower rates than items of ordinary income. The deductibility of capital losses is subject to limitations.

Medicare Contribution Tax on Unearned Income

Edgar Filing: National Openings, LLC - Form S-4

Certain United States Holders that are individuals, estates or trusts and whose income exceeds certain thresholds generally will be required to pay an additional 3.8% tax on all or a portion of their net investment income, which includes, among other things, interest income and capital gains attributable to the sale or other

Table of Contents

disposition of the notes, subject to certain limitations and exceptions. United States Holders are urged to consult their own tax advisors regarding the application of this additional tax.

Information Reporting and Backup Withholding

Information reporting requirements will apply to United States Holders that are not exempt recipients, such as corporations, with respect to certain payments of interest on the exchange notes and the proceeds of disposition (including a retirement or redemption of an exchange note). In addition, a United States Holder other than certain exempt recipients may be subject to backup withholding on the receipt of certain payments on the exchange notes if such holder:

fails to provide a correct taxpayer identification number (TIN), which for an individual is ordinarily his or her social security number,

is notified by the IRS that it is subject to backup withholding,

fails to certify, under penalties of perjury, that it has furnished a correct TIN and that the IRS has not notified the United States Holder that it is subject to backup withholding, or

otherwise fails to comply with applicable requirements of the backup withholding rules.

United States Holders are urged to consult their own tax advisors regarding their qualification for an exemption from backup withholding and the procedures for obtaining such an exemption, if applicable. Backup withholding is not an additional tax and taxpayers may use amounts withheld as a credit against their U.S. federal income tax liability or may claim a refund as long as they timely provide certain information to the IRS.

Non-United States Holders

This section applies to non-United States Holders. A non-United States Holder is a beneficial owner of notes that is not a United States Holder and that is an individual, corporation (or other entity taxable as a corporation for U.S. federal income tax purposes), estate or trust.

Exchange Offer

Non-United States Holders should not recognize gain or loss upon receipt of an exchange note in exchange for an initial note pursuant to the exchange offer.

Interest Payments

Subject to the discussion below concerning effectively connected income and backup withholding, interest paid to a non-United States Holder on an exchange note will not be subject to U.S. federal income tax or withholding tax, provided that such non-United States Holder meets the following requirements:

Edgar Filing: National Openings, LLC - Form S-4

Such holder does not own, actually or constructively, for U.S. federal income tax purposes, stock constituting 10% or more of the total combined voting power of all classes of our stock entitled to vote.

Such holder is not, for U.S. federal income tax purposes, a controlled foreign corporation related, directly or indirectly, to us through equity ownership.

Such holder is not a bank receiving interest on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business.

Such holder provides a properly completed IRS Form W-8BEN (or W-8BEN-E) certifying its non-U.S. status.

The gross amount of payments of interest that do not qualify for the exception from withholding described above will be subject to U.S. withholding tax at a rate of 30%, unless (i) such holder provides a properly

Table of Contents

completed IRS Form W-8BEN (or W-8BEN-E) claiming an exemption from or reduction in withholding under an applicable tax treaty, or (ii) such interest is effectively connected with such holder's conduct of a U.S. trade or business and such holder provides a properly completed IRS Form W-8ECI.

Sale or Other Taxable Disposition of the Exchange Notes

Subject to the discussion below concerning backup withholding, a non-United States Holder will not be subject to U.S. federal income tax or withholding tax on any gain recognized on the sale, exchange, redemption, retirement or other disposition of an exchange note unless:

such holder is an individual present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are met, in which case such holder will be subject to a 30% tax (or a lower applicable treaty rate) with respect to such gain (offset by certain U.S. source capital losses), or

such gain is effectively connected with such holder's conduct of a trade or business in the United States, in which case such holder will be subject to tax as described below under Effectively Connected Income.

Any amounts in respect of accrued interest recognized on the sale or exchange of an exchange note will not be subject to U.S. federal withholding tax, unless the sale or exchange is part of a plan the principal purpose of which is to avoid tax and the withholding agent has actual knowledge or reason to know of such plan.

Effectively Connected Income

If interest or gain from a disposition of the exchange notes is effectively connected with a non-United States Holder's conduct of a U.S. trade or business, such holder will be subject to U.S. federal income tax on the interest or gain on a net income basis in the same manner as if such holder were a United States Holder, unless an applicable income tax treaty provides otherwise. The interest or gain in respect of the exchange notes would be exempt from U.S. withholding tax if such holder claims the exemption by providing a properly completed IRS Form W-8ECI. In addition, if such holder is a foreign corporation, such holder may also be subject to a branch profits tax on its effectively connected earnings and profits for the taxable year, subject to certain adjustments, at a rate of 30% unless reduced or eliminated by an applicable tax treaty.

Information Reporting and Backup Withholding

Unless certain exceptions apply, we or another withholding agent must report to the IRS and to a non-United States Holder any payments to such holder in respect of interest during the taxable year. Under current U.S. federal income tax law, backup withholding tax will not apply to payments of interest by us or our paying agent on an exchange note to a non-United States Holder, if such holder provides us with a properly completed IRS Form W-8BEN (or W-8BEN-E), provided that we or our paying agent, as the case may be, do not have actual knowledge or reason to know that such holder is a U.S. person.

Payments pursuant to the sale, exchange or other disposition of exchange notes, made to or through a foreign office of a foreign broker, other than payments in respect of interest, will not be subject to information reporting and backup withholding; provided that information reporting may apply if the foreign broker has certain connections to the United States, unless the beneficial owner of the exchange note certifies, under penalties of perjury, that it is not a U.S. person, or otherwise establishes an exemption. Payments made to or through a foreign office of a U.S. broker will not

be subject to backup withholding, but are subject to information reporting unless the beneficial owner of the exchange note certifies, under penalties of perjury, that it is not a U.S. person, or otherwise establishes an exemption. Payments to or through a U.S. office of a broker, however, are subject to information reporting and backup withholding, unless the beneficial owner of the exchange notes certifies, under penalties of perjury, that it is not a U.S. person, or otherwise establishes an exemption.

Table of Contents

Backup withholding is not an additional tax; any amounts withheld from a payment to a non-United States Holder under the backup withholding rules will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle such holder to a refund, provided that the required information is timely furnished to the IRS. Non-United States Holders should consult their own tax advisors regarding application of withholding and backup withholding in their particular circumstance and the availability of and procedure for obtaining an exemption from withholding and backup withholding under current Treasury Regulations.

FATCA

Pursuant to Sections 1471 through 1474 of the Code, applicable Treasury Regulations, other official guidance and intergovernmental agreements entered into in respect of the foregoing, (together, commonly referred to as "FATCA"), foreign financial institutions (which include most non-U.S. hedge funds, private equity funds, mutual funds, securitization vehicles and any other investment vehicles) and certain other non-U.S. entities must comply with information reporting rules with respect to their U.S. account holders and investors or confront a withholding tax on U.S.-source payments made to them (whether received as a beneficial owner or as an intermediary for another party). More specifically, a foreign financial institution or other non-U.S. entity that does not comply with the FATCA reporting requirements will generally be subject to a 30% withholding tax with respect to any withholdable payments. For this purpose, withholdable payments generally will include interest on the notes) and the gross proceeds from the sale or other disposition of the notes. In the case of any such gross proceeds, the withholding requirements will apply only to dispositions occurring after December 31, 2016. The FATCA withholding tax will apply even if the payment would otherwise not be subject to U.S. nonresident withholding tax (e.g., because it is portfolio interest). Non-U.S. Holders are urged to consult their tax advisors regarding the effect, if any, of the FATCA provisions on them based on their particular circumstances.

PLAN OF DISTRIBUTION

Each broker-dealer that receives exchange notes for its own account, pursuant to the exchange offer, must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of exchange notes received in exchange for initial notes where such initial notes were acquired as a result of market-making activities or other trading activities. We have agreed that, for a period of 180 days after the expiration date, we will make this prospectus, as amended or supplemented, available to any broker-dealer for use in connection with any such resale. In addition, until _____, _____, all dealers effecting transactions in the exchange notes may be required to deliver a prospectus.

We will not receive any proceeds from any sale of exchange notes by broker-dealers. Exchange notes received by broker-dealers for their own account, pursuant to the exchange offer, may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the exchange notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer or the purchasers of any such exchange notes. Any broker-dealer that resells exchange notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of such exchange notes may be deemed to be an underwriter within the meaning of the Securities Act and any profit on any such resale of exchange notes and any commission or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that, by acknowledging that it will deliver, and by delivering, a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

For a period of 180 days after the expiration date, we will promptly send additional copies of this prospectus, and any amendment or supplement to this prospectus, to any broker-dealer that requests such documents in the letter of transmittal. We have agreed to pay all expenses incident to the exchange offer (including the expenses of one counsel for the holders of the notes) other than commissions or concessions of any brokers or dealers and will indemnify the holders of the notes (including any broker-dealers) against certain liabilities, including liabilities under the Securities Act.

We have audited the accompanying consolidated statements of financial position of SB/RH Holdings, LLC and subsidiaries (the Company) as of September 30, 2014 and 2013, and the related consolidated statements of operations, comprehensive income (loss), shareholders' equity, and cash flows for each of the years in the three-year period ended September 30, 2014. In connection with our audits of the consolidated financial statements, we have also audited the financial statement schedule II. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of SB/RH Holdings, LLC and subsidiaries as of September 30, 2014 and 2013, and the results of their operations and their cash flows for each of the years in the three-year period ended September 30, 2014, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

(2) SIGNIFICANT ACCOUNTING POLICIES AND PRACTICES

(a) Principles of Consolidation and Fiscal Year End

The consolidated financial statements include the financial statements of Spectrum Brands and its majority owned subsidiaries and have been prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP). All intercompany transactions have been eliminated. The Company s fiscal year ends September 30. References herein to Fiscal 2014, Fiscal 2013 and Fiscal 2012 refer to the fiscal years ended September 30, 2014, 2013 and 2012, respectively.

Table of Contents*(b) Revenue Recognition*

The Company recognizes revenue from product sales generally upon delivery to the customer, or at the shipping point in situations where the customer picks up the product or where delivery terms so stipulate. This represents the point at which title and all risks and rewards of ownership of the product are passed, provided that: there are no uncertainties regarding customer acceptance, there is persuasive evidence that an arrangement exists, the price to the buyer is fixed or determinable and ability to collect is deemed reasonably assured. The Company is generally not obligated to allow for, and its general policy is not to accept, product returns for battery sales. The Company does accept returns in specific instances related to its shaving, grooming, personal care, home and garden, small appliances, hardware and home improvement and pet products. The provision for customer returns is based on historical sales and returns and other relevant information. The Company estimates and accrues the cost of returns, which are treated as a reduction of Net sales.

The Company enters into various promotional arrangements, primarily with retail customers, including arrangements entitling such retailers to cash rebates from the Company based on the level of their purchases, which require the Company to estimate and accrue the estimated costs of the promotional programs. These costs are treated as a reduction of Net sales.

The Company also enters into promotional arrangements that target the ultimate consumer. The costs associated with such arrangements are treated as either a reduction in Net sales or an increase in Cost of goods sold, based on the type of promotional program. The income statement presentation of the Company's promotional arrangements complies with Accounting Standards Codification (ASC) Topic 605: Revenue Recognition. For all types of promotional arrangements and programs, the Company monitors its commitments and uses various measures, including past experience, to determine amounts to be recorded for the estimate of the earned, but unpaid, promotional costs. The terms of the Company's customer-related promotional arrangements and programs are tailored to each customer and are documented through written contracts, correspondence or other communications with the individual customers.

The Company also enters into various arrangements, primarily with retail customers, which require the Company to make upfront cash, or slotting payments, in order to secure the right to distribute through such customers. The Company capitalizes slotting payments provided the payments are supported by a time or volume based arrangement with the retailer, and amortizes the associated payment over the appropriate time or volume-based term of the arrangement. The amortization of slotting payments is treated as a reduction in Net sales and a corresponding asset is reported in Deferred charges and other in the accompanying Consolidated Statements of Financial Position.

(c) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(d) Cash Equivalents

For purposes of the accompanying Consolidated Statements of Financial Position and Consolidated Statements of Cash Flows, the Company considers all highly liquid debt instruments purchased with original maturities of three months or less to be cash equivalents.

(e) Concentrations of Credit Risk and Major Customers

Trade receivables subject the Company to credit risk. Trade accounts receivable are carried at net realizable value. The Company extends credit to its customers based upon an evaluation of the customer's financial

F-9

Table of Contents

condition and credit history, but generally does not require collateral. The Company monitors its customers' credit and financial condition based on changing economic conditions and will make adjustments to credit policies as required. Provisions for losses on uncollectible trade receivables are determined based on ongoing evaluations of the Company's receivables, principally on the basis of historical collection experience and evaluations of the risks of nonpayment for a given customer.

The Company has a broad range of customers including many large retail outlet chains, one of which accounts for a significant percentage of its sales volume. This major customer represented approximately 16%, 18% and 23% of the Company's Net sales during Fiscal 2014, Fiscal 2013 and Fiscal 2012, respectively. This major customer also represented approximately 14% and 11% of the Company's Trade accounts receivable, net as of September 30, 2014 and September 30, 2013, respectively.

Approximately 40%, 41% and 46% of the Company's Net sales during Fiscal 2014, Fiscal 2013 and Fiscal 2012, respectively, occurred outside of the United States. These sales and related receivables are subject to varying degrees of credit, currency and political and economic risk. The Company monitors these risks and makes appropriate provisions for ability to collect based on an assessment of the risks present.

(f) Displays and Fixtures

Temporary displays are generally disposable cardboard displays shipped to customers to facilitate display of the Company's products. Temporary displays are generally disposed of after a single use by the customer.

Permanent fixtures are more lasting in nature, are generally made from wire or other longer-lived materials, and are shipped to customers for use in displaying the Company's products. These permanent fixtures are restocked with the Company's product multiple times over the fixture's useful life.

The costs of both temporary and permanent displays are capitalized as a prepaid asset until shipped to the customer and are included in Prepaid expenses and other in the accompanying Consolidated Statements of Financial Position. The costs of temporary displays are expensed in the period in which they are shipped to customers and the costs of permanent fixtures are amortized over an estimated useful life of one to two years from the date they are shipped to customers. The unamortized cost of permanent fixtures is reflected in Deferred charges and other in the accompanying Consolidated Statements of Financial Position.

(g) Inventories

The Company's inventories are valued at the lower of cost or net realizable value. Cost of inventories is determined using the first-in, first-out (FIFO) method.

(h) Property, Plant and Equipment

Property, plant and equipment are recorded at cost or at fair value if acquired in a purchase business combination. Depreciation on plant and equipment is calculated on the straight-line method over the estimated useful lives of the assets. Depreciable lives by major classification are as follows:

Building and improvements	20 - 40 years
Machinery, equipment and other	2 - 15 years

Edgar Filing: National Openings, LLC - Form S-4

Plant and equipment held under capital leases are amortized on a straight-line basis over the shorter of the lease term or estimated useful life of the asset; such amortization is included in depreciation expense.

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company evaluates recoverability of

F-10

Table of Contents

assets to be held and used by comparing the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

(i) Intangible Assets

Intangible assets are recorded at cost or at fair value if acquired in a purchase business combination. Customer lists, proprietary technology and certain trade name intangibles are amortized, using the straight-line method, over their estimated useful lives of up to 20 years. The excess of the fair value of the consideration transferred in a business combination over the fair value of net assets acquired (goodwill) and indefinite-lived intangible assets (certain trade name intangibles) are not amortized. Goodwill is tested for impairment at least annually at the reporting unit level, with such groupings being consistent with the Company's reportable segments. If impairment is indicated, a write-down to fair value (normally measured by discounting estimated future cash flows) is recorded. Indefinite-lived trade name intangibles are tested for impairment at least annually by comparing the fair value, determined using a relief from royalty methodology, with the carrying value. Any excess of carrying value over fair value is recognized as an impairment loss in income from operations.

ASC Topic 350: Intangibles-Goodwill and Other, (ASC 350) requires that goodwill and indefinite-lived intangible assets be tested for impairment annually, or more often if an event or circumstance indicates that an impairment loss may have been incurred. The Company's management uses its judgment in assessing whether assets may have become impaired between annual impairment tests. Indicators such as unexpected adverse business conditions, economic factors, unanticipated technological change or competitive activities, loss of key personnel and acts by governments and courts may signal that an asset has become impaired.

During Fiscal 2014, Fiscal 2013 and Fiscal 2012, the Company's goodwill and trade name intangibles were tested for impairment as of the Company's August financial period end, the Company's annual testing date.

Intangibles with Indefinite Lives

In accordance with ASC 350, the Company conducts impairment testing on the Company's goodwill. To determine fair value during Fiscal 2014, Fiscal 2013 and Fiscal 2012, the Company used the discounted estimated future cash flows methodology. Assumptions critical to the Company's fair value estimates under the discounted estimated future cash flows methodology are: (i) the present value factors used in determining the fair value of the reporting units and trade names, (ii) projected average revenue growth rates used in estimating future cash flows for the reporting unit, and (iii) projected long-term growth rates used in the derivation of terminal year values. These and other assumptions are impacted by economic conditions and expectations of management and will change in the future based on period specific facts and circumstances. The Company also tested the aggregate estimated fair value of its reporting units for reasonableness by comparison to the total market capitalization of the Company, which includes both its equity and debt securities.

In addition, in accordance with ASC 350, as part of the Company's annual impairment testing, the Company tested its indefinite-lived trade name intangible assets for impairment by comparing the carrying amount of such trade names to their respective fair values. Fair value was determined using a relief from royalty methodology. Assumptions critical to the Company's fair value estimates under the relief from royalty methodology are: (i) royalty rates, (ii) projected average revenue growth rates, and (iii) applicable discount rates.

Edgar Filing: National Openings, LLC - Form S-4

In connection with the Company's annual goodwill impairment testing performed during Fiscal 2014, Fiscal 2013 and Fiscal 2012, the first step of such testing indicated that the fair value of the Company's reporting segments were in excess of their carrying amounts and, accordingly, no further testing of goodwill was required.

During Fiscal 2014, Fiscal 2013 and Fiscal 2012, the Company concluded that the fair value of its intangible assets exceeded their carrying value.

F-11

Table of Contents*Intangibles with Definite or Estimable Useful Lives*

The Company assesses the recoverability of intangible assets with definite or estimable useful lives whenever an event or circumstance occurs that indicates an impairment loss may have been incurred. The Company assesses the recoverability of these intangible assets by determining whether their carrying value can be recovered through projected undiscounted future cash flows. If projected undiscounted future cash flows indicate that the carrying value of the assets will not be recovered, an adjustment would be made to reduce the carrying value to an amount equal to estimated fair value determined based on projected future cash flows discounted at the Company's incremental borrowing rate. The cash flow projections used in estimating fair value are based on historical performance and management's estimate of future performance, giving consideration to existing and anticipated competitive and economic conditions.

Impairment reviews are conducted at the judgment of management when it believes that a change in circumstances in the business or external factors warrants a review. Circumstances such as the discontinuation of a product or product line, a sudden or consistent decline in the sales forecast for a product, changes in technology or in the way an asset is being used, a history of operating or cash flow losses, or an adverse change in legal factors or in the business climate, among others, may trigger an impairment review.

The fair values of our Global Batteries & Appliances, Hardware & Home Improvement, Global Pet Supplies and the Home and Garden Business exceeded their carrying values by 87%, 47%, 80% and 146%, respectively, as of the date of the Company's latest annual impairment testing.

(j) Debt Issuance Costs

Debt issuance costs are capitalized and amortized to interest expense using the effective interest method over the lives of the related debt agreements.

(k) Accounts Payable

Included in accounts payable are book overdrafts, net of deposits on hand, on disbursement accounts that are replenished when checks are presented for payment.

(l) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in income tax expense in the period in which the change in judgment occurs. Accrued interest expense and penalties related to uncertain tax positions are recorded in Income tax expense.

(m) Foreign Currency Translation

Local currencies are considered the functional currencies for most of the Company's operations outside the United States. Assets and liabilities of the Company's foreign subsidiaries are translated at the rate of exchange

Table of Contents

existing at year-end, with revenues, expenses and cash flows translated at the average of the monthly exchange rates. Adjustments resulting from translation of the financial statements are recorded as a component of Accumulated other comprehensive income (loss) (AOCI). Also included in AOCI are the effects of exchange rate changes on intercompany balances of a long-term nature.

As of September 30, 2014 and September 30, 2013, accumulated (losses) gains related to foreign currency translation adjustments of \$(39,517) and \$(7,050), respectively, were reflected in the accompanying Consolidated Statements of Financial Position in AOCI.

Foreign currency transaction gains and losses related to assets and liabilities that are denominated in a currency other than the functional currency are reported in the Consolidated Statements of Operations in the period they occur. Exchange losses on foreign currency transactions aggregating \$6,775, \$9,388 and \$1,654 for Fiscal 2014, Fiscal 2013 and Fiscal 2012, respectively, are included in Other expense, net, in the accompanying Consolidated Statements of Operations.

(n) Shipping and Handling Costs

The Company incurred shipping and handling costs of \$260,321, \$246,090 and \$198,152 during Fiscal 2014, Fiscal 2013 and Fiscal 2012, respectively. Shipping and handling costs, which are included in Selling expenses in the accompanying Consolidated Statements of Operations, include costs incurred with third-party carriers to transport products to customers and salaries and overhead costs related to activities to prepare the Company's products for shipment at the Company's distribution facilities.

(o) Advertising Costs

The Company incurred advertising costs of \$21,356, \$22,971 and \$20,706 during Fiscal 2014, Fiscal 2013 and Fiscal 2012, respectively. Such advertising costs are included in Selling expenses in the accompanying Consolidated Statements of Operations and include agency fees and other costs to create advertisements, as well as costs paid to third parties to print or broadcast the Company's advertisements.

(p) Research and Development Costs

Research and development costs are charged to expense in the period they are incurred.

(q) Environmental Expenditures

Environmental expenditures that relate to current ongoing operations or to conditions caused by past operations are expensed or capitalized as appropriate. The Company determines its liability for environmental matters on a site-by-site basis and records a liability at the time when it is probable that a liability has been incurred and such liability can be reasonably estimated. The estimated liability is not reduced for possible recoveries from insurance carriers. Estimated environmental remediation expenditures are included in the determination of the net realizable value recorded for assets held for sale.

(r) Comprehensive Income (Loss)

Comprehensive income (loss) includes foreign currency translation gains and losses on assets and liabilities of foreign subsidiaries, effects of exchange rate changes on intercompany balances of a long-term nature and transactions designated as a hedge of a net investment in a foreign subsidiary, deferred gains and losses on derivative financial

instruments designated as cash flow hedges and amortization of deferred gains and losses associated with the Company's pension plans. The foreign currency translation gains and losses for Fiscal 2014, Fiscal 2013 and Fiscal 2012 were primarily attributable to the impact of translation of the net assets of the Company's European and Latin American operations, which primarily have functional currencies in Euros, Pounds Sterling, Mexican Pesos and Brazilian Reals.

(t) Restructuring and Related Charges

Restructuring charges are recognized and measured in accordance with the provisions of ASC Topic 420: *Exit or Disposal Cost Obligations*, (ASC 420) and ASC Topic 712: *Compensation - Nonretirement Post-Employment Benefits*, (ASC 712). Under ASC 420 and ASC 712, restructuring charges include, but are not limited to, termination and related costs consisting primarily of one-time termination benefits such as severance costs and retention bonuses, and contract termination costs consisting primarily of lease termination costs. Related charges, as defined by the Company, include, but are not limited to, other costs directly associated with exit and integration activities, including impairment of property and other assets, departmental costs of full-time incremental integration employees, and any other items related to the exit or integration activities. Costs for such activities are estimated by management after

evaluating detailed analyses of the costs to be incurred. The Company presents restructuring and related charges on a combined basis.

Liabilities from restructuring and related charges are recorded for estimated costs of facility closures, significant organizational adjustments and measures undertaken by management to exit certain activities. Costs for such activities are estimated by management after evaluating detailed analyses of the costs to be incurred. Such liabilities could include amounts for items such as severance costs and related benefits (including settlements of pension plans), impairment of property and equipment and other current or long term assets, lease termination payments and any other items directly related to the exit activities. While the actions are carried out as expeditiously as possible, restructuring and related charges are estimates. Changes in estimates resulting in an increase to or a reversal of a previously recorded liability may be required as management executes a restructuring plan.

Table of Contents

The Company reports restructuring and related charges associated with manufacturing and related initiatives in cost of goods sold. Restructuring and related charges reflected in cost of goods sold include, but are not limited to, termination and related costs associated with manufacturing employees, asset impairments relating to manufacturing initiatives and other costs directly related to the restructuring initiatives implemented.

Term Loan

On December 17, 2012, the Company entered into a senior term loan facility, maturing December 17, 2019, which provides for borrowings in an aggregate principal amount of \$800,000, with \$100,000 in Canadian dollar equivalents (the HHI Term Loan) in connection with the acquisition of the residential hardware and home improvement business (the HHI Business). A portion of the HHI Term Loan proceeds were used to refinance the former term loan facility, which was scheduled to mature on June 17, 2016, and had an aggregate amount outstanding of \$370,175 prior to refinancing. In connection with the refinancing, the Company recorded accelerated amortization of portions of the unamortized discount and unamortized Debt issuance costs related to the former term loan facility totaling \$5,485 as an adjustment to Interest expense during Fiscal 2013.

The HHI Term Loan was issued at a 1.0% discount and recorded net of the \$8,000 discount incurred. The discount is reflected as an adjustment to the carrying value of principal, and is being amortized with a corresponding charge to interest expense over the remaining life of the debt. In connection with the issuance of the HHI Term Loan, the Company recorded \$19,328 of fees during Fiscal 2013, of which \$16,907 is classified as Debt issuance costs within the accompanying Consolidated Statements of Financial Position and is being amortized as an adjustment to interest expense over the remaining life of the HHI Term Loan, with the remainder of \$2,421 reflected as an increase to Interest expense during Fiscal 2013.

On September 4, 2013, the Company amended the senior term loan facility, issuing a tranche maturing September 4, 2017, which provides for borrowings in an aggregate principal amount of \$850,000, and a tranche maturing September 4, 2019, which provides borrowings in an aggregate principal amount of \$300,000 (together with the HHI Term Loan, the Term Loan). The proceeds from the amendment were used to extinguish the former 9.5% Notes, which were scheduled to mature on June 15, 2018, and for general corporate purposes. The 9.5% Notes had an outstanding amount of \$950,000 prior to extinguishment.

The tranches related to the amendment of the Term Loan on September 4, 2013, were issued at a .5% discount and recorded net of the \$5,750 discount incurred. The discount is reflected as an adjustment to the carrying value of principal, and is being amortized with a corresponding charge to interest expense over the remaining life of the debt. In connection with the amendment of the Term Loan, the Company recorded \$16,381 of fees during Fiscal 2013 which is classified as Debt issuance costs within the accompanying Consolidated Statements of Financial Position and is being amortized as an adjustment to interest expense over the remaining life of the Term Loan.

On December 18, 2013, the Company amended the Term Loan, issuing two tranches maturing September 4, 2019 which provide for borrowings in aggregate principal amounts of \$215,000 and 225,000. The proceeds from the amendment were used to refinance a portion of the Term Loan (formerly Tranche B) which was scheduled to mature December 17, 2019, in an amount outstanding of \$513,312 prior to refinancing. The \$215,000 additional U.S. dollar denominated portion was combined with the existing Tranche C maturing September 4, 2019. The Company recorded accelerated amortization of portions of the unamortized discount and unamortized Debt issuance costs related to the refinancing of the Term Loan totaling \$9,216 as an adjustment to interest expense during Fiscal 2014.

The additional Tranche C and Euro Term Loan debt were issued at a .125% discount and recorded net of the discount incurred. Of this discount, \$510 is reflected as an adjustment to the carrying value of principal, and is being amortized

with a corresponding charge to interest expense over the remaining life of the debt, and the remainder of \$146 is reflected as an increase to interest expense during Fiscal 2014. In connection with the

refinancing of a portion of the Term Loan, the Company recorded \$7,236 of fees during Fiscal 2014 of which \$5,150 is classified as Debt issuance costs within the accompanying Consolidated Statements of Financial Position and is being amortized as an adjustment to interest expense over the remaining life of the Term Loan, with the remainder of \$2,086 reflected as an increase to interest expense during Fiscal 2014.

The Term Loan contains financial covenants with respect to debt, including, but not limited to, a fixed charge ratio. In addition, the Term Loan contains customary restrictive covenants, including, but not limited to, restrictions on the Company's ability to incur additional indebtedness, create liens, make investments or specified payments, give guarantees, pay dividends, make capital expenditures and merge or acquire or sell assets. Pursuant to a guarantee and collateral agreement, the Company, its domestic subsidiaries and its Canadian subsidiaries have guaranteed their respective obligations under the Term Loan and related loan documents and have pledged substantially all of their respective assets to secure such obligations. The Term Loan also provides for customary events of default, including payment defaults and cross-defaults on other material indebtedness.

6.375% Notes and 6.625% Notes

On December 17, 2012, in connection with the acquisition of the HHI Business, the Company assumed \$520,000 aggregate principal amount of 6.375% Notes at par value, due November 15, 2020 (the 6.375% Notes), and \$570,000 aggregate principal amount of 6.625% Notes at par value, due November 15, 2022 (the 6.625% Notes), previously issued by Spectrum Brands Escrow Corporation. The 6.375% Notes and the 6.625% Notes are unsecured and guaranteed by Spectrum Brands' parent company, SB/RH Holdings, LLC, as well as by existing and future domestic restricted subsidiaries.

The Company may redeem all or a part of the 6.375% Notes and the 6.625% Notes, upon not less than 30 or more than a 60 day notice, at specified redemption prices. Further, the indenture governing the 6.375% Notes and the 6.625% Notes (the 2020/22 Indenture) requires the Company to make an offer, in cash, to repurchase all or a portion of the applicable outstanding notes for a specified redemption price, including a redemption premium, upon the occurrence of a change of control of the Company, as defined in such indenture.

The 2020/22 Indenture contains customary covenants that limit, among other things, the incurrence of additional indebtedness, payment of dividends on or redemption or repurchase of equity interests, the making of certain investments, expansion into unrelated businesses, creation of liens on assets, merger or consolidation with another company, transfer or sale of all or substantially all assets, and transactions with affiliates.

In addition, the 2020/22 Indenture provides for customary events of default, including failure to make required payments, failure to comply with certain agreements or covenants, failure to make payments when due or on acceleration of certain other indebtedness, and certain events of bankruptcy and insolvency. Events of default under the 2020/22 Indenture arising from certain events of bankruptcy or insolvency will automatically cause the acceleration of the amounts due under the 6.375% Notes and the 6.625% Notes. If any other event of default under the 2020/22 Indenture occurs and is continuing, the trustee for the 2020/22 Indenture or the registered holders of at least 25% in the then aggregate outstanding principal amount of the 6.375% Notes, or the 6.625% Notes, may declare the acceleration of the amounts due under those notes.

The Company recorded \$12,906 and \$14,127 of fees in connection with the offering of the 6.375% Notes and the 6.625% Notes, respectively, during Fiscal 2013. The fees are classified as Debt issuance costs within the accompanying Consolidated Statements of Financial Position and are being amortized as an adjustment to interest expense over the respective remaining lives of the 6.375% Notes and the 6.625% Notes.

In connection with the registration of the 6.375% Notes and the 6.625% Notes that were assumed on December 17, 2012 to finance the acquisition of the HHI Business, the Company recorded \$261 of fees during Fiscal 2014. The \$261 was classified as Debt issuance costs within the accompanying Consolidated Statements of Financial Position and is being amortized as an adjustment to interest expense over the remaining life of the 6.375% Notes and the 6.625% Notes.

The Company may redeem all or a part of the 6.75% Notes, upon not less than 30 or more than 60 days notice, at specified redemption prices. Further, the indenture governing the 6.75% Notes (the 2020 Indenture) requires the Company to make an offer, in cash, to repurchase all or a portion of the applicable outstanding notes for a specified redemption price, including a redemption premium, upon the occurrence of a change of control of the Company, as defined in such indenture.

The 2020 Indenture contains customary covenants that limit, among other things, the incurrence of additional indebtedness, payment of dividends on or redemption or repurchase of equity interests, the making of certain investments, expansion into unrelated businesses, creation of liens on assets, merger or consolidation with another company, transfer or sale of all or substantially all assets, and transactions with affiliates.

In addition, the 2020 Indenture provides for customary events of default, including failure to make required payments, failure to comply with certain agreements or covenants, failure to make payments when due or on acceleration of certain other indebtedness, and certain events of bankruptcy and insolvency. Events of default under the 2020 Indenture arising from certain events of bankruptcy or insolvency will automatically cause the acceleration of the amounts due under the 6.75% Notes. If any other event of default under the 2020 Indenture occurs and is continuing, the trustee for the 2020 Indenture or the registered holders of at least 25% in the then aggregate outstanding principal amount of the 6.75% Notes may declare the acceleration of the amounts due under those notes.

Table of Contents**(7) DERIVATIVE FINANCIAL INSTRUMENTS**

Derivative financial instruments are used by the Company principally in the management of its interest rate, foreign currency exchange rate and raw material price exposures. The Company does not hold or issue derivative financial instruments for trading purposes. Derivative instruments are reported at fair value in the Consolidated Statements of Financial Position. When hedge accounting is elected at inception, the Company formally designates the financial instrument as a hedge of a specific underlying exposure and documents both the risk management objectives and strategies for undertaking the hedge. The Company formally assesses both at the inception and at least quarterly thereafter, whether the financial instruments that are used in hedging transactions are effective at offsetting changes in the forecasted cash flows of the related underlying exposure. Because of the high degree of effectiveness between the hedging instrument and the underlying exposure being hedged, fluctuations in the value of the derivative instruments are generally offset by changes in the forecasted cash flows of the underlying exposures being hedged. Any ineffective portion of a financial instrument's change in fair value is recognized in earnings. For derivatives that are not designated as cash flow hedges, or do not qualify for hedge accounting treatment, the change in the fair value is also recognized in earnings.

Derivative Financial Instruments*Cash Flow Hedges*

The Company uses interest rate swaps to manage its interest rate risk. The swaps are designated as cash flow hedges with the changes in fair value recorded in AOCI and as a derivative hedge asset or liability, as applicable. The swaps settle periodically in arrears with the related amounts for the current settlement period payable to, or receivable from, the counter-parties included in accrued liabilities or receivables, respectively, and recognized in earnings as an adjustment to Interest expense from the underlying debt to which the swap is designated. At September 30, 2014, the Company had a series of U.S. dollar denominated interest rate swaps outstanding which effectively fix the interest on floating rate debt, exclusive of lender spreads, at 1.36% for a notional principal amount of \$300,000 through April 2017. At September 30, 2013, the Company did not have any interest rate swaps outstanding. The derivative net loss on these contracts recorded in AOCI by the Company at September 30, 2014 was \$704, net of tax benefit of \$0. At September 30, 2014, the portion of derivative net losses estimated to be reclassified from AOCI into earnings by the Company over the next 12 months is \$1,335, net of tax.

The Company's interest rate swap derivative financial instruments at September 30, 2014 and September 30, 2013 are summarized as follows:

	2014	2013
	Notional Amount	Notional Amount
Interest rate swaps fixed	\$ 300,000	2.5 \$

The Company periodically enters into forward foreign exchange contracts to hedge the risk from forecasted foreign currency denominated third party and intercompany sales or payments. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Euros, Pounds Sterling, Australian Dollars, Brazilian Reals, Mexican Pesos, Canadian Dollars or Japanese Yen. These foreign exchange contracts are cash flow hedges of fluctuating foreign exchange rates related to sales of product or raw material purchases. Until the sale or purchase is recognized, the fair value of the related hedge is recorded in AOCI and as a derivative hedge asset or liability, as applicable. At the time the sale or purchase is recognized, the fair value of the related hedge is reclassified as an adjustment to Net sales or purchase price variance in Cost of goods sold.

Edgar Filing: National Openings, LLC - Form S-4

At September 30, 2014, the Company had a series of foreign exchange derivative contracts outstanding through September 2015 with a contract value of \$226,694. At September 30, 2013 the Company had a series of foreign exchange derivative contracts outstanding through September 2014 with a contract value of \$255,909. The derivative net gain on these contracts recorded in AOCI at September 30, 2014 was \$8,908, net of tax

expense of \$3,413. The derivative loss on these contracts recorded in AOCI at September 30, 2013 was \$2,287, net of tax benefit of \$637. At September 30, 2014, the portion of derivative net losses estimated to be reclassified from AOCI into earnings over the next 12 months is \$8,658, net of tax.

The Company is exposed to risk from fluctuating prices for raw materials, specifically zinc and brass used in its manufacturing processes. The Company hedges a portion of the risk associated with the purchase of these materials through the use of commodity swaps. The hedge contracts are designated as cash flow hedges with the fair value changes recorded in AOCI and as a hedge asset or liability, as applicable. The unrecognized changes in fair value of the hedge contracts are reclassified from AOCI into earnings when the hedged purchase of raw materials also affects earnings. The swaps effectively fix the floating price on a specified quantity of raw materials through a specified date. At September 30, 2014, the Company had a series of zinc swap contracts outstanding through September 2015 for 8 tons with a contract value of \$17,376. To hedge brass exposures, at September 30, 2014, the Company had a series of zinc and copper swap contracts outstanding through June 2015 for 1 ton with a contract value of \$2,835. At September 30, 2013 the Company had a series of zinc swap contracts outstanding through December 2014 for 8 tons with a contract value of \$16,235. The derivative net gain on these contracts recorded in AOCI at September 30, 2014 was \$1,007, net of tax expense of \$127. The derivative net loss on these contracts recorded in AOCI at September 30, 2013 was \$4, net of tax benefit of \$32. At September 30, 2014, the portion of derivative net gain estimated to be reclassified from AOCI into earnings over the next 12 months is \$1,007, net of tax.

Derivative Contracts Not Designated As Hedge Accounting

The Company periodically enters into forward and swap foreign exchange contracts to economically hedge the risk from third party and intercompany payments resulting from existing obligations. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Canadian Dollars, Euros or Australian Dollars. These foreign exchange contracts are economic hedges of a related liability or asset recorded in the accompanying Consolidated Statements of Financial Position. The gain or loss on the derivative hedge contracts is recorded in earnings as an offset to the change in value of the related liability or asset at each period end. At September 30, 2014 and September 30, 2013, the Company had \$108,855 and \$108,480, respectively, of notional value for such foreign exchange derivative contracts outstanding.

The Company periodically enters into commodity swap contracts to economically hedge the risk from fluctuating prices for raw materials, specifically the pass-through of market prices for silver used in manufacturing purchased watch batteries. The Company hedges a portion of the risk associated with these materials through the use of commodity swaps. The swap contracts are designated as economic hedges with the unrealized gain or loss recorded in earnings and as an asset or liability at each period end. The unrecognized changes in fair value of the hedge contracts are adjusted through earnings when the realized gains or losses affect earnings upon settlement of the hedges. The swaps effectively fix the floating price on a specified quantity of silver through a specified date. At September 30, 2014, the Company had a series of such swap contracts outstanding through September 2015 for 25 troy ounces with a contract value of \$445. At September 30, 2013, the Company had a series of such swap contracts outstanding through May 2014 for 45 troy ounces with a contract value of \$980.

Changes in AOCI from Derivative Instruments

For derivative instruments that are designated and qualify as cash flow hedges, the gain or loss on the effective portion of the derivative is reported as a component of Accumulated Other Comprehensive Income (AOCI) and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on derivatives representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings.

For derivative instruments that are used to economically hedge the fair value of the Company's third party and intercompany foreign currency payments, commodity purchases and interest rate payments, the gain (loss) associated with the derivative contract is recognized in earnings in the period of change. During Fiscal 2014, Fiscal 2013 and Fiscal 2012, the Company recognized the following gains (losses) on these derivative contracts:

Credit Risk

The Company is exposed to the risk of default by the counterparties with which it transacts and generally does not require collateral or other security to support financial instruments subject to credit risk. The Company monitors counterparty credit risk on an individual basis by periodically assessing each such counterparty's credit rating

exposure. The maximum loss due to credit risk equals the fair value of the gross asset derivatives that are concentrated with certain domestic and foreign financial institution counterparties. The Company considers these exposures when measuring its credit reserve on its derivative assets, which was \$48 and \$5 at September 30, 2014 and September 30, 2013, respectively.

The Company's standard contracts do not contain credit risk related contingent features whereby the Company would be required to post additional cash collateral as a result of a credit event. However, the Company is typically required to post collateral in the normal course of business to offset its liability positions. At September 30, 2014 and September 30, 2013, the Company had posted cash collateral of \$0 and \$450, respectively, related to such liability positions. In addition, at September 30, 2014 and September 30, 2013, the Company had no posted standby letters of credit related to such liability positions. The cash collateral is included in Current Assets - Receivables-Other within the accompanying Consolidated Statements of Financial Position.

Table of Contents**(8) FAIR VALUE OF FINANCIAL INSTRUMENTS**

ASC Topic 820: Fair Value Measurements and Disclosures (ASC 820), establishes a framework for measuring fair value and expands related disclosures. Broadly, the ASC 820 framework requires fair value to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. ASC 820 establishes market or observable inputs as the preferred source of values, followed by assumptions based on hypothetical transactions in the absence of market inputs. The Company utilizes valuation techniques that attempt to maximize the use of observable inputs and minimize the use of unobservable inputs. The determination of the fair values considers various factors, including closing exchange or over-the-counter market pricing quotations, time value and credit quality factors underlying options and contracts. The fair value of certain derivative financial instruments is estimated using pricing models based on contracts with similar terms and risks. Modeling techniques assume market correlation and volatility, such as using prices of one delivery point to calculate the price of the contract's different delivery point. The nominal value of interest rate transactions is discounted using applicable forward interest rate curves. In addition, by applying a credit reserve which is calculated based on credit default swaps or published default probabilities for the actual and potential asset value, the fair value of the Company's derivative financial instrument assets reflects the risk that the counterparties to these contracts may default on the obligations. Likewise, by assessing the requirements of a reserve for non-performance which is calculated based on the probability of default by the Company, the Company adjusts its derivative contract liabilities to reflect the price at which a potential market participant would be willing to assume the Company's liabilities. The Company has not changed its valuation techniques in measuring the fair value of any financial assets and liabilities during the year.

The valuation techniques required by ASC 820 are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions made by the Company. These two types of inputs create the following fair value hierarchy:

Level 1 Unadjusted quoted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 Significant inputs to the valuation model are unobservable.

The Company maintains policies and procedures to value instruments using the best and most relevant data available. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls must be determined based on the lowest level input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability. In addition, the Company has risk management teams that review valuation, including independent price validation for certain instruments. Further, in other instances, the Company retains independent pricing vendors to assist in valuing certain instruments.

The Company's derivatives are valued on a recurring basis using internal models, which are based on market observable inputs including interest rate curves and both forward and spot prices for currencies and commodities.

The carrying values of cash and cash equivalents, accounts and notes receivable, accounts payable and short term debt approximate fair value based on the short-term nature of these assets and liabilities. The fair values of long-term publicly traded debt are based on unadjusted quoted market prices (Level 1) and derivative financial instruments are generally based on quoted or observed market prices (Level 2).

The carrying values of goodwill, intangible assets and other long-lived assets are tested annually, or more frequently if an event occurs that indicates an impairment loss may have been incurred, using fair value measurements with unobservable inputs (Level 3).

In Fiscal 2012, the Company began recording residual U.S. and foreign taxes on undistributed foreign earnings as a result of its change in position regarding future repatriation and the requirements of ASC Topic 740: Income Taxes on a prospective basis. To the extent necessary, the Company intends to utilize earnings of foreign subsidiaries in order to support management's plans to voluntarily accelerate pay down of U.S. debt, fund distributions to shareholders, fund U.S. acquisitions and satisfy ongoing U.S. operational cash flow requirements. As a result, current and certain prior period earnings of the Company's non-U.S. subsidiaries are generally not considered to be permanently reinvested, except in jurisdictions where repatriation is either precluded or restricted by law. The Company annually estimates the available earnings, permanent reinvestment classification and the availability of and management's intent to use alternative mechanisms for repatriation for each jurisdiction in which the Company does business. Accordingly, the Company is providing residual U.S. and foreign deferred taxes on these earnings to the extent they cannot be repatriated in a tax-free manner. As of September 30, 2014, the Company has provided residual taxes on approximately \$190,497 of Fiscal 2014 distributions of foreign earnings, and \$3,059 of earnings not yet taxed in the U.S. resulting in a Fiscal 2014 increase in tax expense, net of a corresponding adjustment to the Company's domestic valuation allowance, of approximately \$74. As of September 30, 2013, the Company had recorded residual U.S. and foreign taxes on approximately \$12,506 of Fiscal 2013 distributions and \$45,735 of earnings not yet taxed in the U.S., resulting in a Fiscal 2013 increase in tax expense, net of a corresponding adjustment to the Company's domestic valuation allowance, of approximately \$109. As of September 30, 2012, the Company recorded residual U.S. and foreign taxes on approximately \$21,163 of Fiscal 2012 distributions of foreign earnings and \$76,574 of earnings not yet taxed in the U.S. resulting in a Fiscal 2012 increase in tax expense, net of a corresponding adjustment to the Company's domestic valuation allowance, of approximately \$3,278. During Fiscal 2014, \$178,716 of the distributions related to one time internal restructuring and external debt refinancing activities. Due to the U.S. valuation allowance, these activities did not result in a Fiscal 2014 tax increase. Fiscal 2013 and 2012 distributions were primarily non-cash deemed distributions under U.S. tax law.

Remaining undistributed earnings of the Company's foreign operations are approximately \$351,483 at September 30, 2014, and are intended to remain permanently invested. Accordingly, no residual income taxes have been provided on those earnings at September 30, 2014. If at some future date these earnings cease to be permanently invested, the Company may be subject to U.S. income taxes and foreign withholding and other taxes on such amounts, which cannot be reasonably estimated at this time.

As of September 30, 2014, the Company has U.S. federal net operating loss carryforwards (NOLs) of approximately \$1,083,932 with a federal tax benefit of \$379,376 and tax benefits related to state NOLs of \$70,285. The Company has an additional \$45,539 of federal and state NOLs for which benefits will be recorded to Additional paid-in capital

when these carryforwards are used. These net operating loss carryforwards expire through years ending in 2034. As of September 30, 2014, the Company has foreign NOLs of approximately \$106,496 which will expire beginning in the Company's fiscal year ending September 30, 2015. Certain of the foreign NOLs have indefinite carryforward periods. The Company is subject to an annual limitation on the use of

F-33

Table of Contents

its NOLs that arose prior to its emergence from bankruptcy in the fiscal year ended September 30, 2009. The Company has had multiple changes of ownership, as defined under Section 382 of the Internal Revenue Code of 1986, as amended, that subject the Company's U.S. federal and state NOLs and other tax attributes to certain limitations. The annual limitation is based on a number of factors including the value of the Company's stock (as defined for tax purposes) on the date of the ownership change, its net unrealized gain position on that date, the occurrence of realized gains in years subsequent to the ownership change and the effects of subsequent ownership changes (as defined for tax purposes), if any. Due to these limitations, the Company estimates, as of September 30, 2014, that \$301,749 of the total U.S. federal NOLs with a federal tax benefit of \$105,612 and \$16,812 of the tax benefit related to state NOLs will expire unused even if the Company generates sufficient income to otherwise use all of its NOLs. In addition, separate return year limitations apply to limit the Company's utilization of the acquired Russell Hobbs U.S. federal and state NOLs to future income of the Russell Hobbs subgroup. The Company also projects, as of September 30, 2014, that \$88,769 of foreign NOLs will not be used. The Company has provided a full valuation allowance against these deferred tax assets.

A valuation allowance is recorded when it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of the deferred tax assets depends on the ability of the Company to generate sufficient taxable income of the appropriate character in the future and in the appropriate taxing jurisdictions. As of September 30, 2014 and September 30, 2013, the Company's valuation allowance, established for the tax benefit that may not be realized, totaled approximately \$326,666 and \$448,837, respectively. As of September 30, 2014 and September 30, 2013, approximately \$292,691 and \$415,994, respectively, related to U.S. net deferred tax assets, and approximately \$33,975 and \$32,843, respectively, related to foreign net deferred tax assets. The net decrease in the valuation allowance for deferred tax assets during Fiscal 2014 totaled approximately \$122,171, of which approximately \$123,303 related to a decrease in the valuation allowance against U.S. net deferred tax assets, and approximately \$1,132 related to an increase in the valuation allowance against foreign net deferred tax assets. As a result of the one time internal restructuring and debt refinancing activities, the Company reversed \$62,551 of U.S. valuation allowance during Fiscal 2014. As a result of the purchase of HHI Business, the Company reversed \$49,848 of U.S. valuation allowance during Fiscal 2013. The reversal was attributable to \$49,848 of net deferred tax liabilities recorded on the HHI Business purchase accounting balance sheet which offset other U.S. net deferred tax assets. As a result of the purchase of FURminator, the Company reversed \$14,511 of U.S. valuation allowance during Fiscal 2012. The reversal was attributable to \$14,511 of net deferred tax liabilities recorded on the FURminator purchase accounting balance sheet which offset other U.S. net deferred tax assets.

The total amount of unrecognized tax benefits on the Company's Consolidated Statements of Financial Position at September 30, 2014 and September 30, 2013 are \$11,333 and \$13,807, respectively. If recognized in the future, \$7,991 of the unrecognized tax benefits as of September 30, 2014 will impact the effective tax rate and \$3,342 of unrecognized tax benefits would create deferred tax assets against which the Company would have a full valuation allowance. The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. As of September 30, 2014 and September 30, 2013 the Company had approximately \$3,512 and \$3,671, respectively, of accrued interest and penalties related to uncertain tax positions. The impact related to interest and penalties on the Consolidated Statement of Operations for Fiscal 2014 was a net increase to Income tax expense of \$1,116. The impact related to interest and penalties on the Consolidated Statement of Operations for Fiscal 2013 was a net decrease to Income tax expense of \$8. The impact related to interest and penalties on the Consolidated Statement of Operations for Fiscal 2012 was a net decrease to Income tax expense of \$1,184.

The Company files income tax returns in the U.S. federal jurisdiction and various state, local and foreign jurisdictions and is subject to ongoing examination by the various taxing authorities. The Company's major taxing jurisdictions are the U.S., United Kingdom and Germany. In the U.S., federal tax filings for years prior to and including the Company's fiscal year ended September 30, 2010 are closed. However, the federal NOLs from the Company's fiscal years ended September 30, 2010 and prior are subject to Internal Revenue Service (IRS) examination until the year that such net operating loss carryforwards are utilized and those years are closed for audit. The Company's fiscal years ended September 30, 2011, 2012, 2013 and 2014 remain open to examination by the IRS. Filings in various U.S. state and local jurisdictions are also subject to audit and to date no significant audit matters have arisen.

As of September 30, 2014, certain of the Company's legal entities are undergoing income tax audits. The Company cannot predict the ultimate outcome of the examinations; however, it is reasonably possible that during the next twelve months some portion of previously unrecognized tax benefits could be recognized.

(10) EMPLOYEE BENEFIT PLANS**Pension Benefits**

The Company has various defined benefit pension plans covering some of its employees in the United States and certain employees in other countries, primarily the United Kingdom and Germany. Plans generally provide benefits of

stated amounts for each year of service. The Company funds its U.S. pension plans in accordance with the requirements of the defined benefit pension plans and, where applicable, in amounts sufficient to satisfy the minimum funding requirements of applicable laws. Additionally, in compliance with the Company's funding policy, annual contributions to non-U.S. defined benefit plans are equal to the actuarial recommendations or statutory requirements in the respective countries.

The Company also sponsors or participates in a number of other non-U.S. pension arrangements, including various retirement and termination benefit plans, some of which are covered by local law or coordinated with

Table of Contents

government-sponsored plans, which are not significant in the aggregate and therefore are not included in the information presented below. The Company also has various nonqualified deferred compensation agreements with certain of its employees. Under certain of these agreements, the Company has agreed to pay certain amounts annually for the first 15 years subsequent to retirement or to a designated beneficiary upon death. It is management's intent that life insurance contracts owned by the Company will fund these agreements. Under the remaining agreements, the Company has agreed to pay such deferred amounts in up to 15 annual installments beginning on a date specified by the employee, subsequent to retirement or disability, or to a designated beneficiary upon death.

Other Benefits

Under the Rayovac postretirement plan, the Company provides certain health care and life insurance benefits to eligible retired employees. Participants earn retiree health care benefits after reaching age 40 over the next 10 succeeding years of service, and remain eligible until reaching age 65. The plan is contributory; retiree contributions have been established as a flat dollar amount with contribution rates expected to increase at the active medical trend rate. The plan is unfunded. The Company is amortizing the transition obligation over a 20-year period.

The following tables provide additional information on the Company's pension and other postretirement benefit plans:

Table of Contents***Valuation of Assets and Liabilities***

The assets acquired and liabilities assumed in the Liquid Fence acquisition have been measured at their fair values at January 2, 2014 as set forth below. The excess of the purchase price over the fair values of the net tangible assets and identifiable intangible assets was recorded as goodwill, which includes value associated with the assembled workforce including an experienced research team, and is expected to be deductible for income tax purposes. The fair values recorded were determined based upon a valuation and the estimates and assumptions used in such valuation. The acquisition accounting for Liquid Fence has been finalized.

The fair values recorded for the assets acquired and liabilities assumed for Liquid Fence are as follows:

Cash	\$ 46
Accounts receivable	1,152
Inventories	2,188
Property, plant and equipment, net	59
Intangible assets	26,900
Total assets acquired	\$ 30,345
Total liabilities assumed	1,588
Total identifiable net assets less goodwill	28,757
Goodwill	7,088
Total identifiable net assets	\$ 35,845

Pre-Acquisition Contingencies Assumed

The Company has evaluated and continues to evaluate pre-acquisition contingencies relating to Liquid Fence that existed as of the acquisition date. Based on the evaluation to date, the Company has determined that certain pre-acquisition contingencies are probable in nature and estimable as of the acquisition date. Accordingly, the Company has recorded its best estimates for these contingencies as part of the purchase accounting for Liquid Fence. Further adjustments to pre-acquisition contingency amounts will be reflected in the Company's results of operations.

Valuation Adjustments

The Company performed a valuation of the acquired trade names, proprietary technology assets, customer relationships and a contingent earn-out liability at January 2, 2014. A summary of the significant key inputs is as follows:

The Company valued the technology assets related to formulas and processes using the income approach, specifically the excess earnings method. Under this method, the asset value was determined by estimating the earnings attributable to the technology assets, adjusted for contributory asset charges. In estimating the fair value of the technology, Net sales and associated earnings were forecasted and adjusted for a technical

obsolescence factor to isolate the forecasted sales and earnings attributable to the acquired technology assets. The forecasted technology earnings were discounted to present value to arrive at the concluded fair value. The Company anticipates using the technology asset over a useful life of 17 years which is generally determined by assessing the time period in which substantially all of the discounted cash flows are expected to be generated. The technology asset was valued at approximately \$20,500 under this approach.

The Company valued an indefinite-lived trade name using the income approach, specifically the relief from royalty method. Under this method, the asset value was determined by estimating the hypothetical royalties that would have to be paid if the trade name was not owned. Royalty rates were selected based on consideration of several factors, including prior transactions of Liquid Fence, related trademarks

Table of Contents

and trade names, other similar trademark licensing and transaction agreements and the relative profitability and perceived contribution of the trademarks and trade names. Trade name and trademarks were valued at \$5,100 under this approach.

The Company valued customer relationships using the distributor approach. Under this method, the asset value was determined by estimating the hypothetical earnings before interest and taxes (EBIT) that a comparable distributor would earn, further adjusted for contributory asset charges. In determining the fair value of the customer relationships, the distributor approach values the intangible asset at the present value of the incremental after-tax cash flows. The customer relationships were valued at \$1,300 under this approach and will be amortized over 15 years.

The Company valued a contingent liability related to additional payments that may be made to the selling company. This liability was calculated based on the probability weighted present value of expected payments. This contingent liability is based on the achievement of specific revenue milestones through both January 31, 2015 and January 31, 2016. The contingent liability was valued at \$1,500 under this approach.

2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The condensed consolidated financial statements include the accounts of SB/RH and its subsidiaries and are prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP). All intercompany transactions have been eliminated.

These condensed consolidated financial statements have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) and, in the opinion of the Company, include all adjustments (which are normal and recurring in nature) necessary to present fairly the financial position of the Company at June 28, 2015, the results of operations for the three and nine month periods ended June 28, 2015 and June 29, 2014, the comprehensive income (loss) for the three and nine month periods ended June 28, 2015 and June 29, 2014 and the cash flows for the nine month periods ended June 28, 2015 and June 29, 2014. Certain information and note disclosures normally included in consolidated financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such SEC rules and regulations. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended September 30, 2014.

Use of Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Intangible Assets: Intangible assets are recorded at cost or at fair value if acquired in a purchase business combination. Customer relationships and proprietary technology intangibles are amortized, using the straight-line method, over their estimated useful lives. Excess of cost over fair value of net assets acquired (goodwill) and indefinite lived trade name intangibles are not amortized. GAAP requires that goodwill and indefinite-lived intangible assets be tested for impairment annually or more often if an event or circumstance indicates that an impairment loss may have been incurred. Goodwill is tested for impairment at the reporting unit level, with such groupings being consistent with the Company s reportable segments. If impairment is indicated, a write-down to fair value (normally measured by discounting estimated future cash flows) is recorded. Indefinite lived trade name intangibles are tested for impairment at least annually by comparing the fair value with the carrying value. Any excess of carrying value over fair value is recognized as an impairment loss in income from operations.

The Company s annual impairment testing is completed at the August financial period end. Management uses its judgment in assessing whether assets may have become impaired between annual impairment tests. Indicators such as unexpected adverse business conditions, economic factors, unanticipated technological change or competitive activities, loss of key personnel, and acts by governments and courts may signal that an asset has become impaired.

Shipping and Handling Costs: The Company incurred shipping and handling costs of \$68.3 and \$199.1 for the three and nine month periods ended June 28, 2015, respectively, and \$66.2 and \$194.5 for the three and nine months periods ended June 29, 2014, respectively. These costs are included in Selling expenses in the accompanying

Condensed Consolidated Statements of Operations (Unaudited). Shipping and handling costs include costs incurred with third-party carriers to transport products to customers as well as salaries and overhead costs related to activities to prepare the Company's products for shipment from its distribution facilities.

Concentrations of Credit Risk: Trade receivables subject the Company to credit risk. Trade accounts receivable are carried at net realizable value. The Company extends credit to its customers based upon an evaluation of the customer's financial condition and credit history, and generally does not require collateral. The

Company monitors its customers' credit and financial condition based on changing economic conditions and makes adjustments to credit policies as required. The Company monitors these risks and makes appropriate provisions for ability to collect based on an assessment of the risks present.

Further, the indenture governing the 6.125% Notes (the 2024 Indenture) requires SBI to make an offer, in cash, to repurchase all or a portion of the applicable outstanding notes for a specified redemption price, including a redemption premium, upon the occurrence of a change of control of SBI, as defined in the 2024 Indenture.

The 2024 Indenture contains customary covenants that limit, among other things, the incurrence of additional indebtedness, payment of dividends on or redemption or repurchase of equity interests, the making of certain investments, expansion into unrelated businesses, creation of liens on assets, merger or consolidation with another company, transfer or sale of all or substantially all assets, and transactions with affiliates.

In addition, the 2024 Indenture provides for customary events of default, including failure to make required payments, failure to comply with certain agreements or covenants, failure to make payments when due or on acceleration of certain other indebtedness, and certain events of bankruptcy and insolvency. Events of default under the 2024 Indenture arising from certain events of bankruptcy or insolvency will automatically cause the acceleration of the amounts due under the 6.125% Notes. If any other event of default under the 2024 Indenture occurs and is continuing, the trustee for the 2024 Indenture or the registered holders of at least 25% in the then aggregate outstanding principal amount of the 6.125% Notes, may declare the acceleration of the amounts due under those notes.

7 DERIVATIVE FINANCIAL INSTRUMENTS

Derivative financial instruments are used by the Company principally in the management of its interest rate, foreign currency exchange rate and raw material price exposures. The Company does not hold or issue derivative financial instruments for trading purposes. Derivative instruments are reported at fair value in the Condensed Consolidated Statements of Financial Position (Unaudited). When hedge accounting is elected at inception, the Company formally designates the financial instrument as a hedge of a specific underlying exposure and documents both the risk management objectives and strategies for undertaking the hedge. The Company formally assesses both at the inception of the hedging instrument and at least quarterly thereafter, whether the financial instruments that are used in hedging transactions are effective at offsetting changes in the forecasted cash flows of the related underlying exposure. Because of the high degree of effectiveness between the hedging instrument and the underlying exposure being hedged, fluctuations in the value of the derivative instruments are generally offset by changes in the forecasted cash flows of the underlying exposures being hedged. Any ineffective portion of a financial instrument's change in fair value is recognized in earnings in the period incurred. For derivatives that are not designated as cash flow hedges, or do not qualify for hedge accounting treatment, the change in the fair value is also recognized in earnings in the period incurred.

Derivative Financial Instruments

Cash Flow Hedges

The Company uses interest rate swaps to manage its interest rate risk. The swaps are designated as cash flow hedges with the changes in fair value recorded in Accumulated Other Comprehensive Income (Loss) (AOCI) and as a

derivative hedge asset or liability, as applicable. The swaps settle periodically in arrears with the related amounts for the current settlement period payable to, or receivable from, the counter-parties included in accrued liabilities or receivables, respectively, and recognized in earnings as an adjustment to Interest expense from the underlying debt to which the swap is designated. At both June 28, 2015 and September 30, 2014, the Company had a series of U.S. dollar denominated interest rate swaps outstanding which effectively fix the interest on floating rate debt, exclusive of lender spreads, at 1.36% for a notional principal amount of \$300.0 through April 2017. The derivative net loss on these contracts recorded in AOCI by the Company at June 28, 2015 was \$1.8, net of tax benefit of \$0.0. At June 28, 2015, the portion of derivative net losses estimated to be reclassified from AOCI into earnings by the Company over the next 12 months is \$1.4, net of tax.

The Company's interest rate swap derivative financial instruments at June 28, 2015 and September 30, 2014 are summarized as follows:

	June 28, 2015		September 30, 2014	
	Notional Amount	Remaining Years	Notional Amount	Remaining Years
Interest rate swaps fixed	\$ 300.0	1.8	\$ 300.0	2.5

The Company periodically enters into forward foreign exchange contracts to hedge the risk from forecasted foreign currency denominated third party and intercompany sales or payments. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Euros, Pounds Sterling, Australian Dollars, Brazilian Reals, Mexican Pesos, Canadian Dollars or Japanese Yen. These foreign exchange contracts are cash flow hedges of fluctuating foreign exchange related to sales of product or raw material purchases. Until the sale or purchase is recognized, the fair value of the related hedge is recorded in AOCI and as a derivative hedge asset or liability, as applicable. At the time the sale or purchase is recognized, the fair value of the related hedge is reclassified as an adjustment to Net sales or purchase price variance in Cost of goods sold. At June 28, 2015, the Company had a series of foreign exchange derivative contracts outstanding through September 2016 with a contract value of \$293.8. The derivative net gain on these contracts recorded in AOCI by the Company at June 28, 2015 was \$3.8, net of tax expense of \$1.6. At June 28, 2015, the portion of derivative net gains estimated to be reclassified from AOCI into earnings by the Company over the next 12 months is \$4.2, net of tax.

The Company is exposed to risk from fluctuating prices for raw materials, specifically zinc and brass used in its manufacturing processes. The Company hedges a portion of the risk associated with the purchase of these materials through the use of commodity swaps. The hedge contracts are designated as cash flow hedges with the fair value changes recorded in AOCI and as a hedge asset or liability, as applicable. The unrecognized changes in fair value of the hedge contracts are reclassified from AOCI into earnings when the hedged purchase of raw materials also affects earnings. The swaps effectively fix the floating price on a specified quantity of raw materials through a specified date. At June 28, 2015, the Company had a series of zinc swap contracts outstanding through September 2016 for 7.8 thousand metric tons with a contract value of \$17.0. At June 28, 2015, the Company had a series of brass swap contracts outstanding through March 2017 for 1.7 thousand metric tons with a contract value of \$8.1. The derivative net loss on these contracts recorded in AOCI by the Company at June 28, 2015 was \$1.4, net of tax benefit of \$0.2. At June 28, 2015, the portion of derivative net loss estimated to be reclassified from AOCI into earnings by the Company over the next 12 months is \$1.3, net of tax.

Derivative Contracts Not Designated as Hedges for Accounting Purposes

The Company periodically enters into forward and swap foreign exchange contracts to economically hedge the risk from third party and intercompany payments resulting from existing obligations. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Canadian Dollars, Euros or Australian Dollars. These

foreign exchange contracts are fair value hedges of a related liability or asset recorded in the accompanying Condensed Consolidated Statements of Financial Position (Unaudited). The gain or loss on the derivative hedge contracts is recorded in earnings as an offset to the change in value of the related liability or asset at each period end. At June 28, 2015 and September 30, 2014, the Company had \$139.2 and \$108.9, respectively, of notional value of such foreign exchange derivative contracts outstanding.

The Company periodically enters into commodity swap contracts to economically hedge the risk from fluctuating prices for raw materials, specifically the pass-through of market prices for silver used in manufacturing purchased watch batteries. The Company hedges a portion of the risk associated with these

materials through the use of commodity swaps. The swap contracts are designated as economic hedges with the unrealized gain or loss recorded in earnings and as an asset or liability at each period end. The swaps effectively fix the floating price on a specified quantity of silver through a specified date. At June 28, 2015, the Company had a series of such swap contracts outstanding through September 2015 for 10.0 thousand troy ounces with a contract value of \$0.2. At September 30, 2014, the Company had a series of such swap contracts outstanding through September 30, 2015 for 25.0 thousand troy ounces with a contract value of \$0.4.

Changes in AOCI from Derivative Instruments

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of AOCI and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on derivatives representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. See Note 3, Comprehensive Income (Loss) for further information.
